1788–CF–P–77 Same (new), Edgerton 4.45 miles NNE of Tonsina, Alaska, Lat. 61°42'48" N., Long. 145°07'55" W. C.P. for a new station on frequency 2127.6V MHz toward Cooper Center, Alaska on azimuth 339.6 degrees.

1817–CF–P–77 New Jersey Bell Telephone Company (WBB307), 490 Prospect Avenue West, Orange, New Jersey, Lat. 40°47'23" N., Long. 74°15'17" W. C.P. to add frequencies 6197.2H, 6315.9H, MHz toward New Brunswick on azimuth 48.1 degrees 6390.0H, 11425H, 11245H, 11485V, MHz toward Puddingstne on azimuth 285.7 degrees and 11265V, 11525H, 11685H, 11445V MHz toward Newark, New Jersey on azimuth 133.6 degrees.

1818–CF–P–77 Same (KYS27), 18 Paterson St. New Brunswick, New Jersey, Lat. 40°29'40" N., Long. 74°26'37" W. C.P. to add frequencies 5974.8H, 6093.5H MHz toward West Orange, New Jersey.

1819–CF–P–77 Same (KEA69), 75 Passaic St. Rochelle Park, New Jersey, Lat. 40°54'49" N., Long. 74°04'36" W. C.P. to add a new point of communication on frequencies 6106.3H, 11015H MHz toward West Orange, New Jersey, on azimuth 228.2 degrees

1939–CF–P–77 Pacific Northwest Bell Telephone Company (KPS92), 707 West Lewis St. Pasco, Washington, Lat. 46°13'46" N., Long. 119°05'49" W. C.P. to add frequencies 11325.0V, 11485.0V MHz toward Joe Butte, Washington.

1940–CF–P–77 Same (KOJ93), Joe Butte 7.0 miles South of Kennewick, Washington, Lat. 46°06'13" N., Long. 119°07'43" W. C.P. to add frequencies 10875.0V, 11035.0V MHz toward Pasco, Washington.

1951–CF–P–77 Illinois Consolidated Telephone Company (new), 805 7th Street Charleston, Illinois, Lat. 39°29'26" N., Long. 88°10'24" W. C.P. for a new station on frequency 11445.0V MHz toward Mattoon, Illinois on azimuth 264.7 degrees.

1950–CF–P–77 Same (new), 612 South 12th Mattoon, Illinois, Lat. 39°28'35" N., Long., 88°22'06" W. C.P. for a new station on frequency 10995.0V MHz toward Charleston, Illinois on azimuth 84.6 degrees.

1964–CF–P–77 The Mountain States Telephone and Telegraph Company (KPQ26), 103 West Center Street Cedar City, Utah, Lat. 37°40'38" N., Long. 113°03'47" W. C.P. to add frequencies 6404.8V MHz toward Iron Springs and replace and move antenna 4030H MHz toward Iron Springs, Utah.

1965–CF–P–77 Same (KPQ25), 8 miles WNW of Cedar City, Utah, Lat. 37°43'51" N., Long. 113°12'18" W. C.P. to add frequencies 5162.8H MHz toward Cedar City, to add a new point of communication on 5945.2V MHz toward Blowhard Mt. on azimuth 117.7 degrees and move and replace antenna on 3750.0H MHz toward Cedar City, Utah.

1966–CF–P–77 Same (KPX29), Blowhard Mt. 14 miles SE of Cedar, Utah, Lat. 37°35'20" N., Long. 112°52'01" W. C.P. to add frequencies 6197.2V MHz toward Little Creek and to add a new point of communication on 6197.2H MHz toward Iron Springs, Utah on azimuth 297.9 degrees.

1967–CF–P–77 Same (KXR39), 7.8 miles SE of Hurricane, Utah, Lat. 37°05'47" N., Long. 113°11'11" W. C.P. to add frequencies 5945.2V MHz toward St. George PR1 and from passive reflector to St. George 5945.2H MHz toward Blowhard Mt. Utah.

1968–CF–P–77 Same (KXP40), 104 East Tabernacle Street St. George, Utah, Lat. 37°06'29" N., Long. 113°34'47" W. C.P. to add frequency 6197.2H MHz toward St. George PR1 and from the passive to Little Creek.

1970–CF–P–77 American Telephone and Telegraph Company (KQA26), Kalamazoo Co 336 South Burdick Street, Kalamazoo, Michigan, Lat. 42°17'20" N., Long. 85°35'01" W. C.P. to add frequencies 3750V, 3910V MHz toward Kalamazoo, Michigan.

1971–CF–P–77 Same (KQD79), 5706 N. 14th Street Kalamazoo, Michigan, Lat. 42°20'40" N., Long. 85°37'41" W. C.P. to add frequencies 3870V MHz toward Kalamazoo Co and 3970V MHz toward Lacey, Michigan.

1972–CF–P–77 American Telephone and Telegraph Company (KQF61), Lacey 11160 North Avenue, Bellevue, Michigan, Lat. 42°29'27" N., Long. 85°11'28" W. C.P. to add frequencies 4010V MHz toward Kalamazoo and 3990H MHz toward Parma, Michigan

1973–CF–P–77 Same (KQF60), 3.0 miles WNW of Parma, Michigan, Lat. 42°16'14" N., Long. 84°39'23" W. C.P. to add frequency 4190H MHz toward Lacey, Michigan.

1976–CF–P–77 Southern Bell Telephone and Telegraph Company (KIX68), 36 NE 2nd Street, Miami, Florida, Lat. 25°46'32" N., Long. 80°11'36" W. C.P. to increase antenna structure height move and replace antenna on frequencies 3930V, 4010V, 4190H MHz toward Miller, Florida.

1977–CF–P–77 Same (KJN26), 2627 Norwich Street, Brunswick, Georgia, Lat. 31°09'55" N., Long. 91°29'53" W. C.P. to change frequencies 6319.5V, 6338.1V to 6241.7H MHz toward Jekyll Island, Georgia.

1978–CF–P–77 Same (KJN28), Captain Wylly Road, Jekyll Island, Georgia, Lat. 31°04'04" N., Long. 81°24'56" W. C.P. to change frequencies 5937.8V, 6056.4V to 6019.3H MHz toward Brunswick, Michigan.

1938–CF–P–77 Andrews Tower Rental, Inc. (new) Vernon, Houston and Canal Streets, Vernon, Texas, Lat. 34°06'28" N., Long. 99°17'17" W. Construction permit for new station—6197.2H and 6256.5H MHz toward Quanah, Texas, on azimuth 206 degrees.

1962–CF–P–77 Mountain Microwave (KZA 62), Manchester, 14 miles SW of Chadron, Nebraska, Lat. 42°38'06" N., Long. 103°-05'30" W. Construction permit to add 6005.0V MHz and 6167.6V MHz toward Pine Ridge, South Dakota, via power split, on azimuth 41.0 degrees.

CORRECTION

1725–CF–P–77 American Telephone and Telegraph Company (KQR42), 2.0 miles NE of Atlas, Michigan corrected receive station name to read Milford, Michigan. All other particular remain as reported on PN 849 dated 3–14–77.

1833–CF–P–77 General Telephone Company of the Northwest, Inc. corrected station name. All other particular remain as reported on PN No. 851 dated 3–28–77.

1834–CF–P–77 General Telephone Company of the Northwest, Inc. corrected station name. All other particular remain as reported on PN No. 851 dated 3–28–77.

MAJOR AMENDMENTS

4242–CF–P–75 Goeken Communications (formerly known as Carter-Goeken Communications) (WBA739), Chicago, Illinois, Lat. 41°52'44" N., Long. 87°36'10" W. Application amended to increase output power, replace transmitters and change point of communication for 2177.0H MHz to Lake Zurich, Illinois, on azimuth 318.4 degrees.

4243–CF–P–75 Same (WBA740), Application amended to change station location to 3 miles N of Lake Zurich, Illinois, Lat. 42°14'10" N., Long. 88°03'50" W.; increase output power and change point of communication for 2127.0H MHz to Somers, Illinois, on azimuth 13.4 degrees.

4244–CF–P–75 Same (WBA741), Application amended to change station location to 1.5 mile NW of Somers, Wisconsin, Lat. 42°39'03" N., Long. 87°55'50" W.; increase output power and change point of com-

V4268 APR 8 77 UMI

munication for 2170.0H MHz to Lake Zurich, Illinois on azimuth 193.4 degrees; change 2113.0V MHz to 2170.0V MHz towards Milwaukee on azimuth 3.2 degrees.

4245–CF–P–75 Same (WBA742), Application amended to change station location to 305 E Wisconsin Avenue, Milwaukee, Wisconsin, Lat. 43°02'18" N., Long. 87°54'05" W.; increase output power and change 2163.0V to 2113.0V towards a new point of communication at Somers, Wisconsin on azimuth 183.2 degrees.

303–CF–P–75 Microwave Transmission Corporation (WPF 96), Monument Peak, 4.5 miles NNE of Milpitas, California, Lat. 37°29'07" N., Long. 121°51'57" W. Application amended to increase output power—11625V MHz toward Bald Ridge, California, on azimuth 164.9 degrees.

304–CF–P–75 Microwave Transmission Corporation (WPG 27), Bald Ridge, 5 miles NE of Watsonville, California, Lat. 36°58'00" N., Long. 121°41'31" W. Application amended to increase output power—10735V, 10895V, 10935H, 11095H, 10855H, and 11055H MHz toward Capitola, Watsonville, Monterey, Salinas, Monument Peak, and Escrito, all in California, via power split, on azimuths 274.6, 234.8, 108.8, 173.1, 345.1 and 163.8 degrees, respectively.

3995–CF–P–75 Microwave Transmission Corporation (new), Vollmer Peak, 1.1 mile SW of Orinda, California, Lat. 37°52'58" N., Long. 122°13'11" W. Application amended to increase output power—11055H MHz toward Concord, California, on azimuth 74.6 degrees.

3997–CF–P–75 Microwave Transmission Corporation (new), 2480 Garden Road, Monterey, California, Lat. 36°35'08" N., Long. 121°51'00" W. Application amended to increase output power—11465H MHz toward Bald Ridge, California, via power split, on azimuth 18.7 degrees.

COMMON CARRIER SERVICES INFORMATION

Applications Accepted for Filing

MARCH 28, 1977.

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of these applications, if upon further examination, it is determined they are defective and not in conformance with the Commission's Rules and Regulations or its policies.

Final action will not be taken on any of these applications earlier than 31 days following the date of this notice, except for radio applications not requiring a 30 day notice period (See section 309(c) of the Communications Act), applications filed under Part 68, applications filed under Part 63 relative to small projects, or as otherwise noted. Unless specified to the contrary, comments or petitions may be filed concerning radio and section 214 applications within 30 days of the date of this notice and within 20 days for Part 68 applications.

In order for an application filed under Part 21 of the Commission's Rules (Domestic Public Radio Services) to be considered mutually exclusive with any other such application appearing herein, it must be substantially complete and tendered for filing by whichever date is earlier: (a) the close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which the subsequent application is in conflict) as having been accepted for filing. In common carrier radio services other than those listed under Part 21, the cut-off date for filing a mutually exclusive application is the close of business one business day preceding the day on which the previously filed application is designated for hearing. With limited exceptions, an application which is subsequently amended by a major change will be considered as a newly filed application for purposes of the cut-off rule. (See §§ 1.227(b)(3) and 21.30(b) of the Commission's Rules.)

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

20980–CD–TC–3–77 Western California Telephone Company, Consent to Transfer of Control from General Telephone & Electronics Corporation, Transferor, to General Telephone Company of California, Transferee. Stations: KMM654, Los Gatos, California; KMM655, Morgan Hill, California; and KMM656, Novato, California.

20981–CD–TC–4–77 Grants Radiotelephone Service, Inc., Consent to Transfer of Control from Vernon H. Johnson, Transferor, to Esther L. Johnson, Transferee. Stations: KUD201 and KUD202, Gallup, New Mexico; KKT397 and KWU270, Milan, New Mexico.

20982–CD–P–77 Vista Florida Telephone System (new), C.P. for a new 1-way station to operate on 158.10 MHz to be located at 3100 Dopey Drive, Lake Buena Vista, Florida.

20983–CD–P–2–77 The Mountain States Telephone & Telegraph Company (KOK 416) C.P. to replace transmitter and change antenna system operating on 152.63 and 152.69 MHz located 2.2 miles NE of Iona, Idaho.

20984–CD–MP–77 Radio Telephone Service, Inc. (KWU405), C.P. to change frequency from 152.21 MHz to 152.12 MHz located at East River Mountain, 2.5 miles SSW of Bluefield, Virginia.

20985–CD–P–(3)–77 Cook's Communications Corporation d.b.a. Answering by Birken (KOP295), C.P. for additional facilities to operate on 454.075 MHz, control at Loc. No. 2: Sacrifice Cliff, 3 miles South of Billings, Montana; and for additional facilities to operate on 152.21 MHz, base and 459.075 MHz, repeater to be located at a new site described as Loc. No. 3: East of Hwy. 87N, 18 miles South of Roundup, Montana.

20986–CD–MP–5–77 Delta Valley Radiotelephone Co., Inc. (KWU508) (air-ground), C.P. for additional facilities to operate on 72.88 and 72.92 MHz, repeater at Loc. No. 1: Atop north peak of Mt. Diablo, approximately 7.5 miles NE of Danville, California; and for additional facilities to operate on 72.32, 72.36 and 72.40 MHz, control to be located at a new site described as Loc. No. 2: 508 2nd Street, Antioch, California.

20987–CD–AL–(6)–77 Frank L. Yates d.b.a. Gulf Mobilphone, Consent to Assignment of License from Gulf Mobilephone, Assignor, to Answer Iowa, Inc., Assignee. Stations: KFL885, Gulfport, Mississippi; KLF518 and KUC895, Pascagoula, Mississippi; KQZ734, Biloxi, Mississippi; KUC 894, Coolmarket, Mississippi; and KUS238, Picayune, Mississippi.

20988–CD–MP–2–77 Summit Mobile Radio Co. (KCI304), C.P. to replace transmitter, change antenna system and relocate facilities operating on 152.12 MHz at Loc. No. 1 to be located at a new site described as Loc. No. 3: Granite Hill 1100' North of Winthrop Street and 2½ miles West of Augusta, Manchester, Maine.

20989–CD–P–77 Phone Depots, Inc., d.b.a. Mobilfone Radio System (KEA254), C.P. for additional facilities to operate on 454.350 MHz to be located at a new site described as Loc. No. 10: 98 Kendall Drive, Sayreville, New Jersey.

20990–CD–P–3–77 Keith Van Buren, d.b.a. Dome Communications (KLF516), C.P. for additional facilities to operate on 152.09 MHz at Loc. No. 1: Little Goose Peak, 16.6 miles SW of Sheridan, Wyoming; also additional facilities on 459.225 MHz, repeater at Loc. No. 1; and for additional facilities, operating on 454.225 MHz, control to be located at a new site described as Loc. No. 3: Sheridan County Airport, Sheridan, Wyoming.

20991–CD–P–77 Tadlock's Radio Dispatch (KMA259 C.P. for additional facilities to operate on 454.100 MHz to be located at Loc. No. 2: Bald Mountain, 5 miles SE of Guinda, California.

20992–CD–P–6–77 Michigan Bell Telephone Company (new) C.P. for a new station to operate on 152.51 152.66 152.78 454.500 & 454.600 MHz to be located 2 miles North of Mt. Clemens, Michigan.

20994–CD–P–7–77 Michigan Bell Telephone Company (KQA772) C.P. to change antenna system operating on 152.51 MHz, change frequency from 152.75 MHz to 152.69 MHz and for additional facilities to operate on 152.80 454.375 & 454.525 MHz located at 503 South Saginaw, Flint, Michigan.

20995–CD–P–77 Michigan Bell Telephone Company (KQA812) C.P. to replace transmitter and change frequency from 152.51 MHz to 152.69 MHz located at 5980 Wildcat Road, 10 miles NW of Port Huron, Michigan.

MAJOR AMENDMENTS

Message Center, Inc., 22130–CD–MP–(3)–76 (KWT998), near Underhill, Vermont, at Mt. Mansfield.

At Loc. No. 2: Amend the base frequency to 152.15 MHz and the repeater frequency to 454.200 MHz.

At Loc. No. 3: Amend the control frequency to 459.200 MHz.

All other particulars to remain as reported on PN No. 809 dated June 7, 1976.

INFORMATIVE

The following applications is a Major Action as defined by Section 1.1305 of the Commission's Rules concerning the implementation.

20777–CD–P–77 American Radio-Telephone Service, Inc.—No. 3: Goldmine Rd. between Olney and Brookville, Maryland; No. 4: Near Conway and Patuxent, Maryland; No. 7: 600 ft. east from Trs 112 and 190 and 500 ft. Southeast of Seneca, Maryland.

RURAL RADIO SERVICE

60244–CR–P–77 RCA Alaska Communications, Inc. (new), C.P. for a new Central Office station to operate on 152.57 MHz to be located, 0.4 mile North of downtown Sand Point, Alaska.

60245–CR–P–77 RCA Alaska Communications, Inc. (new), C.P. for a new Rural Subscriber station to operate on 157.83 MHz to be located in Village .6 mile NNW of Squaw Harbor Airport, Squaw Harbor, Alaska.

60246–CR–P/L–77 The Mountain States Telephone & Telegraph Company (new), C.P. for a new Rural Subscriber-Fixed station to operate on 157.77 MHz to be located 6.2 miles South-Southwest of Table Rock, Wyoming.

60242–CR–TC–77 Western California Telephone Company, Consent to Transfer of Control from General Telephone & Electronics Corporation, Transferor to General Telephone Company of California, Transferee. Station: KVI58, Temporary-Fixed.

60243–CR–TC–77 Grants Radiotelephone Service, Inc., Consent to Transfer of Control from Vernon H. Johnson, Transferor to Esther L. Johnson, Transferee. Station: KOA47, Temporary-Fixed.

POINT TO POINT MICROWAVE RADIO SERVICE

1874–CF–P–77 The Pacific Telephone and Telegraph Company (KNL75), 1.2 miles WNW of Lodi, Oregon, Lat. 38°08'31" N., Long. 121°18'58" W. C.P. to increase antenna structure height and to add a new point of communication on frequencies 11055V, 10895V MHz toward Collegeville, Oregon, on azimuth 146.0 degrees.

1875–CF–P–77 Same (new), 2 miles East of Collegeville, Oregon, Lat. 37°53'55" N., Long. 121°06'33" W. C.P. for a new station on frequencies 11265V, 11585V MHz toward Lodi, Oregon on azimuth 326.1 degrees and 11265V, 11585V MHz toward Modesto 2, Oregon, on azimuth 160.8 degrees.

1876–CF–P–77 Same (new), Modesto 2, 1025 13th Street, Modesto, Oregon, Lat. 37°38'36" N., Long. 120°59'51" W. C.P. for a new station on frequencies 11055V, 10895V MHz toward Collegeville, Oregon, on azimuth 340.9 degrees.

1878–CF–P–77 American Telephone and Telegraph Company (new), Kansas City, 2, 1425 Oak Street, Kansas City, Missouri, Lat. 39°05'47" N., Long. 94°34'41" W. C.P. for a new station on frequency 4030H MHz toward Oak Grove, Missouri, on azimuth 110.7 degrees.

1879–CF–P–77 Same (new), 3.5 miles SSE of Oak Grove, Missouri, Lat. 38°57'30" N., Long. 94°06'43" W. C.P. for a new station on frequencies 4070H MHz toward Kansas City 2 on azimuth 290.9 degrees and 4070 MHz toward Holden, Missouri, on azimuth 149.4 degrees.

1880–CF–P–77 Same (new), 3.2 miles E of Holden, Missouri, Lat. 38°42'26" N., Long. 93°55'20" W. C.P. for a new station on frequencies 4030H MHz toward Oak Grove on azimuth 329.5 degrees and 4030 H MHz toward Windsor, Missouri, on azimuth 109.6 degrees.

1881–CF–P–77 Same (new), 3.7 miles N of Windsor, Missouri, Lat. 38°35'43" N., Long. 93°31'26" W. C.P. for a new station on frequency 4070H MHz toward Holden, Missouri, on azimuth 289.8 degrees.

1882–CF–P–77 Same (KQB42), Alexandria, 3.75 miles E of Johnstown, Ohio, Lat. 40°-09'21" N., Long. 82°36'51" W. C.P. to change polarization from vertical to horizontal on frequencies 3770, 3850, 3930, 4010, 4090, 4170 MHz toward Columbus, Ohio.

1883–CF–P–77 Same (KQO74), Columbus 2, 111 North Fourth Street, Columbus, Ohio, Lat. 39°57'54" N., Long. 82°59'51" W. C.P. to change polarization from vertical to horizontal on frequencies 3730, 3810, 3890, 3970, 4050, 4130 MHz toward Alexandria, Ohio.

1806–CF–P–77 The Mountain States Telephone and Telegraph Company (KKK40), El Paso SE, 6045 Griems Road, El Paso, Texas, Lat. 31°46'07" N., Long. 106°24'50" W., C.P. to increase antenna structure height and to add frequencies 2117.0H 6004.5H 6123.1H MHz toward Frank Mt., Texas.

1897–CF–P–77 (KKK41), S. Frank Mt., 4 miles NW of El Paso, Texas, Lat. 31°51'46" N., Long. 106°29'26" W., C.P. to increase antenna structure height and add frequencies 2167.0H, 6256.5H, 6375.2H, MHz toward El Paso SE, Texas.

1921–CF–P–77 Southwestern Bell Telephone Company (KKB58), 424 South Detroit Street, Tulsa, Oklahoma, Lt. 36°09'10" N., Long. 95°59'12" W., C.P. to change frequencies 6056.4H to 6034.3H 10755.0V to 10915.0V MHz toward Vera, replace transmitters on frequencies 6056.4H 10755.0V MHz toward Vera and replace antenna on frequencies 6056.4H 10755.0V MHz toward Vera, Oklahoma.

1922–CF–P–77 Same (KKB57), 3.4 miles NW of Vera, Oklahoma, Lat. 36°28'44" N., Long. 95°55'45" W., C.P. to change frequencies 6308.4H to 6286.2V, 11685.0V to 11525.0V MHz toward Tulsa, Oklahoma, 6323.3H to 6286.2V, 11405.0V to 11565.0V MHz toward Bartlesville, Oklahoma, to replace transmitters on frenquencies 6308.4H 11685.0V MHz Tulsa, 62323.3H 11405.0V Bartlesville and replace antenna on frequencies 6308.-4H, 11685.0V MHz toward Tulsa 6323.3H, 11405.0V MHz toward Bartlesville, Oklahoma.

1923–CF–P–77 Same (KKB56), 119 East 6th Street, Bartlesville, Oklahoma, Lat. 36°44' 50" N., Long. 95°58'36" W., C.P. to change frequencies 6071.2H to 6084.2H, 10955.0V to 11115.0V MHz toward Vera, Oklahoma, replace transmitters 6071.2H, 10955.0V MHz toward Vera and replace antenna on frequencies 6071.2H, 10955.0V MHz toward Vera, Oklahoma.

1930–CF–P–77 General Telephone Company of the Northwest, Inc. (WAY64), Everett CA, 426 Casino Road, Everett, Washington, Lat. 47°55'19" N., Long. 122°13'34" W., C.P. to increase antenna structure height, to add a new point of communication on frequencies 10895.0V, 10975 MHz toward Cmis, Washington, and move antenna on frequency 6241.7H MHz toward RTSM, Washington.

1931–CF–P–77 Same (KPJ97), 2 miles ENE of Camano, Washington, Lat. 48°11'21" N., Long. 122°29'38" W., C.P. to increase antenna structure height, to add a new point of communication on frequencies 11425V, 11505V MHz twd. Everett CA, on azimuth 146.2 degrees and replace antenna on frequency 11345V MHz toward OKHR, Washington.

1934–CF–P–77 The Mountain State Telephone and Telegraph Company (KXQ87), 1919 Capitol Avenue, Cheyenne, Wyoming, Lat. 41°08'11" N., Long. 104°49'00" W., C.P. to increase antenna structure height and move antenna on frequency 6249.1H MHz toward Archer, Wyoming.

1898–CF–P–77 Eastern Microwave, Inc. (WDD 61) Huffs-Church Road, Fredericksville, Pennsylvania Lat. 40°27'27" N., Long. 75°39'55" W., Construction permit to add 6063.8H MHz toward Easton and Allentown, both in Pennsylvania, on azimuths 53.1 and 53.9 degrees, respectively.

1929–CF–MP–77 United Video, Inc. (KSP 98) .9 mile East of Effingham, Illinois Lat. 39° 07'35" N., Long. 88°31'06" W., Construction permit to add 6360.3H MHz toward Olney, Illinois, on azimuth 138.6 degrees.

Garden State MicroRelay, Inc. Received timely filed Renewals for the following stations: 7851–CF–R–76, KEM 56, Milmay, New Jersey; 7852–CF–R–76, WSM 72, Swainton, New Jersey; 7853–CF–R–76, KEM 55, Chatsworth, New Jersey.

1832–CF–P–77 American Telephone and Telegraph Company (KJM71), 5.5 miles S of Jasper, Florida Lat. 30°26'17" N., Long. 82°56'17" W., C.P. to change polarization horizontal and vertical on frequencies 3750, 3830, 3910, 4070, 4150, 4198 MHz toward Lake City, and from vertical to horizontal 3930, 4010, 4090 MHz toward Lake City, Florida.

1833–CF–P–77 General Telephone Company of the Northwestern, Inc. (new), 751 Mansfield, Washington Lat. 46°16'42" N., Long. 119°16'34" W., C.P. for a new station on frequencies 10995.0V, 11075.0V MHz toward Badger Hill PR on azimuth 213.1 degrees and from passive reflector Kennewick on azimuth 102.8 degrees.

1834–CF–P–77 Same (WHT64), Kennewick Hill, 4916 W. Clearwater, Kennewick, Washington, Lat. 46°12'47" N., Long. 119° 11'09" W., C.P. to add a new point of communication on frequencies 11525V, 11605V MHz toward Badger Hill, Washington, on azimuth 282.9 degrees.

1836–CF–P–77 Southwestern Bell Telephone Company (new), 301 West Whaley, Longview, Texas, Lat. 32°29'50" N., Long. 94° 44'29" W., C.P. for a new station on frequency 3710H MHz toward East Mtn. RS, Texas, on azimuth 315.5 degrees.

1837–CF–P–77 Same (new), 2.0 miles NW of East Mountain, Texas, Lat. 32°36'36" N., Long. 94°62'11" W., C.P. for a new station on frequency 4070H MHz toward Longview, Texas, on azimuth 135.4 degrees.

1851–CF–P/L–77 RCA Alaska Communications, Inc. (WAS431), Aggie Hill 32.07, 26 miles NW of Fairbanks, Alaska, Lat. 65°13' 03" N., Long. 148°03'26" W., C.P. for a new station on frequencies 6152.8H MHz toward Livengood, Alaska, on azimuth 334.8 degrees 6093.5H MHz toward Pedro, Alaska, on azimuth 127.6 degrees and 6123.1V MHz toward Pmp Stn 7, Alaska on azimuth 315.4 degrees.

1852–CF–P/L–77 Same (WAH420), Stuck 88 miles Richardson Hwy. 12 miles Copper, Alaska Lat. 61°47'29" N., 145°15'14" W., C.P. for a new station on frequencies 6125.8V MHz toward Gakona on azimuth 354.7 degrees, 6093.5V MHz toward Kimball Pass on azimuth 158.6 degrees and 6123.1H MHz toward Pmp Stn 11, Alaska on azimuth 340.3 degrees.

CORRECTION

Public Notice No. 850, dated March 21, 1977 contained a page 8 of the previous week's public notice (March 14, 1977), in error. That page 8 is now deleted from the Public Notice of March 21.

FM AND TV TRANSLATOR APPLICATION READY AND AVAILABLE FOR PROCESSING

Adopted: March 30, 1977.

Released: April 5, 1977.

Notice is hereby given pursuant to §§ 1.572(c) and 1.573(d) of the Commission's rules, that on May 16, 1977, the TV and FM translator applications listed in the attached Appendix will be considered as ready and available for processing. Pursuant to §§ 1.227(b)(1) and 1.519 (b) of the Commission's rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on May 13, 1977, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and submitted for filing at the offices of the Commission in Washington, D.C., by the close of business on May 13, 1977.

The attention of any party in interest desiring to file pleadings concerning any

V 42 R 8 APR 7 7 UMI

pending TV and FM translator application, pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.580 (i) of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

UHF TV TRANSLATOR APPLICATIONS

BPTT-3198 (K78CI), Hartsel, Antero Junction and Eleven Mile Reservoir, Colorado. Req: To change frequency to channel 64, 770–776, MHz.

BPTT-3199 (new), Hartsel, Colorado, Gunnison County Television, Inc. Req: Channel 66, 782–788 MHz, 100 watts. Primary: KWGN–TV, Denver, Colorado.

BPTT-3201 (new), Colorado Springs and Manitou Springs, Colorado, University of Southern Colorado. Req: Channel 21, 512–518 MHz, 100 watts. Primary: KTSC–TV, Pueblo, Colorado.

BPTT-3202 (new), Slit and Rural Areas and Upper Four Mile Creek, Colorado, Garfield, County, Req: Channel 67, 788–794 MHz, 100 watts. Primary: KBTV–TV, Denver, Colorado.

BPTT-3207 (K72DH), Dry Lake, Crystal and Ute, Nevada, Moapa Valley TV Maintenance District. Req: To change principal community to Overton, Logandale and Moapa Area, Nevada, change primary TV Station to KSL–TV, Channel 5, Salt Lake City, Utah.

BPTT-3209 (K77AW), Wallowa Valley, Oregon, Wallowa Valley TV Association, Inc., Req: change frequency to channel 65, 776–782 MHz., output power to 100 watts.

BPTT-3210 (K81AF), Wallowa Valley, Oregon, Wallowa Valley TV Association, Inc. Req: To change frequency to channel 63, 764–770 MHz.

BPTT-3211 (new), Pickstown, South Dakota, State Board of Directors for Educational Television. Req: Channel 61, 752–758 MHz, 10 watts. Primary: KTSD–TV, Pierre, South Dakota.

BPTT-3212 (new), St. George, Utah, Washington County Television Dept. Req: Channel 69, 800–806 MHz, 100 watts. Primary: KLAS–TV, Las Vegas, Nevada.

UHF TV TRANSLATOR APPLICATIONS

BPTT-3215 (new), Philadelphia, Pennsylvania, Spanish International Communications. Req: Channel 35, 596–602 MHz, 1,000 watts. Primary: WXTV–TV, Paterson, New Jersey.

BPTT-3216 (new), Augusta, Kentucky, Kentucky State Board of Education. Req: Channel 56, 722–728 MHz, 100 watts. Primary: WCVN–TV, Covington, Kentucky.

BMPTT-945 (W27AB), Canton, Clyde, Waynesville and Hazelwood, North Carolina, University of North Carolina. Req: To increase output power to 1,000 watts.

BMPTT-946 (W59AD), Andrews, Murphy and Robbinsville, North Carolina, University of North Carolina. Req: To increase output power to 1,000 watts.

CORRECTION

VHF TV TRANSLATOR APPLICATION

The following entry appeared on the Public Notice (Mimeo No. 68379) released August 4, 1976, listing translator application which would be considered as ready and available for processing on September 16, 1976.

BPTTV-5621 (new), **Keystone Valdez Pipeline Camp, Alaska, Northern Television, Incorporated. Req: Channel 12, 10 watts.** Primary: KTVA–TV, KENI–TV, KIMO–TV, Anchorage, Alaska.

The entry is corrected to read as follows:

BPTTV-5621 (new), Keystone Valdez Pipeline Camp, Alaska, Northern Television, Incorporated. Req: Channel 4, 10 watts. Primary: KTVA–TV, KENI–TV, KIMO–TV, Anchorage, Alaska.

The dates appearing on the title page of this Public Notice will now apply to the above application.

VHF TV TRANSLATOR APPLICATIONS

BPTTV-5774 (K02DL), Salida, Colorado, Salida TV Translator Association. Req: To change frequency to channel 9, 180–186 MHz.

BPTTV-5775 (new), Cherry Creek, South Dakota, Cherry Creek TV Club. Req: Channel 2, 54–60 MHz, 1 watt. Primary: KHSD–TV, Lead, South Dakota.

BPTTV-5776 (new), Cherry Creek, South Dakota, Cherry Creek TV Club. Req: Channel 8, 180–186 MHz, 1 watt. Primary: KIVV–TV, Lead, South Dakota.

BPTTV-5777 (new), De Norte, Colorado, Parker Hill TV Association. Req: Channel 4, 66–72 MHz, 10 watts. Primary: KNME–TV, Albuquerque, New Mexico.

BPTTV-5779 (new), Hayes Center, Nebraska, Hayes Center Community Club. Req: Channel 4, 66–72 MHz, 1 watt. Primary: KLOE–TV, Goodland, Kansas.

BPTTV-5780 (new), Wawona, California, Wawona Community Television Association. Req: Channel 4, 66–72 MHz, 1 watt. Primary: KVIE–TV, Sacramento, California.

BPTTV-5781 (new), Bethel, Alaska, City of Bethel. Req: Channel 2, 54–60 MHz, 10 watts. Primary: KENI–TV, Anchorage, Alaska.

BPTTV-5782 (new), Klawock, Alaska, Klawock School Board. Req: Channel 2, 54–60 MHz, 10 watts. Primary: KAKM–TV, KENI–TV, KIMO–TV, and KTVA, Anchorage, Alaska.

BPTTV-5783 (K08FJ), Alton, Utah, Long Valley TV. Req: Change frequency to channel 11, 198–204 MHz, increase output power to 10 watts.

BPTTV-5784 (K10FJ), Alton, Utah, Long Valley TV. Req: Change frequency to channel 9, 186–192 MHz, increase output power to 10 watts.

VHF TV TRANSLATOR APPLICATIONS

BPTTV-5785 (K12HD), Alton, Utah, Long Valley TV. Req: Change frequency to channel 13, 210–216 MHz, increase output power to 10 watts.

BPTTV-5786 (new), Orderville and Glendale, Utah, Long Valley TV. Req: Channel 7, 174–180 MHz, 1 watt. Primary: KUED–TV, Salt Lake City, Utah.

BPTTV-5787 (New), Evanston and Upper Bear River Valley, Wyoming, Upper Bear River TV, Service. Req: Channel 6, 82–88 MHz, 5 watts. Primary: KUED–TV, Salt Lake City, Utah.

FM TRANSLATOR APPLICATIONS

BPFT-398 (new), Dubois, Wyoming, Riverton Broadcasting Co., Inc., Req. Channel 292, 106.3 MHz, 10 watts. Primary: KTAK–FM, Riverton, Wyoming.

BPFT-399 (new), Dubois, Wyoming, Fremont Broadcasting Inc., Req: Channel 296, 107.1 MHz, 1 watt. Primary: KDLY–FM, Lander, Wyoming.

BPFT-401 (K228AB), Upper Bear River & Evanston, Wyoming, Kilburn I Porter tr/as Upper Bear River TV Service. Req: To **change principal community to Upper Bear River Valley, Evanston** plus Carter, Wyoming, output power to 10 watts in two directions.

STANDARD BROADCAST APPLICATIONS READY AND AVAILABLE FOR PROCESSING

Adopted: March 21, 1977.

Released: March 24, 1977.

Notice is hereby given, pursuant to § 1.571(c) of the Commission's rules, that on May 10, 1977, the standard broadcast applications listed in the attached Appendix below will be considered as ready and available for processing. Pursuant to § 1.227(b)(1) and § 1.591(b) of the Commission's rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on May 9, 1977, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and tendered for filing at the offices of the Commission in Washington, D.C. by the close of business on May 9, 1977. The attention of prospective applicants is directed to the fact that some contemplated proposals may not be eligible for consideration with an application appearing in the attached Appendix below by reason of conflicts between the listed applications and applications appearing in previous notices published pursuant to § 1.571(c) of the Commission's rules.

The attention of any party in interest desiring to file pleadings concerning any pending standard broadcast applications, pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.580(i) of the Commission's Rules for provisions governing the time for filing and other requirements relating to such pleadings.

[Docket No. 21183; FCC 229]

AUTOMATION ELECTRONICS CORP. AND WILL-WALK, CO.

Order To Show Cause, Memorandum Opinion and Order

Adopted: March 24, 1977.

Released: April 7, 1977.

In the matter of Automation Electronics Corp., Model 1001 Call Sequencing System, Docket No. 21183, F.C.C. Telephone Equipment, Reg. No. AAF993-62778–CD–N; Automation Electronics Corp., Model 501–3 Rotary Announcer, F.C.C. Telephone Equipment, Reg. No. AAF993–62736–AN–N; Will-Walk Company, Model 501–3 Rotary Announcer, F.C.C. Telephone Equipment, Reg. No. AAH992–62771–AN–N; notice filing requesting additional trade name for Will-Walk Company, Model 501–3 Rotary Announcer, File No. 160–CX–77.

1. We have before us a petition filed by the American Telephone and Telegraph Company ("AT&T") on September 29, 1976, seeking reconsideration of a registration grant of August 18, 1976 (Public Notice given August 23, 1976) to Automation Electronics Corporation ("Automation") for its Model 1001 Call Sequencing System,[1] under our telephone equipment registration program.[2] Automation, and its predecessor the Will-Walk Company ("Will-Walk") have variously attempted to apply the registration program's short-form application procedures, its "grandfathering" provisions, and its relaxation of the requirement for using standard plugs during a transition period, to their products. As will be developed in more detail, infra, a problem arose regarding our grant of short-form registration to Automation's Model 1001 Call Sequencing System, and the telephone companies' subsequent obligation to provide for its connection to the telephone network, which led to AT&T's seeking of reconsideration, and to our action in this order.

BACKGROUND

2. In our First Report and Order in Docket No. 19528, we established a "grandfathering" provision exempting terminal equipment connected to the telephone network prior to the effective date of the new Part 68 from registration rules, 56 F.C.C. 2d 593, 613 n. 36 (1975). We subsequently explained that the purpose of the "grandfathering" provision was to afford "proper recognition to the millions of items of terminal equipment—produced by both carrier-affiliated and independent manufacturers—which are now and have been directly connected to the network with no evidence of having caused harm hereto, by granting them immunity from the registration requirements", 57 F.C.C. 2d 1216 (1976). Consistent with that purpose, we established a transition period during which "grandfathered" equipment might be connected to the telephone network without registration, and also established a short-form registration procedure for such equipment to ease the transition to registered status for all equipment after the expiration of the transition period.[3]

3. In a short-form application, the applicant is required to furnish us certification that the equipment had been directly connected to the telephone network as of the May 1, 1976 cut-off date and that it meets the standards of Part 68 of our rules, but without supporting exhibits which are required for a normal, long-form application. Detailed information and test results need not be submitted unless specifically requested.

4. In response to petitions seeking clarification of the "grandfathering", short-form, and transition-period procedures, we subsequently issued a declaratory ruling which defined the class of equipment which is eligible both for "grandfathering" and short-form registration as equipment of a type similar to equipment which was directly connected to the telephone network as of May 1, 1976, 59 F.C.C. 2d 83, 85–86 (1976). We further refined this definition of eligibility with the following subsidiary definitions:

"Of a type similar"—The same model of equipment, made by the same manufacturer; equipment of the same mechanical and electrical design, encompassing cosmetic variations of a manufacturer's product (e.g. color changes).

"Directly connected"—Any direct electrical connection, either by a telephone company or by a customer which was both (1) in accordance with a telephone company tariff and (2) without a protective connecting arrangment. This category of equipment includes all equipment supplied by telphone companies, as well as the following types of customer-provided equipment: Attested operators' headsets and conferencing devices, conformed telephone answering devices, equipment certified and connected pursuant to General Order No. 138 of the California Public Utilities Commission, and equipment connected by "special" entities under our tariffs.

We explained that unregistered equipment which is connected to the telephone network during the transition period as "grandfathered" equipment would be permitted to remain in service without registration during its useful life "unless subsequently modified", § 68.2(b) and (c), and defined this term as follows:

[1] AT&T's petition was filed more than thirty days after public notice was given of the grant, and thus is procedurally defective (see 47 U.S.C. 415, 47 CFR 1.106(f)). However, we are treating the petition as a complaint filed under 47 CFR 68.400.

[2] The subject matter of this decision is ancillary telephone equipment (a call distributing device, and answering equipment), thus we here reference only those of our previous decisions concerning telephone equipment registration which are relevant to such equipment. First, in Docket No. 19528, we established the equipment registration program, short-form registration procedures, "grandfathering" privileges, and transition-period procedures. See 56 F.C.C. 2d 593 (1975); 57 F.C.C. 2d 1216 (1976); 59 F.C.C. 2d 83 (1976). Second, in Docket No. 20774, we established uniform standard means of connecting registered equipment to the nationwide telephone network. See 41 FR 17306, Apr. 23, 1976 and 41 FR 28694, July 12, 1976. The United States Court of Appeals, Fourth Circuit, by Order of April 28, 1976, stayed the entire program. This stay was modified by Order of June 16, 1976 to allow the program to become effective as to customer-provided data and ancillary equipment, including the Automation and Will-Walk equipment.

[3] 57 F.C.C. 2d at 1220. After the transition period, such equipment is required to be registered, either using the short-form or long-form registration procedures.

V 4268 APR 8 77 UMI

"Subsequently modified"—Equipment modifications other than repair operations which restore the equipment to the same functional operation it had prior to the failure which resulted in a repair operation; replacement of component parts with ones not comparable to the original ones.

Finally, we recognized that standard plugs and jacks may not be available during the transition period for connection of both registered and "grandfathered" equipment, and provided that such equipment need not be connected to the telephone network, during the transition period, using the standard plugs and jacks specified in our rules. Instead, we provided that the telephone companies could continue to use whatever means of connection they were then using for connection of telephone company-provided equipment, so long as they did not discriminate in the treatment of customer-provided equipment.[4]

5. Automation and Will-Walk had received three grants of certification of equipment by the California Public Utilities Commission pursuant to that Commission's General Order No. 138. Thus, if equipment covered by these grants had in fact been directly connected to the telephone network as of May 1, 1976, pursuant to the California telephone companies' tariffs, then it would be eligible both for "grandfathering" and short-form registration under our registration program.

6. On April 12, 1976 we received three applications for short-form registration, which appeared to cover only two different items of equipment. Will-Walk applied for registration of its Model 501–3 Rotary Announcer, and Automation applied for registration of its Model 501–3 Rotary Announcer. Automation also applied for registration of its Model 1001 Call Sequencing System. In the two Rotary Announcer applications, the Model 501–3 was described as:

> • • • an answering system which will answer multiple telephone lines with an announcement up to 5 minutes and is capable of delivering the message to all incoming lines at the same time, the endless loop announcement continues to play out until the last caller hangs up. The Rotary Announcer is ideal as a theater announcer, for weather reports, sports scores, ski conditions and similar uses.

The only description of any accessory equipment used in conjunction with the Model 501–3 Rotary Announcer was:

> An accessory is avaialble which allows the announce message to be changed by calling in from a remote location.

The Will-Walk Rotary Announcer application was assigned file number 37–C–76 and the Automation Rotary Announcer application was assigned file number 39–C–76.

7. The Call Sequencing System application, filed only by Automation, described the Model 1001 as:

> • • • an answering device which will answer multiple telephone lines, give a pre-recorded announce message, place the call on hold and indicate to the user by means of lamps flashing at different interval rates, the chronological order in which the calls were received.

8. On July 12, 1976, pursuant to § 68.204 of the rules, AT&T filed comments on these applications. First, AT&T noted that the two Rotary Announcer applications were "filed on behalf of different manufacturers having the same address appear to describe the same device with the same model number" but showed substantially different test results (although such results were not required for a short-form application, both applications included copies of information furnished the California Public Utilities Commission). Second, AT&T commented that none of the three applications should be granted as the applicants failed to demonstrate that the equipment involved had been connected to the telephone network as of May 1, 1976, the second condition for eligibility.

9. In response to AT&T, the "person responsible for preparing engineering information" (line 15 of the application form) and therefore the "person to contact for technical information" (line 16 on all three applications) stated that the two Rotary Announcer applications were for:

> • • • similar but not identical devices and hence should be issued separate numbers. Automation Electronics Corporation incorporated all assets and obligations of Will-Walk Company.

and in response to further questioning on this matter by our staff, expanded this description:

> 37–CX–76 (CPUC No. 0057) manufactured by Will-Walk. Will-Walk absorbed into Automation Electronics Corp. who assumed all goods and continued warranty and service.
>
> 39–CX–76 (CPUC No. 0214) manufactured by Automation Electronics Corp. Devices perform the same function. However, the Will-Walk 37–CX–76 is much different in appearance than 39–CX–76 of Automation Electronics Corp. 37–CX–76 is built in two separate units which connect with cables. 39–CX–76 is a single unit.[5]

10. Since AT&T had, in a separate submission, listed the Will-Walk Model 501-3 Rotary Announcer as eligible for "grandfathering," the staff concluded that it was also eligible for short-form registration, and granted that application (37–CX–76) on August 18, 1976.

11. Automation provided the staff with California telephone numbers to which the Rotary Announcer and Call Sequencing System had been connected as of May 1, 1976, and accordingly these two applications were granted, respectively on August 30, 1976 and August 18, 1976.[6] Thus, on the basis of information then before it, the staff properly granted all three short-form registration applications.

Connection Problems

12. After we granted registration to the Model 1001, AT&T and Automation attempted to connect the Model 1001 to the telephone network in accordance with our rules, through the use of standard plug/jack arrangements specified in Part 68 of our rules. Through its meetings with Automation, AT&T became aware that the Model 1001 requires a series connection to the lamp leads of a key telephone system to provide the indication to the user "by means of lamps flashing at different interval rates" described in its registration application. In essence, the "lamps" described in the application were not Automation's lamps, but rather were those lamps which are already present in carrier-provided key telephone instruments.

13. While AT&T was not aware that Automation's Model 1001 would not function with the plug/jack arrangements in Part 68 of our rules, AT&T's California subsidiary, Pacific Telephone and Telegraph Company, obviously was. Pacific was providing a special combination of two connectors, in California, or connection of Automation's equipment (and others), which was specified by the California Public Utilities Commission. Nevertheless, on September 29, 1976, AT&T filed a letter which requested our staff to reconsider its grant of registration, by delegated authority, to Automation's Model 1001. First, AT&T again alleged that the equipment had not been demonstrated to be of a type similar to equipment connected to the network as of May 1, 1976, pursuant to a telephone company tariff, and noted that the telephone number which Automation had supplied as such a demonstration had been taken out of service in 1974. Second, AT&T said:

> • • • although this could not be discerned by review of the short form application, the device cannot be connected in compliance with Part 68 of the rules. • • •
>
> It was finally determined that this device would not work with any of the standard plug and jack arrangements specified • • •. Thus, we have the anomalous situation that although the equipment had been granted registration, it cannot be connected as registered equipment in accordance with § 68.104(a).

Our staff served a copy of this letter on Automation.

14. By letters dated October 16 and October 17, 1976, Automation addressed the issues raised by AT&T's letter. First, it indicated that there had been a typographical error in the supplied telephone number, and it supplied a corrected telephone number. Second, Automation also addressed the anomalous situation that this short-form registered equipment could not be connected to the network in accordance with the rules, and requested a waiver of the plug/jack requirement. On October 26, 1976, Automation requested an informal meeting with AT&T and Commission staff representatives, in order to resolve the outstanding problems.

[4] We recently extended the transition period during which unregistered "grandfathered" equipment may be connected from January 1, 1977 to June 1, 1977. See Order released December 28, 1976, FCC 76–1139

[5] Letter from Mr. D. Reginald Tibbetts, July 30, 1976.

[6] Grant of the Automation Rotary Announcer was delayed pending resolution of questions concerning its similarity to the Will-Walk device. Subsequently, AT&T made no objection to registration of the two Rotary Announcers.

15. At this November 9, 1976 meeting, it was agreed that: (1) Automation would substantiate the disputed fact that the Model 1001 had been directly connected to the telephone network in accordance with applicable telephone company tariffs as of May 1, 1976; (2) the Model 1001 in fact requires a series connection to the lamp leads of a carrier-supplied key telephone system for its operation; (3) that no present plug/jack arrangement in Part 68 will accommodate the requirement of a series connection to these lamp leads; (4) that Automation would submit a petition for rulemaking seeking amendment of our rules to accommodate the Model 1001; [7] and (5) if the Model 1001 in fact had been property eligible for short-form registration, it also would be eligible for "grandfathering" treatment in the transition period, notwithstanding its concurrent status as registered equipment, and could therefore be connected by the telephone company using alternative means to those specified in Part 68, in accordance with our transition period procedures.[8] AT&T took the position that if Automation could not sustain the eligibility of the Model 1001 for "grandfathering" treatment, it would not provide such alternative means of connection.

16. On November 15, 1976, Automation submitted documents which purported to establish the "grandfathered" status of the Model 1001. According to the submission, the Model 1001 had been certified by the California Public Utilities Commission on February 13, 1976, and one unit of equipment had been installed in San Francisco, at a stated location, on March 1, 1976 (well before May 1, 1976). The submission further alleged that notice of the connection of the Model 1001 at this location was given by telephone to Pacific Telephone and Telegraph Company (the carrier in San Francisco) on March 2, and that during March, a telephone repair-person had noticed the installed Model 1001 during a repair visit to the premises, and had presumably reported its presence to other telephone company officials.[9]

17. In this submission, Automation stated that the customer's premises involved:

> • • • were equipped with an amphenol connector consisting of a male and female 50 position ribbon plug and jack (called a bridging adapter by Pacific). The utility connector was unplugged, and the Model 1001 was inserted between them with no modification of the utility equipment.

18. On November 23, 1976, AT&T responded to Automation's submission. In its response. AT&T claimed that despite a careful review of Pacific Telephone and Telegraph Company records, and despite conducting interviews with appropriate personnel, it was unable to verify that Pacific had been notified of the connection of any customer-provided equipment at this customer's premises. It then took issue with Automation's claimed date of certification of the equipment by the California Commission, and alleged that it had not been certified until March 19, 1976, a date after Automation's claimed March 2, 1976 date of notification of the telephone company.

19. AT&T's response further reported the results of a visit by telephone company personnel to this customer's premises:

> On November 19, 1976, since no verification of connection was otherwise available, telephone company personnel made a premises visit to (deleted) and observed that there was no Model 1001 in service nor was there any telephone company provided bridging adapter or other required jack arrangement. The device which was found at the customer's premises was the "Will Walk, Rotary Announce System (California Certification Number CPUC No. 0057) Model 501–3" and this device was connected in violation of both filed tariffs and the Rules of CPUC G.O. 138. Lawful connection of the Will Walk device in California could be only through a telephone company Type C bridging adapter, which, as noted was not utilized at (these premises).

While AT&T's November 19, 1976 visit did not establish whether the Model 1001 in fact had been connected as of May 1, 1976, some six months earlier, AT&T further noted Automation's own statement in its November 15, 1976 submission:

> The Call Sequencer has remained connected to these phone lines continuously from 3–1–76.

and concluded that therefore, By Automation's own admission, the equipment which it found at the premises visit was the equipment which Automation had claimed was in place as of May 1, 1976 at these premises. The response concluded by again requesting that the Commission reconsider its grant of registration to the Model 1001.

20. On December 16, 1976, Automation submitted a reply to AT&T, supported by affidavits. For the first time, Automation now contended that the Model 1001 in fact is the same equipment as the Model 501–3 Rotary Announcers from the standpoint of Part 68 of our rules (see paras. 8 and 9 supra). According to Automation, the equipment installed at the disputed location was formed of a Model 501–3 rotary announcing device, with additional equipment added to accomplish call sequencing. Thus, Automation claimed that since the Model 501–3 rotary announcer is, without dispute, eligible for "grandfathering" and short-form registration, a modification thereof to add call sequencing functions (to form a Model 1001) did not change that status.

21. Automation replied on several bases. First, it indicated its intention to file an application to authorize the marketing of a modified Model 501–3 (modified to include call sequencing functions) under the trade name "Automation Electronics Co., Model 1001." Second, since in Automation's opinion, the call sequencing device is the same as the Model 501–3 in all respects "pertinent to the technical standards of the Registration Program" it would withdraw the short-form application for registration of the Model 1001 (although already granted) contingent upon our acceptance of the new, name-changing filing, and thereby moot any dispute concerning whether or not the Model 1001 was in fact installed at the disputed premises. In addition, Automation provided what it termed "a full explanation" of the development of the Models 501–3 and 1001, and of the disputed installation.

Automation's December 16, 1976, Explanation

22. The Model 501–3 Rotary Announcer is a means of answering multiple telephone lines and delivering a pre-recorded message. It was sold to movie theaters and similar entities by the Will-Walk Company since that company's founding as a partnership in 1971. It is normally used in conjunction with kev telephone systems, and is connected to the tip/ring and A/A1 connections of such systems through the use of a parallel, 50-position "ribbon" connector. Approximately 200 units of this equipment have been directly connected to the telephone network without harm.

23. In November, 1975, the partnership was dissolved, and one of the former partners acquired all assets of the partnership. He formed a new company, Automation Electronics, to manufacture the Model 501–3, and applied for and received a new California certificate in Automation's name for the product. In this same time period, Automation developed "an additional accessory for the Model 501–3 internal circuitry which doubled the flash rate of calls 'on hold' on the (key telephone system) instruments." [10] According to Automation, the sequencing accessory acted precisely the same as a basic answering device—calls were answered, were given a recorded message (e.g. "your call will be answered in turn"), and put on hold.

24. According to Automation, the addition of the call sequencing accessory to the Model 501–3 involved "no changes in the technical performance of the device required by the CPUC or FCC terminal equipment programs." [11] However, Auto-

[7] Such a petition was filed by Automation on January 6, 1977.

[8] Automation was apparently unaware of this alternative possibility until that meeting.

[9] Subsequently, Pacific Telephone personnel contacted the customer involved and requested the certification number for the equipment; on this basis Automation concludes that the repair-person had reported its presence. In any event Automation regards the repair-person's observation of the equipment as actual notice to Pacific Telephone of the connection.

[10] Affidavit of Automation Electronics Corp, December 16, 1976, p. 6.

[11] Id., p. 7.

V4268 APR 8 77 UMI

mation admitted that the unit with call sequencing functions required a series connection to the key telephone system's lamp leads, which connection was not required unless the call sequencing function was added to the Model 501–3. In Automation's view, this change is not relevant to Part 68 of our rules.

25. As the call sequencing accessory proved to be a popular addition to the Model 501–3, Automation submitted an additional application for California certification under the trade name Model 1001 for the combination of the 501–3 Rotary Announcer and sequencing function accessory.

26. The equipment which was installed at the disputed premises as of May 1, 1976 was in fact the Model 501-3 Rotary Announcer, with additional equipment installed to perform call sequencing. Automation alleged that the modification of the Model 501–3 to add call sequencing was consistent both with the requirements of the California rules and with our rules, regarding changes to certified/registered equipment. Automation further alleged that its citation of this installation as evidence of connection of the Model 1001 as of May 1, 1976 was in good faith, and that this installation qualified the Model 1001 for "grandfathering" and short-form registration. Finally, Automation claimed that the California rules, and telephone company tariffs in California, permit the installation which was performed at the disputed premises—whereby the customer (and not the telephone company) unplugged two telephone company-provided connectors on the existing telephone company key telephone system, and inserted two customer-provided compatible connectors thereto.[12]

27. On January 14, 1977, AT&T submitted a final round of comments. In essence, AT&T responded by continuing to request reconsideration of the registration grant to the Model 1001 on the basic ground that it was ineligible for such registration (and for "grandfathering" treatment).

AT&T Response

28. First, AT&T argued that the Model 1001 is simply not "of a type similar" to the 501–3 equipment, by Automation's own admission, and cannot achieve eligibility for short-form registration and "grandfathering" treatment because of the predecessor equipment's undisputed eligibility for such treatment. By Automation's own admission, the "internal circuitry" of the Model 501–3 was modified (see para. 26, supra), and such modification is inconsistent with the Commission's definitions of "of a type" and "subsequently modified" (see para. 6, supra). In addition, AT&T noted that the added leads which connect to the lamp circuits require evaluation in addition to that of the rotary announcer alone, under Part 68.

[12] On December 17, 1976, Automation submitted the promised notice filing seeking authorization to use the trade name "Model 1001" for a Model 501–3 with call sequencing functions.

29. Second, AT&T argued that even if the equipment installed at the disputed premises is considered equivalent to the Model 1001 for eligibility, that installation itself violated both California's rules, and the applicable telephone company tariffs. Specifically, AT&T referred to § 3.1 of the California Public Utilities Commission's General Order No. 138 which requires notification of the customer to the telephone company of intent to use certified equipment, and to § 1.4 (a) of this Order which requires that connections of customer-provided equipment not require changes in or alterations of the equipment or other facilities of the utility. Moreover, AT&T cited Section II.A.2 of the applicable telephone company tariff which provides:

> Pacific Telephone and Telegraph Company, Schedule Cal. P.U.C. No. 135–T.
>
> II. *Regulations applicable to exchange service.*—A. *General provisions.* 2. All instrumentalities and equipment furnished by the Utility in connection with a customer's service shall be carefully used and only duly authorized employees of the Utility shall be allowed to connect, disconnect, move, change, or alter in any manner, any or all such instrumentalities and equipment.[13]

and referenced other tariff provisions which require the installation of a carrier-provided jack for certified customer-provided equipment, which jack was not ordered at the disputed installation.

Discussion

30. We find from the foregoing that the Model 1001 Call Sequencing System was not connected to the telephone network as of May 1, 1976 under that name or description. Rather, a modified Model 501–3 Rotary Announced was connected to the telephone network.

31. Automation's Call Sequencing System, either under the description Model 1001, or under other description, is not eligible for "grandfathering" status. Automation's admissions establish that the equipment which actually was connected to the telephone network as of May 1, 1976 was not "of a type similar" to the Model 501–3 Rotary Announcer whose "grandfathered" status is not disputed. Thus, the Call Sequencing System (under any designation) must establish its "grandfathered" status independent of the Rotary Announcer.

32. The only connection of the Call Sequencing System to the telephone network, to qualify that equipment as "grandfathered", which has been advanced, is at the disputed premises, and that connection was not performed in accordance with the applicable telephone company tariffs. The disputed installation, by Automation's admission, was performed not by the telephone company, but by others. The action of performing this installation involved disconnection of the telephone company's facilities—in this case the telephone company's key telephone system connectors—and such an operation can only be performed by authorized telephone company employees under the applicable tariff (see para. 29, supra.).

33. Similarly, the Call Sequencing System, either under the description Model 1001 or under other description, is not (and was not) eligible for short-form registration, because it was not directly connected, in accordance with telephone company tariffs, to the telephone network as of May 1, 1976.

34. It would appear, therefore, that our grant under delegated authority of short-form registration to the Model 1001 should be withdrawn, as it was based upon the false assumption that this equipment was in fact eligible for such procedures.

35. Automation's new notice filing seeks the use of the trade name "Model 1001" for its registered Model 501–3 equipment, so that this equipment, as modified, can be marketed as a call sequencing system based upon its outstanding registrations. If a change of trade name alone were involved, absent the entire recital herein of its purpose and effect, we would not be opposed to its acceptance. However, it is clear that the effect of the notice filing is to achieve indirectly that which cannot be achieved directly. Moreover, the notice filing itself is not in conformance with our rules.

36. The two applications in our files governing the Model 501–3 Rotary Announcer make no reference to connections to other equipment. Nor do they make reference to any internal equipment contained in the Rotary Announcer to achieve call sequencing functions. This material on file is inconsistent with Automation's statement contained in the notice filing which states:

> This application requests authority to use an additional trade name for the Will-Walk Co. Model 501–3 rotary announcer (Registration No. AAH 992–62771–AN–N) which will emphasize an existing feature of the device, a call sequencing system.

If in fact that feature is presently "existing", then it is unauthorized. Section 68.214 of our rules provides:

> No changes in registered terminal equipment and registered protective circuitry shall be made without prior written notice to the Commission. If such change in registered terminal equipment or registered protective circuitry results in any change in the information furnished the Commission pursuant to § 68.200, the grantee shall submit a revised application for equipment registration in accordance with § 68.200.

If addition of the call sequencing functions to the Rotary Announcer was accomplished by connection to a new piece of equipment, such connections themselves would change the information furnished us pursuant to § 68.200(g), and would require a new application. If addition of the call sequencing functions was accomplished by modification of the internal design of the Rotary Announcer, § 68.214 would require at a bare minimum a prior notice filing of such change, and probably a full application, in view of the change of purpose of the equipment (§ 68.200(g)) and the addition of new interface leads to the lamp circuits (requiring evaluation under §§ 68.204 and 68.306 as "telephone connections"). No such filing had been received by the Commission until the instant notice filing.

[13] Notice is hereby taken of this tariff provision.

37. Our intention in allowing notice filings, as opposed to full-blown revised applications, is to allow minor changes to be made to registered equipment during manufacture which do not affect compliance with our rules, while retaining a degree of administrative oversight. We did not and do not intend that this become a vehicle for changing a device's fundamental design, function, or purpose. Automation's Call Sequencing System is fundamentally dissimilar to its Rotary Announcer, adds additional circuitry to the Rotary Announcer, adds new interface leads to the Rotary Announcer, and most basically, cannot even be connected to the telephone network through the use of standard plugs and jacks as now specified. The Rotary Announcer can be so connected. The addition of the call sequencing functions to the Rotary Announcer is considerably more than a mere cosmetic change, and would destroy any "grandfatherable" Rotary Announcer unit's "grandfathered" status as well.

38. For this reason, Automation's notice filing dated December 17, 1976, file number 160–CX–77, is hereby rejected and returned as unacceptable for filing. Automation is cautioned not to represent as FCC-registered, or as "grandfathered", any such modification of the Rotary Announcer (whether Will-Walk's or Automation's) unless and until prior authority is received from this Commission for the modification.

39. We do not pursue here any noncomplying modification of the Rotary Announcer which may have already taken place, because it is clear that no call sequencing devices have in fact been connected to the telephone network pursuant to our registration of the Model 501–3; those connections which have occurred were in California, pursuant to the requirements of the California Public Utilities Commission's rules. We are transmitting to the California Public Utilities Commission a copy of this decision for its information.

40. We are faced here with our first formal complaint under Part 68. Accordingly we wish to proceed in an abundance of caution to assure that appropriate procedures are employed. For that reason we shall use show cause procedures herein.[14]

Order

41. Accordingly, and for the reasons heretofore stated, is hereby ordered, that Automation Electronics Corporation shall show cause, within thirty days after receipt of this order why F.C.C. Telephone Equipment Registration No. AAF993–62778–CD–N shall not be rescinded.

42. *It is further ordered,* That AT&T's petition for reconsideration of our grant of F.C.C. Telephone Equipment Registration No. AAF993–62878–CD–N is dismissed, as not in accordance with Section 1.106 of our rules, 47 CFR 1.106.

43. *It is further ordered,* That Automation Electronics Corporation's notice filing dated December 17, 1976, file number 160–CX–77 is hereby rejected and returned.

44. *It is further ordered,* That Automation Electronics Coporation and/or the Will-Walk Company shall cease and desist from representing as "grandfathered" or F.C.C.-registered their Rotary Announcer equipment if modified in violation of § 68.214 of our rules, 47 CFR 68.214.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

[FR Doc.77–10405 Filed 4–7–77;8:45 am]

[14] It should be noted that any withdrawal of registration herein would not be predicated upon any harm to telephone service. It would be based solely upon the equipment's ineligibility for short-form registration. Thus, our election of this procedure in this case should not be construed as precedent against more summary procedures where necessary or appropriate. Moreover, in such a new area, we must retain flexibility to adopt procedures appropriate to the matters before us, 47 U.S.C. 154(j).

[Docket Nos. 21189–21190; File Nos. 4475–C5–P–73, 5056–CM–P–73]

KLOTZ, HOWARD S./CORBUS, WILLIAM, AND MIDWEST CORP.

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

Adopted: March 7, 1977.

Released: April 1, 1977.

In re applications of Klotz, Howard S./Corbus, William, Docket No. 21189, File No. 4475–C5–P–73; and Midwest Corporation, Docket No. 21190, File No. 5056–CM–P–73; for construction permits in the Multipoint Distribution Service for a new station at Tacoma, Washington.

1. The Commission has before it the above-referenced applications of Klotz, Howard S./Corbus, William (Klotz), filed on December 18, 1972 and Midwest Corporation (Midwest), filed on January 10, 1973. Both applications propose Channel 1 operation in the Tacoma, Washington area, and thus are mutually exclusive and require comparative consideration. Both applications have been amended as a result of informal requests of the Commission staff for additional information, and no petitions to deny or other objections to any of the applications have been received.

2. Klotz has twenty-one MDS construction permit applications pending and is permittee in San Bernardino, California; New Haven, Connecticut; and Atlantic City, New Jersey. Midwest, owned by APS, Inc., has MDS applications in twenty cities, including Winston-Salem and Greensboro, North Carolina and is permittee in Greenville, South Carolina.

3. Upon review of the captioned applications, we find that both applicants are legally, technically, financially, and otherwise qualified to provide the services which they propose, and that a hearing will be required to determine, on a comparative basis, which of these applications should be granted.

4. *Accordingly, it is hereby ordered,* That pursuant to section 309(e) of the Communications Act of 1934, as amended, and § 0.291 of the Commission's rules, the above-captioned applications are designated for hearing, in a consolidated proceeding, at a time and place to be specified in a subsequent order, to determine, on a comparative basis, which of the above-captioned applications should be granted in order to best serve the public interest, convenience and necessity. In making such a determination, the following factors shall be considered: [1]

(a) The relative merits of each proposal with respect to service area and efficient frequency use;

(b) The nature of the services and facilities proposed, and whether they will satisfy service requirements known to exist or likely to exist in the Tacoma, Washington area;

(c) The anticipated quality and reliability of the service proposed, including selection of equipment, installation, subscriber security and maintenance;

(d) The charges, regulations and conditions of the service to be rendered, and their relation to the nature, quality and costs of service; and

(e) The managerial and entrepreneurial qualifications of the applicants.

5. *It is further ordered,* That Klotz, Howard S./Corbus, William, Midwest Corporation and the Chief, Common Carrier Bureau, are made parties to this proceeding.

6. *It is further ordered,* That parties desiring to participate herein shall file their notices of appearance in accordance with the provisions of § 1.221 of the Commission's rules.

WALTER R. HINCHMAN,
Chief, Common Carrier Bureau.

[FR Doc.77–10407 Filed 4–7–77;8:45 am]

[1] Consideration of these factors shall be made in light of the Commission's discussion in Peabody Telephone Answering Service, et. al., 55 FCC 2d 626 (1975).

[Docket No. 21179; FCC 77–221]

TELEVISION RECEIVERS

Inquiry Regarding UHF Channel Readout

Adopted: March 24, 1977.

Released: March 25, 1977.

In the matter of UHF Channel Readout on Television Receivers.

Introduction

1. This inquiry is an offspring of proceedings in Docket 20719, which dealt with the accuracy of UHF television tuning systems. A number of the comments in that proceeding addressed the question of channel readout on UHF television receivers. Because the notice of proposed rulemaking did not propose changes in readout requirements, those comments could not be dealt with in the Report and Order in that proceeding (FCC 76–1063, 61 FCC 2d, 41 FR 52458,

V 4 2168 APR 8 77 UMI

November 30, 1976). We nevertheless recognized that the comments posed some legitimate questions concerning readout requirements and noted that, "These matters will be addressed in another proceeding in which all interested parties will be afforded an opportunity to comment."

2. The comments regarding channel readout in Docket 20719 were addressed to receivers equipped with 70-position UHF tuners in which the channel numbers are displayed on the face of the tuning knob. The substance of the comments was summarized as follows in paragraph 16 of the Report and Order:

> First the complaint is that our rules permit only every other UHF channel number to be displayed, with marks between numbers to indicate the channels not displayed numerically (see § 15.68(d)(1)). Secondly, it is complained that the numbers are small in size and closely spaced, so that it is difficult to determine what channel has been tuned. Third, it is said that superior on-the-knob channel displays are available for minimal additional cost.

3. Our purpose here is to set out some preliminary views on the subject of channel readout and to solicit comment from interested persons. On the basis of our preliminary analysis, we are uncertain as to what, if any, changes should be made in our rules, and are therefore not proposing specific rule amendments. If the comments make a persuasive case for change, specific amendments which seem desirable will be made the subject of a Notice of proposed rulemaking, so that interested persons may focus on the specifics.

DISCUSSION

4. The mode of channel display complained of appears to be predominant in the small portable market and to be used in some larger receivers. It consists simply of a circle of channel numbers extending around the circumference of the UHF tuning knob. In most cases, 35 channel numbers are displayed. In some cases, two concentric circles of numbers are used to display 70 channel numbers, as illustrated below.

5. In such a channel display, the channel numbers are small and closely spaced for the purpose intended. Some people with less than perfect vision would have trouble in reading them. Many people would have difficulty at a distance greater than two feet. They are smaller than the VHF channel numbers and well below the optimum size. The spacing is undesirably close. On the other hand, most people have no difficulty in tuning receivers with this type of channel display, and we have never received a complaint from a receiver owner. People with limited vision will presumably select a receiver which displays larger channel numbers. We have no reason to believe that the display of every other channel has any material effect on the viewing of channels not displayed numerically. Clearly, a requirement that all 70 UHF channels (140 digits) be numerically displayed, that the numbers be the same size as VHF numbers, and that they be more widely spaced would preclude this mode of channel display, which is preferred by receiver manufacturers and is apparently accepted by the public.

6. An alternative channel readout system is said to be available that utilizes two concentric discs, one for the units and one for the ten digits. In its comments in Docket 20719, Sarkes Tarzian states that such a system costs about 5 or 10¢ more than the system with all of the numbers on one disc. Since only ten numerals must be shown on the units disc (0–9) and only eight need be shown on the tens disc (1–8),[1] the numbers can easily be made the same size as the VHF channel numbers and every UHF channel number can be represented numerically. Such a system can be designed so that only the channel tuned is displayed and there is of course no doubt as to the channel which has been tuned.

7. In its reply comments in Docket 20719, on the other hand, General Instrument (GI) states that concentric disc readouts were available from GI and Sarkes Tarzian for nearly four years but were dropped, after considerable use, in favor of the more trouble free single disc alternate channel readout. GI states that problems were encountered in aligning the units and ten digits and the result was "very objectionable and confusing to the customer." GI further notes that numbers around the dial (other than the channel tuned) follow no logical sequence and are confusing to the viewer.[2] It suggests further that there may be a tradeoff between use of this readout mechanism and tuning accuracy.

8. On the basis of the information on hand, the difficulties recounted by GI do not seem to be insurmountable. Alignment errors we have seen—the tens digit will be somewhat higher or lower than the units digit—seem at worst annoying and presumably could be eliminated or minimized through improvements in design and manufacture. The illogical series of numbers around the dial could presumably be eliminated by covering or blacking the dial except where the channel tuned is displayed. These would seem to be minor problems, though their elimination could increase the cost of the readout mechanism. However, any tradeoff between use of a concentric disc readout mechanism and detented tuning accuracy is a more serious matter. The concentric disc readout mechanism is somewhat more complex, and any additional complexity tends to degrade performance. The question is whether use of this mechanism would have a significant adverse effect on detented tuning accuracy or would pose problems with regard to certifying the tuning accuracy of receivers. More detailed and definite information is needed on these matters.

9. The foregoing discussion of the single and concentric disc mechanisms follows from the fact that they were discussed in the comments in Docket 20719. Comments are invited on any readout mechanism which will improve the legibility of the on-the-knob UHF channel displays. If requirements are eventually adopted, they will go to such matters as the size and spacing of UHF channel numbers and not to the specific method for achieving the desired results.

10. We ask that the comments submitted address the following questions:

(a) Can it be shown that UHF channel displays now in use have any material adverse effect on UHF channel viewing and thus relate to the purposes of the All Channel Receiver Law, 47 U.S.C. 303(s) and 330?

(b) Assuming adverse effect can be shown, how significant is it and does it justify the Commission's precluding use of a mode of channel display preferred by receiver manufacturers and apparently acceptable to the public?

(c) Would use of the two concentric disc system have any material effect on detented UHF tuning accuracy and, if so, how much effect and would it pose problems in certifying the tuning accuracy of receivers? Can design improvements limit or eliminate any such problems?

(d) What financial burden (redesign, retooling, etc.) would be involved in switching to use of an improved channel readout system such as the two concentric disc readout; more specifically, what would be the added cost to the manufacturer? To the consumer? How would this compare with the current and prospective cost of digital electronic tuning? (See para. 15 of the Report and Order in Docket No. 20719.)

(e) Considering design and tooling problems and the size of current inventories of tuning knobs, over what period of time could use of the two concentric disc channel display be phased in without waste and unnecessary financial burden?

(f) Over what period of time, and to what degree, is it expected that digital electronic tuning will replace current electromechanical tuning systems.

(g) In view of the length of time it will take to phase in an improved channel readout system for the electromechanical tuner (such as the two concentric disc channel display) and the anticipated imminence of the digital channel selection system, can the required use of an improvd channel readout system for the electromechanical tuner be justified.

[1] By comparison, the single disc VHF dial must accommodate 16 digits, and a single disc dial with numerical display of 70 UHF channels would have to accommodate 140 digits.

[2] In a sample made available to the Commission, when the readout was set at Channel 26, the following additional numbers appeared on the dial, reading clockwise: 15, 4, 3, 82, 71, 60, 59, 48, and 37.

(h) Assuming use of the current mode of channel display is not precluded, what requirements might be reasonably imposed as to the size and spacing of the channel numbers?

11. Pursuant to procedures set out in § 1.415 of the rules and regulations, 47 CFR 1.415, interested persons may file comments in this proceeding on or before May 9, 1977 and reply comments on or before May 23, 1977. Comments and reply comments will be available for inspection at the Commission's Dockets Reference Room at its headquarters in Washington, D.C. All relevant and timely comments and reply comments will be considered by the Commission prior to final action in this proceeding. In reaching its decision, the Commission may take into consideration other relevant information before it, in addition to the specific comments invited by this Notice. Formal participants shall file an original and 5 copies of their comments, reply comments and other materials. Participants wishing each Commissioner to have a personal copy may file an original and 11 copies. Members of the general public who wish to express their interest by participating informally may do so by submitting one copy.

FEDERAL COMMUNICATIONS COMMISSION,[1]
VINCENT J. MULLINS,
Secretary.

[FR Doc.77-10406 Filed 4-7-77;8:45 am]

[Docket No. 21184]

WAYNE J. FRANCO

Order Designating Application for Hearing on Stated Issues

Adopted: March 28, 1977.

Released: April 5, 1977.

In the matter of the application of Wayne J. Franco, 501 Grandview, Des Moines, Iowa 50313, Docket No. 21184, for renewal of license for Citizens Band Radio Station KEN-4198.

1. The Chief, Safety and Special Radio Services Bureau, having under consideration the application of Wayne J. Franco for renewal of license of station KEN-4198 in the Citizens Band Radio Service. The license for station KEN-4198 was issued on November 2, 1971, for a five-year term.

2. On September 1, 1972, a written Notice of Apparent Liability to Monetary Forfeiture for violation of Commission rules was mailed to the applicant, pursuant to section 510 of the Communications Act of 1934, as amended. That Notice stated that the applicant appeared to have incurred liability totalling $300 for the wilful violation of § 95.95 (c)[1] (failure to identify), § 95.83(b) (attempting to communicate with a station over a distance greater than 150 miles), § 95.41(d)(2) (interstation use of an intrastation frequency), and § 95.37(c)(2) (overheight antenna) of the Commission's rules. Those violations had been committed on June 21, 1972. Franco enclosed full payment of the forfeiture with his September 28, 1972, reply to the Notice of Apparent Liability.

3. In addition, on September 16, 1976, the applicant entered a plea of guilty in the United States District Court for the Southern District of Iowa to the charge that:

> On or about the 20th day of August 1976, Wayne J. Franco, defendant, an individual, operating under a Citizen's Radio Service Class D license issued by the Federal Communications Commission, and subject to the regulations lawfully issued by said Federal Communications Commission, did operate a radio transmitter from the premises known as 501 Grandview, Des Moines, Iowa, in the Southern District of Iowa and, in the operation of said transmitter, operated the radio station with capabilities for transmissions on frequencies not assigned to the Class D Citizen's Radio Service, to-wit: 27.345 MHz, 27.405 MHz, and 27.475 MHz, in violation of 47 CFR 95.55(c)(4) and 47 U.S.C. Section 502.

4. In addition, Franco apparently operated a CB radio station again in wilful violation of the Commission's Rules on May 15, 16, and 18, 1975. In particular, it appears that CB radio station KEN-4198 was operated in wilful violation of the following sections of the Commission's rules:

(a) Section 95.41(d)(1).—Use of a radio frequency not authorized for the Citizens Band Radio Service.

(b) Section 95.41(d)(2).—Interstation communication on a frequency reserved for intrastation use.

(c) Section 95.44.—The station employed an external radio frequency power amplifier.

(d) Section 95.55(c)(4).—The station was equipped to operate on frequencies not assigned to the Citizens Band Radio Service without having a station license posted or a transmitter identification card attached to the transmitter indicating that operation on such frequencies had been authorized by the Commission.

(e) Section 95.55(e).—The station employed a transmitter having controls accessible from the exterior of the cabinet enclosing the transmitter which controls could cause operation in violation of the technical regulations applicable to the Citizens Band Radio Service.

(f) Section 95.83(a)(1).—Use of station as a hobby or diversion.

(g) Section 95.83(a)(5).—Use of station for communication with unlicensed station.

(h) Section 95.83(a)(13).—Use of station for transmission of communications relating to the technical performance, capabilities, or testing of radio equipment.

(i) Section 95.83(b).—Communicating, or attempting to communicate, over a distance of more than 150 miles.

(j) Section 95.83(b).—Communication with another CB radio station for a period exceeding five minutes.

(k) Section 95.91(b).—Failure to observe a five minute silent period between contacts.

(l) Section 95.95(c).—Failure to identify subject station and station with which in communication by assigned call signs at the beginning and end of each communication.

(m) Section 95.35(d).—User modification of the type accepted station transmitting equipment employed by the station

The above-mentioned violations of the Commission's rules on May 15, 16, and 18, 1975, were brought to the licensee's attention by an Official Notice of Violation mailed on June 6, 1975.

5. Furthermore, on May 15, 1975, Franco apparently identified his Citizens Band radio station "29W29" and on May 16, 1975, Franco apparently identified his Citizens Band radio station as "two nine W two nine" in lieu of its assigned call sign.

6. In view of the June 21, 1972, violations, the September 17, 1976, conviction for violation of 47 CFR 95.55(c)(4) and 47 U.S.C. Section 502, and the apparent wilful violations of the Commission's Rules on May 15, 16, and 18, 1975, it cannot be determined that a grant of Franco's application would serve the public interest, convenience, and necessity. Therefore, the Commission must designate the application for hearing.

7. *Accordingly, it is ordered,* Pursuant to sections 309(e) of the Communications Act of 1934, as amended, and §§ 1.973(b) and 0.331 of the Commission's rules, that the captioned renewal application is designated for hearing, at a time and place to be specified by subsequent Order, upon the following issues:

(a) To determine the effect of applicant's June 21, 1972, violations of Part 95 of the Commission's Rules and Regulations upon the applicant's requisite qualifications to be a licensee of the Commission.

(b) To determine the effect of Franco's September 17, 1976, conviction of the charge of violation of 47 U.S.C. 502 and 47 CFR 95.55(c)(4) in the United States District Court, Southern District of Iowa, upon the applicant's requisite qualifications to be a licensee of the Commission.

(c) To determine the facts and circumstances concerning the operation and condition of Citizens Band radio station KEN-4198 on May 15, 16, and 18, 1975.

(d) To determine, in light of the evidence adduced pursuant to the foregoing issue, whether the applicant has wilfully or repeatedly violated the Commission's rules.

(e) To determine, in light of the evidence adduced pursuant to the foregoing issues, whether the applicant has the requisite qualifications to be a licensee of the Commission.

(f) To determine whether the public interest, convenience and necessity would be served by a grant of the application for a Citizens Band radio station license.

8. *It is further ordered,* That, to avail himself of the opportunity to be heard, the applicant herein, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney, shall within 20 days of the mailing of this Order file with the Commission, in triplicate, a written appearance stating an intent to appear on the date fixed for hearing and to present evidence on the isues specified in this Order.

GERALD M. ZUCKERMAN,
Chief, Legal, Advisory and Enforcement Division.

[FR Doc.77-10408 Filed 4-7-77;8:45 am]

[1] Commissioners Wiley, Chairman; and White concurring in the result.

[1] Certain Sections of Part 95 of the Commission's Rules have been revised, renumbered, or deleted. The Sections referred to herein are those in effect at the time of operation.

V 42 68 APR 8 77 UMI

FEDERAL ENERGY ADMINISTRATION

CASES FILED WITH THE OFFICE OF EXCEPTIONS AND APPEALS

Week of March 13 Through March 25, 1977

Notice is hereby given that during the week of March 18 through March 25, 1977, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Federal Energy Administration's Office of Exceptions and Appeals.

Under the FEA's procedural regulations, 10 CFR, Part 205, any person who will be aggrieved by the FEA action sought in such cases may file with the FEA written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first.

ERIC J. FYGI,
Acting General Counsel.

APRIL 1, 1977.

APPENDIX.—*List of cases received by the Office of Exceptions and Appeals, week of Mar. 18 through Mar. 25, 1977*

Date	Name and location of applicant	Case No.	Type of submission
Mar. 17, 1977	American Can Co., Greenwich, Conn. (If granted: American Can Co. would not be included as one of the 50 most energy-consumptive corporations within SIC code 28 and the firm would be exempted from the sec. 375(a) requirement that it report its progress in improving energy efficiency to the FEA.)	FEA–1232	Appeal of FEA notice at 41 FR 54977 Dec. 16, 1976).
Do	Crane Co., New York, N.Y. (If granted: Crane Co. would not be included as one of the 50 most energy-consumptive corporations within SIC code 33 and the firm would be exempted from the sec. 375(a) requirement that it report its progress in improving energy efficiency to the FEA.)	FEA–1233	Appeal of FEA notice at 41 FR 51977 (Dec. 16, 1976).
Mar. 18, 1977	Boston Gas Co., Washington, D.C. (If granted: Boston Gas Co would receive an extention of the relief granted by the FEA regional office in Boston, Mass. on Mar. 8, 1974.)	FXE–3097	Extension of exception relief granted in Boston Gas Co., 5 FEA par. ..... (Feb. 16, 1976).
Do	Continental Oil Co., Houston, Tex. (If granted: Continental Oil Co. would be permitted to allocate certain increased costs of crude oil to covered products received by Continential in product exchanges for purposes of calculating the maximum allowable prices for such covered products.)	FEE–3068	Price exception (sec. 212.83).
Do	Dorie Petroleum, Inc., Washington, D.C. (If granted: Dorie Petroleum, Inc., would receive an extension of the relief granted in the FEA's Nov. 5, 1976, decision and order to permit Dorie to increase its prices to reflect nonproduct cost increases in excess of $0.005 gal for natural gas liquid products produced at its Hennessey and Newcastle gas plants.)	FXE–4011 FXE–4012	Extension of the relief granted in Dorie Petroleum, Inc., 4 FEA par. (Nov. 5, 1976).
Do	Gary Western Co., Inglewood, Colo. (If granted: Gary Western Co. would be granted a temporary stay of the provisions of sec. 212.83 pending a final determination of an exception application which it intends to file.)	FST–0037	Request for temporary stay.
Do	Little America Refining Co., Washington, D.C. (If granted: Little America Refining Co. would receive an exception to permit the firm to use the alternative accounting cost valuation set forth in sec. 212.83(c)(2)(iii) in pricing motor gasoline and diesel fuel.)	FEE–3099	Price exception (sec. 212.83).
Mar. 21, 1977	Crawford's Service Center, Bloomsburg, Pa. (If granted: Crawford's Service Center would be supplied motor gasoline by Leighow Oil Co. rather than its base period supplier, Tri-County Oil Co.)	FEE–4019	Exception to change suppliers (sec. 211.9).
Do	Edwin L. Cox, Dallas, Tex. (If granted: Crude oil produced from the Seward LeJeune lease located in Jeff Davis Parish, La., would be sold at upper tier ceiling prices.)	FEE–4014	Price exception (sec. 212.73).
Do	Intercoastal Operating Co., Austin, Tex. (If granted: Crude oil produced from the J. R. Rosson lease located in San Patricio County, Tex., would be sold at upper tier ceiling prices.)	FEE–4013	Do.
Do	Louis Kahan, Tulsa, Okla. (If granted: Crude oil produced from the Mose Bean lease located in Seminole County, Okla. would be sold at upper tier ceiling prices.)	FEE–4000	Price exception (sec. 212.74).
Do	Luke Brothers, Inc., Calera, Okla. (If granted: Luke Brothers, Inc., would receive a stay of the refund requirements of the remedial order issued to the firm by FEA region VI on Oct. 5, 1976, pending judicial review.)	FES–0083	Stay of the remedial order issued by region VI on Oct. 5, 1976.
Do	Placid Oil Co., Dallas, Tex. (If granted: Placid Oil Co. would be permitted to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at its Black Lake, Calumet, Lapeyrouse, Lake Washington, Lirette, Patterson, Prentice, Promix, Womack Hill, and Yscloskey gas plants.)	FEE–4001— FEE–4010	Price exception (sec. 212.165).
Do	Robbins, Ernest C., Bloomsburg, Pa. (If granted: Mr. Ernest C. Robbins would be supplied motor gasoline by Leighow Oil Co. rather than his base period supplier, Tri-County Oil Co.).	FEE–4018	Exception to change suppliers (sec. 211.9).
Do	Superior Oil Co., Houston, Tex. (If granted: Superior Oil Co. would be permitted to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at its Lowry gas plant.)	FEE–4020	Price exception (sec. 212.165).
Do	Walt's Exxon, Bloomsburg, Pa. (If granted: Walt's Exxon would be supplied motor gasoline by Leighow Oil Co. rather than its base period supplier, Tri-County Oil Co.)	FEE–4017	Exception to change suppliers (sec. 211.9).
Do	West End Service Station, Bloomsburg, Pa. (If granted: West End Service Station would be supplied motor gasoline by Leighow Oil Co. rather than its base period supplier, Tri-County Oil Co.)	FEE–4016	Do.
Do	Yogie's Exxon, Bloomsburg, Pa. (If granted: Yogie's Exxon would be supplied motor gasoline by Leighow Oil Co. rather than its base period supplier, Tri-County Oil Co.)	FEE–4105	Do.

Date	Name and location of applicant	Case No.	Type of submission
Mar. 23, 1977	Colonial Oil Co., Jacksonville, Fla. (If granted: Colonial Oil Co. would receive an extension of the relief granted in Colonial Oil Co., 4 FEA par. 83,213 (Nov. 30, 1976).	FXE–4022	Extension of the relief granted in Colonial Oil Co., 4 FEA par. 83,213 (Nov. 30, 1976).
Do	Gary Western Co., Inglewood, Colo. (If granted: Gary Western Co. would receive a stay of the provisions of sec. 212.83 pending a final determination of an exception application which it intends to file.)	FES–4033	Stay of the requirements of 10 CFR 212.83(c)(2)(iii)(E).
Do	Getty Oil Co., New York, N.Y. (If granted: FEA's Mar 16, 1977, decision and order would be rescinded.)	FMR 0095	Modification rescission of FEA's decision and order in Getty Oil Co., 5 FEA par. ..... (Mar. 16, 1977).
Do	Grier Oil Co., Aberdeen, Md. (If granted: Relief granted in the FEA's Mar 8, 1977, decision and order would be rescinded.)	FEX 0134	Supplemental order to FEA's decision and order in Grier Oil Co., 5 FEA par. ..... (Mar. 8, 1977).
Do	Power Test Corp., Westbury, N.Y. (If granted: Power Test Corp. would be permitted to import 4,552 bbl/d of finished products into districts I-IV on a fee-free basis during the allocation period May 1, 1977, through Apr. 30, 1978.)	FPT–0111	Exception from the base fee requirements (sec. 213.35).
Do	Sun Co., Inc., Philadelphia, Pa. (If granted: Relief granted in FEA's Feb. 25, 1977, decision and order would be modified.)	FMR 0091	Modification of the relief granted in Amtel Inc., 5 FEA par. .. (Feb. 25, 1977).
Do	Villarreal Butane Co., Austin, Tex. (If granted Remedial order issued by region VI on Feb. 8, 1977, would be rescinded and Villarreal Butane Co. would not be required to refund overcharges made in its propane sales.)	FRA 1234	Appeal of the remedial order issued by region VI on Feb. 8, 1977.
Mar. 24, 1977	Hagee-Lewis Petroleum Co., Long Beach, Calif. (If granted: Crude oil produced from the El Segundo No. 2 well located in Los Angeles County, Calif., would be sold at upper tier ceiling prices.)	FEE–4024	Price exception (sec. 212.73).
Do	Hocker Oil Co., Salem, Mo. (If granted: Hocker Oil Co. would receive an increase in its adjusted base period use of motor gasoline.)	FEE–4027	Allocation exception (sec. 211.13(e)).
Do	Mobridge Gas Co., Mobridge, S. Dak. (If granted: FEA's decision and order issued to Mobridge Gas Co. on Feb. 8, 1977, would be rescinded.)	FEX–0135	Supplemental to FEA's decision and order in Mobridge Gas Co., 5 FEA par. ..... (Feb. 8, 1977).
Do	New York Transit Authority, Brooklyn, N.Y. (If granted: FEA's Mar. 3, 1977, information request denial would be rescinded and the New York Transit Authority would receive access to FEA documents concerning a notice of probable violation issued to Amoco.)	FFA–1235	Appeal of the FEA's information request denial dated Mar. 3, 1977.
Do	Phillips Petroleum Co., Bartlesville, Okla. (If granted: Phillips Petroleum Co. would be permitted to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at its Goldsmith and Lusk gas plants.)	FEE–4025 FEE–4026	Price exception (sec. 212.165).
Do	Rock Island Refining Corp., Indianapolis, Ind. (If granted: FEA would review the entitlements exception relief granted to Rock Island Refining Corp. during its 1976 fiscal year in order to determine whether the level of exception relief approved was appropriate.)	FEX 0130	Review of entitlements exception relief.
Do	Shell Oil Co. (Tippett), Houston, Tex. (If granted: FEA's Mar. 11, 1977, decision and order would be rescinded and the Shell Oil Co., would be permitted to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Tippett plant.)	FXA 1236	Appeal of decision and order in Shell Oil Co., 5 FEA par. (Mar. 11, 1977).
Do	Texaco, Inc., Atlanta, Ga. (If granted: Texaco, Inc., would be relieved of its base period supply obligation to furnish motor gasoline to F. E. (Jack) Glover, Inc.)	FEE 3985	Exception to terminate base period supplier/purchaser relationship (Sec. 211.9).

CERTIFICATES OF FINANCIAL RESPONSIBILITY (OIL POLLUTION)

Certificates Issued

Notice is hereby given that the following vessel owners and/or operators have established evidence of financial responsibility, with respect to the vessels indicated, as required by Section 311(p)(1) of the Federal Water Pollution Control Act, and have been issued Federal Maritime Commission Certificates of Financial Responsibility (Oil Pollution) pursuant to Part 542 of Title 46 CFR.

[Independent Ocean Freight Forwarder License No. 450]

IRA FURMAN & CO., INC.

Order of Revocation

By letter dated March 1, 1977, Mr. Richard L. Furman, Ira Furman & Company, Inc., 120-65 168th Street, Jamaica, New York 11434, was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 450 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before March 30, 1977.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4 further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Ira Furman & Company, Inc., has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised) Section 5.01 (c) dated June 30, 1975;

It is ordered, That Independent Ocean Freight Forwarder License No. 450 issued to Ira Furman & Company, Inc. be returned to the Commission for cancellation.

It is further ordered, That Independent Ocean Freight Forwarder License No. 450 be and is hereby revoked effective March 30, 1977.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Ira Furman & Company, Inc.

LEROY F. FULLER,
Director, Bureau of Certification and Licensing.

[FR Doc.77-10445 Filed 4-7-77;8:45 am]

FEDERAL POWER COMMISSION

[Docket No. CS71-704]

BEREN CORP.

Petition

APRIL 4, 1977.

Take notice that Beren Corporation (Beren), 970 Fourth Financial Center, Wichita, Kansas 67202, filed a petition for waiver of § 157.40(c) of the Commission's Regulations of Practice and Procedure. Beren requests waiver of § 157.40 (c) to authorize Beren to sell, under its small producer certificate issued in Docket No. CS71-704, natural gas to Cities Service Gas Company (Cities Service) from developed reserves underlying four wells in the Hardtner Field, Barber County, Kansas, which Beren acquired from two large producers.

By assignment effective November 1, 1971, Beren acquired Amerada Hess Corporation's interest in three wells in the Hardtner Field, Barber County, Kansas: the Sterling No. 1, the Johnson No. 1, and the Rathgeber No. 1. Prior to this assignment, Amerada Hess sold the gas produced to Cities Service under a contract dated October 7, 1955, on file as Amerada Hess FPC Gas Rate Schedule No. 43, and pursuant to a certificate of public convenience and necessity issued in Docket No. G-9488. The contract expired by its own terms on December 4, 1975. On December 7, 1976, Beren and Cities Service executed a replacement contract, providing for a current base price of 53 cents per Mcf, subject to adjustment for Btu content and tax reimbursement. The contract also contains an "area/national rate" adjustment clause. Sales from the Sterling Well currently average approximately 96 Mcf per day; from the Johnson Well, 46 Mcf per day, and from the Rathgeber Well, 99 Mcf per day.

By assignment effective July 1, 1975, Beren acquired Sun Oil Company's interest in the DNM Grain No. 1 Well, Hardtner Field, Barber County, Kansas. Prior to this assignment, Sun sold the gas produced to Cities Service under a contract dated August 30, 1955, on file as Sun FPC Gas Rate Schedule No. 69, and pursuant to a certificate of public convenience and necessity issued in Docket No. G-20065. This contract expired by its own terms on December 1, 1975. On August 28, 1976, Beren and Cities Service executed a replacement contract containing pricing provisions identical to the 1976 contract covering sales from the Sterling, Johnson, and Rathgeber Wells. Sales from the DNM Grain Well currently average approximately 83 Mcf per day.

Beren submits that because there is only a small amount of production from each of the four wells involved, and there will be no rate impact as a result of the waiver because Beren will continue sales to Cities Service at the just and reasonable nationwide rate for gas sales made by large producers, Section 157.40(c) of the Commission's Regulations should be waived.

Any person desiring to be heard or to make any protest with reference to said petition should on or before April 21, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.77-10416 Filed 4-7-77;8:45 am]

V 42168 APR 8 77 UMI

[Docket No. RP77-50]

CITY OF TALLAHASSEE FLORIDA GAS TRANSMISSION CORP.

Order Establishing Procedures for Resolution of Data Classification Problems in Preparation of FPC Form 69

APRIL 4, 1977.

Form 69 was instituted by Commission Order No. 531 in Docket No. R-472 on June 25, 1975. In that order the Commission resolved that this form is required in order to determine the extent to which alternate fuels may be utilized to meet the requirements of those end-use customers who will not be able to continue to satisfy their energy needs with natural gas due to the imposition of increasing levels of curtailment upon such customers by interstate pipeline companies or foreign supplies of natural gas.

The information contained in Form 69 is used by the Commission [1] in meeting its responsibilities under the Natural Gas Act where it has a mandate to require that those pipeline companies subject to its jurisdiction adopt curtailment plans that are in the national and public interest.[2]

The Commission requires this information in support of its continuing endeavor to develop curtailment plans for interstate pipelines and their customers that are required and in the public interest and to determine both in specific cases and on a general basis how to minimize the harmful impact that the gas supply deficiency may have on the various sectors of the nations industrial complex. Both this Commission and the FEA require this information in order to fulfill the important statutory obligations with which they are charged.

It has come to the attention of this Commission that a misunderstanding has arisen between Florida Gas Transmission Company (Florida Gas) and the City of Tallahassee, Florida (Tallahassee) concerning the percentage of alternate fuels used to offset curtailments of natural gas at the Wakulla delivery point. The Form 69 Schedule 1 filed by Florida Gas shows a Code 30, meaning the gas is not required to be offset by other fuels. Tallahassee informed the FPC thru letters that Florida Gas should have used Code 25, which indicates substantial quantities of purchased electricity are made to offset natural gas curtailment. Florida Gas shows in its Form 69 no purchases of electricity being made by Tallahassee to offset the natural gas curtailments reported.

In order to resolve this confusion we shall convene a conference where representatives of Florida Gas and Tallahassee can present their points of view to members of the Commission Staff and representatives of the FEA. We specifically invite those members of the FEA who use this form on a routine basis to participate in this conference. It is our hope that this matter can be resolved amicably to the satisfaction of those who prepare the forms and the governmental agencies which use the forms. We shall order the FPC staff to prepare a report at the conclusion of the conference stating the resolution reached by the parties. In the event this matter cannot be resolved informally we shall reserve the right to convene a formal hearing on this matter.

The Commission finds: Good cause exists to convene an informal conference to resolve the data classification problems which have arisen between Florida Gas and Tallahassee.

The Commission orders: On April 15, 1977, at 10 a.m. an informal conference will be convened of all interested persons including representatives of Florida Gas, Tallahassee, FEA and the FPC Staff, for the purpose of explaining, clarifying and resolving those problems encountered in the preparation of FPC Form No. 69.

The conference will be held in a meeting room at the office of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C.

All interested persons are invited to attend, but attendance will not be deemed to authorize intervention as a party in this proceeding.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-10426 Filed 4-7-77;8:45 am]

[Docket No. ER77-267]

KANSAS GAS & ELECTRIC CO.

Changes in Tariff

APRIL 4, 1977.

Take notice that Kansas Gas and Electric Company on March 28, 1977 tendered for filing proposed changes in its Federal Power Commission Electric Service Tariff No. 93.

Kansas Gas and Electric Company states that the filing is Service Schedule L, Interim Power Service which provides electric power and accompanying energy to be supplied June 1, 1977 through May 31, 1978 to the Kansas Power and Light Company as a result of the installation of a specific 630 mw steam electric generating unit identified as La Cygne Unit No. 2. Kansas Gas and Electric indicates that it desires to sell 12 mw of capacity to the Kansas Power and Light Company to reduce its excess reserves.

Copies of the filing were served upon the Kansas Power and Light Company and the Utilities Division of the State Corporation Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with paragraph 1.8 and 1.10 of the Commission's Rules and Practice of Procedure (18 CFR 1.8, 1.10). Such petitions or protests should be filed on or before April 20, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.77-10419 Filed 4-7-77;8:45 am]

[Docket No. CS77-79]

D. B. McCLINTON

Petition

APRIL 4, 1977.

Take notice that D. B. McClinton (Applicant), P.O. Box 97, Livonia, Louisiana 70755, filed a petition for waiver of Section 157.40(c) of the Commission's Regulations of Practice and Procedure. Applicant requests waiver of Section 157.40(c) to permit sales under his successor application pursuant to his small producer certificate in Docket No. CS77-79 to the extent the ceiling price is applicable to comparable sales by large producers.

On November 15, 1976, Applicant filed an application for a small producer certificate in Docket No. CS77-79. A successor application was also filed on behalf of D. B. McClinton, Operator, et al., as the purchaser of the interest of Chevron Oil Company, et al., in the St. Martinville Field of St. Martin Parish, Louisiana, which was assigned Docket No. CI77-113.

By amendment dated December 1, 1976, between United Gas Pipeline Company and Applicant, Applicant states its willingness to continue sales at the contract rate or the applicable ceiling rate established by the Commission for comparable sales by large producers.

Any person desiring to be heard or to make any protest with reference to said petition should on or before April 21, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties

[1] Form 69 was developed in cooperation with the Federal Energy Administration (FEA) and the National Association of Regulatory Utility Commissioners. It is intended to provide information on the alternate fuel needs of direct end-users due to natural gas curtailments. Most sales to direct end-users are made by companies not subject to FPC jurisdiction. Hence, the FEA in its counterpart form collects similar information from such nonjurisdictional companies on its Form G101 series. The Form 69 information collected by the FPC from jurisdictional companies is sent to FEA which processes and computerizes all the information from virtually all the gas distributors and pipeline companies in the country. The FPC and the FEA need this information to determine the impact of natural gas curtailments.

[2] *FPC v. Louisiana Power & Light Co.*, 406 U.S. 621 (1972).

to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.77-10418 Filed 4-7-77;8:45 am]

[Docket No. RP77-35]

SENATOR HOWARD METZENBAUM (COMPLAINANT) v. COLUMBIA GAS TRANSMISSION CORPORATION (DEFENDANT)

Order Instituting Investigation and Hearing Prescribing Procedures, and Granting Interventions

MARCH 31, 1977.

On February 11, 1977, United States Senator Howard M. Metzenbaum filed a letter requesting that this Commission order Columbia Gas Transmission Corporation (Columbia) to show cause why it should be permitted to pass on to its customers the additional cost incurred by reason of Columbia's alleged errors in judgment resulting in purchases of expensive emergency gas supplies during the past winter. Senator Metzenbaum's letter was treated as a complaint by the Commission and was immediately forwarded by the Commission's Secretary to Columbia for response within 15 days. Columbia's response in the form of an affidavit by William H. Howard, Senior Vice President, was filed with the Commission on February 28, 1977.

Public notice of the complaint was issued by the Commission on February 17, 1977, providing for protests or petitions to intervene to be filed on or before February 28, 1977. Timely petitions to intervene have been filed by the Columbia Gas Distribution Companies and the Consumer Federation of America. Untimely petitions to intervene have been filed by The Cincinnati Gas & Electric Company and The Union Light, Heat and Power Company; the State of Louisiana; the Public Utilities Commission of Ohio; the Ohio Public Interest Research Group; Ohioans for Utility Reform, Inc.; Ohio State UAW-CAP Council; Pennsylvania Gas and Water Company; the Division of Consumer Counsel of the Office of the Attorney General of Virginia; the Commonwealth of Virginia; Congressman Don J. Pease, and Congressman Thomas A. Luken. The above-named petitioners have demonstrated an interest in this proceeding and their participation is in the public interest. The petitions to intervene shall accordingly be granted.

In his complaint, Senator Metzenbaum requests the Commission to investigate actions by Columbia which allegedly constitute poor business judgment and which necessitated the purchase by Columbia of additional expensive emergency supplies during the past winter. Specifically, the complaint alleges that Columbia cancelled its October system-wide curtailment of 21.2 Bcf, based on its opinion that there would be a surplus of gas in storage as of October 1, 1976, and upon its forecast of mild winter weather, and also that cancellation of October curtailment resulted in excess sales of 20.7 Bcf during October to industrial users with alternate fuel sources. The complaint further states that by reason of these excess sales, and a pre-existing shortfall in reserves as of November 1, 1976, Columbia began the peak winter season with a shortage in storage inventory of approximately 24 Bcf. The complaint further alleges that these actions caused Columbia Gas of Ohio, Inc., a distributor affiliate of Columbia, to close schools and industries in Ohio in January 1977, and to announce increased curtailment levels for the remainder of the winter. Therefore, Senator Metzenbaum urges the Commission to require Columbia to show cause why it should be permitted to flow through to its customers the additional costs incurred through its own alleged errors in judgment.

In its response of February 28, 1977, Columbia argues that its actions during the past winter were prudent and consistent with the public interest. Columbia states that it did temporarily suspend curtailments from September 27, 1976, through the end of October, 1976, but that its actions were justified under the circumstances. In September, according to Columbia, its storage fields were being filled ahead of schedule. Purchases and production in the Appalachian area had been reduced to the minimum practical level, and the schedule of deliveries from its affiliate, Columbia Gulf Transmission Company, had been adjusted. Due to depressed market demands and physical limitations on the ability of storage fields to absorb additional injections, Columbia states that it was forced to cutback on takes from its pipeline suppliers commencing September 20, 1976, and that it suspended curtailment to avoid further irreparable loss of available flowing gas supply.

Columbia denies that suspension of curtailment resulted in excess sales of 20.7 Bcf during October. Data submitted by Columbia allegedly show that its customers' takes during the disputed period "* * * were actually less than they would have been entitled to under the normal operation of Columbia's curtailment plan * * *". Columbia further states that the volume taken by its customers during October, 96,349 MMcf, while considerably above the volume anticipated, was still below their aggregate entitlement under the curtailment plan. Also, Columbia asserts that its storage deficiency as of November 1, 1976, resulted from unusual volumes of high priority sales due to unanticipated cold weather during October, and not from poor business judgment in suspending curtailment.

Based upon a review of the record in this proceeding, including the complaint and the response of Columbia, the Commission finds that the issues raised in the complaint cannot be finally resolved based solely on the present pleadings and the representations of the parties. The Commission finds that a formal hearing should be held for the purpose of investigating all relevant issues pertaining to the allegations set forth in the complaint, and that all parties, including the Commission staff, should have the opportunity to present evidence in support of their recommendations following investigation. The Commission's final decision will be based upon the hearing record. Columbia shall provide all necessary data for purposes of the present investigation and hearing.

In setting this matter for hearing, the Commission intends to review available remedies under the Natural Gas Act. Should the ultimate outcome warrant, we will apply those that are appropriate in the circumstances. The Commission's jurisdiction over Columbia's general rate filings and purchase gas cost adjustments provides full protection to Columbia's customers and ultimate consumers. Columbia's current general rate increase was filed in Docket No. RP76-95, on April 29, 1976. By order issued May 28, 1976, the Commission suspended that rate increase for five months and permitted it to become effective on November 1, 1976, subject to later refund with interest if so ordered. Columbia's current PGA rate increase, filed on January 29, 1977, was accepted and permitted to become effective on March 1, 1977, by letter order of March 1, 1977. This filing reflects changes in Columbia's current costs of purchased gas based upon the prices to be paid as of March 1, 1977, imposed upon volumes for the twelve months ending October 31, 1976. The filing also provides for recovery through a surcharge of any additional amounts credited to Columbia's deferred account through December 31, 1976. Any other increases in purchased gas costs, including costs incurred through additional or continuing emergency purchases, are credited to the deferred account and cannot be collected until a new PGA filing is made and considered by the Commission.

The Commission finds: It is necessary and proper in the public interest and in carrying out the provisions of the Natural Gas Act that a hearing be held for the purpose of investigating the allegations set forth in the complaint of February 11, 1977.

The Commission orders: (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 8, 14, 15, and 16 thereof, and the Commission's rules and regulations, a hearing shall be held in this proceeding for the purpose of investigating and determining the allegations contained in Senator Metzenbaum's complaint of February 11, 1977, against Columbia.

(B) Columbia's response to the complaint filed on February 28, 1977, shall be incorporated as part of the record of this proceeding.

(C) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge pursuant to 18 CFR 3.5(d) shall convene a prehearing conference in this proceeding on April 11, 1977, at 10:00 a.m., EST, in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE.,

V 4216 8 APR 77 UMI

Washington, D.C. 20426, for the purpose of establishing procedures for the investigation and hearing to be held pursuant to this order. The Presiding Judge shall be authorized to modify all procedural dates and to establish further procedures as may in his judgment be required for purposes of the investigation and hearing pursuant to this order. The Presiding Judge shall also be authorized to rule upon all motions except motions to consolidate, sever, or dismiss, as provided for in the rules of practice and procedure.

(D) The above-named petitioners are hereby permitted to intervene in this proceeding subject to the rules and regulations of the Federal Power Commission; *Provided, however,* That participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in the petitions to intervene, and, *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders of the Federal Power Commission entered in this proceeding.

(E) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission,

KENNETH F. PLUMB,
Secretary.

[Docket No. RP75-108]

NATURAL GAS PIPELINE CO. OF AMERICA

Order Accepting in Part and Rejecting in Part Proposed Settlement Agreement and Setting Issue for Hearing

APRIL 4, 1977.

On May 30, 1975, Natural Gas Pipeline Company of America (Natural) filed certain revised tariff sheets incorporating a proposed increase in rates of $52.9 Million annually for jurisdictional gas sales. By order of June 30, 1975, the Commission accepted for filing, and suspended for five months, Natural's tariff sheets. The proposed rate increase became effective, subject to refund, on December 1, 1975. As a result of two public conferences, Natural has prepared and circulated a proposed settlement agreement in this proceeding. Notice of the proposed settlement was issued on August 27, 1976, with comments due on or before September 20, 1976.

The proposed settlement agreement follows closely the provisions of the settlement agreement approved by the Commission in Opinion No. 762.[1] Approval of the settlement agreement will result in refunds being made for the period from December 1, 1975, to the effective date of this proposed settlement agreement. The settlement provides for an automatic change June 1, 1976, to reflect the inclusion in rate base of additional advance payments. The settlement also provides for a refund to Natural's customers to reflect actual levels of deliveries in the event that Natural's sales exceed the projected level.

Article IV through Article IX of the settlement set forth the advance payments which are included in the settlement cost of service.

Article X deals with the return on the unamortized balance of certain non-recoverable advances pending appeal from the Commission order of February 13, 1976, in *Transcontinental Gas Pipe Line Corporation*, Docket No. RP73-69. Said appeal was filed in the United States Court of Appeals for the District of Columbia Circuit on February 25, 1976.

Article XI provides for, and contains the mechanism by which Natural may increase or decrease its rates to reflect the difference between the annualized payment to Stingray Pipeline Company for transportation of gas and the amount associated therewith in the settlement cost of service or latest adjustment thereto, and a return on the balance accumulated in a deferred account established to reflect costs associated with payments to Stingray and recovery of those costs.

Articles XII through XIV provide for further refunds depending upon whether Natural is permitted to take certain deductions for federal income tax purposes.

Article XV provides that coal lease payments made to the Nokota Company pursuant to an agreement dated January 25, 1973, may remain in the settlement cost of service pending resolution of Docket No. RP73-110.

Article XVI provides for an adjustment to Natural's rates if Natural's sales should exceed the level upon which the rates have been predicated.

Article XVII sets out the procedure for making any rate changes that may become necessary pursuant to the settlement agreement.

Article XXI states that in arriving at the rate base included in the settlement cost of service a reserve for deferred income taxes was deducted in an amount which is not in excess of the amount of reserve for deferred taxes resulting from the use of accelerated depreciation as recorded in the accounts of Natural on November 30, 1975.

The only issue to which any party objects, is the proposed rate of return on equity. The settlement agreement proposes a rate of return on equity of 13.5%. This is the return on equity approved for Natural in Opinion No. 762. The Commission Staff and the City of Chicago have filed comments on the proposed settlement objecting to this proposed rate of return on equity. Comments supporting the proposed settlement agreement have been filed by Natural and by Northern Illinois Gas Company.

In its comments, Commission Staff points out that its rate of return witness recommended a return on common equity of 12% in this proceeding. This would result in an overall rate of return of 9.10%. The proposed settlement agreement provides for an overall rate of return of 9.68% on Natural's net investment rate base. Staff points out that its evidence was submitted prior to the issuance of Opinion No. 762. Staff notes Opinion No. 762's approval of a rate of return on equity of 13.5%. In light of Opinion No. 762, Staff states that it is prepared to agree to a return on common equity of 13% rather than the 12% it had originally recommended.

In its comments, The City of Chicago only takes a position on the proposed rate of return on equity. Chicago notes that certain factors have materially changed since the Commission issued Opinion No. 762. Chicago states that Natural has experienced an improvement in the equity component of its capital structure; interest rates for short, medium and long term debt have moderated and; the economy is experiencing a moderate recovery with an inflation rate below the projected 6%. Chicago points out that Natural has continued to earn a greater return than the allowed rate of return established by the Commission, and that the market price of utility stocks, including that of Natural's parent company, The People's Gas Company, have achieved dramatic and significant gains. Chicago does concede that it has preceived no improvement in the critical natural gas supply problem facing Natural. Chicago points out that in Docket No. RP74-96, it proposed a rate of return on common equity of between 12.45% and 13% for Natural. Chicago asked that the Commission approve a rate on equity for Natural using that range. Alternatively, Chicago requests that the Commission sever the issue of rate of return from the proposed settlement and remand that issue to the Administrative Law Judge for a further hearing.

In its comments in support of the proposed settlement agreement, Natural stated that the factors which lead the Commission to approve a rate of return on equity of 13.5% in Opinion No. 762 has continued in full force and effect. In this proceeding, Natural requested a rate of return on equity of 15.25%. However, in order to settle this case, and in light of the short time that has elapsed since the issuance of Opinion No. 762, Natural has agreed to a continuation of the 13.5% rate of return on equity approved therein. Natural points out that it is facing expanding capital requirements in order to finance projects needed to maintain reasonably adequate service at a time when the gas shortage has greatly magnified business risks. Natural has continued curtailment on its system and its reserve life index has fallen to 9.1 at the end of 1974. Reserve additions during the last 5 years have averaged only one-third of Natural's annual sales.

In order to offset curtailments on its system, Natural has entered into supplemental supply projects. Supplemental supply projects, according to Natural, involve such large capital requirements and high risks that they aggravate, rather than alleviate, the pipeline's cost recovery problem. Natural states that its capital requirements have risen from $83.7 Million in 1970, to $243 Million in 1973. Natural anticipates spending $1.3 Billion over the next four years, with an additional $800 Million required for coal gasification projects. To raise equity capital, Natural sells common stock to its parent, Peoples. Natural points out that Peoples' stock is selling below book value and that the cost of new equity to Peoples exceeds the earnings that Peoples could expect to make by investing their equity in Natural. Natural points out that its ability to market debt without selling new equity to Peoples is limited by the low level of coverages. In 1973, Moody's reduced Natural's rating on its first mortgage bonds to an A rating and on Natural's debentures of Baa.

Natural points out that if the return to Natural does not measure up to the alternatives available, Natural will be unable to raise capital on reasonable terms. Natural points out that its rate of return must be commensurate with returns to enterprises of corresponding risks, sufficient to maintain the credit and financial integrity of the regulated company, and adequate to attract capital to the enterprise. Natural points out that the Staff witness stated that Natural is falling behind other major interstate pipelines in certain indicators. These include, a lower than average revenue growth, a lower than average common equity ratio, a rate of return on equity below the average for other interstate pipelines, a sales life gas reserve index below that of other major pipelines, and lower post interest coverages than the industry generally maintains.

Natural contends that the investment by Peoples and Natural on the scale required would be difficult for Natural to justify to Peoples' management were Natural's rate of return on equity reduced from 13.5% granted in Opinion No. 762. Natural states that it is imperative that the rate of return on equity of 13.5% provided in the settlement agreement be approved in order to assist Natural in raising capital to support further gas supply projects.

In view of the allegations raised by the City and the fact that the record evidence relied on by the Commission in Opinion No. 762 is at best over a year old, the rate of return issue should be severed from the settlement proposal and set for hearing. Too often, a Commission decision on a rate of return issue is treated as a floor (or ceiling) by a pipeline and its customers as was the case here. This interpretation is in error, for each Commission decision must be supported by the evidentiary record in the proceeding at hand.

We find that the other provisions of the proposed settlement agreement, to which no party objects, should be approved and permitted to take effect. Natural shall continue to collect the rates applied for subject to refund, and the status quo will be preserved until a decision is reached on the rate of return issue.

The Commission further finds: (1) It is desirable and in the public interest that the settlement agreement submitted by Natural in this proceeding be accepted, with the exception indicated above.

(2) Good cause exists to sever and set for hearing the issue of the appropriate rate of return for Natural Gas Pipeline Company of America.

The Commission orders: (A) The Stipulation and Agreement, submitted by Natural, and incorporated herein by reference, is approved except as to the issue of rate of return.

(B) The issue of the proper rate of return for Natural is remanded for hearing in this docket.

(C) Pursuant to the authority of the Natural Gas Act, the Commission's Rules of Practice and Procedure, and the Regulations under the Natural Gas Act (18 CFR Chapter 1) a prehearing conference shall be held before a Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge, at a date to be designated by the Presiding Administrative Law Judge, in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

(D) The Presiding Administrative Law Judge shall preside at the initial conference in this proceeding, with authority to establish and change all procedural dates, and to rule on all motions (with the exception of petitions to intervene, motions to consolidate and sever, and motions to dismiss, as provided for in the Rules of Practice and Procedure).

By the Commission. Commissioner Watt, concurring in part and dissenting in part, filed a separate statement (filed as part of the original document).

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.77-10425 Filed 4-7-77;8:45 am]

[Docket No. CP76-408]

NORTHWEST PIPELINE CORP.

Amendment to Application

APRIL 4, 1977.

Take notice that on March 23, 1977, Northwest Pipeline Corporation (Applicant) P.O. Box 1526, Salt Lake City, Utah 84110 filed in Docket No. CP76-408 an amendment to their application filed in said docket pursuant to Section 7(c) of the Natural Gas Act by which amendment Applicant requests authorization to limit the proposed transportation service for IGC Production Company (IGC), Thermal Development Company (Thermal) and Development Inc. (Development), all as more fully set forth in the amendment on file with the Commission and open to public inspection.

In the initial application Applicant proposes to transport volumes of natural gas in quantities of up to 10,000 Mcf per day for the accounts of IGC, Thermal and Development, and was granted temporary authorization on February 16, 1977.

By this amendment, applicant requests that the authorization be modified to provide for the transportation of up to 10,000 Mcf per day for the accounts of IGC, Thermal and Development but only to the extent that such transportation shall not affect Northwest's pre-existing contract commitments.

Applicant states that California-Pacific Utilities Company, Northwest Natural Gas Company, Cascade Natural Gas Company, also existing customers of Applicant, have expressed concern that the transportation service to be provided IGC, Thermal and Development by Applicant may at some future time preempt pipeline capacity which would otherwise be available to meet the present contract commitments, without concomitant benefits to other customers of Applicant.

This amendment stated that IGC, Thermal and Development have been advised of the proposed amendment and agree to Applicant's request to limit the proposed transportation.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before April 21, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. All persons who have heretofore filed need not do so again.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.77-10420 Filed 4-7-77;8:45 am]

[Docket No. CP77-309]

PANHANDLE EASTERN PIPE LINE CO.

Application

APRIL 4, 1977.

Take notice that on March 22, 1977, Panhandle Eastern Pipe Line Company (Applicant), 3000 Bissonnet Avenue, Houston, Texas, and 3444 Broadway, Kansas City, Missouri, filed in Docket No. CP77-309 an application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the operation of St. Peter and Galesville Formations in Waverly, Illinois, as one underground gas storage field with a combined total maximum reservoir gas content of 55,000,000 Mcf, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant indicates that the St. Peter and The Galesville Formations were developed under separate certificates of public convenience and necessity for use as storage reservoirs in Applicant's Waverly Storage Field. The Galesville Formation has an authorized maximum reservoir gas content of 25,000,000 Mcf, and St. Peter has an authorized maxi-

[1] *Natural Gas Pipeline Company of America*, Opinion No. 762, Docket No. RP74-96, May 21, 1976.

V42168 APR 8 77 UMI

mum reservoir gas content of 30,000,000 Mcf, it is said.

Applicant states that it recently discovered that the two formations are so closely geologically linked to each other that there has been an inadvertent transfer of gas from the Galesville into the St. Peter Formation. Consequently, it has become impractical to treat the two storage reservoirs separately, it is indicated.

Applicant proposes to operate the St. Peter and Galesville Storage Reservoirs under one certificate combining the present maximum reservoir gas content to 55,000,000 Mcf. Applicant states that it would utilize its existing facilities to effectuate the proposed operation.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 25, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.77-10423 Filed 4-7-77;8:45 am]

[Docket No. ID-1808]

ROBERT H. PEARSON

Application

APRIL 4, 1977.

Take notice that on March 23, 1977, Robert H. Pearson, Vice President of Northeast Utilities Service Company, filed an application pursuant to Section 305(b) of the Federal Power Act to hold the following positions:

Position, name of corporation, and classification
Vice President,[1] The Connecticut Light and Power Company, Public Utility.
Vice President,[1] The Hartford Electric Light Company, Public Utility.
Vice President,[1] Western Massachusetts Electric Company, Public Utility.
Vice President,[1] Holyoke Water Power Company, Public Utility.
Vice President,[1] Holyoke Power and Electric Company, Public Utility.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 20, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.77-10415 Filed 4-7-77;8:45 am]

[Docket No. CP77-313]

TEXAS EASTERN TRANSMISSION CORP.

Application

APRIL 4, 1977.

Take notice that on March 25, 1977, Texas Eastern Transmission Corporation (Applicant), P.O. 2521, Houston, Texas 77001, filed in Docket No. CP77-313 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation and storage of natural gas on a best efforts basis for three years for Algonquin Gas Transmission Company, Brooklyn Union Gas Company, Elizabethtown Gas Company, Long Island Lighting Company, New Jersey Natural Gas Company, Philadelphia Electric Company, Philadelphia Gas Works, Public Service of New Jersey, Carnegie Natural Gas Company, Consolidated Edison Company of New York, Missouri Utilities Company, National Gas & Oil Corporation, Penn Fuel Gas, Inc., and United Cities Gas Company, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it has obtained 30,000,000 Dekatherms of storage space from Consolidated Gas Supply Corporation (Consolidated) for three years pursuant to an agreement dated March 21, 1977. Applicant further states that the total 30,000,000 Dekatherms is comprised of 19,300,000 Dekatherms of storage space presently allocated among 8 of Applicant's customers utilizing Consolidated's storage service pursuant to authorization granted by the Commission in Docket No. CP73-206 and the remaining 10,700,000 Dekatherms of storage space would be allocated to certain of the existing customers and to six additional customers of Applicant. Applicant states that it would use its existing facilities to render the proposed services and the term of the proposed services would be from April 16, 1977 through April 15, 1980.

During each of the 1977, 1978 and 1979 injection periods Applicant has agreed to deliver to Consolidated for injection into storage, on a best efforts basis, such quantities of gas of Applicant's customers as are mutually agreed upon, and during each of the withdrawal periods, Consolidated shall, on a best efforts basis, deliver to Applicant the storage gas of its customers as requested at reasonably constant daily rates not to exceed 221,400 Dth, it is said. Applicant states that any natural gas not taken during the withdrawal period would be carried over to the next injection period on an individual basis, and any carried over inventory and the injections shall not exceed at any time 30,000,000 Mcf.

The volume of natural gas involved in the proposed storage and transportation service for each participating company is:

Customer	Maximum daily withdrawal quantity	Total storage quantity
	Dekatherms	*Dekatherms*
Algonquin Gas Transmission Co.	58,805	7,228,000
Brooklyn Union Gas Co.	12,960	1,959,000
Carnegie Natural Gas Co.	11,921	1,800,000
Consolidated Edison Co.	13,609	2,055,000
Elizabethtown Gas Co.	12,720	1,459,000
Long Island Lighting Co.	29,080	4,122,000
Missouri Utilities Co.	662	100,000
National Gas & Oil Corp.	1,987	300,000
New Jersey Natural Gas Co.	5,107	759,000
Penn Fuel Gas, Inc.	1,000	151,000
Philadelphia Electric Co.	12,971	1,959,000
Philadelphia Gas Works	7,947	1,197,000
Public Service Electric & Gas Co.	49,300	6,861,000
United Cities Gas Co.	331	50,000
Total	221,400	30,000,000

Applicant proposes to store and transport the storage quantities for the 14 proposed customers on the basis of its Interim Storage Service tariff sheets (ISS). Applicant states that the transportation and storage rate that it proposed to charge under the Rate Schedule ISS is a composite of Consolidated's GSS storage Service Charge, and a charge for transportation equal to the in-zone rates under Applicant's Rate Schedule TS-1. It is stated that the demand rate, space rate, injection rate, and withdrawal rate are charged to Applicant on the basis of Consolidated's GSS rate which, when adjusted for shrinkage, is passed directly on to Applicant's participating customers. It is further stated that under the terms of the proposed Rate Schedule ISS, Applicant would provide, during the withdrawal period of each contract year, quantities of natural gas from a customer's storage inventory not to exceed the Maximum Daily Withdrawal Quantity, less 6 percent to be retained by Applicant for fuel and other company use.

Applicant states that for those customers who nominate to receive gas under the Rate Schedule ISS, such gas that does not exceed a particular customer's existing curtailment rate on any one day would be defined as Basic Withdrawal Gas, and the basic withdrawal rate includes the GSS withdrawal charge of 1.00 cent, adjusted for shrinkage, plus the in-zone transportation rate which is based on the DCQ Commodity Rates, less gas purchase and fuel cost. It is asserted that any natural gas received under the rate schedule ISS that exceeds the present curtailment level on any one day would be defined as excess withdrawal gas. The rate for excess withdrawal gas is the in-zone transportation rate based on the DCQ 100 percent load factor rates less gas purchase and fuel cost, plus the GSS withdrawal charge of 1.00 cent adjusted for shrinkage, it is said.

Applicant states that in the event customers receiving this ISS service are also obtaining additional service under the Rate Schedule TS-1, which services when combined would exceed the total of the curtailment of sales to the customer on any day, the customer must nominate which is based on the DCQ Commodity which service is to be firm and which service is to be interruptible.

Applicant states that under the proposed services its customers would be able to store natural gas supplies during the low demand summer months for use during the high demand winter season, eliminating some of the adverse effects of curtailments that have been so wide spread during this heating season.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 26, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. E77-84]

TEXAS GAS TRANSMISSION CORP.

Emergency Order Pursuant to Emergency Natural Gas Act of 1977

On April 1, 1977, Texas Transmission Corporation (Texas Gas), as agent for certain of its customers,[1] filed, pursuant to Section 6 of the Emergency Natural Gas Act of 1977 (Act), Pub. L. 95-2 (91 Stat. 4 (1977)), an application for authorization to transport natural gas which it is purchasing for certain of its customers.

Texas Gas, as agent, executed a contract on March 9, 1977, with Amoco Production Company (Amoco) for the purchase of approximately 1500 Mcfd from the Carthage Field, Panola County, Texas. The total price to be paid by Texas Gas, as agent, is $2.16 per MMBtu. Thus, the proposed price is fair and equitable in accordance with Order No. 2.

Texas Gas will received these volumes at the outlet of the Champlin Gasoline Plant, Panola County, Texas and transport these supplies through its existing pipeline facilities to the customers for which it is purchasing the gas. Texas Gas' proposed transportation rates are based upon the cost data supporting the settlement rates in Texas Gas' most recent Federal Power Commission rate case in Docket No. RP76-17 and the retention of a percent of the transported volumes for compressor fuel and company use and loss. I find no basis on which to fix other charges since the parties have agreed upon the transportation charges.

Based upon the foregoing, Texas Gas is authorized to purchase gas, as agent, from Amoco and to transport such gas for certain of its customers. This authorization is conditioned on (i) Texas Gas' submission of the names of the customers for which it is acting as agent, (ii) those customers agreeing to submit reports as required by Order No. 4 and (iii) such customers certifying that they are entitled to purchase gas under the provisions of Order No. 6.

This order is issued pursuant to the authority delegated to me by the President in Executive Order No. 11969 (February 2, 1977), and shall be served upon Texas Gas and Amoco. This order shall also be published in the FEDERAL REGISTER.

This order and authorization granted herein are subject to the continuing authority of the Administrator under Pub. L. 95-2 and the rules and regulations which may be issued thereunder.

RICHARD L. DUNHAM,
Administrator.

APRIL 4, 1977.

[FR Doc.77-10412 Filed 4-7-77;8:45 am]

[Docket No. E77-83]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Emergency Order Pursuant to Emergency Natural Gas Act of 1977

On April 1, 1977, Transcontinental Gas Pipe Line Corporation (Transco) filed, pursuant to Section 6 of the Emergency Natural Gas Act of 1977 (Act), Pub. L. 95-2 (91 Stat. 4 (1977)), a notification that effective April 1, 1977, Transco will impose transportation charges for all interruptible transportation services (transportation from supply areas to market areas) provided under the Act.[1]

These charges will apply to all volumes purchased under the Act by Transco as agent for certain of its customers [2] and to volumes transported for others pursuant to orders of the Administrator.[3] For the reasons set forth below, I approve Transco's proposed transportation rates subject to the condition that Transco agree to collect such amounts subject to refund pending the resolution of Transco's pending rate proceedings in Federal Power Commission (FPC) Docket Nos. RP76-136, RP77-26 and RP77-48 and any other rate proceeding applicable to the period during which these transportation services are rendered.

Transco states that the FPC Staff has taken the position in Docket No. RP76-136 that Transco should fully allocate costs to the transportation services rendered for third parties. Thus, Transco's failure to collect transportation rates for services rendered under the Act could expose Transco to substantial losses if the FPC adopts its Staff's position. Therefore, I conclude that Transco should charge the proposed transportation rates subject to refund pending the resolution of Transco's pending rate proceedings.

Pursuant to § 6(c)(1) of the Act (91 Stat. 4, 8), I find that Transco should charge its proposed transportation rates for all volumes purchased for others pursuant to § 6(a) of the Act (91 Stat. at 7-8) and transported by Transco. Such rates shall be collected subject to refund

[1] These customers are local distribution companies and interstate pipelines as defined in §§ 2 (1), (5) of the Act (91 Stat. 4).

[1] These charges are in addition to the retention of a percentage of the volumes transported for compressor fuel.

[2] Transco is purchasing gas as agent for certain of its customers in Docket Nos. E77-14, E77-34, E77-58, E77-63 and E77-72. In addition, Transco is purchasing gas as agent in approximately fifteen transactions which do not require prior notification to or approval by the Administrator pursuant to Order No. 2.

[3] Transco is transporting gas for others in Docket Nos. E77-18, E77-20, E77-40, E77-41, and E77-42.

[1] Elected to these positions on March 1, 1977.

V4268 APR 8 77 UMI

pending the resolution of Transco's FPC rate proceedings in Docket Nos. RP76-136, RP77-26, and RP77-48 and any other FPC rate proceeding applicable to the period during which these transportation services are rendered.

This order is issued pursuant to the authority delegated to me by the President in Executive Order No. 11969 (February 2, 1977), and shall be served upon all parties in Docket Nos. E77-14, E77-18, E77-20, E77-34, E77-40, E77-41, E77-42, E77-58, E77-63, and E77-72. This order shall also be published in the FEDERAL REGISTER.

This order and authorization granted herein are subject to the continuing authority of the Administrator under P.L. 95-2 and the rules and regulations which may be issued thereunder.

RICHARD L. DUNHAM,
Administrator.

APRIL 4, 1977.

[FR Doc.77-10413 Filed 4-7-77;8:45 am]

[Docket No. CP77-314]

TRUNKLINE GAS CO.

Application

APRIL 4, 1977.

That notice that on March 25, 1977, Trunkline Gas Company (Applicant), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP77-314 an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.7(b) of the Regulations thereunder (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing the construction, during the 12-month period commencing June 11, 1977, and operation of facilities to enable Applicant to take into its certificated main pipeline system natural gas which would be purchased from producers and other similar sellers thereof, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type authorization is to augment Applicant's ability to act with reasonable dispatch in connecting to its pipeline system supplies of natural gas which may become available from various producing areas generally coextensive with its pipeline system or the systems of other pipeline companies which may be authorized to transport gas for the account of or exchange gas with Applicant.

Applicant states that the total cost of the proposed facilities would not exceed $10,000,000 with no single onshore project to exceed $1,500,000 and no single offshore project to exceed $2,500,000. Applicant states that the proposed facilities would be financed from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 25, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. RM75-27]

UNIFORM SYSTEM OF ACCOUNTS FOR PUBLIC UTILITIES AND LICENSEES AND FOR NATURAL GAS COMPANIES (CLASSES A, B, C, AND D)

Order Granting Application for Rehearing for the Purpose of Further Consideration

APRIL 1, 1977.

In the matter of Amendments to Uniform System of Accounts for Public Utilities and Licensees and for Natural Gas Companies (Classes A, B, C and D) to provide for the Determination of Rate for Computing the Allowance for Funds Used During Construction and Revisions of Certain Schedule Pages of FPC Reports.

On March 4, 1977, El Paso Gas Company, Public Systems,[1] three bulk power suppliers for rural electric cooperatives,[2] and eight investor-owned public utilities[3] filed Applications for Rehearing of our Order No. 561, issued February 2, 1977, in Docket No. RM75-27. On March 4, 1977, Pennsylvania Power & Light Company filed a separate Application for Rehearing. In order to provide adequate time for consideration of the merits of the arguments raised by the various applications, we shall grant rehearing for the limited purpose of further consideration.

The Commission orders: (A) The Application for Rehearing filed by the above-mentioned petitioners are hereby granted for the limited purpose of further consideration of Order No. 561.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-263]

VERMONT ELECTRIC POWER CO., INC.

Rate Schedule Filing

APRIL 4, 1977.

Take notice that on March 28, 1977, Vermont Electric Power Company, Inc. (Velco) tendered for filing a Rate Schedule for the sale of eleven thousand kilowatts (11,000 kW) and related energy from the Vermont Yankee Nuclear Electric Generating Unit in Vernon, Vermont, dated as of November 30, 1976, to the Templeton Municipal Lighting Plant, Mansfield Municipal Electric Department, Littleton Electric Light & Water Department, Westfield Gas & Electric Light Department, Middleborough Gas & Light Department, Hingham Municipal Lighting Plant, Holden Municipal Lighting Plant, Ipswich Municipal Light Department, and the Danvers Electric Department, all of which are located in the Commonwealth of Massachusetts.

Velco states that the service to be rendered under this Rate Schedule consists of 11,000 kW capacity and related energy from the Vermont Yankee Unit to nine municipal power departments in the Commonwealth of Massachusetts for an eleven month period commencing November 30, 1976 and ending on October 30, 1977 at an estimated monthly charge of $103,500.00 total for all nine Municipal Purchasers. Velco states that the Vermont Yankee power sold to the Municipal Purchasers will be at its cost to Velco, and that therefore there will be no change in the overall rate of return of Velco.

Velco requests a waiver of § 35.3 of the Commission's Rules and Regulations to allow an effective date of December 1, 1976, citing extended contract negotiations with the nine Massachusetts Municipal Purchasers, and no effect upon purchasers of Velco power under other Rate Schedules, if the waiver is granted.

Copies of the filing were served upon the nine Massachusetts Municipals and the Vermont Public Service Board.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 20, 1977. Protests will be considered by the Commission in determining the appropiate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.77-10417 Filed 4-7-77;8:45 am

[Docket No. CP77-308]

WESTERN TRANSMISSION CORP.

Application

APRIL 4, 1977.

Take notice that on March 21, 1977, Western Transmission Corporation (Applicant), 2700 Fidelity Union Tower, Dallas, Texas 75201, filed in Docket No. CP77-308 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for an initial term of two years for Panhandle Eastern Pipe Line Company (Panhandle), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that Panhandle has acquired new sources of gas in certain acreage in Carbon County, Wyoming, and that Panhandle proposes to execute an agreement with Colorado Interstate Gas Company (CIG), for whom applicant also transports gas, for the purchase of up to 25 percent of the subject gas and for the transportation by CIG and exchange of the remainder of the proposed volumes of gas.

It is indicated that Panhandle would deliver the subject gas under its control to Applicant at points on Applicant's pipeline located in Carbon County, Wyoming, for transportation and delivery to CIG at an existing point of interconnection in Sweetwater County, Wyoming. Applicant further states that no new facilities would be required to render the proposed transportation service.

It is asserted that Panhandle would pay Applicant a transportation charge equal to the differential rate set forth in Applicant's Rate Schedule F between Applicant's gas cost and Applicant's selling price to CIG as established by the Commission in Opinion No. 616, as the same may be modified and amended from time to time or as replaced by a subsequent Commission order. Currently, the differential rate permitted by Opinion No. 616 and the effective transportation charge is 9.0 cents per Mcf at 14.65 psia, it is said.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 22, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules and Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.77-10424 Filed 4-7-77;8:45 am]

FEDERAL RESERVE SYSTEM

COMMERCE BANCSHARES, INC.

Order Denying Acquisition of Bank

Commerce Bancshares, Inc., Kansas City, Missouri, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 51.96 percent of the voting shares of the Farmers State Bank, St. Joseph, Missouri, St. Joseph, Missouri ("Bank").

V4268 APR 8 77 UMI

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received, including those submitted by the Missouri Commissioner of Finance and by the U.S. Department of Justice, in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the third largest banking organization in Missouri, controls 31 banks with aggregate deposits of approximately $1.3 billion, representing 7.7 percent of the total commercial bank deposits in the State.[1] Acquisition of Bank ($13.3 million in deposits) would not significantly increase the concentration of banking resources in Missouri; however, it would have adverse effects upon concentration in the relevant market.

Bank, the fifth largest of 21 banks in the relevant market[2] and the only remaining independent bank in the City of St. Joseph, has total deposits of $13.3 million, representing 3 percent of the total commercial bank deposits in the relevant market. Applicant is already represented in the St. Joseph market through its ownership of Commerce Bank of St. Joseph ("Commerce Bank"). Commerce Bank is the fourth largest bank in the market, with total deposits of $39.9 million, representing 8.83 percent of the total commercial bank deposits in the relevant market. The four largest banking organizations in the St. Joseph banking market hold in the aggregate about 85.6 percent of total commercial bank deposits in the market. Consummation of this proposal would further increase that concentration level to 88.6 percent and Applicant would enhance its position in the market by becoming the third largest banking organization.

In addition to having adverse effects on concentration in the St. Joseph market, it appears that consummation of this proposal would eliminate significant existing competition between Bank and Commerce Bank. Applicant maintains that Bank and Commerce Bank serve essentially different kinds of customers[3] and that Bank's location and orientation toward farm lending make it unlikely that Bank would expand its operations in the primary service area of Commerce Bank. However, the record shows that each derives a significant amount of its deposits and loans from the service area of the other. Thus, the Board concludes that consummation of the proposal would eliminate significant existing competition between Applicant and Bank.

In acting on this application, the Board has also considered the comments of the Department of Justice and of the Missouri Commissioner of Finance ("the Commissioner") and Applicant's responses thereto. Both the Department of Justice and the Commissioner indicated that, in their respective opinions, the proposed acquisition would eliminate existing competition and lead to a further concentration of banking resources in the City of St. Joseph. Both agencies noted that because Bank was the last independent bank in the City of St. Joseph, it was a likely candidate for acquisition as a vehicle for entry into the City of St. Joseph by a regional or Statewide banking organization not presently represented in the market.

While both the Department of Justice and the Commissioner placed emphasis on the effects of the proposal on the City of St. Joseph rather than the somewhat larger St. Joseph banking market,[4] the Board is of the view that their general findings as to the adverse effects of the subject proposal are supported by the facts of record. In addition, the Board finds on the basis of the foregoing and other facts of record, that competitive considerations relating to this application weigh sufficiently against approval so that it should not be approved unless the anticompetitive effects are clearly outweighed by benefits to the public in meeting the convenience and needs of the community to be served.

The financial and managerial resources and prospects of Bank are regarded as satisfactory. The financial and managerial resources and prospects of Applicant and its subsidiaries are regarded as generally satisfactory. Although Applicant would incur some debt as a result of this acquisition, it appears that Applicant's earnings from normal operations are sufficient to retire that debt as projected. Accordingly, the Board finds that considerations relating to financial and managerial resources and future prospects are consistent with approval; however, such considerations do not lend significant weight for approval of the application.

Applicant states that upon acquisition of Bank it would expand Bank's services, including increasing Bank's lending capacity through loan participations and providing Bank with agricultural lending advice. The Board notes that bank has only a limited need for help in handling loans above its present legal lending limit.[5] Furthermore, with respect to Applicant's proposal to provide Bank with agricultural lending advice, Applicant made a similar argument in its earlier application to the Board to acquire Commerce Bank some six years ago, and it appears that Commerce Bank has made no significant increases in its agricultural lending program since its acquisition by Applicant. Accordingly, the Board finds that little weight can be accorded such services and that considerations relating to the convenience and needs of the community to be served lend no significant weight toward approval of the application. In summary, therefore, the considerations relating to banking factors and the considerations relating to the convenience and needs of the community to be served do not outweigh the adverse competitive effects that would result from Applicant's acquisition of Bank.

On the basis of the facts in the record, and in light of the factors set forth in section 3(c) of the Act, it is the Board's judgment that approval of the proposal would not be in the public interst. Accordingly, the application is denied for the reasons summarized herein.

By order of the Board of Governors,[6] effective April 1, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc.77-10384 Filed 4-7-77;8:45 am]

[1] All banking data are as of December 31, 1975.

[2] The relevant market is the St. Joseph banking market, which is approximated by Buchanan County (less Rush and Bloomington Townships), Andrew County, and western DeKalb County, all in Missouri, and northern Doniphan County in Kansas.

[3] Applicant characterizes Commerce Bank's customers as primarily a merchant and wage-earner clientele not associated with the south St. Joseph area. Applicant states that Bank primarily serves agriculturally oriented businesses in the south St. Joseph area. The Board does not view this as a legitimate distinction in defining the relevant product for purposes of competitive analysis.

[4] See the Board's Order approving the merger of Ameribanc, Inc., St. Joseph, Missouri, with First American Bancshares, Inc., St. Joseph, Missouri. 62 Federal Reserve Bulletin, p. 384.

[5] Bank has no large business customers, and the farmers in its service area conduct small operations. The few loans for which Bank has needed assistance have been readily handled by its St. Joseph and Kansas City correspondents.

[6] Voting for this action: Governors Wallich, Coldwell, Jackson, Partee, and Lilly. Absent and not voting: Chairman Burns and Governor Gardner.

EQUIMARK CORP.

Request for Determination and Notice Providing Opportunity for Hearing

Notice is hereby given that a request has been made to the Board of Governors of the Federal Reserve System, pursuant to the provisions of section 2(g)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(g)(3)) ("the Act"), by Funding Systems Corporation, Pittsburgh, Pennsylvania ("FSC"), for a determination that Equimark Corporation, Pittsburgh, Pennsylvania, a bank holding company, is not nor will be capable of controlling Floyd R. Ganassi or G. Gray Garland, Jr., of Pittsburgh, Pennsylvania, and each of whom is an officer of FSC. On April 22, 1975, Equimark Corporation transferred shares of FSC to Messrs. Ganassi and Garland, both of whom, on that date, were indebted to Equibank, N.A., Pittsburgh, Pennsylvania, a subsidiary of Equimark Corporation. On that date, FSC was also indebted to Equibank, N.A. Debt owed by Messrs. Ganassi and Garland and by FSC to Equibank, N.A. has, since April 22, 1975, continued.

Section 2(g)(3) of the Act provides that shares transferred after January 1, 1966, by any bank holding company (or any company which but for such transfer, would be a bank holding company) directly or indirectly to any transferee that is indebted to the transferor or has one or more officers, directors, trustees, or beneficiaries in common with or subject to control by the transferor, shall be deemed to be indirectly owned or controlled by the transferor, unless the Board, after opportunity for hearing, determines that the transferor is not, in fact, capable of controlling the transferee.

Notice is hereby given, that, pursuant to section 2(g)(3) of the Act, an opportunity is provided for filing a request for oral hearing. Any such request or written comments on the application should be submitted in writing (in duplicate) to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received no later May 2, 1977. If a request for oral hearing is filed, each request should contain a statement of the nature of the requesting person's interest in the matter, his reasons for wishing to appear at an oral hearing, and a summary of the matters concerning which such person wishes to give testimony. The Board subsequently will designate a time and place for any hearing it orders, and will give notice of such hearing to the transferor, the transferee, and all persons that have requested an oral hearing. In the absence of a request for an oral hearing, the Board will consider the requested determination on the basis of documentary evidence filed in connection with the application.

Board of Governors of the Federal Reserve System, April 4, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc.77-10385 Filed 4-7-77;8:45 am]

[Reg. C; Docket No. R-0047]

EXEMPTION APPLICATION UNDER THE HOME MORTGAGE DISCLOSURE ACT OF 1975

New York State

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Notice.

SUMMARY: On December 8, 1976, the Board issued an Order exempting New York State depository institutions that are subject to the State Banking Department's loan disclosure regulation (Supervisory Procedure G-107) from the disclosure requirements of the Home Mortgage Disclosure Act and implementing Regulation C. Pursuant to the Board's Order, the State Banking Department has submitted amendments to its disclosure regulation, and the Board must determine whether the amendments satisfy the requirements of the Order.

DATE: Comments regarding the amendments must be received on or before May 2, 1977.

ADDRESS: Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. All material submitted should include the docket number R-0047.

FOR FURTHER INFORMATION CONTACT:

Anne J. Geary, Acting Chief, Equal Credit Opportunity Section, Division of Consumer Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 (202-452-3946).

On June 22, 1976, the Banking Department of the State of New York applied to the Board for an exemption from the disclosure requirements of the Home Mortgage Disclosure Act of 1975 (12 U.S.C. 2801-2809), as implemented by Regulation C (12 CFR 203). The Department's application was filed pursuant to section 306(b) of the Act (12 U.S.C. 2805(b)) and section 203.3(a)(3) and the Supplement to Regulation C (12 CFR 203.3(a)(3)), and was based upon the requirements of the Department's Supervisory Procedure G-107. Notice of the application, affording opportunity for interested parties to submit comments, was published in the FEDERAL REGISTER on July 20, 1976 (41 FR 29917).

On December 8, 1976, based on the record before it, the Board approved the Department's exemption application. The Board's Order was published in the FEDERAL REGISTER on December 21, 1976 (41 FR 55583). The Board in its Order, however, required:

That the New York State Banking Department promulgate an amendment to the provisions of its Supervisory Procedure G 107 to require depository institutions subject to that Procedure to disclose all mortgage loans acquired by any means during each fiscal year, commencing with the last full fiscal year ending prior to July 1, 1976, in at least the detail required pursuant to Section I of Appendix 8 of the Procedure. Any amendments to comply with this condition must become effective by June 1, 1977, and a copy of the amendments must be filed with the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, by April 1, 1977.

Pursuant to that requirement, the Department has submitted to the Board amendments to its Supervisory Procedure G-107. Copies of the amendments and the Board's Order are available for public inspection and copying during regular business hours in Room B 1118 at the Board's Offices, Twentieth Street and Constitution Avenue NW., Washington, D.C., and at the Federal Reserve Bank of New York, 33 Liberty Street, New York City.

The Board must determine whether the amendments to Supervisory Procedure G-107 satisfy the requirements of its December 8, 1976 Order. To aid in the Board's consideration of this matter, interested persons are invited to submit relevant data, views, and arguments in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received no later than May 2, 1977. All submitted materials should include a reference to docket number R-0047. The comments that are received will be made available for public inspection and copying upon request, except as provided in § 261.6(a) of the Board's rules regarding the availability of information (12 CFR 261.6(a)).

By order of the Board of Governors, April 1, 1977.

THEODORE E. ALLISON,
Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

PRIVACY ACT OF 1974

Deletion of a System of Records

On September 8, 1976, there was published in the FEDERAL REGISTER (41 FR 38088 through 38145) annual notices of systems of records pursuant to the provisions of the Privacy Act of 1974, Pub. L. 93-579, 5 U.S.C. 552a. This notice deletes the system of records identified as "Quality Control Automated Management System GSA/FSS-1," system identification number 23-00-0084, 41 FR 38137. It has been determined that the system measures work hours simply as a means to evaluate the efficiency of a system and is not kept as a measure of an employee's job performance.

Dated at Washington, D.C., on March 29, 1977.

PAUL S. CARTER,
Acting Director of Administration.

CONTRACEPTIVES AND OTHER VAGINAL DRUG PRODUCTS PANEL

Meeting Cancellation

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The meeting scheduled for April 22 and 23, 1977, of the Contraceptives and Other Vaginal Drug Products Panel is cancelled.

SUPPLEMENTARY INFORMATION: Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App. I)), the Food and Drug Administration announced in a notice published in the FEDERAL REGISTER of March 15, 1977 (42 FR 14175), meetings of advisory committees and other required information in accordance with provisions set forth in section 10(a)(1) and (2) of the act.

Notice is hereby given that the meeting of the Contraceptives and Other Vaginal Drug Products Panel scheduled for April 22 and 23, 1977, in Conference Rm. A, Parklawn Bldg., Rockville, MD, has been cancelled.

Dated: March 30, 1977.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

Food and Drug Administration

[Docket No. 76N-0233]

HESS & CLARK, ET AL

Nihydrazone (NF-64); Withdrawal of Approval of Certain New Animal Drug Applications

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration withdraws approval of certain new animal drug applications (NADA's) for nihydrazone (NF-64).

DATES: Effective April 8, 1977.

FOR FURTHER INFORMATION CONTACT:

David P. Ducharme, Bureau of Veterinary Medicine (HFV-140), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857. (301) 433-2280.

SUPPLEMENTARY INFORMATION: In a notice in the FEDERAL REGISTER of August 17, 1976 (41 FR 34908), the Director of the Bureau of Veterinary Medicine offered an opportunity for a hearing on a proposal to withdraw approval of certain NADA's: No. 13-195, Hess & Clark, Division of Rhodia, Inc., 7th and Orange St., Ashland, OH 44805 and No.13-200, Norwich Pharmacal Co., Division of Morton-Norwich Products, Inc., 13-27 Eaton Ave., Norwich, NY 13815, for the use of nihydrazone (NF-64) in food-producing animals. The basis was that new evidence not available when the applications were approved, evaluated together with the evidence available at the time of approval, shows that nihydrazone is not shown to be safe for use under either the approved or currently labeled conditions of use.

In FR Doc. 76-23620, also in the FEDERAL REGISTER of August 17, 1976 (41 FR 34884), the Director proposed to revoke the appropriate provisions of sections of Chapter I of Title 21 of the Code of Federal Regulations (CFR). Holders of approved NADA's were given until September 16, 1976 to submit requests for a hearing in accordance with § 514.200 (21 CFR 514.200), giving the reasons why approval of the applications should not be withdrawn and providing a well-organized and full-factual analysis of the scientific and other investigational data such holder would be prepared to prove in support of its opposition to the Director's proposal. The time for requesting a hearing and submitting data was subsequently extended to November 16, 1976.

Neither the holders of the NADA's nor any other person filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes election by such persons not to avail themselves of the opportunity for a hearing.

The Director of the Bureau of Veterinary Medicine, under the Federal Food, Drug, and Cosmetic Act (section 512, 82 Stat. 343-351, (21 U.S.C. 360b)) and under authority delegated to the Commissioner (21 CFR 5.1) and redelegated to the Director of the Bureau of Veterinary Medicine (21 CFR 5.29) finds, on the basis of new evidence not available when the applications were approved, evaluated together with the evidence available at the time of approval, that nihydrazone is not shown to be safe for use under either the approved or currently labeled conditions of use.

Therefore, pursuant to the foregoing finding, approval of NADA's 13-195 and 13-200, and all amendments and supplements thereto, is withdrawn, effective April 8, 1977.

Elsewhere in this issue of the FEDERAL REGISTER, the Commissioner of Food and Drugs is issuing an order revoking certain regulations that provide for the use of animal drugs containing nihydrazone alone or in combinations.

Dated: March 25, 1977.

V. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

[FR Doc.77-10237 Filed 4-7-77;8:45 am]

[Docket Nos. 76N-0172, 76N-0231, 76N-232, 76N-0233]

FURAZOLIDONE, ET AL.

Hearing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This document gives advanced notice that a public hearing will be held concerning the proposed withdrawal of approval of new animal drug applications for furazolidone, furaltadone, and nitrofurazone.

FOR FURTHER INFORMATION CONTACT:

Maryln Perez, Bureau of Foods (HFF-101), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, D.C. 20204, 202-245-1301.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of May 13, 1976 (41 FR 19907), the Director of the Bureau of Veterinary Medicine issued a notice of opportunity for hearing proposing to withdraw approval of new animal drug applications (NADA's) Nos. 9-073, 9-393, 11-016, 11-405, 11-698, 11-810 (formerly FDC-D-281), 12-061, 13-805, and 32-319 for the use of furazolidone (NF-180) in food-producing animals on the grounds that the drug has been shown to induce cancer when ingested by animals and there is no adequate, reliable, and practicable method of analysis available for assuring that no residue of the drug will be found in any edible portion of such animals, as required by section 512(d)(1)(H) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b(d)(1)(H)). In the FEDERAL REGISTER of August 17, 1976 (41 FR 34891), the Director issued notices of opportunity for hearing proposing to withdraw approval of NADA's Nos. 12-738, 14-283 (formerly FDC-D-283; now Doc. No. 76N-0229) and 65-059 for the use of furaltadone (NF-260); NADA's 13-195 and 13-200 (formerly FDC-D-282; now Doc. No. 76N-0228) for the use of nihydrazone (NF-64); and NADA's Nos. 6-395, 6-475, 6-649, 7-801, 8-129, 8-142, 8-324, 8-410, 8-529, 8-784, 9-013, 9-415, 10-741 and 11-154 (formerly FDC-D-280; now Doc. No. 76N-0230) for the use of nitrofurazone (NF-7) in food-producing animals on the grounds that new evidence not available when the applications were approved, evaluated together with the evidence available at the time of approval, shows that these drugs are not shown to be safe for use under either the approved or currently labeled conditions of use (21 U.S.C. 360b(e)(1)(B)).

In response to these notices, Norwich Pharmacal Co., Division of Morton-Norwich Products, Inc., 13-27 Eaton Ave., Norwich, NY 13815, filed appearances and requested hearings on furazolidone, furaltadone, and nitrofurazone; Hess & Clark, Division of Rhodia, Inc., 7th and Orange St., Ashland, OH 44805, filed appearances and requested hearings on furazolidone and nitrofurazone. Neither Norwich nor Hess & Clark filed appearances or requested a hearing on nihydrazone; Hess & Clark did not file an appearance or request a hearing on furaltadone. Accordingly, in the FEDERAL REGISTER of April 1, 1977 (42 FR 17526), the Director issued an order withdrawing approval of Hess & Clark's NADA for furaltadone, and in this issue of the FEDERAL REGISTER he issued an order withdrawing approval of all NADA's for nihydrazone.

In the course of reviewing the responses submitted by both firms in opposition to the May 13, 1976 notice proposing to withdraw approval of furazolidone, some previously submitted data, which had not been reviewed before, have been discovered. In addition, some previously reviewed data have been reevaluated in light of contemporary scientific and legal standards for evaluating animal drugs. The length of time required for this review has led the Commissioner to conclude, in his discretion, that it is in the public interest to hold a formal evidentiary public hearing on the proposal to withdraw approval of the NADA's for furazolidone, furaltadone, and nitrofurazone. Pursuant to 21 CFR 12.35 (formerly 21 CFR 2.118, prior to recodification published in the FEDERAL REGISTER of March 22, 1977 (42 FR 15553)), a notice of hearing will be published in the FEDERAL REGISTER as soon as practicable. In the meantime, participants in the hearing are encouraged to begin preparation of the material required to be disclosed pursuant to 21 CFR 12.85 (formerly 21 CFR 2.153, prior to recodification published in the FEDERAL REGISTER of March 22, 1977 (42 FR 15553)).

The evidentiary hearing will be open to the public. If, however, the Commissioner finds that portions of the NADA's that serve as the basis for the hearing contain information concerning a method or process that is entitled to protection as a trade secret, that part of the hearing involving such portions will not be public, unless the respondents so specify.

Dated: April 1, 1977.

SHERWIN GARDNER,
Acting Commissioner of Food and Drugs.

[FR Doc.77-10387 Filed 4-7-77;8:45 am]

[Docket No. 76N-0407; DESI 8682]

THYROTROPIN FOR INJECTION

Drugs for Human Use; Drug Efficacy Study Implementation

AGENCY: Food and Drug Administration.

ACTION: Followup notice and opportunity for hearing.

SUMMARY: This notice sets forth the conditions for marketing the drug products described below for the indication for which they continue to be regarded as effective and offers an opportunity for a hearing concerning those indications reclassified as lacking substantial evidence of effectiveness.

DATES: Hearing requests due on or before May 9, 1977.

ADDRESSES: Communications forwarded in response to this notice should be identified with the reference number DESI 8682, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20857.

Supplements (identify with NDA number): Division of Metabolism and Endocrine Drug Products (HFD-130), Rm. 14B-03, Bureau of Drugs.

Original abbreviated new drug applications and supplements thereto (identify as such): Division of Generic Drug Monographs (HFD-530), Bureau of Drugs.

Request for Hearing (identify with Docket number appearing in the heading of this notice): Hearing Clerk, Food and Drug Administration (HFC-20), Rm. 4-65.

Requests for the report of the National Academy of Sciences-National Research Council: Public Records and Document Center (HFC-18), Rm. 4-62.

Requests for opinion of the applicability of this notice to a specific product: Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs.

Other communications regarding this notice: Drug Efficacy Study Implementation Project Manager (HFD-501) Bureau of Drugs.

FOR FURTHER INFORMATION CONTACT:

John H. Hazard, Jr., Administrative Compliance Branch (HFD-32), Office of the Assistant Director for Regulatory Affairs, Bureau of Drugs, Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857. (301-443-3650.

SUPPLEMENTARY INFORMATION: In a notice (DESI 8682) published in the FEDERAL REGISTER of June 18, 1971 (36 FR 11762), the Food and Drug Administration announced its conclusions that the drug product described below is effective, probably effective, and possibly effective for certain indications. No person has submitted data in support of any of the less-than-effective indications, and those indications are now reclassified to lacking substantial evidence of effectiveness. This notice offers an opportunity for a hearing concerning those indications and sets forth the conditions for marketing the drug product for the indications for which it is regarded as effective. Persons who wish to request a hearing may do so on or before May 9, 1977.

NDA 8-682; Thytropar Sterile Lyophilized Powder containing thyrotropin, Armour Pharmaceutical Co., Division Armour & Co., Greyhound Tower, Phoenix, Ariz. 85077.

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. An approved new drug application is a requirement for marketing such drug products.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice applies to all persons who manufacture or distribute a drug product, not the subject of an approved new drug application, that is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Division of Drug Labeling Compliance (address given above).

A. *Effectiveness classification.* The Food and Drug Administration has reviewed all available evidence and concludes that the drug is effective for the indications listed in the labeling conditions below. The drug now lacks substantial evidence of effectiveness for the indications evaluated as probably and possibly effective in the June 18, 1971 notice.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* Thyrotropin preparations are in a sterile lyophilized powder form suitable for reconstitution for intramuscular or subcutaneous administration.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The Indications are as follows:

Diagnostic application of thyrotropin.

1. To determine subclinical hypothyroidism or low thyroid reserve.

2. To differentiate between primary and secondary hypothyroidism.

3. To differentiate between primary hypothyroidism and euthyroidism in patients whose thyroid function has been suppressed by the administration of thyroid replacement therapy.

4. To aid in detection of remnants and metastases of thyroid carcinoma.

Therapeutic application of thyrotropin.

As an adjunct in the management of certain types of functioning thyroid carcinoma and resulting metastases.

3. *Marketing status.* a. Marketing of such drug products that are now the subject of an approved or effective new drug application may be continued provided that, on or before June 7, 1977, the holder of the application submits, if he has not previously done so, (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD-356H (21 CFR 314.1(c)) to the extent required in abbreviated applications (21 CFR 314.1(f)).

b. Approval of an abbreviated new drug application (21 CFR 314.1(f)) must be obtained prior to marketing such product. Marketing prior to approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

V 4 2 6 8 A PR 8 7 7 UMI

C. *Notice of opportunity for hearing.* On the basis of all the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111 (a)(5), demonstrating the effectiveness of the drug(s) for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice.

Notice is given to the holder(s) of the new drug application(s), and to all other interested persons, that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) and all amendments and supplements thereto providing for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice on the ground that new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug product(s) will have all the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. An order withdrawing approval will not issue with respect to any application(s) supplemented, in accord with this notice, to delete the claim(s) lacking substantial evidence of effectiveness.

In addition to the ground for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in 21 CFR 310.6), e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310, 314), the applicant(s) and all other persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above (21 CFR 310.6), are hereby given an opportunity for a hearing to show why approval of the new drug application(s) providing for the claim(s) involved should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and all identical, related, or similar drug products.

If an applicant or any person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before May 9, 1977, a written notice of appearance and request for hearing, and (2) on or before June 7, 1977, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this proposal to withdraw approval. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of such drug product. Any such drug product labeled for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice of opportunity for hearing shall be filed in quintuplicate. Such submissions, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk (address given above) between the hours of 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–1053, as amended (21 U.S.C. 352, 355)) and under the authority delegated to the Director of the Bureau of Drugs (21 CFR 5.82) (recodification published in the FEDERAL REGISTER of March 22, 1977 (42 FR 15553)).

Dated: April 4, 1977.

J. RICHARD CROUT,
Director, Bureau of Drugs.

[FR Doc.77-10388 Filed 4-7-77;8:45 am]

Office of Education

STATE STUDENT FINANCIAL ASSISTANCE TRAINING PROGRAM

Notice of Closing Date for Receipt of State Applications

Notice is hereby given that, pursuant to the authority contained in Section 493C of the Higher Education Act of 1965, as amended (20 U.S.C. 1088b–3), applications are being accepted from the 50 States, the District of Columbia, Guam, American Samoa, the Virgin Islands, Puerto Rico, and the Trust Territory of the Pacific Islands to design and develop State Student Financial Assistance Training Programs. These programs will increase the proficiency of institutional and State financial aid administrators in administering all aspects of student financial assistance.

Applications must be submitted by agencies responsible for State scholarship/grant programs and must be received on or before May 15, 1977, by the Office of Education.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: Dr. Richard L. McVity, Director, State Student Incentive Grant Program (SSIGP), Bureau of Student Financial Assistance, U.S. Office of Education, 400 Maryland Avenue SW., Washington, D.C. 20202. An application sent by mail will be considered to be received on time by the State Student Incentive Grant Program if:

(1) The application was sent by registered or certified mail not later than the fifth calendar day prior to the closing date (or, if such fifth calendar day is a Saturday, Sunday, or Federal holiday, not later than the next following business day), as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.)

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education, State Student Incentive Grant Program, Room 3674, Regional Office Building No. 3, 7th & D Streets SW., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m., except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. *Program information and forms.* Information and application forms may be obtained from the State Student Incentive Grant Program, Bureau of Student Financial Assistance, U.S. Office of Education, 400 Maryland Avenue SW., Washington, D.C. 20202.

D. *Applicable Regulations.* A Notice of Proposed Rulemaking for the State Student Financial Assistance Training Program is published in this issue of the FEDERAL REGISTER. Applicants are advised to follow the requirements and standards published in the proposed regulations in submitting their applications. If the final regulations contain new or inconsistent requirements or funding criteria, the closing date will be extended to allow applicants who have submitted applications based on the proposed regulations to revise their applications.

(20 U.S.C. 1088b–3.)

(Catalog of Federal Domestic Assistance Number 13.582; State Student Financial Assistance Training Program.)

Dated: April 1, 1977.

WILLIAM F. PIERCE,
Acting Commissioner of Education.

[FR Doc.77-10135 Filed 4-7-77;8:45 am]

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

ENDANGERED SPECIES PERMIT

Receipt of Request for Amendment

A permit was issued to the Regional Director, U.S. Fish and Wildlife Service, Albuquerque, New Mexico, on November 10, 1975, pursuant to the Endangered Species Act of 1973: "May take and transport young and not to exceed 50 adult Colorado River squawfish (*Ptychocheilus lucius*) for purposes of scientific research and propagation."

A notice containing the application for the permit was published in the FEDERAL REGISTER on August 5, 1975 (40 FR 32849), soliciting public comments for a period of 30 days.

A notice of the issuance of the permit was published on March 5, 1976 (41 FR 9576).

Under date of March 15, 1977, a request for significant amendments to the permit has been received from the office of the Regional Director, Albuquerque, New Mexico. Published herewith is a copy of the request for these changes which will be considered as an amendment to this permit. This request is being considered pursuant to § 13.23, Title 50 Code of Federal Regulations (see 39 FR 1162).

V4268 APR 8 77 UMI

OPTIONAL FORM NO. 10
MAY 1962 EDITION
GSA FPMR (41 CFR) 101-11.6

UNITED STATES GOVERNMENT

Memorandum

U.S. FISH & WILDLIFE SERVICE
Region 2, Albuquerque, New Mexico 87103

TO : Director, FWS, Washington, D. C. (WPO)

DATE: March 15, 1977

FROM : Assistant Regional Director (SE)

SUBJECT: Amendment Request for Permit No. PRT 8-225-C

We are requesting an Amendment #4 to the above permit. Willow Beach N.F.H. is currently carrying out propagation activities on the Colorado Squawfish (Ptychocheilus lucius) and razorback sucker (Xyrauchen texanus). The Colorado River Fishes Recovery Team has asked that we expand this work to include the humpback chub (Gila cypha). In addition, a package will be soon coming from this office to list 2 other Colorado River endemic fish species; bonytail chub (Gila elegans) and razorback sucker. Hopefully, in the near future all four of these species will be propagated at Willow Beach and perhaps at Dexter and Hotchkiss N.F.H.s.

We therefore request that Permit No. PRT 8-225-C be amended to read as follows:

Block 11 (D) - Delete: as written
Amend: to read:

Authorized to conduct the following activities with Colorado (River) squawfish (Ptychocheilus lucius), humpback chub (Gila cypha), and if and when listed, bonytail chub (Gila elegans) and razorback sucker (Xyrauchen texanus), as specified in block 10, for the purposes of scientic research and propagation;

1. May take, transport and rear each of the above four species for the purposes of scientific research and propagation.

2. May transport to the Fish Control Laboratory, Fort Morgan, Colorado, fifteen (15) subadults of each of the above species (per year) and sacrifice them for the purpose of disease determination.

3. May release into suitable waters of the Colorado River basin as specified in Block 10, Colorado Squawfish, humpback chubs, bonytail chubs and razorback suckers, after receiving permission from the State or States to receive the stocking.

Block 11 (F) - Delete: squawfish
Amend: to read:

AMERICAN REVOLUTION BICENTENNIAL 1776-1976

The containers in which the fish are shipped must be plainly marked, labled or tagged giving the names and addresses of the shipper and, cosignee with an accurate description of the contents by number and species.

Block 11 (H) - Delete: squawfish
Amend: to read:

A duplicate of this permit must be attached to the container in which the fish are placed for storage, supervision or care.

Block 11 (I) - Delete: squawfish
Amend: to read:

The loss, death or destruction of any of the above species shall be reported within 24 hours to the Albuquerque U.S. Fish & Wildlife Service Office (505-766-2091) within 10 days.

We are requesting that the number of fish removed from the wild and numbers restocked in the wild be eliminated from the permit. This seems best left to the discretion of the Regional Director, in conjunction with the State Agencies and the Recovery Team. It seems possible this spring that we may produce as many as 2 million young razorback suckers, and limiting restocking to 3,000 is unrealistic.

As this permit is up for renewal in December of 1977, and becoming somewhat confused with the different amendments, perhaps it would be better to reissue the entire permit now. We will leave this decision to your discretion.

R. L. Stephens

In keeping with the spirit of the Endangered Species Act of 1973 this notice is being published to allow public comment on the request for an amendment. Interested persons may comment on this amendment by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/WPO), U.S. Fish and Wildlife Service, Washington, D.C. 20240. This application has been assigned File Number PRT 8-225-C; please refer to this number when submitting comments. All relevant comments received on or before May 9, 1977 will be considered.

Dated: April 5, 1977.

DONALD G. DONAHOO,
Chief, Permit Branch,
Federal Wildlife Permit Office.

17.22—Paragraph (a) is the applicable section:

Item (1)—Common Name—California Brown Pelican.—Scientific Name—*Pelecanus occidentalis californicus*.—Number, Age, and Sex—variable, this is impossible to provide. However, up to 200 prefledging brown pelicans will be banded in California; addled eggs and eggshell fragments (as many as are found) will be collected and analyzed for pesticides; up to 200 carcasses of brown pelicans will be salvaged from dieoffs and beaches; as many injured birds as are found will be examined and turned over to the California Dept. of Fish and Game or their appointed agent; no healthy brown pelicans will be collected, or handled/trapped, except those to be banded.

Activities—banding (USFWS bands plus colored leg bands); collecting (materials such as carcasses, addled eggs, eggshell fragments); observing (near nesting colonies and loafing groups); importing (any brown pelican materials legally collected in Mexico).

Item (2)—This wildlife is still in the wild.

Item (3)—Activities will not cause losses of wild, healthy birds. Applicant has 7 years of experience with the subspecies as a biologist with the USFWS. Reprints of brown pelican publications by the applicant to date are attached for your information (attachment 1).

Item (4)—Not applicable.

Item (5)—All materials will be processed and held at the campus of the University of California at Davis, facilities of the Division of Wildlife and Fisheries Biology. Salvagable materials will be housed at the museum of the institution listed above. Permanent disposition of some materials will be at USFWS approved museums in California. The facilities of the University of California are varied and extensive and impossible to describe in detail here.

Item (6)—Not applicable.

Item (7)—A memo of understanding with California Department of Fish and Game is attached to the original report. A collecting permit is issued to the applicant by the Mexican Departmento de la Fauna Silvestre for research work in Mexico (letters dated October 27, 1976, No. 90–76/697; letter dated January 11, 1977). Permit from the U.S. National Park Service to conduct research on Anacapa Island, California (dated January 28, 1977).

Item (8)—Proposed activities are outlined in detail in the attached research proposals and correspondence (Attachment 2), (i, ii).

(iii)—The proposed activities will help increase our knowledge of this endangered subspecies and provide continuing input for management decisions and continuing monitoring of its status. Hopefully, in time, the California brown pelican can be removed from the endangered species list.

(iv)—Disposition of all materials remaining at the termination of activities will be in accordance with section 17.22(b)(3).

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Room 512, 1717 H Street NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/WPO), U.S. Fish and Wildlife Service, Washington, D.C. 20240. This application has been assigned File Number PRT 2–574–07; please refer to this number when submitting comments. All relevant comments received on or before May 9, 1977 will be considered.

ADDITIONAL INFORMATION REQUIRED
SECTION 17.22

(1) Common name—Nene or Hawaiian Goose. Scientific name—*Branta sandvicensis*. Number and description—one (1) male, one (1) female.

The activity sought to be authorized by this application is for the Audubon Park Commission to purchase the above described specimens in interstate commerce for the purpose of zoological exhibition and captive propagation. These birds are currently on loan to Audubon Park.

(2) The birds for which this permit is sought were bred and reared in captivity by the St. Louis Zoological Park in St. Louis, Missouri, whose mailing address is:

St. Louis Zoological Park, Forest Park, St. Louis, Mo., 63110.

(3) Not applicable.

(4) Hatched at St. Louis Zoological Park.

(5) The birds will be maintained at Audubon Park in the city of New Orleans, Louisiana which park includes 395 acres in the city of New Orleans operated by the Audubon Park Commission. The Zoo exhibits 55 mammal species, 124 bird species, 48 reptile species and has 95 employees. We have a part-time veterinarian and an on-going educational program. The bird department, under whose care these birds will be maintained, has a curator and three (3) animal keepers.

(6) (I) The waterfowl exhibit at Audubon Park, where these birds will be kept, includes a pond (134'6" long by 45' wide), sufficient grazing area and is protected by chain link fencing (photo attached); (II) A resume of Mr. Fay Steele is attached; (III) We will collaborate in maintaining breeding records and a stud book; (IV) Birds were shipped in crates similar to and equal to I.A.T.A. live animal regulation, fourth edition, February, 1975, Geneva, Switzerland, for waterfowl of like size; (V) No.

(7) Copy of breeding loan agreement attached.

RESUME OF ZOO BIRD CARE AND BIRD PROPAGATION EXPERIENCE OF FAY N. STEELE, CURATOR OF BIRDS, AUDUBON PARK ZOO

Eight years experience as operator of self owned Aviary and bird propagation center in Salome, Arizona. Reared Psittacines, Game Birds, and Waterfowl.

Employed two years in Bird Department of the Phoenix Zoo including one year as head of the Department. Successfully raised several species of birds including waterfowl.

One year Principal Keeper of Birds at the Baltimore Zoo. Experience and breeding success with many species of birds including waterfowl.

Employed 4½ years in the Honolulu Zoo, 2½ years as head bird keeper, approximately 1,000 birds in the collection. Extensive success in the hatching and rearing of many species of birds including Nene Geese and other rare waterfowl.

Two years Curator of Birds at Audubon Park Zoo, New Orleans. Successful propagation of many species of birds including waterfowl.

Summary: Eighteen years experience in Zoo Bird care. Successful propagation of approximately 80 species of birds including Penguins, Ostrich, Rheas, Flamingos, Plovers, Amazons, Macaws, Cockatoos and other Psittacines, Birds of Prey, Brush Turkeys, Crowned Cranes, Crowned Pigeons and other exotic Columbiformes, and over 20 species of Anseriformes including the hatching and rearing of Nene Geese on three occasions while at the Honolulu Zoo.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Room 512, 1717 H Street NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/WPO), U.S. Fish and Wildlife Service, Washington, D.C. 20240. This application has been assigned File Number PRT 2–665–07; please refer to this number when submitting comments. All relevant comments received on or before May 9, 1977 will be considered.

Names of species sought to be covered by permit. 50c 17.33.

PHEASANTS

Elliots (*Syrmaticus ellioti*).
Brn eared (*Crossoptilon mantchuricum*).
Edward's (*Lophura edwardsi*).
Humes (*Syrmaticus humiae*).
Mikado (*Syrmaticus mikado*).
Swinhoe (*Lophura swinhoii*).
White eared (*Crossoptilon crossoptilon*)

(A) Permit is needed for interstate commerce for the purchasing of new blood lines, keeping down inbreeding, and also for the sale of excess birds that are produced annually.

(B) All birds will be located in Wisc., County of Pierce, Section 24, Twnp. 26 N, range 18 in pens. Diagram of pens and (2) two Photographs will be attached to the reverse side of this sheet.

(C) My general experience comes twenty years of raising pheasant, quail, peafowl etc., but never do I purchase a new breed of pheasant before I do a lot of research reading to see if I can adequately raise that bird.

(D) I now participate in the N.P.I.P. which requires blood testing, banding which, in turn demands upon myself to keep a general stud book of all my breeders. If a more extensive stud book is needed I'll cooperate in any way.

(E) All containers used for shipping birds are always picked or built with the bird in mind, whereas the bird is restricted enough where it can't jump up and hurt itself, yet is free to exercise, also to eat and drink, which food and water is available from tins mounted in the containers.

(F) All mortalities will be recorded and steps taken to stop reoccurrences.

(G) I now raise the elliot and swinhoe and I'll need this permit to enable me to purchase new stock and avoid excessive inbreeding.

(G) If for any reason my activities involving this wildlife is terminated all birds not sold will be donated to the American Game Bird Breeders' Coop. Federation of which I am a member, to be dispersed as they see fit.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Services's office in Room 512, 1717 H Street NW., Washington, D.C.

INCLOSURE 1

The following is a list of pheasants for which the permit is desired for delivery, receipt, carriage, transportation or shipment in interstate commerce of the same:

Brown eared pheasant, *Crossoptilon mantchuricum.*
Edward's pheasant, *Lophura edwardsi.*
Elliot's pheasant, *Syramticus ellioti.*
Mikado pheasant, *Syrmaticus mikado.*
Swinhoe's pheasant, *Lophura swinhoii.*

The following is submitted as inclosures as required by 50 CFR 17:

17.33a(1): Provided above.
17.33a(2): Provided as inclosure 2.
17.33a(3): Provided as inclosure 3.
17.33a(4): Provided as inclosure 4.
17.33a(5): I ship my birds in reinforced wooden crates (16x21x12) or (19x12x12) designed for either one bird or one pair of birds depending upon their size. These crates are provided with feeding and watering devices for use while in transit. All crates have foam rubber attached to the top of the crate to prevent damage to the heads of the birds while in transit.
17.33a(6): Provided as inclosure 5.
17.33a(7)(i): The delivery, receipt, carriage, transportation or shipment in interstate commerce of those species of pheasants listed in inclosure 1.
17.33a(7)(ii): I do not plan to terminate my activities in raising birds. If such occurance should ever happen the disposition of the birds would be in accordance with any applicable federal or state regulations.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Services office in Room 512, 1717 H Street, N.W., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/WPO), U.S. Fish and Wildlife Service, Washington, D.C. 20240. This application has been assigned File Number PRT 2-677-25; please refer to this number when submitting comments. All relevant comments received on or before May 9, 1977 will be considered.

Dated: April 5, 1977.

DONALD G. DONAHOO,
Chief, Permit Branch
Federal Wildlife Permit Office.

Public Hearings on Special Study

Public hearings on a special study of three areas adjacent to Indiana Dunes National Lakeshore will be held Monday, May 9, 1977, at Beverly Shores Elementary School, Marne Avenue, Beverly Shores, Indiana, and Tuesday, May 10, 1977, at Park Headquarters at U.S. Highway 12 and Kemil Road, Chesterton, Indiana. Both hearings will begin at 7:30 p.m. (CDT). The Act to provide for the establishment of Indiana Dunes (80 Stat. 1309; 16 USC 460u-18) as amended by Public Law 94-549 directs the Secretary of the Interior to study the three areas designated as II-A (NIPSCO property), III-A (Beverly Shores "island") and III-C (U.S. 12 right-of-way), and transmit a report to Congress by July 1, 1977. Interested individuals, representatives of organizations and public officials are invited to express their views in person. Those not wishing to appear may submit written sttatements which should be filed with the Superintendent, Indiana Dunes National Lakeshore, R.R. 2, Box 139A, Chesterton, Indiana 46304, no later than May 31.

Copies of the study may be reviewed in the Washington Office of the National Park Service, Room 1210, Department of the Interior, 18th and C Streets NW., Washington, D.C.; the Midwest Regional Office of the National Park Service, 1709 Jackson Street, Omaha, Nebraska; or at the office of the Superintendent, Indiana Dunes National Lakeshore, U.S. Highway 12 and Kemil Road, Chesterton, Indiana, on or after April 18. Copies may also be obtained by writing the Superintendent.

Dated: March 31, 1977.

MERRILL D. BEAL,
Regional Director,
Midwest Region.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

SEASONALLY ADJUSTED WEEKLY UNEMPLOYMENT RATES UNDER REGULAR STATE UNEMPLOYMENT COMPENSATION PROGRAMS, 1977

Factors for Computation

The Bureau of Labor Statistics announces the 1977 weekly seasonal adjustment factors to be applied to the weekly unadjusted level of claims for regular State unemployment benefits to derive seasonally adjusted data for this series. The weekly seasonally adjusted level of insured unemployment under regular State programs is a major component in the derivation of the 13-week average seasonally adjusted national and State insured unemployment indicator rate which triggers Federal-State extended unemployment compensation payments under the provisions of State laws. The rate of insured unemployment for purposes of determining the beginning and ending of an Extended Benefits period is computed and announced by the U.S. Department of Labor's Employment and Training Administration, Unemployment Insurance Service.

Week ending date:	Factor
Jan. 1	122.7
Jan. 8	129.8
Jan. 15	132.5
Jan. 22	133.3
Jan. 29	128.7
Feb. 5	129.6
Feb. 12	131.5
Feb. 19	132.5
Feb. 26	131.3
Mar. 5	128.8
Mar. 12	127.4
Mar. 19	124.7
Mar. 26	120.2
Apr. 2	117.1
Apr. 9	114.8
Apr. 16	112.7
Apr. 23	109.9
Apr. 30	104.1
May 7	101.3

Employment and Training Administration

EMPLOYMENT TRANSFER AND BUSINESS COMPETITION

Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 USC 1924(b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75. In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.
2. Employment trends in the same industry in the local area.
3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.
4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).
5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertaining to the determinations which must be made regarding these applications are invited to submit such information in writing within two weeks of publication of this notice to: Deputy Assistant Secretary for Employment and Training, 601 D St. NW., Washington, D.C. 20213.

Signed at Washington, D.C., this 4th day of April 1977.

ERNEST G. GREEN,
Assistant Secretary for
Employment and Training.

Applications received during the week ending Apr. 1, 1977

Name of applicant	Location of enterprise	Principal product or activity
Wilson's Ice Cream House, Inc.	Dallas, Pa.	Manufacture and sale of ice cream, fast-food outlet, convenience store, and restaurant.

Occupational Safety and Health Administration

ADVISORY COMMITTEE ON CONSTRUCTION SAFETY AND HEALTH, SUBCOMMITTEE ON COMPLIANCE

Meeting

Notice is hereby given that the Subcommittee on Compliance of the Advisory Committee on Construction Safety and Health, will meet on April 26–27, 1977, starting at 9 a.m. in the Hilton Airport Plaza Inn at the Kansas City, International Airport, the European Consulate Room, Kansas City, Missouri. The meeting is open to the public.

The agenda for this meeting will include a discussion of proposed citation guidelines at multi-employer worksites, and plans for future meetings. Any materials provided to members of the Committee are available for inspection and copying at the Division of Consumer Affairs.

Written data related to Committee activities may be submitted, preferably with 20 copies, to the Division of Consumer Affairs. Any such submissions received prior to the meeting will be provided to the members of the group and will be included in the record of the meeting.

The Advisory Committee on Construction Safety and Health was established under section 107(e)(1) of the Contract Work Hours and Safety Standards Act (40 U.S.C. 333) and section 7(b) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 655).

Communications may be mailed to:

Ken Hunt, Office of Public and Consumer Affairs, Department of Labor—OSHA, 3d Street and Constitution Ave. NW., Room N-3635, Washington, D.C. 20210. Phone: 202-523-8024.

Signed at Washington, D.C., this 5th day of April 1977.

EULA BINGHAM,
Assistant Secretary,
Occupational Safety and Health.

[FR Doc.77-10475 Filed 4-7-77;8:45 am]

CALIFORNIA STATE STANDARDS

Notice of Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health, (hereinafter called Regional Administrator—OSHA) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On May 1, 1973 notice was published in the FEDERAL REGISTER (38 FR 10717) of the approval of the California plan and the adoption of Subpart K to Part 1952 containing the decision.

The California plan provides for the adoption of State standards which are at least as effective as comparable Federal standards promulgated under section 6 of the Act. Section 1952.173 of Subpart K sets forth the State's schedule for the adoption of as effective and comprehensive standards as those set forth in Chapter XVII of Title 29 of the Code of Federal Regulations. Accordingly California has promulgated standards comparable to the agricultural standard of 29 CFR Part 1928, Subpart C and revised the standard on temporary labor camps and promulgated it in accordance with applicable State procedures. An interagency agreement has been signed between the California Agriculture & Services Agency and the Department of Housing and Community Development to enforce the temporary labor camp standards in Title 25, Chapter 2 of the California Administrative Code which have been determined to be at least as effective as the temporary labor camp standard of 29 CFR 1910.142. By letters dated January 7, 1976 and March 11, 1977, from Steven A. Jablonsky, Program Manager, California Occupational Safety and Health Administration, to Gabriel J. Gillotti, Regional Administrator, and incorporated as part of the plan, the State submitted proof documents concerning standards equivalent to § 1910.142 and 29 CFR Part 1928, Subpart C. The temporary labor camp standards which are contained in Title 25, Chapter 2 of the California Administrative Code, and the agricultural standards, which are contained in Title 8, Chapter 4 of the California Administrative Code, were promulgated by the State after public hearings. The labor camp permit standard of section 3350 of Title 8, Chapter 4 of the California Administrative Code was promulgated by the State after public hearing on March 23, 1977.

2. *Decision.* Having reviewed the State submission in comparison with the Federal standards, it has been determined that the State standards are at least as effective as the comparable Federal standards. The State standards are more specific in several areas, particularly, with respect to Shelter, 29 CFR 1910.142 (b)(1) and Water Supply, 1910.142(c)(2). The detailed standards comparison is available at the locations specified below.

3. *Location of the supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator, Occupational Safety and Health Administration, 450 Golden Gate Avenue, Room 9470, San Francisco, California 94102; the California Occupational Safety and Health Administration, Room 3052, 455 Golden Gate Avenue, San Francisco, California 94102; and Office of the Directorate of Federal Compliance and State Programs, Occupational Safety and Health Administration, Room N-3605, 200 Constitution Avenue NW., Washington, D.C. 20210.

4. *Public participation.* Under § 1953.2(c) of this chapter, the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the California plan as a proposed change and making the OSHA Regional Administrator's approval effective upon publication for the following reason:

The standards were adopted in accordance with the procedural requirements of State law which included public comment and further public notice and participation would be repetitious.

This decision is effective April 8, 1977.

(Sec. 18, Pub. L. 91-956, 84 Stat. 1608 (29 U.S.C. 667).)

Signed at San Francisco, California, this 21st day of March, 1977.

GABRIEL J. GILLOTTI,
Regional Administrator—OSHA.

[FR Doc.77-10476 Filed 4-7-77;8:45 am]

WASHINGTON STATE STANDARDS

Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called Regional Administrator) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance

V 4268 APR 8 77 UMI

with section 18(c) of the Act and 29 CFR Part 1902. On January 26, 1973, notice was published in the FEDERAL REGISTER (38 FR 2421) of the approval of the Washington plan and the adoption of Subpart F to Part 1952 containing the decision.

The Washington plan provides for the adoption of State standards which are at least as effective as comparable Federal standards promulgated under section 6 of the Act.

Section 1952.120 through .124 of Subpart F sets forth the State's schedule for the adoption of at least as effective State standards. By letter dated December 29, 1976, from John Hillier, Assistant Director, Industrial Safety and Health to James Lake, Regional Administrator, and incorporated as part of the plan, the State submitted State standards comparable to 29 CFR 1910.265, as published in the FEDERAL REGISTER (39 FR 23771) dated June 27, 1974. These standards, which are contained in Chapter 296-78 WAC Safety Standards for Sawmill Operations, were promulgated after public hearings held on April 30, 1974, February 20, 1976, and September 1, 1976.

2. *Decisions.* Having reviewed the State submission in comparison with Federal standards, it has been determined that the State standards are at least as effective as the comparable Federal standards and accordingly should be approved. The Washington submission expands the scope to include Plywood and Veneer Manufacturing, Waste or Residual Handling, and special coverage for Shake and Shingle Manufacturing, and many additional standards including Lockout and Tag Out and Transportation. The detailed standards comparison is available at the locations specified below.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator, Occupational Safety and Health Administration, Room 6048, Federal Office Building, 909 First Avenue, Seattle, Washington 98174; Department of Labor and Industries, General Administration Building, Olympia, Washington 98501; and the Technical Data Center, Room N3620, 200 Constitution Avenue N.W., Washington, D.C. 20210.

4. *Public participation.* Section 1953(c)(1) of this chapter provides that where State standards are identical to or "at least as effective" as comparable Federal standards, and have been promulgated in accordance with State law, approval may be effective upon publication without an opportunity for further public participation. As the standards under consideration are "at least as effective" as the Federal standards, and have been promulgated in accordance with State law, including an opportunity for public comment and/or public hearings, they are approved without an opportunity for further public comment.

This decision is effective April 8, 1977.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667).)

Signed at Seattle, Washington this 9th day of March, 1977.

JAMES W. LAKE,
Regional Administrator, Occupational Safety and Health Administration.

[FR Doc.77-10477 Filed 4-7-77;8:45 am]

Office of the Secretary

[TA-W-1535]

BURROUGHS CORP.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1535: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 30, 1976 in response to a worker petition received on December 30, 1976 which was filed on behalf of workers and former workers producing computer memory units at the Piscataway, New Jersey plant of Burroughs Corporation.

The Notice of Investigation was published in the FEDERAL REGISTER on January 18, 1977 (42 FR 3368). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from the information provided by officials of Burroughs Corporation, the Department of Commerce, the International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof, have increased either actual, or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (3) has not been met.

Evidence developed in the Department's investigation reveals that the Piscataway, New Jersey plant of Burroughs Corporation produces computer memory units exclusively for use in computer mainframes produced at other Burroughs plants. Burroughs transferred production of its ferrite-core memory sub-assemblies (stacks) to off-shore facilities in 1970. Since then none of these sub-assemblies have been produced at Piscataway. Imports of these sub-assemblies have decreased in 1975 and 1976 as Burroughs has replaced them with integrated circuits. Burroughs has never produced these integrated circuits at its own facilities.

Imports of computer mainframes have been negligible from 1972 through 1976.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that imports of computer mainframes into the U.S. have not increased as required in Section 222 of the Trade Act of 1974. The petition is, therefore, denied.

Signed at Washington, D.C. this 29th day of March 1977.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[FR Doc.77-10472 Filed 4-7-77;8:45 am]

[TA-W-1265]

CHARLESTON, SOUTH CAROLINA PLANT OF AIRCO, INC.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1265: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 10, 1976, in response to a worker petition received on that date which was filed by the United Steelworkers of America, Local Union 4161 on behalf of workers and former workers producing high carbon ferrochrome at the Charleston, S.C. plant of Airco, Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on December 3, 1976 (41 FR 53079). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Airco, Inc., the parent firm of the Charleston, S.C. plant, its customers, the U.S. International Trade Commission, the U.S. Department of Commerce, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Average employment of production workers fell 31 percent in 1975 compared to 1974 and declined 45 percent in the first quarter of 1976 compared to the first quarter of 1975. Employment declined 5 percent in the January through November period of 1976 compared to the like period of 1975.

In 1975, workers increased production for inventory and were assigned duties around the plant unrelated to the production of ferrochrome as the plant sought to maintain its work force during a period of declining orders. Major layoffs occurred in September and November of 1975.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales fell 61 percent in units and 38 percent in value in 1975 compared to 1974. Sales continued to decline 5 percent in units and 31 percent in value in the first quarter of 1976 compared to the first quarter of 1975 and then increased 117 percent in units and 72 percent in value in the second quarter of 1976 compared to the second quarter of 1975. Sales increased 67 percent in units and 20 percent in value in the January through November period of 1976 compared to the like period of 1975.

Production decreased 53 percent in 1975 compared to 1974. Production continued to decline 25 percent in the first quarter of 1976 compared to the first quarter of 1975 and then increased 114 percent in the second quarter of 1976 compared to the second quarter of 1975. Production rose 62 percent in the January through November period of 1976 compared to the like period of 1975.

INCREASED IMPORTS

Imports of high carbon ferrochrome increased in every year from 1972 through 1975 when compared to the previous year. Imports increased 122 percent in 1975 compared to 1974 and then decreased 39 percent and 54 percent, respectively, in the first and second quarters of 1976 when compared to the respective quarters of 1975. In the January–October period of 1976 imports increased 28 percent when compared to the same period of 1975.

The ratio of imports to domestic production increased from 54.1 percent in 1974 to 220.3 percent in 1975, rose from 154.0 percent in first quarter of 1975 to 174.7 percent in the first quarter of 1976, but declined from 270.3 percent in the second quarter of 1975 to 85.2 in the second quarter of 1976. The ratio of imports to domestic production decreased from 215.0 percent in the January–October period of 1975 to 118.9 percent in the like period of 1976.

CONTRIBUTED IMPORTANTLY

Customers surveyed indicated they decreased purchases of ferrochrome from Airco, Inc. as imported ferrochrome accounted for an increasing percentage of their total purchases.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with high carbon ferrochrome produced at the Charleston, S.C. plant of Airco, Inc. contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers of the Charleston, S.C. plant of Airco, Inc. totally or partially separated from employment on or after October 10, 1975 and before March 31. 1976 are certified as eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974. All workers separated on or after March 31, 1976 are denied eligibility to apply for adjustment assistance.

Signed at Washington, D.C. this 29th day of March 1977.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-1348]

TAYLOR FORGE DIVISION, GULF AND WESTERN INDUSTRIES

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1348; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 1, 1976 in response to a worker petition received on December 1, 1976 which was filed by the United Steelworkers of America on behalf of workers and former workers producing carbon steel forged flanges at the Ackerman, Mississippi plant of the Taylor Forge Division, Gulf and Western Industries, Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on December 21, 1976 (41 FR 55605). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Taylor Forge, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Average annual employment of production workers at the Ackerman plant decreased 4.3 percent in the fourth quarter of 1975 compared to the like quarter of 1974. Employment declined 48.6 percent from 1975 to 1976.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales data was not made available.

Annual production of flanges at the Ackerman plant declined 59.1 percent in quantity in the fourth quarter of 1975 compared to the like period in 1974.

V4268 APR 8 77 UMI

Production declined 49.1 percent in quantity in 1976 compared to 1975.

INCREASED IMPORTS

Imports of carbon and stainless forged steel flanges decreased from 23.9 million pounds in 1971 to 23.1 million pounds in 1972 then decreased to 12.7 million pounds in 1973. Imports increased to 45.0 million pounds in 1974. Imports increased to 104.5 million pounds in 1975. Imports decreased 51.2 percent in the first 9 months of 1976 compared to the like period in 1975, from 84.9 million pounds to 41.4 million pounds.

The ratio of imports to domestic production of carbon and stainless steel forged flanges increased from 14.7 percent in 1971 to 15.0 percent in 1972, then decreased to 9.3 percent in 1973. The ratio increased to 31.4 percent in 1974 and 74.3 percent in 1975. The ratio of imports to domestic production of carbon and stainless steel forged flanges decreased in the first 9 months of 1976 compared to the like period in 1975; from 77.5 percent to 65.5 percent.

The import penetration of carbon and stainless steel forged flanges increased dramatically from 1974 to 1975, from 31.4 percent to 74.3 percent. The volume of imports increased 132 percent in 1975 compared to 1974, from 45.0 million pounds to 104.5 million pounds.

In the first 9 months of 1976 compared to the like period in 1975, the volume of imports declined 51.2 percent while the import to production ratio declined from 77.5 percent to 65.5 percent.

The import to production ratio in 1975 and in the first 9 months of 1976 is more than double the ratio of any other year between 1971 and 1974. The import to production ratio in the first 9 months of 1976 is 126.3 percent greater than the average yearly ratio of imports to production for the period 1971 through 1975.

CONTRIBUTED IMPORTANTLY

Customers of Taylor Forge have indicated that they reduced purchases from Taylor Forge and increased purchases of imported flanges. The price differential between domestic and imported flanges was the factor cited as the reason for the switch from Taylor Forge to foreign maufacturers.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with forged steel flanges produced by the Ackerman, Mississippi plant of the Taylor Forge Division, Gulf and Western Industries, Inc. contributed importantly to the total or partial separation of workers at the plant. In accordance with the provisions of the Act, I make the following certification:

All workers at the Ackerman, Mississippi plant of the Taylor Forge Division of Gulf and Western Industries, Inc. who became totally or partially separated from employment on or after November 1, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 29th day of March 1977.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR CHEMISTRY

Meeting

In accordance with the Federal Advisory Committee Act, as amended, Pub. L. 92-463, the National Science Foundation anounces the following meeting:

Name: Advisory Panel for Chemistry.
Date and time: April 28 and 29, 1977; 9 a.m. to 5 p.m. each day.
Place: Room 545, National Science Foundation, 1800 G St. NW., Washington, D.C.
Type of meeting: Part open, Part closed.
Contact person: Dr. Richard S. Nicholson, Division Director for Chemistry, Room 340, National Science Foundation, Washington, D.C. 20550, telephone (202) 632-4262.
Purpose of panel: To provide advice and recommendations concerning support for research in chemistry.
Agenda: April 28, 9 a.m. to 4 p.m.—Open Session. Discussion of topics of concern to the Chemistry Division, including the status of the National Resource for Computational Chemistry, the recent review of chemistry division programs, Foundation policies concerning equipment, and procedures for post-grant evaluation.
4 p.m. to 5 p.m.—Closed Session. For review and evaluation of specific proposals.
April 29, 9 a.m. to 5 p.m.—Open Session. Continuation of topics discussed on April 28, with remarks and presentations by NSF staff on the FY 78 budget, as well as other topics of interest to the Panel and the Foundation.
Reason for closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.
Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

M. REBECCA WINKLER,
Acting Committee Management Officer.

APRIL 4, 1977.

[FR Doc.77-10373 Filed 4-7-77;8:45 am]

ADVISORY PANEL FOR COMPUTER SCIENCE AND ENGINEERING, AD HOC SUBCOMMITTEE ON THE SPECIAL PROJECTS PROGRAM

Part Open Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Panel for Computer Science and Engineering Ad Hoc Subcommittee on the Special Projects Program.
Date: April 25 and 26, 1977.
Time: 9 a.m. each day.
Place: Room 642, National Science Foundation, 1800 G Street NW., Washington, D.C.
Type of meeting: Part open—Open April 25 (9 a.m.–12 noon) April 26 (9 a.m.–3 p.m.); Closed April 25 (1 p.m.–5 p.m.).
Contact person: Mr. Kent K. Curtis, Head, Computer Science Section, telephone: 202-632-7346. Anyone who plans to attend this meeting should notify Mr. Curtis no later than April 22, 1977.
Summary minutes: May be obtained from the Committee Management Coordination Staff, Division of Personnel and Management, Room 248, National Science Foundation, Washington, D.C. 20550.
Purpose of advisory panel: To provide advice and recommendation concernoing support for research in computer science and engineering.
Agenda: Will include the following discussions and presentations:

APRIL 25

9—Introductory Remarks.
9:15—Brief report on Computer Science and Engineering programs, Head, Computer Science Section.
9:30—Review of the Special Projects Program.
Noon—Recess.
1—Review and discussion of specific Special Projects Program proposals (closed).

APRIL 26

9—Review of the Special Projects Program, continue.
Noon—Recess.
1—Continuation of morning's discussion.
3—Adjourn.

Reason for closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.
Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

M. REBECCA WINKLER,
Acting Committee Management Officer.

APRIL 4, 1977.

[FR Doc.77-10372 Filed 4-7-77;8:45 am]

FEDERAL SCIENTIFIC AND TECHNICAL INFORMATION MANAGERS

Meeting

The next meeting of the Federal Scientific and Technical Information Managers will be held on Wednesday, April 13, 1977, from 9:30 a.m.–12 noon, at the National Archives and Records Service, Conference Room 105. Please enter through the Pennsylvania Avenue entrance. The theme of this meeting will be "National Archives and Machine-Readable STI Records."

These meetings, sponsored by the National Science Foundation, provide a forum for the interchange of information concerning common problems and coordination in the areas of Federal scientific and technical information and communications.

These meetings are designed solely for the benefit of Federal employees and officers, and do not fall under the provisions of the Federal Advisory Committee Act (Pub. L. 92-463). However, this meeting is believed to be of sufficient importance and interest to the public to be announced in the FEDERAL REGISTER.

Any persons wishing to attend this meeting or requiring further information should notify Mr. Andrew A. Aines, Division of Science Information, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550, telephone: (202) 632-5836.

LEE G. BURCHINAL,
Director, Division of Science Information.

APRIL 4, 1977.

[FR Doc.77-10393 Filed 4-7-77;8:45 am]

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Meeting

The meeting notice for the subject meeting to be held on April 7-9, 1977, (published on March 23 and 24, 1977, volume 42, No. 56 and volume 42, No. 57) is revised as detailed below. This revision involves the scheduling of one session not previously announced, the scheduling of another session and cancellation in part of one other agenda item.

THURSDAY, APRIL 7, 1977

6:30 p.m.–7 p.m.: Executive Session (closed)—Discuss proposed ACRS comments regarding proposed Authorization Legislation for FY-1978 ACRS activities. The ACRS office was informed on April 4, 1977 that the proposed legislation provided for the implementation of a fellowship program to support ACRS activities. On April 5, 1977, the ACRS was asked to supply comments as soon as possible on this legislative proposal. In light of the timing of these events a meeting on this subject could not have been scheduled when the April 7-9 meeting was first noticed.

FRIDAY, APRIL 8, 1977

9 a.m.–10:30 a.m.: Executive Session (closed)—Prepare ACRS reports on:

Cherokee Nuclear Plant
Perkins Nuclear Plant

This was previously announced as scheduled for 5 p.m.–6:30 p.m. on Friday April 8, 1977. It has been rescheduled due to cancellation of the meeting with the NRC Staff on review of the Federal/State Program for Regulation of Commercial Low-Level Waste Burial Grounds which was to have taken place during this same period.

I have determined that in accordance with subsection 10(d) of Pub. L. 92-463 that it is necessary to close the portion of the meeting at which the ACRS will discuss the proposed legislation and formulate its comments thereon to avoid premature disclosure of information which would significantly frustrate proposed Committee/agency action (5 U.S.C. 552b.(c)(9)(B)). Separation of factual information and information considered exempt from disclosure under Exemption (9)(B) during this portion of the meeting is not considered practical.

Dated: April 6, 1977.

JOHN C. HOYLE,
Advisory Committee Management Officer.

[FR Doc.77-10520 Filed 4-7-77;8:45 am]

OFFICE OF MANAGEMENT AND BUDGET

PRIVACY ACT OF 1974

Reports on New Systems

The purpose of this notice is to list reports on new systems filed with the Office of Management and Budget to give members of the public the opportunity to make inquiries about them and to comment on them.

The Privacy Act of 1974 requires that agencies give advance notice to the Congress and the Office of Management and Budget of their intent to establish or modify systems of records subject to the Act (5 U.S.C. 552a(o)). During the period March 21, 1977 through April 1, 1977 the Office of Management and Budget received the following reports on new (or revised) systems of records.

DEPARTMENT OF JUSTICE

System name:

Immigration and Naturalization Service Index System.

Report date:

March 11, 1977.

Point-of-contact:

Mr. Harry L. Gastley, Administrative Counsel, Room 1121, Department of Justice, Washington, D.C. 20530.

Summary:

The report proposes to alter the subsystem "centralized index and records relating to but not limited to, aliens lawfully admitted for permanent residence and United States citizens" by providing for access via cathoderay terminals.

DEPARTMENT OF DEFENSE

System name:

Military Personnel Data File.

Report date:

March 17, 1977.

Point-of-contact:

Mr. Cavaney, Defense Privacy Board, Room 5H023 Forrestal Building, 1000 Independence Avenue SW., Washington, D.C. 20314.

Summary:

The proposed system "will maintain a consolidated joint personnel file • • • which will save time and improve efficiency in the personnel management of the personnel assigned for duty with the U.S. Readiness Command (USREDCOM) • • •"

DEPARTMENT OF COMMERCE

System name:

Users of Public Search Room of the Patent and Trademark Office.

Report date:

March 17, 1977.

Point-of-contact:

Mr. Joseph O. Smiroldo, Director, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230.

Summary:

A new system of records is proposed "to protect patent documents from unauthorized removal from the search room • • •"

NATIONAL SCIENCE FOUNDATION

System name:

Roster and Surveys of Doctorate Holders in the U.S.

Report date:

March 18, 1977.

Point-of-contact:

Mr. Herman Fleming, NSF Privacy Act Officer, National Science Foundation, Washington, D.C. 20550.

Summary:

The report proposes a new system of records "from which sample subpopulations may be selected for manpower surveys."

DEPARTMENT OF JUSTICE

System names:

(1) Employee Travel Vouchers and Individual Earnings Records; (2) Employee Health Records; (3) Time Utilization Recordkeeping System.

Report date:

March 23, 1977.

Point-of-contact:

Mr. Harry Gastley, Administrative Counsel, Room 1121, Department of Justice, Washington, D.C. 20530.

Summary:

The report includes two previously unreported systems and one new system, all used for internal administration of the Federal Bureau of Investigation.

FEDERAL ENERGY ADMINISTRATION

System names:

(1) Personnel Records and Management Information System; (2) Payroll System; (3) Accounts Payable Financial; (4) Accounts Receivable Financial; (5) Employee Travel Records; (6) Minority Group Data File; (7) Mailing Lists for Requesters of Energy Related Information.

Report date:

March 25, 1977.

Point-of-contact:

Mr. Furman Layman, Federal Energy Administration, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

Summary:

The report proposes alteration of the seven systems by the procurement of additional computer support services.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

System names:

(1) Mortgage Insurance Accounting System; (2) Consumer Complaint Handling System.

Report date:

March 29, 1977.

Point-of-contact:

Mr. Harold Rosenthal, Departmental Privacy Act Officer, Departmennt of Housing and Urban Development, Washington, D.C. 20410.

Summary:

The first system is a proposed consolidation and automation of several existing systems of records; the second is a proposed new system for tracking individual consumer complaint actions.

VELMA N. BALDWIN,
Assistant to the Director for Administration.

V4216 8 APR 8 77 UMI

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–13417; File No. SR–MSE–77–7]

MIDWEST STOCK EXCHANGE, INC.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94–29, 16 (June 4, 1975), notice is hereby given that on March 28, 1977, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

ARTICLE XXV

"NEXT PROPER SALE"

Rule 10. As to certain stocks dually listed on this Exchange and on another national securities exchange in the State of New York and which stocks have been designated as being in the dual trading system, orders will be accepted for execution as an odd lot based on the last New York sale in effect at the time the order is presented at the specialist post, provided the order is for a number of shares less than the full lot in said stock. An odd lot as part of an order involving a round lot, shall be filled on the basis of the full lot price whether such full lot is executed on Midwest or on another exchange; in such case the order shall be marked "on sale."

Odd lot orders which are entered during trading halt situations will be executed based on the reopening price in the New York market.

EXECUTION TIME

Rule 16. Odd-lot orders in the dual trading system received before 9 a.m. shall be executed on the opening sale in the New York market.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rules changes is as follows:

The purpose of the proposed rule change (Article XXV, Rule 10) is to effect a change in execution procedure for dual issue odd lot market orders from a next sale basis to a last sale basis.

The purpose of the proposed change in Article XXV, Rule 16, is to eliminate a procedure which is unique to the existing next sale execution system but is not applicable to the proposed procedure.

Current execution procedures require that odd-lot market orders in dual issues be executed on the NYSE sale occurring two (2) minutes subsequent to the order's entry on the MSE floor. On occasion this procedure has caused unnecessary delays in report turnaround time due to the additional handling necessitated by the two (2) minute holding period.

It is felt that implementation of a last sale pricing procedure will enable a firm to receive reports of MSE market order odd-lot executions within a very narrow time frame.

Therefore, the proposed rules changes promote just and equitable principles of trade and remove impediments to the perfection of the mechanism of a free and open market.

Comments were solicited from twenty-five member firms who place significant odd lot business on the Midwest Stock Exchange. The majority of those firms responding were in favor of the proposed rule change.

The Midwest Stock Exchange, Incorporated believes that no burdens have been placed on competition.

On or before May 13, 1977, or within such longer period: (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding, or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted within twenty-one days of the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

MARCH 30, 1977.

[Rel. No. 9704/April 1, 1977]

THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK AND THE MONY VARIABLE ACCOUNT–A

Application Pursuant to the Investment Company Act for an Order of Exemption

APRIL 1, 1977.

Notice is hereby given that The Mutual Life Insurance Company of New York ("MONY"), a New York mutual life insurance company, and MONY Variable Account–A ("VA–A"), 1740 Broadway, New York, New York 10019, 812–3910, a separate account of MONY registered under the Investment Company Act of 1940 ("Act") as an open-end diversified management investment company (hereinafter collectively referred to as "Applicants"), filed an application on February 9, 1976 and amendments thereto on February 4, and March 31, 1977, pursuant to Section 6(c) of the Act for an order exempting Applicants from the provisions of Sections 22(e), 27(c)(1) and 27(d) of the Act to the extent necessary to permit compliance by Applicants with certain provisions of the Education Code of the State of Texas. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

MONY established VA–A in 1968, pursuant to the provisions of Section 227 of the New York Insurance Law, for the purpose of providing an investment medium for certain variable annuity contracts. The application considers only VA–A's Individual Multiple Payment and Group Tax-Deferred Variable Annuity Contracts ("Contracts") which are eligible for federal tax-deferred treatment under Section 403(b) of the Internal Revenue Code of 1954, as amended. MONY, which acts as the principal underwriter of the variable annuity contracts participating in VA–A, is a registered broker-dealer under the Securities Exchange Act of 1934 and is a member of the National Association of Securities Dealers, Inc.

In 1967, the State of Texas directed the governing boards of all Texas institutions of higher education to make available to certain employees on Optional Retirement Program ("Program"), codified as Subchapter G of Chapter 51 of the Texas Education Code. The statute provides as the funding media for the Program fixed or variable annuity contracts purchased from any insurance or annuity company qualified to do business in Texas. In 1973, the Texas legislature made two amendments in the Program legislation, which amendments became effective on June 14, 1973. The statutory definition of the Program was amended to provide that the benefits of such annuities are to be available only upon termination of employment in the Texas public institutions of higher education, retirement, death or total disability of the participant. The other amendment added a new Section 51.358 to Subchapter G which also provides that the benefits of such annuities will be available only if the participant dies, terminates his employment due to total disability, accepts retirement, or terminates employment in the Texas public institutions of higher education.

Because of uncertainty regarding the effect of these amendments, the University of Texas System ("System") requested the opinion of the Attorney General of Texas with respect to several questions concerning such amendments. The Attorney General rendered an opinion dated February 18, 1975, in response to the System's letter. The Attorney General interpreted Section 51.358 to prohibit provisions in a variable annuity contract issued in connection with the Program on or after June 14, 1973, which provide for making available the redemption value of such contract prior to the occurrence of one of the conditions specified in the statute, i.e., termination of employment, retirement, death or total disability. Moreover, the opinion further

stated that the prohibitions of Section 51.358 were impliedly in effect upon the establishment of the Program (in 1967) and that notwithstanding any language which may be contained in existing contracts, a participant in the Program has never had the right to redeem his annuity contract other wise than in accordance with the limitations described above. The opinion did not affect the right of a participant to transfer the redemption value of his annuity contract from one carrier to another; accordingly, the granting of the relief requested in the application would not affect such right.

Sections 27(c)(1), 22(e) and 27(d)

Section 27(c)(1) of the Act makes it unlawful for any registered investment company issuing periodic payment plan certificates, or for any depositor of or underwriter for such company, to sell any such certificate unless such certificate is a redeemable security. Section 2(a)(32) of the Act defines "redeemable security" to mean any security under the terms of which the holder upon its presentation to the issuer or to a person designated by the issuer is entitled to receive approximately his proportionate share of the issuer's current net assets, or the cash equivalent thereof.

Section 22(e) of the Act provides that no registered investment company shall suspend the right of redemption or postpone the date of payment or satisfaction upon redemption of any redeemable security in accordance with its terms for more than seven days after the tender of such security to the company or its agent designated for that purpose for redemption except in certain prescribed circumstances.

Section 27(d) of the Act makes it unlawful for any registered investment company issuing periodic payment plan certificates, or for any depositor of or underwriter for such company, to sell any such certificate unless the certificate provides that the holder thereof may surrender the certificate at any time within the first eighteen months after the issuance of the certificate and receive in payment thereof, in cash, the sum of (1) the value of his account, and (2) an amount, for such underwriter or depositor, equal to that part of the excess paid for sales loading which is over 15 per centum of the gross payments made by the certificate holder.

Applicants request exemptions from the provisions of Sections 22(e), 27(c)(1) and 27(d) of the Act to the extent necessary to permit compliance with Section 51.358 as it pertains to (i) redemption values under Contracts issued to participants in the Program subsequent to the date of such exemptive order and (ii) redemption values under Contracts issued prior thereto but attributable to payments made subsequent to the date of such order.

Applicants assert that if such exemptions are not granted, persons participating in the Program effectively will be denied an opportunity to select as a funding medium for their retirement benefits one of two funding media (the other being fixed annuity contracts) specifically provided in the Texas statute for such purpose. Additionally, participants will be unable to obtain the State's matching contributions for the purchase of an equity-based retirement vehicle. In this respect, the Attorney General's opinion indicated that these matching contributions will encourage participation in the retirement plan but that unrestricted withhdrawals prior to retirement might be detrimental to an effective retirement vehicle. In view of the foregoing, Applicants assert that the Commission should grant the requested exemptions because: (1) the limited restriction on redemption would be voluntarily assumed by participants, i.e., eligible employees are not required to participate in the Program; (2) the restrictions were not formulated nor suggested by Applicants; and (3) participants' relinquishment of the full right of redemption is a reasonable requirement in exchange for the benefits bestowed by the matching contributions of the State of Texas.

Applicants will ensure that appropriate disclosure is made to persons who consider participation in the Program, informing them of the restriction on the availability of redemption values under Contracts to be issued to them. This disclosure will take the form of an appropriate reference in each Prospectus to the restrictions on redemption of these Contracts, as well as requiring each participant, as a part of the determination that the sale of these Contracts is suitable for that participant, to sign a statement indicating that he/she is aware that these restrictions will be placed on his/her Contract when it is issued. In addition, Applicants will review all sales literature that is to be used in conjunction with the sales of these contracts for the existence of material representations that are inconsistent with the restrictions to be placed on these contracts and will instruct the salespeople involved in soliciting in this market specifically to bring this restriction to the attention of the potential participants.

Section 6(c) authorizes the Commission to exempt any person, security or transaction or any class or classes of persons, securities or transactions, from the provisions of the Act and Rules promulgated thereunder if an to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than April 26, 1977, at 5:30 p.m. submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit, or in the case of an attorney at law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following April 26, 1977, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

NEW YORK STOCK EXCHANGE, INC.

Self Regulatory Organizations; Filing of, and Order Approving, Proposed Rescission of Rules

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94–29, 16 (June 4, 1975), notice is hereby given that on March 24, 1977, the above-mentioned self-regulatory organization (New York Stock Exchange, Inc., 11 Wall Street, New York, New York 10005), filed with the Securities and Exchange Commission proposed rescission of rules as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RESCISSIONS

The text of the proposed rescission is attached as Exhibit I–A.

PURPOSE OF THE PROPOSED RESCISSION

The purpose of the rescission is to eliminate the foreign membership and control restrictions which, according to the SEC, appear to be inconsistent with the Act. The amendments remove the citizenship requirement for a member from Article IX, Sec. 2 of the Constitution and Rule 301.10 and delete the restriction on noncitizen participation in member organizations from Article IX, Sec. 7(k) of the Constitution and Rule 314.11.

BASIS UNDER THE ACT

(i) The proposed amendments will better enable the Exchange to carry out the purposes of the Act as stated by the SEC.

(ii) The proposed amendments are consistent with Section 6(b)(2) of the Act in that they will remove restrictions to becoming a member or a person associated with a member.

(iii) Is inapplicable.

(iv) Is inapplicable.

V4268 APR 8 77 UMI

(v) They are also consistent with Section 6(b)(5) of the Act in that they eliminate restrictions against brokers and dealers based on citizenship and foreign ownership.

(vi) Is inapplicable.

(vii) Is inapplicable.

(viii) Is inapplicable.

COMMENTS RECEIVED FROM MEMBERS, PARTICIPANTS OR OTHERS ON PROPOSED RULE CHANGES

No comments were solicited or received with respect to the subject amendments.

BURDEN ON COMPETITION

The proposed rule rescission will not impose any burden on competition.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before April 29, 1977.

The Commission finds that the proposed rule rescissions are consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of Section 6, and the rules and regulations thereunder.

In Securities Exchange Act Release No. 12157 (Mar. 2, 1976),[1] the Commission commenced a general inquiry, pursuant to Section 31(b) of the Securities Acts Amendments of 1975, with respect to rules of national securities exchanges relating to membership and association with members. In particular, the Commission questioned the consistency of the above-mentioned rules with Sections 6(b)(2), 6(b)(5), and 6(b)(8) of the Act, 15 U.S.C. 78f(b)(2), (5), and (8). Subsequently, in disapproving proposed NYSE Rule 309, which would have barred from NYSE membership foreign controlled organizations except where there was "mutual nondiscrimination," the Commission recognized that its reasoning also led to the conclusion that the above-mentioned rules were inconsistent with the Act.[2] Accordingly, the Commission finds good cause for approving the proposed rescission prior to the thirtieth day after the date of publication of notice of filing of SR-NYSE-77-9.

[1] 41 FR 10662 (Mar. 22, 1976).

[2] See Securities Exchange Act Release No. 12737 (Aug. 25, 1976), 41 FR 38847 (Sept. 13, 1976).

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rescission referenced above be, and it hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

MARCH 30, 1977.

EXHIBIT I-A.—Text of Proposed Rescission

(Deleted language in brackets [ ]; new language in *italics*)

PROPOSED AMENDMENTS TO CONSTITUTION

ARTICLE IX

MEMBERSHIP—ALLIED MEMBERSHIP

MEMBER FIRMS—MEMBER CORPORATIONS

• • • • • •

Sec. 2.—Eligibility.

To be eligible for election as a member of the Exchange, a person must be at least the minimum age of majority required to be responsible for his contracts in each jurisdiction in which he conducts business [and a citizen of the United States]; any person elected shall have all the rights and privileges and shall be under all the duties and **obligation of a member of the Exchange in** accordance with the Constitution.

• • • • • •

Sec. 7.—Approval of Partnerships, Corporations, Allied Members and Approved Persons.

• • • • • •

[(k) No member firm or member corporation shall have as a parent any party other than a citizen of the United States or Canada or a corporation or partnership created or organized under the laws of the United States or Canada, or any State or Province thereof.]

PROPOSED RESCISSION OF RULES

Rule 301 Proposed Transfer of Membership

• • • • • •

Rule 301.10 Age [and citizenship]

An applicant for membership in the Exchange must be at least the minimum age of majority required to be responsible for his contracts in each jurisdiction in which the applicant conducts business [and a citizen of the United States]

(Art. IX, Sec. 2, Para. 1402).

Rule 314 Interest in Business

[.11 Interest of non-citizen participants. Neither the interest in capital or profit of a member organization, owned by all persons as a group who are not United States or Canadian citizens, shall exceed 45%.]

PHILADELPHIA STOCK EXCHANGE

Atlas Corp.; Application for Unlisted Trading Privileges and Opportunity for Hearing

APRIL 1, 1977.

The above named national securities exchange has filed an application with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the security of the company as set forth below, which security is listed and registered on one or more other national securities exchanges:

Atlas Corporation, "New" Common Stock, $1 Par Value, File No. 7-4928.

Upon receipt of a request, on or before April 17, 1977 from any interested person, the Commission will determine whether the application with respect to the company named shall be set down for hearing. Any such request should state briefly the title of the security in which the person is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no request for a hearing with respect to the particular application is made, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

MC 95540 (Sub-No. 965), Watkins Motor Lines, Inc., now assigned May 6, 1977, at Kansas City, Mo. will be held in Room 609, Federal Office Building, 911 Walnut Street.

AB 102, Missouri-Kansas-Texas Railroad Co. Abandonment Between Bartletsville and Oklahoma City in Osage, Pawnee, Payne, Lincoln, Logan and Oklahoma and F.D. 28210, Missouri-Kansas-Texas Railroad Co.—Trackage Rights—Over Chicago, Rock Island & Pacific Railroad Co. Between Mcalester and Oklahoma City, Okla. now assigned May 9, 1977 at Oklahoma City, Okla. will be held in Room 414, Old Post Office Building, 215 NW. 3rd.

ROBERT L. OSWALD,
Secretary.

[FR Doc.77-10463 Filed 4-7-77;8:45 am]

[AB 19 (Sub-No. 33)]

BALTIMORE AND OHIO RAILROAD CO.

Abandonment of "Bowling Green Branch"

MARCH 25, 1977.

The Interstate Commerce Commission hereby gives notice that its Section of Energy and Environment has concluded that the proposed abandonment by The Baltimore and Ohio Railroad Company of its Bowling Green Branch between Tontogany and North Baltimore, a distance of 19.14 miles, in Wood County, Ohio, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. § 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that because no definitive industrial development plans requiring continuation of rail service by the applicant over the subject line have been formulated, abondonment will not have any serious impact on rural or community development. It was also concluded that abandonment will not adversely affect the Wood County Courthouse and Jail, which is listed on the National Register of Historic Places, nor will it adversely affect any Ohio endangered animal species. Due to the relatively low volume of traffic handled on this line, abandonment and the subsequent diversion of traffic to motor carriers will not significantly affect fuel consumption or air pollution emissions. Finally, it was concluded that the subject line is suitable for other public purposes should abandonment be granted.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-275-7011.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before May 11, 1977.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the environmental issues in the proceeding and does not purport to resolve the issue of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently, comments on the environmental study should be limited to discussion of the presence or absence of environmental impacts and reasonable alternatives.

H. G. HOMME, JR.,
Acting Secretary.

[FR Doc.77-10457 Filed 4-7-77;8:45 am]

[AB 43 (Sub-No. 29)]

ILLINOIS CENTRAL GULF RAILROAD CO.

Abandonment of Line

MARCH 25, 1977.

The Interstate Commerce Commission hereby gives notice that its Section of Energy and Environment has concluded that the proposed abandonment by the Illinois Central Gulf Railroad Company (ICG) of its line of railroad between Milepost 12.7 in Lexington and Milepost 24.2 in Gwin, a distance of 11.5 miles, in Holmes County, Miss., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human enviornment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321 et seq., and that preparation of detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because the diversion of rail traffic to motor carriers (approximately 3 trucks per day) would result in only minor alterations in fuel consumption, air quality, and ambient noise levels in the affected area. No land use plans of an economic or industrial importance exist which depend upon the continued operation of the line. Consequently, there is no indication that this action will have a serious adverse impact on rural or community development.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-275-7011.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before May 11, 1977.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the environmental issues in the proceeding and does not purport to resolve the issue of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently, comments on the environmental study should be limited to discussion of the presence or absence of environmental impacts and reasonable alternatives.

H. G. HOMME, JR.,
Acting Secretary.

[FR Doc.77-10458 Filed 4-7-77;8:45 am]

[AB 43 (Sub-No. 23)]

ILLINOIS CENTRAL GULF RAILROAD CO.

Abandonment of Line

MARCH 25, 1977.

The Interstate Commerce Commission hereby gives notice that its Section of Energy and Environment has concluded that the proposed abandonment by the Illinois Central Gulf Railroad Company (ICG) of its line of railroad between Ethel and Clinton, La., a distance of 8.3 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321 et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because of the low volume of traffic over the line. Additionally a 290 foot long bridge was destroyed by fire making the line impassable to Clinton, La., the only shipping or receiving point on the line.

There will not be any significant change in air quality, fuel consumption, or water quality due to the loss of the rail line. No land use plans of economic importance exist which would necessitate the continued operation of the line. Additionally the right-of-way has not been found suitable for transportation or recreation use following abandonment.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-275-7011.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before May 11, 1977.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the environmental issues in the proceeding and does not purport to resolve the issue of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently, comments on the environmental study should be limited to discussion of the presence or absence of enviromental impacts and reasonable alternatives.

H. G. HOMME, JR.,
Acting Secretary.

[FR Doc.77-10462 Filed 4-7-77;8:45 am]

[AB 43 (Sub-No. 35)]

ILLINOIS CENTRAL GULF RAILROAD CO.

Abandonment of Line

MARCH 25, 1977.

The Interstate Commerce Commission hereby gives notice that its Section of Energy and Environment has concluded that the proposed abandonment by the Illinois Central Gulf Railroad Company (ICG) of its line of railroad between Milepost 120.91 near Silver Creek and Milepost 148.65 in Mendenhall, a distance of 27.74 miles in Lawrence and Simpson Counties, Miss., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321 et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because the diversion of rail traffic to motor carriers (approximately 3 trucks per day) would result in only minor alterations in fuel consumption, air quality, and ambient noise levels in the affected area. No land use plans of an economic or industrial importance exist which depend upon the continued operation of the line. Consequently, there is no indication that this action will have a serious adverse impact on rural or community development.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-275-7011.

[Notice No. 146]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transferee applications filed unde Section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission on or before May 9, 1977. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed sufficent to place interested persons on notice of the proposed transfer.

No. MC-FC-76965, filed March 30, 1977. Transferee: WILLIAM B. MILLER, doing business as BILL MILLER TRUCKING, 1012 9th Avenue, Shenandoah, Iowa 51601. Transferor: K & M Trucking Co., Inc., Box 37, Farragut, Iowa 51639. Applicant's representative: William B. Miller, 1012 9th Avenue, Shenandoah, Iowa 51601. Authority sought for pur-

chase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 68528, issued May 14, 1971, as follows: Flour, feed, agricultural implements, building materials, and seed from Omaha, Nebr. to Farragut, Iowa, and points within 15 miles of Farragut; building materials from Nebraska City, Nebr. to Farragut, Iowa and points within 15 miles thereof; feed and seed from St. Joseph, Mo. to Farragut, Iowa and points in Page and Freemont Counties, Iowa; livestock from points in Freemont, Mills, Page, and Montgomery Counties, Iowa, on the one hand, and, on th other, Omaha, Nebr. and St. Joseph, Mo.; and livestock, seed, feed, and agricultural implements between Farragut, Iowa and points in Page County, Iowa, on the one hand, and on the other, Kansas City, Kansas, Kansas City, Missouri, and Nebraska City, Nebr. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC–FC–76979, filed January 28, 1977. Transferee: NIDEROST, INC., 2300 Canyon Road, Ellensburg, Washington 98926. Transferor: Pattons Inc., 2300 Canyon Road, Ellensburg, Washington 98926. Applicant's representative: Frederic P. Holbrook, Attorney at Law, 1226 Taylor North, Suite 8, Seattle, Washington 98101. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificate No. MC 129516, MC 129516 (Sub-No. 2), MC 129516 (Sub-No. 3), MC 129516 (Sub-No. 5), MC 129516 (Sub-No. 8), MC 129516 (Sub-No. 11), MC 129516 (Sub-No. 13), MC 129516 (Sub-No. 17), MC 129516 (Sub-No. 21), MC 129516 (Sub-No. 24), MC 129516 (Sub-No. 25), MC 129516 (Sub-No. 30), MC 129516 (Sub-No. 31), MC 129516 (Sub-No. 34), and MC 129516 (Sub-No. 39), issued January 17, 1969, July 24, 1970, May 6, 1971, May 1, 1975, March 29, 1973, June 13, 1974, November 12, 1973, April 22, 1974, July 19, 1974, July 19, 1974, June 27, 1975, February 11, 1976, March 5, 1976, November 7, 1975, and August 5, 1976, as follows: Copra meal from San Francisco, Calif. to points in Washington; cottonseed meal from points in California to points in Washington and Oregon; fish meal from points in Washington and Portland, Oreg. to points in Washington, Oregon, and Idaho; alfalfa pellets and alfalfa meal from points in Skagit and Grant Counties, Wash. to points in Multnomah County, Oreg.; feed ingredients from points in Multnomah County, Oreg. to points in Washington; fertilizer from Oakland and Lathrop, Calif. to Seattle, Wash.; alfalfa pellets from specified counties in Washington to specified counties in Oregon; bananas and agricultural commodities from Seattle and Tacoma, Wash. and points in California to ports of entry on the United States-Canada boundary line at specified points in Washington, Idaho, Montana, and North Dakota; animal feed and animal feed ingredients between points in Washington and Oregon; horticultural mulch from Snoqualmia Falls, Wash. to points in Washington, Idaho, and Oregon; frozen pet food ingredients from Edmonds, Wash. to points in California; fruit juices and fruit drinks from points in Orange City, Calif. to specified ports of entry on the United States-Canada boundary line in Idaho, Montana, and North Dakota; fertilizer from Clark County, Wash. to specified counties in Oregon and to ports of entry on the United States- Canada boundary line at specified points in Washington; boron, borax, and borate ingredients from Boron, Calif. to ports of entry on the United States-Canada boundary line at specified points in Washington; canned goods and frozen potatoes from Walla Walla and Pasco, Wash. to ports of entry on the United States-Canada boundary line at specified points in Washington; fertilizer from ports of entry on the United States-Canada boundary line at specified points in Washington, Idaho, and Montana to points in Washington, Oregon, and Idaho; dehydrated potato granules from the port of entry on the United States–Canada boundary line at Sweetgrass, Mont. to San Francisco and Los Angeles, Calif.; Peoria and Chicago, Ill., Fort Worth, Dallas, Lubbock, and Abilene, Tex., and Kansas City, Mo.; and fruit juices and drinks from Visalia, Calif. to port of entry on the United States-Canada boundary line at Oroville, Wash. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC–FC–77000, filed March 1, 1977. Transferee: FUND FREIGHT LINES, INC., 1013 Fifth Ave., Monroe, Wisconsin, 53566. Transferor: Pirkle Refrigerated Freight Lines, Inc., P.O. Box 3358, Madison, Wisconsin, 53704. Applicants' representative: Charles W. Singer, 2440 East Commercial Blvd., Ft. Lauderdale, Florida, 33308. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 111375 (Sub-No. 64), issued December 29, 1972, as follows: *Casein, feed, casein equipment, and empty containers* for casein, between points in that part of Wisconsin bounded by a line begininng at Wisconsin Dells, and extending along Wisconsin Highway 23 to Reedsburg, thence along Wisconsin Highway 33 to Union Center, thence along Wisconsin Highway 80 to Elroy, thence along Wisconsin Highway 71 to Junction Wisconsin Highway 131, thence along Wisconsin Highway 131 to Tomah and thence along U.S. Highway 12 to point of beginning, including points on the indicated portions of the highways specified (except those on U.S. Highway 12), on the one hand, and on the other Chicago, Ill.; *Such merchandise*, as is dealt in by both food manufacturing establishments, the business of which is the processing, manufacture, and sale of prepared food products, and wholesale food business houses, and in connection therewith, *equipment, materials*, and *supplies* used in the conduct of such business, when moving to or from warehouses, plants or other facilities of such establishments, Between Chicago, Ill., on the one hand, and on the other, points in that part of Wisconsin south and west of U.S. Highway 12 (not including points located on U.S. Highway 12); *farm machinery and farm supplies*, from Chicago, Ill., and points in Illinois in the Chicago, Ill., Commercial Zones, as defined by the Commission, to points in that part of Wisconsin within 200 miles of Madison, Wis., located south and west of U.S. Highway 12, not including points on the indicated portion of U.S. Highway 12; and *fertilizer*, from Bloom Township (Cook County), Ill., to points in Crawford, Grant, Green, Iowa, Lafayette, Richland, Rock, and Vernon Counties, Wis. (and points in Dane and Sauk Counties, Wis.), located on, south and west of U.S. Highway 12. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC–FC–77011, filed March 4, 1977. Transferee: CELERYVALE TRANSPORT, INC., a Tennessee corporation, 1318 East 23d St., Chattanooga, Tenn. 37402. Transferor: Celeryvale Transport, Inc., a Colorado corporation, 1318 East 23d St., Chattanooga, Tenn. 37402. Applicant's representative: Jack H. Blanshan, Suite 200, 205 West Touhy Ave., Park Ridge, Ill. 60068. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificates Nos. MC 134105, MC 134105 (Sub-No. 1), MC 134105 (Sub-No. 11), MC 134105 (Sub-No. 12), issued March 18, 1970, August 14, 1970, April 28, 1975, and June 29, 1976, respectively, as follows: *Bananas and agricultural commodities* when transported with bananas from points in Alabama, Louisiana, Mississippi, and Texas (specified counties excepted) to points in Colorado; also from Mobile, Ala., to points in Alabama, Colorado, Florida, Georgia, Kansas, Louisiana, Mississippi, New Mexico, Oklahoma, Texas, Utah, and Wyoming; *meats, meat products, meat by-products, and articles* distributed by packinghouses from the facilities of Farmland Foods, Inc., at Crete, Nebr., to points in Alabama, Arkansas, Colorado, Florida, Georgia, Kansas, Louisiana, Mississippi, Oklahoma, Tennessee, and Texas. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC–FC–77013, filed March 4, 1977. Transferee: C & S SERVICES, INC., 75 Kendridge Rd., Akron, Ohio 44305. Transferor: Akron Express, Inc., 1821 East Market St., Akron, Ohio 44305. Applicant's representative: Paul F. Berry, Attorney at Law, 8 East Broad St., Columbus, Ohio 43215. Authority sought for purchase by transferee of the operating rights of the operating rights of transferor, as set forth in Permit No. MC 139367 (Sub-No. 2), issued March 21, 1975, as follows: *Commodities* dealt in by rubber and rubber products manufacturers between the facilities of the B. F. Goodrich Company at Columbus, Medina, and Akron, Ohio, on the one hand, and, on the other, Detroit, Mich.; and between the facilities of the B. F. Goodrich Company at Akron, and Medina, Ohio. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC–FC–77014 filed March 8, 1977. Transferee: LEYTEM TRUCKING, INC., 2315 Jackson St., Dubuque, Iowa 52001. Transferor: Arnold J. Leytem, doing business as Leytem Trucking Co., 525 East 6th St., Dubuque, Iowa 52001. Applicant's representative: Carl E. Munson, 469 Fischer Bldg., Dubuque, Iowa 52001. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate Nos. MC 108962 and MC 108962 (Sub-No. 2), issued April 19, 1948, and May 18, 1966 respectively, as follows: *Heavy machinery and contractors machinery, equipment, materials, and supplies*, between Dubuque, Iowa, and points and places in Iowa within 25 miles of Dubuque, on the one hand, and, on the other, points and places in Wisconsin and Minnesota; and *combination truss-joists*, from the plantsite of Trus-Joist Midwest Corporation at Dubuque, Iowa, to points in Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

MC–FC–77015, filed March 9, 1977. Transferee: PARIS TRANSPORT, INC., 111 North Central Ave., Paris, Illinois 61944. Transferor: Francis Black, doing business as Black Bros., R.R. No. 6, Paris, Illinois 61944. Applicant's representative: Robert T. Lawley, 300 Reisch Bldg., Springfield, Ill. 62701. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificate Nos. MC 101280 and MC 101280 (Sub-No. 10) issued October 14, 1959, and December 4, 1970, respectively, as follows: *Agricultural commodities and animal and poultry feeds*, from points in Edgar and Vermilion Counties, Ill., to points in Indiana, Kentucky, Missouri, and Tennessee; *agricultural limestone*, from Greencastel and Statesville, Ind., to points in Clark and Edgar Counties, Ill., *animal and poultry feed*, from St. Louis, Mo., to points in Edgar County, Ill., and those in Vigo County, Ind.; from points in the Chicago, Ill., Commercial Zone, as defined by the Commission, to points in Vigo County, Ind., *brick and clay products*, from Statesville and Terre Haute, Ind., to points in Clark and Edgar Counties, Ill.; *coal*, from mines in Clay, Parke, and Vermillion Counties, Ind., to points in Edgar County, Ill.; from Brazil, Ind., and points (other than mines) in Clay County, Ind., within five miles of Brazil and Clinton, Ind., and points (other than mines) in Parke and Vermillion Counties, Ind., within ten miles of Clinton, Ind., to Paris, Ill., and points within ten miles of Paris; from points in Vigo County, Ind., within ten miles of Clinton, Ind., and within five miles of Brazil, Ind., respectively, to Paris, Ill., and points in Clark County, Ill., within ten miles of Paris; from points in Clay, Gibson, Vermillion, and Vigo Counties, Ind., to points in Clark and Edgar Counties, Ill.; from points in Clay, Gibson, Sullivan, Vermillion, and Vigo Counties, Ind., to points in Edgar County, Ill.; from points in Clay, Vermillion, and Vigo Counties, Ind., to points in Clark and Edgar Counties, Ill.

Corn and corn products, from Paris, Ill., to points in Indiana; and *rejected shipments* of corn and corn products, from points in Indiana to Paris, Ill.; *farm machinery and farm implements*, from Indianapolis, Ind., to points in Edgar County, Ill.; *feed and fertilizer*, from Indianapolis, Ind., to points in Edgar County, Ill.; *feed, fertilizer, and fertilizer materials*, from Indianapolis and Terre Haute, Ind., to points in Edgar County, Ill.; *fruits and vegetables*, from points in Kentucky and Tennessee to points in Illinois; *hay and grain*, from points in Clark and Edgar Counties, Ill., to points in Clay, Daviess, Gibson, Greene, Hendricks, Knox, Lawrence, Sullivan, Vanderburgh, Vermillion, Vigo, and Warrick Counties, Ind.; *livestock*, from points in Clark and Edgar Counties, Ill., to Indianapolis and Terre Haute, Ind.; *livestock* and *agricultural commodities*, from points in Clark, Coles, Edgar, and Vermillion Counties, Ill., to Indianapolis, Terre Haute, and Vincennes, Ind.; *lumber*, from saw mills in Marion and Putnam Counties, Ind., to points in Edgar County, Ill.; from the plantsite of the T. A. Foley Lumber Company, in or near Paris, Ill., to points in Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Ohio, Oklahoma, Pennsylvania, Tennessee, West Virginia, and Wisconsin; *phosphate*, from points in Giles and Maury Counties, Tenn., to points in Vigo County, Ind., and those in Clark, Edgar, and Vermillion Counties, Ill.; *sand and gravel*, from points in Parke and Vermillion Counties, Ind., to points in Edgar County, Ill.; *shale, gravel, and other road materials*, from points in Vermillion and Vigo Counties, Ind., to points in Edgar County, Ill.; *stone, sand, and gravel*, from Clinton, Ind., to points in Edgar County, Ill.; *wooden fence posts*, from points in Kentucky and Tennesse to points in Edgar County, Ill.; MC 101280 (Sub-No. 10) *corn and corn products* (except liquid commodities, in bulk) from Paris, Ill., to points in Michigan, Ohio (except Dayton and Columbus), and Wisconsin. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC–FC–77016, filed March 9, 1977. Transferee: FETZ, INC., P.O. Box 47685, Doraville, Ga. 30362. Transferor: O'Boyle Tank Lines, Inc., P.O. Box 30006, Washington, D.C. 20014. Attorney for Transferee: Guy H. Postell, Esq., 3384 Peachtree Road NE., No. 713, Atlanta, Ga. 30326. Attorney for transferor: William P. Sullivan, Esq., 1819 H Street NW., No. 1030, Washington, D.C. 20006. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 123067 (Sub-No. 95), acquired by transferor pursuant to MC–F–11656, consummated January 29, 1976, as follows: *Fertilizer*, From the plantsite of the Farmers' Chemical Association, Inc., at or near Harrison, Hamilton County, Tenn., to points in Georgia, Kentucky, North Carolina, and South Carolina. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC–FC–77021, filed March 11, 1977. Transferee: OCEAN TERMINALS, INC., 410 Park Place Bldg., Seattle, Wash. 98101. Transferor: King Cartage Co., 4700 Denver South, Seattle, Wash. 98134. Applicants' representative: Joseph G. Dail, Jr., Attorney-at-Law, P.O. Box 567, McLean, Va. 22101. Authority sought for purchase by transferee of the operating rights of transferor, set forth in Certificate No. MC 102504, issued December 4, 1956, as follows: General commodities, except those of unusual value, Class A and B explosives, commodities in bulk, and commodities requiring special equipment, between Seattle, Wash., on the one hand, and, on the other, points within three miles of Seattle; and general commodities with the above exceptions, in collection and delivery service, between points in Seattle, Wash. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC–FC–77022, filed March 11, 1977. Transferee: INTERNATIONAL TRAILER TRANSPORT, INC., 796 Frelinghuysen Ave., P.O. Box 4067, Newark, N.J. 07112. Transferor: L J P Truck Lines, Inc., 273 Meserole St., Brooklyn, N.Y. 11222. Applicants' representative: Robert B. Pepper, 168 Woodbridge Ave., Highland Park, N.J. 08904. Authority sought for purchase by transferee of that portion of the operating rights of transferor set forth in Certificate No. MC 59114, issued November 20, 1975, as follows: General commodities, except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Elizabeth, N.J., on the one hand, and, on the other, points in Camden, Passaic, Bergen, Hudson, Essex, Union, Middlesex, Monmouth, Mercer, Somerset, Morris, Ocean, and Sussex Counties, N.J., with service at Elizabeth, N.J. restricted to the transportation of traffic having an immediately prior or subsequent movement from or to a point beyond Elizabeth. Transferee presently holds no authority from this Commission. Application has been filed for temporary authority under Section 210a(b).

V4216 8 APR 8 77 UMI

[Docket Nos. AB 37 (Sub-No. 5), AB 7 (Sub-No. 30)]

OREGON-WASHINGTON RAILROAD AND NAVIGATION CO., ET AL.

Abandonment of Operations and Line

MARCH 25, 1977.

The Interstate Commerce Commission hereby gives notice that its Section of Energy and Environment has concluded that the proposed abandonment of operations and the line by the Oregon-Washington Railroad and Navigation Company, the Union Pacific Railroad Company, and Chicago, Milwaukee, St. Paul & Pacific Railroad Company between South Montesano and Montesano, a distance of 1.6 miles, in Grays Harbor County, Wash., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that abandonment of this line, and the removal of the railroad bridge across the Chehalis River will have only a minimal effect on rail operations. Inasmuch as the Burlington Northern will continue to provide rail service to Montesano, the station where all of the traffic on the line to be abandoned is generated, there will be no diversion of traffic to motor carriers. Inasmuch as the vast majority of traffic shipped from Montesano moves north, removal of the Chehalis River bridge will for the most part not result in circuitous rail movements. No economic development plans which would conflict with the proposed abandonment have been identified. Furthermore, the line is not considered suitable for alternate public purposes after abandonment.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-275-7011.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before May 11, 1977.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the environmental issues in the proceeding and does not purport to resolve the issue of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently, comments on the environmental study should be limited to discussion of the presence or absence of environmental impacts and reasonable alternatives.

H. G. HOMME, Jr.,
Acting Secretary.

[FR Doc.77-10456 Filed 4-7-77;8:45 am]

[AB 12 (Sub-No. 37)]

SOUTHERN PACIFIC TRANSPORTATION CO.

Abandonment of Line

MARCH 25, 1977.

The Interstate Commerce Commission hereby gives notice that its Section of Energy and Environment has concluded that the proposed abandonment by the Southern Pacific Transportation Company of a line of railroad between Quinlf and Rosebud, in Falls and Milam Counties, Tex., a distance of 14.0 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment withint he meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that diversion of rail traffic at the levels of recent years will not result in a significant increase in energy consumption, highway traffic, or air pollution. There are no indications of definite developmental activities which are reliant upon continued service over the line. Therefore, the abandonment is not expected to have a serious adverse impact on rural or community development.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-275-7011.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before May 11, 1977.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the environmental issues in the proceeding and does not purport to resolve the issue of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently, comments on the environmental study should be limited to discussion of the presence or absence of environmental impacts and reasonable alternatives.

H. G. HOMME, Jr.,
Acting Secretary.

[AB 9 (Sub.No. 7)]

ST. LOUIS-SAN FRANCISCO RAILWAY CO.

Abandonment of Line

MARCH 25, 1977.

The Interstate Commerce Commission hereby gives notice that its Section of Energy and Environment has concluded that the proposed abandonment by the St. Louis-San Francisco Railway Company of its line of railroad between Aliceville and Reform, in Pickens County Ala., a distance of 20.35 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. §§ 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(c) of the NEPA.

It was concluded, among other things, that since all shippers on the line will continue to be served following abandonment, there will be no diversion of rail traffic to motor carrier. Therefore, no increase should occur in energy consumption, highway congestion, or air pollution levels as a result of the abandonment. There are no indications of definite developmental plans which are reliant upon continued service on the line. Therefore, the abandonment is not expected to have a serious adverse impact upon community development.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-275-7011.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before May 11, 1977.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the environmental issues in the proceeding and does not purport to resolve the issue of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently, comments on the environmental study should be limited to discussion of the presence or absence of environmental impacts and reasonable alternatives.

H. G. HOMME, Jr.,
Acting Secretary.

Office of Proceedings

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

APRIL 8, 1977.

The following applications are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with Section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute and application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the Federal Register of a notice that the proceeding has been assigned for oral hearing.*

Each applicant states that there will be no significant effect of the quality of the human environment resulting from approval of its application.

No. MC 140829 (Sub-No. 45), filed March 29, 1977. Applicant: CARGO CONTRACT CARRIER CORP., P.O. Box 206, U.S. Highway 20, Sioux City, Iowa 51102. Applicant's representative: William J. Harlon, 55 Madison Avenue, Morristown, N.J. 07960. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products and articles distributed by meat packinghouses*, as described in Section A of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from Denver, Greeley and Sterling, Colo., to points in Connecticut, Delaware, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, restricted to the transportation of traffic originating at the named origins and destined to named destination points.

NOTE.—Prehearing conference set for April 20, 1977 at Denver, Colorado.

No. MC 142964 (Sub-No. 2), filed March 31, 1977. Applicant: RONAR TRUCKING CO., 32 Commanche Road, Gunnison, Colo. 81230. Applicant's representative: William J. Lippman, Suite 140, Cherry Creek Center, 360 South Monroe, Denver, Colo. 80209. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products, and meat by-products and articles distributed by meat packinghouses* as described in Sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766, from Denver and Sterling, Colo. to points in Maryland, Delaware, New Jersey, New York, Connecticut, Massachusetts, Pennsylvania and Vermont; and (2) *materials, equipment and supplies and such other commodities as are used or dealt in by persons engaged in the production and distribution of the commodities named* in (1) above, from points in Maryland, Delaware, New Jersey, New York, Connecticut, Massachusetts, Pennsylvania and Vermont to Denver and Sterling, Colo. restricted to traffic originating at or destined to the plantsites and facilities utilized by Litvak Meat Co. located at Denver, Colo., and Sterling Colorado Beef Co. located at Sterling, Colo., and further restricted to traffic under a continuing contract or contracts with Litvak Meat Co. and Sterling Colorado Beef Co.

NOTE.—Prehearing conference set for April 20, 1977 at Denver, Colorado.

By the Commission.

ROBERT L. OSWALD,
Secretary.

AGENCY HOLDING THE MEETING: Federal Home Loan Bank Board.

[No. 8]

APRIL 4, 1977.

Pursuant to the Government in the Sunshine Act of 1976, 5 U.S.C. 552b(e)(1) and (3), announcement is made of a Board meeting to be held on April 13, 1977, at 320 First St., NW., Room 630, Washington, D.C., at 9:30 a.m. at which the following agency business will be conducted:

Consideration of Advisory Council Travel Authorization.

Branch Office Application, Bell Federal Savings and Loan Association, Chicago, Illinois.

Branch Office Application, First Federal Savings and Loan Association of Vancouver, Vancouver, Washington.

Branch Office Application, Benj. Franklin Federal Savings and Loan Association of Portland, Portland, Oregon.

Limited Facility Application, Peoples Federal Savings and Loan Association, Inglewood, California.

Proposed Modifications of Applications for Insurance of Accounts and Permission to Organize (Application Forms).

Branch Office Application, First Federal Savings and Loan Association of Detroit, Detroit, Michigan.

Consideration of Proposed New § 563.17-3 of the Insurance Regulations Pertaining to Definition of "Market Value."

Mr. Robert Marshall (202-376-3012) is the Board official designated to respond to requests for information pertaining to such meeting.

The Federal Home Loan Bank Board.

RONALD A. SNIDER, *Assistant Secretary.*

4

AGENCY HOLDING THE MEETING: International Trade Commission.

ADDITIONAL PERSON EXPECTED TO BE PRESENT AT CLOSED PORTION OF MEETING OF MARCH 31, 1877

At its meeting of March 31, 1977, the Commission acting on the authority of 19 U.S. 1335 and in conformity with 19 CFR 201.35(b) and (e)(1), amended the portion of its public notice for the meeting of March 31, 1977, which pertains to the selection of personnel under reorganization (agenda item No. 7) in closed session. Commissioners Parker, Moore, Bedell, and Ablondi determined by recorded vote that the following person and his corresponding affiliation is also expected to be present during the closed portion of the meeting: F. David Foster Assistant to Commissioner Leonard (Commissioners Minchew and Leonard were not present for the vote.)

By order of the Commission.

Issued: March 31, 1977.

KENNETH R. MASON, *Secretary.*

[S-108-77 Filed 4-5-77;1:28 pm]

AGENCY HOLDING THE MEETING: Federal Maritime Commission.

TIME AND DATE: April 13, 1977-10:00 a.m.

PLACE: Room 12126, 1100 L Street, N.W., Washington, D.C. 20573.

STATUS: Parts of this meeting will be open to the public. The rest of the meeting will be closed to the public.

MATTERS TO BE CONSIDERED: Portions open to the public:

1. Agreement No. 57-105: Change of Membership Status for Barber Blue Sea Line.

2. Agreement No. 9982-10, modification of the Scandinavia Baltic/U.S. North Atlantic Westbound Freight Conference.

3. Agreement No. 10142-2, modification of an agency agreement between Lykes Bros. Steamship Co., Inc. and States Steamship Company.

4. Agreement No. 10259, Rationalization Agreement; between U.S. Atlantic and Gulf Trade to Port Harcourt, Nigeria.

5. Special Docket No. 485, *Ford Motor Company* v. *Sea-Land Service, Inc.*

6. Special Docket No. 496, *American Gilsonite Co., Inc.* v. *Lykes Bros. Steamship Co., Inc.*

Portions closed to the public:

1. Hawaiian Marine Lines, Inc., rates applicable on lumber originating in Oregon.

2. Alaska Cargo Lines, Inc., Initial tariff in the Seattle, Washington/Western Alaska trade.

CONTACT PERSON FOR MORE INFORMATION:

Joseph C. Polking, Acting Secretary, 202-523-5727.

[S-109-77-Filed 4-5-77; 1:28 pm]

6

AGENCY HOLDING THE MEETING: International Trade Commission.

COMMISSION MEETING FOR APRIL 18, 1977

Interested members of the public are invited to attend and to observe the meeting of the United States International Trade Commission to be held on Monday, April 18, 1977, beginning at 9:30 a.m., in the Hearing Room of the United States International Trade Commission, 701 E Street, NW., Washington, D.C. 20436. Except as hereinafter specified, the Commission plans to consider the following agenda items in open session:

(1) Agenda; (2) Minutes; (3) Exercising devices (Inv. 337-TA-24), if necessary; (4) Status report on television receivers (Inv. 337-TA-23); (5) Possible continuation of the synthetic organic chemical reports; (6) Petitions and complaints—(a) Pipe fittings (Docket No. 441); (b) Face plates (Docket No. 439; and (c) Swimming pools (Docket No. 440); (7) Availability of staff memoranda—see memorandum from the Secretary of March 14, 1977; (8) Items left over from previous agenda; (9) Reorganization.

If you have any questions concerning the agenda for the April 18, 1977, Commission meeting, please contact the Secretary to the Commission at (202) 523-0161. Access to documents to be considered by the Commission at the meeting is provided for by access to the public files of the Commission, or when such documents are not in such files, as provided for in Subpart C of the Commission's rules (19 CFR 201.17-201.21).

On the authority of 19 U.S.C. 1335 and in conformity with 19 CFR 201.38(a), when a person's privacy interests may be directly affected by holding a portion of a Commission meeting in public, that person may request the Commission to close such portion to public observation. Such requests should be communicated to the Office of the Chairman of the Commission.

Pursuant to the specific exemptions of 5 U.S.C. 552b(c) (2) and (6), on the authority of 19 U.S.C. 1335, and in conformity with 19 CFR 201.36(b) (2) and (6), Commissioners Parker, Moore, Bedell, and Ablondi voted to hold the portion of the April 18, 1977, meeting with respect to the selection of personnel under reorganization (agenda item No. 9) in closed session. Commissioners Minchew and Leonard voted against closing this portion to the public.

A majority of the entire membership of the Commission felt that this portion of the meeting should be closed to the public since: (1) The discussion would only concern internal personnel practice and procedures; and (2) the information discussed in such portion would be likely to disclose information of a personal nature which could constitute a clearly unwarranted invasion of personal privacy.

Those persons expected to be present at this closed portion, and their corresponding affiliations, are listed as follows:

Daniel Minchew, Chairman.
Joseph O. Parker, Vice Chairman.
Will E. Leonard, Commissioner.
George M. Moore, Commissioner.
Catherine Bedell, Commissioner.
Italo H. Ablondi, Commissioner.
Kenneth R. Mason, Secretary.
Jayne L. Silva, Staff Assistant (if Mr. Mason is not available).
E. Bernice Morris, Staff Assistant.
Charles R. Ramsdale, Chief, Personnel Division.
Norma H. Warbis, Personnel Management Specialist (if Mr. Ramsdale is not available).
Bruce N. Hatton, Assistant to Commissioner Leonard.

The General Counsel to the Commission certified that it is his opinion that the Commission's action in closing this portion of its meeting of April 18, 1977, was properly taken by a vote of a majority of the entire membership of the Commission pursuant to 5 U.S.C. 552b (d)(1) and in conformity with 19 CFR 201.36(e). The discussion to be held in closed session is within the specific exemptions of 5 U.S.C. 552b(c) (2) and (6) and 19 CFR 201.36(b) (2) and (6).

Issued: April 4, 1977.

By order of the Commission.

KENNETH R. MASON, *Secretary.*
RUSSELL N. SHEWMAKER, *General Counsel.*

[S-110-77 Filed 4-5-77;1:28 pm]

7

AGENCY HOLDING THE MEETING: Federal Reserve System.

CHANGE OF TIME (CANCELLATION) OF A BOARD MEETING ITEM

Discussion of the following item, which was scheduled for the open meeting of the Board of Governors on April 11, 1977, has been cancelled:

Record of discount rate policy actions during 1976 for inclusion in the Annual Report for 1976.

As so modified, the previously announced open items for this meeting are:

1. Request by protestants for an oral presentation on the application of Central Bancompany, Jefferson City, Missouri, to acquire shares of The First National Bank of Mexico, Mexico, Missouri.

2. Proposed purchase of three computers now under lease at the Little Rock, Louisville, and Memphis Federal Reserve Branches.

3. Legislative recommendations for inclusion in the Board's Annual Report for 1976.

4. Proposal to reduce the frequency with which Edge Act corporations engaged in banking must file a certain report with the Board.

5. A possible amendment to Regulation Z (Truth in Lending) to require disclosure of any variable rate interest clause that is part of the contract, (Proposed earlier for public comment; docket no. R-0003). This matter was originally considered at a meeting on March 28, 1977.

6. A possible interpretation of Regulation Z (Truth in Lending), to be issued for comment, exempting credit card systems that bill their customers on a transaction-by-transaction basis rather than on a cumulative account basis from certain of the regulation's provisions.

7. A possible amendment to Regulation Z (Truth in Lending) to permit Spanish language Truth in Lending disclosures in the Commonwealth of Puerto Rico with English language disclosures provided upon the customer's request. (Proposed earlier for public comment; docket no. R-0066).

8. A possible interpretation of Regulation H (Membership of State Banking Institutions in the Federal Reserve System), to be issued for comment, that would extend the existing restrictions on lending secured by property located in a flood hazard area to the purchase of loans so secured.

9. Possible technical amendments to the flood insurance provisions of Regulation H (Membership of State Banking Institutions in the Federal Reserve System) that would exempt certain loans from the insurance purchase requirements of the regulation. These amendments would implement exemptive provisions included in the Housing Authorization Act of 1976.

The meeting will be held at 10 a.m. in the Board's offices at 20th and Constitution Avenue, NW., Washington, D.C. Information may be obtained from Mr. Joseph R. Coyne, Assistant to the Board, at 202-452-3204.

Board of Governors of the Federal Reserve System, April 5, 1977.

GRIFFITH L. GARWOOD, *Acting Secretary of the Board.*

[S-115-77 Filed 4-6-77;11:01 am]

8

AGENCY HOLDING THE MEETING: Federal Reserve System.

On Wednesday, April 13, 1977, at 10 a.m. a meeting of the Board of Governors of the Federal Reserve System will be held at the Board's offices at 20th Street and Constitution Avenue, NW., Washington, D.C., to consider the following items of official Board business:

1. A possible amendment to the Board's rules of Employee Responsibilities and Conduct with respect to filing statements of employment and financial interests. This matter was originally scheduled for a meeting on April 8, 1977.

2. Any agenda items carried forward from a previously announced closed meeting.

This meeting will be closed to public observation because the items fall under exemptions contained in the Government in the Sunshine Act (5 U.S.C. 552b (c)). Information with regard to this meeting may be obtained from Mr. Joseph R. Coyne, Assistant to the Board, at 202-452-3204.

Board of Governors of the Federal Reserve System, April 5, 1977.

GRIFFITH L. GARWOOD, *Acting Secretary of the Board.*

[Prohibited Transaction Exemption 77-4]

EMPLOYEE BENEFIT PLANS

Class Exemption for Certain Transactions Between Investment Companies and Employee Benefit Plans

On November 16, 1976, notice was published in the FEDERAL REGISTER (41 FR 50516) that the Department of Labor (the Department) and the Internal Revenue Service (the Service) had under consideration a proposed class exemption from the restrictions of section 406 of the Employee Retirement Income Security Act of 1974 (the Act) and from the taxes imposed by section 4975 (a) and (b) of the Internal Revenue Code of 1954 (the Code), by reason of section 4975(c)(1) of the Code. The class exemption was requested in an application (Application No. D-055) filed by T. Rowe Price Associates, Inc., Scudder, Stevens & Clark, Stein Roe & Farnham and Thorndike, Doran, Paine & Lewis, Inc., investment advisory firms. The class exemption would exempt from the prohibited transaction restrictions the purchase and sale by an employee benefit plan of shares of a registered, open-end investment company when a fiduciary with respect to the plan (e.g., an investment manager) is also the investment adviser for the investment company. The exemption was proposed in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975 and Rev. Proc. 75-26, 1975-1 C.B. 722, and all interested persons were invited to submit comments on the proposed exemption.

Eight comments were received with regard to the proposed exemption, all supporting the grant of the exemption. Three comments supported the exemption as proposed, while one comment suggested that the exemption be expanded to cover so-called mutual fund "in house" plans. This comment was withdrawn after the publication of notice of the pendency of a proposed class exemption for mutal fund "in house" plans in 41 FR 54080.

Each of the remaining comments, while supporting the exemption, contained one or more suggestions for changes in the exemption.

One comment suggested a technical amendment to sections I(c) and II(c) of the exemption to make clear that payment of an investment advisory fee based on total plan assets, from which credit has been subtracted representing the plan's pro rata share of the investment advisory fees paid by the investment company, would not contravene the ban on payment of investment management or investment advisory fees with respect to plan assets invested in shares of the investment company. The comment was accepted, and incorporated in sections I(c) and II(c). In addition, a typographical error in section I(c) has been corrected. Another commentator suggested that the investment adviser be allowed to charge his investment advisory fee or the fee paid for management of the investment company, whichever was higher, so long as no double fee was charged, on the grounds that the higher fee is often necessary for the economic servicing of smaller accounts. This suggestion was not accepted, because it would provide a situation with a potential for abuse involving economic gain for the fiduciary which could not be easily monitored.

Three suggestions were rejected as unnecessary in light of existing provisions in the proposed exemption. The first was to amend section II(e) of the proposed exemption to permit the Board of Trustees to approve the fees paid to the fiduciary/investment adviser. Section II(e) provides for approval by a second fiduciary of fees paid to the fiduciary/investment adviser. Inasmuch as the Board of Trustees is a fiduciary to the plan, if it meets the criteria set forth in section II(d) of the exemption for a second fiduciary independent of and unrelated to the investment adviser, it may approve the fees paid. The second suggestion, that the investment adviser be allowed to invest in its money market fund without receipt of written approval by the second fiduciary, provided it has notified the trustees both by prospectus and orally of its intent to do so, was not accepted, as the methods provided for approval in section II(e) provide enough alternatives to allow flexibility in receipt of approval, and the method suggested by the commentator would not provide adequate documentation of prior approval. Another suggestion, to the effect that the exemption be clarified to state that it covers insurance company separate accounts which invest portions of their assets in mutual funds, the adviser to which is the insurance company, was not accepted because the exemption, as proposed, covers that situation. Plan assets invested in an insurance company separate account remain plan assets under section 401(b)(2)(B) of the Act. The fact that the insurance company need not hold such assets in trust under section 403(b)(2) of the Act, and that therefore the insurance company holds such assets in its own name and not in the name of the plan, does not alter the fact that it, as investment adviser to the plan, is investing plan assets in a mutual fund to which it is an investment adviser. Therefore, to the extent it meets the conditions set forth in the exemption, it may cause the purchase or sale by such separate account of shares of such mutual funds.

Similarly, a suggestion that the exemption be extended to no-load, closed-end investment companies was rejected because insufficient information was provided to determine whether such an extension would be justified.

Finally, one commentator expressed concern that the standard set forth in section II(d) as to what constitutes an unrelated, indepedent fiduciary for purposes of the exemption would be used as the definition of what constitutes an "affiliate" of a bank for purposes of section 408(b)(8) of the Act and section 4975(d)(8) of the Code. Concern was also expressed as to how the standard would operate in situations involving common directors and officers. The first concern is unwarranted, as section II(d) clearly states that the definition set forth is "for purposes of this exemption." With respect to the other concern, section II(d)(3) has been amended to make clear that an officer, director, partner or employee or relative of a fiduciary/investment adviser, or an affiliate thereof, could be a director of the second fiduciary without thereby automatically disqualifying the second fiduciary as being independent of and unrelated to the fiduciary/investment adviser. However, in that case the director must abstain from any participation in the selection of the investment adviser or the approval of any purchases or sales between the plan and the investment company, or the approval of any change of fees charged to or paid by the plan.

General information. The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act which, among other things, require a fiduciary to discharge his duties respecting the plan solely in the interest of the plan's participants and beneficiaries and in a prudent fashion in acordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) The exemption set forth herein is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(3) The class exemption is applicable to a particular transaction only if the transaction satisfies the conditions specified in the class exemption.

(4) In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code, and based upon the entire record, including the written comments submitted in response to the notice of November 16, 1976, the Department and the Service make the following determinations:

(i) The class exemption set forth herein is administratively feasible;

(ii) It is in the interests of plans and of their participants and beneficaries; and

(iii) It is protective of the rights of participants and beneficiaries of plans.

Exemption. Accordingly, the following exemption is hereby granted under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75-26, 1975-1 C.B. 722:

Section I—Retroactive. Effective January 1, 1975 until 90 days after the date of granting of this exemption, the restrictions of section 406 of the Act and the taxes imposed by section 4975 (a) and (b) of the Code, by reason of section 4975 (c)(1) of the Code, shall not apply to the purchase or sale by an employee benefit plan of shares of an open-end investment company registered under the Investment Company Act of 1940, the investment adviser for which is also a fiduciary with respect to the plan (or an affiliate of such fiduciary) and is not an employer of employees covered by the plan, provided that the following conditions are met:

(a) The plan does not pay a sales commission in connection with such purchase or sale.

(b) The plan does not pay a redemption fee in connection with the sale by the plan to the investment company of such shares, unless (1) such redemption fee is paid only to the investment company, and (2) the existence of such redemption fee is disclosed in the investment company prospectus in effect both at the time of the purchase of such shares and at the time of such sale.

(c) The plan does not pay an investment management, investment advisory or similar fee with respect to the plan assets invested in such shares for the entire period of such investment. This condition does not preclude (1) the payment of investment advisory fees by the investment company under the terms of its investment advisory agreement adopted in accordance with section 15 of the Investment Company Act of 1940, (2) the payment of an investment advisory fee by the plan based on total plan assets from which a credit has been subtracted representing the plan's pro rata share of investment advisory fees paid by the investment company, or (3) the purchase by the plan of shares of the investment company during any fee period for which the plan prepaid its investment management, investment advisory or similar fee, regardless of whether any part of such prepaid fee is returned to the plan, provided that no investment management, investment advisory or similar fee was or is paid by the plan for any subsequent fee period during any part of which such investment in shares of the investment company was or is retained by the plan.

Section II—Prospective. Effective 90 days after the date of granting of this exemption, the restrictions of section 406 of the Act and the taxes imposed by section 4975 (a) and (b) of the Code, by reason of section 4975(c)(1) of the Code, shall not apply to the purchase or sale by an employee benefit plan of shares of an open-end investment company registered under the Investment Company Act of 1940, the investment adviser for which is also a fiduciary with respect to the plan (or an affiliate of such fiduciary) and is not an employer of employees covered by the plan (hereinafter referred to as "fiduciary/investment adviser"), provided that the following conditions are met:

(a) The plan does not pay a sales commission in connection with such purchase or sale.

(b) The plan does not pay a redemption fee in connection with the sale by the plan to the investment company of such shares unless (1) such redemption fee is paid only to the investment company, and (2) the existence of such redemption fee is disclosed in the investment company prospectus in effect both at the time of the purchase of such shares and at the time of such sale.

(c) The plan does not pay an investment management, investment advisory or similar fee, the plan purchases shares of the investment company, the requirement of this paragraph (c) shall be deemed met with respect to such prepaid fee if, by a method reasonably designed to accomplish the same, the amount of the prepaid fee that constitutes the fee with respect to the plan assets invested in the investment company shares (1) is anticipated and subtracted from the prepaid fee at the time of payment of such fee, (2) is returned to the plan no later than during the immediately following fee period, or (3) is offset against the prepaid fee for the immediately following fee period or for the fee period immediately following thereafter. For purposes of this paragraph, a fee shall be deemed to be prepaid for any fee period if the amount of such fee is calculated as of a date not later than the first day of such period.

(d) A second fiduciary with respect to the plan, who is independent of and unrelated to the fiduciary/investment adviser or any affiliate thereof, receives a current prospectus issued by the investment company, and full and detailed written disclosure of the investment advisory and other fees charged to or paid by the plan and the investment company, including the nature and extent of any differential between the rates of such fees, the reasons why the fiduciary/investment adviser may consider such purchases to be appropriate for the plan, and whether there are any limitations on the fiduciary/investment adviser with respect to which plan assets may be invested in shares of the investment company and, if so, the nature of such limitations. For purposes of this exemption, such second fiduciary will not be deemed to be independent of and unrelated to the fiduciary/investment adviser or any affiliate thereof if:

(1) Such second fiduciary directly or indirectly controls, is controlled by, or is under common control with the fiduciary/investment adviser or any affiliate thereof;

(2) Such second fiduciary, or any officer, director, partner, employee or relative of such second fiduciary is an officer, director, partner, employee or relative of such fiduciary/investment adviser or any affiliate thereof; or

(3) Such second fiduciary directly or indirectly receives any compensation or other consideration for his or his own personal account in connections with any transaction described in this exemption.

If an officer, director, partner, employe or relative of such fiduciary/investment adviser or any affiliate thereof is a director of such second fiduciary, and if he or she abstains from participation in (i) the choice of the plan's investment adviser, (ii) the approval of any such purchase or sale between the plan and the investment company and (iii) the approval of any change of fees charged to or paid by the plan, then paragraph (d)(2) of this section shall not apply.

For purposes of this exemption, the term "control" means the power to exercise a controlling influence over the management or policies of a person other than an individual, and the term "relative" means a "relative" as that term is defined in section 3(15) of the Act (or a "member of the family" as that term is defined in section 4975(e)(6) of the Code), or a brother, a sister, or a spouse of a brother or a sister.

(e) On the basis of the prospectus and disclosure referred to in paragraph (d), the second fiduciary referred to in paragraph (d) approves such purchases and sales consistent with the responsibilities obligations, and duties imposed on fiduciaries by Part 4 of Title I of the Act. Such approval may be limited solely to the investment advisory and other fees paid by the mutual fund in relation to the fees paid by the plan and need not relate to any other aspects of such investments. In addition, such approval must be either (1) set forth in the plan documents or in the investment management agreement between the plan and the fiduciary/investment adviser, (2) indicated in writing prior to each purchase or sale, or (3) indicated in writing prior to the commencement of a specified purchase or sale program in the shares of such investment company.

(f) The second fiduciary referred to in paragraph (d), or any successor thereto,

V 4 2 1 6 8 APR 8 7 7 UMI

is notified of any change in any of the rates of fees referred to in paragraph (d) and approves in writing the continuation of such purchases or sales and the continued holding of any investment company shares acquired by the plan prior to such change and still held by the plan. Such approval may be limited solely to the investment advisory and other fees paid by the mutual fund in relation to the fees paid by the plan and need not relate to any other aspects of such investment.

Signed at Washington, D.C., this 31st day of March 1977.

J. VERNON BALLARD,
Acting Administrator of Pension and Welfare Benefit Programs, Department of Labor.

WILLIAM E. WILLIAMS,
Acting Commissioner of Internal Revenue.

[Prohibited Transaction Exemption 77-3]

EMPLOYEE BENEFIT PLANS

Class Exemption Involving Mutual Fund In-House Plans Requested by the Investment Company Institute

On December 10, 1976, notice was published in the FEDERAL REGISTER (41 FR 54080) that the Department of Labor (the Department) and the Internal Revenue Service (the Service) had under consideration a proposed class exemption from the restrictions of section 406 of the Employee Retirement Income Security Act of 1974 (the Act) and from the taxes imposed by section 4975(a) and (b) of the Internal Revenue Code (the Code), by reason of section 4975(c)(1) of the Code. The class exemption was requested in an application (Application No. D-025), filed by the Investment Company Institute (ICI), a national association of the mutual fund industry. The class exemption would exempt from the prohibited transaction restrictions the acquisition and sale of shares of a registered open-end investment company ("mutual fund") by an employee benefit plan which covers employees of the mutual fund or the mutual fund's investment adviser or principal underwriter, or an affiliate thereof (hereinafter referred to as an "in-house" plan).

The exemption was proposed and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75-26, 1975-1 C.B. 722, and all interested persons were invited to submit comments on the proposed exemption.

Six comments were received, all expressing support for the grant of the exemption. Two of the comments urged approval of the exemption as proposed.

A third comment urged that the exemption be extended to in-house plans of closed-end mutual funds. After due consideration, this request was rejected because insufficient information was provided to enable the Department and the Service to determine whether the conditions set forth in the comment would provide adequate safeguards for plans, their participants and beneficiaries, and extending the comment period to secure such information would unjustifiably impose further delay in the granting of the exemption to the applicant. To the extent the commentator perceives the need for an exemption, the Department and the Service invite the commentator to submit an application for a class exemption pursuant to the procedures set forth in ERISA Procedure 75-1 and Rev. Proc. 75-26.

A fourth comment urged that the exemption be granted but that condition (c) of the exemption (which states that for transactions occurring more than 60 days after the grant of the exemption, the plan may not pay a sales commission) be deleted entirely, or be suspended until 60 days after the Securities and Exchange Commission clarifies the application of Rule 22d-1 under the Investment Company Act 1940 to a mutual fund which waives sales commission on sales to in-house plans as required by such condition (c). The commentator further stated that the applicant had received an interpretation from the staff of the Securities and Exchange Commission relating to the uniform offer requirements of Rule 22d-1(f) which would be a satisfactory resolution, for the industry generally, of the problem of sales to in-house plans. Nevertheless, the commentator has requested that condition (c) be either deleted or suspended for an indefinite period of time for the entire class to accommodate its individual situation. Absent a showing of a genuine class problem, the Department and the Service generally will not delete or suspend an otherwise valid class condition to accommodate an individual situation. The Department and Service note that the commentator has stated that it will file with the Securities and Exchange Commission an application for exemption from Rule 22d-1 in the first week in February and that it has on file with the Department and the Service an application for an individual exemption. If the applicant fails to get the relief it seeks from the Securities and Exchange Commission, it may then pursue its request for exemption from the Department and the Service.

Finally, two comments were received from the applicant, noting the requests of the preceding two commentators that the exemption be extended to closed end investment companies and that condition (c) be deleted or suspended, and urging that consideration of those comments not delay the issuance of the exemption.

General information. The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act which, among other things, require a fiduciary to discharge his duties respecting the plan solely in the interest of the plan's participants and beneficiaries and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) The class exemption is applicable to a particular transaction only if the transaction satisfies the conditions specified in the class exemption.

(3) The exemption set forth herein is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(4) In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code, and based upon the entire record, including the written comments submitted in response to the notice of December 10, 1976, the Department and the Service make the following determinations:

(i) The class exemption set forth herein is administratively feasible;

(ii) It is in the interests of plans and of their participants and beneficiaries; and

(iii) It is protective of the rights of participants and beneficiaries of Plans.

Exemption. Accordingly, the exemption proposed in the notice of December 10, 1976, 41 FR 54080 as set forth below is hereby granted under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75-26, 1975-1 C.B. 722.

Signed at Washington, D.C. this 31st day of March, 1977.

J. VERNON BALLARD,
Acting Administrator of Pension and Welfare Benefit Programs, Department of Labor.

WILLIAM E. WILLIAMS,
Acting Commissioner of Internal Revenue.

Effective for transactions occurring after December 31, 1974, the restrictions of sections 406 and 407(a) of the Act and the taxes imposed by section 4975(a) and (b) of the Code, by reason of section 4975(c)(1) of the Code, shall not apply to the acquisition or sale of shares of an open-end investment company registered under the Investment Company Act of 1940 by an employee benefit plan covering only employees of such investment company, employees of the investment adviser or principal underwriter for such investment company, or employees of any affiliated person (as defined in section 2(a)(3) of the Investment Company Act of 1940) of such investment adviser or principal underwriter, provided that the following conditions are met (whether or not such investment company, investment adviser, principal underwriter or any affiliated person thereof is a fiduciary with respect to the plan):

(a) The plan does not pay any investment management, investment advisory or similar fee to such investment adviser, principal underwriter or affiliated person. This condition does not preclude the payment of investment advisory fees by the investment company under the terms of its investment advisory agreement adopted in accordance with section 15 of the Investment Company Act of 1940.

(b) The plan does not pay a redemption fee in connection with the sale by the plan to the investment company of such shares unless (1) such redemption fee is paid only to the investment company, and (2) the existence of such redemption fee is disclosed in the investment company prospectus in effect both at the time of the acquisition of such shares and at the time of such sale.

(c) In the case of transactions occurring more than 60 days after the granting of this exemption, the plan does not pay a sales commission in connection with such acquisition or sale.

(d) All other dealings between the plan and the investment company, the investment adviser or principal underwriter for the investment company, or any affiliated person of such investment adviser or principal underwriter, are on a basis no less favorable to the plan than such dealings are with other shareholders of the investment company.

NATIONAL DIRECT STUDENT LOAN, COLLEGE WORK-STUDY, SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT, AND BASIC EDUCATIONAL OPPORTUNITY GRANT PROGRAMS

Proposed Rulemaking on Student Eligibility for Payment of Funds

Under the authority contained in section 497(e), Subpart 1 of Part F of Title IV of the Higher Education Act of 1965, as amended (20 U.S.C. 1088f(e)), the Commissioner of Education is giving notice that he proposes to issue, with the approval of the Secretary of Health, Education, and Welfare, the following regulation governing student eligibility for assistance through programs under Title IV.

EXPLANATION OF NEED FOR REGULATIONS

Section 132 of the Education Amendments of 1976, Pub. L. 94-482, 90 Stat. 2150, added a new subsection (e) to section 497 of the Higher Education Act of 1965, as amended, which deals with student eligibility for assistance under Title IV of the Act. The new subsection sets forth certain conditions which must be met if a student is to receive payments under that Title. The text of section 497 (e) is as follows:

(e) Any student assistance received by a student under this title shall entitle the student receiving it to payments only if—

(1) that student is maintaining satisfactory progress in the course of study he is pursuing, according to the standards and practices of the institution at which the student is in attendance, and

(2) that student does not owe a refund on grants previously received at such institution under this title, or is not in default on any loan from a student loan fund at such institution provided for in Part E, or a loan made, insured, or guaranteed under this title for attendance at such institution.

The Commissioner is adding to Parts 144, 175, 176, and 190 of Title 45 of the Code of Federal Regulations provisions required by Section 497(e). The provisions deal with conditions governing the denial of payments to students; the definition, determination, and effect of student-owed refunds; the attribution of grant funds determined to be a student-owned refund; and the definition, determination and effect of student default on loans.

SUMMARY OF COMMENTS PREVIOUSLY RECEIVED

The Commissioner published in the FEDERAL REGISTER, Vol. 41, No. 230, Monday, November 29, 1976, a Notice of Intent to Issue Regulations implementing the provisions of the Education Amendments of 1976 (41 FR 52410). At page 52412, comments were invited concerning the implementation of section 132. Five public conferences were held at various locations between December 13–17, 1976, at which the Office of Education received comments on this and other provisions of the Education Amendments. Further written comments were received through December 30, 1976. The following is a summary of the comments received and the Office of Education's response.

Comment. Three commenters felt that it might be of benefit to institutions in setting reference points for determining what constitutes "satisfactory progress" if the Commissioner were to define broadly, or establish minimum standards in this regard, in the regulations.

Response. This suggestion has been reviewed in the light of Section 497(e). The statute provides that a student is to be maintaining satisfactory progress according to the standards and practices of the institution; thus no minimum standards have been included in the proposed regulations. An institution which lacked such standards would, however, be precluded from making any payments to students under Title IV until it adopted standards.

Comment. Another commenter cited the practice of his own institution, which provides special consideration for what are felt to be "marginal" students, or "slow starters." The institution deems such students to be making "satisfactory progress" if they complete a normal four-year undergraduate program in not more than five academic years.

Response. This type of standard would be compatible with the statute if the institution's standards of satisfactory progress allow for five years for completion of the undergraduate program.

Comment. Another commenter noted that, under present BEOG regulations, students who are allowed to enroll at an institution and who are in attendance and in good standing at the institution are entitled to receive payments without reference to whether they are making "satisfactory progress" as defined by the institution.

Response. The new regulations would not eliminate this provision, but would require that students also be making satisfactory academic progress in order to receive payments of BEOG awards or any other payments under Title IV of the Act.

The National Direct Student Loan Program Regulations being amended, 45 CFR 144, can be found in the FEDERAL REGISTER of November 24, 1976 (41 FR 51946–51973). For the convenience of the reader the section being amended, § 144.15 (45 CFR 144.15) is set out in full. However, comments are requested only on paragraphs (c) through (f) of that section.

The College Work Study Program Regulations being amended, 45 CFR 175, can be found in the FEDERAL REGISTER of September 1, 1976 (41 FR 36872–36895). For the convenience of the reader the section being amended, § 175.9 (45 CFR 175.9) is set out in full. However, comments are requested only on paragraphs (g) through (j) of that section.

The Supplemental Educational Opportunity Grant Program Regulations being amended, 45 CFR 176, can be found in the FEDERAL REGISTER of November 24, 1976 (41 FR 51973–51982). For the convenience of the reader the sections being amended, §§ 176.14 and 176.17, are set out in full. However, comments are requested only on paragraph (g) of § 176.14 and paragraphs (c) through (f) of § 176.17.

The Basic Educational Opportunity Grant Program regulations being amended, 45 CFR 190, can be found in title 45 of the Code of Federal Regulations. For the convenience of the reader the sections being amended, §§ 190.75 and 190.77, are set out in full. However, comments are requested only on paragraphs (c) through (f) of § 190.75 and paragraph (b) of § 190.77.

The implementation of section 132 of the Education Amendments of 1976, Pub. L. 94-482, for the State Student Incentive Grant Program and the Guaranteed Student Loan Program will be handled in a separate document.

INSTRUCTIONS CONCERNING COMMENTS

Interested persons are invited to direct comments concerning these proposed regulations to:

Mr. John R. Proffitt, Director, Division of Eligibility and Agency Evaluation, Room 3030, Regional Office Building 3, 7th and D Streets SW., Washington, D.C. 20202. Telephone: (202) 245-9873.

In order for comments to receive full consideration they should be received not later than 4:30 p.m. on May 10, 1977. The Commissioner will not acknowledge the comments individually, but they will be available for inspection in Room 4068, Regional Office Building 3, between 8:30 a.m. and 4 p.m., Monday through Friday.

Public hearings on these proposed regulations will be held at times, dates, and locations to be announced in a forthcoming issue of the FEDERAL REGISTER.

The Office of Education has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: February 18, 1977.

WILLIAM F. PIERCE,
Acting Commissioner of Education.

Approved: March 31, 1977.

JOSEPH A. CALIFANO, Jr.,
Secretary of Health, Education, and Welfare.

PART 144—NATIONAL DIRECT STUDENT LOAN PROGRAM

Section 144.15 of Part 144 of Title 45 of the Code of Federal Regulations is amended to read as follows:

§ 144.15 Disbursement of loans.

(a) Except as provided in paragraphs (c) through (f) of this section, a loan for an academic year shall be advanced by the institution to the student borrower in equal installments in each semester, trimester, or quarter if the institution uses such academic periods (payment period); otherwise, for those institutions not using such academic periods, advances shall be made at least twice per academic year with one advance being at the beginning and the other at the midpoint of that academic year.

(b) Except as provided in paragraphs (c) through (f) of this section, a loan for a period shorter than an academic year shall be advanced by the institution to the student borrower in such installments as are deemed appropriate so as to enable the borrower to apply such payments to the costs reasonably necessary for his attendance at the institution during the academic period for which the loan was approved; except that no borrower may receive, during a given academic period, a loan in an amount in excess of the amount of his need for such a loan during that period, determined pursuant to § 144.14.

(c) No advance of funds may be made unless the institution determines that the borrower:

(1) Is maintaining satisfactory progress in the course of study he is pursuing, according to the standards and practices of the institution at which the student is in attendance:

(2) Is not in default on any loan made from a student loan fund at that institution or on a loan made, insured, or guaranteed under the Guaranteed Student Loan Program (Title IV-B, HEA) for attendance at such institution; and

(3) Does not owe a refund on grants previously received for attendance at such institution under the Basic Educational Opportunity Grant Program, the Supplemental Educational Opportunity Grant Program, or the State Student Incentive Grant Program.

(d) Notwithstanding paragraph (c) of this section, if an institution at the beginning of a payment period determines that the student is not maintaining satisfactory progress, but is able prior to the close of that payment period to reverse that determination, it may advance the loan installment for that period to the student; if that determination is made subsequent to the close of that period no funds may be advanced to the student for that period, nor may the student's award be adjusted to reflect the loss of aid for that period. For purposes of this paragraph, a payment period is the period for which an advance is made under paragraph (a) and (b) of this section.

(e) Notwithstanding paragraph (c) of this section: (1) If a student receives an overpayment, and thus owes a refund, on a grant for attendance at that institution because of institution error, the institution may disburse funds to that student, assuming the student is otherwise eligible to receive such funds, if that student acknowledges in writing the amount of the overpayment and agrees to pay the refund in a reasonable period of time.

(2) If a student receives an overpayment, and thus owes a refund on a Basic Grant awarded for attendance at an institution, that institution may disburse student aid funds to that student, assuming the student is otherwise eligible to receive such funds, if the institution can eliminate the overpayment in the academic year in which the Basic Grant occurred by adjusting subsequent Basic Grant payments due to the student for that year.

(3) If a student receives an overpayment, and thus owes a refund on a Supplemental Educational Opportunity Grant awarded for attendance at an institution, that institution may disburse student aid funds to that student, assuming the student is otherwise eligible to receive such funds, if the institution can eliminate the overpayment in the academic year in which the grant overpayment occurred by adjusting subsequent financial aid payments due to the student for that year.

(f) In determining whether a student is in default on a loan made under the Guaranteed Student Loan Program, the institution may rely on a written statement from the student that he is not in default on a Guaranteed Student Loan made for the purpose of attending that institution.

(g) For purposes of this section a program of training of at least six months duration to prepare students for gainful employment is a recognized occupation shall be considered an academic year.

(h) Loan payments from a Fund shall be evidenced in the institution's records by cancelled checks or vouchers, or, if the institution elects any other method of disbursement, by a clear audit trail including an acknowledgement of receipt from each borrower indicating the method by which payments to him were made.

(i) Loan payments from a Fund shall not be made unless the borrower has filed with the institution the affidavit required pursuant to § 144.9(f) of this part and the institution has complied with the Truth in Lending requirements of Regulation Z (12 CFR 226).

(20 U.S.C. 424, 1087cc.)

PART 175—COLLEGE WORK-STUDY PROGRAM

Section 175.9 of Part 175 of Title 45 of the Code of Federal Regulations is amended to read as follows:

§ 175.9 Eligibility and selection of students.

(a) *Eligibility.* Except as provided in paragraphs (g) through (j) of this section, a student enrolled in an institution of higher education is eligible for part-time employment under this part if such student:

(1) Is a national of the United States, is in the United States for other than a temporary purpose and intends to become a permanent resident thereof, or is a permanent resident of the Trust Territory of the Pacific Islands;

(2) Has been accepted for enrollment as at least a half-time student at the institution or, in the case of a student already attending the institution, is enrolled as at least a half-time student and is in good standing as an undergraduate, graduate, or professional student.

(3) Shows evidence of academic or creative promise and is capable, in the opinion of the institution, of maintaining good standing in such course of study while employed under this program; and

(4) Is in need of the earnings from such employment in order to pursue a course of study at the institution.

(b) *Eligibility of area vocational school students.* Except as provided in paragraphs (g) through (j) of this section, a student enrolled in an area vocational school is eligible for part-time employment under this part if, in addition to the conditions described in paragraphs (a) (1) through (4) of this section, such student:

(1) Has a certificate of graduation from a school providing secondary education or the recognized equivalent of such a certificate; and

(2) Is pursuing a program of education or training which requires at least 6 months to complete and which is designed to prepare the student for gainful employment in a recognized occupation.

(c) *Programs of study abroad.* Except for in paragraphs (g) through (j) of this section, a student participating in a program of study abroad will be considered to be enrolled in his "home" institution if (1) the program of study abroad is arranged or approved in advance by the home institution and (2) the student's academic performance during the program of study abroad becomes a part of his permanent academic record at the home institution in the same manner as if performed at that institution.

(d) *Need.* Except as provided for in paragraphs (g) through (j) of this section, (1) in determining whether a student is in need as described in paragraph (a)(4) of this section, the institution shall take into account the student's actual cost of education at such institution as described in § 175.11 and his expected family contribution as determined pursuant to § 175.12.

(2) A member of a religious community, society, or order who by direction of his or her community, society, or order is pursuing a course of study in an institution or who receives support and maintenance from the community, society, or order shall be deemed not to have financial need.

(e) *Institutional responsibility.* Except as provided for in paragraphs (g) through (j) of this section, each institution participating in the College Work-Study Program shall be responsible for determining the eligibility of the students participating in its program regardless of whether the students will be engaged in work for the institution itself or for a public or private non-profit organization.

(f) *Selection.* Except as provided for in paragraphs (g) through (j) of this section, an eligible institution shall make employment under the Work-Study Program, or equivalent employment offered or arranged for by the institution, reasonably available (to the extent of available funds) to all eligible students in the institution in need thereof. In the event that requests for employment exceed available funds, the institution shall

V 4 2 6 8 APR 8 7 7 UMI

give preference in the awarding of employment to those of its students with the greatest financial need. In determining such need the institution shall take into account grant assistance provided such student from any public or private source including grant funds which the student is entitled to receive under the Basic Educational Opportunity Grants Program, whether or not he has applied for such funds. The institution's selection procedures shall be uniformly applied, set forth in writing, and maintained in the files of the institution's office which selects student aid recipients. All applications for employment under this part shall be maintained on file by the institution as specified in § 175.28(c)(2).

(g) No student may be employed under this part unless the institution determines that the student:

(1) Is maintaining satisfactory progress in the course of study he is pursuing, according to the standards and practices of the institution at which the student is in attendance;

(2) Is not in default on any loan made from a student loan fund at that institution or on a loan made, insured, or guaranteed under the Guaranteed Student Loan Program (Title IV–B, HEA) for attendance at such institution; and

(3) Does not owe a refund on grants previously received for attendance at such institution under the Basic Educational Opportunity Grant Program, the Supplemental Educational Opportunity Grant Program, or the State Student Incentive Grant Program.

(h) Notwithstanding paragraph (g) of this section, if an institution at the beginning of a payment period determines that the student is not maintaining satisfactory progress, but is able prior to the close of that payment period to reverse that determination, it may provide employment under this part of that period to the student; if that determination is made subsequent to the close of that period no employment may be provided to the student for that period, nor may the student's award be adjusted to reflect the loss of aid for that period. For the purposes of this paragraph, a payment period is a semester, trimester, or quarter; however, for those institutions which do not utilize such periods it is the period between the beginning of an academic year and the midpoint and the midpoint to the end of that year.

(i) Notwithstanding paragraph (g) of this section: (1) If a student receives an overpayment, and thus owes a refund, on a grant for attendance at that institution because of institutional error, the institution may provide employment to that student if that student acknowledges in writing the amount of the overpayment and agrees to repay the refund in a reasonable period of time.

(2) If a student receives an overpayment and thus owes a refund on a Basic Educational Opportunity Grant awarded for attendance at an institution, that institution may provide employment to that student, assuming the student is otherwise eligible to receive such funds, if the institution can eliminate the overpayment in the academic year in which the Basic Educational Opportunity Grant occurred by adjusting subsequent Basic Educational Opportunity Grant payments due to the student for that year.

(3) If a student receives an overpayment, and thus owes a refund on a Supplemental Educational Opportunity Grant awarded for attendance at an institution, that institution may provide employment to that student, assuming the student is otherwise eligible to receive such funds, if the institution can eliminate the overpayment in the academic year in which the grant overpayment occurred by adjusting subsequent financial aid payments due the student for that year.

(j) In determining whether a student is in default on a loan made under the Guaranteed Student Loan Program, the institution may rely on a written statement from the student that he is not in default on a Guaranteed Student Loan made for the purpose of attending that institution.

(42 U.S.C. 2754)

PART 176—SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANTS PROGRAM

Section 176.14 of Part 176 of Title 45 of the Code of Federal Regulations is amended to read as follows:

§ 176.14 Coordination of student financial aid programs, grant amount, and overaward.

(a) *Coordinating official.* The institution shall appoint an official who shall have the responsibility of coordinating the program covered by this part with the institution's other Federal and non-Federal programs of student financial aid.

(b) *Total award.* The institution shall not award a Supplemental Grant to a student in an amount which, when combined with all of the resources made available to the student from Federal and non-Federal sources, would exceed the difference between the student's cost of education and his expected family contribution, as determined in accordance with one of the need analysis systems or methods of calculation approved by the Commissioner pursuant to § 176.13; Provided, however, that in no event may the total amount of aid received from all Federal and non-Federal sources exceed the student's cost of education.

(c) *Resources.* For purposes of paragraph (b) of this section, the term "resources made available to the student from Federal and non-Federal sources" includes, but is not limited to, the amount of funds a student is entitled to receive under the Basic Educational Opportunity Grants Program, regardless of whether the student has applied for such funds, any waiver of tuition and fees, any scholarship or grant including Supplemental Educational Opportunity Grants and athletic scholarships, any fellowship or assistanship, any loan made under the Guaranteed Student Loan Program (Title IV–B of the Higher Education Act of 1965) except in cases in which paragraph (c) of this section applies, any long-term loan made by the institution other than under the Guaranteed Student Loan Program, and any expected net earnings from employment during periods for which the student receives a grant. For purposes of this section "net earnings" means gross earnings minus required withholdings and any costs incidental to obtaining such earnings.

(d) *Treatment of Guaranteed Loans.* (1) Except as provided in paragraph (d)(2) of this section, loans made under the Guaranteed Student Loan Program shall not be considered a student resource and may be used to satisfy the expected family contribution of the borrower calculated in accordance with § 176.12. If the amount of such a loan exceeds the borrower's expected family contribution, only such excess shall be considered a student resource.

(2) Loans for which interest benefits are payable under section 428 of Title IV–B of the Higher Education Act of 1965, as amended (20 U.S.C. 1078), shall be considered a student resource and may not be used to satisfy a student's expected family contribution if the borrower has adjusted family income of $25,000 or more as determined in accordance with applicable Guaranteed Student Loan Program Regulations (45 CFR Part 177).

(e) *Administrative responsibility.* The institution's responsibility under paragraph (b) of this section shall extend only to those resources which the institution itself makes available to the student, or about which it knows or has reason to know or can reasonably anticipate at the time that Supplemental Grant funds are disbursed to the student. The amount of net earnings from any employment provided by the institution for any academic year and/or special session covered by the grant award shall be deemed to have been known by the institution at the time of disbursement of such grant.

(f) An institution will be deemed to have violated the requirements of this section only if the sum of all the resources made available to the student, including assistance under this part, exceeded the student's need by more than $100. However, if the resources made available to the student included compensation for work-study employment and the student earned additional money from other employment, the institution will be deemed to have violated the requirements of this section only if the sum of the assistance received by the student exceeded the student's need by more than $200.

(g) Calculation of student owed refund for grant funds disbursed directly to the student. A student owed refund is calculated as follows: (1) Determine the amount of aid disbursed to the student for a payment period for room and board costs and for the transportation allowance included by the institution in the student's budget which was not paid to the institution by the student nor credited to the student's account. For the purposes of this section, a payment period is a period of time covered by the applicable disbursement.

(2) If a student withdraws from or is terminated by an institution prior to the institution's scheduled start of classes, all funds described in paragraph (g)(1) of this section shall be considered an overpayment to be refunded.

(3) If a student withdraws from or is terminated by an institution between the institution's scheduled start of classes and the midpoint of the payment period: (i) Determine the total number of days within the payment period and divide that number in half to determine the number of days to the midpoint of that payment period; (ii) subtract the number of days the student was enrolled during that period from the number of days making up the midpoint; (iii) divide the remainder obtained in paragraph (g)(3)(ii) of this section by the number of days to the midpoint of that payment period; (iv) multiply the amount disbursed to the student as determined in paragraph (g)(1) of this section by the ratio established in paragraph (g)(3)(iii) of this section.

(4) Any institution of higher education which disburses funds to students on a monthly basis or more frequent intervals, shall be exempt from the provisions of paragraph (g)(3) of this section.

(5) If a student withdraws from, or is terminated by the institution after the midpoint of the payment period, none of the funds described in paragraph (g)(1) of this section shall be considered an overpayment.

(6) If at the time the institution determines whether a student is making satisfactory progress in the course of study he is pursuing, it finds that the student did not (i) attend any classes, (ii) prepare any required work, or (iii) take any final examinations during the prior payment period, any funds described in paragraph (g)(1) of this section shall be considered an overpayment to be refunded.

(7) Determine grant funds to be restored. If a refund is determined under paragraphs (g)(2), (3), and (6) of this section, the amount of grant funds to be restored to the appropriate grant account shall bear the same ratio to the total refund as the grant award bears to the sum of the financial aid (i) disbursed to that student and (ii) credited to his account, for that payment period.

(20 U.S.C. 1088f.)

Section 176.17 of Part 176 of Title 45 of the Code of Federal Regulations is amended to read as follows:

§ 176.17 Payment of grant.

(a) A student's award for an academic year shall be divided among payment periods which correspond to the number of semesters, trimesters, or quarters in the institution's academic year. The amounts which may be paid during any payment period shall be in the same ratio to the student's award for the academic year as the length of that payment period bears to the length of the academic year at that institution. An institution which does not utilize such academic terms shall reserve at least half of a student's Supplemental Grant for an academic year for payment to him after the midpoint of such academic year. Within each payment period the institution may pay the student at such times and in such installments as the institution determines will best meet his need for such funds.

(b) Before making the initial payment of a Supplemental Grant for any year to a student the institution shall obtain from that student a written acceptance of the grant and a signed statement indicating that the student received notice of the amount of his Supplemental Grant, of the fact that such amount may not exceed 50 percent of the total amount of student financial aid made available to him through the institution, of the nature and source of the other student financial aid made available to him through the institution, and of the fact that the payment of the Supplemental Grant is conditional on the recipient's maintaining satisfactory progress in the course of study he is pursuing according to the regularly prescribed standards and practices of the institution from which he received the grant and on the recipient's carrying an academic workload sufficient to qualify him as at least a half-time student during the academic year.

(c) No payment of funds may be made unless the institution determines that the student:

(1) Is maintaining satisfactory progress in the course of study he is pursuing, according to the standards and practices of the institution at which the student is in attendance;

(2) Is not in default on any loan made from a student loan fund at that institution or on a loan made, insured, or guaranteed under the Guaranteed Student Loan Program (Title IV–B, HEA) for attendance at such institution; and

(3) Does not owe a refund on grants previously received for attendance at such institution under this part, the Basic Educational Opportunity Grant Program or the State Student Incentive Grant Program.

(d) Notwithstanding paragraph (c) of this section, if an institution at the beginning of a payment period determines that the student is not maintaining satisfactory progress, but is able prior to the close of that payment period to reverse that determination, it may make grant payments for that period to the student; if that determination is made subsequent to the close of that period no funds may be advanced to the student for that period, nor may the student's award be adjusted to reflect the loss of aid for that period.

(e) Notwithstanding paragraph (c) of this section: (1) If a student receives an overpayment, and thus owes a refund, on a grant for attendance at that institution because of institutional error, the institution may disburse funds to that student, assuming that the student is otherwise eligible to receive such funds if that student: (i) Acknowledges in writing the amount of the overpayment and (ii) Agrees to repay the refund in a reasonable period of time.

(2) If a student receives an overpayment and thus owes a refund on a Basic Grant awarded for attendance at an institution, that institution may disburse student aid funds to that student, assuming the student is otherwise eligible to receive such funds, if the institution can eliminate the overpayment in the academic year in which the Basic Grant occurred by adjusting subsequent Basic Grant payments due to the student for that year.

(3) If a student receives an overpayment, and thus owes a refund on a Supplemental Educational Opportunity Grant awarded for attendance at an institution, that institution may disburse student aid funds to that student, assuming that the student is otherwise eligible to receive such funds, if the institution can eliminate the overpayment in the academic year in which the grant overpayment occurred by adjusting subsequent financial aid payments due the student for that year.

(f) In determining whether a student is in default on a loan made under the Guaranteed Student Loan Program, the institution may rely on a written statement from the student that he is not in default on a Guaranteed Student Loan made for the purpose of attending that institution.

(g) A recipient of a Supplemental Grant under this part shall remain eligible to receive payments only if the recipient: (1) Continues to be in exceptional financial need; (2) maintains satisfactory progress in the course of study he is pursuing according to the regularly prescribed standards and practices of the institution from which he received the grant; and (3) carries an academic workload sufficient to qualify him as at least a half-time student during the academic year.

(20 U.S.C. 1070b.)

PART 190—BASIC EDUCATIONAL OPPORTUNITY GRANT PROGRAM

Section 190.75 of Part 190 of Title 45 of the Code of Federal Regulations is amended to read as follows:

§ 190.75 Payment of basic educational opportunity grant awards.

(a) An institution pays a Basic Educational Opportunity Grant to a student on the basis of having determined:

(1) That the student applying for the grant meets the eligibility requirements of § 190.3. In making this determination the institution is entitled to rely on information provided by the student if the institution has no direct independent knowledge with respect to that information;

(2) That the student is enrolled as a full-time, three-quarter time, or half-time student;

(3) The student's actual cost of attendance, calculated in accordance with § 190.51;

V 4 2 6 8 APR 8 7 7 UMI

(4) The amount of the student's scheduled Basic Educational Opportunity Grant, calculated in accordance with the payment schedule in effect for the period involved;

(5) The amount by which the scheduled Grant Award determined in paragraph (a)(4) of this section should be adjusted for three-quarter and half-time students (this amount is set forth in the disbursement schedule in effect for the period involved); and

(6) The amount, if any, by which the amount determined in paragraph (a)(4) or (5) of this section should be adjusted in accordance with §§ 190.64–190.66.

(b)(1) Institutions shall pay Basic Educational Opportunity Grant awards in equal amounts at least once at the beginning of each semester, trimester, or quarter for those institutions which utilize such academic units. For an institution not utilizing such academic periods, payments shall be made in equal amounts not less than twice during that portion of the school year which falls within the academic year. The institution shall make one payment at the beginning and the other at the midpoint of that portion of the school year which falls within an academic year. In those cases where the student's period of enrollment overlaps two academic years (for instance, the school year extends from February 1 to August 30) and the length of enrollment in either of two academic years is less than three months, only one payment need be made.

(2) Except where prohibited by § 190.76(c), funds paid to a student with respect to an academic period which has already been completed may be paid to such students in one lump sum payment.

(c)(1) Before paying a student an institution shall confirm (i) that the student meets or continues to meet the eligibility requirements of § 190.3 and (ii) that at the beginning of each semester, trimester, or quarter (or for institutions not utilizing such academic periods at the beginning and midpoint of the school year) the student is entitled to receive the amount of grant payment calculated for that period.

(2) If an institution determines at the beginning of a semester, trimester, or quarter, or for institutions not utilizing such academic periods, at the beginning and midpoint of the school year, that the amount calculated for that student no longer reflects the enrollment status of such student at that institution, it shall recalculate the amount of that student's grant payment for that period in accordance with paragraph (a) of this section.

(3) If an institution disburses funds to a student for a particular academic period and during that period the student increases or decreases his academic workload while continuing to meet the eligibility requirements of § 190.3, the institution may, but need not, adjust the amount of the student's grant attributable to that academic period in accordance with this section and with § 190.85.

(4) Except as provided in § 190.78, if an institution disburses funds to a student for a particular academic period and during that period the student becomes ineligible to participate in the program, the payment applicable to that period need not be returned by the student if such payment was not made on the basis of inaccurate information or statements provided by the student; however, the student shall not receive additional basic grant payments unless he reestablishes his eligibility.

(d) No grant may be paid under this part unless the student to whom it is made has filed with the institution of higher education which he intends to attend, or is attending, an affidavit on a form approved by the Commissioner stating that the money attributable to such grant will be used solely for expenses related to attendance or continued attendance at such institution. The student must sign the affidavit in the presence of a notary public or other person who is legally authorized to administer oaths or affirmations and who does not take part in the recruiting of students for enrollment at such institutions. The notary public or other person must enter his signature and as applicable, his seal or stamp on the affidavit form.

(e) Payments to a student may be made by check or by credit to the student's account with the institution. If payments are made to a student by crediting his account, the institution shall retain a receipt signed by the student for each such transaction and the credit entry to the student's account shall be clearly identifiable.

(f) No payment of funds may be made unless the institution determines that the student:

(1) Is maintaining satisfactory progress in the course of study he is pursuing, according to the standards and practices of the institution at which the student is in attendance;

(2) Is not in default on any loan made from a student loan fund at that institution or on a loan made, insured, or guaranteed under the Guaranteed Student Loan Program (Title IV–B, HEA) for attendance at such institution; and

(3) Does not owe a refund on grants previously received for attendance at such institution under this part, the Supplemental Educational Opportunity Grant Program, or the State Student Incentive Grant Program.

(g) Notwithstanding paragraph (f) of this section, if an institution at the beginning of a payment period determines that the student is not maintaining satisfactory progress, but is able prior to the close of that payment period to reverse that determination, it may make payments for that period to the student; if that determination is made subsequent to the close of that period no funds may be advanced to the student for that period, nor may the student's award be adjusted to reflect the loss of aid for that period.

(h) Notwithstanding paragraph (f) of this section: (1) If a student receives an overpayment, and thus owes a refund, on a grant for attendance at that institution because of institutional error, the institution may disburse funds to that student, assuming the student is otherwise eligible to receive such funds, if that student acknowledges in writing the amount of the overpayment and agrees to repay the refund in a reasonable period of time.

(2) If a student receives an overpayment and thus owes a refund on a Basic Grant awarded for attendance at an institution, that institution may disburse student aid funds to that student, assuming the student is otherwise eligible to receive such funds, if the institution can eliminate the overpayment in the academic year in which the Basic Grant occurred by adjusting subsequent Basic Grant payments due to the student for that year.

(3) If a student receives an overpayment, and thus owes a refund on a Supplemental Educational Opportunity Grant awarded for attendance at an institution, that institution may disburse student aid funds to that student, assuming the student is otherwise eligible to receive such funds, if the institution can eliminate the overpayment in the academic year in which the grant overpayment occurred by adjusting subsequent financial aid payments due the student for that year.

(i) In determining whether a student is in default on a loan made under the Guaranteed Student Loan Program, the institution may rely on a written statement from the student that he is not in default on a Guaranteed Student Loan made for the purpose of attending that institution.

(20 U.S.C. 1070a.)

Section 190.77 of Part 190 of Title 45 of the Code of Federal Regulations is amended to read as follows:

§ 190.77 Overpayment of a Basic Educational Opportunity Grant.

(a) In the event that an institution makes an overpayment to a student under this part, the institution shall cooperate fully with the Commissioner by making a reasonable effort to effect the return of such overpayment. The institution is not, however, liable for any overpayments which are not recovered unless such overpayment was made by the institution under circumstances where the regulations of the Commissioner clearly indicate that such payment should not have been made.

(b) Calculation of student owed refund for grant funds disbursed directly to the student. (1) Determine the amount of aid disbursed to the student for a payment period for room and board costs and for the transportation allowance included by the institution in the student's budget which was not paid to the institution by the student nor credited to the student's account. For the purposes of this section; a payment period is a period of time covered by the applicable disbursement.

(2) If a student withdraws from or is terminated by an institution prior to the institution's scheduled start of classes, all funds described in paragraph (b)(1) of this section shall be considered an overpayment to be refunded.

(3) If a student withdraws from or is terminated by an institution between the institution's scheduled start of classes and the midpoint of the payment period, the student's refund shall be calculated as follows: (i) Determine the total number of days within the payment period and divide that number in half to determine the number of days to the midpoint of that payment period; (ii) Subtract the number of days the student was enrolled during that period from the number of days making up the midpoint; (iii) Divide the remainder obtained in paragraph (b)(3)(ii) of this section by the number of days to midpoint of that payment period; (iv) Multiply the amount disbursed to the student as determined in paragraph (b)(1) of this section by the ratio established in (b)(3)(iii) of this section.

(4) Any institution of higher education which disburses funds to students on a monthly basis or more frequent intervals, shall be exempt from the provisions of the paragraph (b)(3) of this section.

(5) If a student withdraws from, or is terminated by the institution after the midpoint of the payment period, none of the funds described in paragraph (b)(1) of this section shall be considered an overpayment.

(6) If at the time the institution determines whether a student is making satisfactory progress in the course of study he is pursuing it finds that the student did not (i) Attend any classes, (ii) Prepare any required work, or (iii) Take any final examinations during the prior payment period, any funds described in paragraph(b)(1) of this section shall be considered an overpayment to be refunded.

(7) Determine grant funds to be restored. If a refund is determined under paragraphs (b)(2), (3), and (6) of this section, the amount of grant funds to be restored to the appropriate grant account shall bear the same ratio to the total refund as the grant award bears to the sum of the financial aid (i) disbursed to that student and (ii) credited to his account, for that payment period.

(20 U.S.C. 1070b.)

[45 CFR Part 168]

GENERAL PROVISIONS RELATING TO STUDENT ASSISTANCE PROGRAMS; PROCEDURES FOR THE LIMITATION, SUSPENSION, OR TERMINATION OF INSTITUTIONAL ELIGIBILITY FOR PROGRAMS UNDER TITLE IV OF THE HIGHER EDUCATION ACT OF 1965, AS AMENDED

Proposed Rulemaking

Under the authority contained in section 497A(a)(4) of the Higher Education Act of 1965, as amended (20 U.S.C. 1088f–1), as added by section 133(a) of Pub. L. 94–482, the Commissioner of Education is giving notice that he proposes to issue, with the approval of the Secretary of Health, Education, and Welfare, the following regulations providing procedures for the limitation, suspension, or termination of institutional eligibility for programs under Title IV of the Higher Education Act, as amended.

EXPLANATION OF NEED FOR REGULATIONS

Section 133(a) of the Education Amendments of 1976 added a new section 497A to the Higher Education Act of 1965, as amended. Section 497A(a)(4) authorizes the Commissioner to issue necessary regulations to provide procedures for the limitation, suspension, or termination of the eligibility for any program under Title IV of any otherwise eligible institution when the Commissioner determines, after notice and an opportunity for a hearing, that the institution has violated or failed to carry out any provision of Title IV or the applicable regulations under that title. Section 133(b)(2) directs the Commissioner of Education to issue regulations modifying similar regulations previously issued for the Guaranteed Student Loan Program (45 CFR Part 177, Subpart G), to make them applicable, to the extent possible, to all programs under Title IV of the Act.

The proposed rule promulgates a new Subpart H of Part 168 of Title 45 of the Code of Federal Regulations, establishing procedures for the limitation, suspension, or termination of institutional eligibility for participation in any or all programs under Title IV of the Higher Education Act.

SUMMARY OF COMMENTS PREVIOUSLY RECEIVED

The Commissioner published in the FEDERAL REGISTER, Vol. 41, No. 230, Monday, November 29, 1976, a Notice of Intent to Issue Regulations implementing the provisions of the Education Amendments of 1976 (41 FR 52410). On page 52417, comments were invited concerning procedures for the limitation, suspension, or termination of institutional eligibility for programs under Title IV of the Act. Five Public conferences were held at various locations between December 13–17, 1976, at which the Office of Education received comments on this and other provisions of the Education Amendments. Written comments were also received through December 30, 1976. The following is a summary of the comments received and the Office of Education's response.

Comment. One commenter recommended simply adopting, for all Title IV programs, the regulations already promulgated for the Guaranteed Student Loan Program particularly those provisions designed to assure due process of law.

Response. The Office of Education has retained and adapted many of the previous provisions of the Guaranteed Student Loan Program regualtions in the development of this proposed regulation.

Comment. Several commenters felt that enforcement of these provisions should only be initiated by reports of violations by students, regulatory bodies, or auditors.

Response. The regulations are cast in terms of whether the information that precipitates OE action is reliable and not on the source of that infromation. Of course, generally, the source of information is directly related to its reliability.

Comment. One commenter stated that informal proceedings should not be used in cases of limitation, suspension, or termination. Other commenters suggested case-by-case determination of appropriate action and issuance of a show cause order followed by a staff visit.

Response. The Commissioner, in promulgating these proposed regulations, seeks to provide wherever possible for informal, prompt, and voluntary proceedings to correct violations. He has concluded that the majority of violations and alleged violations can and should be resolved in this manner. Therefore, he has provided for informal compliance procedures in § 168.73.

Comment. Several commenters felt that preventive measures rather than sanctions should be stressed, and that program reviews should be used.

Response. The Commissioner agrees that preventions of violations through program reviews and other methods should be stressed. However, if these are not effective, the remedies and procedures provided in this part will be utilized.

Comment. A commenter recommended that, in cases of deficiencies which could lead to limitation, a plan using administrative monies provided under section 493 should be developed to correct the deficiencies.

Response. The Commissioner is not legally authorized to require that these funds be used in that manner. The statute provides for institutional discretion in this regard once the expenditures required to carry out the consumer information dissemination activities warranted under section 493A of the Act have been accomplished.

Comment. Another commenter recommended that the responsibility within the Office of Education for limiting or removing eligibility should be separate from the responsibility for recommending eligibility.

Response. Both of these matters are the responsibility of the Commissioner. However, the procedures for these two functions are not the same and the OE personnel involved with these questions are not necessarily the same.

SUPPLEMENTARY INFORMATION

Under section 438(a)(3) of the Higher Education Act, as added by Pub. L. 92–318, the Office of Education issued regulations on February 20, 1975, which provided the Office of Education with a procedural framework in accordance with which it could—

(1) Take emergency action for a limited period of time (7 days) to stop the flow of loans to an institution under the Guaranteed Student Loan Program;

(2) Provide a show cause hearing to an institution on a suspension proceeding, the result of which, by regulation, was limited to 60 days unless limitation

V 4268 APR 8 77 UMI

or termination proceedings were started before the suspension ended;

(3) Provide a hearing before an impartial presiding officer in limitation or termination proceedings; and

(4) Provide for reinstatement of institutions after a certain period of time upon a showing that the violations for which they were suspended or terminated were corrected.

The proposed rules establishes similar procedures applicable to all programs under Title IV. Proceedings under the proposed regulation would apply only after an institution, which has met the statutory definitions for eligibility, has both complied with the general provisions governing eligibility for Title IV programs and entered into a special arrangement or agreement to participate in any specific program. These procedures are not applicable to a determination that an institution has or has not met any provision of a statutory definition of eligibility.

The proposed regulation, while similar in many respects to the regulation governing limitation, suspension, or termination proceedings under the Guaranteed Student Loan Program, differs, by reason of statutory differences between the two authorities on which the regulations are based, in two major respects. Section 497A(a)(4) on which this proposed regulation is based, requires the Commissioner to provide a hearing on the record in suspension, limitation, or termination proceedings. It also statutorily limits the period of any suspension to 60 days, unless within that period of time limitation or termination proceedings are initiated. Section 438(a)(3) contained neither of these provisions.

This proposed regulation follows the general format of the regulations issued in Subpart G of Part 177 of Title 45 governing limitation, suspension, or termination of institutional eligibility for the Guaranteed Student Loan Program. These provisions encourage the use of informal compliance procedures. The proposal also allows the Office of Education to take emergency action when it has reliable information that the institution is in substantial violation of Title IV and related regulations, and that a likelihood of substantial loss of funds to the Federal government or to students may occur. The result of emergency action is to withhold additional funds from an institution and to prohibit the institution from making obligations against any student assistance funds which it may have.

The period during which emergency action would be valid is set at 30 days. However, if during that time, suspension or termination proceedings are begun, the Commissioner must provide the institution with an opportunity to show cause that the emergency action is unwarranted, pending the outcome of those proceedings. Administrative experience with the emergency action provided for under the Guaranteed Student Loan Program regulation, limited to 7 days, has proved that period to be too short even to notify an institution that emergency action has been taken. The greater time period is felt to be necessary to permit the institution and the Office of Education to arrive at a voluntary agreement respecting corrective action.

Suspension proceedings under the proposed rule begin with a notice from the Office of Education, effective no earlier than 20 days after issuance, unless the institution requests a hearing or corrects the violation before that time. Any hearing is on the record before an impartial presiding officer. Only after a suspension becomes effective does the 60-day period begin to run. The 60-day period may be extended beyond that date by agreement of the parties, or, as provided in the statute, until the end of a termination proceeding if that is begun before the 60-day period ends. The effect of a suspension is to remove an institution's eligibility for a limited period of time.

A termination proceeding either ends the eligibility of an institution for any or all Title IV programs, or results in limitation of an institution's eligibility. A termination proceeding is a hearing on the record before an impartial presiding officer. Its procedure parallels that provided for a suspension proceeding.

The Commissioner makes the final decision in a termination proceeding either by adopting the initial decision of the presiding officer, or by deciding an appeal from the initial decision of the presiding officer, if that appeal is filed within 20 days of the initial decision.

The proposed rule not only lists some possible types of limitations that may be imposed on an institution as the result of a termination proceeding, but also, for the first time, sets out in a regulation the effects of a termination on the flow of Title IV assistance funds to both the institution and the students attending it. The regulation provides that the flow of funds to the institution ceases when an adverse decision is issued in a termination proceeding, except for the payment of commitments to students already enrolled and attending that institution before the date of termination. Payments based on such commitments may be paid only through the end of the payment period during which the termination was made. The meaning of the term "payment period" may vary according to specific program regulations.

The proposed regulation also allows the Commissioner, the designated OE official, or the presiding officer to require an institution to take reasonable and appropriate corrective action for violations by making repayments or reimbursements of any funds the institution has improperly received, withheld, disbursed or caused to be disbursed.

The proposed regulation allows reinstatement after termination, subject to a waiting period of 24 months after the decision to terminate. Compliance with certain limitations may be a condition of reinstatement. The proposed regulation provides for reinstatement of full eligibility, after a limitation decision, subject to a waiting period of 12 months. Such a reinstatement may be subject to other continuing limitations.

The proposed regulation contemplates the bringing of suspension, limitation, or termination proceedings as expeditiously as possible. However, administrative experience under a similar regulation governing the Guaranteed Student Loan Program has shown that the time allowed for taking action under that regulation was unrealistically short. Consequently, the following major differences are proposed for this regulation:

(1) The period of emergency action extends for 30 days (rather than 7 days). If, however, suspension or termination proceedings are begun, and the emergency action continues, the institution is entitled to request a show cause hearing for a determination why the emergency action should not be rescinded altogether;

(2) The effective date of a suspension or termination under the proposed rule may be no earlier than 20 days after sending the notice (rather than 15 days). This additional time will allow the institution ample time to decide upon the response it wishes to file. An institution which appeals the action and requests a hearing is not subject to suspension until the hearing is concluded.

INSTRUCTIONS CONCERNING COMMENTS

Interested persons are invited to direct comments concerning these proposed regulations to:

Mr. John R. Proffitt, Director, Division of Eligibility and Agency Evaluation, Room 3030, Regional Office Building 3, 7th and D Streets, SW., Washington, D.C. 20202. Telephone: (202) 245-9873.

In order for comments to receive full consideration they should be received not later than 4:30 p.m. on May 10, 1977. The Commissioner will not acknowledge the comments individually, but they will be available for inspection in Room 4068, Regional Office Building 3, between 8:30 a.m. and 4:00 p.m., Monday through Friday.

Public hearings on these proposed regulations will be held at times, dates, and locations to be announced in a forthcoming issue of the FEDERAL REGISTER.

The Office of Education has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: February 11, 1977.

WILLIAM F. PIERCE,
Acting Commissioner of Education.

Approved: March 31, 1977.

JOSEPH A. CALIFANO, JR.,
Secretary of Health, Education, and Welfare.

Chapter I of Title 45 of the Code of Federal Regulations is amended by adding Part 168 to read as follows:

PART 168—GENERAL PROVISIONS RELATING TO STUDENT ASSISTANCE PROGRAMS

Subpart H—Procedures for the Limitation, Suspension, or Termination of Institutional Eligibility for Programs Under Title IV of the Higher Education Act of 1965, as Amended

Sec.
168.71 Purpose and scope.
168.72 Definitions.
168.73 Informal compliance procedures.
168.74 Emergency action.
168.75 Suspension proceedings.
168.76 Termination proceedings.
168.77 Initial and final decisions.
168.78 Verification of mailing dates.
168.79 Effect of termination proceeding.
168.80 Limitation.
168.81 Termination.
168.82 Reimbursements, refunds, and offsets.
168.83 Reinstatement after termination.
168.84 Removal of limitation.

AUTHORITY: Sec. 497A(a)(4) of the Higher Education Act of 1965, as added by sec. 133 of Pub. L. 94-482, 90 Stat. 2150-2151, 20 U.S.C. 1088f-1(a)(4), unless otherwise noted.

Subpart H—Procedures for the Limitation, Suspension, or Termination of Institutional Eligibility for Programs under Title IV of the Higher Education Act of 1965, as amended

§ 168.71 Purpose and scope.

(a) This subpart establishes rules for the limitation, suspension, or termination of the eligibility of an otherwise eligible institution participating in any or all programs authorized by Title IV of the Higher Education Act of 1965. These rules apply to an institution which violates any provision of that Title or any regulation, special arrangement, agreement or limitation prescribed under that Title. These rules also apply to an institution participating in the Guaranteed Student Loan Program which comes within the terms of 45 CFR 177.66.

(b) This subpart does not apply to a determination (1) that an institution of higher education fails to meet the statutory definition set forth in sections 435(b), 491(b)(3), or 1201(a) of the Act, or (2) that a vocational school fails to meet the statutory definition set forth in section 435(c) of the Act.

(c) This subpart does not apply to administrative action by the Department of Health, Education, and Welfare based on any alleged violation of Title VI of the Civil Rights Act of 1964, which is governed by 45 CFR Parts 80 and 81; Title IX of the Education Amendments of 1972, which is governed by 45 CFR Part 86; or the Family Educational Rights and Privacy Act of 1974 (section 438 of the General Education Provisions Act, as amended) which is governed by 45 CFR Part 99.

(20 U.S.C. 1088f-1(a)(4).)

§ 168.72 Definitions.

"Act" means the Higher Education Act of 1965, as amended.

"Designated OE official" means an official of the U.S. Office of Education, to whom the Commissioner has delegated responsibilities indicated in this subpart.

"Eligible institution" means (1) an institution of higher education, (2) a vocational school, or (3) with respect to students who are nationals of the United States, an institution outside the United States which is comparable to an institution of higher education or to a vocational school and which has been approved by the Commissioner for purposes of participation in Title IV programs.

(20 U.S.C. 1088f 1(e); 1085(a).)

"Funds" means any money, commitments to provide money and commitments of insurance or reinsurance provided under any or all Title IV programs to an institution or to students enrolled and attending an institution.

"Institution of higher education" means an institution as defined in sections 435(b), 491(b), and 1201(a) of the Act.

(20 U.S.C. 1085(b), 1088(b), 1141(a).)

"Limitation" means the continuation of an institution's eligibility for any or all Title IV programs subject to compliance with special conditions which the Commissioner has set as a result of a decision in a termination proceeding.

"Suspension" means the removal of an institution's eligibility for any or all Title IV programs for a period of time.

"Termination" means the unqualified removal of an institution's eligibility for any or all Title IV programs for an indefinite period of time.

"Title IV" means Title IV of the Higher Education Act of 1965. The programs under that title, and the governing statutory and regulatory provisions, are as follows:

Program	Statutory provisions	Regulatory provisions
National direct student loan program	Title IV-E, HEA	45 CFR pt. 144
Educational opportunity center program	Title IV-A-4, HEA	45 CFR pt. 154
Upward bound program	do	45 CFR pt. 155
Special services for disadvantaged students program	do	45 CFR pt. 157
Talent search program	do	45 CFR pt. 159
College work-study program	Title IV-C, HEA	45 CFR pt. 175
Supplemental educational opportunity grant program	Title IV-A-2, HEA	45 CFR pt. 176
Federal, State, and private programs of low-interest loans to vocational students and students in institutions of higher education	Title IV-B, HEA	45 CFR pt. 177
Veterans cost-of-instruction payments to institutions of higher learning	Title IV-A-6, HEA	45 CFR pt. 189
Basic educational opportunity grant program	Title IV-A-1, HEA	45 CFR pt. 190
State student incentive grant program	Title IV-A-3, HEA	45 CFR pt. 192

"Vocational school" means a school as defined in section 435(c) of the Act.

(20 U.S.C. 1085(c).)

(20 U.S.C. 1088f 1(a)(4), unless otherwise noted.)

§ 168.73 Informal compliance procedures.

(a) If the Commissioner receives a complaint, or has other information which the Commissioner believes to be reliable, indicating that an institution is, or may be, in violation of applicable laws, regulations, special arrangements, agreements, or limitations, the Commissioner may call the matter to the attention of the institution and may give it a reasonable opportunity—

(1) To respond to the complaint or other information;

(2) To show that the matter has been corrected; or

(3) To submit an acceptable plan to correct the violation and prevent its recurrence.

(b) The procedures provided in this Subpart for suspension or termination need not be delayed during the informal compliance procedure if the Commissioner believes—

(1) The delay would have an adverse effect on any or all Title IV programs, or

(2) The informal compliance procedure will not result in a correction of the alleged violation.

(20 U.S.C. 1088f-1(a)(4).)

§ 168.74 Emergency action.

(a) The Office of Education, through a designated OE official, may take emergency action to withhold funds from an institution or its students and to withdraw the authority of an institution to obligate funds under any or all Title IV programs if the designated OE official—

(1) Receives reliable information that an institution is in violation of applicable laws, regulations, special arrangements, agreements, or limitations,

(2) Determines that such action is necessary to prevent the likelihood of substantial loss of funds to the Federal government or to the students at the institution, and

(3) Determines that the likelihood of loss outweighs the importance of following the procedures set forth in this subpart for suspension or termination.

(b) The designated OE official begins an emergency action by notifying the institution, by certified mail with return receipt requested, of the action and the basis on which it is taken. The effective date of the action is the date on which the notice is mailed.

(c) An emergency action shall not exceed 30 days unless suspension or termination proceedings are begun under this subpart before the expiration of that period. In such case, the period may be extended until the completion of those proceedings, including any appeal to the Commissioner.

(d) If suspension or termination proceedings are begun, the Commissioner shall provide the institution, if it so requests, an opportunity to show cause that the emergency action is unwarranted, pending the outcome of those proceedings.

(20 U.S.C. 1088f-1(a), 1232c(c), 1232d. and section 113(b) of Pub. L. 94-482.)

V 42 68 APR 8 77 UMI

§ 168.75 Suspension proceedings.

(a) *Scope and consequences.* From its effective date, a suspension removes an institution's eligibility for any or all Title IV programs for a period of time not exceeding 60 days unless—

(1) The institution and the designated OE official agree to an extension where the institution has not requested a hearing, or

(2) The designated OE official begins a termination proceeding under § 168.76.

(b) *Procedures.* (1) The designated OE official begins suspension proceedings by sending a notice to an institution by certified mail with return receipt requested. The notice must—

(i) Inform the institution of the intent of the Office of Education to suspend the institution's eligibility, cite the consequences of that action, and identify the alleged violations which constitute the basis for the action;

(ii) Specify the proposed effective date of the suspension, which shall be at least 20 days after the date of mailing of the notice of intent;

(iii) Inform the institution that the suspension will not be effective on the date specified in the notice if the Office of Education receives, at least 5 days before that date, a request for a hearing or written material indicating why the suspension should not take place; and

(iv) Invite voluntary efforts to correct the violation(s) which led to the commencement of the action.

(2) If the institution does not request a hearing, but submits written material, the designated OE official, after considering that material, notifies the institution that—

(i) The proposed suspension is dismissed, or

(ii) The suspension is effective as of a specified date.

(3) If the institution on a timely basis requests a hearing, the designated OE official sets a date and place for it. The date will be at least 15 days after the designated OE official receives the request. No suspension takes place until a hearing is held.

(4) At the hearing, the presiding officer shall consider any written material presented to him before the hearing or any material or other evidence presented to him during the course of the hearing.

(5) If, after considering the evidence, the presiding officer concludes that the suspension is warranted, the presiding officer may suspend the eligibility of all or part of the institution.

(c) Notice of the suspension must be promptly mailed to the institution. The suspension takes effect either upon the date of mailing or the original proposed effective date stated in the notice of intent, whichever is later.

(d) A suspension shall not exceed 60 days unless termination proceedings are begun under this subpart before the expiration of that period. In such case, the period may be extended until the completion of those proceedings, including any appeal to the Commissioner.

(20 U.S.C. 1088f–1(a)(4).)

§ 168.76 Termination proceedings.

(a) *Scope and consequences.* From its effective date, a termination shall either—

(1) End the eligibility of an institution for any or all Title IV programs, or

(2) Result in limitations on an institution's eligibility.

(b) *Procedures.* (1) The designated OE official begins a termination proceeding, whether or not a suspension proceeding has begun under § 168.75, by sending an institution a notice, by certified mail with return receipt requested. This notice must—

(i) Inform the institution of the intent of the Office of Education to terminate the institution's eligibility, cite the consequences of that action, and identify the alleged violations which constitute the basis for the action;

(ii) Specify the proposed effective date of the termination, which shall be at least 20 days after the date of mailing of the notice of intent;

(iii) Inform the institution that the termination will not be effective on the date specified in the notice if the Office of Education receives, at least 5 days before that date, a request for a hearing or written material indicating why the termination should not take place;

(iv) Invite voluntary efforts to correct the violation(s) which led to the initiation of the action.

(2) If the institution does not request a hearing but submits written material, the designated OE official, after considering that material, notifies the institution that;

(i) The proposed termination is dismissed,

(ii) Limitations are effective as of a specified date, or

(iii) The termination is effective as of a specified date.

(3) If the institution on a timely basis requests a hearing, the designated OE official sets a date and a place for it. The date will be at least 15 days after the designated OE official receives the request. No proposed termination takes place until after a hearing is held.

(4) A presiding officer conducts the hearing on the record.

(5) At the hearing the presiding officer shall consider any written material presented to him before the hearing, or any material or other evidence presented to him during the course of the hearing.

(6) If, after considering the evidence the presiding officer concludes that limitation or termination is warranted the presiding officer may limit or terminate the institution's eligibility in whole or in part.

(c) *Expedited hearings.* With the approval of the presiding officer and the mutual consent of the parties, any time schedules specified in this section may be shortened.

(20 U.S.C. 1088f–1(a)(4).)

§ 168.77 Initial and final decisions.

(a) The presiding officer issues an initial decision in any termination proceeding based on findings of fact and conclusions of law. Findings of fact shall be based only on evidence considered at the hearing and matters of which official notice has been taken. The initial decision of the presiding officer becomes the Commissioner's final decision 20 days after being issued, unless within that 20-day period the institution or the designated OE official appeals the decision to the Commissioner.

(b) Within a period of time specified by the Commissioner, the party that appeals to the Commissioner may submit any additional written material, including exceptions to the initial decision, proposed findings and conclusions, and supporting briefs and statements. The opposing party shall respond within such time as the Commissioner specifies. Parties making any submission to the Commissioner must provide a copy to each party that participated in the hearing.

(c) The initial decision of the presiding officer limiting or terminating the institution's eligibility does not take effect pending the appeal, unless the Commissioner determines that a stay would produce a serious and adverse effect upon the programs involved.

(d) In the case of an appeal, the Commissioner issues a final decision affirming, modifying, or reversing the initial decision, including a statement of reasons for the decision.

(20 U.S.C. 1088f–1(a)(4).)

§ 168.78 Verification of mailing dates.

Verification of the Office of Education's mailing dates as referred to in this subpart is evidenced by the original receipt from the U.S. Postal Service.

(20 U.S.C. 1088f–1(a)(4).)

§ 168.79 Effect of termination proceeding.

A decision adverse to an institution in a termination proceeding may result in a limitation on, or a termination of, the institution's eligibility for any or all Title IV programs.

(20 U.S.C. 1088f–1(a)(4).)

§ 168.80 Limitation.

A limitation may include, as appropriate to the program in question—

(a) A limit on the number or percentage of students enrolled in an institution who may receive Title IV funds;

(b) A limit, for a stated period of time, on the percentage of an institution's total receipts from tuition and fees derived from Title IV funds;

(c) A requirement that an institution obtain a bond, in a specified amount, to assure its ability to meet its financial obligations to students who receive Title IV funds; or

(d) Such other conditions as may be determined to be reasonable and appropriate.

(20 U.S.C. 1088f–1(a)(4).)

§ 168.81 Termination.

(a) *A termination.* (1) Ends an institution's eligibility for any or all Title IV programs;

(2) Prohibits an institution or the Commissioner from making or increasing financial aid awards;

(3) Prohibits an institution from making any other new obligations against Title IV funds; and

(4) Prohibits further commitments of insurance or reinsurance by the Commissioner under the Guaranteed Student Loan Program for loans to students to attend that institution.

(b) If an institution is terminated during a payment period, any student at that school who has received an award or to whom a commitment has been made before the effective date of the termination may receive payment only for that payment period.

(c) For the purposes of this section (1) a commitment under the Basic Educational Opportunity Grant Program occurs after a student is enrolled and attending the institution and has submitted a valid Student Eligibility Report to the institution or to the Commissioner, if the student is attending an institution which is under the Alternate Disbursement System, and (2) a commitment under the Supplemental Educational Opportunity Grant, College Work-Study, or National Direct Student Loan program occurs when the student is enrolled and attending the institution and has received an award letter from the institution.

(20 U.S.C. 1088f–1(a)(4).)

§ 168.82 Reimbursements, refunds, and offsets.

(a) The designated OE official, presiding officer, or Commissioner may require an institution to take reasonable and appropriate corrective action to remedy a violation of applicable laws, regulations, special arrangements, agreements, or limitations.

(b) The corrective action may include payment of any funds, to the Office of Education or to designated recipients, which the institution improperly received, withheld, disbursed, or caused to be disbursed, including, but not restricted to (1) With respect to the Guaranteed Student Loan Program—(i) Ineligible interest benefits, special allowances or other claims paid by the Commissioner, and (ii) Discounts, premiums, or excess interest paid in violation of § 177.13 of Title 45 of the Code of Federal Regulations and (2) With respect to all Title IV programs—(i) Refunds due to students under the Title IV regulations, and (ii) any grants, work-study assistance, or loans made in violation of program regulations.

(c) If any final decision requires an institution to reimburse or make any other payment to the Office of Education, the Office of Education may offset its claims against any benefits or claims due to the institution.

(20 U.S.C. 1088f–1(a)(4).)

§ 168.83 Reinstatement after termination.

(a) An institution whose eligibility for any or all Title IV programs has been terminated may not file a request for reinstatement of its eligibility before the expiration of 24 months from the effective date of its termination.

(b) After the minimum termination period, the institution may request reinstatemnt of its eligibility before the writing and must show that the institution has corrected the violations on which the termination was based and that it meets all qualifications for eligibility.

(c) Not later than 60 days after receipt of the request for reinstatement, the Commissioner shall respond to the institution—

(i) Granting its request;

(ii) Denying its request; or

(iii) Granting the request subject to limitations.

(d)(1) If the Commissioner denies the institution's request, or allows reinstatement subject to limitation(s), the institution, upon request, will be granted an opportunity to show cause why it should be fully reinstated.

(2) In the event the Commissioner's response allows reinstatement subject to limitation, the institution, by requesting a show cause meeting, shall not be deemed to waive its rights to participate in any or all Title IV programs if it complies with the reinstatement limitations pending the outcome of the meeting.

(20 U.S.C. 1088f–1(a)(4).)

§ 168.84 Removal of limitation.

(a) An institution whose eligibility for any or all Title IV programs has been limited may not apply for removal of the limitation of its eligibility before the expiration of 12 months from the effective date of the limitation.

(b) After the minimum limitation period, the institution may request removal of the limitation. The request must be in writing and show that the institution has corrected the violations on which the limitation was based.

(c) No later than 60 days after the receipt of the request, the Commissioner shall respond to the institution—

(i) Granting its request;

(ii) Denying its request; or

(iii) Granting the request subject to other limitations.

(d) If the Commissioner denies the request, or establishes other limitations, the institution upon request will be granted an opportunity to show cause why its eligibility should be fully reinstated.

(e) The institution's request for a show cause meeting shall not be deemed to waive its right to participate in any or all Title IV programs if it complies with such continuing limitations pending the outcome of the meeting.

(20 U.S.C. 1088f–1(a)(4).)

[45 CFR Part 178]

STUDENT CONSUMER INFORMATION SERVICES

Proposed Rulemaking

Under the authority contained in section 493A of Part F of Title IV of the Higher Education Act of 1965 as amended (20 U.S.C. 1088b–1), the Commissioner of Education is giving notice that he proposes to issue, with the approval of the Secretary of Health, Education, and Welfare, the following regulations governing institutional and financial assistance information for students.

EXPLANATION OF NEED FOR REGULATIONS

Section 131(b) of the Education Amendments of 1976 added a new section 493A to the Higher Education Act of 1965, as amended, dealing with institutional and financial assistance information for students (consumer information dissemination activities).

The statute provides that effective July 1, 1977, institutions of higher education and other eligible institutions which receive an administrative cost allowance because of participation in the Basic Educational Opportunity Grant, College Work-Study, National Direct Student Loan, Supplemental Educational Opportunity Grant, or Guaranteed Student Loan programs must provide student consumer information dissemination activities to prospective and enrolled students who request such information. The types of information to be disseminated include, but are not limited to, a description of the student financial aid programs available at the institution, including a statement of the student's rights and responsibilities under the programs authorized under Title IV of the Act, the school's academic program and educational costs, its student retention rate, and its refund policy. This information must be made readily available, through "appropriate publications and mailings," to all current students and to any prospective student upon request. The law also requires that effective July 1, 1977, an employee or group of employees be available on a full-time basis at the institution to assist students or potential students in obtaining this information. The Commissioner, however, may waive the requirement that a full-time person be assigned to these duties when the total institutional enrollment or the number of students receiving assistance from programs under Title IV of the Act is too small to necessitate a full-time employee.

The Commissioner is promulgating a new Part 178 of Title 45 of the Code of Federal Regulations to assure uniform procedures for administration of these new provisions.

SUMMARY OF COMMENTS PREVIOUSLY RECEIVED

The Commissioner published in the FEDERAL REGISTER, Vol 41, No. 230, Monday, November 29, 1976, a Notice of Intent to Issue Regulations implementing the provisions of the Education Amendments of 1976 (41 FR 52410). On page 52416, comments were invited concerning institutional and financial assistance information for students. Five public conferences were held at various locations between December 13–17, 1976, at which the Office of Education received comments on this and other provisions of the Education Amendments. Written com-

V42I68 APR 8 77 UMI

ments were also received through December 30, 1976. The following is a summary of the comments received and the Office of Education's response.

Comment. One commenter suggested that the student consumer information provisions and the information provision requirements of the Guaranteed Student Loan Program should be closely related.

Response. To the extent that legal provisions for the two programs are similar, the two regulatory provisions will be similar or comparable.

Comment. Five commenters addressed the definition of "appropriate publications and mailings." One, for example, suggested that the term be defined as "those publications and information generally made available to students for the purposes of explaining the institution's policies and practices." Another commenter suggested that the term be limited to two or three standard categories, such as catalogues and course schedules.

Response. The Commissioner does not want to define the specific documents that must be used as an appropriate publication or mailing, because he wants to allow flexibility for institutions to use existing documents to the extent possible. Instead, the proposed regulations specify the categories of information that must be disseminated and the fact that the appropriate publications must be available to enrolled or prospective students either at no charge or at a charge not to exceed the actual unreimbursed cost of the publications.

Comment. The statute requires that the information to be made available to students and prospective students include data regarding student retention. Six comments were received concerning retention rates. These reflected opposition to any attempt by the Commissioner to establish a uniform retention rate policy, since the statute simply requires publication of this information. Other suggestions, however, included recommendations that the Office of Education provide a definition of "retention" to institutions; a suggestion that a retention rate table for the most recent year available would satisfy the requirements of the statute; and suggestions of detailed procedures for establishing retention rates.

Response. The Commissioner is aware of the difficulties of providing single definitions of retention rate and completion rate that are applicable to all institutions. However, he is also concerned that these retention data enable students to make meaningful comparisons among institutions. The proposed regulations, therefore, provide a flexible definition of "retention," while specifying a three-year period over which the rates must be computed. The proposed regulations also specify that data on completion rates of each program in which a student is interested be provided to that student, if such data are available at the institution. However, the Commissioner would welcome further suggestions for the treatment of this topic. Each suggestion should reflect consideration both of the feasibility of institutions collecting the data suggested and the usefulness of such information to students.

Comment. Several comments addressed the requirement that staff be made available full-time to assist students or prospective students in obtaining the types of information called for in the statute. One commenter suggested that regulations specify whether information dissemination would be such an employee's sole responsibility at the institution and whether entirely new staff would have to be hired. It was also suggested that regulations distinguish between an "available" full-time employee and an individual "assigned" to provide student consumer information.

Response. Although the statute requires the equivalent of a full-time employee to provide information, the Commissioner does not interpret that to mean that a full-time person must necessarily be hired specifically for this purpose, nor does the Commissioner interpret this necessarily to be the sole responsibility of an employee, if there is insufficient demand for such services.

Comment. One commenter suggested that regulations should include the criteria to be employed by the Commissioner for waiving the requirement that a full-time employee be available to assist students or prospective students in obtaining information. Another commenter suggested a procedure by which such waivers could be appropriately determined.

Response. The Commissioner has included in the proposed regulations a specific number of aid recipients and a specific size of student enrollment below which a waiver will be granted. Furthermore, the proposed regulations also provide for waivers being granted upon evidence of insufficient need for a full-time employee. However, the Commissioner would especially welcome suggestions, with supporting evidence or justification, concerning the appropriate figures to use for enrollment and participating students when granting a waiver.

INSTRUCTIONS CONCERNING COMMENTS

Interested persons are invited to direct comments concerning these proposed regulations:

Mr. John R. Proffit, Director, Division of Eligibility and Agency Evaluation, Room 3030, Regional Office Building 3, 7th and D Streets SW., Washington, D.C. 20202, Telephone: (202) 245-9873.

In order for comments to receive full consideration they should be received not later than 4:30 p.m. on May 10, 1977. The Commissioner will not acknowledge the comments individually, but they will be available for inspection in Room 4068, Regional Office Building 3, between 8:30 a.m. and 4:00 p.m., Monday through Friday.

Public hearings on these proposed regulations will be held at times, dates, and locations to be announced in a forthcoming issue of the FEDERAL REGISTER.

The Office of Education has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: February 18, 1977.

WILLIAM F. PIERCE,
Acting Commissioner of Education.

Approved: March 31, 1977.

JOSEPH A. CALIFANO, JR.,
Secretary of Health, Education, and Welfare.

1. Part 178 of Title 45 of the Code of Federal Regulations is redesignated as Part 177a of that title.

2. Part 178 of Title 45 of the Code of Federal Regulations is added to read as follows:

PART 178—STUDENT CONSUMER INFORMATION SERVICES

Sec.
178.1 Purpose of scope.
178.2 Definitions.
178.3 Information dissemination requirements.
178.4 Information dissemination topics.
178.5 Availability of employees for information dissemination purposes.
178.6 Use of funds.
178.7 Compliance procedures and records.
178.8 Audits—non-Federal.

AUTHORITY: Sec. 493A of Title IV of the Higher Education Act of 1965 as added by sec. 131 of Pub. L. 94-482, 90 Stat. 2148-2149 (20 U.S.C. 1088b-1), unless otherwise noted.

§ 178.1 Purpose and scope.

This part establishes rules for the dissemination of information required by section 493A of the Higher Education Act of 1965. It applies to any institution or school which receives a payment under section 411(d), 428(e), or 493 of that Act (20 U.S.C. 1070a(d), 1078(e) and 1088b). Section 411(d) refers to payments made to an institution of higher education under the Basic Grant Program. Section 428(e) refers to payments to an eligible institution under the Guaranteed Student Loan Program. Section 493 refers to payments received by an institution of higher education because of its participation in the Supplemental Educational Opportunity Grant, College Work-Study, or National Direct Student Loan Programs and to payments received by an area vocational school because of its participation in the College Work-Study Program.

(20 U.S.C. 1088b-1.)

§ 178.2 Definitions.

As used in this part:

(a) "Act" means the Higher Education Act of 1965, as amended.

(b) "Academic year" means the period of time between July 1 of one year and June 30 of the subsequent year.

(c) "Administrative cost allowance" means the payment to any institution pursuant to section 411(d), 428(e), or 493 of the Act.

(d) "Institution" means an institution of higher education as defined in section 1201(a) of the Act, a proprietary institution of higher education as defined in section 491(b) of the Act, an eligible institution as defined in section 435 of the Act, or an area vocational school as defined in section 8(2) of the Vocational Education Act of 1963.

(e) "Prospective student" means any individual who has contacted an institution requesting information for the purpose of enrolling at that institution.

(f) "Student financial aid program" means any program available to a student attending an institution that provides financial assistance to meet the costs of attending that institution and for which the primary criterion of student eligibility is demonstrated financial need for the assistance because of financial conditions of the student or his family. For purposes of compliance with the requirements of this part, the term includes, but is not limited to, all student financial aid programs authorized under Title IV of the Act, all programs administered by the State in which the institution is located, all major national programs offered by private sources, and any other programs of which a financial aid administrator at an institution should reasonably be aware.

(20 U.S.C. 1088b-1.)

§ 178.3 Information dissemination requirements.

(a) Each institution which receives an administrative cost allowance for any academic year shall, for that year, (1) prepare material, if necessary, on the topics set forth in § 178.4 and (2) disseminate that information through appropriate publications and mailings to those prospective students or enrolled students who request it.

(b) An appropriate publication or mailing is one that is provided to an enrolled or prospective student at no charge to the student or at a charge which does not exceed the actual unreimbursed cost to the institution for its preparation and publication.

(20 U.S.C. 1088b-1.)

§ 178.4 Information dissemination topics.

The information to be prepared and disseminated to students includes:

(a) A description of all student financial aid programs available to students who enroll at that institution, including the procedures and forms for applying for such aid, the student eligibility requirements, the criteria for selecting recipients from the group of eligible applicants, and the criteria for determining the amount of a student's award;

(b) A statement of the rights and responsibilities of students receiving financial aid under the Basic Educational Opportunity Grant, Supplemental Educational Opportunity Grant, College Work-Study, National Direct Student Loan, or Guaranteed Student Loan Programs. This information shall include:

(1) Criteria for continued eligibility for each program, including the financial conditions which must be met;

(2) Criteria for determining that a student is in good standing and maintaining satisfactory progress in his course of study, as required by section 497(e)(1) of the Act for the purposes of receiving financial aid payments, and the criteria by which a student who has failed to maintain satisfactory progress or good standing may reestablish his eligibility for payment;

(3) The means by which payment of awards will be made to students and the frequency of such payments;

(4) The terms of and expected schedules for repayment of any loan received by a student as part of his student financial aid; and

(5) The general conditions and terms applicable to any employment provided to a student as part of his financial aid;

(c) The cost of attending the institution, including tuition and fees, books and supplies, estimates of typical room and board and transportation costs for students living on-campus, off-campus, or at home, and any additional cost of the program in which the student is enrolled or expresses a specific interest;

(d) The refund policy of the institution for the return of unearned tuition and fees or other refundable portion of cost paid to that institution, as described in paragraph (c) of this section;

(e) The academic program of the institution, including the current degree programs and other educational and training programs; the instructional, laboratory, and other physical facilities which relate to the academic program; and the faculty and other instructional personnel;

(f) Data regarding student retention at the institution, including, for each of three most recent academic years, the number of students who enrolled and were still enrolled at the end of that year or who graduated from the institution, and the percentage that such students represent of the total enrolled;

(g) The number and percentage of students completing the program in which a student is enrolled or expresses interest, if such data are available at the institution; and

(h) The names of persons designated under § 178.5 and information regarding how and where such persons may be contacted.

(20 U.S.C. 1088b-1.)

§ 178.5 Availability of employees for information dissemination purposes.

(a) Except as provided in paragraph (b) of this section, each institution which receives an administrative cost allowance under any of the programs for which such allowance is paid in any academic year shall designate, for that year, an employee or group of employees who shall be available on a full-time basis to assist students or prospective students in obtaining the information specified in § 178.4. If the institution designates one person, that person shall be available, upon reasonable notice, to any interested student or prospective student through the normal administrative working hours of that institution. If more than one person is designated, their combined schedules shall be arranged in such a manner that at least one of them is available, upon reasonable notice, throughout the normal administrative working hours of that institution.

(b) *Waiver.* (1) The Commissioner may waive the requirement that an employee or group of employees be available on a full-time basis for carrying out the requirements of this part at any institution when the total enrollment, or the portion of the enrollment participating in student financial aid programs authorized under Title IV of the Act (the Basic Educational Opportunity Grant Program, Supplemental Educational Opportunity Grant Program, College Work-Study Program, National Direct Student Loan Program, Guaranteed Student Loan Program, and State Student Incentive Grant Program), is too small to necessitate the availability of an employee or group of employees on a full-time basis. The Commissioner may waive the requirement of full-time availability for any institution that submits a timely application for the waiver if it: (i) Has a total enrollment of not more than 1,000 in the academic year for which the waiver is requested and has not more than 500 recipients of student financial aid from the programs authorized under Title IV of the Act; or (ii) Can substantiate that there is insufficient demand among its students or prospective students to necessitate the full-time availability of an employee or group of employees to carry out the requirements of this part.

(2) The granting of a waiver under subparagraph (1) of this paragraph does not exempt an institution from designating a specific employee or group of employees to carry out the provisions of this section.

(20 U.S.C. 1088b-1.)

§ 178.6 Use of funds.

Any institution which receives an administrative cost allowance for any academic year shall first use such funds to carry out the provisions of this part. If any funds remain, the institution shall use those funds for such other costs of administering the student financial aid programs authorized under Title IV of the Act as it determines necessary.

(20 U.S.C. 1088b-1.)

§ 178.7 Compliance procedures and records.

(a) *Retention of records.* Each institution which receives an administrative cost allowance for any academic year shall keep intact and accessible all records relating to the receipt and expenditure of Federal funds in accordance with Section 434(a), General Education Provisions Act 20 U.S.C. 1232c), including all accounting records and related original and supporting documents that substantiate costs.

(b) *Audit questions.* The records involved in any claim or expenditure which has been questioned by audit shall be further retained until resolution of any such audit questions; provided, however, that records need not be retained if they relate to a payment with respect to which actions by the United States to recover for diversion of Federal funds are barred by the statute of limitations in 28 U.S.C. 2415(b).

V 4 2 1 6 8 A P R 8 7 7 UMI

(c) *Audit and examination.* The Secretary of Health, Education, and Welfare and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access, for the purpose of audit and examination, to the records specified in paragraph (a) of this section and to any other pertinent documents, papers, and records of the institution.

(20 U.S.C. 1088b-1, 1232c.)

§ 178.8 Audits—non-Federal.

(a) All of an institution's transactions relating to its use of administrative cost allowances received shall be audited by the institution or at the institution's direction to determine, at a minimum, the fiscal integrity of financial transactions and reports and whether such transactions are in compliance with applicable laws and regulations. Such audits shall be performed in accordance with the Department of Health, Education, and Welfare "Audit Guide" for student financial aid programs. If the institution participates in the Supplemental Educational Opportunity Grant, College Work-Study, or National Direct Student Loan Programs, then the audit required by this part shall be included as part of an audit performed for any of those programs. If the institution does not participate in any of the above three programs, then the audit required by this part shall be performed at least once every two years.

(b) Audit reports shall be submitted to the HEW Audit Agency at the regional office of the Department of Health, Education, and Welfare serving the region in which the institution is located for its review. The Audit Agency and the Commissioner shall also be given access to records or other documents as may be necessary to review the results of such audits.

(20 U.S.C. 1088b-1, 1232c.)

[45 CFR Part 178a]

STATE ADMINISTERED PROGRAMS—INCENTIVE GRANTS FOR STATE STUDENT FINANCIAL ASSISTANCE TRAINING PROGRAMS

Proposed Rulemaking

Under the authority contained in section 493C of Part F of Title IV of the Higher Education Act of 1965, as amended (20 U.S.C. 1088b-3), the Commissioner of Education is giving notice that he proposes to issue, with the approval of the Secretary of Health, Education, and Welfare, the following regulation governing the operation of Incentive Grants for State Student Financial Assistance Training Programs.

EXPLANATION OF NEED FOR REGULATIONS

Section 493C authorizes incentive grants to States, which must be matched with State funds, for the design and development of statewide training programs for financial aid administrators. Funds are drawn from two sources: an authorization for an appropriation of $280,000, to be divided equally among the States which submit approvable applications, and the lesser of .05 percent, or $10,000, from each State's annual allotment under each of the Supplemental Educational Opportunity Grant, College Work-Study, and National Direct Student Loan Programs.

SUMMARY OF COMMENTS PREVIOUSLY RECEIVED

In the FEDERAL REGISTER, Vol. 41, No. 230, Monday, November 29, 1976, the Commissioner published a Notice of Intent to Issue Regulations implementing the provisions of the Education Amendments of 1976 (41 FR 52410). At page 52416, comments were invited concerning the State Financial Assistance Training Programs. Five public conferences were held at various locations between December 13–17, 1976, at which the Office of Education received comments on this and other provisions of the Education Amendments. Further written comments were received through December 30, 1976. A summary of the comments received and the Office of Education's responses are set forth below.

Comment. Several comments were received recommending that the State Student Financial Assistance Training Programs be extended to students as well as to financial aid administrators. One commenter suggested that the inclusion of students as recipients of the training would provide them with a needed knowledge of the mechanics of student financial aid programs. Another commenter recommended that at least those students employed part time by an institution's financial aid office should be permitted to receive training.

Response. The statute does not provide authority for including students, as students, in the training programs authorized by this part. However, a State may include part-time administration in its training programs, including students who are part-time financial aid administrators.

Comment. One comment urged that the application for funding include an explanation of the expected relationships among the planned training under this section, the Basic Grant training program, and the training program authorized under section 533 of the Higher Education Act, as amended. It was also recommended that the applications be submitted annually.

Response. The proposed regulations do contain provisions that training provided under this part shall be coordinated with other student financial aid training programs in the State, to the extent possible, and that each State agency must submit an application annually.

Comment. Another comment was received concerning the design and development of these training programs. It was suggested that comprehensive program manuals should first be developed to provide a sound basis for guidance and instruction for the management and administration of all student aid programs.

Response. The Commissioner recognizes that the lack of comprehensive program manuals is a continuing problem in improving the administration of student financial aid programs and will attempt to develop such manuals, subject to budgetary and personnel constraints. However, he believes that the need for student financial aid training programs is sufficiently urgent that training should be initiated using the regulations and other materials currently available.

INSTRUCTIONS CONCERNING COMMENTS

Interested persons are invited to direct comments concerning these proposed regulations to:

Mr. John R. Proffitt, Director, Division of Eligibility and Agency Evaluation, Room 3030, Regional Office Building 3, 7th and D Streets SW., Washington, D.C. 20202 Telephone: (202) 245-9873.

In order for comments to receive full consideration they should be received not later than 4:30 p.m. on May 10, 1977. The Commissioner will not acknowledge the comments individually, but they will be available for inspection in Room 4068, Regional Office Building 3, between 8:30 a.m. and 4 p.m., Monday through Friday.

Public hearings on these proposed regulations will be held at times, dates, and locations to be announced in a forthcoming issue of the FEDERAL REGISTER.

The Office of Education has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

(Catalog of Federal Domestic Assistance No. 13.582, Student Financial Assistance Training Program.)

Dated: February 18, 1977.

WILLIAM F. PIERCE,
Acting Commissioner of Education.

Approved: March 31, 1977.

JOSEPH A. CALIFANO, Jr.
Secretary of Health, Education, and Welfare.

1. Chapter I of Title 45 of the Code of Federal Regulations is amended by adding a new Part 178a, which reads as follows:

Sec.
178a.1 Purpose.
178a.2 Definitions.
178a.3 Allotments.
178a.4 Student Financial Assistance Training Program requirements.
178a.5 Training program components.
178a.6 State applications.
178a.7 Review of State applications.
178a.8 State matching requirements.
178a.9 Use of funds.
178a10 Reporting requirements.

AUTHORITY: Sec. 493C of Title IV of the Higher Education Act of 1965, as amended by sec. 131(b) of Pub. L. 94-482, 90 Stat. 2149-2150 (20 U.S.C. 1088b-3), unless otherwise noted.

§ 178a.1 Purpose.

(a) The purpose of this part is to make incentive grants available to the States to be administered, in consultation with statewide financial aid administrator organizations, for the purpose of designing and developing programs to increase the proficiency of institutional and State financial aid administrators in all aspects of student financial aid.

(b) Assistance provided under this part is subject to the applicable provisions of Subchapter A of this chapter relating to fiscal, administrative and other matters (General Provisions for Office of Education Programs (45 CFR 100a)).

(20 U.S.C. 1088b-3.)

§ 178a.2 Definitions.

(a) "Act" means the Higher Education Act of 1965, as amended.

(b) "Institution of postsecondary education" means an institution of higher education, as defined in section 1201(a) of the Act, a proprietary institution of higher education, as defined in section 491(b) of the Act, an eligible institution, as defined in section 435 of the Act, or an area vocational school, as defined in section 8(2) of the Vocational Education Act of 1963.

(c) "State" means, in addition to the several States of the Union, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Trust Territory of the Pacific Islands, and the Virgin Islands.

(20 U.S.C. 1141(b), 1088(a), and 1085.)

§ 178a.3 Allotments.

(a) Funds appropriated pursuant to section 493C(b) of the Act will be divided equally among States submitting approvable applications by the announced closing date.

(b) The Commissioner will transfer to each State which has been awarded a grant under this part amounts equal to .05 percent of the funds allotted to that State under each of the Supplemental Educational Opportunity Grant, College Work-Study, and National Direct Student Loan Programs, except that the amount transferred from each program may not exceed $10,000. This amount will be added to the amount received by each State under paragraph (a) of this section.

(20 U.S.C. 1088b-3.)

§ 178a.4 Student Financial Assistance Training Program requirements.

(a) The State agencies which administer the State Student Incentive Grant Program authorized by Title IV, Part A, Subpart 3 of the Act will be responsible for the design and development of financial assistance training programs under this part, for the purpose of increasing the proficiency of institutional and State financial aid administrators in all aspects of student financial aid. If such agency does not exist in any State, an agency or organization designated by the State will be responsible for the design and development of the program. The State agencies shall develop the programs in consultation with statewide financial aid administrator organizations.

(b) The training programs under this part shall:

(1) Identify the current and future need for financial aid administrators at State agencies and at institutions of post-secondary education throughout the State and the qualifications of such administrators;

(2) Assess the strengths and weaknesses of any current programs in the State which provide training in State and institutional financial aid policies and procedures;

(3) Develop programs to overcome the weaknesses identified in subparagraph (2) of this paragraph;

(4) Design and develop training materials and programs to improve the quality of financial aid administrators through inservice and preservice training, which shall include the components set forth in § 178a.5;

(5) Evaluate the effectiveness of the training materials and programs developed under this part; and

(6) Provide instruction in the administration of the Basic Educational Opportunity Grant, Supplemental Educational Opportunity Grant, State Student Incentive Grant, College Work-Study, National Direct Student Loan, and Guaranteed Student Loan Programs.

(20 U.S.C. 1088b-3.)

§ 178a.5 Training program components.

Each training program developed under this part shall provide:

(a) A description of the principles upon which student financial aid is based;

(b) The theory, methodology, and forms of the principal systems of need analysis used for awarding student financial aid, such as the systems of the College Scholarship Service, the American College Testing Program, and the Basic Educational Opportunity Grant Program, and of the system used to determine eligibility for the receipt of a Guaranteed Student Loan;

(c) Familiarity with the statutes, regulations, handbooks, and any other applicable administrative materials pertaining to the student financial aid programs authorized under Title IV of the Act and to all student financial aid programs administered by that State;

(d) Strategies for packaging Federal, State, private, and institutional programs of student financial aid;

(e) Requirements for maintaining student records, State and institutional accounts, and disbursement systems;

(f) Student and institutional rights and responsibilities pertaining to financial aid programs;

(g) Management practices and procedures so as to eliminate institutional and student fraud and abuse in the operation of student financial aid programs; and

(h) Any other subjects determined by the State agency to be necessary to carry out the purposes of this part.

(20 U.S.C. 1088b-3.)

§ 178a.6 State applications.

(a) Any State desiring to obtain a grant under this part shall file an application with the Commissioner, through the State agency administering its State Student Incentive Grant Program, except that, if no such agency exists in the State, the application shall be filed through an agency or organization designated by the State for this purpose. The application shall include the name of the State agency administering the program, shall describe the activities to be undertaken, and shall contain sufficient information to enable the Commissioner to determine that the State program will meet the requirements set forth in §§ 178a.4 and 178a.5.

(b) As part of its application, each State shall provide assurances that the Federal funds received under this part for any academic year will be matched by an amount at least equal to the Federal funds reserved for that State under § 178a.3, or, if the State cannot make such an assurance, the amount of Federal funds that the State does plan to match for that academic year.

(c) The Commissioner will from time to time establish cut off dates for the filing of applications.

(20 U.S.C. 1088b-3.)

§ 178a.7 Review of State applications.

The Commissioner will review each State's application to insure that it meets the requirements §§ 178a.4, 178a.5, and 178a.6. The Commissioner will not disapprove any State's application without giving the State agency an opportunity to remedy the deficiencies in its application within a reasonable time period.

(20 U.S.C. 1088b-3.)

§ 178a.8 State matching requirements.

In satisfying its matching requirements, the State is subject to §§ 100a.90 through 100a.94 of the Office of Education General Provisions (45 CFR 100a.90–100a.94). Such matching must be from non-federal sources and may be cash or in kind. The State shall maintain supporting records to indicate the amount and sources of such matching.

(20 U.S. C. 1088b-3.)

§ 178a.9 Use of funds.

(a) Funds received by a State under this part must be used with matching State funds to pay the costs of designing and developing programs to increase the proficiency of institutional and State financial aid administrators.

(b) Funds received under this part may not be used solely for the operation of an existing program. However, if the State already has such a program developed or in operation, funds may be used to refine or evaluate that program or to demonstrate and disseminate effective materials and practices.

(20 U.S.C. 1088b-3.)

V 42 68 APR 8 77 UMI

§ 178a.10 Reporting requirements.

At the end of each academic year for which a State receives a grant under this part, the State shall provide a report containing such information as the Commissioner determines necessary to insure that the State is adequately performing its responsibilities under this part.

(20 U.S.C. 1088b-3.)

PART IV

POSTAL SERVICE

MAIL SECURITY REGULATIONS

Proposed Rule

V 42 68 APR 8 77 UMI

POSTAL SERVICE

[39 CFR Part 111]

CONTENTS OF CHAPTER I OF POSTAL SERVICE MANUAL

Mail Security Regulations

AGENCY: United States Postal Service.

ACTION: Proposed Rule.

SUMMARY: These proposed regulations would prescribe Postal Service policy as to when it is permissible to delay, detain, or open mail, and would establish procedures to be followed by postal employees in handling requests from Government agencies for the delay, detention, or opening of mail. The need for detailed regulations of this kind has been suggested by the recent disclosure of certain governmental mail intereception and opening projects.

DATES: Written comments must be received on or before June 7, 1977.

ADDRESSES: Assistant General Counsel, Special Projects, U.S. Postal Service, 475 L'Enfant Plaza West, Washington, D.C. 20260.

FOR FURTHER INFORMATION CONTACT:

Charles R. Braun (202–245–4680).

SUPPLEMENTARY INFORMATION: Under the provisions of 39 CFR § 111.3 the Postal Service is proposing to meet the above-described need for detailed regulations by revising 115 of the Postal Service Manual, chapter I of which has been incorporated by reference in the FEDERAL REGISTER, see 39 CFR § 111.1. The proposal would: (a) Set forth a general presumption that mail shall not be detained, delayed, or opened; (b) Inform postal employees of the penalties for participating in unlawful activities detrimental to mail security; and (c) Inform postal employees, other Government agencies, the public, and Congress what kinds of Governmental actions concerning mail the Postal Service considers unlawful, and under what circumstances the Postal Service considers itself to be authorized to cooperate with other Government agencies regarding access to mail.

LEGAL BASIS OF MAIL SANCTITY

The principle that mail should be generally free from governmental surveillance is based on the rights of the American people to be free from unreasonable or unauthorized governmental actions, as protected by the United States Constitution, Federal laws, and judicial decisions. Federal criminal laws whose origins antedate the Constitution generally prohibit opening, detention, obstruction, or delay of mail, and provide for fine and imprisonment of offenders. 18 U.S.C. 1701–1703, 1708–1709 (1979); see 23 J.C.C. 671 (1782). The civil postal laws buttress mail sanctity by establishing the Postal Service's general duty to provide for adequate and efficient transmission of all mail, 39 U.S.C. 403 (a), (b)(1) (1970); to give the highest priority to the most expeditious transmission of important letter mail, 39 U.S.C. 101(e) (1970); and to maintain one or more classes of mail service for the transmission of letters sealed against inspection, 39 U.S.C. 3623 (d) (1970) (1st sentence).

The pre-Constitutional 1782 ordinance of the Continental Congress generally prohibiting mail opening, detention, and delay (still in effect as 18 U.S.C. 1702) was modeled after English postal legislation whose stated purpose was to prevent: "* * * abuses [which] may be committed by wilfully opening, imbezilling [sic], detaining and delaying of letters or packets, to the great discouragement of trade, commerce, and correspondence. * * *" Act of 9 Anne, c. 10, sec. 40 (1710).

Mail security and privacy have roots in the First and Fourth Amendments to the Constitution. The leading Supreme Court cases (which focus on the Fourth Amendment's protection of the mails) are *Ex parte Jackson*, 96 U.S. 727, 732–733 (1877); and *United States* v. *Van Leeuwen*, 397 U.S. 249 (1970). The leading First Amendment precedents are legislative precedents: the Senate report and debates leading to the defeat, on Constitutional grounds, of President Jackson's proposal to prohibit the transmission by mail of anti-slavery publications into the slave states, S. Rep. No. 118, on S. bill No. 122, 24th Cong., 1st Sess. 1–4 (1836); Congressional Globe, 24th Cong., 1st Sess. 36–37, 164–165, 195, 282, 284, 291–292, 325, 331–332, 347–348, 412, 524, 539, Appendix 8–9, 453–458 (1836); *Ex parte Jackson*, *supra* at 733–735; and the debates leading to the defeat of proposals that the sealed mails be opened without a search warrant to search for Espionage Act violations, 55 Cong. Rec. 1821–1823, 1867, 1869–1872, 2057–2060, 2062–2072 (1917).

Section 115.1 of the proposed regulations would promulgate a general presumption in favor of the sanctity of the mail, giving postal employees a clear legal basis not to cooperate with other Government agencies seeking access to mail, without a clear legal basis for such cooperation.

SEALED AND UNSEALED MAILS

From the first postal statutes enacted after the Constitution, mail service has consisted not only of one or more classes of "sealed" letter mail service, but also one or more classes of mail service for certain defined categories of matter (such as newspapers and magazines) eligible for transmission at considerably less than the letter mail rate. In order to insure readily that letters or other ineligible materials have not been unlawfully inserted into the non-letter mails for transmission at non-letter rates, and thus often to protect the people from being taxed to pay for unauthorized subsidies of mailings, the unsealed mails have been considered to be subject to postal inspection to determine whether they contain only matter eligible for the non-letter rate claimed by the sender. Such inspections may necessarily entail delay of mail. Postal inspections of the contents of such unsealed mail may also necessarily lead to administrative determinations as to whether the contents are mailable. Since sealed mails are generally to receive priority of handling over unsealed mails, the unsealed mails may be subject to mail handling delays while the sealed mails are processed with priority.

Judicial recognition of the distinction between sealed and unsealed mails is contained in *Ex parte Jackson*, *supra* at 732–733. Statutory recognition of this distinction is found in 39 U.S.C. 101(e) and 3623(d) (1st sentence). Proposed section 115.23 would define which mails, among the present classes of mail services, are sealed and which are unsealed.

EXCEPTIONS

Mail sanctity is not, and never has been, absolute. Present part 115, which states, "First-class mail is given absolute secrecy while in our custody * * *", would therefore be deleted from postal regulations by the proposal.

(a) *Dead mail.* The present statutory authority of the Postal Service to open "dead letters" and other "dead" or undeliverable mail is 39 U.S.C. 404(1) and 3623(d). There has been express statutory authority of this kind at least since 1777. Act of October 16, 1777, 23 J.C.C. 122. Similar authority was granted in English postal statutes applicable in North America before the Revolution. Act of 9 Anne, c. 10, sec. 40 (1710). Although during most of the Revolutionary War there was authority to use information found in dead letters having war intelligence value, such authority was withdrawn before the war ended, Act of October 18, 1782, 23 J.C.C. 675, 678, and the policy since then has generally been that undeliverable letter mail may be opened "for the sole purpose of determining an address at which the letter can be delivered," 39 U.S.C. 3623(d). Mail matter in dead letters otherwise remains "constructively under seal * * *" 3 Op. Solic. P.O. Dep't. No. 1134 at 191 (1898). The proposed regulations would continue the dead mail exception unchanged. See proposed sections 115.21(a), 115.5(a).

(b) *Consent of addressee or sender.* Opening, detention, and delay of mail by the Postal Service are lawful, with the consent of the sender or the addressee. The general principle is that the post office takes custody but not ownership of mailed articles, and the sender and addressee as postal customers retain certain rights as to the mail. Under current postal regulations, the sender has the right to ask for efforts to recall mail before it is delivered to the addressee, if he will reimburse the postal system for its costs, PSM 153.5; and there is express statutory authority for the Postal Service to open sealed mail without a warrant with the addressee's consent, 39 U.S.C. 3623(d) (last sentence). One modern use of the addressee's consent exception is the opening of sealed mail suspected of containing a letter bomb intended to harm or injure the addressee. Exceptions of this kind have been in the postal laws and regulations of the United States since 1782, and before that, in English law. Act of October 18, 1782, 23 J.C.C. 671 (consent of sender or addressee); Act of 9 Anne, c. 10, sec. 40 (1710) (consent of addressee). The proposed regulations would continue pre-existing law in this regard (proposed sections 115.21(b) and 115.31(c)).

(c) *Search warrants.* English postal legislation prior to the Revolutionary War authorized executive search warrants for opening, detention, or delay of specific pieces of mail, "by an express warrant in writing under the hand of one of the principal secretaries of state for every such opening, detaining, or delaying. * * *" Act of 9 Anne, c. 10, sec. 40 (1710). Legislation enacted during the Revolutionary War by the Continental Congress similarly made it permissible to intercept and open letters "by an express warrant under the hand of the President of the Congress of these United States, or in time of war, of the Commander in Chief of the armies of these United States, or of the commanding officer of a separate army in these United States, or of the chief executive officer of one of the said states. * * *" Act of October 18, 1782, 23 J.C.C. 671. The authority of the military commanders and of the State executives—limited to wartime—expired a few weeks later, upon the conclusion of an armistice with Great Britain. Provisional Articles of November 30, 1782, 8 Stat. 54. Thereafter, it was decided not to authorize the States to intercept or open letters in peacetime, 34 J.C.C. 232, 239 (1788).

When the Constitution went into effect the next year, and the office of President of Congress was discontinued, all authority to stop or open letters in war or peacetime under a warrant lapsed. Although the Supreme Court in the 1877 *Jackson* case, 96 U.S. at 732–733, had stated that sealed mail opening under the authority of a warrant would be constitutional, the statutory prohibition against mail opening, detaining, or delay was continued without provision of any statutory search warrant authority to stop or open mail from the adoption of the Constitution in 1789 to the First World War. E.g., Act of September 22, 1789, ch. 16, sec. 1, 1 Stat. 70; Act of February 20, 1792, ch. 7, sec. 16, 1 Stat. 236; Rev. Stat. 3892 (1873); Act of March 4, 1909, ch. 321, sec. 194, 35 Stat. 1125.

Federal search warrant authority under the Constitution was first enacted in 1917, along with legislation specifying that no one could open any letter not addressed to himself, without such a search warrant, except an employee of a dead letter office. Such warrants can only be issued by a judge or independent magistrate. Espionage Act of 1917, Title XI, 40 Stat. 228, now Fed. R. Crim. P. 41; Espionage Act of 1917, Title XII, sec. 1 (proviso), 40 Stat. 230, now 39 U.S.C. 3623(d). The legislative debates on the espionage bill indicate that the authority for opening sealed letter mail under a "search warrant authorized by law" now contained in 39 U.S.C. 3623(d) extends only to the bill's Federal search warrant authority, not to search warrants issued solely under the authority of state law. Espionage Act debates, supra, in particular 55 Cong. Rec. 2070 (1917).

The proposed rules would continue the search warrant exception in its present form (proposed sections 115.21(c), 115.22(a), 115.5(c)). They would also prescribe detailed instructions for postal employees to follow in executing a search warrant that complement the search warrant rules of the Federal Rules of Criminal Procedure (proposed section 115.6).

In 1971 the Supreme Court in the *Van Leeuwen* case expressly upheld the constitutionality of a detention of suspected mail for a reasonable time in order to apply for, obtain, and execute a search warrant. The proposed regulations would follow the Court's holding (sections 115.31(a), (e)).

For about a quarter of a century, certain subordinate military components of the Department of Defense have held the view that a search authorization issued by a military commander should be regarded as the military equivalent of a civilian search warrant) and should therefore be sufficient to authorize the opening and seizure of mail in military postal custody, at least when the mail comes into the possession of a unit mail clerk. The former Post Office Department in 1953, and the United States Postal Service in 1972 and 1975, have advised, however, that military commanders do not have such authority, and that the general sanctity of mail in military postal custody should be observed until it is delivered to the addressee. The Department of Defense is obligated generally to operate the military postal system in accordance with postal laws, regulations, and policies. 39 U.S.C. 401(2), 406 (1970); H. R. Rep. No. 91–1104, 91st Cong., 2d Sess. 33 (1970); 39 U.S.C. 712(d) (1964); Postal Agreement with Department of Defense, USPS Publication 38, General Policy Statement 3, page 3 (1972). The proposed regulations would prescribe that mail in military postal custody (including the custody of a unit mail clerk) may not be opened by the authority of military commanders (proposed section 115.93).

The proposed regulations would prescribe that a search warrant for mail issued under State authority (as distinguished from a search warrant issued by a State judge or magistrate under Rule 41 of the Federal Rules of Criminal Procedure) should not be executed (proposed section 115.61). Present postal regulations do not address this question, and the recent practices of the Post Office Department and the Postal Service have been inconsistent. Usually, if a State warrant for mail opening is presented, execution of the State warrant will be refused, based on the sovereign immunity of the Federal postal system; but cooperation may be afforded to State officers in securing a Federal warrant. However, in exceptional cases (typically involving a State murder investigation as to which there was no concurrent Federal jurisdiction, and therefore no legal basis for a Federal warrant), postal officials have cooperated with the execution of State warrants for mail. This practice has been ended, based upon a lack of legal authority for it.

(d) *Mail bombs.* There is no express statutory authority to open sealed mail suspected of containing a bomb to deactivate the bomb. Typically, therefore, legal access to sealed mail suspected of containing a bomb is obtained by the consent of the addressee or a search warrant. Where time or circumstances do not appear to permit either to be obtained, and the suspect letter or parcel reasonably appears to pose an immediate danger to persons or property, the practice is to arrange for explosive experts to open the letter and parcel and (if necessary) to deactivate or process the bomb or other dangerous contents. The legal basis for such actions is the emergency or exigency exception from the normal Constitutional search warrant requirement, e.g., *United States* v. *Barone*, 330 F. 2d 543 (2d Cir. 1964), and the availability in such circumstances of the justification of self-defense to a prosecution under either 18 U.S.C. 1701, 1702, or 1703. Clark and Marshall, *Crimes*, § 515 at 322–325 (6th ed. 1958); Miller, *Criminal Law*, §§ 54–55 at 164–170 (1934). Exigency mail treatment would be authorized by section 115.4, which would prescribe stringent reporting controls to insure that there is no abuse of this authority.

(e) *Customs and agriculture examination of incoming foreign mails.* Although there is no express statutory authority for examination of incoming foreign mails by either the Customs Service or the Agriculture Department, the Postal Service has always considered it appropriate to make cooperative arrangements with the Customs Service (and with the Agriculture Department) to insure that the incoming foreign mails are not misused to evade the customs or plant quarantine laws, or other laws regulating or prohibiting imports. Postal regulations of this kind have been in effect since 1871. Present arrangements would be continued by proposed sections 115.91 and 115.92(a). Present cooperative arrangements with the Department of Agriculture for enforcing the Federal plant quarantines of Hawaii and Puerto Rico would be continued by proposed section 115.92(b). The exception, in proposed section 115.91, of sealed mail addressed to the District of Columbia from warrantless Customs opening, reflects a decision by the Court of Appeals for the District of Columbia that requires, on Constitutional grounds, a search warrant for Customs' opening of incoming foreign letter mail. That decision, because of its conflict with the decisions of other Courts of Appeal, is now under review by the Supreme Court.

(f) *Territorial cooperation.* Proposed sections 115.94 and 115.96 would continue pre-existing cooperative arrangements with the Government of Guam and the Commonwealth of Puerto Rico. Section 3 of the Puerto Rico Federal

V42168 APR 8 77 UMI

Relations Act, 48 U.S.C. 741a (1970); 9 Op. Solic. P.O. Dep't. No. 200 at 249 (1948) (Guam).

SANCTITY OF INTERNATIONAL TRANSIT MAIL

Under the Acts of the Universal Postal Union, to which the United States is a party, international mail is required to be given "freedom of transit"—to be transported, promptly and generally without interference, by the transit or intermediary postal administration to the next postal administration. UPU Const. art. I, sec. 1; UPU Conv. arts. 1–3, art. 33, sec. 6; T.I.A.S. No. 8231, pp. 35–36, 49, 442 (1976). Domestic criminal law provides that unlawful interference with transit mail is punishable to the same extent as similar interferences with domestic mails. 18 U.S.C. 1692, 1701–1703, 1708–1709 (1970). Proposed section 115.8 would prescribe regulations consistent with the postal treaty rules on handling and forwarding transit mail.

Proposed section 115.95 would prescribe the same rules for the Canal Zone Postal Service to follow. The statutory authority for proposed section 115.95 is 39 U.S.C. 401(2), 407 (1970); 2 C.Z.C. 1131 (a), 76A Stat. 38.

DISCLOSURE OF INFORMATION ABOUT MAIL SENT OR RECEIVED

Proposed section 115.5 would generally prohibit postal employees from disclosing information about mail sent or received which they may obtain through their official duties. Existing exceptions (such as for mail covers issued in accordance with postal regulations) would be continued.

RESPONSIBILITY FOR ENFORCEMENT

General responsibility for enforcement of these regulations would be vested in the Postal Inspection Service. Proposed section 115.7 would channel all requests by government agencies for access to mail or information about any person's mail through the Postal Inspection Service.

WARTIME MAIL CENSORSHIP

Although an emergency preparedness executive order now in effect assigns wartime main censorship responsibilities to the Postal Service and other Federal agencies, Exec. Order No. 11,490, as amended, secs. 401(22), 601(2)(a), 41 Fed. Reg. 24,305, 24,308 (1976), the proposed regulations make no provision for wartime mail censorship. In World Wars I and II, statutory authority for wartime mail censorship was delegated to the President. Trading with the Enemy Act of 1917, sec. 3(d), 40 Stat. 411, 50 U.S.C. App. 3(d) (1970); First War Powers Act, 1941, sec. 303, 55 Stat. 840–841; see, 9 Op. Solic. P.O. Dept. No. 195 at 244 (1941); id. No. 201 at 252 (1942). However, the World War II authority has been repealed, Act of July 5, 1947, ch. 327, sec. 1, 61 Stat. 449, 50 U.S.C. App. 618 note (1970); and the World War I authority, although not explicitly repealed, is limited by its own terms to the duration of the then "present war". 50 U.S.C. App. 3(d) (1970). Since there is no present statutory authority for wartime mail censorship, the Postal Service construes the executive order as intended merely to distribute within the executive branch any wartime censorship authority that may hereafter be delegated to the President by law.

MAIL SURVEILLANCE FOR FOREIGN INTELLIGENCE PURPOSES

The proposed regulations make no provision for, and therefore would prohibit, interception or opening of mail without a warrant by U.S. foreign intelligence agencies such as the C.I.A. There is no statutory authority for such mail interception or opening programs. Although the claim has been made that the President may, based upon his Constitutional "foreign affairs powers", authorize mail openings for "foreign intelligence purposes," the present executive order on foreign intelligence gathering directs U.S. foreign intelligence agencies not to engage in: "Opening of mail or examination of envelopes of mail in United States postal channels except in accordance with applicable statutes and regulations." Exec. Order No. 11,905, February 18, 1976, sec. 5(b)(4), 41 Fed. Reg. 7,729 (1976). The Justice Department has stated that the promulgation of this executive order "withdrew any prior authorization for CIA mail opening programs. * * *" Justice Department Report on Its Decision Not to Prosecute Individuals Who Participated in CIA Mail Opening Projects 50 (January 14, 1977). Since the only explicit Constitutional "foreign affairs" power of the President not explicitly subject to Senatorial consent is the power to receive Ambassadors (Art. II, sec. 3), it would be necessary to enact a statutory authorization to provide a clear legal basis for U.S. foreign intelligence agencies to intercept or open mail for any purpose (other than under a judicially-issued search warrant).

Although exempt from the requirements of the Administrative Procedure Act (5 U.S.C. 553(b), (c)) regarding proposed rulemaking, 39 U.S.C. 410(a), the Postal Service invites public comment on the following proposed revision of the Postal Service Manual:

Part 115 of the Postal Service Manual is revised to read as follows:

PART 115—MAIL SECURITY

115.1 Importance of mail security.

The Postal Service must preserve and protect the security of all mail in its custody from unauthorized opening, inspection, or reading of contents or covers, tampering, delay, or other unauthorized acts. Any postal employee committing or allowing any of these unauthorized acts is subject to administrative discipline, or criminal prosecution leading to fine, imprisonment, or both. An employee having a question about proper mail security procedures, which is not clearly and specifically answered by postal regulations or by written direction of the Inspection Service or Law Department, shall resolve the question by protecting the mail in all respects and moving it, or letting it move, without interruption to its destination.

115.2 Opening, reading, and searching of sealed mail generally prohibited.

.21 In general, no person may open, read, or search the contents of mail sealed against inspection, even though such mail may be believed to contain criminal or otherwise non-mailable matter or evidence of the commission of a crime. The only exceptions to this general rule are: (a) a postal employee in a dead mail office acting in accordance with dead mail regulations, part 159; (b) a postal employee acting with the consent of the addressee or sender; (c) a person executing a search warrant in accordance with section 115.6; (d) a person handling potentially dangerous mail in accordance with section 115.4; or, (e) an authorized Customs or Agriculture employee, acting in accordance with sections 115.91 or 115.92.

.22 Mail not sealed against inspection.

Mail not sealed against inspection may be opened, surrendered, its contents inspected and read, or information concerning it released, by an authorized postal employee, only: (a) under a search warrant in accordance with section 115.6; (b) without such a warrant in order to determine the mailability of the contents or whether the correct postage has been paid; or, (c) as otherwise expressly permitted by postal regulations.

.23 Definitions.

.231 Mail sealed against inspection.

For purposes of this part, the terms, "mail sealed against inspection," or "sealed mail," mean mail on which appropriate postage is paid, which under postal laws and regulations shall receive the most expeditious handling, transportation, and delivery, and which is not subject to postal inspection. The terms do not include international transit mail (section 115.8). They include first class mail, air mail, priority mail, international letter mail ("LC Postal Union mail" as defined in USPS Publication 42, International Mail), Mailgram, Express Mail, and Electronic Ticket Mail.

.232 Mail not sealed against inspection.

For purposes of this part, the terms, "mail not sealed against inspection," or "unsealed mail," mean mail on which appropriate postage for sealed mail has not been paid, which under postal laws or regulations is not required to receive the most expeditious handling, transportation, or delivery, and which is subject to postal inspection. The terms do not include international transit mail (section 115.8). They include second, third, and fourth class mail, international parcel post mail, and "AO Postal Union mail" (as defined in USPS Publication 42, International Mail).

115.3 Permissible detention of mail.

.31 Sealed mail generally not detained.

No postal employee may detain mail sealed against inspection (other than dead mail) except: (a) a postal inspector acting diligently and without avoidable delay upon reasonable suspicion, for a brief period of time, to assemble evidence sufficient to satisfy the probable cause requirement for a search warrant in accordance with section 115.6, and to apply for, obtain, and execute the warrant; (b) a postal employee acting in strict accordance with postal regulations (for example, sections 115.4 or 154.145; (c) a postal employee acting under postal regulations with the express consent of the addressee or sender (for example, section 153.5 or 154.19); (d) a postal employee acting under an order issued under 39 U.S.C. 3005, relating to false representations, lotteries, and unlawful matter; (e) a postal employee acting under section 115.62; (f) a postal employee conducting a mail count by direction of his postmaster or a postal inspector; (g) a postal employee acting under an order of a Federal court; or, (h) a postal employee during the period required to seek and obtain instructions under section 154.7 concerning mail whose delivery is in dispute, or under section 331.1 concerning legal process other than a search warrant duly issued under Rule 41 of the Federal Rules of Criminal Procedure, purporting to require the surrender of mail matter.

.32 Unsealed mail.

Mail not sealed against inspection may be delayed or detained for the reasons stated in section 115.31 and as otherwise expressly permitted by postal regulations.

115.4 Mail reasonably suspected of being dangerous to persons or property.

Mail, sealed or unsealed, reasonably suspected of posing an immediate danger to life or limb, or an immediate and substantial danger to property, may, without a search warrant, be detained, opened, removed from postal custody, and processed or treated, but only to the extent necessary to determine and eliminate the danger, and only if a complete written and sworn statement of the detention, opening, removal, or treatment, and the circumstances that prompted it signed by the person purporting to act under this subsection, is promptly forwarded to the Chief Inspector. Any person purporting to act under this subsection who does not report his action in accordance with the requirements of this subsection to the Chief Inspector, or whose action is determined after investigation not to have been authorized, is subject to disciplinary action or criminal prosecution.

115.5 Disclosure of information about mail sent or received by particular senders or addressees.

Except as provided in paragraphs (a)–(f), no employee shall disclose: Information on the outside cover of any piece of mail; information obtained from any inspection of the contents of mail; or any other information which concerns any mail sent or received by any particular sender, addressee, or group of senders or addressees, which the employee obtains or controls in the performance of his official postal duties. An employee may disclose such information: (a) to the Postal Inspection Service for its official use, including appropriate reference to law enforcement authorities, when there is a reasonable basis to suspect that such information is evidence of the commission of a crime under State or Federal law, except that information obtained by opening sealed mail in a dead letter office may be used only to determine an address at which the mail can be delivered; (b) under section 233.2, regarding mail covers; (c) under a search warrant in accordance with section 115.6; (d) under an order of a Federal court; (e) at the request of the sender or addressee or the authorized agent of either; or, (f) otherwise in accordance with postal regulations: *Provided*, That any such information obtained from an inspection of the contents of mail may only be disclosed if the inspection accords with the regulations contained in this Part.

115.6 Execution of search warrants.

.61 Warrant issued by Federal Court or served by Federal officer.

A search warrant duly issued under Rule 41 of the Federal Rules of Criminal Procedure shall be executed as provided in section 115.62. Usually, a warrant issued by a Federal court or served by a Federal officer is issued under Rule 41, and is "duly issued" if signed and dated within the past ten days. No employee shall permit the execution of a search warrant issued by a State court and served by a State officer. If in doubt, an employee should temporarily detain the mail in question and promptly call a postal inspector for guidance.

.62 Search warrant execution procedures.

A postal inspector may execute a search warrant. A person other than a postal inspector executing a search warrant must be accompanied by a postal employee authorized by the head of the postal installation at which the warrant is to be executed. Mail may be taken from postal custody under the authority of a search warrant only if the person executing the warrant leaves a copy of the warrant and a receipt or inventory, made out in the presence of the postal employee accompanying him, which particularly describes each piece of mail taken, including all service endorsements on the cover (such as, "Return Receipt Requested") and any official postal identity numbers (such as registry, insurance, or certified mail numbers). The receipt or inventory may be attached to the copy of the warrant, or written on the reverse side of the copy of the warrant. The installation head or his designee shall make a copy of the receipt or inventory and of the copy of the warrant and send it to the Inspector-in-Charge of the Division in which the installation is located.

.63 Notice to sender or addressee.

If the cover of the mail has been endorsed and stamped to show that the sender has requested and paid for a return receipt or notice of nondelivery, the sender shall be notified of seizure of the mail under the warrant by an endorsement to that effect on the return receipt or notice, or on a duplicate if the original receipt or notice is taken. The receipt or notice shall be dispatched as soon as possible, unless the officer executing the warrant presents a Federal court order to delay the dispatch. In that event the dispatch shall be delayed in accordance with the order.

115.7 Cooperation with Federal and State and local agencies for access to mail.

A postal employee receiving a request from a Federal, State, or local law enforcement, intelligence, or other government agency, for access to, or information about, particular mail matter of any class in the custody of the Postal Service shall refer the request to the Postal Inspection Service with the explanation that the Inspection Service is responsible for liaison with all government agencies with respect to a request of this kind. No employee of the Inspection Service shall comply with such a request, except as authorized by postal regulations.

115.8 International transit mail.

.81 Definitions.

.811 International transit mail.

As used in this part, the term "international transit mail" applies to mail of foreign origin which is passed by a foreign postal administration to the United States Postal Service for forwarding to a foreign postal administration under a postal treaty or convention. It includes closed mails and à découvert letter post items.

.812 Closed mail.

The term "closed mail" refers to any bak, container, or mail passed to the United States Postal Service by a foreign postal administration, the entire contents of which are required by applicable postal treaties or conventions to be passed to a foreign postal administration.

.813 À Découvert letter post item.

The term "à découvert letter post item" refers to any international letter post item ("Postal Union mail" as defined by USPS Publication 42, International Mail) which is addressed for delivery by a foreign postal administration, and is passed to the United States Postal Service by a foreign postal administration in a bag, container, or mail that must be opened by the United States Postal Service in accordance with applicable postal treaties or conventions because it contains items addressed for delivery by the United States Postal Service.

.82 Special security rules.

International transit mail is entitled to freedom of transit. It shall not be opened, seized, or searched. It is not subject to Customs or Agriculture inspection under sections 115.91 or 115.92. In ac-

V 4268 APR 8 77 UMI

cordance with the Universal Postal Convention, any international transit mail consisting of closed mails, à découvert letter-post items, and air mail correspondence, shall not be detained, but shall instead be forwarded to the next foreign postal administration by the quickest routes which the United States Postal Service uses for mail sealed against inspection.

115.9 Mail security, law enforcement, and other government agencies.

.91 Customs Service.

Without a search warrant but upon reasonable suspicion, designated personnel of the U.S. Customs Service may open or inspect the contents of mail (but not read correspondence in sealed mail) in the customs inspection of mail (including APO–FPO mail) which has originated outside the Customs Territory of the United States ("CTUS"), and is addressed for delivery inside the CTUS (except sealed mail addressed to the District of Columbia). Such inspections may be conducted only in accordance with part 820, USPS Publication 42, International Mail, relating to cooperation with the U.S. Customs Service on inspections of imports. No Customs personnel may read, allow any other person to read, or transfer to any other person any correspondence contained in sealed mail unless such action is authorized by a search warrant issued under Rule 41 of the Federal Rules of Criminal Procedure. No Customs personnel may, without a search warrant, open, inspect, read, or seize any mail in postal custody (including APO–FPO mail) which has not originated outside the CTUS, or which has diplomatic or consular immunity from customs inspection (USPS Publication 42, International Mail, sections 821.1a and 821.1b).

.92 Department of Agriculture.

(a) *Foreign origin mail.* Without a search warrant, designated personnel of the U.S. Deuartment of Agriculture may open and inspect (but not read) the contents of mail (including APO–FPO mail) which has originated outside the Customs Territory of the United States ("CTUS") and is addressed for delivery inside the CTUS. Such inspection may be conducted only in accordance with part 830, USPS Publication 42, International Mail, relating to cooperation with the Department of Agriculture on plant quarantine inspections of imports.

(b) *Domestic mail from Hawaii or Puerto Rico.* Without a search warrant, designated USDA personnel may open and inspect (but not read) the contents of mail reasonably suspected of containing plant matter or plant pests, which has been mailed in Hawaii or Puerto Rico and is addressed to the United States mainland, either with the consent of the sender, or if the mail is unsealed. Such inspections may take place only in designated areas of the Hawaii or Puerto Rico post office, and only so long as the Federal plant quarantine of Hawaii or Puerto Rico remains in effect.

(c) *State terminal inspections.* Postal employees may cooperate with the Department of Agriculture and with State terminal inspection officials in accordance with the Terminal Inspection Act, 7 U.S.C. 166, or implementing regulations in USPS Publication 14, Plant Quarantines.

.93 Military postal system.

This part applies to the military postal system and to all military personnel performing postal duties, including unit mail clerks. A search authorization issued by or under the authority of a commanding officer or a military judge is not a "search warrant" within the meaning of this part. Offenses committed against the security of mail in the custody of the military postal system, at home or abroad, are punishable under Federal criminal laws relating to postal offenses in Title 18, United State Code, as well as under the Uniform Code of Military Justice. Mail in the custody of the military postal system, if mailed outside the Customs Territory of the United States for delivery to an address within the Customs Territory of the United States, may be opened and searched (but correspondence in sealed mail may not be read) without a search warrant, by authorized personnel of the U.S. Customs Service in accordance with section 115.91, relating to customs inspection, and by authorized personnel of the Department of Agriculture in accordance with section 115.92(a), relating to plant quarantines of imports, even though for other purposes such mail is domestic mail, part 112.

.94 Customs inspection in Guam.

Postal employees in the Agana post office may permit designated customs officials of the Government of Guam, without a search warrant to open, inspect, and read the contents of unsealed mail, and to examine the exterior (but not open or read the contents) of sealed mail which is addressed for delivery within the Territory of Guam. Upon the request of Guam customs officials, postal employees in the Agana post office may ask the addressee of sealed mail which Guam customs reasonably suspects of containing dutiable or prohibited matter to authorize Guam customs to open and inspect the contents of the sealed mail, or to appear at the post office to accept delivery of the sealed mail in the presence of a Guam customs official.

.95 Canal Zone Postal Service.

.951 International transit mail.

The Canal Zone Postal Service shall comply with section 115.8 with regard to any international transit mail passed to it by a foreign postal administration.

.952 Mail addressed to the United States or any area for which it is responsible.

The Canal Zone Postal Service shall comply with part 115 with regard to any mail passed to it by a foreign postal administration which is addressed for delivery in the United States or any area for which the United States is responsible (other than the Canal Zone).

.953 Mail passed to the Canal Zone Postal Service by the United States Postal Service not addressed for delivery in the Canal Zone.

The Canal Zone Postal Service shall comply with part 115 with regard to any mail passed to it by the United States Postal Service which is not addressed for delivery in the Canal Zone.

.954 Definitions.

For purposes of subsections 115.952 and 115.953, the words "postal employee" or words of like import in part 115 refer to an employee of the Canal Zone Postal Service; and the words "Postal Service" or "United States Postal Service" or words of like import refer to the Canal Zone Postal Service.

.96 Puerto Rico.

Under 48 U.S.C. 74la, postal employees in the San Juan Post Office are authorized to permit excise tax collection officials of the Commonwealth of Puerto Rico to record the names and addresses that appear on the exterior of incoming insured, certified, or C.O.D. mail, so long as no mail is opened or detained.

Conforming Amendments of Parts 112, 137, 331.

Amend part 112 by inserting between the words "Army-Air Force (APO) and Navy (FPO) post offices" and the semicolon immediately following them, the words, "(except as provided in part 115)".

Amend section 137.81 by inserting, between the word "detained" and the word "even" in the first sentence, the words, ", except in accordance with part 115,".

Amend part 331 to read:

.11 Requests for surrender of mail.

Any employee served with legal process, other than a search warrant issued under Rule 41 of the Federal Rules of Criminal Procedure (see section 115.6), purporting to require the surrender of mail, shall respectfully refuse to surrender it and shall refer the matter to the Regional Counsel for further information.

See 115.31 for permissible detention of the mail.

.12 Access to Mail and Mail Handling Areas.

Access to mail and mail handling areas in postal installations is restricted to authorized postal employees and mail contractors on official business, and to other persons specifically permitted access by the installation head or superior authority for the proper conduct of the official business of the Postal Service, the General Accounting Office, or a Congressional committee. Such other persons must be accompanied by a postal employee on duty. Federal, State, or local law enforcement or public safety authorities may be given access to mail and to mail handling areas to remove potentially dangerous mail matter in accordance with section 115.4. In appropriate circumstances, the installation head may allow Federal, State, or local law enforcement authorities access to mail and mail handling areas, to deal with conditions dangerous to life, limb, or property, such as fires or flooding, or to make lawful arrests.

An appropriate amendment to 39 CFR 111.3 to reflect this change will be published if the proposal is adopted.

(39 USC 401, 404, 3623(d).)

ROGER P. CRAIG,
Deputy General Counsel.

federal register

FRIDAY, APRIL 8, 1977

PART V

OFFICE OF THE FEDERAL REGISTER

PRIVACY ACT OF 1974

Publications Guidelines

V 42 68 APR 8 77 UMI

OFFICE OF THE FEDERAL REGISTER

PRIVACY ACT ISSUANCES

Publication Guidelines

ACTION: Notice of plans for publication of 2nd Annual Compilation of Privacy Act issuances.

SUMMARY: This document announces schedules and procedures developed to help agencies meet their publication responsibilities under the Privacy Act of 1974. This document also establishes a requirement that agencies submit a Table of Contents for the systems of records described.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert Jordan, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408. Telephone: 202–523–5240.

INTRODUCTION

The Privacy Act (Public Law 93–579, section 552(e)(4)) requires that all agencies shall publish "* * * in the FEDERAL REGISTER at least annually a notice of the existence and character of systems of records * * *". The Act also requires that the FEDERAL REGISTER "* * * shall annually compile and publish the rules promulgated under subsection (f) and agency notices published under subsection (e)(4) in a form available to the public at low cost." (Section 552(f).)

The Office of the Federal Register (OFR) has developed these procedures to help agencies to meet their responsibilities under the Act and to minimize the printing costs involved in reissuing and reprinting all the Privacy Act notices.

BACKGROUND

The OFR scheduled the first Annual Compilation of Privacy Act Issuances for publication in 1976. The Compilation was contained in five volumes. In order to avoid the delays that occurred in printing the 1976 Compilation, OFR has established a new schedule that should result in issuance of the 1977 Compilation by September 27, 1977, the second anniversary of the effective date of the Act. To accomplish this goal, and to insure that the most up-to-date versions of their systems appears in the Privacy Act Compilation, Federal agencies will have to adhere strictly to the deadline dates announced in these guidelines. Failure to comply with these dates may mean that an outdated version of an agency's issuances will appear in the 1977 systems Compilation, or that an agency may be omitted altogether from the Compilation.

SUBMISSION DEADLINES

During the period July 1, 1977 to August 31, 1977, each Federal agency subject to the Privacy Act must submit a document for publication in the FEDERAL REGISTER. This document is required under the provisions of 5 U.S.C. 552a(e)(4).

MANNER OF SUBMISSION

The document submitted must contain the complete text of the agency's systems of records. These systems should be submitted in machine readable format; either Optical Character Recognition (OCR) Type or on magnetic tape in accordance with the specifications in the Appendix to these guidelines. Agencies that are unable to supply documents in machine readable form should contact the OFR promptly.

In the signed preamble to the document, agencies should describe any changes included in the systems of records that were not previously published in the FEDERAL REGISTER. This includes additions, deletions, and substantive changes to the system of records. The preamble should also include citations to the FEDERAL REGISTER issue where the agency last republished their systems in full text together with citations for any subsequent amendments.

TABLE OF CONTENTS

Each agency must also include a table of contents immediately preceding the text of the systems of records. The table of contents should be arranged in the order of appearance of the systems.

NUMBER OF COPIES

Three copies of the document (one original and two certified) must be submitted to the OFR. If a tape is submitted as part of the document, two single-spaced printouts of the material on the tape should accompany the document. Upon receipt of the document, the OFR will schedule publication as soon as possible. Normal FEDERAL REGISTER publication schedules do not apply.

RULES AND REGULATIONS

The OFR will compile each agency's rules and regulations pertaining to the Privacy Act and publish them with the systems in the Compilations. The rules and regulations will be compiled as of July 1, 1977. If any revisions are planned, the agency should be certain to have them in by that date to insure appearance in the Compilation. Only rules published in final form by that date will be included.

AGENCY OVERRUNS

Before final printing of the Compilation volumes, agencies will be given the opportunity to order overruns from the Government Printing Office for the part in which their material appears.

FOR FURTHER INFORMATION

Any questions or problems with regard to these guidelines or publication of the Annual Compilation should be directed to the Privacy Act Coordinator by calling (202) 523–5240, or by writing the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408. The Office is located in Room 8401, 1100 L Street NW., Washington, D.C.; office hours are from 8:45 a.m. to 5:15 p.m.

FRED J. EMERY,
Director of the Federal Register.

INPUT REQUIREMENTS FOR FR PRIVACY ACT EDIT PROGRAM UTILIZING OCR SCANNABLE COPY

Typing Requirements

Typewriters must have 10 character per inch pitch, OCR-A size I type font with 85 characters and/or symbols and space bar which conform to FIPS PUB 32.

The following FIPS PUB 32 symbols will not be used:

| long vertical mark (field identifier) fig. II–24.
Ψ symbol fork, figure II–22.
— group erase, figure II–96.

The symbol hook (⸮) figure II–21 will occasionally be used to indicate special functions.

The character erase (▮) figure II–95, will be used to correct typing errors, as follows:

▮ delete previous letter
▮▮ delete all characters, back to, but not including, previous space
▮▮▮ delete entire line, back to the left hand margin.

Corrections on copy will not be made by erasing, white-out, or striking out. Only clean copy, with the exception of the character erase used for correcting errors, will be acceptable.

Copy must be typed double space at a 5 or 6 lines per inch pitch.

Spacing between words or sentences will be restricted to 2 spaces.

Operator must distinguish between figure one (1) and lower case letter ell (l) and between figure zero and capital letter O. These characters are not interchangeable.

Hyphens must never appear at the end of a line. If a hyphenated word must extend beyond the image area, use 2 erase symbols and start a new line. Strikes over previously typed letters are acceptable for this function only when the insertion of the two erase symbols would fall outside the right side margins.

Quotation marks—(") for single open quotes; ("") for double open quote; (') for single close quote and apostrophe; ('') for double close quote.

A one-time carbon ribbon that is equivalent to an IBM 3121 Black Ribbon Part No. 1136108 or 1136390 is normally adequate to meet requirements.

Paper Requirements

Paper will be made available through the Office of the Federal Register and will have preprinted on it, in non-OCR readable ink, margins, alinement and first character positions. Indents for 3, 6, and 9 spaces are also marked and are referred to in these specifications.

Margins and alinement are critical and must be followed.

Data Identifiers (Keyword Indicators)

The codes listed following these paragraphs must be placed immediately in front of the data they refer to. These codes will cause the correct function code and heading to be added by the edit program.

1. Data entries are to be preceded by a keyword indicator, the character (⸮), and a letter as assigned.
2. The keyword indicators and the subsequent letter causes the edit program to generate the proper headings as they appear on the following list.
3. Data may reflect either a textual paragraph or column/list format. The start of each paragraph is a new line, with a 3-space indent. When names, addresses, etc., require a column list format, each individual line will be a new line with a 6-space indent. It is advisable, where possible, to enter names, addresses, etc., in paragraph form.

Keyword and letter	Paragraph title
⸮A	(NONE)*
⸮B	System name:

INPUT REQUIREMENTS FOR FR PRIVACY ACT EDIT PROGRAM

1. All files will be submitted on ½ inch wide magnetic tape whose recording mode is 9 track. Acceptable recording densities are 800 or 1600 CPI.
2. Files are to be devoid of equipment-oriented identification label records, i.e., unlabeled.
3. Files are comprised of blocks of data not to exceed 3000 characters.
4. Data entries are to be preceded by a keyword indicator, the character "+", and a number as assigned. See attachment I.
5. The keyword indicators and the subsequent number causes the edit program to generate the proper headings as they appear on attachment I.
6. Data may reflect either a textual paragraph or column/list format. The start of each paragraph is preceded by the character "$". When names, addresses, etc., require a column list format, each individual line will be preceded by the character "%". It is advisable, where possible, to enter names, addresses, etc., in paragraph form.
7. The character set indicated in attachment II provides for upper and lower case letters, the numbers zero through nine, and the normally used punctuation, e.g., period, comma, colon, semicolon, hyphen, em dash, shil, exclamation mark, question mark, quote, apostrophe, ampersand, asterisk, and open and close parens.

These codes represent the characters to be called by the composition program in composing the submitted data. Any fractions, math signs, etc., are to be spelled out.

OFFICE OF MANAGEMENT AND BUDGET

DEFERRALS

Energy Research and Development Administration and Commerce/Maritime Administration

V42168 APR 8 77 UMI

OFFICE OF MANAGEMENT AND BUDGET

DEFERRALS

ERDA and Commerce/Maritime Administration

TO THE CONGRESS OF THE UNITED STATES:

In accordance with the Impoundment Control Act of 1974, I herewith report two new deferrals of Energy Research and Development Administration funds totaling $127.2 million. The deferrals have no effect on budgetary outlays for fiscal year 1977 or subsequent years. In addition, I am reporting a revision to a previously transmitted Department of Commerce deferral.

The details of each deferral are contained in the attached reports.

Jimmy Carter

THE WHITE HOUSE, *April 4, 1977.*

CONTENTS OF SPECIAL MESSAGE

(in thousands of dollars)

Deferral #	Item	Budget Authority
	Commerce:	
	Maritime Administration	
D77-47A	Ship construction	200,900
	Energy Research and Development Administration:	
D77-55	Operating expenses	80,500
D77-56	Plant and capital equipment	46,660
	Total, deferrals	328,060

****

SUMMARY OF SPECIAL MESSAGES
FOR FY 1977

(in thousands of dollars)

	Rescissions	Deferrals
Tenth special message:		
New items	---	127,160
Changes to amounts previously submitted	---	---
Effect of the tenth special message	---	127,160
Previous special messages	1,040,378	7,088,428
Total amount proposed in special messages	1,040,378 (in 13 rescission proposals)	7,215,588 (in 56 deferrals)

NOTE: All amounts listed represent budget authority except for $134,807,092 consisting of two general revenue sharing deferrals of outlays only (D77-26 and D77-27A). Reports for D77-26 and D77-27A are included in the special messages of October 1, 1976, and December 3, 1976, respectively.

V 42 68 APR 8 77 UMI

D77-47A

SUPPLEMENTARY REPORT

Report Pursuant to Section 1014(c) of Public Law 93-344

This report revises Deferral No. D77-47, transmitted to the Congress on January 17, 1977, and printed as House Document No. 95-48 and Senate Document No. 95-19.

Deferral No. D77-47, previously reported for the Ship Construction appropriation of the Maritime Administration, was based on 1977-78 shipbuilding plans presented in the 1978 budget submitted to Congress on January 17, 1977. This supplementary report is based on current projections of demand for U.S. shipbuilding as reflected in the revised 1978 budget submitted to the Congress on February 22, 1977.

The revised deferral anticipates that an estimated $102.9 million of the total amount deferred will be made available for obligation in fiscal 1977 as firm ship construction contracts are ready to be made. The remaining $98 million is planned for deferral for the entire year. The original report indicated that all $200.9 million would be deferred thoughout fiscal 1977.

Deferral No: D77-47A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Commerce	New budget authority (P.L. ____): $ ____
Bureau: Maritime Administration	Other budgetary resources: 362,811,241
Appropriation title & symbol: Ship Construction 13X1708	Total budgetary resources: 362,811,241
	Amount to be deferred: Part of year: $102,900,000*
	Entire year: 98,000,000*
OMB identification code: 13-1708-0-1-406	Legal authority (in addition to sec. 1013): ☒ Antideficiency Act ☐ Other ____
Grant program ☒ Yes ☐ No	
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

* Justification

This appropriation, available until expended, provides subsidies to U.S. shipyards for the construction and reconstruction of ships for foreign trade.

This revised deferral is based on anticipated new shipbuilding contracts during fiscal year 1977. The amount of $102,900,000 is being deferred for part of the year. It is anticipated that these funds will be apportioned as shipbuilding contracts become ready for obligation.

The amount of $98,000,000 is being deferred for the entire year but will be used in succeeding years. Provision is made under the Anti-deficiency Act (31 U.S.C. 665) for the phased use of multi-year funds.

Estimated Effects

The deferral will not delay planned construction or conversion of subsidized ships and will not affect the international competitive position of U.S. shipyards.

Outlay Effect

There is no outlay effect of this deferral.

* Revised from previous report.

V42168 APR 8 77 UMI

Deferral No: D77-55

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Energy Research and Development Administration	New budget authority (P.L. 94-355 & 94-373): $4,669,338,000
Bureau:	Other budgetary resources: 1,802,626,059
Appropriation title & symbol: Operating Expenses 89 x 0100	Total budgetary resources: 6,471,964,059
	Amount to be deferred: Part of year: $; Entire year: 80,500,000
OMB identification code: 89-0100-0-1-999	Legal authority (in addition to sec. 1013): [X] Antideficiency Act; [ ] Other
Grant program: [ ] Yes [X] No	
Type of account or fund: [ ] Annual; [ ] Multiple-year ____ (expiration date); [X] No-year	Type of budget authority: [X] Appropriation; [ ] Contract authority; [ ] Other

Justification

The Energy Research and Development Administration operating expenses appropriation is used for the conduct of energy research and development, basic research, and for nuclear research, development, and production related to national defense. The amount deferred is made up of unobligated balances brought forward into fiscal 1977. These balances are not needed for obligation in 1977 but may be needed in future years and are, therefore, reserved for contingencies.

Estimated Effects

There are no programmatic or budgetary effects of the deferral because the funds represent obligational authority in excess of that needed to conduct the FY 1977 program as appropriated.

Outlay Effect

No effect on outlays results from this deferral action.

Deferral No: D77-56

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Energy Research and Development Administration	New budget authority (P.L. 94-355 & 94-373): $1,634,630,000
Bureau:	Other budgetary resources: 106,534,747
Appropriation title & symbol: Plant and Capital Equipment 89X0103	Total budgetary resources: 1,741,164,747
	Amount to be deferred: Part of year: $; Entire year: 45,680,000
OMB identification code: 89-0103-0-1-999	Legal authority (in addition to sec. 1013): [ ] Antideficiency Act; [ ] Other
Grant program: [ ] Yes [XX] No	
Type of account or fund: [ ] Annual; [ ] Multiple-year ____ (expiration date); [XX] No-year	Type of budget authority: [X] Appropriation; [ ] Contract authority; [ ] Other

Justification

The amount deferred is made up of funds appropriated for 1977 and prior years for the Clean Boiler Fuel from Coal project (Coalcon). The funds may not be required for obligation in 1977 due to severe engineering difficulties which prevent further work on the project. The deferral is planned to be maintained pending a decision on future Coalcon activities and a determination of project termination costs. Once such a determination is made, any remaining funds will either be proposed for rescission or reprogramming, if appropriate.

Estimated Effects

There are no further programmatic or budgetary effects resulting from the deferral. Technical problems, rather than this deferral action, prevent further work on the project. Funds are not now planned to be obligated because the project is undergoing a technical review.

Outlay Effect

Available funds exceed current requirements by the amount of the deferral. Therefore, there is no outlay effect from this action.

PART VII

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

V 42 68 APR 8 77 UMI

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

CLASSIFICATION DEFINITIONS
POWER EQUIPMENT OPERATORS

CLASS 1 - Austin-Western or similar type Under 25 ton, austin-western or similar type 25 ton or over, auto grader (CMI or similar, backhoe, batch plant when conveyors are used for direct feedling or discharge, batch plant no conveyors for direct feeding or discharge (without oiler), cableway, caisson drill, central mix plant, cranes (excluding overhead)(truck or crawler type), cranes tower (mobile) cranes tower (stationary) (climbing type) use of oiler to be discussed at pre job) cranes tower (climbing type) cranes hydraulic self contained over 18 ton cranes hydraulic self contained - 18 ton or less, derrick traveler (self propelled), derrick (all types)(when assistance required it will be an oiler or apprentice) derrick boats, dragline, dredge, engineer maintenance, franki or similar type pile driver, gradall (remote control or otherwise), helicopter (when used for erection purposes), helicopter hoist operators (when used for erection purposes), hi-lift 4 yds. or over, hoist-hod 2 cages up to 10 floors) Chicago Boom Attached hoist (50 ft. or over) (stacks, stoves or furnaces) hoist (slipform jobs hop to or similar type with 180° swing hop to or similar type with 360° swing kocal koehring scooper, metro chip harvester or similar type, mix mobile or similar type (with self-loading attachment), mix mobiling or similar type, mucking machine (tunnel), multiple bowl machines, pipe driver (sonic or similar type) (when assistance required it will be an oiler or apprentice), post driver-guard rail (truck mounted), post driver-guard rail (skid type), pumpkrete - mobile or similar type, quad nine, shovels (all types), slip form paver (CMI or similar), tractors - Boom Mounted (all types), tractors (all types with hydraulic backhoe attached), tug boat, whirley

77 APR 8 UMI

CLASS 1-A - Austin-Western or similar type under 25 ton with jib, austin-western or similar type 25 ton or over with jib, cranes (boom or mast 100 ft, or over up & including 150 ft. +$.25) (truck or crawler type), cranes mobile (any type 15 ton or over placed on any bldg. structure + $.25), hoist-hod (2 cages over 10 floors) Class I rate +$.25, hoist single cage with

CLASS 1-B - Cranes (boom or mast over 150 ft. up to & including 200 ft. + $.50) (truck or crawler type), engineer lead

CLASS 1-C - Cranes (boom or mast over 200 ft. + .75)

CLASS 2- Asphalt plant operator, Athey loader; Auger - truck or tractor, mounted, back filling machine, boat material or personnel carrying (powered) boat - job work (inboard or outboard), bulldozer, cable layer, compactor with blade, compressor (1) and air tugger (1) (combination), compressor (1) and gunite machine (1) (combination), concrete belt placer, crane - overhead, crushinf & screening plants, drill - davey or similar type drill - core (truck or skid mounted), drill - well & core (truck mounted); elevator (New buildings), euclid loader, excavating equipment (all Other), forklift-lull or similar, grader, grader-elevating, greaser-equipment (head), hi-lift - less than 4 yds., hoist - one drum (4 floors or over), hoist - hod (buildings 4 floors or more), hoist - (2 drums or more in one unit), jumbo operator, locomotive, lift slab machine (hydraulic) mixer - paving, mucking machine, pipe cleaning machine, refrigeration plant (used for construction jobs that is, cooling concrete & holding banks), ross carrier (or similar type), scoop (single bowl) (self-powered & tractor drawn), spreader - concrete, asphalt and stone, tower mobile (hoisting or lowering material), trencher, well point systems, (The following machines shall be considered minor), compressors (3 within a reasonable distance); generators electric (3) (over 5 KW up to 20 KW), pumps (1½" discharge or less) (4 to 5 within reasonable distance), pumps (3) (over 1½" discharge) (within reasonable distance), welding machines (4 to 6 within reasonable distance) (other than electrically driven), grout pump (10 H. P. or over), elevator (when used for alterations & remodeling all buildings), paver operator - asphalt (spreader), pumpkrete or similar type (not self-propelled), pumpcrete machine operator (stationary), tire repairman (when assigned job), welder (repairman)

CLASS 3 - Boiler, compactor (ridden or self-propelled), compressor (over 125 CFM and air pump), compressor (1) and sand blasting machine (1), (combination), crane (carry), curb builder (self-propelled), drills-well & horizionel truck mounted, forklifts (ridden or self-propessed), hoist one drum (regradless of power used), pavement breaker (self-propelled or ridden), pipe dream, roller, saw (concrete), soil stabilizer (pump type), stone crusher, stone spreader self- propelled, tractors (when used for snaking and hauling), tube finisher (CMI or similar type), tugger, truck, (winch) truck or hydraulic boom (when hoisting & placing), (The following machines shall be considered minor) compressors (2), generators (2), mortar machine over 10 cu. ft., and single unit conveyor, pumps (1½" discharge or less (2 to 3), pumps (over 1½" discharge (2) in bank) (within reasonable distance), welding machine (2 to 3), (other than electrically driven)

CLASS 3-A - Conveyors 4 units or more

CLASS 4 - Ballast regulator, boring machine, broom, power (except push type), compressor - single (over 65 CFM), conveyor over 1 and up to 3 units (regardless of power used) form line machine, generator (over 5 KW), hoist (monorail) (regardless of power used) hoist roof (regardless of power used), huck machine or similar type, mixer concrete (regardless of power used) mixer mortar - over 10 cu. ft. (regardless of power used) pump (over 1½" discharge regardless of power used) spray cure machine (power driven) steam jenny (or similar type) syphon (steam or air) welding machine single (300 amp or over) (other than electrically driven) plant, private or industrial air of steam valve

CLASS 5 - Compressor - 65 cubic ft. or under (regardless of power used) conveyor one (1) unit (regardless of power used) heaters - up to and including 6 jack motor hydraulic (single type) power driven ladavator, mixer mortar, (10 cubic ft. or under), mulching machine, pin puller (powered) pulverizer, pump - 1½" discharge or less, seeding machine, spreader side delivery, shoulder (attachment) tie tamper (multiple heads) tractor farm (when used for landscaping) water blaster, oiler-truck crane 50 ton up to not incl. 100 ton

CLASS 6 - Brake man, deck hand, helicopter signalman, oiler, mechanic helper

CLASS 6-A Crane truck oiler & fireman

CLASS 6-B Oiler - Truck crane 50 ton up to & incl. 100 ton

CLASS 6-C Oiler - Truck crane 100 ton and over

CLASSIFICATIONS DEFINITIONS

GROUP 1: Machines doing hook work, any machine handling machinery, cable spinning machines, helicopters, machines similar to the above

GROUP 2: All types of cranes, all types of backhoes, cableways, draglines, keystones, all types of shovels, derricks, trench shovels, trenching machines, hoist with two towers, pavers 21E and over all types overhead cranes, building hoists (double drum) gradalls, mucking machines in tunnel, all front end loaders 3-½ c.y. and over, tandem scrapers, pippin type backhoes, boat Captains, batch plant operators (concrete) drills, self-contained rotary drills, fork lift, 20 ft lift and over machine to the above

CLASS 3: Conveyors, building hoists (single drum) scrapers and tournapulls, spreaders, high or low pressure boilers, concrete pumps, well drillers, bulldozers and tractors, asphalt plant engineers, roller (high grade finishing), ditch witch type trencher, all loaders under 3-½ cu. yds., mechanic-welders, motor patrols, drill helper-self contained rotary drills, core drill operator, forklift trucks under 20 ft lift, machines similar to the above

GROUP 4: Welding machines, well points, compressors, pumps, heaters, farm tractors, form line graders, fine grade machines, road finishing machines, concrete breaking machines, rollers, seaman pulverizing mixer, power broom, seeding spreader, fireman (for power equipment), machines similar to the above

GROUP 5: Fireman, grease truck

GROUP 6: Oilers and deck hands (personnel boats), core driller helper

GROUP 7: All machines with booms (including jib, masts, leads, etc.): 100 Ft and over

GROUP 7A: 150 ft. and over

GROUP 7B: 200 ft. and over

FOOTNOTE:
a. Paid Holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day, provided the employee works the day before and after the holiday.

LABORERS CLASSIFICATION DEFINITIONS

Group I - Construction laborers, concrete labor, wrecking labor mechanic's labor, excavating labor, plumber's labor, electricians labor, green cutter, blowpipe, and concrete pump hose placer.

Group II - Semi-skilled laborer; pipelayers, concrete, clay and mechanical tool, cement mixer, wet or dry finishers, and plasterers, mason tender, mortar mixers, asphalt rakers and shovelers, creosote wood handlers, chuck tender

LABORERS CLASSIFICATION DEFINITIONS (CONT'D)

Group III - Steelform setters, curb and gutters, grout and cement muckers

Group IV - Swinging scaffold, Barco, 90 lb pavement breaker, and burners

Group V - Nozzleman (gunite, Grout and sand blasterer; concrete pump (nozzle placer)

Group VI - Powderman and blasterers

Group VII - Wagon drill

POWER EQUIPMENT OPERATORS (Building Construction)

CLASSIFICATION DEFINITIONS

Group 1 - Boilers (2); boom cat, boring machine, ditching machine, concrete ready-mix plant; crane, truck crane, clamshell, dragline, dozer, scraper, all types, patrol, firemen (when operating steam or air valve); gradall, hi-loaders (over 1 yd); hoist, two; locomotive; mechanic or welder; mixer-mobile; paver, or any other machine with power swing; piledriver operator; power shovel; pump, concrete or other material

Group 2 - A-frame truck; barber greene loader or similar type; bob cat hi-loaders (1 yd. and under); boiler (1); ditching machine-small; elevator operator; firemen; fork lift; greaser, equipment;hoist, one active drum; hydra hammer; jeep ditcher; mixer, other than paver; power broom, pump, 4" or larger, small machine engineer; welding machine (1)

Group 3 - (a) Farm tractor (without attachments)
(b) Farm tractor (with attachments)

Group 4 - (a) Oiler
(b) Motor crane oiler

Group 5 - Tower cranes and derricks; franki-type piledriving machines; (4) drum hoist

Group 6 - Crane & shovels 100 ft of boom or over (including jib) or 2 yds capacity or over or 30 tons or over; (3) drum hoist

Group 7 - Crane & shovels booms 200 ft and over

Group 8 - Cranes with lifting ring

Group 9 - Master mechanic

Hoist each additional drum over two - an additional .25¢

CLASSIFICATION DEFINITIONS

POWER EQUIPMENT OPERATORS:
Group 1 - Asphalt paver & spreader, back hoe, boring machine, blades, all types, clamshell, concrete mixer paver operator, concrete central plant operator, (automatic), crane, truck crane, pitman crane hydro crane or any machine with power swing, derrick or derrick trucks, dragline operator, dredge operator, dozer, ditching machine, euclid loader, hoist-2active drums, loader, all types, mechanic or welder, mixer-mobile, multi-unit scraper, piledriver operator, power shovel operator, quad track, scoop operator, all types, side boom cat-cherry picker, skimmer scoop operator, pushcat operator
Group 2 - Asphalt plant operator, elevating grader operator
Group 3 - A-frame truck, asphalt roller operator, asphalt plant boiler fireman, backfiller operator, barber-greene loader, boiler-other than asphalt, bull float operator , churn drill operator, compressor operator (1), concrete central plant operator, concrete mixer operator skip, concrete pump operator, crusher operator, distributor operator, finish machine operator-concrete, fireman other than asphalt, flex plane operator, fork lift, form grader operator, greaser, hoist 1 drum, jeep ditching machine, pavement breaker, self-propelled (of the hydra hammer or similar type), pump operator, 4" or over, two, pump operator other than dredge, screening & wash plant operator, small machine operator spreader box operator-self-propelled tractor operator over 50 h.p.; self-propelled roller operator, other than asphalt, siphon & jets, subgrading machine operator, tank car heater operator, combination booster & boiler, towboat operator; vibrating machine operator, not hand
Group 4 - Concrete gang-saw, self-propelled (con-cut), conveyor operator harrow disc seeder, oiler, tractor operator, 50 h.p. or less without attachments
Group 5 - Oiler, motor crane
Group 6 - Master mechanic

CLASSIFICATION DEFINITIONS

TRUCK DRIVERS:
Group 1 - Pickups, panel trucks, station wagons, flat beds, dump and batch trucks (single axle)
Group 2 - Tandem trucks, warehousemen or partsmen, mechanic helpers and servicemen
Group 3 - Lowboys, semi-trailers, all transit mixer trucks (single or tandem axle), a-frame and winch trucks when used as such, euclid, and and bottom dump, tournarockers, atheys, dumptors and similar off-road equipment and mechanics on such equipment

WELDERS: Receive rates prescribed for craft performing operation to which welding is incidental.

FOOTNOTES:

a. Six paid holidays

b. Employer contributes 4% of regular hourly rate to vacation pay credit for employee who has worked in business more than 5 years. Employer contributes 2% of regular hourly rate to vacation pay credit for employee who has worked in business less than 5 years.

c. Nine paid holidays: A through F, plus Washington's Birthday, Good Friday and Christmas Eve providing employee has worked 45 full days during the 120 calendar days prior to the holiday and the regular scheduled work days immediately preceding and following the holidays.

PAID HOLIDAYS:
A-New Year's Day, B-Memorial Day, C-Independence Day, D-Labor Day, E-Thanksgiving Day, F-Christmas Day.

CLASSIFICATION DEFINITIONS

POWER EQUIPMENT OPERATORS

GROUP I - Asphalt paver and spreader; asphalt plant console operator; auto grader; backhoe; blade operator, all types; boilers - 2; booster pump on dredge; boring machine (truck or crane mounted); bulldozer operator; clamshell operator; compressor maintenance operator - 2; concrete plant operator, central mix; concrete mixer paver; crane operator; derrick or derrick trucks; ditching machine; dragline operator; dredge engineman; dredge operator; drillcat with compressor mounted on cat; drilling or boring machine, rotary, self-propelled; high loader - fork lift; hoistine engine - 2 active drums; locomotive operator, standard gauge; mechanics and welders, field or shop; maintenance operator; mucking machine; pile driver operator; pitman crane operator; pump - 2; quad-trac; scoop operator - all types; scoops in tandem; self-propelled rotary drill (leroy or equal - not air trac); shovel operator; side discharge spreader; sideboom cats; skimmer scoop operator; slip - form paver (CMI, REX, or equal); throttle man; truck crane; welding machine maintenance operator - 2

GROUP II - - A-frame truck; asphalt hot mix silo; asphalt plant fireman, drum or boiler; asphalt plant mixer operator; asphalt plant man; asphalt roller operator; backfiller operator; chip spreader; concrete batch plant, dry-power operated; concrete mixer operator, skip loader; concrete pump operator; crusher operator; elevating grader operator greaser; hoisting engine - 1 drum; latourneau rooter; multiple compactor; pavement breaker, self-propelled, of the hydra-hammer or similar type; power shield; pug mill operator; stump cutting machine; towboat operator tractor operator over 50 h.p.

GROUP III - boilers - 1; chip spreader (front man); churn drill operator; compressor maintenance operator - 1; concrete saws, self-propelled; conveyor operator; distributor operator; finishing machine operator; fireman, rig; float operator; form grader operator; pump; pump maintenance operator, other than dredge; roller operator, other thanhightype asphalt; screening and washing plant operator; self-propelled street broom or sweeper; siphons and jets; sub-grading machine operator; tank car heater operator - combination boiler and booster; tractor, 50 h.p. or less, without attachments; vibrating machine operator, not hand; welding machine maintenance operator -1

GROUP IV - Mechanic's helpers; oilers

GROUP V - Oiler driver, all types

GROUP VI - Clamshells, 3 yds. capacity or over; crane or rigs, 80 ft. of boom or over (including jib); draglines, 3 yds. capacity or over; piledrivers, 80 ft. of boom or over (including jib); shovels, 3 yds. capacity or over

GROUP VII - Cranes or rigs, over 200 ft. of boom (including jib)

GROUP VIII - Hoists (each additional drum over 1 drum)

Men working in tunnels or shafts (not air shafts or coffer dams) of twenty-five (25) ft of more in length or depth will be paid fifty cents (50¢) per hour above the regular classification.

Group 5	9.10	.50	.50	.75	.10

DECISION NO. MO77-4076 Page 4

CLASSIFICATION DEFINITIONS

LABORERS:

Group 1 - Carpenter tenders; Slamander tenders; Dump man and ticket takers on stock piles; Flagmen; Loading trucks under bins, hoppers and conveyors; Track men and all other general laborers

Group 2 - Air tool operators; Cement handler (bulk or sack); Chain or concrete saw; Deck hands; Dump man on earth fill; Grade checkers on cuts and fills; Georgia buggies man; Material batch hopper man; Scale man; Material mixer man (except on manholes, coffer dams, abutments and pier hole men working below ground); Riprap pavers rock, block or brick; Signalman; Scaffolds over 10 ft. not self-supported from ground up; Skipman on concrete paving; Vibrator man; Wire mesh setters on concrete paving; All work in connection with sewer, water, gas, gasoline, oil, drainage pipe, conduit pipe, tile and duct lines and all other pipe lines; Power tool operator; All work in connection with hydraulic or general dredging operations; Form setter helpers; Puddlers (paving only)

Group 3 - Crusher feeder; Men handling creosote ties or creosote materials; Men working with and handling epoxy material or materials (where special protection is required); Head pipe layer on sewer work; Topper of standing trees; Batter board man on pipe and ditch work; Feeder man on wood pulverizers; Board and willow mat weavers and cable tiers on river work; All laborers working on underground tunnels where compressed air is not used

Group 4 - Spreader or screed man on asphalt machine; Asphalt rakers; Laser beam man; Barco tamper; Jackson or any other similar tamp; Wagon driller; Churn drills; Air track Drills and all other similar drills; Form setters; gutters and etc.; Hot mastic kettleman; Hot tar applicator; Hand blade operators; Manhole builders helpers and mortar men on brick or block manholes; Sandblasting and gunnite nozzle men; Rubbing concrete; Air tool operator in tunnels

Group 5 - Manhole builder (brick or block); Dynamite and powder men

DECISION NO. NM 77-4074 Page 2

BRICKLAYERS' ZONE DEFINITIONS

Zone I - Union, Harding, Santa Fe, Valencia, Torrence, Taos, Scorro, Mora, McKinley, Colfax, Catron, San Miguel, San Juan, Sandoval, Rio Arriba, Bernalillo and Los Alamos Counties.

From basing point of Albuquerque Main Post Office:
Zone I-A - 0 to 25 road miles
Zone I-B - 25 to 50 road miles
Zone I-C - Over 50 road miles

ZONE II - Curry, Roosevelt Counties

ZONE III - DeBaca, Guadalupe and Quay Counties

ZONE IV - Chaves County

ZONE V - Lincoln County

ZONE VI - Lee and Eddy Counties

ZONE VII - Otero County

ZONE VIII - Luna County

ZONE IX - Grant County Communities of Silver City, Bayard, Central, Hurley, and New town site of Tyrone; Hidalgo and Sierra Counties.

ZONE X - Grant County, except communities listed in Zone IX.

ZONE XI - Dona Ana County

ELECTRICIANS-CABLE SPLICERS ZONE DEFINITIONS

ZONE I
- AREA 1 - Bernalillo, Santa Fe, Torrance, DeBaca, Guadalupe, Quay, San Miguel, Mora, Harding, Union, Colfax, Taos Rio Arriba, Grant, Sandoval; Valencia, Socorro, Catron, McKinley, Sierra and all of San Juan County excluding the Navajo Indian Reservation.
- AREA 2 - Chaves, Curry, Lincoln and Roosevelt Counties

AREAS 1-A & 2-A

From nearest basing point cities, towns and mileage from main post office in the following towns:
- Albuquerque - 15 miles from main post office
- Santa Fe - 15 miles from main post office
- Las Vegas - 8 miles from main post office
- Farmington - 8 miles from main post office
- Raton - 6 miles from main post office
- Tucumari - 6 miles from main post office
- Aztec - 6 miles from main post office
- Roswell - 12 miles from main post office
- Ruidoso - 12 miles from main post office
- Portales - 12 miles from main post office
- Carrizozo - 12 miles from main post office
- Clovis - 12 miles from main post office
- Gallup - 10 miles from main post office
- *Pojoaque - 2 miles from main post office

*All areas adjacent to Pojoaque that are over two (2) miles distant from the main post office in that town will be zoned out of Santa Fe.

AREAS 1-B & 2-B
- Area 1-B and 2-B extending up to 20 miles beyond Area 1-A & 2-A

AREAS 1-C & 2-C
- Area 1-C & 2-C extending up to 30 miles from Area 1-A & 2-A

AREAS 1-D & 2-D
- Area 1-D & 2-D anything beyond 30 miles from Area 1-A & 2-A

ZONE II - Los Alamos County

ZONE III - Dona Ana, Otero, Luna, Hidalgo Counties
- Zone 3-A - Within 10 miles radius from the post office in Las Cruces and within a 5 mile radius from the Post Office in Alamogordo.
- Zone 3-B - Dona Ana, Otero, Luna, and Hidalgo Counties (except that area specified in Zone 3-A)

ZONE IV - Eddy and Lea Counties - the following zones shall be designated from the main post office of Artessia, Carlsbad, Hobbs and Lovington:
- Zone 4-A - 0 - 12 miles from main post office
- Zone 4-B - 12 to 22 miles from main post office
- Zone 4-C - 22 to 40 miles beyond main post office
- Zone 4-D - 40 miles and beyond main post office

ZONE V - Single or mutiple, family dwelling or apartments up to and including 26 units under one roof not exceeding two stories - Bernalillo, Santa Fe, Taos, Rio Arriba, Sandoval, Valencia and San Juan Counties, but not on the Navajo Indian Reservation

POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITIONS (BUILDING & RESIDENTIAL)

GROUP I
Fireman, oiler, screedman, scale operator such as (Bin-A-Batch), rubber tired farm type tractor, tractors under 50 HP w/o attachments, breakman, concrete paving curing machine (bridge-type), helpers; mechanic, welder grease truck.

GROUP II
Roller, sheepsfoot or pneumatic self propelled w/o dozer, concrete conveyor, service truck operator (head oiler), air compressor (300 CFM and over), pumps (6" and over), screening plants, concrete mixers (under 1 CY), concrete saw or grinder-span type, 1 drum hoists, air tugger, elevating belt type loaders, forklift, lumber stacker, tractor-farm type (under 50 HP w/attachments), motorman and industrial locomotive operator, winch trucks, front end loader (under 2 CY), power plants which generate over 15 KW, welding machines

GROUP III
Bituminous distributors, boilers, retort and hot oil heaters, concrete mixers (1 CY and over), concrete paver-single drum, drilling equipment, motor graders (rough), shaft and tunnel equipment; (refrigeration, slusher, jumbo form), trenching machines (all types), pump crete and gunite machines, slipform paver, mechanical bullfloats, concrete slab spreading machine, concrete slab finishing machines, crushing plants.

GROUP IV
Front end loader (2 thru 10 CY), rollers, steel wheeled-all types, bulldozers, scrapers, (motor or towed), elevating graders, concrete batching plants, self propelled rollers equipped with dozer. Twin bowl scrapers and quad 8 or 9 pushers (35¢ over basic rate). Three bowl scrapers (60¢ over basic rate). Tractor (farm type w/hydraulic backhoes).

GROUP V
Hydraulic cranes with less than 50 feet of boom (20 tons and under). Concrete paver double drum. 2 drum hoist, auto fine grader, cat cranes, hysters, side and swingboom cats.

GROUP VI
Mucking machines, all types; motor grader, finish; mechanic, welder

GROUP VII
Steam engineers; loader (front end over 10 CY); concrete pump (snorkel type)

GROUP VIII
All shovel type equipment; cranes, draglines, backhoes, derricks, guy and stiff leg; pipemobile (No. 2 op.), pile driver, hydraulic cranes (20 tons and over), mine hoist, belt loader ("C.M.I." type), cranes & draglines, with booms and jib over 150 feet - 25¢ per hour additional.

GROUP IX
Shovel (wheel type), boring machine (tunnel or shaft mole), pipemobile

POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITIONS (HEAVY ENGINEERING CONST.)

GROUP I
Fireman, oiler, screedman, scale operator such as (bin-a-batch), rubber tired farm type tractor, tractors under 50 HP w/o attachments, breakman, concrete paving curing machine (bridge-type), helpers; (mechanic, welder); grease truck

GROUP II
Rollers, sheepsfoot or pneumatic self propelled w/o dozer, concrete conveyor, service truck operator (head oiler), air compressor (300 CFM and over), pumps, (6" and over), screening plants, concrete mixers (under 1 CY), concrete saw or grinder-span type, 1 drum hoist, air tugger, elevating belt type loaders, forklift, lumber stacker, tractor-farm type (under 50 HP w/attachment), motorman and industrial locomotive operator, winch truck front end loader (under 2 CY), power plants which generate over 15 KW, welding machines

GROUP III
Bituminous distributors, boilers, retort and hot oil heaters, concrete mixers (1 CY and over), concrete paver-single drum, drilling equipment, motor graders (rough), shaft and tunnel equipment, refrigeration, slusher, jumbo forms, trenching machines, (all types), pump crete and gunite machines, slipform paver, mechanical bullfloats, concrete slab spreading machine, concrete slab finishing machine, asphalt plants, bituminous finishing machines, crushing plants

GROUP IV
Front end loader (2 thru 7 CY), rollers steel wheeled (all types), bulldozers, scrapers, (motor or towed), elevating graders, concrete batching plants, self-propelled rollers, equipped with dozer, twin-bowl scrapers and quad 8 or 9 pushers (35¢ over basic rate), three bowl scrapers (60¢ over basic rate).

GROUP V
Front end loader (over 7 CY thru 10 CY), hydraulic cranes, with less than 50 feet of boom (20 tons and under), concrete paver, double drum, cat cranes, hysters, side and swingboom cats, 2 drum hoist, auto fine grader.

GROUP VI
Mucking machines,alltypes,motor grader (finish), mechanic, welder

GROUP VII
Steam engineers, loader (front end over 10 CY)

GROUP VIII
All shovel type equipment; cranes, draglines, backhoes, derricks, guy and stiff leg,pipemobile (NO. 2 operator), piledriver,hydraulic cranes (20 tons and over), mine hoist, belt loader ("C.M.I." Type)

GROUP IX
Shovel (wheel type), boring machine (tunnel or shaft mole), pipe mobile

TRUCK DRIVERS CLASSIFICATION DEFINITIONS (BUILDING, RESIDENTIAL AND HEAVY ENGINEERING CONSTRUCTION.

GROUP I
Pickup 3/4 ton and under, service station, including lubrication, light tire repair and washer, swamper or riding helper, 2 or up

GROUP II
Bus or taxi driver, dump or batch truck under 8 C.W.L.C.; flat bed (bobtail) 2 ton and under; mechanic and welder helper; fork lift under 5 ton MRC.

GROUP III
Dump trucks (including all highway and off highway) 8 up to 16 C.Y.W.L.C.; water, fuel or oil trucks less than 3,000 gal., flat bed (bobtail) over 2 tons

GROUP IV
Distributor driver; heavy tire repairman; lumber carrier driver; young buggy or similar equipment, transit mix or agitator 2 or 3 axle bobtail equipment; asiasor truck; bulk cement bobtail 2 or 3 axles; semi-trailer driver (flat-bed or van single axle); forklifts 5 ton and over MRC; field equipment servicemen.

GROUP V
Dumpster and dumpcrete driver; water, fuel or oil truck, 3,000 to 6,000 gal; lowboys and light equipment driver; euclid type tank wagon under 6,000 gal.

GROUP VI
Vacuum truck; dump trucks (including all highway and off-highway 16 up to 22 C.Y.W.L.C.

GROUP VII
Transit mix or agitator semi or 4 axle equipment driver; flaherty truck type spreader box driver; slurry truck driver; bulk cement driver; semi-doubles; 4 axle bobtail; winch truck and "A" frame; dump trucks (including all highway and off-highway) 22 CY up to 35 C.Y.W.L.C.; head field equipment servicemen.

GROUP VIII
Euclid diesel power turnarocker; terra coba-DW10--DW20--LeTourneau Pulls and similar diesel powered equipment when used to haul materials and assigned to a teamster--lowboy heavy equipment driver; water, fuel or oil trucks 6,000 gal. and over including tank wagon drivers, semi-trailer driver (flat-bed or van tandems); light equipment mechanic; dump trucks (including all highway and off-highway) 35 C.Y.W.L.C. and over; truck and trailer or semi-trailer (flatbed); eject all

GROUP IX
Warehousemen including material checker; cardex man; lowboy (heavy equipment double gooseneck); heavy equipment mechanic; welder (body and fender men)

TEAMSTERS classifications not listed shall be paid a rate comparable to classifications listed.

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

FOOTNOTES:
a - Includes $0.07 contribution to the Occupational Health Fund.
b - 1st 6 months - none; 6 months to 5 years, 2%; over 5 years, 4% of basic hourly rate.
c - Paid Holidays; A through F

PAID HOLIDAYS:
A- New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

CLASSIFICATIONS DEFINITIONS

GROUP 1: Machines doing hook work, any machine handling machinery, cable spinning machines, helicopters, machines similar to the above

GROUP 2: All types of cranes, all types of backhoes, cableways, draglines, keystones, all types of shovels, derricks, trench shovels, trenching machines, hoist with two towers, pavers 21E and over all types overhead cranes, building hoists (double drum) gradalls, mucking machines in tunnel, all front end loaders 3-½ c.y. and over, tandem scrapers, pippin type backhoes, boat Captains, batch plant operators (concrete) drills, self-contained rotary drills, fork lift, 20 ft lift and over machine to the above

CLASS 3: Conveyors, building hoists (single drum) scrapers and tournapulls, spreaders, high or low pressure boilers, concrete pumps, well drillers, bulldozers and tractors, asphalt plant engineers, roller (high grade finishing), ditch witch type trencher, all loaders under 3-½ cu. yds., mechanic-welders, motor patrols, drill helper-self contained rotary drills, core drill operator, forklift trucks under 20 ft lift, machines similar to the above

GROUP 4: Welding machines, well points, compressors, pumps, heaters, farm tractors, form line graders, fine grade machines, road finishing machines, concrete breaking machines, rollers, seaman pulverizing mixer, power broom, seeding spreader, tireman (for power equipment), machines similar to the above

GROUP 5: Fireman, grease truck

GROUP 6: Oilers and deck hands (personnel boats), core driller helper

GROUP 7: All machines with booms (including jib, masts, leads, etc.): 100 Ft and over

GROUP 7A: 150 ft. and over

GROUP 7B: 200 ft. and over

FOOTNOTE:
a. Paid Holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day, provided the employee works the day before and after the holiday.

Title 16—Commercial Practices

CHAPTER II—CONSUMER PRODUCT SAFETY COMMISSION

PART 1500—HAZARDOUS SUBSTANCES AND ARTICLES; ADMINISTRATION AND ENFORCEMENT REGULATIONS

Children's Wearing Apparel Containing TRIS; Interpretation as Banned Hazardous Substance

AGENCY: Consumer Product Safety Commission.

ACTION: Interpretation of a statutory provision.

SUMMARY: The Commission is notifying the public that children's clothing containing the chemical flame-retardant TRIS is banned from commerce. According to the applicable statutory provisions, such clothing is banned by definition because it is intended for use by children and could cause substantial illness because of its toxicity.

Tests have established that TRIS causes cancer in animals, and can enter the bodies of children by being absorbed through the skin. This absorption occurs when children wear TRIS-treated clothing. Children also ingest TRIS by "mouthing" the clothing.

Since washing removes much of the available TRIS, children's clothing containing TRIS that is already in the hands of consumers, unless unwashed, is not banned. However, children's clothing containing TRIS that is in commerce on April 8, 1977, or is introduced into commerce after that date is banned and must be repurchased by any manufacturers or others who sold it.

DATES: The interpretation is effective on April 8, 1977.

FOR FURTHER INFORMATION CONTACT:

Francine Shacter, Office of Standards Coordination and Appraisal, Consumer Product Safety Commission, Washington, D.C. 20207. (202–492–6470).

ADDRESS: All of the documents, studies, and other materials that are discussed in the preamble and listed under References are available from the Office of the Secretary, 1111 18th Street NW., Washington, D.C. 20207. (202–634–7700).

SUPPLEMENTAL INFORMATION:

Background

In March 1976 the Environmental Defense Fund (EDF), a health-oriented public interest organization, petitioned the Commission to require cautionary labeling for wearing apparel containing the chemical flame-retardant TRIS (2,3-dibromopropyl) phosphate, hereafter "TRIS," in surface concentrations in excess of 100 parts per million (ppm). This petition (HP 76–10) was based on data that showed that TRIS was capable of inducing mutations in Salmonella typhimurium when tested in both the presence and absence of metabolic activating systems (1,2,3)[1] The petition asserted at page 10 that this test has been shown to be a "highly reliable predictor" of carcinogenicity.

[1] The documents cited by parenthetical numbers correspond to the documents listed in the section on References, below.

The Commission conducted a search of the existing literature in April 1976, and initiated a biological testing program in its own laboratories in June 1976 to evaluate the scientific issues raised in the petition. In addition, the Commission asked the National Cancer Institute (NCI) to expedite its rat and mouse carcinogenicity feeding studies involving TRIS that were already underway (4). The NCI agreed to provide the Commission with preliminary results from these studies as they became available (5).

On February 4, 1977 the Commission obtained the preliminary NCI test data (6). Within two weeks, the Commission's Bureau of Biomedical Science (BBS) provided a statistical analysis of the NCI rat and mouse bioassay study. (7).

Based on its analysis of the same NCI preliminary test results, EDF petitioned the Commission on February 8, 1977 (HP 77–8) to ban the sale of wearing apparel containing TRIS (8). The Commission's technical staff met with Dr. Robert Harris, Dr. Joseph Highland, and Mr. Robert Rauch of EDF on February 18 to discuss this petition.

On March 2, the Commission met with Dr. Marvin Schneiderman, an Associate Director of the National Cancer Institute, and on March 8 the Commission met with the same EDF representatives that had met with the staff. All of these meetings were open to the public and transcripts are available (9, 10, 11).

Ms. Joanne Siegel and Dr. Reuben Epstein also petitioned the Commission, on February 1, 1977, to address the risk presented by wearing apparel containing TRIS (12). This petition (FP 77–1) requests the Commission to amend or revoke its flammability standard for children's sleepwear sizes 0–6X (16 CFR Part 1615), issued under the Flammable Fabrics Act, which has encouraged the use by manufacturers of TRIS as a flame retardant (although this standard imposes performance requirements concerning flame resistance, it neither prohibits nor requires the use of TRIS or any other chemical flame retardant).

On March 16, 1977 an updated draft of the TRIS bioassay results was released by NCI for the March 25 meetings of the Data Evaluation and Risk Assessment Subgroups of the Clearinghouse on Environmental Carcinogens (13). These two subgroups act as statutory advisory groups to the NCI's Division of Cancer Cause and Prevention. At its March 25 meeting, the Data Evaluation Subgroup reviewed and approved the NCI bioassay results for TRIS (14).

Early in April 1977, the Commission completed its final report (15) on its subchronic dermal and oral ingestion studies along with radioactive "C-TRIS tracer studies and human lifetime risk estimates of cancer in the human population. These will be discussed in more detail in the section of Hazard, below.

Hazard

A. CARCINOGENICITY

The Commission has carefully reviewed the preliminary data from the National Cancer Institute on the carcinogenicity of TRIS (6). Under the NCI testing program, begun early in 1974, rats and mice were fed TRIS daily at two dose levels. Weanling animals of both sexes were placed on diets containing 50 (low dose) or 100 (high dose) ppm TRIS in the case of rats; 500 (low dose) or 1,000 (high dose) ppm TRIS in the case of mice; or no TRIS (control animals). After two years the surviving animals were sacrificed and examined for pathological changes.

The test mice that were fed TRIS developed tumors in the liver, the kidney, the lung and the stomach and the test rats developed tumors in the kidneys (preliminary Table II in (6)). These test data establish TRIS as an animal carcinogen in two species and at multiple sites.

The Commission has no conclusive data that establish that TRIS has caused cancer in humans. Since cancers develop over many years and cannot be easily linked to particular causes, this is not unexpected. The Commission's Office of the Medical Director (OMD) believes that once a substance is established as an animal carcinogen it can never be assured as a safe substance for human exposure (16). In addition, OMD believes that all known human carcinogens have been shown to be carcinogenic in laboratory animals (16, 17).

Dr. Marvin Schneiderman of NCI has told the Commission that he knows of no chemicals that provide a high risk to animals but no risk to humans (pp. 43–44 of (10)). The February 1977 EDF petition asserts that TRIS is as potent or more potent in animals than a number of known human carcinogens (pp. 13–13a of (8)). Research Associate N. Kim Hooper and Professor Bruce N. Ames of the University of California, Berkeley's Department of Biochemistry, have stated in a March 21, 1977 letter to Chairman Byington (18) that TRIS is a more potent carcinogen than the human carcinogen benzidine or β-naphthylamine (p. 3 of (18)).

In a June 2, 1976 report, (19), the National Cancer Advisory Board states "A major source of data on carcinogenicity comes from bioassays in experimental animals. Experience has indicated that, with one or two possible exceptions, compounds that are carcinogenic in humans are also carcinogenic in one or more experimental animal bioassay systems. In addition, several compounds first detected as carcinogens in experimental animals were later found to cause human cancer. Demonstration that a compound is carcinogenic in animals should, therefore, be considered evidence that it is likely to be carcinogenic in humans, unless there is strong evidence in humans to the contrary." (See also p. 11 of (8).)

B. MUTAGENICITY

The Commission has received several reports on the mutagenic potential of TRIS. Hooper and Ames (pp. 1 and 3 of (18)) focus on bacterial systems utilizing various grades of TRIS and TRIS-treated cloth. They also point out that TRIS is a potent mutagen in Drosophila, causing large numbers of recessive lethal mutations in offspring. Moreover, they assert that TRIS is capable of causing damage to DNA synthesis in human cells in tissue culture.

The general assertion of Hooper and Ames is that TRIS is mutagenic and "likely to cause genetic birth defects in the offspring of children exposed to it" (p. 1 of (18)). They base this conclusion on their belief that TRIS can be absorbed through the scrotum and could effect spermatogenesis.

Dr. M. Prival, in an article entitled, "Tris (2,3-Dibromopropyl) Phosphate: Mutagenicity of a Widely Used Flame Retardant" (20), has found TRIS to be mutagenic in histidine-requiring strains of Salmonella typhimurium (although he does not believe his results conclusively demonstrate that TRIS is a carcinogen).

It must be noted that the BBS analysis of bone marrow chromosomes obtained from rats which received either a single or multiple daily oral dose of TRIS five days per week for 13 weeks did not demonstrate any chromosome aberrations (15).

C. EXPOSURE

TRIS is incorporated into some wearing apparel in at least two ways, according to information obtained by the Commission's Bureau of Engineering Sciences (21). Certain wearing apparel is manufactured from fabric knitted or woven from fibers that contain TRIS. Other apparel is manufactured from fabric that has been topically treated with TRIS. In both cases, some TRIS that is not tightly bound or contained within the fibers can be removed from the garment by the sucking, or "mouthing," of an infant on the sleeve or other portion of the garment. The TRIS that infants can ingest in this manner is a source of exposure of infants to TRIS. Another source of exposure is absorption through the skin.

The Commission has reviewed various estimates of the amount of TRIS to which a child may be exposed. These estimates come from a March 16, 1977, report prepared by the Bureau of Biomedical Science (22); from a March 8, 1977 report by Robert H. Harris, Ph. D., of EDF, entitled Estimating the Cancer Hazard to Children From Tris-treated Sleepwear (23); and from the March 21 Hooper and Ames letter (18). The general assumptions underlying all of these estimates are (a) that a child mouths the garment and ingests available TRIS; (b) that there is absorption through the skin; and (c) that the child wears numerous garments over a period of time containing various amounts of available TRIS.

(1) *Bureau of Biomedical Science.* BBS has prepared a range of estimates on the amount of TRIS to which a child could be exposed over a 6-year period, both from skin absorption and from mouthing. Their estimates of total TRIS absorbed ranged from 2.5 to 77.4 mg/kg, depending upon the body area exposed to TRIS-treated garments.

In the Commission's subchronic toxicity and dermal penetration studies, the groups of rats which received daily doses of TRIS by the oral route (25 mg/kg and 250 mg/kg) demonstrated renal nephrosis following a 13 week period. The weekly dermal application of 1 ml/kg of undiluted TRIS to clipped rabbits produced renal nephrosis and testicular atrophy also at the end of a 13 week period. This data correlates well with NCI's finding of renal carcinoma in rats and mice at a 2-year period.

The degree of penetration of TRIS in rabbit and rat of both sexes was determined following dermal application of ^{14}C-TRIS at 0.9 ml/kg and at 0.05 ml/kg. Radiolabeled TRIS from TRIS-treated cloth was also shown to penetrate the skins of rabbits. Penetration was enhanced by the presence of urine on the cloth. The kidney was found to be the organ of highest specific radioactivity in all cases. Most of the absorbed radiolabeled TRIS was excreted in the urine (for more detail see (15)).

(2) *Environmental Defense Fund.* EDF estimates of the total lifetime exposure for a child range between .085 mg/kg to 85 mg/kg (p. 15 of (23)) and are based primarily upon dermal absorption for a 10 or 20 kg child exposed to one, ten or 20 pairs of TRIS treated sleepwear.

(3) *Hooper and Ames.* Based on one year of exposure of a 7 kg child, Ames and Hooper estimate that the exposure due to dermal absorption would be 70 mg/kg/year and the dose a child receives by sucking is estimated as one percent of that obtained through skin absorption (18).

D. RISK ASSESSMENT

The Commission has considered risk assessments that are based on the estimates of exposure cited in Section C, above. The methods used to prepare the estimates are described in a March 1977 paper entitled, Estimates of Human Lifetime Carcinogenic Risk From Exposure to TRIS, prepared by Drs. Charles Brown, Marvin Schneiderman, and Kenneth Chu of the National Cancer Institute (24). The statistical extrapolations are based on the use of two mathematical models: The single-hit model (linear no threshold) and the log-probit model (Mantel-Bryan). The use of these mathematical models and the extrapolations from animals to man rest on the following assumptions: (a) the animal dose can be converted to an "equivalent" human exposure level; (b) mouse and man, and rat and man, have equal sensitivities to TRIS; (c) infants and children are no more, or less, sensitive to TRIS than are adults; and (d) the dose given to an animal during its entire life can be converted to an equivalent daily dose during a specific period of time which is less than a lifetime.

(1) *Bureau of Biomedical Science.* BBS has projected cancer incidence rates based on its exposure estimates and on data from the NCI study. These projected rates show the kidney to be the primary target organ. The best estimates of BBS (25) is approximately 300 kidney cancers per million male population. For females the projected rate is about one-fifth that of males.

Based on the single hit model the BBS estimates for lifetime risk of cancer of the kidney is between 60 and 1,800 cases per million male population. For the log probit model the estimates range from 25 to 5,100 cases per million males. All of these estimates are lifetime risk or lifetime incidence estimates.

(2) *Environmental Defense Fund.* EDF also provided its estimates on human exposure to NCI which used the same models, and these data provided estimates of a lifetime incidence of cancer of as high as 6,000 per million male population, based on maximum exposure, the rat kidney and the log probit model.

(3) *Hooper and Ames.* Hooper and Ames estimate that for one year of exposure, 1.7 percent of the children would develop cancer (17,000 cases/million). An exposure throughout childhood would give a higher risk (p. 8 of (18)).

E. EFFECT OF WASHING

There is evidence both from the March 1976 EDF petition (1) and from reports of the Commission's Bureau of Engineering Sciences (21) that the amount of TRIS that can be easily removed from a garment is appreciably reduced by repeated washings. The March 1976 petition states at page 5 that "* * * most of the surface TRIS could be washed out of the fabrics, which implies that laundering in use will reduce exposure to TRIS. For example, two samples of different polyester fabric had 70,000 ppm and 37,500 ppm of surface TRIS before, and 35 ppm and 100 ppm of surface TRIS after washing, respectively. It would appear from these studies that during the first three washings of polyester fabrics, surface TRIS can be reduced by greater than 95%, while the total amount in the fabric will be reduced by only about 12%." (The fabric containing 70,000 ppm had been specifically treated for test purposes and has not been commercially marketed.)

According to the BBS review of literature data, acetate fabrics contain 65–600 ppm "surface TRIS"[2] (more uniform and lower concentrations than polyester) and polyester fabrics contain 260–37,500 ppm surface TRIS. Although BES stresses the limited reliability of these figures, estimates from the studies show that washing removes up to 85 percent of surface concentration in acetate fabrics and from 21 to 82 percent in polyester fabrics.

F. EFFECT ON FLAMMABILITY INJURIES

Much of the use of TRIS in wearing apparel is to meet the Commission's flammability standards for children's sleepwear (16 CFR Parts 1615 and 1616). The Commission's Bureau of Epidemiology (BEP) believes, based on an analysis of injury information and on an article on children treated by physicians,

[2] The term "surface TRIS" is merely one of convenience. Whether or not the easily removable TRIS is literally on the surface of the fibers is unknown. The more fundamental distinction would appear to be between that amount of TRIS that is loosely bound to fibers and that which is more tightly bound, wherever it may be.

V42168 APR 8 77 UMI

that children who are burned while wearing flame-resistant sleepwear tend to sustain less extensive burns than children who are burned while wearing non-flame-resistant sleepwear (26). Data indicate that the number of deaths to children ages 1–4 due to clothing ignition decreased following the effective date of the standard for children's sleepwear in sizes 0–6X.

Because the Commission's flammability standards for children's sleepwear are performance standards, the Commission assumes that manufacturers can and will comply with the standard without using TRIS or any other chemical which presents a hazard to the consumer. There are fabrics which meet the standard without using any chemical flame retardants (27).

Marketing Factors

Garments treated with TRIS are made of either 100 percent polyester or acetate and triacetate blends. There is no certain way to distinguish among 100 percent polyester fabrics that are untreated, treated with TRIS, or treated with another flame retardant. The Commission understands, however, that all acetate and triacetate fibers used in children's sleepwear fabrics contain TRIS.

The Commission has found that flame resistant garments currently on the market are: (a) children's sleepwear, sizes 0–14, for which the flame resistant requirement is mandatory, and (b) those which resulted from voluntary programs undertaken by a few major retailers. The Commission believes that there is no significant inventory of flame-resistant garments resulting from voluntary program at this time (p. 4 of (27)).

The Commission's Bureau of Economic Analysis (BEA), in a March 21, 1977 report (28) has estimated that 18 million garments, over one-third of the spring 1977 production of children's sleepwear, contain TRIS. If inventories are taken into account, the portion of TRIS-treated merchandise would be over 40% of all children's sleepwear in the retail pipeline, or about 20 million garments. About 10–20 percent of this has already been sold to consumers. In addition, BEA has estimated that about 7 million square yards of TRIS-treated fabric is in inventory with fabric and garment producers.

BEA believes that a small number of national retail chain outlets and very large discount stores account for more than 55 percent of children's sleepwear sales, while department stores account for 20 percent, and specialty and variety stores account for less than 10 percent of annual sales.

Environmental Impact

The Commission has considered the potential enviromnental impacts of its interpretation that TRIS-treated wearing apparel is a banned hazardous substance. A preliminary environmental assessment is available (29) and a final assessment will be available as soon as possible. The Commission has investigated anticipated impacts relating to chemical flame-retardants that will be used as substitutes for TRIS, relating to substitute end-use products, and relating to the disposal of garments, fabrics, fibers, or yarns treated with TRIS, as well as the anticipated economic impacts.

Based on the information that is available thus far, it appears that there will be no significant effect on the human environment resulting for disposal of TRIS-treated garments, fabrics, fibers, or yarns. While more information is needed on the potential impacts from the use of substitute chemical flame-retardants and substitute end-use products, the Commission knows of no significant effects in this area at this time.

Because of the emergency circumstances of the ban on TRIS-treated children's wearing apparel, the Commission has been in contact with the Council on Environmental Quality (CEQ) concerning alternative arrangements for complying with the CEQ guidelines on the National Environmental Policy Act (30). As of this date, the Commission's staff has received oral CEQ concurrence with this approach.

Statutory Findings

Section 2(f)(1)(A) of the Federal Hazardous Substances Act (15 U.S.C. 1261 (f)(1)(A)) defines "hazardous substance" as "any substance or mixture of substances which is toxic • • • if such substance or mixture of substances may cause substantial personal injury or substantial illness during or as a proximate result of any customary or reasonably foreseeable handling or use, including reasonably foreseeable ingestion by children." Section 2(g) of the FHSA (15 U.S.C. 1261(g)) states that "[t]he term 'toxic' shall apply to any substance • • • which has the capacity to produce personal injury or illness to man through ingestion, inhalation, or absorption through any body surface."

Section 2(q)(1)(A) of the FHSA (15 U.S.C. 1261(q)(1)(A)) defines "banned hazardous substance" as "any toy, or other article intended for use by children, which is a hazardous substance, or which bears or contains a hazardous substance in such manner as to be susceptible of access by a child to whom such toy or other article is entrusted." If a product is a banned hazardous substance, it is prohibited from interstate commerce by section 4 of the FHSA (15 U.S.C. 1263). Seizures of banned hazardous substances in interstate commerce are authorized by section 6 of the FHSA (15 U.S.C. 1265). Sections 5 and 8 (15 U.S.C. 1264 and 1267) authorize the Commission to seek injunctions or criminal penalties against persons who violate the prohibitions listed in section 4 of the FHSA.

Section 15 of the FHSA (15 U.S.C. 1274) requires the automatic repurchase of banned hazardous substances. Manufacturers (including importers for resale) must repurchase from their purchasers. Distributors must repurchase from their purchasers. Dealers who sold at retail must repurchase from any person who returns the items to them. In every case, a refund of the purchase price must be made in addition to the payment of certain expenses incurred in returning the item(s). However, a recently-issued Commission regulation permits replacement or repair of banned items instead of repurchase, at the option of the owner (16 CFR 1500.203). The Commission's other regulation concerning FHSA repurchase requires that retailers place signs in their establishments informing customers of the repurchase (see 16 CFR 1500.202).

The Commission finds that children's wearing apparel containing TRIS that is currently in interstate commerce or will be introduced into interstate commerce in the future is a banned hazardous substance according to these applicable provisions of the FHSA. In addition, any children's wearing apparel containing TRIS that has not been washed, even if it has already been sold, is also banned as hazardous. Such wearing apparel is toxic and presents a substantial risk of cancer as a result of its foreseeable absorption through the skin and ingestion by mouthing. It is also of course intended for use by children.

The Commission believes that children's wearing apparel containing TRIS that is already in the hands of consumers and has been washed does not present a substantial risk of personal injury or illness. After children's wearing apparel containing TRIS is bought, worn, and washed, the risk decreases. As noted above, a few washings remove as much as 95 percent of the TRIS that can be absorbed or ingested. In addition it would be relatively easy for consumers to be sure that their children's apparel is washed a few times before it is worn. In fact, the Commission assumes that most of the apparel that consumers now own has already been washed one or more times.

The Commission believes that the available test data and analyses support a withdrawal of TRIS-treated children's wearing apparel from commerce but not a recall of such apparel that has already been sold to consumers and washed by them. Children's wearing apparel containing TRIS that is in interstate commerce on April 8, 1977 or that is introduced into interstate commerce after that date is banned. Such unwashed, brand-new apparel presents a substantial risk and the Commission's interpretation prohibits the sale of such apparel to consumers.

In addition, the Commission believes that uncut fabric containing TRIS sold at retail, if consumers make it into wearing apparel, presents the same risk of illness as wearing apparel containing TRIS that is sold at retail. The scope of this interpretation accordingly includes such uncut fabric.

The Commission also believes that wearing apparel that is merely sewn with thread containing TRIS does not present a substantial risk of illness. The scope of the interpretation thus includes only wearing apparel made from fabric containing TRIS.

The Administrative Procedure Act imposes requirements on agencies for notice of proposed rulemaking, opportunity for public participation, and a delayed effective date (5 U.S.C. 553). However, these requirements are not applicable to interpretive rules or general statements of policy and are therefore not applicable to the interpretation announced in this document. Even if the rules were to be considered general rulemaking, the Commission for good cause finds that notice and public comment and a delayed effective date are contrary to the public interest because the statutory intent and structure of the FHSA is that children's articles that present a substantial risk of illness based on their toxicity must be banned without any delay. As the legislative history states, "[t]oys or other articles intended for use by children which bear or contain a hazardous substance are banned by the language of the bill itself • • •." (Senate Report No. 1551, 89th Cong., 2d Sess., page 2).

Commission Action on Petitions

The Commission has interpreted the section 2(g)(1)(A) banning provision of the FHSA to apply to children's wearing apparel containing TRIS. Although this is not a rulemaking action, it provides a remedy that satisfies a major portion of the EDF's February 1977 petition (HP 77–8). In fact, the EDF urged the Commission, in a February 16, 1977 letter that followed the submission of its petition, to utilize the section 2(g)(1)(A) provision. The Commission's action similarly supersedes a major portion of the EDF's March 1976 petition (HP 76–10) which requested precautionary labeling for wearing apparel containing TRIS in specified amounts. The Commission believes that little or no wearing apparel containing TRIS, other than children's wearing apparel, is currently in interstate commerce or would be introduced into interstate commerce in the future.

The petition from Ms. Siegel and Dr. Epstein (FP 77–1) requests regulatory action under the Flammable Fabrics Act to address the hazard presented by children's sleepwear in sizes 0–6X containing TRIS. The Commission believes that it has granted this petition by interpreting section 2(q)(1)(A) as banning children's wearing apparel containing TRIS.

Portions of the EDF's February 1977 petition make requests that concern the use of flame retardants other than TRIS in wearing apparel. Specifically, the petition asserts that tetrakis (hydroxymethyl) phosphonium chloride (THPC) and Pyroset TKP may be hazardous. In addition, the petition seeks the following labeling for wearing apparel for which industry has not investigated the health effects: "[T]he toxic properties of the flame retardant chemical(s) used in this product have not been evaluated."

Although the Commission does not currently know which chemicals, if any, are hazardous, a labeling requirement under section 27(e) of the CPSA is under consideration by the Commission. The Commission will consider this portion of the February 1977 EDF petition as a petition under the Administrative Procedure Act to initiate a proceeding for a section 27(e) rule.

Accordingly, pursuant to provisions of the Federal Hazardous Substances Act (secs. 2(f)(1)(A), (g), (q)(1)(A) and 10(a), 74 Stat. 372, 374, as amended 80 Stat. 1305; 15 U.S.C. 1261(f)(1)(A), (g), (q)(1)(A), 1269(a)) and under authority vested in the Consumer Product Safety Commission by the Consumer Product Safety Act (sec. 30(a), 86 Stat. 1231; 15 U.S.C. 2079(a)), the Commission proposes to amend 16 CFR Part 1500.18 by adding a new subsection (d) as follows:

§ 1500.18 Banned toys and other banned articles intended for use by children.

• • • • • •

(c) [Reserved]

(d) *Toys and other children's articles presenting toxicity hazards.* Under the authority of sections 2(f)(1)(A), 2(g), 2(q)(1)(A), and 10(a) of the act, the Commission has declared that the following articles are banned hazardous substances because they are toys or other articles intended for use by children that are hazardous substances, or bear or contain hazardous substances in such manner as to be susceptible of access by a child to whom they are entrusted, based on the fact that they may cause substantial personal injury or substantial illness during or as a proximate result of any customary or reasonably foreseeable handling or use, including reasonably foreseeable ingestion by children, because of their toxicity:

V4168 APR 8 77 UMI

(1) Children's wearing apparel made from fabric which contains TRIS (2,3-dibromoprophyl) phosphate and which is in interstate commerce on April 8, 1977 or which is introduced into interstate commerce after that date or which has not yet been washed (even if it has been sold before that date); and

(2) Uncut fabric, intended for sale to consumers for use in children's wearing apparel, which contains TRIS (2,3-dibromoprophyl) phosphate and which is in interstate commerce on April 8, 1977 or which is introduced into interstate commerce after that date or which has not yet been washed (even if it has been sold before that date).

Dated: April 7, 1977.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

list of cfr parts affected in this issue

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.

A Cumulative List of CFR Sections Affected is published separately at the end of each month. The guide lists the parts and sections affected by documents published since the revision date of each title.

Title 3—The President

PROCLAMATION 4496

World Trade Week, 1977

By the President of the United States of America

A Proclamation

We live in a world where all of us must depend on each other—a world divided by nationality and philosophy, but drawn together by common problems and common hopes. We share with all people a concern about unemployment, inequality, poverty, inflation, and the danger of war. And we share with all people the hope of a life free of hunger, disease, and repression, and a determination to overcome international differences with mutual trust, respect and cooperation.

Our desire for justice, stability, and peace finds practical expression in world trade. Trade generates forces of friendship and understanding, which in turn bring us closer to the kind of world we want.

The United States is the unsurpassed leader in international commerce. Because our total trade is greater than that of any other nation, we can, by increasing our trade activities, make an enormous contribution to the health of the international economy, to the job market at home and abroad, to progressive relationships between rich and poor nations and, finally, to the cause of peace on our globe.

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, do hereby proclaim the week beginning May 22, 1977, as World Trade Week. I urge business, labor, agricultural, educational, professional and civic groups, the communications media, and all concerned Americans, to observe World Trade Week with meetings, discussions, exhibits, ceremonies, and other appropriate activities that promote continuing awareness of the importance of world trade to our Nation and to our relations with other nations.

IN WITNESS WHEREOF, I have hereunto set my hand this eighth day of April, in the year of our Lord nineteen hundred seventy-seven, and of the Independence of the United States of America the two hundred and first.

Jimmy Carter

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 4—Accounts

CHAPTER III—COST ACCOUNTING STANDARDS BOARD

PART 415—ACCOUNTING FOR THE COST OF DEFERRED COMPENSATION

Cost Accounting Standard: Effective Date

AGENCY: Cost Accounting Standards Board.

ACTION: Final rule.

SUMMARY: On July 30, 1976, a Cost Accounting Standard entitled Accounting for the Cost of Deferred Compensation was published in the FEDERAL REGISTER (41 FR 31797 et seq.). The effective date of the Standard was reserved in the July 30 publication. This final rule establishes the effective date.

EFFECTIVE DATE: July 10, 1977.

ADDRESS: Cost Accounting Standards Board, 441 G Street, NW., Washington, D.C. 20548.

FOR FURTHER INFORMATION CONTACT:

Noah Minkin (202-275-5508).

Accordingly, 4 CFR Part 415 is amended by revising § 415.80 to read as follows:

§ 415.80 Effective date.

The effective date of this Standard is July 10, 1977.

(84 Stat. 796, sec. 103; 50 U.S.C. app. 2168.)

ARTHUR SCHOENHAUT,
Executive Secretary.

[FR Doc.77-10513 Filed 4-8-77;8:45 am]

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS, AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 991—HANDLING OF HOPS OF DOMESTIC PRODUCTION

Salable Quantity and Allotment Percentage for the 1977–78 Marketing Year

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule establishes the quantity of hops that may be freely marketed from the 1977 crop. The action is taken under the marketing order for domestic hops to promote orderly marketing conditions.

EFFECTIVE DATE: August 1, 1977.

FOR FURTHER INFORMATION, CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250. (202-447-3545).

SUPPLEMENTARY INFORMATION: Notice was published in the March 10, 1977, issue of the FEDERAL REGISTER (42 FR 13301) of a proposal to establish, for the 1977–78 marketing year, beginning August 1, 1977, a salable quantity of 60,270,000 pounds, and an allotment percentage of 100 percent. This action is based on recommendation of the Hop Administrative Committee in accordance with provisions of Marketing Order No. 991, as amended (7 CFR Part 991), regulating the handling of hops of domestic production. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The Committee's recommendation is based on the following estimates for the marketing year beginning August 1, 1977.

(1) Total domestic consumption of 35,500,000 pounds of hops;

(2) Minus imports of 10,000,000 pounds of hops to result in domestic consumption of U.S. hops of 25,500,000 pounds;

(3) Plus total U.S. exports of 30,000,000 pounds of hops to equal 55,500,000 pounds total usage of U.S. hops;

(4) Plus 1,000,000 pounds to adjust for weight loss for hops processed into pellets;

(5) Plus an adjustment of 3,770,000 pounds to provide for adequate supplies should some producer allotments not be fully produced.

Therefore, the salable quantity during the 1977–78 marketing year will be 60,270,000 pounds.

The salable percentage of 100 percent is computed by subtracting from this salable quantity 1,000,000 pounds for additional allotment bases for hops of the Fuggle variety pursuant to §§ 991.38(b) and 991.138(c) and dividing the remainder by 59,270,000 pounds, the total of all allotment bases less the 1,000,000 pounds additional allotment bases for Fuggle variety hops.

After consideration of all relevant matter presented, including that in the notice, the information and recommendations submitted by the Committee, and other available information, it is found that to establish a salable quantity and allotment percentage as hereinafter set forth will tend to effectuate the declared policy of the act.

Therefore, the salable quantity and allotment percentage to be applicable to the 1977–78 marketing year (August 1, 1977–July 31, 1978) are established as follows:

§ 991.215 Allotment percentage and salable quantity for hops during the marketing year beginning August 1, 1977.

The allotment percentage during the marketing year beginning August 1, 1977, shall be 100 percent, and the salable quantity shall be 60,270,000 pounds.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: April 1, 1977.

CHARLES R. BRADER,
Acting Director,
Fruit and Vegetable Division.

[FR Doc.77-10530 Filed 4-8-77;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 77-EA-13; Amdt. 39-2870]

PART 39—AIRWORTHINESS DIRECTIVES

Fairchild Aircraft

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This airworthiness directive (AD) action amends an earlier AD to require the inspection and repair or replacement, as necessary, of additional engine mounting structure parts on Fairchild Model F-27 and FH-227 airplanes. These additional parts are subject to cracking.

EFFECTIVE DATE: April 13, 1977. Initial compliance requires an inspection of the engine mount support tube assembly and bracket within 50 hours in service of acquiring a total of 10,000 hours in service.

ADDRESS: Fairchild Service Bulletins may be acquired from the manufacturer at Fairchild Industries, Inc., Fairchild Republic Company, Hagerstown, Maryland 21740.

FOR FURTHER INFORMATION CONTACT:

Charles Birkenholz, Airframe Section, Engineering and Manufacturing Branch, AEA-212, Federal Building, J.F.K. International Airport, Jamaica, New York 11430; Tel. 212-995-2875.

V4269 APR 11 77 UMI

SUPPLEMENTARY INFORMATION: There have been cracks reported in the subject tube assembly and bracket in the F–27 and FH–227 airplanes and AD 66–07–04 was issued requiring an appropriate inspection. It in turn was replaced by AD 66–30–04 in turn amended in 1969 to include the lower engine mount tube assemblies and again in 1969 to include replacement parts. This amendment will include additional parts manufactured since the last amendment. Since this deficiency can exist or develop in airplanes of similar type design utilizing such newly manufactured parts, an Airworthiness Directive is being issued to include such parts in the Airworthiness Directive.

Since the foregoing affects air safety, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

It has been determined that the expected impact of the proposed regulation is so minimal that the proposal does not warrant an evaluation.

Accordingly, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended, effective April 13, 1977, by amending AD 66–30–04 as follows:

AMENDMENT OF AD 66–30–04

1. Delete the word "Time" wherever it appears.

2. Change paragraph (b) so as to insert the figures ",–12,–13,–14,–31 or –32" after the figures "P/N 01–110105–3,–4,–11."

3. Change parenthetical paragraph to read: Fairchild Service Bullentins F27–54–14 and FH227–54–4, Revision 3 dated January 7, 1977, cover this subject.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended 49 U.S.C. 313(a), 1421, and 1423; Sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A–107.

Issued in Jamaica, New York, on March 30, 1977.

L. J. CARDINALI,
Acting Director,
Eastern Region.

[FR Doc.77–10623 Filed 4–8–77;8:45 am]

[Docket No. 74–NE–22; Amdt. 39–2872].

PART 39—AIRWORTHINESS DIRECTIVES

Pratt & Whitney Aircraft; Model JT8D –9 and –9A Turbofan Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This airworthiness directive (AD) action eliminates certain turbine stator and rotor inspection requirements applicable to certain Pratt and Whitney Model JT8D engines, that are contained in an earlier AD. This action is based on engine endurance testing, analysis, and service experience that indicate the requirements being eliminated are not necessary.

EFFECTIVE DATE: April 15, 1977.

FOR FURTHER INFORMATION CONTACT:

Robert Berman, Propulsion Section, ANE–214, Engineering and Manufacturing Branch, Flight Standards Division, New England Region, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone 617–273–7347.

SUPPLEMENTARY INFORMATION: AD 74–10–12, Amendment 39–1835 (39 FR 16388), became effective on May 21, 1974. Amendment 39–2088 (40 FR 6202), effective February 20, 1975, amended the AD by adding and deleting certain serial numbered engines. The AD was issued to prevent interference between turbine stators and rotors on certain serial numbered JT8D engiiness because of possible inadvertent installation of stator vanes of the wrong material. Prolonged operation of these stator vanes could result in excessive rearward creep deformation and consequent contact with the rotor disk. The AD presently requires measurement of the axial gap between JT8D–9 and –9A engine second and third stage turbine stators, which experience the most deformation, and their respective turbine rotors to assure adequate operating clearances. If the clearance is less than a specified limit, the stators not approved for the engine must be replaced within 25 hours operating time. For clearances greater than the limit, further operation up to 6000 hours is allowed before replacement. For JT8D–7 and –7A engines, which experience less severe creep conditions, axial clearance measurements are not required. Replacement of second stage stator vanes not approved for these engines is required prior to the accumulation of 6,000 hours time in service after February 20, 1975.

After publication of the AD, engine endurance testing, analysis, and service experience showed that creep deformation of all second and third stage stator vanes is not as severe as originally calculated and therefore any vane, regardless of material, is suitable for use. For the fourth stage, any vane material is suitable for the JT8D–7 and –7A model engines; however, PWA 655 material must be used for the JT8D–9 and –9A models because of more severe operating conditions. Therefore, the AD is being superseded by a new AD that only requires inspection and replacement of fourth stage turbine stator vanes not approved for the listed serial numbered JT8D–9 and –9A engines prior to the accumulation of 6,000 hours time in service after the effective date of Amendment 39–2088 to AD 74–10–12.

Since this amendment relieves a restriction, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

PRATT & WHITNEY AIRCRAFT. Applies to Pratt & Whitney Aircraft JT8D–9 and –9A turbofan engine models with the following serial numbers:

665158, 665161, 665165, 665169, 665179, 665180, 665181, 665194, 665197, 665201, 665202, 665207, 665208, 665213, 665215, 665216, 665218, 665220, 665221, 665231, 665244, 665246, 665252, 665254, 665258, 665279, 665282, 665283, 665285, 665288, 665303, 665304, 665311, 665312, 665315, 665317, 665318, 665321, 665323, 665328, 665329, 665331, 665335, 665336, 665338, 665340, 665345, 665358, 665364, 665370, 665375, 665376, 665377, 665380, 665381, 665384, 665386, 665388, 665389, 665392, 665393, 665402, 665406, 665408, 665410, 665416, 665417, 665418, 665421, 665429, 665434, 665436, 665437, 665438, 665440, 665441, 665442, 665443, 665448, 665455, 665459, 665463, 665467, 665468, 665481, 665489, 665519, 665520, 665521, 665528, 665529, 665531, 665532, 665533, 665536, 665538, 665547, 665548, 665549, 665551, 665552, 665560, 665562, 665563, 665630, 665631, 665636, 665637, 665659, 665661, 665662, 665663, 665664, 665665, 665666, 665667, 665668, 665681, 665682, 665683, 666789, 666803, 666807, 666810, 666838, 666882, 666884, 666892, 666901, 666913, 674162, 674344, 674399, 674401, 674250, 674262, 674266, 674314, 674325, 674333, 674335, 674354, 675355, 674359, 674361, 674374, 674376, 674379, 674380, 674384, 674391, 674400, 674404, 674422, 674482, 674487, 674489.

Compliance required as indicated prior to to the accumulation of 6,000 hours time in service after February 20, 1975, unless already accomplished.

To preclude interference between the fourth stage turbine stator and rotor as a result of possible intermixing of different material stators, inspect for and replace all fourth stage stator vanes not FAA approved for that engine model.

This supersedes Amendment 39–1835, AD 74–10–12, as amended by Amendment 39–2088.

(Sections 313(a), 601, and 603, of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A–107.

Issued in Burlington, Massachusetts on April 1, 1977.

QUENTIN S. TAYLOR,
Director, New England Region.

[Airspace Docket No. 77–CE–13]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone—Sedalia, Missouri

AGENCY: Federal Aviation Administration (DOT).

ACTION: Final Rule.

SUMMARY: This amendment alters the designation of the Sedalia, Missouri, control zone from a continuous to a part-time control zone. This action is in response to a request from the United States Air Force so that the control zone designation will coincide with the hours of operation of Whiteman Air Force Base, Missouri, on which the Sedalia, Missouri, control zone is centered. Since the Air Force Base is the prime user of the control zone, this action will make available airspace for use by other segments of aviation without undue restriction.

EFFECTIVE DATE: April 18, 1977.

FOR FURTHER INFORMATION CONTACT:

Alden C. Schneider, Airspace Specialist; Operations Procedures and Airspace Branch, Air Traffic Division, ACE–537, FAA, Central Region, 601 East 12th Street, Kansas City, Missouri 64106. Telephone 816–374–3408.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to Subpart F of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to alter the designation of the Sedalia, Missouri, control zone from a continuous to a part-time control zone. Whiteman Air Force Base personnel currently take the official weather observations required for the Sedalia, Missouri, control zone. The reduced hours of operation at the Air Force Base result in the unavailability of required weather observations. A control zone is not authorized unless appropriate weather information concerning that control zone is reported by a certificated observer. Therefore, this action is necessary in order to have the control zone effective only during the hours of operation of the Air Force Base.

Since there is no present alternative to this action and in order to permit the Air Force to reduce weather reporting service at Sedalia at the earliest possible date, notice and public procedure under 5 U.S.C. 553(b) is impracticable and contrary to the public interest and good cause exists for making this amendment effective in less than thirty (30) days after its publication.

Accordingly, Subpart F of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 355), is amended, effective 0901 G.m.t., April 18, 1977, by altering the Sedalia, Missouri, control zone to read as follows:

SEDALIA, MISSOURI

Within a 5-mile radius of Whiteman AFB, Sedalia, Missouri, (latitude 38°43'50" N., longitude 93°33'00" W.); within 2 miles each side of the Whiteman VOR 010° radial, extending from the 5-mile radius zone to 2 miles N of the VOR, and within 2 miles each side of the Whiteman TACAN 185° radial, extending from the 5-mile radius zone to 7 miles S of the TACAN. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

(Sec. 307(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Sec. 11.61 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A–107.

Issued in Kansas City, Missouri, on March 30, 1977.

C. R. MELUGIN, JR.,
Director, Central Region.

Title 30—Mineral Resources

CHAPTER I—MINING ENFORCEMENT AND SAFETY ADMINISTRATION, DEPARTMENT OF THE INTERIOR

SUBCHAPTER O—COAL MINE HEALTH AND SAFETY

PART 75—MANDATORY SAFETY STANDARDS—UNDERGROUND COAL MINES

Illumination in Underground Coal Mines

Correction

In FR Doc. 76–28382 appearing at page 43531 in the issue for Friday, October 1, 1976 on page 43534, column 3, in § 75.1719–1(a), in the fourth line, "§§ 75.1179–1" should have read "§§ 75.1719–1".

Title 39—Postal Service

CHAPTER I—U.S. POSTAL SERVICE

SUBCHAPTER D—ORGANIZATION AND ADMINISTRATION

Organizational Changes

AGENCY: Postal Service.

ACTION: Final Rule.

SUMMARY: This document amends Postal Service regulations to reflect creation of the new position of Executive Assistant to the Postmaster General, discontinuance of the office of Executive Assistant for Postal Affairs, and addition of new members to the Executive Committee.

EFFECTIVE DATE: April 11, 1977.

FOR FURTHER INFORMATION CONTACT:

Edward E. Horgan, 202–245–5372.

Accordingly, 39 CFR is amended as follows:

PART 221—GENERAL PRINCIPLES OF ORGANIZATION

§ 221.5 [Amended]

1. Paragraph (c) of § 221.5 is amended by deleting the words "Executive Assistant for Postal Affairs" in the third sentence and inserting the words "Executive Assistant to the Postmaster General" in lieu thereof.

2. Paragraph (d) of § 221.5 is revised to read as follows:

• • • • •

(d) The Executive Committee is the established organization through which the Postmaster General and his top staff collectively consider and act on major policy, planning, and other management control matters. The Postmaster General, the Deputy Postmaster General, the Senior Assistant Postmasters General for Administration, Employee and Labor Relations, Finance, Operations, and Manpower and Cost Control, the Assistant Postmaster General, Government Relations Department, the Assistant Postmaster General, Public and Employee Communications Department, and the General Counsel comprise the Executive Committee of which the Postmaster General is Chairman. The Executive Assistant to the Postmaster General is secretary to the Executive Committee.

§ 221.7 [Amended]

3. Section 221.7 is amended by deleting the words "Executive Assistant for Postal Affairs" in the first sentence and inserting the words "Executive Assistant to the Postmaster General" in lieu thereof.

PART 222—DELEGATIONS OF AUTHORITY

§ 222.1 [Amended]

4. Paragraph (e) of § 222.1 is amended by deleting the words "The Executive Assistant for Postal Affairs" in the first sentence and inserting the words "The Executive Assistant to the Postmaster General" in lieu thereof.

PART 224—GROUPS AND DEPARTMENTS

§ 224.10 [Amended]

5. Section 224.10 is amended (a) by deleting the words "The Executive Assistant for Postal Affairs" in the first sentence and inserting the words "The Executive Assistant to the Postmaster General" in lieu thereof; and (b) by revising the section heading to read as follows: "§ 224.10 Executive Assistant to the Postmaster General."

(39 U.S.C. 401(2).)

ROGER P. CRAIG,
Deputy General Counsel.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

Appendix—Public Land Orders

[Public Land Order 5615 (A–027005)]

ALASKA

Partial Revocation of Public Land Order No. 1127

AGENCY: Bureau of Land Management (Interior).

ACTION: Finale Rule.

SUMMARY: This public land order partially revokes a previous withdrawal of

V4269 APR 11 77 UMI

lands located in the Chugach National Forest. The revocation is necessary to accommodate a community grant selection made by the State of Alaska.

EFFECTIVE DATE: April 5, 1977.

FOR FURTHER INFORMATION CONTACT:

Eldon Hayes; Division of Lands and Realty; Bureau of Land Management; Department of the Interior; Washington, D.C. 20240 (202–343–8731).

By virtue of the authority contained in section 204 of the Act of October 21, 1976, 90 Stat. 2743, it is ordered as follows:

1. Public Land Order No. 1127 of April 15, 1955, which further withdrew national forest lands for use by the Forest Service, Department of Agriculture, for administrative and public services sites, and highway purposes, is hereby revoked so far as it affects the following described lands:

CHUGACH NATIONAL FOREST

SEWARD MERIDIAN

T. 5 N., R. 3 W. (Unsurveyed)

In protracted sections 27, 26, 33 and 34. A strip of land 25 chains or 1,650 feet in width paralleling the southwest shore of Kenai Lake from the west end of the bridge near the outlet of Kenai Lake, approximate latitude 60°29'30" N., longitude 149°48'30" W., southeasterly approximately 155 chains or 10,230 feet to the intersection with the south boundary of the national forest community grant selection, AA–2610.

Containing approximately 300 acres.

2. This order shall not otherwise affect the remaining lands withdrawn for Chugach National Forest made by Presidential Proclamation No. 852 of February 23, 1909.

3. The purpose of this order is to accommodate a community grant selection made by the State of Alaska which was approved by the Department of Agriculture pursuant to section 6(a) of the Alaska Statehood Act (72 Stat. 339).

CECIL D. ANDRUS,
Secretary of the Interior.

APRIL 5, 1977.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 77–NW–9–AD]

AIRWORTHINESS DIRECTIVE

Boeing Model 727 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), (DOT).

ACTION: Proposed rule.

SUMMARY: This notice proposes to add a new airworthiness directive (AD) to require inspections of a specific area of the Boeing Model 727 airplane floor structure. The AD is needed because cracks have been found that could cause in-flight depressurization.

DATES: Comments must be received on or before June 1, 1977. Proposed compliance times—Initial compliance within the next 750 pressurization cycles, unless accomplished within the last 250 pressurization cycles if inspected by the low frequency eddy current method or 1250 pressurization cycles if inspected by the conventional eddy current method or dye-penetrant method. Repetitive inspections every 1000 pressurization cycles for low frequency eddy current inspection or 2000 pressurization cycles for either eddy current or dye penetrant inspections.

ADDRESSES: Send comments on the proposal to: Federal Aviation Administration, Northwest Region, Office of Regional Counsel. Attention: Airworthiness Rules Docket, 9010 East Marginal Way South, Seattle, Washington 98108.

FOR FURTHER INFORMATION, CONTACT:

Gerald R. Mack, Engineering and Manufacturing Branch, FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington 98108. Telephone 206–767–2516.

SUPPLEMENTARY INFORMATION: Cracks have been found in the lower forward flange of the B.S. 910 floor beam. One airplane experienced a crack on the right-hand side of the beam and subsequently experienced a crack on the left-hand side resulting in an in-flight depressurization. Recently, numerous cracks have been detected on another airplane. Metallurgical examination revealed that the cracks are caused by fatigue and stress corrosion. Since this condition is likely to exist or develop in other 727 series airplanes, the proposed airworthiness directive would require inspections of the floor beam of airplanes which have accumulated 20,000 or more pressurization cycles.

Accordingly, the Federal Aviation Administration proposes to amend Part 39 of the Federal Aviation Regulations by adding the following new Airworthiness Directive:

BOEING: Applies to all Model 727 series airplanes certificated in all categories, listed in Boeing Service Bulletin No. 727–53–134, Revision 3, or later FAA approved revisions, which have accumulated 20,000 or more pressurization cycles. Compliance required as indicated.

A. Inspect the lower flanges of the B.S. 910 floor beam for cracks per paragraph B below, within the next 750 pressurization cycles from the effective date of this AD, unless accomplished within the last: (1) 250 pressurization cycles if inspected per paragraph B.1 or (2) 1250 pressurization cycles if inspected per paragraph B.2. Repeat the inspection per paragraph B.1 at intervals not to exceed 1000 pressurization cycles or per paragraph B.2 at intervals not to exceed 2000 pressurization cycles. Beams found cracked are to be repaired per paragraph C.

B. Inspect the B.S. 910 floor beam in accordance with one of the following: (1) Low frequency eddy current inspection procedures of Figure 3 of Boeing Service Bulletin No. 727–53–134, Revision 3 or later FAA approved revisions. (2) Eddy current or dye penetrant inspection procedures of Figure 2 of Boeing Service Bulletin No. 727–53–134, Revision 3, or later FAA approved revisions. (3) A manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

C. If cracks are detected in the beam, repair in accordance with Boeing Service Bulletin No. 727–53–134, Revision 3, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region, prior to further flight except that the airplane may be flown unpressurized in accordance with FAR 21.197 to a base where the repair can be accomplished.

D. B.S. 910 floor beams which were not inspected for cracks per paragraph B prior to installation of the straps or repair doubler in accordance with Boeing Alert Service Bulletin No. 727–53–124, or FAA approved equivalent, must be inspected in accordance with paragarphs B.2 or B.3 of this AD within 3000 pressurization cycles from the effective date of this AD, unless already accomplished. Beams found cracked are to be repaired in accordance with paragraph C.

E. Terminating action of this AD consists of installation of the preventive modification straps or repair doubler in accordance with Boeing Alert Service Bulletin No. 727–53–124, Revision 1, or equivalent approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

F. For the purpose of complying with this AD, subject to acceptance by the assigned FAA maintenance inspector, the number of pressurization cycles may be considered to be identical to the number of landings.

G. Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, FAA Northwest Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for that operator.

(Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).)

NOTE.—An evaluation of the anticipated impacts has been made and it is expected that the proposal is neither costly nor controversial. The preparation of an Economic Impact tSatement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A–107 is not required.

Issued in Seattle, Washington, April 1, 1977.

C. B. WALK, JR.,
Director, Northwest Region.

[FR Doc.77–10410 Filed 4–8–77;8:45 am]

[Airspace Docket No. 77–CE–7]

[14 CFR Part 71]

TRANSITION AREA AT FULTON, MISSOURI

Proposed Designation

AGENCY: Federal Aviation Administration (DOT).

ACTION: Proposed Rule.

SUMMARY: This Notice proposes to designate a transition area at Fulton, Missouri, to provide protection for aircraft executing a new instrument approach procedure to the Fulton Municipal Airport.

DATES: Comments must be received on or before May 11, 1977.

ADDRESSES: Send comments on the proposal to: FAA, Office of the Regional Counsel, ACE–7, Attention: Rules Docket Clerk, Docket No. 77–CE–7, 601 East 12th Street, Kansas City, Missouri 64106.

FOR FURTHER INFORMATION CONTACT:

Alden C. Schneider, Airspace Specialist, Operations, Procedures and Airspace Branch, Air Traffic Division, ACE–537, FAA, Central Region, 601 East 12th Street, Kansas City, Missouri 64106; telephone 816–374–3408.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in duplicate to the Regional Counsel, Central Region, Rules Docket, Docket No. 77–CE–7, Federal Aviation

V 4269 APR 11 77 UMI

Administration, 601 East 12th Street, Kansas City, Missouri 64106. All communications received on or before May 11, 1977 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments received will be available both before and after the closing date for comments in the Rules Docket for examination by interested persons.

AVAILABILITY OF FORM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, S.W., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The Federal Aviation Administration is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to designate a transition area at Fulton, Missouri. Since a new instrument approach procedure to the Fulton Municipal Airport has been established based on the Hallsville, Missouri, VORTAC, the Federal Aviation Administration believes that additional controlled airspace in the form of a transition area is necessary to provide protection for aircraft executing this new approach procedure. Accordingly, the Federal Aviation Administration proposes to amend § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR 71.181), by adding the following new transition area:

§ 71.181 [Amended]

FULTON, MISSOURI

That airspace extending upward from 700' above the surface within a 5 mile radius of the Fulton Municipal Airport (latitude 38°50'22" N., longitude 92°00'17" W.), and within 2 miles each side of the Hallsville, Missouri, VORTAC 154° radial; extending from the 5 miles radius area to 6 miles northwest of the Fulton Municipal Airport, excluding the portion which overlies the Columbia, Missouri, 700' floor transition area.

(Sec. 307(a), Federal Aviation Act of 1958 as amended (49 U.S.C. 1348; Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Sec. 11.61 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Kansas City, Missouri, on March 28, 1977.

C. R. MELUGIN, JR.,
Director, Central Region.

DEPARTMENT OF THE INTERIOR

Geological Survey

[30 CFR Part 211]

COAL MINING OPERATING REGULATIONS

Adoption of Requirements of Montana's Reclamation Laws and Requirements, Hearing Scheduled, Comment Period Reopened

AGENCY: Geological Survey, Interior.

ACTION: Proposed Rule, Notice of Hearing and Reopening of Comment Period.

SUMMARY: This document reschedules a hearing and reopens the comment period on a proposed rule to adopt certain of Montana's reclamation laws and regulations as Federal regulations. The hearing is being rescheduled to replace two previously scheduled hearings that were canceled. The comment period is being reopened as previously stated.

DATES: Hearing: May 4, 1977. Comments must be received on or before May 9, 1977.

ADDRESSES: Hearing Address: Petro West Room, Student Union Building, Eastern Montana College, Billings, Montana. Comment Address: Director, Geological Survey, National Center, Reston, Virginia 22092.

FOR FURTHER INFORMATION CONTACT:

Gordon W. Flynt, Chief, Public Affairs, Bureau of Land Management, Billings, Montana 59107. Tel. No. 406-245-6711.

SUPPLEMENTARY INFORMATION: This notice reschedules a hearing and reopens the comment period on a proposed rule that was published on Septemer 14, 1976, 41 FR 39036. The rule proposed to adopt certain of Montana's reclamation laws and regulations as federal regulations as authorized by 30 CFR § 211.75(a). Two hearings were previously scheduled on this proposed rule, but were canceled. As previously announced, the meeting will be open to the public and will be conducted by an Administrative Law Judge. Depending upon the number of persons desiring to be heard, the Administrative Law Judge may limit the amount of time for each statement. Accordingly, those wishing to make an oral statement should plan to limit their remarks to 10 minutes. Additionally, each speaker's remarks should be reduced to writing and at least 2 copies filed with the Administrative Law Judge at the hearing. Individuals desiring to present extended remarks or written comments only for the record may do so through the filing of 2 copies at the hearing. Any person who wishes to testify should notify the Chief, Office of Public Affairs, Bureau of Land Management, Billings, Montana 59107.

The Department of the Interior supports strongly and enthusiastically the early passage of national surface mining legislation. As part of that legislation, the Department also supports the concept that, subject to certain conditions to protect the national interest, a state with an effective reclamation program should be allowed to administer and enforce its reclamation program on lands subject to federal coal leases. The Department's desire for rapid passage of national surface mining standards does not diminish, however, the need for effective reclamation on federal coal leases prior to the passage of that vital piece of legislation. Until legislation has passed, the Department will attempt to meet this goal by vigorously enforcing its existing regulations. The Department's regulations, among other things, have an effective mechanism to encourage cooperation between the Department of the Interior and the respective state governments to ensure effective reclamation while minimizing duplication and overlap. Under 30 CFR 211.75(a), the Department may adopt as federal law the requirements of a state's reclamation law if that state's laws provide environmental protection at least as stringent as do those of the Department of the Interior and if the state's regulations do not prevent mining that is required by the national interest. The Department has already adopted the requirements of Wyoming's reclamation law under this provision and has proposed to do so for Montana's reclamation standards. Adoption of a state's requirements on federal regulations under § 211.75(a) eliminates duplication by having the state and federal governments enforce the same substantive performance standards. In addition, under 30 CFR 211.75(b), the Department may enter into a cooperative agreement with the state to regulate reclamation. The goal of a cooperative agreements is to have only one entity, wherever possible, perform regulatory functions involving coal surface mining reclamation. It is wasteful, for example, for both the Department of the Interior and a state government to separately inspect coal mining operations for compliance with the applicable standards. These agreements give the respective governments the opportunity to designate who will perform these responsibilities. It is the policy of the Department's regulations to permit a state to perform these functions whenever possible. The Department has now completed cooperative agreements with Wyoming, North Dakota, Utah and New Mexico and remains interested in seeking cooperative agreements with other states which regulate federal lands.

The current rulemaking proposal, adoption of Montana's reclamation standards as federal regulations, should be viewed as part of the Department's overall effort to seek federal-state cooperation in the area of surface coal mining reclamation. The Department, in addition to holding the hearing, is also reopening the comment period for this rulemaking proposal. Comments on the proposed adoption of Montana's regulations will be accepted until May 9, 1977, and should be sent to the Director, United States Geological Survey, The National Center, Reston, Virginia 22092.

CECIL D. ANDRUS,
Secretary of the Interior.

APRIL 4, 1977.

DEPARTMENT OF DEFENSE

Department of the Army

[32 CFR Part 505]

[Army Reg. 340-21]

PERSONAL PRIVACY AND RIGHTS OF INDIVIDUALS REGARDING THEIR PERSONAL RECORDS

Proposed Amendment of Rules

AGENCY: Department of the Army, DOD.

ACTION: Proposed Rule.

SUMMARY: This proposed rule would add an exemption to the Department of Army Privacy Act rules for that portion of the records compiled by the United States Military Academy that pertain to testing or examination material used to rate individuals' qualifications. This exemption is needed because disclosure of the information would compromise the objectivity or fairness of the testing or examination processing.

DATES: Comments must be received on or before May 11, 1977.

ADDRESS: Send comments to The Adjutant General, Department of the Army, ATTN: DAAG-AMR-R, Forrestal Building, 1000 Independence Avenue, S.W., Washington, DC 20314.

FOR FURTHER INFORMATION CONTACT:

Mr. Cyrus Fraker, 202-693-0973.

SUPPLEMENTARY INFORMATION: In FR Doc. 75-32158 published in the FEDERAL REGISTER of November 28, 1975, the Department of the Army published a notice of adopted rulemaking. Notice is hereby given that the Secretary of the Army proposes to amend 32 CFR Part 505 by amending the exemption rule for system of records identified as A0709.01aDAPE, entitled: United States Military Academy Candidate Files. In addition to exemptions claimed under subsections (k)(5) and (7), exemption under subsection (k)(6) is proposed. Exemption is needed for the portion of records compiled within the United States Military Academy which pertains to testing or examination material used to rate individual qualifications, the disclosure of which would compromise the objectivity or fairness of the testing or examination process. Included within the material to be covered by this additional exemption is a limited section of the Candidate Summary Sheet which might disclose the compensating evidence score, the leadership/college equivalency score, the college equivalency estimated rank score, the faculty appraisal score, the extracurricular score, the athletic score, the leadership potential score, the physical aptitude examination score, the whole candidate score, the qualified alternate score, and evaluative remarks.

This amendment is proposed under the authority of the Privacy Act of 1974, Pub. L. 93-579, 5 U.S.C. 552a.

Dated: April 4, 1977.

ROME D. SMYTH,
Lieutenant Colonel, GS, Director, Administrative Management.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Office of the Assistant Secretary of Defense (Comptroller).

Part 505—Personal Privacy and Rights of Individuals Regarding Their Personal Records is amended under the Exempted Record Systems as follows:

The following exemption rule is amended:

ID-A0709.01aDAPE.

SYSNAME: United States Military Academy Candidate Files (40 FR 55671).

Exemption: So much of the exemption as reads: "• • • (k)(5) and (k)(7)" is amended to read: "(k)(5), (6), or (7)".

Authority: Insert "(6)" between "(k)(5) and (7)".

Reasons: Delete entry and substitute the following:

From subsection (d) because access might reveal investigatory and testing techniques. The exemption from access necessarily includes exemption from amendment, certain agency requirements relating to access and amendment of records, and civil liability predicated upon agency compliance with those specific provisions of the Privacy Act.

Exemption is necessary to protect the identity of individuals who furnished information to the United States Military Academy which is used in determining suitability, eligibility, or qualifications for military service and which was provided under an express promise of confidentiality.

Exemption is needed for the portion of records compiled within the Academy which pertains to testing or examination material used to rate individual qualifications, the disclosure of which would compromise the objectivity or fairness of the testing or examination process.

Exemption is required for evaluation material used by the Academy in determining potential for promotion in the armed services, to protect the identity of a source who furnished information to the Academy under an express promise of confidentiality.

The complete revised exemption rule, as amended, now reads as follows:

EXEMPTED RECORD SYSTEM

(SPECIFIC EXEMPTIONS)

ID-A0709.01aDAPE.

SYSNAME: United States Military Academy Candidate Files.

EXEMPTION: All portions of this system which fall within 5 U.S.C. 552a(k) (5), (6), or (7) are exempt from the following provisions of Title 5 U.S.C. section 552a: (d).

AUTHORITY: 5 U.S.C. 552a(k) (5), (6), and (7).

REASONS: From subsection (d) because access might reveal investigatory and testing techniques. The exemption from access necessarily includes exemption from amendment, certain agency requirements relating to access and amendment of records, and civil liability predicated upon agency compliance with those specific provisions of the Privacy Act.

Exemption is necessary to protect the identity of individuals who furnished information to the United States Military Academy which is used in determining suitability, eligibility, or qualifications for military service and which was provided under an express promise of confidentiality.

Exemption is needed for the portion of records compiled within the Academy which pertain to testing or examination material used to rate individual qualifications, the disclosure of which would compromise the objectivity or fairness of the testing or examination process.

Exemption is required for evaluation material used by the Academy in determining potential for promotion in the armed services, to protect the identity of a source who furnished information to the Academy under an express promise of confidentiality.

Corps of Engineers, Department of the Army

[33 CFR Part 209]

ADMINISTRATIVE PROCEDURES

Policy on Release of Commercial Statistics

AGENCY: Corps of Engineers, DOD.

ACTION: Proposed rule.

SUMMARY: We are proposing to amend Corps of Engineers policy on the release of waterborne commercial statistics. This amendment will accomplish the release of waterborne commerce movements to any interested agency, organization, individual, or entity. Such releases will be limited to identification of docks, the commodities and tonnages moved between docks, and the number of vessel trips between docks. The releases will not disclose shippers or owners of vessels by name.

DATES: Comments by June 1, 1977.

ADDRESS: Comments, suggestions or objections concerning this proposal should be submitted to: HQDA (DAEN-CWO-M) WASH DC 20314.

FOR FURTHER INFORMATION CONTACT:

H. W. Campbell, Operations Branch, Office, Chief of Engineers, Washington, DC 20314. (202-693-6992).

SUPPLEMENTARY INFORMATION: Notice is hereby given that the Department of the Army (acting through the Chief of Engineers) is considering the above cited amendment. The collection of Waterborne Commerce Statistics pertaining to rivers, harbors, and waterways and the compilation and publication of such data by the Corps of Engineers are required by law. This policy is being issued to provide guidance to Corps Districts and Divisions to carry out the program.

NOTE.—The Corps of Engineers has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

V 42 69 APR 11 77 UMI

(R&H Act, 23 June 1866 (14 Stat. 70); Act 21 February 1891 (26 Stat. 766); R&H Act, 13 June 1902 (32 Stat. 376); R&H Act, 25 July 1912 (37 Stat. 201); R&H Act, 22 September 1922 (42 Stat. 1043); and Public Law No. 16, 10 February 1932 (47 Stat. 42).)

209.320 Policy on Release of Commercial Statistics.

It is proposed to amend 33 CFR Chapter II by revising § 209.320 to read as follows:

§ 209.320 Policy on release of commercial statistics.

(a) It is the policy of the Corps of Engineers to hold in confidence any raw data, or copies thereof, furnished by vessel operators or shippers for compilation of shipping statistics by the Waterborne Commerce Statistics Center. Raw data, as used herein, is defined as data contained in supporting documents maintained in the vessel operator's or shipper's office and reported to the Corps of Engineers on ENG Form 3925 series or approved alternate forms.

(b) Release of raw data outside of the Corps of Engineers will only be made to another Federal agency, and then only when the Federal agency has legislative authority to collect the information itself, and such authority is supported by legal provisions for criminal penalties against persons failing to supply such information. Furthermore, release of raw data will only be made to Federal agencies which are bound by statute to hold the information in confidence and which furnish assurances that the information will not be disclosed outside the Federal agency or court of law.

(c) Summary data pertaining to waterborne commerce movements may be released to any interested agency, organization, individual or entity. Such releases will be limited to the identification of docks (or more aggregated designations of origin or destination), the commodities and tonnages moved between docks, and the number of vessel trips between docks. The releases will not disclose shippers or owners of vessels by name. Vessels as used herein are defined as motor vessels or barges of any type.

(d) Subject to the foregoing restrictions, the Waterborne Commerce Statistics Center and Division and District Engineers may furnish data on waterborne commerce and traffic of the United States not otherwise available in published reports or in statements issued periodically for the information of the public. The applicants for such special compilations will be required to reimburse the affected offices for additional costs incurred in providing this data. Charges will be made in accordance with AR 37-30.

Dated: April 6, 1977.

For the Chief of Engineers.

RUSSELL J. LAMP,
Colonel, Corps of Engineers, Executive.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

[45 CFR Parts 100a and 194]

PUBLIC SERVICE INSTITUTIONAL GRANTS

Criteria for Institutions of Higher Education

Under the authority contained in Title IX, Part A of the Higher Education Act of 1965, as amended (20 U.S.C. 1134 et seq.), the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to issue the rules and regulations set forth below for the Public Service Institutional Grant Program.

Section 901(a)(2) of Part A of Title IX authorizes a program of financial assistance to institutions of higher education to establish, strengthen, and improve programs design to prepare graduate and professional students for public service. The Commissioner of Education proposes to make institutional grants to institutions of higher education on the basis of criteria set forth in § 194.8. The proposed rules also contain provisions regarding institutional eligibility, award procedure, grant limitations, and authorized activities.

SUMMARY OF COMMENTS PREVIOUSLY RECEIVED

The Commissioner of Education published a Notice of Intent to Issue Regulations in the FEDERAL REGISTER of December 22, 1976 (41 FR 55749). Comments were invited to the three questions concerning the implementation of the amendments to Title IX, Part A which were contained in the Education Amendments of 1976 (Pub. L. 94-482). Three responses to this invitation were received. The following is a summary of the comments which were pertinent to Public Service provisions of Part A and the Office of Education's response:

Comment: In response to the question about the manner by which the Commissioner shall assure that the State Commission (established or designated under section 1202 of The Higher Education Act) shall have an opportunity to comment on an application submitted by an institution in its State, commenters recommended that the institution be required to send a copy of the application to the State Commission before or at the time the application is sent to the Office of Education.

Response: We concur. The proposed regulation provides assurance that the State Commission will be given the opportunity to offer recommendations on the application to the institution and the Commissioner.

Comment: One commenter suggested that State Commissions be required to publish the criteria by which they plan to judge applications.

Response: The Commissioner does not have the authority to require the State Commissions to publish the criteria on which they base their recommendations.

Comment: One commenter stated that the requirement that the Commissioner consider applications in light of State, regional or national priorities should be implemented by placing the burden of demonstrating consistency with these priorities on the applicant.

Response: We agree that the applicant should demonstrate this consistency in the application. We note that the funding criteria list several important national considerations (see proposed § 194.8). We expect that the State Commission's comments (if any) will pertain to the relationship of the application to State priorities.

INSTRUCTIONS CONCERNING COMMENTS

Interested persons are invited to submit written comments, suggestions, or objections regarding these regulations to Dr. Louis J. Venuto, Division of Training and Facilities, Bureau of Postsecondary Education, Room 3060, Regional Office Building Three, 7th and D Streets, SW., Washington, D.C. 20202. Telephone 202-245-8082. Comments received in response to this notice will be available for public inspection at the above office on Mondays through Fridays between 8:30 a.m. and 4:30 p.m. All relevant materials must be received not later than May 11, 1977.

The Office of Education has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

(Catalog of Federal Domestic Assistance Number 13.555; Public Service Institutional Grants.)

Dated: March 9, 1977.

WILLIAM F. PIERCE,
Acting U.S. Commissioner of Education.

Approved: March 31, 1977.

JOSEPH A. CALIFANO, JR.,
Secretary of Health, Education, and Welfare.

Title 45 of the Code of Federal Regulations is amended as follows:

1. In Part 100a § 100a.10(a) is revised by substituting a period (".") for semicolon (";") at the end of each subparagraph, by deleting the word "and" where it appears at the end of subparagraphs (31) and (36), and by adding a new subparagraph (37). As amended, § 100a.10 reads as follows:

§ 100a.10 Scope.

(a) Programs. Unless inconsistent with a statute or regulation, the regulations in this part apply to the following programs:

• • • • • •

(37) Public service education grants under Title IX-A of the Higher Education Act of 1965, as amended (20 U.S.C. 1134 et seq.).

• • • • • •

2. A new Part 194 is added, to read as follows:

PART 197—PUBLIC SERVICE INSTITUTIONAL GRANTS

Sec.

194.1 Definitions.
194.2 General provisions regulations.
194.3 Purpose.
194.4 Institutional eligibility.
194.5 Award procedure.
194.6 Authorized activities.
194.7 Grant limitations.
194.8 Criteria for evaluating applications and considerations for awarding grants to institutions of higher education.

AUTHORITY: Title IX, Part A, sections 901-904 of Pub. L. 89-329, as amended (20 U.S.C. 1134-1134c), unless otherwise noted.

§ 194.1 Definitions.

As used in this part:

"Act" means the Higher Education Act of 1965, as amended.

"Institution of higher education" is defined in section 1201 (a) of the Act (20 U.S.C. 1141(a)).

"Project" means the activity or a combination of activities for which an institutional grant is requested.

"Internship" means a supervised administrative experience which provides the student with a practical introduction to a career in public service.

"Public service education" means the preparation for leadership and management careers in all levels of government and in nonprofit community service organizations.

(20 U.S.C. 1134.)

§ 194.2 General provisions regulations.

Assistance under Title IX, Part A of the Act is subject to applicable provisions contained in subchapter A of this chapter (relating to fiscal, administrative, property management, and other matters).

(20 U.S.C. 1134.)

§ 194.3 Purpose.

Assistance provided under this part shall be used to establish, strengthen, and improve programs designated to prepare graduate and professional students for public service.

(20 U.S.C. 1134(a)(2).)

§ 194.4 Institutional eligibility.

Institutions of higher education which have graduate or professional programs leading to a master's or more advanced degree in public service education are eligible to apply.

(20 U.S.C. 1134a(a).)

§ 194.5 Award procedure.

(a) Grants will be made on the basis of applications submitted by eligible institutions. An application shall describe a program of activities for carrying out the purposes of this part.

(b) An application shall provide assurances that the institution has notified the appropriate State Commission (established or designated under section 1202 of the Higher Education Act of 1965, as amended) and that the State Commission has been given the opportunity to offer recommendations on the application to the institution and to the Commissioner.

(c) Applications will be evaluated on the basis of the criteria set forth in § 194.8.

(20 U.S.C. 1134a.)

§ 194.6 Authorized activities.

Funds are to be used solely for the purposes stated in § 194.3. In meeting these purposes the funds may be used for the following activities:

(a) Faculty improvement;

(b) The expansion of graduate and professional programs of study;

(c) The acquisition of appropriate instructional equipment and materials;

(d) Cooperative arrangements among graduate and professional schools;

(e) The strengthening of graduate and professional school administration;

(f) The development of proposed graduate professional programs; and

(g) Needed innovation in graduate and professional programs.

(20 U.S.C. 1134(b).)

§ 194.7 Grant limitations.

Funds provided under this part shall not be used for:

(a) Payment in excess of 66⅔ percent of the total cost of the project or activity described in the institution's application;

(b) Payment in excess of 50 percent of the cost of the purchase or rental of books, audiovisual aids, scientific apparatus, or other materials or equipment, less any percent of that cost, as determined by the Commissioner, which is paid from sums received (other than under this part) as Federal financial assistance;

(c) Sectarian instruction or religious worship, or primarily in connection with any part of the program of a school or department of divinity;

(d) Construction or renovation of buildings; or

(e) Fellowship assistance for students.

(20 U.S.C. 1134b (a), (c).)

§ 194.8 Criteria for evaluating applications and considerations for awarding grants to institutions of higher education.

The Commissioner shall take into account the following considerations when evaluating applications for institutional grants. These criteria replace the general criteria for direct project grant and contract programs contained in 45 CFR 100a.26(b).

(a) The extent to which the institution requests funding of activities which received assistance under this part during the preceding fiscal year but have not been completed, provided there has been substantial progress in meeting the original goals;

(b) The extent to which funding the application will assist in attaining a wider distribution throughout the United States of high quality public service education programs;

(c) The extent to which the proposed project ranks high on the criteria set forth below, with the maximum point score for each criterion as shown:

(1) It is likely to result in establishing, strengthening or improving a program which prepares graduate and professional students for public service; (20 points)

(2) The educational and other related experiences of the personnel conducting the activity or activities qualify them to plan or participate in the project, and the director is given clear responsibility, ample time, and sufficient authority; (15 points)

(3) It is related to, or is part of, an academic program which prepares persons for leadership and management positions in local and State governments and for positions in program administration involving intergovernmental relations; (10 points)

(4) It is especially imaginative and innovative; (10 points)

(5) The budget is realistic in relation to its successful implementation; (10 points)

(6) It is consistent with State and regional priorities; (10 points)

(7) Procedures are planned to measure its effectiveness; (5 points) and,

(8) The overall academic program of public service education is strong enough to assure the success of the proposed project when measured by such criteria as the following: (20 points)

(i) There is a clear statement of program objectives;

(ii) Institutional resources such as facilities, equipment, and libraries are adequate;

(iii) The multidisciplinary background, education, and research ability of the faculty are of high quality;

(iv) The program offers opportunities for relevant, supervised practicum and internship experiences;

(v) The program has arrangements with government agencies or jurisdictions or other nonprofit agencies for such activities as program development, personnel exchange, and field work;

(vi) The program involves other graduate units of the institution in supportive or cooperative efforts of practical benefit to public service education; and

(vii) Graduates of the program have achieved leadership and management positions in public service careers.

(20 U.S.C. 1134a; 1134b (a).)

[45 CFR Part 195]

PUBLIC SERVICE FELLOWSHIPS

Allocation to Institutions of Higher Education

Pursuant to the authority contained in Title IX, Part C of the Higher Education Act of 1965, as amended (20 U.S.C. 1134i et seq.), notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to issue the rules and regulations set forth below for the Public Service Fellowship Program.

V 4 2 6 9 APR 11 77 UMI

Section 941 of Part C of Title IX authorizes a fellowship program to support graduate or professional study for persons who plan to pursue a career in public service. The Commissioner proposes to allocate fellowships to institutions of higher education. These institutions in turn will recommend eligible students to the Commissioner for selection. The proposed rules provide for the award of both new and continuation fellowships.

The criteria which the Commissioner proposes to use to allocate fellowships among institutions of higher education are set forth in § 195.10. The proposed rules also set forth the proposed amounts of the stipend, the dependency allowance, and the institutional allowance.

Interested persons are invited to submit written comments, suggestions, or objections regarding these regulations to Dr. Louis J. Venuto, Division of Training and Facilities, Bureau of Postsecondary Education, Room 3060, Regional Office Building Three, 7th and D Streets, S.W., Washington, D.C. 20202 (Telephone 202–245–8082). Comments received in response to this notice will be available for public inspection at the above office on Mondays through Fridays between 8:30 a.m. and 4:30 p.m. All relevant materials must be received not later than May 11, 1977.

The Office of Education has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A–107.

(Catalog of Federal Domestic Assistance Number 13.555; Public Service Fellowship.)

Dated: March 10, 1977.

WILLIAM F. PIERCE,
Acting Commissioner of Education.

Approved: March 31, 1977.

JOSEPH A. CALIFANO, JR.,
Secretary of Health, Education, and Welfare.

Title 45 of the Code of Federal Regulations is amended by adding a new Part 195 to read as follows:

PART 195—PUBLIC SERVICE FELLOWSHIPS

Sec.
195.1 Definitions.
195.2 Purpose.
195.3 Award procedure.
195.4 Eligibility for fellowships.
195.5 Fellowship conditions.
195.6 Vacated fellowships.
195.7 Amount of the fellowship.
195.8 Institutional allowance.
195.9 Payment procedure.
195.10 Criteria for allocating fellowships to institutions of higher education.
195.11 Application requirements.
195.12 Records and reports.

AUTHORITY: Title IX, Part C, sections 941–944 of Pub. L. 89–329, as amended (20 U.S.C. 1134l–1134m), unless otherwise noted.

§ 195.1 Definitions.

As used in this part:

"Fellowship" means an award by the Commissioner to an individual.

"Fellow" means a fellowship recipient.

"Institution of Higher Education" is defined in section 1201(a) of the Act (20 U.S.C. 1141(a)).

"Internship" means a supervised administrative experience which provides the student with a practical introduction to a career in public service.

"Public service education" means the preparation for leadership and management careers in all levels of government and in nonprofit community service organizations.

(20 U.S.C. 1134l.)

§ 195.2 Purpose.

The purpose of this program is to award fellowships for graduate or professional study for persons who plan to pursue or continue in a career in public service.

(20 U.S.C. 1134l.)

§ 195.3 Award procedures.

(a) Fellowships are allocated to institutions of higher education which apply for a fellowship allocation and which offer a graduate or professional program in public service education meeting the criteria described in § 195.10. Institutions receiving such an allocation shall recommend eligible students to the Commissioner for the award of fellowships.

(b) Fellowships will be awarded to cover a period of nine to twelve months of study. Individuals who are currently receiving a fellowship under this part or who have received a fellowship in the past but have interrupted their study for a period not to exceed twelve months for the purposes of work, travel, or independent study away from the campus that is supportive of the fellows' academic program are eligible to receive additional fellowships to continue study. No individual may receive assistance under this part for more than thirty-six months except that the Commissioner may award a fellowship for an additional twelve month period to allow a student who has completed all course work and comprehensive examinations (if any) for a doctoral degree to complete his or her doctoral dissertation.

(20 U.S.C. 1134l; 1134j; 1134k.)

§ 195.4 Eligibility for fellowships.

A recipient of a fellowship under this part must: (a) Have been accepted for graduate or professional study at an institution of higher education that has received an allocation of fellowships under this part;

(b) Plan to pursue a career in the public service; and

(c) Be a national of the United States or be in the United States for other than a temporary purpose and intend to become a permanent resident thereof, or be a permanent resident of the Trust Territories of the Pacific Islands.

(20 U.S.C. 1134l; 1134j.)

§ 195.5 Fellowship conditions.

In order to remain eligible for a fellowship, a fellow must: (a) Maintain satisfactory proficiency in the approved program in which he or she is enrolled;

(b) Continue to devote full-time study or research in the field in which the fellowship was awarded; and

(c) Not engage in gainful employment during the period of the fellowship, except in an internship or other activity which is under the supervision of the institution which awarded the fellowship and is related to the approved program.

(20 U.S.C. 1134m(a), (b).)

§ 195.6 Vacated fellowships.

If a fellowship is vacated prior to the end of a period for which it was awarded, the institution to which the fellowship is allocated may recommend to the Commissioner another individual to receive the fellowship. This individual must meet all the eligibility requirements set forth in Section 195.4. The duration of a re-awarded fellowship shall be for a period of graduate or professional study not in excess of the remainder of the period for which the fellowship it replaces was awarded.

(20 U.S.C. 1134l.)

§ 195.7 Amount of the fellowship.

(a) The stipend to which a fellow is entitled will be $3,600 for an academic year of twelve months.

(b) A fellow shall also be entitled to receive $300 per twelve month academic year for each of his or her dependents.

(c) A fellow who is enrolled in the program of study for less than twelve months shall only be entitled to receive a pro rata share of these amounts. For the purposes of this section, a fellow who is enrolled in the program for the entire academic year (including summer sessions) shall be considered to be enrolled in the program for the full twelve months.

(20 U.S.C. 1134l(a).)

§ 195.8 Institutional allowance.

The institution of higher education at which the fellow is pursuing his or her course of study shall be paid $3,600 per twelve month period, except that any amount charged to and collected from the fellow by the institution for tuition and other expenses required by the institution as part of the fellow's instructional program shall be deducted from this amount. If the fellow is enrolled for less than 12 months, the institution will be paid a pro rata share of this amount.

(20 U.S.C. 1134l (b).)

§ 195.9 Payment procedure.

(a) The Commissioner will pay to the approved institution of higher education the fellowship stipend (including any dependency allowance) and the institutional allowance for each fellowship allocated to that institution. The institution is responsible for disbursing all funds due to the fellow.

(b) The timing of payments to fellows will be left to the discretion of each institution of higher education except that no fewer than two payments a year shall be made. Institutions are responsible for recovery of excess payments made to students who, for any reason, fail to complete the academic year for which they are enrolled.

(20 U.S.C. 1134l (b).)

§ 195.10 Criteria for allocating fellowships to institutions of higher education.

The Commissioner shall take into account the following considerations in evaluating applications from institutions of higher education for fellowship allocations:

(a) The extent to which an application requests fellowships for the continuation of support for individuals awarded fellowships in a previous year;

(b) The extent to which funding the application will assist in attaining a wider distribution throughout the United States of graduate centers for study in public service; and

(c) The extent to which the graduate program of public service education ranks high (calculated according to maximum point scores as shown) on the criteria set forth below:

(1) The need for and the objectives of the public service program are justified in the application (15 points).

(2) Procedures are planned to measure the effectiveness and success of the program (5 points).

(3) Evidence is provided which demonstrates past success of graduates, if any, from the program in achieving leadership and management positions in public service careers (5 points).

(4) Institutional resources such as facilities, equipment, and libraries are adequate to support the program (5 points).

(5) The multidisciplinary background, education, research interests, and experiences of the faculty qualify them to plan and implement a successful program of public service education (15 points).

(6) The director of the program has clear responsibilities and sufficient time to devote to the program (5 points).

(7) The academic requirements are sufficient to support a high quality program (10 points).

(8) The program offers opportunities for relevant, supervised practicum and internship experiences (10 points).

(9) The program establishes arrangements with government agencies or other nonprofit agencies for such activities as program development, personnel exchange, and field work (10 points).

(10) The program will involve other graduate units of the institution in supportive or cooperative efforts of practical benefit to public service education (5 points).

(11) The program is especially imaginative or innovative and gives promise of leading to significant improvement in public service education (5 points).

(12) The program is designed to prepare persons for entry into leadership and management positions in local or State government administration or in intergovernmental relations for which a master's degree is generally the educational level required (10 points).

(20 U.S.C. 1134k (1), (2); 1134j(4).)

§ 195.11 Application requirements.

Each application for a fellowship allocation by an institution of higher education must describe the institution's public service education program. The description should address each of the criteria set forth in section 195.10. In addition, the application must:

(a) Describe the relation of the graduate or professional program of public service education to any program activity, research or development set forth by the applicant in an application, if any, submitted pursuant to section 901 (a)(2) of the Act;

(b) Contain satisfactory assurance that:

(1) The institution will recommend to the Commissioner, for the award of fellowships under this part, for study in such program, only persons of superior promise who have demonstrated to the satisfaction of the institution a serious intent to enter or continue in the public service upon completing the program; and

(2) The institution will make continuing efforts to encourage recipients of fellowships under this part, enrolled in the program, to enter or continue in the public service upon completing the program.

(20 U.S.C. 1134k (3), (4).)

§ 195.12 Records and reports.

Each institution of higher education which receives an allocation of fellowships under this part, and each individual who is awarded a fellowship, shall keep records and submit reports which are required by the Commissioner. These reports shall include a certificate from an appropriate official at the institution of higher eduaction, library, archive, or other research center whose program is approved by the Commissioner, stating that the fellow is making satisfactory progress in, and is devoting essentially full time to, the program for which the fellowship was awarded.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[49 CFR Part 537]

[Docket No. FE 77-03; Notice 1]

AUTOMOTIVE FUEL ECONOMY REPORTS

Proposed Requirements

AGENCY: National Highway Traffic Safety Administration.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes a new regulation setting forth the format and content requirements for semiannual reports to be submitted to the National Highway Traffic Safety Administration (NHTSA) by manufacturers of automobiles. The manufacturers would be required to include in their reports the following information regarding their current and future model year automobiles; the fuel economy of those automobiles; the manufacturers' research, development, and testing activities relating to fuel economy; the impact of Federal safety, emissions, damage susceptibility, and noise standards on fuel economy; the impact of the fuel economy standards on automobile safety, emissions, damage susceptibility, and noise; the capital requirements for improving fuel economy; the effects of the fuel economy improvement efforts on automobile prices and life cycle operating and maintenance costs; and the competitive effects of the fuel economy standards. The Motor Vehicle Information and Cost Savings Act, as amended, requires manufacturers to submit semiannual reports on their plans for complying with the automobile fuel economy standards. Further, the information in these reports is needed by the NHTSA for establishing and modifying automobile fuel economy standards, evaluating manufacturers' plans for complying with those standards, and preparing a statutorily-required annual review of those standards.

COMMENT CLOSING DATE: May 11, 1977.

PROPOSED EFFECTIVE DATE: The date that the final rule is published in the FEDERAL REGISTER.

ADDRESS: Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, S.W., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Anees Adil, Office of Automotive Fuel Economy, National Highway Traffic Safety Administration, Washington, D.C. 20590, 202–755–9384. Stephen Kratzke, Office of Chief Counsel, National Highway Traffic Safety Administration, Washington, D.C. 20590, 202–426–2992.

SUPPLEMENTARY INFORMATION:

STATUTORY BACKGROUND

Part A of Title III of the Energy Policy and Conservation Act (P.L. 94–163) amended the Motor Vehicle Information and Cost Savings Act by adding a new title V entitled, "Improving automotive efficiency." That title (15 U.S.C. 2001 et seq.) requires the Secretary of Transportation to implement a program to improve the fuel economy of automobiles. The Secretary has delegated his authority under title V to the NHTSA Administrator (41 FR 25015, June 22, 1976).

The urgency of the need to improve automotive fuel efficiency has been clearly established. Domestic petroleum consumption has exceeded domestic petroleum production since the end of World War II. Domestic production peaked in 1970 and has since declined while domestic consumption was and is increas-

V4269 APR 11 77 UMI

ing at high rates. The gap between domestic production and consumption has now increased to the point where over 40 percent of domestic petroleum consumption is currently supplied by imported petroleum. By 1990, the Federal Energy Administration estimates that, in the absence of corrective measures, a regular annual import dependence in excess of 50 percent is likely with an attendant petroleum related negative trade balance of $60 billion.

Fuels consumed for transportation are derived virtually 100 percent from petroleum and account for 53 percent of all petroleum consumed in this country. The automobile plays a critical role in this country's transportation scheme and economy. It is, and will continue to be for the foreseeable future, the most universally accepted form of personal transportation, accounting for 90 percent of all personal travel. Thus, the potential exists for major savings through improvements in automotive fuel efficiency.

Title V divides automobiles into two categories, passenger automobiles, and automobiles other than passenger automobiles. Automobiles in the latter category have been termed "nonpassenger automobiles" in the proposed Part 523 on vehicle classification (41 FR 55368, December 20, 1976). The passenger automobile category includes vehicles such as sedans and station wagons. The nonpassenger automobile category includes vehicles such as pickup trucks, vans, campers, and general purpose vehicles with a gross vehicle weight rating (GVWR) of less than 6,000 pounds. Future rulemaking may raise the GVWR limit on nonpassenger automobiles to as high as 10,000 pounds.

Section 502(a) of title V establishes fuel economy standards for passenger automobiles of 18 miles per gallon (mpg), 19 mpg, 20 mpg, and 27.5 mpg for model years 1978, 1979, 1980, and 1985 and thereafter, respectively. The Administrator is required to establish the standards for model years 1981–84 administratively. Each of the 1981–84 standards must be set at a level which is the maximum feasible average fuel economy level and which results in steady progress toward meeting the 1985 standard. In determining maximum feasible average fuel economy, the NHTSA is required by section 502(e) of title V to consider: (1) technological feasibility, (2) economic practicability, (3) the effect of other Federal motor vehicle standards on fuel economy, and (4) the national need to conserve energy.

Manufacturers of less than 10,000 passenger automobiles worldwide annually can obtain an exemption under section 502(c) from the passenger automobile fuel economy standards if they can show that their maximum feasible average fuel economy is less than that specified in the standards. If the Administrator does exempt a low volume manufacturer, he must establish an alternative standard for that manufacturer.

Under section 502(b) of the title, fuel economy standards for nonpassenger automobiles are to be established by the Administrator for model year 1979 and thereafter. Like the standards for passenger automobiles, the nonpassenger automobile standards are to be set at the level of maximum feasible average fuel economy.

All of the standards under section 502 are average fuel economy standards. They do not set minimum requirements for individual vehicles. Instead, they set minimum requirements for the production-weighted average fuel economy of each manufacturer's fleet of passenger automobiles or nonpassenger automobiles, as the case may be. A manufacturer may produce automobiles whose fuel economy is below the applicable standard without becoming subject to a civil penalty as long as those automobiles are balanced by others of the manufacturer's automobiles whose fuel economy is above the standard. Thus, both the technology of a manufacturer's automobiles and its annual production mix are important elements of the title V fuel economy program.

All of the section 502 standards, except the passenger automobile standards for model years 1978–1980, are also subject to amendment. Section 502(f) of title V provides that the standards may be raised or lowered as long as the Administrator observes the statutory considerations mentioned above regarding maximum feasible average fuel economy.

Section 505(a) of title V requires each automobile manufacturer to submit semiannual reports to the NHTSA regarding the average fuel economy of its automobiles for the current model year. In these reports, the manufacturers are required by section 502(a) to indicate whether they will comply with the average fuel economy standards for that model year. They are also required to describe the steps they have taken and the steps they plan to take to comply with those standards and to provide such other information as the Administrator may require. If a manufacturer indicates in a semiannual report that it will comply with the standards for the current model year and then discovers later in that model year before the submission of the next semiannual report that it will not comply, the manufacturer is required by section 502(a) to submit a revised or supplementary plan showing any additional steps that it intends to take to improve its average fuel economy. Section 505(a)(3) requires the Administrator to prescribe rules establishing the form and content of these semiannual reports.

To apprise Congress of the progress of the fuel economy program and the effects of the fuel economy standards, section 502(a)(2) requires the Administrator to submit an annual review of the standards established for the current and future model years. Much of the current model year information needed for these reports can be obtained from the semiannual reports required by section 505(a). To obtain information relevant to future model year fuel economy standards, as well as for other purposes, the Administrator has been provided authority under section 505(c)(1) of title V to require manufacturers to make reports to aid him in carrying out his duties under title V. The reports that would be required by the regulation proposed in this notice rely on the authority in section 505 (a) and (c).

Necessity for Proposed Reports

The reports proposed in this notice are necessary to comply with requirements in section 505(a) for semiannual reports and for revised or supplementary reports to be submitted by the manufacturers, and in section 502(a) for the agency to submit an annual review of the standards established under section 502 for future model years. The reports are also necessary for maintaining the up-to-date data base that the agency needs to develop, establish, amend, and enforce standards on which the country will depend as a major source of petroleum conservation. The fuel economy standards will have profound affects on the automobile industry and its suppliers as well as on consumers. The information that would be obtained under this proposal is necessary to enable the agency to conduct a sensitive, responsive regulatory program that achieves its full potential for conserving energy, while minimizing any adverse effects on the consumers, automobile industry and national economy.

Ensuring that the standards are well-founded would aid also in defending them should they be challenged in court. The substantial civil penalties provided in section 508 of title V provide an incentive for such challenges. The civil penalty for violating a fuel economy standard is $5 for each tenth of a mile per gallon by which the violating manufacturer falls below the standard multiplied by the total number of automobiles subject to that standard.

The necessity for obtaining this information will be a regularly recurring one arising from several provisions of title V. The most obvious provisions are those setting forth the requirements for the semiannual manufacturer reports and for the annual agency reviews. In addition, there will be a recurring need to establish new passenger automobile standards and nonpassenger automobile standards for future model years. Finally, there will be a continuous need for information relevant to raising or lowering the future standards in view of the need both to conserve as much petroleum as possible and to avoid the consequences of overly stringent standards. Rulemaking to raise a standard for a particular future model year must be completed 18 months before that model year.

Several alternatives to including requirements for future model year information in the proposed regulation were considered to obtain the information necessary for the statutorily-required annual review of the future fuel economy standards and for establishing and revising those standards.

One alternative was sending the manufacturers a questionnaire requesting them to submit the needed information voluntarily. This alternative was rejected for several reasons. First, due to the voluntary nature of this approach, the responses would be likely to be untimely, incomplete, and differing in their format. In some cases, no response might be forthcoming. This belief is buttressed by our experience last year in trying to obtain responses to questionnaires sent to manufacturers of nonpassenger automobiles and to our advance notice of proposed rulemaking on fuel economy standards for 1981–84 passenger automobiles. With respect to timeliness, it is also supported by the Environmental Protection Agency's experience with its annual request for manufacturers to submit information regarding the emissions of their future model year vehicles and their related emissions research, development and testing activity.

Second, use of questionnaires would result in recurring delays in the information-gathering process. Since the agency desires to gather information from more than nine manufacturers, the questionnaire would have to go through a time-consuming annual review process under the Federal Reports Act. Further, since the manufacturers would not know in most instances precisely what information would have to be included in their response until they received the periodic questionnaire, they could not begin gathering and generating the requested information without risking some needlessly incurred costs. As a result, additional delay would occur. In contrast, the proposed reporting requirements need be reviewed only once, prior to promulgation, under the Federal Reports Act. Since the regulation would apply from year to year in a like manner, the manufacturers would have the necessary advance knowledge and certainty about the requirements to enable them to begin preparation of their reports long before the due dates for their reports.

Another alternative was to use general and special orders under section 505(b) of title V. Since this approach would make submision of information mandatory, it would avoid the questionnaires' problems of incompleteness and untimeliness. In these respects, the orders would be comparable to the proposed reporting requirements. However, the orders would still share the disadvantages of delay posed by the questionnaires. Due to those implicit delays, this alternative was rejected too.

Applicability of Proposed Regulation

In this notice and in a notice of proposed rulemaking on the manufacture of multistage automobiles (42 FR 9040, February 14, 1977), an effort is made to strike a balance between the agency's need for information to conduct a sensitive, responsive program that accomplishes the purposes of title V and the burden that reporting requirements can place on manufacturers, especially small ones.

Manufacturers of exempted passenger automobiles. The proposed reporting regulation attempts to minimize the burden on low volume manufacturers of passenger automobiles by providing that manufacturers exempted under section 502(c) need not include future model year information in their semiannual reports. Provision of that information in those reports would be largely unnecessary since a considerable amount of future model year information would be obtained from those manufacturers in their exemption petitions under proposed Part 525 (41 FR 53287, December 9, 1976). Comments are requested whether low volume manufacturers, even if not exempted, should be excused from providing future model year information. Comments are also requested whether low volume manufacturers ought to be relieved of the necessity for providing certain types of current model year information also. Due to the small impact which these manufacturers have on the industry average fuel economy for passenger automobiles, their requirements for reporting current model year information might be limited to projected average fuel economy, model type fuel economy and technology, automobile technology and sales mix changes, marketing measures, and additional compliance efforts.

Manufacturers of multistage automobiles. The multistage automobile proposal attempts to minimize the reporting burden on small manufacturers of multistage passenger automobiles or nonpassenger automobiles. Multistage automobiles are automobiles produced by two or more manufacturers. There are three types of those manufacturers: incomplete automobile manufacturers, intermediate manufacturers, and final-stage manufacturers. The incomplete automobile manufacturer, i.e., the manufacturer that assembles the frame and chassis structure, power train, steering system, suspension system, and braking system, is generally a large manufacturer. The intermediate manufacturer is the manufacturer, other than the incomplete automobile manufacturer or final-stage manufacturer, which performs manufacturing operations on an incomplete automobile. The intermediate manufacturer is usually a small manufacturer. The final-stage manufacturer, i.e., the manufacturer that completes the production of the multistage automobile except for addition of readily attachable components and minor finishing operations, is also typically a small manufacturer. That proposal would make the incomplete automobile manufacturer responsible for compliance with the title V reporting requirements, as well as the standards and labeling requirements, in most instances. The incomplete automobile manufacturer would be responsible for compliance with those standards and requirements unless the intermediate or final-stage manufacturer exceeds certain maximum specifications established by the incomplete automobile manufacturer or unless the final-stage manufacturer sells a multistage automobile as one manufactured in a model year subsequent to the model year during which the incomplete automobile manufacturer produced its portion of that automobile. Even in the unlikely event that an intermediate or final-stage manufacturer exceeded those specifications or a final-stage manufacturer sold a multistage automobile as one manufactured in a subsequent model year, that manufacturer would not assume full responsibility for complying with this proposed reporting regulation. That manufacturer would only be required to submit limited information about its current model year automobiles. Other information regarding those automobiles would still be submitted by the incomplete automobile manufacturer. Further, the intermediate or final-stage manufacturer that assumes responsibility as the manufacturer of multistage automobiles would not be required to submit any future model year information since its assuming responsibility is anticipated to be an irregularly recurring event at best, and since information about the primary determinants of the fuel economy of future model year multistage automobiles would be submitted by the incomplete automobile manufacturers.

General Contents of and Leadtime for Reports

The proposed regulation would require the manufacturers to submit the detailed information specified in the regulation according to a uniform format. The information would be arranged according to whether it related to the current model year or future model years. Within each of these two groupings, the information would be grouped according to type of automobile, i.e., passenger automobile and nonpassenger automobile. The items of information on each type of automobile would be provided in a prescribed order and, in some cases, form. The detailed nature of the required information and the uniformity of the format are necessary to ensure that the agency obtains the information needed to implement title V and to enable the agency to conduct an effective, comparative evaluation of the information received from the different manufacturers. Comments are requested on scope of the information required (including suggestions for the addition or deletion of items of information), the detailed nature of the information required, and the proposed format.

With respect to level of detail, one issue is the degree of disaggregation of a manufacturer's fleet of passenger automobiles or nonpassenger automobiles. Should information for the current and future model years be provided for vehicle configurations, model types, carlines, or size classes (e.g., subcompact, compact, mid-size, and large)? The reporting burden would presumably be greatest at the vehicle configuration level and least at the size class level, although provision of information regarding one level of disaggregation would imply at least some knowledge of the manufacturer about the same information at greater levels of disaggre-

V4269 APR 11 77 UMI

gation. Should information be provided for inertia weight classes? Use of inertia weight classes is believed to be appropriate in making comparisons between two groups of automobiles that do not, or at least may not, have comparable model types. One example is comparing automobiles from two different model years. The introduction and elimination of model types complicate such comparisons. Another example is comparing passenger automobiles and nonpassenger automobiles.

The semiannual report to be submitted just before the beginning of a model year would be called the "pre-model year report" and the report to be submitted at the middle of a model year would be called the "mid-model year report." Section 505(a)(1) specifies the schedule for submitting these reports. The pre-model year report must be submitted during the 30-day period immediately preceding a model year. The mid-model year report must be submitted during the 30-day period beginning on the 180th day of a model year.

The pre-model year report would contain information regarding both the current model year and future model years. The mid-model year report would contain information about the current model year only. Section 505(a) requires that both reports contain the current model year information. It is proposed to require that the future model year information be included in the pre-model year report since that would ensure that the information available for the annual review due the following January is as current as possible.

Comments are requested on whether there is any demonstrable need to depart from this practice in the first model year due to leadtime considerations. For model year 1978, the future model year information could be included in the 1978 mid-model year report instead of the 1978 pre-model year report. The reason for this departure would be that preparation of the future model year information could be more difficult than preparation of the current model year information. While the leadtime for preparation of inclusion of the current model year information in the 1978 pre-model year report is deemed adequate, the leadtime for including future model year information in that report may not be adequate.

The agency recognizes that providing detailed information on some topics, especially with respect to model years more than several years in the future, may be difficult. Accordingly, it is proposed that manufacturers be permitted to submit the required information as an estimate or as a set or range of alternatives. Any maufacturer taking advantage of this opportunity would be required to state the basis for the estimates or alternatives, the major uncertainties associated with them, and the most likely value in the case of an estimate and the most likely alternative in the case of a set or range of alternatives. Comments are requested on the adequacy of providing this opportunity as a compromise between this agency's need for future model year information and the difficulty of the manufacturers in precisely stating some of the information. Comments are also requested on whether this opportunity should be provided with respect to both current and future model year information or to future model year information only.

CURRENT MODEL YEAR INFORMATION

The items of current model year information to be submitted are discussed below.

Projected average fuel economy. The manufacturer would be required to project, using available data, the average fuel economy of its passenger automobiles and nonpassenger automobiles.

Since the projection mentioned above would be based on data current at the time of the pre-model or mid-model year report and would not reflect data regarding running changes to be made or new model types to be introduced later during the model year, the manufacturer would be required to state the final average fuel economy that it anticipates achieving if that figure would reflect those changes and model types. If the projected final average fuel economy would not be different; then the first projection would be the manufacturer's statement whether it would comply with the average fuel economy standard for the current model year. If the projected final average fuel economy were different, it would be the manufacturer's statement regarding compliance.

If the manufacturer believed that either the projection for the passenger automobiles or nonpassenger automobiles was not sufficiently accurate for the purposes of title V, the manufacturer would have to state the reasons for that belief, describe the nature of and reason for the inaccuracy, and state the additional testing or derivation of fuel economy values necessary and any plans of the manufacturer for undertaking that testing or derivation. This information would be needed by the agency in enforcing the standards and in assessing civil penalties for noncompliance or awarding civil penalty credits for exceeding the standards. In addition, if the manufacturers reported any inaccuracies affecting these aspects of title V, the agency would consider whether to recommend to the Environmental Protection Agency that it amend its fuel economy testing and calculation procedures to require additional fuel economy information to be submitted by the manufacturers. Based on presently available information, this agency believes that the current procedures provide a sound basis for implementing title V and is unaware of any contrary suggestion by any manufacturer.

Model type fuel economy and technical information. The manufacturer would be required to provide fuel economy values for each model type of its automobiles and describe the fuel economy related technical information and specifications of each vehicle configuration on which the model type's fuel economy values were based.

Automobile technology and sales mix changes. The manufacturer would have to describe the differences between the technology and sales mix of its automobiles for the current model year and the technology and sales mix of its automobiles for the preceding model year that will result in the manufacturer's automobiles for the current model year having better fuel economy. The manufacturer would also be required to describe any further changes that it intends to make in the technology and sales mix in the automobiles for the current model year to improve the average fuel economy of those automobiles.

Reduction of (CID) (N/V). In general, fuel economy can be improved by reducing the product (CID) (N/V) of the cubic inch displacement of the engine multiplied by the total drive ratio. Each manufacturer would be required to state the lowest (CID) (N/V) that would allow reasonable performance for each model type, and state the range of cubic inch displacements and total drive ratios that could be combined to produce this minimum (CID) (N/V). The manufacturer would have to explain why it believes that performance at a lower (CID) (N/V) would be unreasonable.

The minimum (CID) (N/V) that would allow reasonable performance for a particular model type may vary as a result of other factors such as the transmission type used in the automobile. Comments are requested on the identity of these other factors and whether the manufacturer should be required to identify these other factors, and show the different minimum (CID) (N/V) value possible for each variant of such other factors.

Each manufacturer would also be required to quantify the potential fuel economy improvement for each model type that would be realized if that model type were equipped with the minimum (CID) (N/V) which would allow reasonable performance for that model type.

Marketing measures. The proposed regulation would require the manufacturer to describe its use of marketing measures to encourage the purchase of more fuel economical sales mix of its automobiles. Specifically, the manufacturer would be required to describe its use of pricing, advertising and dealer incentives to increase the average fuel economy of its automobiles. To put those efforts in context, the manufacturer would also be required to describe its total array of pricing, advertising and dealer incentive measures for selling its automobiles. Inclusion of this information is required by the provision in section 502(a) regarding steps taken to comply with the fuel economy standards.

The marketing information would enable the agency to assess the extent to which a manufacturer's marketing efforts for its automobiles correlate with the fuel economy of its automobiles. In making this assessment, the agency would look, for example, at the price differentials between an automobile with power consuming and weight adding options and the same automobile without those options and an automobile with a low (CID) (N/V) value and the same automobile with a high (CID) (N/V) value.

Similarly, the agency would look at the value of dealer incentives and level of advertising devoted to automobiles with differing fuel economies. The incentive information would include monetary and nonmonetary incentives for selling particular automobiles and options. The advertising information would provide the agency with insight into the manufacturer's use in its advertising of fuel economy figures approved by the Environmental Protection Agency and of data about the fuel economy of comparable automobiles. It would also provide the agency with an indication of the manufauctuer's plans to make greater use of specific labeling to aid consumers in determining the fuel costs of relatively high (CID) (N/V) values and of various options. The advertising information would also show what aspects of automobile performance are going to be mentioned in the manufacturer's advertising and the relative ranking to be given those aspects of performance.

Additional compliance efforts. If the manufacturer's projected average fuel economy for the current model year is less than the applicable average fuel economy standard for that model year, the manufacturer would be required to describe the additional steps, i.e., technological improvements, sales mix changes, and marketing measures, that it could undertake to achieve compliance with that standard while minimizing the additional costs.

Impact of other Federal automobile standards on fuel economy. Responsible administration of the automobile fuel economy, safety, emissions, noise, and damage susceptibility programs requires knowledge of the effect of each program's standards on the other regulated aspects of automobile performance. The tradeoffs between these different types of performance must be understood since all five types cannot be individually and simultaneously optimized. The validity of this proposition is recognized in section 502(e)(3) which requires the Administrator to consider the impacts of the emissions, safety, damage susceptibility, and noise standards when determining maximum feasible average fuel economy.

Accordingly, a statement would have to be made whether the fuel economy achievable under the emissions, safety, damage susceptibility, and noise standards for the current model year is more or less than the fuel economy that would have been achievable under those categories of standards for the immediately preceding model year. One of the changes in those standards that might be claimed as reducing fuel economy is the adoption of a very stringent NOx standard due to its alleged effect on the feasibility of diesel engines. Others are the adoption of new or more stringent safety and damage susceptibility standards and the initial establishment of noise standards which, due to the weight they would add to an automobile, could move the automobile into a higher inertia weight class.

Model year 1975 is proposed as the base year for the semiannual reports for model year 1978 since much of title V and its legislative history, including discussion of estimated benefits from the fuel economy program, were premised upon the Federal automobile standards in effect during that model year. Use of those standards as the bases for comparison in model year 1978 would enable the agency to demonstrate in future model years the extent to which, if at all, the adoption of emission, safety, damage susceptibility, and noise standards more stringent than the model year 1975 standards has affected the achievability of title V when enacted.

Comments are requested whether the base year for this comparison should be sliding or fixed and what the base year should be in either case. These comments should discuss the comparative accuracy of a sliding and a fixed base in determining the impact of the other Federal automobile standards. Further, should the base year for passenger automobiles be the same as that for nonpassenger automobiles? Comments are also requested on the value of maintaining a cumulative tradeoff account of those impacts and on the appropriate methods for maintaining that account.

If a claimed loss of fuel economy could have been reduced or avoided by use of means available for that purpose, the manufacturer would have to explain why it chose not to employ those means. For example, if the manufacturer regarded the cost of available technology as excessive, it would be required to explain why it regarded those costs to be excessive.

The up-to-date fuel economy impact information is needed by the agency so that it can determine the validity of the manufacturer's earlier predictions regarding the impacts and can establish a reliable basis for evaluating and comparing the impacts predicted by the manufacturers for future model years. The necessity of providing the information should also ensure that those predictions are made as accurately as possible.

For model years 1978–1980, a manufacturer would not be required to report the impact information for any of the four categories of other automobile standards (emissions, safety, damage susceptibility, and noise) for which the manufacturer submits a petition under section 502(d) for reduction of the passenger automobile fuel economy standards due to changes in one or more of those categories of standards.

Impacts of efforts to comply with average fuel economy standards on automobile performance. For the reasons set forth in the beginning of the discussion of the impact of other automobile standards on fuel economy, the manufacturer would be required to provide information on the effects of its efforts to improve average fuel economy of its current model year automobiles on the safety, damage susceptibility, noise emissions, pollutant emissions, driveability, gradeability, and acceleration capability of those automobiles and on the cost of complying with the Federal safety, emissions, damage susceptibility, noise, and emissions standards for that model year. Among the impacts that might be claimed are:

Downsizing would make an automobile less crashworthy, even though the automobile still complied with all applicable Federal safety standards, if no compensatory improvements were made in vehicle structure.

Weight reduction through removal of sound insulation would increase interior noise.

Reduction of (CID) (N/V) would reduce gradeability and acceleration capability.

Use of diesel engines would increase interior and exterior noise and particulate emissions.

Sales mix shifts leading to lower average inertia weight would make the fleet less crashworthy if compensatory steps were not taken.

Efforts to improve fuel economy by reducing the margin of compliance with emissions, safety, damage susceptibility, and (if established) noise standards would increase emissions, damage susceptibility, and noise, and decrease safety.

This impact information is needed to determine the validity of earlier impact predictions by the manufacturer and to establish a reliable basis for evaluating and comparing the impact predicted by the manufacturers for future model years. Further, it should ensure that those predictions are made with a high degree of accuracy.

Material composition. The manufacturer would be required to state the average percentage by weight that certain raw and finished materials constitute of all materials used in its automobiles. Then the manufacturer would indicate the total tonnage of each of those same raw and finished materials used in all of its automobiles. This information is needed by the agency for determining some of the environmental impacts of the fuel economy program and for monitoring the impacts of that program on the supply of these materials.

Costs. To inform the agency about the cost impacts of the average fuel economy standards, the manufacturer would be required to indicate the increases or decreases in each component of the manufacturer's fixed and variable manufacturing costs of its automobiles in each inertia weight class, compared to the immediately preceding model year, that occurred as a result of the standard for the current model year. The manufacturer would then state the impact of these cost differences on the manufacturer's suggested retail price of its automobiles, and on the retail price of replacement equipment for those automobiles. A statement would also have to be made regarding the impact of the manufacturer's standard compliance efforts on the life cycle operating and maintenance costs of its automobiles.

Gross income and market share. The proposed regulation would require the

V4269 APR 11 77 UMI

manufacturer to state the extent to which any difference in its gross income and market share for the current model year and that for the immediately preceding model year is due to the manufacturer's efforts to comply with the average fuel economy standards for the current model year. To facilitate the market share analysis, the market would be broken down into the classes of automobiles used by the Environmental Protection Agency in its labeling regulations for comparing the fuel economy of comparable automobiles. This information is needed by the agency for assessing any competitive effects of the standards.

Engine-system combinations and fuel systems. This portion of the proposed regulation would require the manufacturer to discuss the differences between engine family-exhaust emission control systems combinations and between fuel systems of its passenger automobiles and nonpassenger automobiles in the same inertia weight class. It is assumed that passenger automobiles and nonpassenger automobiles of similar inertia weight could have similar engine family-emission control systems combinations and fuel systems. When the manufacturer has chosen not to install the more fuel efficient combination or system on passenger automobiles and nonpassenger automobiles of similar inertia weight, the manufacturer would have to explain the basis for its decision.

FUTURE MODEL YEAR INFORMATION

The information to be submitted regarding the future model years would relate to the same general subjects as the information for the current model year. Except for the portion of the pre-model year reports submitted for model years 1978 and 1979 with respect to passenger automobiles, "future model years" would mean the five model years immediately following the current model year. This period was picked because the manufacturers' product plans generally extend that far into the future. For the portion of the model year 1978 and 1979 pre-model year reports relating to passenger automobiles, the period will extend forward seven and six model years, respectively. The purpose of extending farther ahead with respect to those model years is to include the 1985 model year for which a satutory standard has been specified for passenger automobiles. This extended application is necessary to comply with section 502 (a) which requires that the annual review due in January 1979 include a comprehensive analysis of the program, including an assessment of the ability of the manufacturers to meet the average fuel economy standard specified in that section for model year 1985 passenger automobiles.

In this regard, comments are requested on how to ensure that future model year information regarding manufacturers whose model year approximates the calendar year is available in time for incorporation in the annual review. If a manufacturer's model year does not begin until January 1, its pre-model year report with the future model year information would not be submitted before December 1. One solution might be to require manufacturers whose model year begins on January 1 or during the preceding several months to include their future model year information in their mid-model year report for the preceding model year. Thus their future model year information would be submitted during the late spring or early summer and that of other manufacturers would be submitted several months later.

The items of future model year information to be provided by the manufacturers are described below.

Projected average fuel economy. The proposed regulation would require the manufacturer to project the average fuel economy of the portion of each future model year fleet of automobiles sold in all States except California and of automobiles sold only in California, and the average economy of both of those groups of automobiles combined.

Model type fuel economy and technical information. The manufacturer would be required to provide the same model type information for its future model year automobiles as for its current model year automobiles. In addition, the manufacturer would be required to provide the average inertia weight, cubic inch displacement of the engine, and total drive ratio for each model type. The manufacturer would not be required to provide detailed information on the vehicle configurations used to calculate the fuel economy of the model type, unless that information was necessary to explain the projected changes in fuel economy for a given model type.

Current fuel economy technology. By "current fuel economy technology," the proposed regulation means technology that has been developed to the point that it can be scheduled for introduction into production. For most manufacturers, the substitution of lighter materials in the hood, deck lid, bumpers, cylinder heads, and cast parts such as the intake manifold and pump housing is an example of current fuel economy technology. The manufacturer would be required to describe each item of current fuel economy technology, e.g., a diesel engine, and each current fuel economy technological means, e.g., downsizing, whose use the manufacturer has plans for expanding or introducing in its future model year automobiles. With respect to these items and means of technology, the manufacturer would state the expected fuel economy gains, the plans, including leadtime schedules, for using those items and means, the capital requirements and other costs involved in implementing those plans, and the effect of using those items and means on automobile performance (except to the extent that this information is provided in the portion of the report regarding impacts of efforts to comply with average fuel economy standards on automobile performance), and on automobile purchase price and life cycle operating and maintenance costs. The plans should indicate at least the affected automobile size classes and the penetration schedule. If there is any current fuel economy technology that would improve fuel economy and that the manufacturer does not plan to use, the manufacturer would have to explain why.

Future fuel economy technology. "Future fuel economy technology" means technology that has not been developed to the point that it can be scheduled for introduction into production. Examples of such technology include the Stirling engine and an efficient, low cost, continuously variable transmission. The proposed regulation would require the manufacturer to describe each of its ongoing or planned research, development, and testing projects in automobile technology that may aid in improving the fuel economy of the manufacturer's automobiles. With regard to those projects, the manufacturer would be required to state the anticipated fuel economy improvements, the schedule for completing the projects and the costs of completing the projects. For each item of technology that the projects would refine or develop, the manufacturer would describe the plans for incorporating that technology in its automobiles, the costs of incorporating that technology, and the effect of the technology on automobile performance (except to the extent that this information is provided in the portion of the report regarding impacts of effects to comply with average fuel economy standards on automobile performance), and on automobile purchase price and life cycle operating and maintenance costs. As in the case of plans for using current fuel economy technology, these plans would have to indicate the affected automobile size classes and the penetration schedule.

The manufacturer would also be required to describe any future technology with fuel economy improvement potential which has been considered and rejected as a subject of research, development or testing activity, and explain the reasons for the rejection. Some future fuel economy technology may be obtainable from other developers or refiners of fuel economy technology. The manufacturers would have to deseribe the known items of future technology that are being refined or developed by those parties and that will be available for automobile manufacturers to incorporate in any of their future model year automobiles. The fuel economy improvement potential of each such item and the manufacturer's plans to use that item or reasons for having no such plans would have to be stated.

Finally, a description would have to be provided of the manufacturer's alternative plans for improving fuel economy if the technological refinements and developments anticipated by the manufacturer do not occur as scheduled or yield less than the expected level of fuel economy improvement.

Automobile technology and sales mix changes. For each future model year for which there is an applicable average fuel economy standard, the proposed regulation would require the manufacturer to describe the differences between the technology and sales mix of the manufacturer's automobiles for that model year and that of its automobiles for the preceding model year that will improve the average fuel economy of the manufacturer's automobiles.

Weight reduction. The manufacturer would be required to state the maximum extent to which the weight of each model type of its current model year automobiles could be reduced by the last future model year without reducing the number of designated seating positions or the space inside the passenger or cargo areas of the automobiles. The method of these weight reductions would have to be described.

Reduction of (CID) (N/V). The manufacturer would be required to state whether the minimum (CID) (N/V) value provided for each model type in the current model year will change in the future model years. If there is a change, the manufacturer would be required to state the revised minimum (CID) (N/V) value, and explain why there is a change. The manufacturer would also be required to state what proportion of its future model year automobiles will be equipped with this minimum (CID) (N/V) value, and explain why that proportion can not be increased.

Technological differences between certain automobiles. The proposed regulation would require the manufacturer to identify its passenger and nonpassenger automobiles in the same inertia weight class that will have significantly different fuel economy and explain why steps will not be taken to improve fuel economy and thereby eliminate those differences. The manufacturer would also be required to identify the most fuel economical of its four, five, and six passenger sedans and station wagons and explain why its similar automobiles would not be designed to achieve the same level of fuel economy.

Marketing measures. The proposed regulation would require the manufacturer to describe how its marketing measures for the current model year could be changed in the future model years to improve the average fuel economy of its automobiles. Then the manufacturer would have to state whether it will make any of those changes in the first two future model years. If there are changes that will be made, the manufacturer would have to state what those changes will be and why they will be made. Similarly, if there are any changes that will not be made, the manufacturer would also have to explain its reasons for not planning to make them.

Additional compliance efforts. If the manufacturer's projected average fuel economy for any future model year was less than the applicable fuel economy standard for that model year, the manufacturer would have to provide the same type of information regarding additional compliance efforts that the manufacturer would have to supply for the current model year.

Impact of other Federal automobile standards on fuel economy. The manufacturer would have to provide for its future model year automobiles the same type of information it would provide regarding the impact of other Federal automobile standards on the fuel economy of its current model year automobiles. The predicted impacts would be based on the technology that is reasonably likely to be available in those future model years.

Impacts of efforts to comply with average fuel economy standards on automobile performance. For each future model year for which there is an applicable average fuel economy standard, the same type of information that the manufacturer would provide regarding the impact of its efforts to improve the average fuel economy of its current model year automobiles on the safety, noise, emissions, and damageability of those automobiles would have to be provided for the manufacturer's future model year automobiles.

Availability of capital. For each future model year for which there is an applicable average fuel economy standard, the proposed regulation would require the manufacturer to state whether and how it will be able to obtain sufficient capital to achieve the fuel economy projected by the manufacturer for that model year, or the fuel economy required by the standard, whichever level is higher. Manufacturers claiming an insufficiency of capital would have to demonstrate that sufficient existing or anticipated capital could not be allocated to its efforts to improve average fuel economy and that sufficient additional capital can not be obtained.

Costs. The proposed regulation would require the manufacturer to state, for each inertia weight class of its automobiles to be produced in each future model year for which there is an applicable average fuel economy standard, the same type of information regarding the impacts of changes in manufacturing costs and the impacts of standard compliance efforts on automobile operating and maintenance costs that the manufacturer would be required to submit for its current model year automobiles.

Shifts in consumer demand. For each future model year for which there is an applicable average fuel economy standard, the manufacturer would have to state and quantify to the extent possible any shifts in consumer demand which the manufacturer believes that that standard may cause (1) between automobiles of different sizes, styles and performance capabilities, and (2) between that manufacturer's automobiles and the automobiles of other manufacturers. The basis for believing that any shifts would occur would be required to be explained.

Gross income and market share. For each future model year, the manufacturer would have to provide the same type of information regarding gross income and market share that it would be required to provide for the current model year.

SUPPLEMENTARY REPORTS

Under this proposal, a supplementary report containing updating, correcting information would have to be submitted during a model year when a projected average fuel economy figure previously submitted during that model year by the manufacturer for the current or a future model year has significantly changed, or when a statement concerning the accuracy of a projected average fuel economy standard for the current model year has become erroneous or incomplete. Section 505(a) requires the submission of revised or supplementary reports when a manufacturer has reported that it will comply with the average fuel economy standards and then discovers that its previously reported plan is insufficient for that purpose. Authority under section 505 (a) and (c) would be used to require supplementary reports to correct outdated future model year information too.

In developing the criteria governing the circumstances in which supplementary reports must be submitted, the agency considered using a subjective approach; e.g., requiring a revision whenever there was a response which had become "seriously misleading in light of changed circumstances." This type of approach was not proposed since the NHTSA felt that it would leave too much uncertainty about when a supplementary report was required and might result in too little or too much supplementary reporting. To avoid this problem, the agency proposes the quantified approach described below. The agency is proposing a progressively rising threshold for the minimum change in the projected average fuel economy that will trigger the submission of a supplementary report. This rising threshold approach is proposed because of the greater uncertainty associated with the information underlying fuel economy projections for future model years, especially the more distant ones, and thus the greater likelihood of changes in the underlying information and projected averages. The rising threshold should keep the amount of supplementary reporting regarding the future model years to a reasonable level.

The threshold for the current model year and the first future model year would be a decrease of 0.1 mpg that would leave the manufacturer not more than 0.3 mpg above a standard for that model year. The 0.3 mpg threshold is proposed since the average may fall by more than 0.1 mpg at a time. The agency wishes to be advised of a developing noncompliance before it happens. Any decrease below that threshold is deemed significant. This very low threshold reflects the need of the agency to monitor the manufacturer's compliance efforts for the current model year continuously for enforcement purposes. Manufacturers whose projected average for either model year increased would not be required to submit supplementary reports.

The threshold for the second and third future model years would be any net increase or decrease of 0.3 mpg, regardless of where that decrease would leave

V 42169 APR 11 77 UMI

the manufacturer with respect to the applicable average fuel economy standard for that model year. Manufacturers whose fuel economy increases by that amount would become subject to the supplementary reporting requirements since there would still be sufficient time before those model years under the 18 month rule in section 502(f) to amend the standard to make it more stringent.

The threshold for the more distant future model years would be any net decrease or increase of 0.5 mpg. The reason for the difference between this threshold and the one for the two preceding future model years is the greater uncertainty associated with the projections for the more distant future model years.

Comments are specifically invited on the appropriateness of the rising threshold approach as well as the level of each of the thresholds and the interval between them. Comments are also invited on whether there should be any limit on the number or frequency of supplementary reports.

In the case of a supplementary report required to be submitted because of a change in projected average fuel economy for a model year, the manufacturer would be required to state the new projection, explain the reason for the change in the projection, and show how the facts underlying the change affect the information that the manufacturer previously submitted to the NHTSA in the most recent semiannual report regarding that model year and in any subsequent supplementary reports. For example, a manufacturer reporting for the first time that its previously reported plan will not enable it to comply with the applicable fuel economy standard would have to describe its plans for any additional compliance efforts. For supplementary reports submitted to correct errors or aspects of incompleteness in previous statements about the accuracy of a projected average fuel economy for the current model year, the manufacturer would have to submit whatever information is necessary to correct the errors or eliminate the aspects of incompleteness in such statements in the most recent semiannual report and subsequent supplementary reports.

Supplementary reports would be required to be submitted within 30 days after the manufacturer determined, or, with reasonable diligence, could have determined that a projected average had changed sufficiently to require a supplementary report or that there were errors or aspects of incompleteness in its previous comments about the accuracy of a projection for the current model year. However, a supplementary report regarding changes in current model year information would not be required within 60 days of the last day on which the mid-model year report for the current model year may be submitted or after the last day on which the pre-model year report for the next model year is required to be submitted unless a determination about the necessity of a report was made or could have been made before either of those cut-off dates. A supplementary report for changes in future model year projections would not be required within 60 days of the last day on which the pre-model year report for the next model year is required to be submitted unless a determination about the necessity of a report was made or could have been made before that cut-off date.

Submission of Confidential Information

The proposed regulation would require the manufacturer to identify any information in its reports that it requests to be withheld from the public disclosure. With respect to information and data claimed by the manufacturer to fall within 5 U.S.C. 552(b) (4), the manufacturer would be required to show that the information fell within section 552(b) (4) and that its disclosure would result in significant competitive damage; indicate the period during which that damage would be incurred if the information and data were released; and show that an earlier release would result in that damage.

If the Administrator denied a manufacturer's request for confidential treatment, he would give the manufacturer written notice of the denial ten days before releasing the information. If the Administrator agreed that certain information was entitled to confidential treatment, he would not later invoke his authority under section 505(d)(1) of title V to release the information during an administrative or judicial proceeding under that title without first giving written notice to the manufacturer.

The reports, except those portions granted confidential treatment and not later released under section 505(d)(1) would be available for inspection in the docket section of the agency.

Additional General Matters

The proposed regulation would permit manufacturers to incorporate by reference any document other than a report, petition, or application, or portion thereof submitted to any Federal department or agency more than two model years before the current model year. For example, a report submitted under the proposed regulation for model year 1979 could be incorporated in a report submitted under the regulation for model year 1981, but a report submitted for model year 1978 could not be incorporated in that 1981 report. Another example of a document that might be incorporated in an application to the Environmental Protection Agency for certification of conformity with the emissions standards. Any document incorporated by reference would have to be appended to the report in which it is incorporated. The policy of permitting recent model year documents, but not earlier documents, is intended to strike a balance between the agency's need for an up-to-date, manageable report and the burden on the manufacturers submitting reports under the proposed regulation.

Fuel economy values for current model year automobiles would be based on data submitted to the Environmental Protection Agency. Fuel economy values for future model year automobiles would be based on tests and analytically derived data developed under procedures comparable to those permitted by that agency. Comments are requested on the method that the manufacturers would use to select the appropriate automobiles for the purpose of calculating the average fuel economy of their future model year automobiles under the Environmental Protection Agency's calculation procedure.

Section 503(b) and implementing regulations of the Environmental Protection Agency provide special rules for treatment of captive import passenger automobiles in calculating average fuel economy. Manufacturers should follow those rules in calculating average fuel economies for current and future model years.

Failure to submit a report required by the proposed regulation would be a violation of section 507(3) of title V and subject the violating manufacturer to a civil penalty of $10,000 for each violation. Each day of a continuing violation, such as the failure to submit a report, constitutes a separate violation.

Implementation Costs

The total annual cost of implementing this proposed regulation is expected to be less than $3,500,000 for the manufacturers and the Federal government. The share of the manufacturers would be $3,300,000 and that of the Federal government would be $200,000. The costs to the manufacturers would consist primarily of the additional administrative costs incurred to generate, gather, tabulate, and submit the required information. The total costs for a manufacturer's semiannual and supplementary reports for a model year will range between $500,000 for a large manufacturer and $5,000 for a low volume manufacturer exempted under section 502(c) of title V.

Impact Assessments

In accordance with Executive Orders 11821 and 11949, a review of this action was undertaken to determine whether it met the criteria for a "major action" requiring the preparation of an Economic Impact Statement. The review indicated that the costs and economic impacts of this action are less than those set forth in the criteria and that therefore an Economic Impact Statement is not needed.

It is the judgment of this agency, based on available information, that no significant environmental impact will result from execution of this action.

In consideration of the foregoing, it is proposed that a new Part 537, Automotive Fuel Economy Reports, be added to Title 49 of the Code of Federal Regulations, to read as set forth below.

All comments received before the close of business on the comment closing date indicated at the beginning of this proposal will be considered, and will be available for examination in the docket at the above address both before and after the closing date. To the extent possible, comments filed after the closing date will also be considered. The agency will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

The program official and lawyer principally responsible for the development of this proposal are Anees Adil and Stephen Kratzke, respectively.

Issued in Washington, D.C. on April 7, 1977.

ALAN A. BUTCHMAN,
Acting Administrator.

PART 537—AUTOMOTIVE FUEL ECONOMY REPORTS

Sec.

537.1 Scope.
537.2 Purpose.
537.3 Applicability.
537.4 Definitions.
537.5 General requirements for reports.
537.6 Contents of reports.
537.7 Automobiles for current model year.
537.8 Automobiles for future model years.
537.9 Supplementary reports.
537.10 Determination of fuel economy values and average fuel economy.
537.11 Incorporation by reference.
537.12 Public inspection of information.
537.13 Confidential information.

AUTHORITY: Sec. 9, Pub. L. 89-670, 80 Stat. 931 (49 U.S.C. 1657); Sec. 301, Pub. L. 94-163, 89 Stat. 901 (15 U.S.C. 2005); delegation of authority at 41 FR 25015, June 22, 1976.

§ 537.1 Scope.

This part establishes requirements for automobile manufacturers to submit reports to the National Highway Traffic Safety Administration regarding their efforts to improve automotive fuel economy.

§ 537.2 Purpose.

The purpose of this part is to obtain information to aid the National Highway Traffic Safety Administration in evaluating automobile manufacturers' plans for complying with average fuel economy standards, in establishing and modifying average fuel economy standards, and in preparing an annual review of the average fuel economy standards.

§ 537.3 Applicability.

This part applies to automobile manufacturers.

§ 537.4 Definitions.

(a) *Statutory terms.* (1) The terms "average fuel economy standard," "fuel," "manufacture," and "model year" are used as defined in section 501 of the Act.

(2) The term "manufacturer" is used as defined in section 501 of the Act and in accordance with Part 529 of this chapter.

(3) The terms "average fuel economy," "fuel economy," and "model type" are used as defined in Subpart A of 40 CFR Part 600.

(4) The terms "automobile" and "passenger automobile" are used as defined in section 501 of the Act and in accordance with the determinations in Part 523 of this chapter.

(5) The term "damage susceptibility" is used as defined in section 2(13) of the Motor Vehicle Information and Cost Savings Act.

(b) *Other terms.* (1) The terms "engine-system combination" and "fuel system" are used as defined in Subpart A of 40 CFR Part 85.

(2) The term "loaded vehicle weight" is used as defined in Subpart A of 40 CFR Part 86.

(3) The terms "axle ratio," "base level," "body style," "car line," "city fuel economy," "combined fuel economy," "engine code," "gross vehicle weight," "highway fuel economy," "inertia weight," "transmission class," and "vehicle configuration," are used as defined in Subpart A of 40 CFR Part 600.

(4) The term "nonpassenger automobile" is used as defined in Part 523 of this chapter and in accordance with determinations in that part.

(5) The terms "approach angle," "axle clearance," "breakover angle," "cargo carrying volume," "departure angle," "passenger carrying volume," "running clearance," and "temporary living quarters" are used as defined in Part 523 of this chapter.

(6) The term "final stage manufacturer" and "intermediate manufacturer" are used as defined in Part 529 of this chapter.

(7) The term "designated seating position" is used as defined in § 571.3 of this chapter.

(8) As used in this part, unless otherwise required by the context:

(i) "Act" means the Motor Vehicle Information and Cost Savings Act (Pub. L. 92-513), as amended by the Energy Policy and Conservation Act (Pub. L. 94-163).

(ii) "Administrator" means the Administrator of the National Highway Traffic Safety Administration or the Administrator's delegate.

(iii) "Current model year" means:

(A) In the case of a pre-model year report, the full model year immediately following the period during which that report is required by § 537.5(b) to be submitted.

(B) In the case of a mid-model year report, the model year during which that report is required by § 537.5(b) to be submitted.

(iv) "Average" means a production-weighted average.

(v) "(CID) (N/V)" means the product of multiplying the cubic inch displacement of an automobile's engine by the total drive ratio of that automobile.

(vi) "HP/IWT" means the ratio of SAE net horsepower to inertia weight.

(vii) "Future model years" means the five model years immediately following a current model year, except that in the case of passenger automobiles:

(A) When the current model year is model year 1978, the term means the seven model years immediately following that model year.

(B) When the current model year is model year 1979, the term means the six model years immediately following that model year.

(viii) "Manufacturing costs" mean the following costs of manufacturing automobiles:

(A) Variable material costs, (B) Variable labor costs, (C) Material overhead costs, (D) Labor overhead costs, (E) Warranty costs.

(ix) "Performance" means an automobile's:

(A) Safety, (B) Damage susceptibility, (C) Interior and exterior noise emissions, (D) Regulated and unregulated air pollutant emissions, (E) Driveability, (F) Gradeability, and (G) Acceleration capability.

(x) "Sales mix" means the number of automobiles, and the percentage of a manufacturer's annual total production of automobiles, in each vehicle configuration or model type which the manufacturer plans to produce in a specified model year.

(xi) "Total drive ratio" means the ratio of vehicle engine rotational speed (in revolutions per minute) to vehicle forward speed (in miles per hour).

§ 537.5 General requirements for reports.

(a) For each current model year, each manufacturer shall submit a pre-model year report, a mid-model year report, and, as required by § 537.9, supplementary reports.

(b) (1) The pre-model year report required by this part for each current model year must be submitted not more than 30 days and not less than 1 day before the 1st day of that model year.

(2) The mid-model year report required by this part for each current model year must be submitted not earlier than the 180th day and not later than the 209th day of that model year.

(3) Each supplementary report must be submitted in accordance with § 537.9 (c).

(c) Each report required by this part must:

(1) Identify the report as a pre-model year report, mid-model year report, or supplementary report, as appropriate;

(2) Identify the manufacturer submitting the report;

(3) State the full name, title, and address of the official responsible for preparing the report.

(4) Be submitted in 10 copies to: Administrator, National Highway Traffic Safety Admiinstration, 400 Seventh Street, S.W., Washington, D.C. 20590.

(5) Identify the current model year;

(6) Be written in the English language; and

(7) (i) Specify any part of the information in the report that the manufacturer believes should be withheld from public disclosure as trade secret or other confidential business information.

(ii) With respect to information and data requested by the manufacturer to be withheld under 5 U.S.C. 552(b)(4) and 15 U.S.C. 2005(d)(1), the manufacturer shall:

(A) Show that the information and data are within the scope of sections 552(b)(4) and 2005(d)(1);

V4269 APR 11 77 UMI

(B) Show that disclosure of the information and data would result in significant competitive damage;

(C) Specify the period during which the information and data must be withheld to avoid that damage; and

(D) Show that earlier disclosure would result in that damage.

(d) Each report required by this part must be passed upon all information available to the manufacturer 30 days before the report is submitted to the Administrator.

(e) (1) Any manufacturer may provide any item of information required by this part as an estimate, or as a set or range of alternatives.

(2) Any manufacturer submitting estimates, or sets or ranges of alternatives as permitted by paragraph (e) (1) of this section, shall state:

(i) The basis for determining them,

(ii) The major uncertainties associated with them, and

(iii) The most likely value in the case of an estimate and the most likely alternative in the case of a set or range of alternatives.

§ 537.6 Contents of reports.

(a) *Pre-model year report.* Except as provided in paragraph (d) of this section, the pre-model year report for model year 1978 and for each model year thereafter must contain the information required by §§ 537.7(a) and 537.8(a).

(b) *Mid-model year report.* Except as provided in paragraph (d) of this section, the mid-model year report for model year 1978 and for each model year thereafter must contain the information required by § 537.7(a).

(c) *Supplementary report.* Each supplementary report must contain the information required by § 537.9.

(d) *Exceptions.* (1) The pre-model year report and the mid-model year report for model year 1978 are not required to contain the information specified in § 537.7 (b)(2), (g), (l), (k), or (1)(2) with respect to nonpassenger automobiles for that model year.

(2) In any model year for which a manufacturer has been exempted under section 502(c) of the Act, the pre-model year report and the mid-model year report submitted by that manufacturer for that model year are not required to contain the information specified in § 537.8(b)–(q).

(3) In any model year that an intermediate manufacturer or a final-stage manufacturer becomes the manufacturer of an automobile under § 529.6 of this chapter, the pre-model-year report and the mid-model year report submitted by that manufacturer for that model year are not required to contain the information specified in § 537.7(h)–(m) or in § 537.8(b)–(q).

§ 537.7 Automobiles for the current model year.

(a)(1) Provide the information required by paragraphs (b)–(1) of this section for the manufacturer's passenger automobiles for the current model year.

(2) After providing the information required by paragraph (a)(1) of this section, provide the information required by paragraphs (b)–(1) of this section for each class, as specified in part 533 of this chapter, of the manufacturer's nonpassenger automobiles for the current model year.

(3) After providing the information required by paragraph (a)(2) of this section, provide the information required by paragraph (m) of this section for the manufacturer's passenger automobiles and nonpassenger automobiles for the current model year.

(b) *Projected average fuel economy.* (1) State the projected average fuel economy for the manufacturer's automobiles determined in accordance with § 537.10 and based upon the fuel economy values and projected sales figures provided under paragraph (c)(2) of this section.

(2) State the final average fuel economy that the manufacturer anticipates having for the current model year if the changes described under paragraph (d)(1)(ii) or (d)(2)(ii) will cause that average to be different from the average fuel economy projected under paragraph (b)(1) of this section.

(3) State whether the manufacturer believes that the projection provided under paragraph (b) (1) or (2) of this section represents the manufacturer's average fuel economy for the current model year with sufficient accuracy for the purposes of the Act. In the case of a manufacturer that believes that either projection is not sufficiently accurate for those purposes, state the specific nature of and reason for the inaccuracy and the specific additional testing or derivation of fuel economy values by analytical methods necessary and any plans of the manufacturer to undertake that testing or derivation voluntarily and submit the resulting data to the Environmental Protection Agency.

(c) *Model type fuel economy and technical information.* (1) For each model type of the manufacturer's automobiles, provide the information specified in paragraph (c)(2) of this section in tabular form. List the model types in order of increasing average inertia weight from top to bottom down the left side of the table and list the information categories in the order specified in paragraph (c)(2) of this section from left to right across the top of the table.

(2) (i) City fuel economy;

(ii) Highway fuel economy;

(iii) Combined fuel economy;

(iv) Projected sales for the current model year; and

(v) Manufacturer's average suggested retail price.

(3) For each vehicle configuration whose fuel economy was used to calculate the fuel economy values for a model type under paragraph (c) (2) of this section, provide the information specified in paragraph (c) (4) of this section in tabular form. List the vehicle configurations, by model type in the order listed under paragraph (c) (2) of this section, from top to bottom down the left of the table and list the information categories across the top of the table from left to right in the order specified in paragraph (c) (4) of this section.

(4) (i) Loaded vehicle weight;

(ii) Intertia weight;

(iii) Cubic inch displacement of engine;

(iv) Number of engine cylinders;

(vi) Engine code;

(vii) Fuel system (number of carburetor barrels or, if fuel injection is used, so indicate);

(viii) Emission control system;

(ix) Transmission class;

(x) Number of forward speeds;

(xi) Existence of overdrive (indicate yes or no);

(xii) Total drive ratio;

(xiii) Axle ratio;

(xiv) City fuel economy;

(xv) Highway fuel economy;

(xvi) Combined fuel economy;

(xvii) Projected sales for the current model year;

(xviii) (A) In the case of passenger automobiles, interior volume index, determined in accordance with Subpart D of 40 CFR Part 600;

(B) In the case of nonpassenger automobiles:

(1) Passenger-carrying volume, and

(2) Cargo-carrying volume;

(xix) Number of designated seating positions;

(xx) Performance of the function described in § 523.5(a)(5) of this chapter (indicate yes or no);

(xxi) Existence of temporary living quarters (indicate yes or no);

(xxii) Body style;

(xxiii) Approach angle;

(xxiv) Departure angle;

(xxv) Breakover angle;

(xxvi) Axle clearance;

(xxvii) Minimum running clearance;

(xxviii) Existence of 4-wheel drive (indicate yes or no);

(xxix) Features other than those specified in paragraphs (c)(4)(xxiii)–(xxviii) of this section that the manufacturer believes make the automobile capable of off-highway operation;

(xxx) Frontal area;

(xxxi) Road load power at 50 miles per hour, as determined under 40 CFR Part 86;

(xxxii) Optional equipment which the manufacturer is required under 40 CFR Parts 86 and 600 to have on the vehicle configuration for fuel economy testing purposes; and

(xxxiii) Manufacturer's suggested retail price.

(5) For each vehicle configuration for which the manufacturer is required to provide the information specified in paragraph (c)(4) of this section, provide a graph showing a continuous curve of velocity and acceleration versus time for the vehicle configuration when accelerated from a standing start to 60 miles per hour under the conditions and in accordance with the procedures specified in § 575.106(d) of this chapter.

(6) The fuel economy values provided under paragraphs (c) (2) and (4) of this section shall be determined in accordance with § 537.10.

(d) *Automobile technology and sales mix changes.* (1) For each inertia weight class of the manufacturer's automobiles:

(i) Describe the differences between the technology of its automobiles for the current model year and of its automobiles for the immediately preceding model year that result in its automobiles for the current model year having higher fuel economy than its automobiles for the immediately preceding model year.

(ii) Describe any changes that the manufacturer intends to make in technology of its automobiles for the current model year that will improve the fuel economy of those automobiles.

(2) (i) Describe any differences in the sales mixes of the manufacturer's automobiles for the current model year and of the manufacturer's automobiles for the immediately preceding model year that result in its automobiles for the current model year having higher average fuel economy than its automobiles for the immediately preceding model year.

(ii) Describe any changes that the manufacturer intends to make in the sales mix of its automobiles for the current model year that will improve the fuel economy of those automobiles.

(e) *Reduction of (CID), (N/V).* (1) List the model types of the manufacturer's automobiles for the current model year in order of increasing average inertia weight and state for each model type:

(i) The minimum (CID) (N/V) that would provide reasonable levels of driveability, gradeability, and acceleration capability for that model type, and

(ii) The ranges of cubic inch displacement of the engine and of total drive ratio that could be used for the minimum (CID) (N/V) stated under paragraph (e)(1)(i) of this section.

(2) For each minimum (CID) (N/V) provided under paragraph (e)(1) of this section, explain the basis, including any supporting market research data, for selecting that (CID) (N/V) and demonstrate that levels of driveability, gradeability and acceleration capability achieveable at lesser (CID) (N/V) values would be unreasonable.

(3) For each model type of the manufacturer's automobiles:

(i) Estimate the fuel economy change that would occur if each automobile in that model type had the minimum (CID) (N/V) stated for that model type under paragraph (e)(1) of this section, and

(ii) Explain the method for estimating the amount of improvement.

(f) *Marketing measures.* (1) Describe and, to the extent possible, quantify the manufacturer's efforts to promote the sales of each of its model types of automobiles for the current model year, listed in order of increasing average inertia weight, including the manufacturer's efforts relating to the following measures:

(i) Advertising,

(ii) Pricing, and

(iii) Incentives offered by the manufacturer to its dealers to sell that model type and to sell each equipment option.

(2) Describe and quantify the extent to which efforts described under paragraph (f)(1)(i)–(iii) of this section have aided and will aid the manufacturer in improving the average fuel economy of its automobiles for the current model year.

(g) *Additional compliance efforts.* In the case of each manufacturer whose average fuel economy projected for the current model year under paragraph (b)(2) of this section or, if an average is not projected under that paragraph, whose average projected under paragraph (b)(1), is less than the applicable average fuel economy standard for the current model year, describe the additional technological improvements, sales mix changes and marketing efforts, other than those described under paragraph (d)(2) of this section, that could be undertaken to achieve compliance with that standard and that would minimize any additional costs to the manufacturer and quantify those additional costs.

(h) *Impact of other Federal standards on fuel economy.* (1)(i) For model year 1978, compare the impact of the standards for each model type in the current model year in the following categories of motor vehicle standards on the fuel economy or on the cost of improving the fuel economy of the manufacturer's automobiles with the impact that the standards for model year 1975 in those categories would have had on that fuel economy or those costs if those model year 1975 standards were the only standards for the current model year in those categories:

(A) Emissions standards under section 202 of the Clean Air Act; 42 U.S.C. 1857f–1, and emission standards applicable under section 209(b) of that Act, 42 U.S.C. 1857f–6a;

(B) Motor vehicle safety standards under the National Traffic and Motor Vehicle Safety Act of 1966, 15 U.S.C. 1381 et seq;

(C) Noise emission standards under section 6 of the Noise Control Act of 1972, 42 U.S.C. 4905; and

(D) Property loss reduction standards under Title I of the Motor Vehicle Information and Cost Savings Act, 15 U.S.C. 1901 et seq.

(ii) For model year 1979 and each model year thereafter, provide the information required by paragraph (h)(1)(i) of this section, except the comparison shall be based on standards for the model year immediately preceding the current model year instead of the standards for model year 1975.

(2) Explain any difference described under paragraph (h)(1) of this section between the impact of the standards in the categories specified in paragraph (h)(1)(i) of this section for the current model year and that of the standards in those categories for model year 1975 or the model year immediately preceding the current model year, as specified in paragraph (h)(1) of this section.

(3) For each impact described under paragraph (h)(1) of this section which could have been lessened by technological means, identify each of those means, indicate the extent to which and manner in which each of those means would have reduced that impact, and explain why each of those means were not used.

(4) For each impact described under paragraph (h)(1) of this section which the manufacturer believes could not have been lessened by technological means, explain the reasons for that belief.

(5) A manufacturer is not required by paragraph (h)(1)–(2) of this section to submit information regarding a category of standards, specified in paragraph (h)(1) of this section, for model year 1978, 1979, or 1980, if that manufacturer has submitted a petition under Part 527 of this chapter claiming that that category of standards for that model year has caused a reduction in the fuel economy achievable in that model year.

(i) *Impacts of efforts to comply with average fuel economy standards on automobile performance.* Describe the effects of the manufacturer's efforts to comply with the applicable average fuel economy standard for the current model year on:

(1) The performance of the manufacturer's automobiles for that model year, and

(2) The cost of complying with the standards for that model year in each category of standards specified in paragraph (h)(1)(i) of this section.

(j) *Material composition.* (1) For each of the raw or finished materials used in the manufacturer's automobiles for the current model year and specified in paragraph (j)(3) of this section, state in tabular form:

(i) The percentage which each of those materials constitutes of the total average weight of those automobiles, and

(ii) The total tonnage of each of those materials used in those automobiles.

(2) List the materials and components in the order specified in paragraph (j)(3) of this section down the left side of the table, divide the table into two vertical columns, and indicate the percent composition in column 1 and the total tonnage used in column 2.

(3) (i) Steel. (A) Alloy steel, (B) aluminized steel, (C) carbon steel, (D) galvanized steel, (E) stainless steel.

(ii) Iron, (A) cast iron, (B) maleable iron.

(iii) Tires. (iv) Aluminum. (v) Plastics. (vi) Glass. (vii) Batteries. (viii) Copper. (ix) Chromium. (x) Magnesium.

(xi) Other raw or finished materials (specify).

(k) *Costs.* (1) (i) For each inertia weight class of the manufacturer's automobiles, state the differences between each component of the manufacturing costs of the manufacturer's automobiles for the current model year and each component of those costs for the manufacturer's automobiles for the model year immediately preceding the current model year that is due to the manufacturer's efforts to comply with the applicable average fuel economy standard for the current model year.

(ii) Explain the reasons for each of the differences stated under paragraph (k)(1)(i) of this section.

V 4 2 6 9 A P R 1 1 7 7 UMI

(2) Estimate the effect of the portions of those differences due to the compliance efforts specified in paragraph (k)(1) of this section on:

(i) The manufacturer's suggested retail price for its automobiles for the current model year; and

(ii) The retail price of replacement equipment for those automobiles.

(3) Estimate the effect of the manufacturer's compliance efforts specified in paragraph (k)(1) of this section on each component of the life cycle maintenance and operating costs of the manufacturer's automobiles for the current model year.

(l) *Gross income and market share.* (1) For the model year immediately preceding the current model year and for the current model year, state:

(i) The gross income of the manufacturer from the sale of its automobiles in each comparable class of automobiles, as described in 40 CFR Part 600, for each of those model years; and

(ii) The manufacturer's absolute and percentage shares of the market for each comparable class of automobiles, as described in 40 CFR Part 600, for each of those model years.

(2)(i) State the extent to which any differences in the gross income figures or in the market shares stated under paragraph (l)(1) of this section are due to the manufacturer's efforts to comply with the applicable average fuel economy standard for the manufacturer's automobiles for the current model year.

(ii) Explain the basis for stating under paragraph (l)(2)(i) of this section that any difference in gross income or market share are due to the manufacturer's fuel economy compliance efforts.

(m) *Engine-system combinations and fuel systems.* (1) List the model types of the manufacturer's passenger automobiles for the current model year in order of increasing average inertia weight and for each model type describe any differences between the engine-system combinations and fuel systems installed in the manufacturer's passenger automobiles in that model type and those combinations and systems installed in the manufacturer's nonpassenger automobiles in model types which have the same average inertia weight as that model type of passenger automobiles.

(2) For each set of differing combinations or systems described under paragraph (m)(1) of this section:

(i) Identify the combination or system which contributes more to improved fuel economy;

(ii) Explain the reason for and quantify the greater contribution of the combination or system identified under paragraph (m)(2)(i) of this section;

(iii) Estimate the improvement in fuel economy that would occur if the combination or system identified under paragraph (m)(2)(i) of this section were substituted for the combination or system not identified under the paragraph on the manufacturer's automobiles equipped with the unidentified combination or system; and

(iv) **Explain the reasons for not having made the substitution described under paragraph (m)(2)(iii) of this section.**

§ 537.8 Automobiles for future model years.

(a)(1) After providing the information required by § 537.7, provide the information required by paragraphs (b)–(h) and (i)(2)–(q) of this section for the manufacturer's passenger automobiles for each future model year.

(2) After providing the information required by paragraph (a)(1) of this section, provide the information required by paragraphs (b)–(h) and (j)–(q) of this section for each class, as specified in part 533 of this chapter, of the manufacturer's nonpassenger automobiles for each future model year.

(3) After providing the information required by paragraph (a)(2) of this section, provide the information required by paragraph (i)(1) of this section for the manufacturer's passenger automobiles and nonpassenger automobiles for each future model year.

(b) *Projected average fuel economy.* (1) For each future model year, provide in tabular form the information specified in paragraph (b)(2) of this section about the manufacturer's automobiles for that model year based on the information provided by the manufacturer under and the assumptions specified in § 537.8(b). Average fuel economy values shall be determined in accordance with § 537.10. List each future model year down the left side of the table in chronological order and list the information categories across the top of the table from left to right in the order specified in paragraph (b)(2) of this section.

(2) (i) Average loaded vehicle weight.

(ii) Average HP/IWT.

(iii) Average axle ratio.

(iv) Projected total sales of the manufacturer's automobiles.

(v) Average fuel economy of the manufacturer's automobiles for that model year subject to the Federal emissions standards under section 202 of the Clean Air Act, 42 U.S.C. 1857–1.

(vi) Average fuel economy of the manufacturer's automobiles for that model year subject to the California emissions standards applicable by reason of section 209(b) of the Clean Air Act, 42 U.S.C. 1857f–6a.

(vii) Average fuel economy of the manufacturer's automobiles for that model year subject to either the Federal or California emissions standards.

(c) *Model type fuel economy and technical information.* (1) For each future model year and for each model type of the manufacturer's automobiles for that model year, provide in the form specified in § 537.7(c)(1):

(i) The information specified in § 537.7(c)(2); and (ii) The following information: (A) Average inertia weight; (B) Average cubic inch displacement of engine; and (C) Average total drive ratio.

(iii) **If the information provided under paragraph (c)(1)(i) of this section for a particular model type is a different value than the information provided in § 537.7(c)(2) for the same model type explain the reasons for the difference.**

(2) (i) **In providing the information required by paragraph (c)(1)(i) of this section, use the Federal and California emissions standards, if known, applicable to the future model years.**

(ii) If any Federal emissions standard for a future model year is not known, assume that the standard is the same as the Federal emissions standard for the most recent model year for which the Federal standard is known.

(iii) If any California emissions standard for a future model year is not known, assume that the standard is the same as the Federal emissions standard known or assumed, a appropriate, for that model year, or as the California standard for the most recent model year for which the California standard is known, whichever standard is more stringent.

(3) The fuel economy values provided under paragraph (c)(1) of this section shall be determined in accordance with § 537.10.

(d) *Current fuel economy technology.* (1) Describe each item of current technology and each current technological means available to the manufacturer for improving automobile fuel economy whose use the manufacturer's plans to introduce or expand in its automobiles for any future model year.

(2) For each item of technology or means described under paragraph (d)(1) of this section and for each future model year:

(i) State the fuel economy improvement that would result from installing that item or using that means in the manufacturer's automobiles for that model year and the basis for determining the stated improvement.

(ii) (A) Describe the manufacturer's plans, including production lead time schedules, for introducing or expanding the use of that item or means in the manufacturer's automobiles for that model year, the anticipated obstacles to implementing those plans, and the plans for overcoming those obstacles.

(B) In the case of a manufacturer which is not planning to introduce or expand the use of that item or means so that it will be incorporated in all of his automobiles by the last future model year, explain the reasons for not planning to do so.

(iii) State the capital requirements and other costs for incorporating that item or means in the manufacturer's automobiles for that model year.

(iv) Estimate the effect of incorporating that item or means in the manufacturer's automobiles for that model year on:

(A) The performance of those automobiles, except to the extent that the information is provided under paragraph (m) of this section.

(B) The manufacturer's average suggested retail price for those automobiles on the elements of fixed and variable costs leading to any increases in that price.

(C) The retail price of replacement equipment for those automobiles.

(D) The maintenance and operating costs of those automobiles.

(3) Describe each item of current technology and each current technological means available to the manufacturer for improving automobile fuel economy which the manufacturer considered but for which the manufacturer does not have any plans for introducing or expanding the use of that item or means in the manufacturer's automobiles by the last future model year and explain why use of that item or means will not be introduced or expanded by that model year.

(e) *Future fuel economy technology.* (1) (i) Describe each of the manufacturer's ongoing or planned future technology projects that may aid in improving the fuel economy of the manufacturer's automobiles and the goals of each project, including the technology that the project is intended to refine or develop.

(ii) State the reason for undertaking or planning each project described under paragraph (e)(1)(i) of this section, including an indication whether the project is based upon one or more of the categories of standards specified in § 537.7(h)(1)(i).

(iii) State the potential fuel economy improvement obtainable from each project described under paragraph (e)(1)(i) of this section and the basis for determining the stated improvement.

(iv) State the highlights, including key developmental stages, of the schedule for completing each project described under paragraph (e)(1)(i) of this section.

(v) State the anticipated obstacles to adhering to the schedule for and to achieving the fuel economy improvement objectives of each project described under paragraph (e)(1)(i) of this section, including each project's relationship to or dependency on other projects of the manufacturer described under paragraph (e)(1)(i) of this section.

(vi) Describe the manufacturer's plans for overcoming each obstacle described under paragraph (e)(1)(v) of this section.

(vii) State each component of the fixed and variable costs of completing each project described under paragraph (e)(1)(i) of this section.

(viii) For each item of technology described under paragraph (e)(1)(i) of this section:

(A) State the first model year in which that item will be available for incorporation in the manufacturer's automobiles.

(B) Describe the plans, including the production lead time schedules, for incorporating that item in the manufacturer's automobiles, the anticipated obstacles to implementing those plans and the plans for overcoming those obstacles.

(ix) State the capital requirements and other costs for incorporating each item of technology described under paragraph (e)(1)(i) of this section in the manufacturer's automobiles.

(x) For each item of technology described under paragraph (e)(1)(i) of this section and for each future model year, estimate the effect of implementing the plans described for that item under paragraph (e)(1)(viii)(B) on:

(A) The performance of those automobiles, except to the extent that the information is provided under paragraph (m) of this section.

(B) The manufacturer's average suggested retail price for those automobiles and on each component of fixed and variable costs leading to any increases in that price.

(C) Retail price of replacement equipment for those automobiles.

(D) The maintenance and operating costs of those automobiles. State the labor and material costs separately.

(2) (i) Describe each item of technological capable of improving the fuel economy of the manufacturer's automobiles that the manufacturer considered and then rejected as a subject of its research and development activity.

(ii) State the potential fuel economy improvement obtainable from each item of technology described under paragraph (e)(2)(i) of this section.

(iii) Explain the reasons for rejecting each item of technology described under paragraph (e)(2)(i) of this section.

(3) (i) Describe each item of known future technology being developed by a developer, other than an automobile manufacturer, of automobile technology that will improve automobile fuel economy, that is likely to occur during the future model years, and that will be available for use by the manufacturer submitting information under this paragraph in automobiles by the last future model year.

(ii) State the potential fuel economy improvement obtainable from each item of technology described under paragraph (e)(3)(i) of this section.

(4) Describe the alternative plans for future fuel economy technology, including schedules, costs, and capital requirements, that can be developed and implemented by the manufacturer if the items of technology described under paragraphs (e)(1) and (3) of this section either do not occur as scheduled or yield less than the anticipated fuel economy improvements.

(f) *Automobile technology and sales mix changes.* (1) For each future model year and for each inertia weight class of the manufacturer's automobiles for that future model year:

(i) Describe the differences between the technology of its automobiles for that future model year and of its automobiles for the immediately preceding model year that will result in its automobiles for that future model year having higher fuel economy than its automobiles for the immediately preceding model year.

(ii) Describe any difference in the sales mixes of the manufacturer's automobiles for that future model year and of the manufacturer's automobiles for the immediately preceding model year that will result in its automobiles for that future model year having higher average fuel economy than its automobiles for the immediately preceding model year.

(g) *Weight reduction.* (1) For each inertia weight class of the manufacturer's automobiles for the current model year, state how much the weight of those automobiles could be reduced by the last future model year without reducing their number of designated seating positions and, in the case of passenger automobiles, their luggage capacity or cargo volume index, as appropriate, determined in accordance with Subpart D of 40 CFR Part 600, or, in the case of nonpassenger automobiles, their cargo carrying volume.

(2) Explain how the weight reductions described under paragraph (g)(1) of this section would be achieved and why a greater reduction could not be achieved.

(h) *Reduction of (CID) (N/V).* For each future model year:

(1) State whether the minimum (CID) (N/V) value provided in § 537.7(e)(1) for each model type will be the minimum (CID) (N/V) that would provide reasonable levels of driveability, gradeability, and acceleration capability in that future model year. If not, state the minimum (CID) (N/V) that will provide those levels, and explain the reasons for the changes in those levels.

(2) State the proportion of the automobiles for that future model year in each model type that will be equipped with the minimum (CID) (N/V) for that model type and explain why a higher proportion will not be achieved.

(i) *Technological differences between automobiles.* (1) For each model type of the manufacturer's passenger automobiles for any future model year whose equivalent inertia weight, as determined by its average loaded vehicle weight, is the same as the equivalent inerta weight of a model type of the manufacturer's nonpassenger automobiles for the same model year, as determined by its average loaded vehicle weight, and whose combined fuel economy differs by more than one-half per gallon from the combined fuel economy of that model type of nonpassenger automobile, state the reasons, including any technological and economic ones, for the manufacturer's not designing and equipping the model type with the lowest combined fuel economy so that its combined fuel economy will equal that of the model type with the highest combined fuel economy.

(2)(i) For each future model year, provide the information specified in § 537.7(c)(4) in the form specified in § 537.7(c)(3) for the vehicle configuration having the highest anticipated combined fuel economy in each of the following groups of the manufacturer's automobiles for that model year:

(A) Passenger automobiles, other than station wagons, with four designated seating positions.

(B) Passenger automobile station wagons with four designated seating positions.

(C) Passenger automobiles, other than station wagons, with five designated seating positions.

V 42 69 APR 11 77 UMI

(D) Passenger automobile station wagons with five designated seating positions.

(E) Passenger automobiles, other than station wagons, with six designated seating positions.

(F) Passenger automobile station wagons with six designated seating positions.

(ii) For each vehicle configuration described under paragraph (i)(2)(i) of this section, explain why the manufacturer's passenger automobile vehicle configurations with the same number of designated seating positions will not be designed and equipped to achieve the same combined fuel economy as that described vehicle configuration.

(j) *Marketing measures.* (1) For each future model year, describe how the manufacturer's marketing measures described under § 537.7(f) for the current model year could be changed in that future model year to improve the average fuel economy of the manufacturer's automobiles for that model year.

(2) For each of the first two future model years:

(i) Describe how the manufacturer's marketing efforts for that model year will differ from its marketing measures described under § 537.7(f) for the current model year and explain the reasons for the differences.

(ii) Explain the reason for not planning to make any marketing measure changes that are described under paragraph (j)(1) of this section, but not under paragraph (j)(2)(i) of this section.

(k) *Additional compliance efforts.* For each future model year, in the case of each manufacturer whose average fuel economy projected for that model year under paragraph (b) of this section is less than the applicable average fuel economy standard for that model year, described the additional technological improvements, sales mix changes and marketing efforts that could be undertaken to achieve compliance with that standard and that would minimize any additional costs to the manufacturer and quantify those additional costs.

(l) *Impact of other Federal automobile standards on fuel economy.* For each future model year:

(1) Compare the impact of the standards for that model year in the categories of standards specified in § 537.7(h)(1)(i) on the fuel economy or on the cost of improving fuel economy of the manufacturer's automobiles for that model year with the impact that the standards for the immediately preceding model year in those categories would have had on that fuel economy or those costs if those standards for that immediately preceding model year were the only standards for that future model year in those categories.

(3) Explain any differences between the impact described under paragraph (l)(1) of this section of the standards for that model year and that described under paragraph (l)(1) of this section of the standards for the immediately preceding model year.

(4) For each impact which is described under paragraph (l)(1) of this section and which could be lessened by technological means:

(i) Identify each of those means,

(ii) State the extent to which and manner in which each of those means would have reduced that impact, and

(iii) Explain why each of those means were not used.

(5) For each impact which the manufacturer believes could not be lessened by technological means, explain the reasons for that belief.

(m) *Impacts of efforts to comply with average fuel economy standards on automobile performance.* For each future model year for which there is an applicable average fuel economy standard, describe the effects of the manufacturer's efforts to comply with that standard on:

(1) The performance of the manufacturer's automobiles for that model year, and

(2) The cost of complying with the standards for that model year in each category of standards specified in § 537.7(h)(1)(i).

(n) *Availability of capital.* (1) For each future model year for which there is an applicable average fuel economy standard, state whether the manufacturer will be able to obtain sufficient capital to achieve the average fuel economy it projected for that model year under paragraph (b)(2)(vii) of this section or the applicable average fuel economy standard for that model year, whichever is higher.

(2) In the case of a manufacturer that states under paragraph (h)(1) of this section that there will be an insufficiency of capital, demonstrate that sufficient existing or anticipated capital cannot be allocated to fuel economy improvement purposes and that sufficient additional capital cannot be obtained.

(o) *Costs.* For each future model year for which there is an applicable average fuel economy standard:

(1) State, for each inertia weight class of the manufacturer's automobiles, the difference between each component of the manufacturing costs for the manufacturer's automobiles for that future model year and each component of those costs for the manufacturer's automobiles for the model year immediately preceding that future model year that is due to the manufacturer's efforts to comply with the applicable average fuel economy standard for that future model year.

(2) Explain the reasons for each difference stated under paragraph (o)(1)(i) of this section.

(p) *Shifts in consumer demand.* (1) For each future model year for which there is an applicable average fuel economy standard, describe and, to the extent possible, quantify the shifts which that standard may cause in consumer demand between automobiles of different sizes, styles, and performance capabilities and between the manufacturer's automobiles and automobiles of other manufacturers.

(2) Explain the basis, including any market research data, for determining any shifts under paragraph (p)(1) of this section.

(q) *Gross income and market share.* (1) For each future model year, estimate:

(i) The gross income of the manufacturer from the sale of its automobiles in each camparable class of automobiles, as described in 40 CFR Part 600, for that model year.

(ii) The manufacturer's absolute and percentage shares of the market for each comparable class of automobiles, as described in 40 CFR Part 600, for that model year.

(2) (i) State the extent to which any differences in the gross income figures or in the market shares estimated under paragraph (q)(1) of this section for any two consecutive model years for which there are applicable average fuel economy standards are due to the manufacturer's efforts to comply with the applicable average fuel economy standard for the manufacturer's automobiles for the second of those two model years.

(ii) Explain the basis for stating under paragraph (q)(2)(i) of this section that any differences in gross income or market share are due to the manufacturer's fuel economy compliance efforts.

§ 537.9 Supplementary reports.

(a)(1) Except as provided in paragraph (d) of this section, each manufacturer whose projected average fuel economy has changed to the extent described in paragraph (a)(1)(i), (ii), or (iii) of this section shall file a supplementary report containing the information specified in paragraph (b) (1) or (2), as appropriate, of this section.

(i) The average fuel economy projected by the manufacturer for its passenger automobiles or nonpassenger automobiles for the current model year or the first future model year has decreased from the projected average fuel economy most recently reported for those automobiles by the manufacturer under this part by 0.1 mile per gallon or more to a projected average less than 0.4 miles per gallon above the applicable average fuel economy standard for those automobiles.

(ii) The average fuel economy projected by the manufacturer for its passenger automobiles or nonpassenger automobiles for the second or third future model year has increased or decreased by 0.3 miles per gallon or more compared to the projected average fuel economy most recently reported for those automobiles by the manufacturer under this part, or

(iii) The average fuel economy projected by the manufacturer for its passenger automobiles or nonpassenger automobiles for any future model year other than those specified in paragraph (a)(1)(i) or (ii) of this section has increased or decreased by 0.5 miles per gallon or more compared to the projected average fuel economy most recently reported for those automobiles by the manufacturer under this part.

(2) Except as provided in paragraph (d) of this section, each manufacturer

whose previously submitted statements under § 537.7(b)(2), this section, or both, relating to the representativeness of its projected average fuel economy, additional data needed, or its plans for developing additional data for its passenger automobiles or nonpassenger automobiles for the current model year have become partially or wholly inaccurate or incomplete, shall file a supplementary report containing the information specified in paragraph (b)(3) of this section.

(b)(1) The supplementary report required by paragraph (a)(1)(i) of this section must contain:

(i) Such revisions of the information previously submitted by the manufacturer under this part regarding the automobiles for the current model year or first future model year whose average fuel economy has decreased to the extent specified in paragraph (a)(1)(i) of this section as are necessary to explain the effects of the decrease and its causes on the previously submitted information.

(ii) An explanation of the decrease in average fuel economy that led to the manufacturer's having to submit the supplementary report required by paragraph (a)(1)(i) of this section.

(2) The supplementary report required by paragraph (a)(1)(ii) or (iii) of this section must contain:

(i) Such revisions of the information previously submitted by the manufacturer under this part regarding the automobiles for the second or any subsequent future model years whose average fuel economy has increased or decreased to the extent specified in paragraph (a)(1)(ii) or (iii) of this section as are necessary to explain the effects of the increase or decrease and its causes on the previously submitted information.

(ii) An explanation of the increase or decrease in average fuel economy that led to the manufacturers' having to submit the supplementary report required by paragraph (a)(1)(ii) or (iii) of this section.

(3) The supplementary report required by paragraph (a)(2) of this section must contain:

(i) Such revisions of the information previously submitted by the manufacturer under § 537.7(b)(2), this section, or both, regarding the manufacturer's passenger automobiles or nonpassenger automobiles, as appropriate, for the current model year as are necessary to correct any inaccuracy or eliminate any incompleteness in that previously submitted information.

(ii) An explanation of the inaccuracy or incompleteness that led to the manufacturer's having to submit the report.

(c) Each report required by this section must be submitted in accordance with § 537.5(c) and not more than 30 days from the date that the manufacturer determined or could have, with reasonable diligence, determined that the report is required under paragraph (a) of this section.

(d)(1) A supplementary report regarding a manufacturer's automobiles for the current model year is not required to be submitted by the manufacturer under paragraph (a)(1)(i) or (2) of this section:

(i) With respect to information submitted under this part before the most recent semi-annual report submitted by the manufacturer under this part, or

(ii) When the date specified in paragraph (c) of this section occurs:

(A) During the 60-day period immediately preceding the last day on which the next mid-model year report is required to be submitted by the manufacturer under this part, or

(B) After the last day on which the next pre-model year report is required to be submitted by the manufacturer under this part.

(2) A supplementary report regarding a manufacturer's automobiles for any future model year is not required to be submitted by the manufacturer under paragraph (a) of this section:

(i) With respect to information submitted by the manufacturer under this part before the most recent pre-model year report submitted by the manufacturer under this part, or

(ii) When the date specified in paragraph (c) of this section occurs during the 60-day period immediately preceding the last day on which the next pre-model year report is required to be submitted by the manufacturer under this part.

§ 537.10 Determination of fuel economy values and average fuel economy.

(a) *Vehicle configuration fuel economy values.* For each vehicle configuration for which a fuel economy value is required under paragraph (c) of this section and for which a fuel economy value has been determined and approved under 40 CFR Part 600, the manufacturer shall submit that fuel economy value. For each vehicle configuration for which such a value does not exist, the manufacturer shall submit a fuel economy value based on tests or analyses comparable to those prescribed or permitted under 40 CFR Part 600 and a description of the test procedures or analytical methods.

(b) *Base level and model type fuel economy values.* For each base level and model type, the manufacturer shall submit a fuel economy value based on the values determined in accordance with paragraph (a) of this section and calculated in the same manner as base level and model type fuel economy values are calculated for use under Subpart F of 40 CFR Part 600.

(c) *Average fuel economy.* Average fuel economy shall be based upon fuel economy values calculated under paragraph (b) of this section for each model type and shall be calculated in accordance with 40 CFR 600.506, using the configurations specified in 40 CFR 600.506(a)(2), except that fuel economy values for running changes implemented and for base levels added are required only for those changes or additions made before the manufacturer's submission of a report under this part.

§ 537.11 Incorporation by reference.

(a) A manufacturer may incorporate by reference in a report required by this part any document other than a report, petition, or application, or portion thereof submitted to any Federal department or agency more than two model years before the current model year.

(b) A manufacturer that incorporates by reference a document in a report required by this part shall append that document to the report.

§ 537.12 Public inspection of information.

Except as provided in § 537.13, any person may inspect the information and data submitted by a manufacturer under this part in the docket section of the National Highway Traffic Safety Administration. Any person may obtain copies of the information available for inspection under this section in accordance with the regulations of the Secretary of Transportation in Part 7 of this title.

§ 537.13 Confidential information.

(a) Information made available under § 537.12 for public inspection does not include information for which confidentiality is requested under § 537.5(c)(7), is granted in accordance with section 505 of the Act and section 552(b) of Title 5 of the United States Code and is not subsequently released under paragraph (c) of this section in accordance with section 505 of the Act.

(b) *Denial of confidential treatment.* When the Administrator denies a manufacturer's request under § 537.5(c)(7) for confidential treatment of information, the Administrator gives the manufacturer written notice of the denial and reasons for it. Public disclosure of the information is not made until after the ten-day period immediately following the giving of the notice.

(c) *Release of confidential information.* After giving written notice to a manufacturer and allowing ten days for the manufacturer to respond, the Administrator may make available for public inspection any information submitted under this part that is relevant to a proceeding under the Act, including information that was granted confidential treatment by the Administrator pursuant to a request by the manufacturer under § 537.5(c)(7).

LOAN PROGRAMS—1973 AND SUBSEQUENT CROP PRICE SUPPORT PROGRAMS AND FARM STORAGE AND DRYING EQUIPMENT LOAN PROGRAM

Announcement of Interest Rate

The revised announcement by Commody Credit Corporation published on page 35403 of the FEDERAL REGISTER of October 1, 1974, as amended in the issue of March 31, 1975, at page 14347, in the issue of October 1, 1975, at page 45211, and in the issue of April 1, 1976, at page 13971, of the rate of interest applicable to price support programs on 1973 and subsequent crops or production and to financing the purchase or construction of farm storage facilities and drying equipment is hereby amended to announce the interest rate on such loans effective April 1, 1977.

Paragraph A1(c) of the announcement is amended to read as follows:

(c) For 1974 crops, for which applications are received on or after October 1, 1974, loans shall bear interest at the per annum rate of 9.375 percent from the date of disbursement through March 31, 1975, at the per annum rate of 6.125 percent from April 1, 1975, through September 30, 1975, at the per annum rate of 7.500 percent from October 1, 1975, through March 31, 1977, and at the per annum rate of 6.000 percent from April 1, 1977, until date of repayment.

Paragraph A1(d) is amended to read as follows:

(d) For 1975 crops, loans shall bear interest at the per annum rate of 6.125 percent from the date of disbursement through September 30, 1975, at the per annum rate of 7.500 percent from October 1, 1975, through March 31, 1977, and at the per annum rate of 6.000 percent from April 1, 1977, until date of repayment.

Paragraph A1(e) is amended to read as follows:

(e) For 1976 crops, loans shall bear interest at the per annum rate of 7.500 percent from the date of disbursement through March 31, 1977, and at the per annum rate of 6.000 percent from April 1, 1977, until the end of the initial loan period.

Paragraph A1(f) is added to read as follows:

(f) For 1977 crops, loans shall bear interest at the per annum rate of 6.000 percent from the date of disbursement until the end of the initial loan period.

Paragraph B is amended to read as follows:

B. FARM STORAGE AND DRYING EQUIPMENT LOAN PROGRAM

Loans made for the purchase, construction, erection, or installation of farm storage facilities or drying equipment shall bear interest as follows: Loans disbursed by CCC prior to April 1, 1977, on applications filed on or after October 1, 1974, shall bear interest at the per annum rate of 9.375 percent from the date of disbursement through March 31, 1975, at the per annum rate of 6.125 percent from April 1, 1975, through September 30, 1975, at the per annum rate of 7.500 percent from October 1, 1975, through March 31, 1977, and at the per annum rate of 7.000 percent from April 1, 1977, until date of repayment. Loans disbursed on or after April 1, 1977, shall bear interest at the per annum rate of 7.000 percent from the date of disbursement until date of repayment.

(Secs. 4 and 5, 62 Stat. 1070, as amended (15 U.S.C. 714 b and c); sec. 401 (a) and (b), 63 Stat. 1051, as amended (7 U.S.C. 1421 (a) and (b)).)

Signed at Washington, D.C. on April 4, 1977.

VICTOR A. SENECHAL,
Acting Executive Vice President, Commodity Credit Corporation.

[Docket 30679]

ATLANTA-DAYTONA BEACH/SARASOTA-BRADENTON NONSTOP PROCEEDING

Prehearing Conference

Notice is hereby given that a prehearing conference in the above-entitled proceeding is assigned to be held on May 24, 1977, at 9:30 a.m. (local time), in Room 1003, Hearing Room A, Universal North Building, 1875 Connecticut Ave., N.W., Washington, D.C., before Administrative Law Judge Richard V. Backley.

In order to facilitate the conduct of the conference, parties are instructed to submit one copy to each party and six copies to the Judge of (1) proposed statements of issues; (2) proposed stipulations; (3) proposed requests for information and for evidence; (4) statements of positions; and (5) proposed procedural dates. The Bureau of Operating Rights will circulate its material on or before May 6, 1977, and the other parties on or before May 16, 1977. The submissions of the other parties shall be limited to points on which they differ with the Bureau, and shall follow the numbering and lettering used by the Bureau to facilitate cross-referencing.

Dated at Washington, D.C., April 4, 1977.

HENRY M. SWITKAY,
Acting Chief Administrative Law Judge.

LONG-HAUL MOTOR CARRIER

Application for Air Freight Forwarder Authority

Notice is hereby given, pursuant to § 296.84 of the Board's Economic Regulations (14 CFR 296.84), that an application for air freight forwarder operating authority has been filed by:

Trailways Express, Inc., 1500 Jackson Street, Dallas, Texas 75201.

The above-named applicant is a long-haul motor carrier as defined by § 296.1 of the Board's Regulations.

Objections to this application may be filed with the Civil Aeronautics Board, Supplementary Services Division, pursuant to § 296.85 of the Board's Regulations, within thirty (30) days of the publication of this notice.

Dated at Washington, D.C., April 4, 1977.

JOHN V. COLEMAN,
Chief, Supplementary Services Division, Bureau of Operating Rights.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

PUBLIC DISPLAY PERMIT

Receipt of Application

Notice is hereby given that the following applicant has applied in due form for a Permit to take marine mammals for public display as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407); and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216).

Como Park Zoo, City of St. Paul, Hamline and Midway Parkway, St. Paul, Minnesota 55103 to take eight (8) California sea lions (*Zalophus californianus*) for public display.

The Applicant states that he would take beached and stranded animals off the California beaches, if obtainable, otherwise, the animals would be captured by a professional collector on or near Santa Cruz or San Migual Islands off Santa Barbara, California, with a hoop net on land or with a modified gill net in the water.

The animals will be acclimated at the collector's facility than shipped to the St. Paul facility by commercial aircraft and truck.

At the facility, the animals will be displayed in a pool 22 feet by 21 feet by 8 feet deep. The display also includes a show area and a moat area with an island haul-out area.

In addition, there are 4 indoor display and holding tanks ranging from 4 feet by 6 feet to 10 feet by 13 feet with depths from 2½ feet to 4 feet.

The sea lions are desired to provide recreational and educational benefits to the estimated 800,000 visitors that visit the facility annually.

The facility is not operated for profit. The Zoo Director has worked with various classes of marine mammals over thirty years, and his staff has over fifteen years experience.

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above described application have been inspected by a licensed veterinarian, who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

Documents submitted in connection with the above application are available for review in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.;
Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731; and
Regional Director, National Marine Fisheries Service, Southeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, within 30 days of the publication of this notice. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: April 4, 1977.

ROBERT J. AYERS,
Acting Assistant Director for Fisheries Management, National Marine Fisheries Service.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1977

Proposed Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed Additions to Procurement List.

SUMMARY: The Committee has received a proposal to add to Procurement List 1977 commodities and a service to be produced/provided by workshops for the blind or other severely handicapped.

COMMENTS MUST BE RECEIVED ON OR BEFORE: May 11, 1977.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT:
C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77.

If the Committee approves the proposed additions, all entities of the Government will be required to procure the commodities and service listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodities and service to Procurement List 1977, November 18, 1976 (41 FR 50975):

Class 6230

Desk Lamps, 6230-00-299-7771 (GSA Region 1 only). 6230-00-682-3423 (GSA Region 1 and Shelby Ohio Depot only).

Sic 7349

Janitorial/Custodial Service, Federal Building, 400 S. Clinton, Iowa City, Iowa.

C. W. FLETCHER,
Executive Director.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

STUDY GROUP ON GLOBAL ENVIRONMENTAL EFFECTS OF CARBON DIOXIDE

Change of Meeting Date

APRIL 3, 1977.

The meeting of the Study Group on Global Environmental Effects of Carbon Dioxide scheduled for April 30, 1977, as published in the FEDERAL REGISTER on April 1, 1977, FR Doc. No. 77-9906, page

V4269 APR 11 77 UMI

17515, has been postponed until May 21, 1977. The time and place of the meeting will remain the same—9:45 a.m. to 4 p.m., Delta Airport Group Room 7, Atlanta Georgia Airport.

HARRY L. PEEBLES,
Deputy Advisory Committee Management Officer.

[FR Doc.77-10714 Filed 4-8-77;8:45 am]

GENERAL ADVISORY COMMITTEE

Meeting

APRIL 7, 1977.

Pursuant to provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) in accordance with the purpose of Section 26 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2036) and Section 104(d) of the Energy Reorganization Act of 1974 (42 U.S.C. 5814), notice is hereby given that the General Advisory Committee will hold a meeting on April 27-29 at Los Alamos and Albuquerque, New Mexico. The following constitutes that portion of the Committee's agenda for the above meeting which will be open to the public. The open sessions on April 27 will be held in the "P" Decision Auditorium at Los Alamos Scientific Laboratory. Members of the public requiring directions may call telephone no. 667-4444 in Los Alamos.

APRIL 27—LOS ALAMOS SCIENTIFIC LABORATORY, LOS ALAMOS, N. MEX.

8:15-9 a.m.—Overview of Los Alamos Scientific Laboratory Programs.
9-11 a.m.—Briefings on LASL's Energy Programs.
11-12 noon—Briefing on the President's April 20 Energy Message.
1:30-2 p.m.—Briefing on Los Alamos Meson Production Facility (LAMPF) Program.
2-3 p.m.—Briefing on LASL's Biomedical and Environmental Programs.

In addition to the above agenda items, the Committee will meet in closed session with field staff and in sessions not open to the public under the authority of Section 10(d) of Pub. L. 92-463 as follows:

APRIL 27

3 p.m.-5:30 p.m.—*Solar Study Proposals.* The GAC will review proposals received in response to RFP No. EX-77-R-10-00017 (Exemptions (4) and (6) of 5 U.S.C. 552b(c)).

APRIL 28

8:15 a.m.-2. p.m.—*LASL's Weapons Program.* (Exemptions 1 and 3 of 5 U.S.C. 552b(c).)
2 p.m.-5:30 p.m.—*Solar Study Proposals.* (Exemptions (4) and (6) of 5 U.S.C. 552b (c).)

APRIL 29

9:30 a.m.-12 noon—*Sandia's Weapons and Security Programs.* (Exemptions 1 and 3 of 5 U.S.C. 552b(c).)

Those sessions will involve information exempt from disclosure under 5 U.S.C. 552(c), exemptions (1), (3), (4), and (6).

I have determined that it is necessary to close those portions of the meeting to exchange opinions and formulate recommendations, the discussion of which falls within exemptions (1), (3), (4), and (6) of 5 U.S.C. 552b(c). Any non-exempt material that may be discussed at these sessions will be inextricably intertwined with the discussion of exempt material and no further separation is practical. The public interest will be served by closing such portions of the meeting as it is essential to protect such classified and privileged information.

Practical considerations may dictate alterations in the above agenda and schedule.

The Chairman is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in agenda items, scheduled above, the following requirements shall apply:

(a) Persons wishing to submit written statements on agenda items may do so by mailing 13 copies thereof, postmarked no later than April 18, 1977, to the Secretary, General Advisory Committee, U.S. Energy Research and Development Administration, Washington, D.C. 20545. Comments shall be based on the above agenda items. Minutes of the meeting will be kept open for 30 days for the receipt of written statements for the record.

(b) Information as to whether the meeting has been rescheduled or relocated can be obtained by a prepaid telephone call on April 25, 1977, to the Office of the Secretary of the Committee on 202-376-4678 between 8:30 a.m. and 5 p.m., eastern time.

(c) Questions at the meeting may be propounded only by members of the General Advisory Committee.

(d) Seating to the public will be made available on a first-come, first-served basis.

(e) The use of still, motion picture, and television cameras the physical installation and presence of which will not interfere with the course of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(f) Copies of the minutes will be made available for copying, following their certification by the Chairman, in accordance with the Federal Advisory Committee Act, at the Energy Research and Development Administration's Public Document Room, 20 Massachusetts Avenue, NW., Washington, D.C. 20545, upon payment of all charges required by law.

HARRY PEEBLES,
Deputy Advisory Committee Management Officer.

[FR Doc.77-10749 Filed 4-8-77;10:19 am]

ENVIRONMENTAL PROTECTION AGENCY

[FRL 712-4]

COAL-FIRED STEAM GENERATORS SO, EMISSIONS

Public Hearing

On January 27, 1977, (42 FR 5121) the Environmental Protection Agency announced plans to review the new source performance standard for sulfur dioxide emissions from coal-fired steam generators. This announcement indicated that the Agency would conduct a public hearing on the subject.

Notice is hereby given of a public hearing to be held at the following date, time, and place: May 25 and 26, 1977, between 9 a.m. and 4 p.m. e.s.t. at the General Services Administration Auditorium, 18th and F Streets, NW., Washington, D.C. 20460.

This hearing is intended to provide opportunity for interested persons to state their views or to provide information as to:

(1) The beneficial and adverse environmental, energy, and economic impacts of a revised new source performance standard for coal-fired steam generators.

(2) The nature and scope of any studies that should be conducted to understand the above impacts, and possible sources of data and information that would facilitate such analysis.

(3) The advantages and disadvantages of expressing a revised new source performance standard in terms of percent sulfur dioxide control, pounds per million Btu heat input, exit gas concentration, or other units of measurement.

(4) The efficiency, reliability, and availability of flue gas desulfurization units that are operating, under construction, or planned.

The public hearing will be conducted in two parts: The first part will consist of a 20 minute presentation by each member of a four member panel representing: (1) utilities; (2) environmental groups; (3) State agencies; and (4) the Environmental Protection Agency. Following these presentations, an opportunity will be provided for questions from the audience to the panel members. The second part will consist of oral summary statements by interested persons, not to exceed ten minutes in duration. Written material may be submitted by June 30 to expand or comment on these oral presentations.

Mr. Walter C. Barber, Director, Office of Air Quality Planning and Standards, is designated Presiding Officer for the hearing. He will have the responsibility for maintaining order; excluding irrelevant or repetitious material; scheduling presentations; and, to the extent possible, notifying participants of the time at which they may appear. The hearings will be conducted informally. Technical rules of evidence will not apply.

Persons wishing to make a statement at the hearing are requested to file a notice of such intention not later than May 15, and to submit, if practicable, five copies of the proposed statement. Notice of intent to make a presentation, copies of the statement, and questions concerning the hearing should be addressed to: George Walsh, Assistant to the Director, Emission Standards and Engineering Division, MD-13, Environmental Protection Agency, Research Triangle Park, N.C. 27711.

Dated: April 5, 1977.

EDWARD F. TUERK,
Acting Assistant Administrator for Air and Waste Management.

[FR Doc.77-10486 Filed 4-8-77;8:45 am]

[FRL 712-2; OPP-66019]

PESTICIDE PROGRAMS

Intent To Cancel Registrations of Pesticide Prorducts Containing Chlordecone (Kepone) and Response to USDA and SAP Comments on Cancellation

The Environmental Protection Agency (EPA) promulgated regulations (40 CFR 162) for the registration, reregistration, and classification of pesticides on July 3, 1975 (40 FR 28242). Section 162.11 of the regulations provides that a rebuttable presumption against registration shall arise if it is determined that a pesticide meets or exceeds any of the criteria for risk set forth in § 162.11(a)(3). On March 19, 1976, the Deputy Assistant Administrator for Pesticide Programs issued a notice of presumption against registration (41 FR 12334) and continued registration (41 FR 12333) of pesticide products containing chlordecone (Kepone). On April 16, 1976, an extension of time for the submission of rebuttal information and other comments was granted (41 FR 16612).

After reviewing the recommendations of the Agency's technical staff based on a review and analysis of rebuttal information and other comments, and after a complete benefit/risk evaluation of the use of registered chlordecone products, the Deputy Assistant Administrator for Pesticide Programs approved a proposed notice of intent to cancel registrations of pesticide products containing chlordecone (Kepone). This proposed notice with supporting documentation and other material was presented to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Scientific Advisory Panel (SAP) and the U.S. Department of Agriculture (USDA) on December 10, 1976, in accordance with section 6(b) of FIFRA, as amended (86 Stat. 973, 89 Stat. 751, 7 U.S.C. 136 et seq.). The following final notice of intent to cancel presents the Agency's statement of reasons for such cancellation, the basis for such reasons, and a detailed response to the SAP and USDA comments on the proposed notice of intent to cancel. The Agency's response to the SAP and USDA comments, as well as the comments, are included to satisfy the provisions of section 6(b) of FIFRA and to provide an adequate explanation of all the issues before the Agency which have prompted this action.

NOTICE OF INTENT TO CANCEL

As a result of the review of the information and data now before the Agency and as set forth in the attached Statement of Reasons, I find that the continued registration and use of these pesticide products appear to pose substantial questions of safety amounting to an unreasonable risk to man and the environment. I therefore serve and file this Notice of Intent, together with the attached Statement of Reasons, to cancel all registered uses of chlordecone (Kepone) within 30 days, pursuant to section 6 of FIFRA, as amended (7 U.S.C. 136d). Any affected party may contest this action by requesting a hearing on specific registered uses on or before May 11, 1977. Requests for hearings should be submitted in quintuplicate to the Hearing Clerk, Environmental Protection Agency, Rm. 1019, East Tower, 401 M St. SW., Washington, D.C. 20460.

The proposed cancellation shall become final May 11, 1977 with regard to those registered uses for which a hearing is not requested. The proposed cancellation shall not take effect regarding any registered use for which a hearing is requested until the hearing has been completed, unless there is a concurrence from all parties to the proceeding.

Pursuant to section 6(a)(1) of FIFRA, I have determined that distribution, sale, and use of existing stocks of the following inaccessible chlordecone (Kepone) products are not inconsistent with the purposes of this Act and will not have unreasonable adverse effects on the environment. Inaccessible Kepone products are all enclosed Kepone traps made from metal or plastic as well as metal stakes containing enclosed Kepone bait which are hammered into the ground. Therefore, if no hearing is requested on or before May 11, 1977 for any of the following products, sale, distribution, and use of these existing stocks will be allowed indefinitely.

Inaccessible products

EPA Reg. No.	Product name	Registrant
3887-63	Black Leaf Ant Trap	Black Leaf Products, Co., 667 North State St., Elgin, Ill. 60120.
475-11	Antrol Ant Trap	Boyle-Midway, Inc., South Ave. and Hale St., Cranford, N.J. 07016.
475-82	Black Flag Ant Trap	Do.
3325-1	Hide Roach and Ant Traps	Clarence Boord & Sons, Inc., 105 East Commercial, P O. Box 379, Leon, Iowa 50144.
769-17	Lilly's Ant Trap With Kepone	F. C. Sturtevant Co., 227 Shunpike Rd., Cromwell, Conn. 06416.
2019-19	Johnston's No-Roach Traps	Gaston Johnston Corp., 24-64 45th St., Long Island, N.Y. 11103.
1663-21	Grant's Ant Trap	Grant Lab. Division, Leisure Enterprises, Inc., 6020 Adeline St., Oakland, Calif. 94608.
1663-22	Grant's Roach Trap	Do.
1663-24	Grant's Ant Control	Do.
395-19	Mysterious Ant Trap With Kepone	Lethelin Products Co., Inc., 15 MacQuesten Parkway South, Mount Vernon, N.Y. 10550.
395-21	Magikil Ant Trap With Kepone	Do.
395-25	Magikil Roach Trap With Kepone	Do.
358-20	Ant-Not Ant Trap	Nott Manufacturing Co., Inc., Pleasant Valley, N.Y. 12569.
358-129	Nott Roach Trap	Do.
506-109	E-Z Ant Trap Contain Kepone	O. E. Linck Division, Waico Link Corp 1234 State Highway 46, Clifton, N.J. 07015.
506-126	Tal Ant Trap	Do.
506-129	Antichek Ant Trap	Do.
274-23	Dead Shot Ant Killer	Trager Manufacturing Co., Inc., 1260 Wheeler Ave., Scranton, Pa. 18510.

I have further determined that distribution, sale, and use of existing stocks of the following accessible chlordecone (Kepone) products are inconsistent with the purpose of the FIFRA and will have unreasonable adverse effects on the environment. Therefore, this notice shall also serve as my notice of intent not to allow sale, distribution, or use of existing stocks of the following accessible chlordecone (Kepone) products after issuance of a final order of cancellation pursuant to this notice of intent to cancel. Accessible products are those which in normal use would be removed from their containers, as well as foil or cardboard covered traps.

Accessible products

STATEMENT OF REASONS

I. *Legal authority.* Section 6(b) of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 135 et seq.) as amended (7 U.S.C. 136a(c)(5)(D)) authorizes the Administrator of the Environmental Protection Agency (or his designee) to issue a notice of intent to cancel the registration of a pesticide or to hold a hearing "[i]f it appears to the Administrator that a pesticide or its labeling * * * does not comply with the provisions of this act or, when used in accordance with widespread and commonly recognized practice, generally causes unreasonable adverse effects on the environment. * * *" The phrase "unreasonable adverse effects on the environment" takes into account the economic, social, and environmental costs and benefits of any pesticide.

II. *Structure and characteristics of chlordecone (kepone).* Kepone is the trade name for the insecticide decachlorooctahydro - 1,3,4-metheno-2H-cyclobuta (cd) pentalen-2-one. The common name is chlordecone. The technical product (which is over 90% pure) sublimes at 350° and is relatively soluble in water (0.4 at 100°) compared to most chlorinated hydrocarbon pesticides. Kepone is soluble in strong alkali, as well as in acetone and ethanol. Kepone is very stable in vitro.

III. *Uses.* Except for manufacturing grade Kepone, which is used solely in the formulation of other Kepone products, the only current use of Kepone is in inaccessible metal and plastic traps and accessible foil and cardboard traps and unenclosed pastes, jellies, and other baits. Kepone is registered for use only against ants, roaches, and other household pests.

IV. *Alternative pesticides.* The only alternative to Kepone bait that is registered in a bait formulation is Baygon. Baygon is registered for use only in a bait against roaches. No alternatives are registered for use in a bait formulation against ants and other household pests. However, many alternatives to Kepone baits are registered in spray and dust formulations for control of roaches, ants, and other household pests; these include diazinon, Baygon, malathion, and ronnel. Although perhaps not as convenient to the homeowner many alternatives exist for every use of Kepone.

V. *Toxicity.* Kepone has demonstrated toxic effects which may have significant adverse effects on human health. "The Report on Carcinogenesis Bioassay of Technical Grade Chlordecone," prepared by the Carcinogenesis Program, Division of Cancer Cause and Prevention, National Cancer Institute, released in January 1976, reports the results of a long-term study on the oncogenic effects of chlordecone on both sexes of Osborne-Mendel rats and B6C3F1 mice. Chlordecone was administered orally at average dosages ranging from 8 to 26 parts per million (ppm) for rats and from 20 to 40 ppm for mice for a period of 80 weeks. The mice were sacrified after 90 weeks and the rats after 112 weeks; moribund animals were sacrified and necropsied. None of the 225 control rats developed hepatocellular carcinomas. Fourteen of the 68 male control mice developed hepatocellular carcinomas. None of the 50 female control mice developed hepatocellular carcinomas. Pathological diagnosis revealed a statistically significant increase (P less than 0.05) in the incidence of hepatocellular carcinomas in rats fed an average of 24 ppm (males) and 26 ppm (females) and in mice fed an average of 20 and 23 ppm (males) and 20 and 40 ppm (females). Extensive hyperplasia of the liver was also reported in both species.

Data submitted to EPA by Allied Chemical Company entitled, "Toxicological Studies on Decachloro-octahydro-1,3,4-metheno-2H-cyclobuta [cd] pentalen-2-one" (Document No. 108253, July 1, 1961), also indicate that chlordecone is oncogenic in rats. Six groups of male and female albino rats were fed 0, 5, 10, 25, 50, and 80 ppm chlordecone, respectively, for periods of up to 2 years. Oncongenic effects appeared only in rats receiving chlordencone in their diets for between 1 and 2 years. None of the 23 control rats examined developed hepatocellular carcinomas. Of the 7 male rats examined at the 25 ppm dose level, liver lesions in 1 rat were diagnosed as hepatocellular carcinoma by two pathologists and "evolving carcinoma" by one pathologist, who also found "evolving carcinoma" in a second male rat fed this dosage. Of the 16 surviving female rats fed 10 ppm, liver lesions in 3 were diagnosed as hepatocellular carcinoma by one pathologist. Of the 9 surviving female rats fed 25 ppm, liver lesions in one was diagnosed as "evolving carcinoma" by one pathologist.

VI. *Human exposure of chlordecone (Kepone).* No significant research has been done on human exposure to Kepone through its use in inaccessible traps and accessible pastes and jellies. Pesticide Episode Report System (PERS) information indicates that Kepone used in these ways is occasionally ingested by children. Although Kepone has a low volatility, inhalation exposure to Kepone can be expected when itis used in traps, pastes, and jellies in households. Kepone use in pastes and jellies presents a higher, but unquantifiable, risk of dermal, inhalation, and oral exposure.

VII. *Risk to humans from exposure to chlordecone (Kepone).* Under 40 CFR § 162.11(2)(4), my inquiry must focus on whether the registrants (or parties seeking registration) have rebutted the presumption by sustaining the burden of proving: (1) The determination that chlordecone (Kepone) meets the criteria set forth in § 162.11(a)(3)(ii) was in error or, (2) when considered with the proposed restrictions on use and widespread and commonly recognized practices of use, chlordecone (Kepone) will not concentrate, persist, or accure to levels in man or the environment likely to result in significant chronic adverse effects. No registrant or applicant for registration has attempted to show that the determination that chlordecone (Kepone) induces oncogenic effects in both sexes of mice and rats as a result of oral exposure was in error. Several registrants attempted to show that current use of Kepone will not result in significant chronic adverse effects to man. However, the registrants and Agency staff have been unable, on the basis of current data, to determine the extent to which humans are exposed to Kepone as a result of its current registered uses. The registrants and applicants for registration, therefore, have not met the burden of proving that use of chlordecone (Kepone) into the indefinite future in accordance with its current registrations will not result in significant chronic adverse effects to man.

VIII. *Economic impacts of cancellation.* Because of the abundance of less expensive alternatives, the macro-economic and micro-economic impacts of the cancellation of Kepone are estimated to be negligible.

IX. *Balance of risks and benefits.* The Agency staff has prepared a preliminary analysis, balancing the risks and benefits for use of registered Kepone products, and I have exercised my discretion to take into account these staff recommendations. Based on this analysis I have determined that both the risks and the benefits of use of chlordecone (Kepone) into the indefinite future under existing labels are small. However, the registrants and applicants for registration have not shown that the risks are insignificant. When the risks presented by the continued use of Kepone are weighed against the benefits, it appears that continued use poses an unreasonable risk to man.

X. *Existing stocks.* A recent survey of registrants by this Agency's Office of Enforcement indicates that there are at a minimum 108 pounds of actual Kepone either formulated into existing stocks of end use products or in the process of formulation which are the subject of the present notice of intent to cancel.

Although I have determined that use of chlordecone (Kepone) into the indefinite future will result in unreasonable adverse effects to man, the preliminary staff analysis indicates that use of existing stocks of formulated inaccessible traps will result in a very small risk of human exposure. I have, therefore, determined that distribution, sale, and use of existing stocks of inaccessible Kepone products is not inconsistent with the purposes of the Act and will not have unreasonable adverse effects on man.

Since use of existing stocks of the accessible formulated products will result in a greater risk of oral, inhalation, and dermal exposure to Kepone, I have determined that such use will have unreasonable adverse effects on man. Therefore, I do not intend to allow the distribution, sale, or use of existing stocks of accessible Kepone products.

XI. *Afected registrants and products.* All registrants of products containing chlordecone (Kepone) affected by this notice are listed below:

EPA Reg. No.	Product name	Registrant
6538-3	Kil-Ded Roach Ant Waterbug Killer	Action Product Corp., Box H, North Miami, Fla. 33161.
3941-20	Pest Guard Roach, Ant, and Waterbug Killer.	Athena Corp., 4838 Woodall, Dallas, Tex. 75247.

460-17	Lilly's Ant Trap With Kepone	F. C. Sturtevant Co., 227 Shunpike Rd., Cromwell, Conn. 06416.
2019-18	Johnston's No-Roach Bait	Gaston Johnston Corp., 24-64 45th St., Long Island, N.Y. 11103.
2019-19	Johnston's No-Roach Traps	Do.
3324-4	Dekko Roach-Ettes	General Pest Service Co., 2015 Pontius Ave., Los Angeles, Calif. 90025.
3324-5	Dekko Silverfish Pak	Do.
1463-21	Grant's Ant Trap	Grant Lab. Division, Leisure Enterprises, Inc., 6020 Adeline St., Oakland, Calif. 94608.
1463-22	Grant's Roach Trap	Do.
1463-24	Grant's Ant Control	Do.
6150-2	Capitol Punishment Roach, Ant, and Waterbug Killer.	J. & F. Manufacturing Co., P.O. Box 26363, Houston, Tex. 77032.
509-10	J-O Paste Kills Roaches and Ants	John Opitz, Inc., 5014 39th St., Long Island, N.Y. 11104.
4825-17	Ant Pak	Judd Ringer Corp., 6860 Flying Cloud Dr., Eden Prairie, Minn. 55343.
395-19	Mysterior Ant Trap With Kepone	Lethelin Products Co., Inc., 15 MacQuesten Parkway South, Mount Vernon, N.Y. 10550.
395-20	Magikil Jelly With Kepone Ant-Roach Bait.	Do.
395-21	Magikil Ant Trap With Kepone	Do.
395-25	Magikil Roach Trap With Kepone	Do.
5880-1	Lucky Mack Roach and Ant Killer	McCall Manufacturing Co., P.O. Box 145, Jasper, Fla. 32052.
356-20	Ant-Not Ant Trap	Nott Manufacturing Co., Inc., Pleasant Valley, N.Y. 12569.
356-129	Nott Roach Trap	Do.
506-109	K-Z Ant Trap Contain Kepone	O. E. Linck Division, Waico Link Corp., 1234 State Highway 46, Clifton, N.J. 07015.
506-113	Tat Ant Bait Containing Kepone	Do.
506-126	Tat Ant Trap	Do.
506-129	Antchek Ant Trap	Do.
267-19	Old 97 Roach and Ant Killer	Old 97 Co., Box 5207, Tampa, Fla. 33605.
728-54	Pearson's Water Bug and Roach Killer Bait.	Pearson & Co., P.O. Box 7151, Mobile, Ala. 36601.
416-57	Quinn's Kepone Roach and Ant Bait Pellets.	Quinn Drug & Chemical Co., Box 847, Greenwood, Miss. 38930.
274-23	Dead Shot Ant Killer	Trager Manufacturing Co., Inc., 1200 Wheeler Ave., Scranton, Pa. 18510.
2095-2	T.N.T. Ant Killer	Vinson Chemical Products Co., 13001 Port Said Rd., Opalocka, Fla. 33054.
7040-3	Winn's Waterbug Roach and Ant Killer.	Winn Chemical Co., Inc., Box 94A, R.F.D. 1, Blountsville, Ala. 35031.

RESPONSE TO USDA AND SAP COMMENTS ON INTENT TO CANCEL PESTICIDE PRODUCTS CONTAINING CHLORDECONE (KEPONE)

I. BACKGROUND

The notice of rebuttable presumption was based on studies which demonstrated that chlordecone induces oncogenic effects in experimental mammalian species as a result of oral exposure. The Agency received comments from six registrants and other interested parties. None of these comments contested the validity of the studies upon which the presumption was based. Several submissions, which did not attempt to demonstrate lack of risk due to chlordecone, urged that the Agency merely allow use of existing stocks of manufacturing grade 25% Kepone Special Mixture (EPA Reg. No. 218-544) already in the hands of formulators for a predetermined period of time. Those comments which did address the risk issue attempted to demonstrate that, when considered in connection with widespread and commonly recognized practice of use, chlordecone will not concentrate, persist, or accrue to levels in man or the environment likely to result in any significant chronic adverse effects.

NOTE—Position documents prepared by the Agency Working Group on Kepone are available for public inspection in the Office of Special Pesticide Reviews (WH-566), Office of Pesticide Programs, Environmental Protection Agency, Room 447, East Tower, 401 M Street, S.W., Washington, D.C. 20460. These documents contain appendices of references, background information, and other material pertinent to this notice. Where appropriate, the supporting materials contained in the position document are referenced in this notice.

Allied Chemical Company, holder of 12 chlordecone registrations, including the manufacturing-use-only registrations, did not attempt to rebut the presumption. Rather, Allied requested that its registrations be voluntarily cancelled pursuant to Section 6(a)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended (86 Stat. 973, 89 Stat. 751, 7 U.S.C. 136 et seq.). On June 9, 1976, the Deputy Assistant Administrator for Pesticide Programs responded to their request by issuing a notice of cancellation of all Allied registrations for chlordecone products (41 FR 24624). According to the terms of that notice, the registrations of those products are now cancelled.[1]

As indicated above, a notice of intent to cancel registrations of pesticide products containing chlordecone (Kepone) was approved after an extensive review. This proposed notice of intent would have cancelled the remaining registrations of all registered products containing chlordecone. With regard to existing stocks of chlordecone, the proposed notice would have allowed sale, distribution, and use, of all existing stocks of "inaccessible" products,[2] but would have prohibited sale, distribution, or use of existing stocks of "accessible" products.[3] Position Document 3 (developed by the Office of Special Pesticide Reviews) set forth the scientific and policy rationale for the proposed notice of intent to cancel, and recommended that registrants of inaccessible products be permitted to use existing stocks of manufacturing-use-only 25% Kepone (Special Mixture) to formulate additional inaccessible traps for a period of three years. The proposed notice of intent to cancel reflected this determination. In addition, because the June 9, 1976, section 6(a)(1) notice cancelling Allied's registration for manufacturing grade chlordecone did not provide for use of existing stocks, a separate notice was prepared which, in effect, would have rescinded the July 9 notice to the extent that the amended notice would have allowed for use of certain

[1] By letter of February 4, 1977, the EPA Office of Enforcement formally requested that Allied Chemical Corporation voluntarily recall all stocks of its manufacturing use and end-use products containing chlordecone, for which registration was cancelled by the notice of June 9, 1976.

[2] Inaccessible products are defined as all enclosed traps made from metal or plastic, as well as metal stakes containing chlordecone which are hammered into the ground.

[3] Accessible products are defined as those which would be removed from their containers, as well as foil- or cardboard-covered traps.

V 4 2 6 9 APR 11 7 7 UMI

existing stocks of manufacturing grade chlordecone.

These notices, and supporting documents, were presented to the FIFRA Scientific Advisory Panel and the United States Department of Agriculture (USDA) on December 10, 1976. Both groups have commented on the notices and their comments are produced below. This document contains EPA's response to the comments of the Scientific Advisory Panel and the Secretary of Agriculture and is intended to constitute the response mandated by section 6(b)(2) of FIFRA as amended.

II. SUMMARY OF EXTERNAL REVIEW COMMENTS

A. *Response of the FIFRA Scientific Advisory Panel (SAP).* The Scientific Advisory Panel submitted its final report to this Agency on January 13, 1977. The Panel stated that, in addition to the carcinogenic effects of chlordecone, the Agency should have considered existing information on other adverse health effects, e.g., neuromuscular, behavioral, reproductive, and mutagenic effects. The Panel also expressed concern with regard to the disposal of the manufacturing-use-only and end-use products.

The recommendations of the Scientific Advisory Panel listed below were unanimously agreed to unless otherwise noted.

(1) The Agency should cancel all uses of chlordecone within 30 days.

(2) The Agency should allow sale and use of existing stocks of inaccessible chlordecone products for a period of up to 3 years from the effective date of cancellation.[4]

(3) The Agency should recover Allied 25% Kepone Special Mixture (EPA Reg. No. 218-544) presently held by formulators and dispose of it in a safe manner.[5]

(4) The Agency should limit the quantity of inaccessible bait products containing chlordecone which can be formulated, distributed, or sold during the 3-year period extending from the effective date of cancellation to that quantity which can be formulated from supplies on hand as of the effective date of cancellation. (This recommendation appears to be in direct conflict with recommendation three above, but was intended by the Scientific Advisory Panel to be implemented should number three be rejected by this Agency.)

(5) The Agency should prohibit the sale, distribution, or use of existing stocks of accessible chlordecone products following the effective date of cancellation.

B. *Response of United States Department of Agriculture (USDA).* On January 11, 1977, the comments of the Secretary of Agriculture were transmitted to the Agency. USDA's response noted that, under FIFRA as amended, their responsibility is "in assessing the analysis of the overall impact of regulatory decisions on the ability to effectively control nuisance and damaging pest infestations as they may impinge on the agricultural economy, while preventing any unresonable adverse effects on man or the environment." It was further noted that the insects controlled by chlordecone products are not of major concern in agricultural production but "are significant nuisances and potential health related pests" associated with farm buildings and farm households. The report stated that ants, roaches, and other household pests are a major concern in the processing of raw agricultural commodities and the storage of packaged and processed foods. The report limited itself to discussions of biological efficacy, benefit/risk, and exposure aspects of the use of chlordecone products.

USDA recommendations are listed below:

(1) Cancellation of Registrations: No specific recommendation was directed to this issue. However, if the USDA recommendation were adopted, that continued sale and use of end-use products be allowed into the indefinite future, these products would not be cancelled.

(2) Disposition of Existing Stocks, Inaccessible Products: The USDA report agreed with the Working Group's recommendation that the continued sale and use of these products be permitted, but it maintained that that there is "strong justification for not placing a time period on the availability and use of chlordecone for ant, roach and other household pest control." (This qualification apparently referred only to inaccessible products.)

(3) Disposition of Existing Stocks, Accessible Products: The report stated that hazard to children from accessible products may be sufficient to warrant permitting continued use only under restrictive labeling both as to placement and to use by certified applicators.

(4) Disposition of Existing Stocks, 25% Kepone Special Mixture Product (Manufacturing Use Only): No specific recommendation was made. Again, however, if the comments directed to inaccessible and accessible products were incorporated into the Working Group recommendations, 25% Kepone Special Mixture would have to be available in order to formulate these products.

III. SUMMARY OF RECOMMENDATIONS

Table I represents a comparison between the Working Group's original recommendation and those of the USDA and the SAP.

[4] Minority comment: The minority opinion was in opposition to this recommendation and cited further contamination of the environment by the spread of the bait material by insects and the waste disposal of traps.

[5] Minority comment: One member disagreed but believed that because some risk to formulators may exist, formulating processes should be monitored by the appropriate federal agency in order to provide for the safety of the workers and their families.

TABLE I.—*Comparison of Recommendations of EPA Kepone Working Group, the Department of Agriculture and the Scientific Advisory Panel*

Issue	Original recommendations of the Kepone Working Group and Pesticide Chemical Review Committee (PCRC)	Recommendations of the United States Department of Agriculture (USDA)	Recommendations of the Scientific Advisory Panel (SAP)	Minority opinions of SAP members
Whether to cancel	Issue notice of intent to cancel	Continue registrations	Agree with Working Group and PCRC.	
Disposition of 0.125 percent chlordecone inaccessible bait products.	Three year limit, on formulation, sale, and use. At the end of this time all remaining inaccessible products would be recalled by formulators and formulation of new products would cease.	Agrees with permitting continued formulation, sale, and use but notes that there is strong justification for not placing a limit on the availability of chlordecone products.	Permit sale and use for three years of only those supplies of inaccessible products formulated at the time the cancellation is effective. Further formulation would not be permitted. Do not permit further formulation from manufacturing grade chlordecone.	Stop all further distribution, sale, and formulation.
Disposition of 0.125 percent chlordecone accessible bait products.	Prohibit formulation, sale, and use as of the effective date of cancellation. Request recall of existing stocks from retail level.	Hazard to children may be sufficient to warrant permitting continued use only, (1) under restrictive labeling as to placement and (2) to use by certified applicators.	Agree with working group and PCRC recommendations.	
Dispositions of 25 percent kepone special mixture for manufacturing use only.	Permit use for production of only inaccessible products for a 3 year period. Disallow use for formulation into accessible products as of the effective date of cancellation. Those supplies of 25 percent kepone special mixture for the latter use would be destroyed.	The above recommendations would permit unlimited use should another source of chlordecone be found.	Disallow formulation, sale, and use of all existing stocks as of the effective date of cancellation.	Allow disposition consistent with the working group's recommendations, but monitor formulating processes.

IV. SUMMARY OF EPA ANALYSIS AND RESPONSE TO COMMENTS FROM USDA AND SAP

A. *Cancellation of All Existing Chlordecone Registrations.* Only USDA objected to EPA's issuing a notice of intent to cancel remaining chlordecone registrations, and this objection was only tangential (see Table 1). The Working Group remains convinced that chlordecone poses a carcinogenic risk to man,[6] and that the risks of continued exposure to man from existing chlordecone registered products outweigh the benefits.[7] USDA's unsupported assertion to the contrary is rejected.

USDA's comments primarily address the benefits of chlordecone use. USDA states, "Use experience has demonstrated that many species of ants and roaches are more effectively controlled by using baits as either a supplement to other insecticides or as the sole formulation." Yet it presents no comparative efficacy testing or documentation of use experience which this Agency can assess. The USDA report further states that "should these pending actions result in the loss of use through cancellation or lack of availability to the general public by restricted use, the impact on effective control measures could be significant on the ability of homeowners to control their own pests." This appears to be an overstatement in light of the numbers of available alternatives (see Position Document 3 for benefit/risk analyses) and the failure of USDA to provide a measure of the impact on effective control measures and contrary to USDA's recommendation that accesible products be reclassified for restricted use.

The USDA also offers no supportive data for its statement, "Established use experience shows that when inaccessible containers or inaccesible placement are used, the bait displays a high degree of safety in handling with low potential for exposure to humans and animals." USDA stated that the health risks from the inaccessible products baits are "small," citing examples from Position Document 3. The Working Group agrees with this detrmination. USDA cited the absence of symptoms in children ingesting the contents of traps and the few reported cases of children actually opening the traps. While the absence of acute effects as manifested by the lack of symptoms is very important, the chronic effects of chlordecone exposure are of most concern to the Agency and are the basis for this rebuttable presumption.

The Agency has determined that unlimited sale, distribution and use of any currently registered end-use chlordecone products in the indefinite future would increase the risk of oral, dermal, and inhalation exposure without a corresponding increase in benefits. No new evidence has been presented which would cause the Agency to reverse this position.

B. *Use of Manufacturing-Use-Only Chlordecone To Formulate Inaccessible Chlordecone Products.* The proposed notice of intent to cancel and the corresponding amendment of the notice of cancellation of Allied's registrations would have allowed formulators of inaccessible traps to use existing stocks of Allied's manufacturing-use-only chlordecone to formulate additional inaccessible chlordecone products. USDA agreed with this proposal. The Scientific Advisory Panel disagreed with this proposal, and it recommended that "EPA institute efforts to recover and dispose of all nonformulated stocks of this material in a safer manner." The EPA accepts the recommendation of the Scientific Advisory Panel for the reasons given by the Scientific Advisory Panel and for other reasons as listed below.

(1) *Disposal.* In recommending allowing use of existing stocks of manufacturing grade chlordecone for formulation into inaccessible products, the Working Group was strongly motivated by the problems engendered by attempts to dispose of manufacturing grade chlordecone (See Position Document 3. It was generally the opinion of the Working Group that the risks to man and the environment arising from improper disposal of existing stocks of manufacturing grade chlordecone were greater than the risks from the use of inaccessible products formulated from existing stocks of manufacturing grade chlordecone. This situation has changed dramatically in light of the recent enactment of the Solid Waste Disposal Act as amended by the Resource Conservation and Recovery Act of 1976 (Pub. L. 94-580).

Section 7003 of the Resource Conservation and Recovery Act provides that:

Notwithstanding any other provision of this Act, upon receipt of evidence that the handling, storage, treatment, transportation or disposal of any solid waste or hazardous waste is presenting an imminent and substantial endangerment to health or the environment, the Administrator (of EPA) may bring suit on behalf of the United States in the appropriate district court to immediately restrain any person for contributing to the alleged disposal to stop such handling, storage, treatment, transportation, or disposal or to take such other action as may be necessary.

The above provision gives the Agency authority to protect against improper disposal of manufacturing grade chlordecone. The Working Group is now of the opinion that the risks to man and the environment from proper disposal of existing stocks of manufacturing grade chlordecone are diminished and the use of existing stocks of manufacturing-use-only chlordecone to formulate inaccessible products is unwarranted.

(2) *Risks to Man Other than Oncogenicity.* The Scientific Advisory Panel stressed that in addition to oncogenic risks, it was concerned about other adverse affects of chlordecone (e.g., neuromuscular, behavioral, reproductive, and mutagenic effects). While the Working Group cannot at this stage of the process explore these potential risks thoroughly it is aware of information that supports the Scientific Advisory Panel's concern.[8] On this basis, the Working Group is of the opinion that the risks posed by these additional effects constitute a further reason for cancelling all remaining chlordecone registrations and for changing its recommendation so as to forbid use of existing stocks of manufacturing grade chlordecone for formulating additional end use products.

(3) *Amount of Chlordecone Held by Registrants.* The Working Group's original recommendation was made on the basis of a high estimate, derived from an incomplete June 1976 registrant response, of 537.8 pounds of actual chlordecone in the possession of current registrants. Of this amount, it was speculated that 22.8 pounds was formulated into 0.125% chlordecone baits for end-use, and the remainder was 25% Kepone Special Mixture for formulation into 0.125% end-use products.

At the time, the estimated 537.8 pounds actual chlordecone was assumed to be a conservative estimate which sufficiently overstated the amount of chlordecone held by registrants to account for all chlordecone in the channels of trade.

A more recent February 1977 inquiry, however, by the Regional Offices of Pesticide Programs, Office of Enforcement, has revealed that at a minimum the following amounts of chlordecone are currently held by registrants:

Type of product	Total pounds of product	Total pounds of chlordecone
0.125 pct kepone enclosed metal and plastic traps ("inaccessible" product)	[1] 52,809	66.01
	+13,860	17.1
0.125 pct kepone unenclosed end-use products ("accessible" product)	13,850	18.06
0.125 pct kepone enclosed foil packages ("accessible" product). (One firm formulates a 0.106 pct kepone product.)	6,686	7.12
Allied 25 pct kepone special mixture for manufacturing-use only	1,908	492
10 pct kepone mixture in the formulation process (manufacturer reports end-use product not yet determined)	600	60
Total	89,594	660.28

[1] In process.

The 660.28 pounds of chlordecone in process and in end-use and manufacturing-use products known to be held by

[6] Chlordecone also poses other risks to man that are detailed further in this section, *infra*.

[7] On this point the Scientific Advisory Panel is in unanimous agreement. On page 1 of its response it states: "The Panel unanimously agrees that continued registration and use of these pesticides appear to pose substantial questions of safety amounting to an unreasonable risk to man and the environment."

[8] Tremors in laboratory rodents at dosage levels lower than those observed to cause tumors were observed in both of the oncogenicity studies used as a basis for issuance of the RPAR. Several laboratory studies have also shown significant reduction in reproduction in laboratory mice fed chlordecone at dosages ranging from 5 to 37.5 ppm.

In humans, massive doses of chlordecone absorbed by production workers have resulted in tremors and in absent or decreased sperm count with markedly decreased motility.

[9] Two small formulating companies have not as yet responded, and another has submitted an incomplete report.

V42169 APR 11 77 UMI

registrants is more than the highest estimate of 537.8 pounds of actual chlordecone in these products which was used in calculations of the oncogenic risk. Although the amount of chlordecone in the 25% Kepone Special Mixture is slightly less than previously supposed, there is far more chlordecone in end-use products and in the formulation process than was estimated, thereby significantly increasing the potential environmental burden.

C. *Use of Existing Stocks of Acessible Products.* The Working Group concurs with the Scientific Advisory Panel in its recommendation not to allow further formulation of accessible chlordecone products and to prohibit from the effective date of cancellation all further sale, distribution, or use of existing accessible chlordecone products.

The Working Group is of the opinion that USDA's suggestion that the safe use of accessible chlordecone products can be accomplished either through appropriate label restrictions or through application by certified applicators cannot adequately protect children from exposure to chlordecone. Label changes will not ensure that the instructions are followed within the household. Moreover, USDA offers no suggestions for how EPA, either using label changes or certified applicators, could ensure that accessible products would be removed from the reach of children and at the same time perform their pesticidal function adequately. Finally, label changes and use by certified applicators will not protect against general environmental contamination nor will these restrictions affect the safety of workers exposed during the manufacturing process.

D. *Use of Existing Stocks of Inaccessible Chlordecone Products.* The Working Group originally selected 3 years as a termination date for formulation, packaging, and sale of these products because that period was considered adequate to allow for the conversion into end-use inaccessible traps of all 25% Kepone Special mixture intended for that purpose and the exhaustion through sale and use of all stocks of these end-use products.

The oncogenic effect of chlordecone was the only chronic health hazard assessed by the Agency when making this determination. As USDA has stated in their comments, EPA determined that there is not a significant risk of cancer to children via the inhalation route from the inaccessible products. Dermal and oral exposure was also judged to be low. Risk analyses determined that an extremely small number of carcinomas would likely result from any expected ingestion of the contents of traps by children. (See Position Document 3.)

The benefit analysis determined that chlordecone baits did provide a minor benefit of convenience to homeowners in the control of ants and roaches. These analyses were predicated, however, upon the cancellation and eventual exhaustion of supply of these products and not upon the continued unlimited production, sale and use which might result if these products were not cancelled.

The majority of the Scientific Advisory Panel agreed with the Working Group's recommendation to permit the sale and use of these existing stocks of products for 3 years. SAP believed, as did the Working Group, that even given possible adverse health effects in addition to oncogenicity, the use of these products for that time period would not have unreasonable adverse effects on the environment. A minority SAP comment, however, stated opposition to this use on the basis of dispersal of chlordecone from the traps by ants and roaches, and the hazard from waste disposal of discarded containers in incinerators and landfills.

Scientists of the Criteria and Evaluation Division, Office of Pesticide Programs, and the Agency Carcinogen Assessment Group (EPA) in their analyses and the Working Group in its determination considered these aspects of the problem in reaching their conclusions.

The original recommendation of the Kepone Working Group permitting sale for 3 years was based on a "worst case" assumption that 13,772,800 of the ¼-ounce inaccessible plastic or metal traps could be formulated from the 25% Kepone manufacturing use product earmarked for that purpose (assumed to be one-half the total amount of 25% Kepone Special Mixture estimated to be held by formulators in addition to those traps already made). The recent formulator survey reported that there are 1,405,935 already formulated inaccessible traps ranging in weight from 1 ounce to ⅛ ounce with one firm reporting enough material in process to formulate an additional 1,313,280 ⅛-ounce inaccessible traps. The amount of actual chlordecone in these 2,719,215 individual traps is calculated to be 83 pounds. Adding the 60 pounds of actual chlordecone in the 600 pounds of 10% chlordecone held by one formulator, this still constitutes an amount far less than the previously estimated 268 pounds of chlordecone which might have been used in these products had the Working Group's original recommendations been followed.

Registrants have been notified that further formulation of the cancelled Allied 25 percent Kepone Special Mixture is illegal. Registrant firms will be monitored to ensure that this formulation does not occur.

Prevention of any further conversion of 25 percent Kepone Special Mixture to end-use products will thus further limit the amount of these products available to the public and therefore limit the public exposure and risk.

For all of the above reasons I have stated in this notice of intent to cancel, I recommend that sale and use of only those inaccessible traps already formulated at the effective date of cancellation of these products be permitted and that there will be no time restriction on sale and use of these products.

Dated: April 4, 1977.

ANDREW J. BREIDENBACH,
Assistant Administrator for Water and Hazardous Materials.

FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT (FIFRA) SCIENTIFIC ADVISORY PANEL

REVISW OF PROPOSED NOTICE OF INTENT TO CANCEL REGISTRATIONS OF KEPONE

The FIFRA Scientific Advisory Panel has reviewed the proposed notice of intent to cancel registrations of pesticide products containing chlordecone (Kepone) and associated materials provided by EPA in support of the proposal in open meetings held in Arlington, Virginia during December 9–10, 1976 and January 6–7, 1977. Public notice of the meetings was published in the Federal Register on November 16, 1976 and December 21, 1976. No comments were received from the public although provisions were made for submission of written statements and presentation of oral summaries. The Panel also interviewed representatives from EPA who were present during meetings as part of the Agency briefing team on Kepone. On the basis of consideration of all matters brought out during the meetings and other information, the FIFRA Scientific Advisory Panel makes the following specific comments on the possible impact on public health and the environment of five basic recommendations which appear in the proposed notice of intent:

Recommendation Number 1: Cancellation of all registered uses of chlordecone (Kepone) within 30 days (page 2, paragraph 1, sentence 2, notice of intent document).

Comment.—The Panel unanimously agrees that "continued registration and use of these pesticides appear to post substantial questions of safety amounting to an unreasonable risk to man and the environment." The Panel considers chlordecone (Kepone) to be a carcinogen but are concerned about other adverse health effects of this pesticide (neuromuscular, behavioral, reproductive and mutagenic effects) which must also be considered in addition to the carcinogenic effects of this agent in relation to the possible adverse health effects of chlordecone (Kepone).

Recommendation Number 2: To allow the sale and use of existing stocks of inaccessible chlordecone (Kepone) products for a period of up to 3 years from the effective date of cancellation (page 3, sentence 3, notice of intent document).

Comment.—A majority of the members of the Panel concur that the distribution, sale, and use of inaccessible chlordecone (Kepone) products will not have unreasonable adverse effects on the environment.

Minority Comment.—Two members of the Advisory Panel are opposed in principal to EPA approving the further distribution and sale of "inaccessible" 0.125% chlordecone (Kepone) cockroach and ant baits. In the minority opinion, this represents a still further distribution of chlordecone (Kepone) into the environment. Such baits exist to attract ants and cockroaches to carry the chlordecone (Kepone) from the traps whereby it is inevitably spread into the immediate environment especially in kitchens with human foods. The further distribution of chlordecone (Kepone) by insects and through waste disposal of discarded containers into incinerators and landfills represents an unreasonable and further environmental spread of a highly toxic material which is careinogenic, neurotoric, and a sterilant to wildlife. This delay in terminating the use of such a highly toxic material sets a precedent for future EPA actions in disposing of toxic materials which seems undesirable.

Recommendation Number 3: To allow the use of existing stocks Allied 25% chlordecone (Kepone)/Special Mixture (EPA Registration No. 218–544) presently in the hands of formulators for the next three years for formulation into the above inaccessible chlordecone (Kepone) products (page 6, sentence 1, notice of intent document).

Comment.—A majority of the members of the Panel did not concur with the above recommendation. The Panel feels that the use of existing stocks of Allied 25% chlordecone (Kepone) to formulate inaccessible chlordecone (Kepone) products will have unreasonable adverse effects on man. The Panel is concerned about the potential exposure of formulators and users of these products to an agent which has carcinogenic and other serious adverse health effects. The Panel recommends that EPA institute efforts to recover and dispose of all nonformulated stocks of this material in a safe manner.

Minority Comment.—One member of the Scientific Advisory Panel concurs with the recommendation. However, this member feels that some risk to formulators may exist. Therefore, these formulating processes should be monitored by the appropriate federal agency to provide for the safety of the formulators and their families.

Recommendation Number 4: Intent to limit the quantity of chlordecone (Kepone) enclosed bait products which can be formulated and distributed or sold during this 3-year period to that quantity which can be formulated by each registrant with the supplies of Allied Chemical 25% chlordecone (Kepone)/Special Mixture (EPA Registration No. 218–544) on hand as of the date of this notice (page 7, paragraph 1, sentence 3, notice of intent document).

Comment.—The Panel unanimously agrees with this recommendation.

Recommendation Number 5: To not allow sale, distribution or use of existing stocks of accessible chlordecone (Kepone) products following issuance of final order of cancellation (paper 7, paragraph 2, sentence 1, notice of intent document).

Comment.—The Panel unanimously concurs with this recommendation.

ADDITIONAL COMMENT

In evaluting the potential adverse health and environmental effects of chlordecone (Kepone), the major concern of this Panel is with the potential hazards and problems associated with the disposition of the large stocks of chlordecone (Kepone) and chlordecone (Kepone)-contaminated residues which exist currently in various locations. Because of the obvious health and environmental consequences of disposal of this material, the Panel asks EPA to inform them of current and projected plans for this disposal and to furnish progress reports to the Panel for formal comment.

The Panel also requests that all future FIFRA Section 6(b)(1) actions which are submitted for comment to this group contain an appraisal of the real and potential problems associated with the disposal of existing stocks, wastes, etc. The Panel also requests specific information from EPA on how the Agency plans to handle these problems.

H. WADE FOWLER, Jr., Ph.D.,
Executive Secretary,
FIFRA Scientific Advisory Panel.

COMMENTS OF THE SECRETARY OF AGRICULTURE IN RESPONSE TO THE NOTICE OF INTENT TO CANCEL PESTICIDE PRODUCTS CONTAINING CHLORDECONE, TRADE NAME KEPONE

The Assessment Team evaluated the registered uses of chlordecone (Kepone) together with the information which accompanied the Notice of Intent to Cancel Registration of Pesticide Products Containing Chlordecone. The Team consulted with registrants, users and research personnel connected with the various aspects of chlordecone. The team leader, S. N. Fertig and the team members, P. W. Bergman, H. E. Fairchild, and B. R. Wilson contributed to the preparation of this report.

INTRODUCTION

In compliance with provisions of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) as Amended, sections 6(b) and 25, the United States Department of Agriculture has reviewed EPA's Notice of Intent to Cancel Pesticide Products Containing chlorodecone (Kepone). The Department has also reviewed the related documents, including, position documents and benefit and risk analyses accompanying the Notice of Intent to Cancel. Even though the Department is concerned by the apparent safety problems associated with the manufacture of chlordecone, the following statements are important to an understanding of the Department's response.

1. The response concerns itself only with the biological efficacy, benefit/risk and exposure aspects of the use of chlodecone as registered.

2. The voluntary cancellation by Allied Chemical Corporation, the sole domestic producer of chlordecone, has not been a factor in determining the Department's response. Under FIFRA, as Amended, our responsibility is in assessing the analysis of the overall impact of regulatory decisions on the ability to effectively control nuisance and damaging pest infestations as they may impinge on the agricultural economy, while preventing any unreasonable adverse effects on man or the environment.

3. The Department recognizes that ants, roaches, and other household pests are not of major concern in agricultural production, but they are significant nuisances and potential health related pests associated with, but not exclusively, farm buildings and farm households. Also, the Department and the Land Grant Colleges and Universities, through research and extension have the scientific expertise to evaluate control measures and have the responsibility for disseminating safe and effective recommendations for control of household pests irrespective of where they may occur. An additional responsibility is the preservation and maintenance of quality of the food supply including compliance with current federal, state, and local health standards.

4. Ants, roaches and other household pests are a major concern in the processing of raw agricultural commodities and in the storage of packaged and processed foods in commerce and in the home.

USE PATTERNS

In the information accompanying the Notice of Intent to Cancel, EPA listed the registered site/pest combinations for chlordecone as follows:

Site	Pest
Commercial—edible indoor	American cockroach, cockroaches, southern fire ant, Argentine ant, German cockroach, oriental cockroach, sweet-eating ants, brownbanded cockroach, grease-eating ants, Parsoh ant, and western thief ant.
Commercial—inedible indoor	American cockroach, cockroaches, German cockroach, oriental cockroach, silverfish, ants, harvester ants, Parsoh ant, thief ant, brownbanded cockroach, crazy ant, and little black ant.
Domestic dwellings—Indoor	American cockroach, ants, Argentine ant, brownbanded cockroach, grease-eating ants, oriental cockroach, pyramid ant, sweet-eating ants, western thief ant, California fire ant, crazy ant, harvester ant, cockroaches, palmetto bug, silverfish, thief ant, German cockroaches, little black ant, southern fire ant, and waterbugs.
Domestic dwellings—outdoor	Ants, cockroaches, grease-eating ants, millipedes, silverfish, waterbugs, Argentine ant, crazy ant, harvester ant, Parsoh ant, southern fire ant, western thief ant, California fire ant, fire ant, little black ant, pillsbugs, and sweet-eating ants.
Flowering plants	Ants and cockroaches.
Lawns	Ants, grease-eating ants, sweet-eating ants, cockroaches, silverfish, fire ant, and southern fire ant.
Ornamental shrubs	Ants.
Ornamental trees	Ants.

The above compilation shows the large number of different pests for which chlordecone is registered and for which this single product will give effective control. Based on current trends in registration/reregistration, the likelihood of new compounds reaching the market in time to adequately replace this number of registered uses is considered unlikely.

EFFICACY AND BENEFIT

Based on a report "Preliminary Benefit Analysis of Kepone for Control of Ants and Cockroaches in Domestic Dwellings" (August 20, 1976), EPA recognizes and the Department concurs in the following:

(1) "Ants and cockroaches are among the most common of household pests. Ants may nest in or under houses or be invaders in search of food. While most ants are simply annoying, some may be dangerous pests due to biting and stinging of humans, and damaging parts of dwellings."

(1) "Cockroaches give off an offensive odor and are suspected disease carriers. They prefer damp and warm areas such as under kitchens and bathroom sinks, under refrigerators and cupboards and around pipes and conduits. They feed on a variety of food and refuse including soap, grease, cereals, meats, cheese, and even beer and leather."

(3) "Kepone baits and traps are a unique control method. Baits offer a significantly different approach to pest control not found in the use of non-bait alternative controls. Baits attract the pest to the control agent, while non-bait alternatives are directed at the pest. Ants, for example, are attracted to the bait by the sweet or greasy materials mixed with the active ingredient Kepone. Ants feeding on the bait and returning to the nest may carry some of the material with them, thereby exposing additional ants to the bait."

(4) "Pest control with baits offer the following advantages: No special application equipment is required. No special mixing of materials is needed. No special care is required to assure that food and utensils are not contaminated as with sprays or dusts. However, certain precautionary recommendations, as with the use of any pesticide, must be followed."

As discussed in the Notice of Intent to Cancel, "• • • the only alternative to chlordecone bait that is registered in a bait for-

V4269 APR 11 77 UMI

mulation is Baygon. Baygon is registered for use only in a bait against roaches. No alternatives are registered for use in a bait formulation against ants and other household pests. However, many alternatives to Kepone baits are registered in spray and dust formulations for control of roaches, ants, and other household pests.

Use experience has demonstrated that many species of ants and roaches are more effectively controlled by using baits as either a supplement to other insecticides or as the sole formulation.

Of the pesticides listed by EPA as alternatives for ant and roach control, lindane, carbaryl, rotenone and toxaphene are potential candidates for RPAR's. Available EPA listings of restricted use classification for pesticides indicate that some or all uses of lindane, fenthion, chlorophyrifos, HCN, chloropicrin, and methyl bromide may be included. Should these pending actions result in the loss of use through cancellation or lack of availability to the general public by restricted use, the impact on effective control measures could be significant on the ability of homeowners to control their own pests. Continued regulatory action against registered and effective pesticides for ant and roach control can have an adverse impact.

The Department concurs with EPA's analysis on dollar costs to consumers of chlordecone vs. other pesticides when analyzed on the basis of formulations presently available. We do not believe it is meaningful, to compare chlordecone baits with liquid, dust, or wettable powder formulations of other pesticides unless bait formulations of the others have been prepared and evaluated under use conditions.

The use of insecticides for controlling household pests must be classified in the "minor use" category. Based on current trends in registration/reregistration, the costs involved in generating data for new registrations, and the uncertainty of market potential and protection, it is unlikely that new compounds will reach the market unless they also have efficacy on a major commodity. Where efficacy has been demonstrated and use patterns are such as to pose minimal health and environmental risks as in the case of chlordecone, every effort should be made to retain such uses. Looking to the future, this must be a consideration in planning pest control strategies both for USDA and EPA.

In summary, the Department wishes to emphasize that when used according to label directions, chlordecone as formulated is effective for the control of ants, roaches, and other household pests. Established use experience shows that when inaccessible containers or inaccessible placement are used, the bait displays a high degree of safety in handling with low potential for exposure to humans and animals. Considering the methods of use and the low concentration of active ingredient involved, the probability of unreasonable adverse effects on the environment is remote. The fact that other pesticides may be available for controlling household pests, does not ameliorate the concern that many of these are (a) currently listed as possible RPAR candidates, (b) designated for restricted use, (c) may exhibit less convenience, (d) could offer greater exposure to humans and animals, and (e) may be less effective. It is important and should be recognized that resistance to chemicals does occur in biological systems. Thus, there is sound justification for maintaining an array of safe pesticides which are properly labeled and when used as directed on the label do not present an unreasonable adverse effect on the environment, including humans.

HEALTH AND ENVIRONMENTAL CONSIDERATIONS

The impact on human health from the continued use of chlordecone for ant and cockroach control was considered by EPA (October 5, 1976) when it prepared the notice of intent to cancel. The Department concurs with the EPA determinations that:

1. The use of chlordecone baits for control of ants and cockroaches is expected to result in minimal human exposure because most traps contain only 0.125 percent active ingredient.

2. The inaccessible traps or products, defined as all enclosed traps made from metal or plastic, as well as metal stakes hammered into the ground, offer very little human risk. Assessment of risk indicates a low probability of even one case of cancer resulting from the registered uses of 0.125 percent chlordecone bait.

3. Some of the inaccessible metal traps are filled with automatic machinery and permanently sealed. While they provide, small openings for the ants, they are virtually impossible to open any further without a screw driver or pliers.

4. If chlordecone is used in baits according to the label for a three year period, there is no significant risk of cancer from either enclosed traps or accessible baits by the inhalation route.

5. The Pesticide Episode Response Branch, Operations Division, Office of Pesticide Programs, EPA summarized 56 reports involving humans and chlordecone. "Of the 56 reports involving humans, 52 involved children under five years of age, two involved adults (17–65) and two specified no age. Of the 52 episodes involving children under five, 43 occurred in the home. Nine did not indicate a location. All home related episodes involved products designed to control household insect pests, primarily ants and roaches. The majority of these involved children who found the pesticide and placed it in their mouths. No symptoms were listed in any of these instances. Several reports stated that treatment rendered was precautionary rather than in response to symptoms."

"Of the two episodes involving adults, one was an attempted suicide and the other a job-related incident in which a man who worked in a packaging plant developed dermatitis on his hands. No fatalities were reported involving the active ingredient Kepone. The only health effect noted in any of the reports was the dermatitis which occurred as stated above."

6. "The human risk of exposure by inhalation of Kepone from inaccessible products is judged to be low. The dermal and oral exposure of children is also judged to be low."

In summary, the Department believes that the registered use of chlordecone baits for controlling ants, cockroaches and other household pests presents minimal human exposure and hazard because:

1. The baits contain only 0.125 percent active ingredient.

2. There is minimal accessibility to baits in the traps, especially those traps defined as inaccessible by EPA.

3. When chlordecone baits are used according to the label for a three year period, there is no significant risk of cancer via the inhalation route, as concluded by EPA.

4. In the Episode Reports involving humans, there were no indication of poisoning from exposure to chlordecone in any of the reported cases of suspected exposure.

SUMMARY

The Department concurs with the determination of the Administrator of EPA that "distribution, sale, and use of existing stocks of the listed inaccessible chlordecone products are not inconsistent with the purposes of FIFRA as amended and will not have unreasonable adverse effects on the environment." As a matter of record, however, the Department's assessment is that the combination of inaccessible packaging, the low concentration of active ingredient, the lack of evidence of adverse health effects due to exposure, and the lack of evidence to support adverse environmental contamination lends strong justification for not placing a time period on the availability and use of chlordecone for ant, roach and other household pest control.

Important considerations in the use of pesticides in public buildings and the home are the safety associated with use, the accuracy of application and potential exposure. The use of prepackaged pesticides with premeasured quantities of active ingredient offer accuracy of application, minimize the likelihood of misuse and exposure in handling and provide distinct advantages of safety to humans and pets. The information prepared by EPA, which accompanied the Notice of Intent to Cancel, supports these favorable characteristics for chlordecone.

In assessing benefit, the dollar cost to consumers is only one aspect of evaluation; whether placed in monetary terms or not, consideration must be given to effectiveness of control, safety in handling, ease of application, level of exposure, safety to humans and animals and potential for environmental contamination.

After considering needs in pest control, methods of use, the present and future anticipated registration status of other pesticides, the health and environmental data and the scientific conclusions accompanying the Notice of Intent to Cancel, the Department must conclude that the benefits do exceed the risks for the use of inaccessible bait formulations of chlordecone.

Regarding the baits packaged in an accessible form, the added potential for exposure to children and pets is recognized. The likelihood of children ingesting unenclosed sweetened baits, both stored and as applied, is presumed to be greater than the enclosed baits and may be sufficient to warrant permitting continued use only under restrictive labeling as to placement (inside walls and under stationary appliances) and use only by certified applicators. Use information verifies that for the control of inaccessible colonies of ants and for the control of certain cockroach species, accessible formulations are most effective. Labeling changes to assure inaccessible placement and use only by certified applicators should be considered.

PESTICIDE PROGRAMS

Rebuttable Presumption Against Registration and Continued Registration of Pesticide Products Containing Potassium Arsenite

The Environmental Protection Agency (EPA) promulgated regulations (40 CFR 162) for the registration, reregistration and classification of pesticides on July 3, 1975 (40 FR 28242). Section 162.11 of the regulations provides that a rebuttable presumption against registration (RPAR) shall arise if it is determined that a peticide ingredient meets or exceeds any of the criteria for risk set forth in § 162.11(a)(3). If it is determined that an RPAR has arisen, the regulations require that the registrant be notified by certified mail and that the registrant be provided with an opportunity to submit evidence in rebuttal of the presumption. In addition, the Agency provides notice to the public to solicit comments from interested parties and to obtain any additional information relevant to the RPAR.

Pesticide ingredients which are suspected of meeting or exceeding the risk criteria set out in 40 CFR 162.11 are referred to the Office of Special Pesticides Review (OSPR), the organizational element within the Office of Pesticide Programs responsible for administering the RPAR process. The OSPR Director is then required to make a preliminary decision concerning whether there is a basis for concluding that one or more of the 40 CFR 162.11 risk criteria have been met or exceeded. If the OSPR Director so decides, the pesticide ingredient is considered an RPAR candidate, and appropriate steps are taken to set the RPAR process in motion for that ingredient.

In keeping with its general policy of informing all interested persons of its activities, OSPR has decided to publish a notice in the FEDERAL REGISTER whenever the administrative process is terminated for a pesticide ingredient which has been accepted as an RPAR candidate. This notice will, among other things, set forth the Agency's rationale for terminating RPAR review of the pesticide ingredient in question.

Potassium arsenite was accepted as an RPAR candidate, along with a number of organic and inorganic arsenic compounds. Since accepting this compound as an RPAR candidate, OSPR has conducted an investigation to identify registrations and applications for registration of pesticide products containing potassium arsenite. This investigation has revealed that there are no potassium arsenite products currently registered with the Agency. Furthermore, there are no applications for registration of products containing potassium arsenite pending at this time. Therefore, OSPR has terminated the administrative process with regard to this pesticide chemical.

Dated: April 5, 1977.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

[FRL 711–8]

STATE OF MICHIGAN

Alternative Air Quality Maintenance Area Analysis Procedures; Approval

Notice is hereby given that, pursuant to the authority contained in 40 CFR § 51.63, three alternative Air Quality Maintenance Area analysis procedures are approved for the State of Michigan. First, the analysis period is reduced from 20 years to 10 years, as allowed in 40 CFR § 51.42. Second, an alternative dispersion model, Michigan Long-Term Model (MILT), may be used for the projection of air quality concentrations replacing the Air Quality Display Model (AQDM), as allowed in 40 CFR § 51.46. MILT uses dispersion coefficients that differ from the AQDM and contains refinements to take into account various effects such as stack downwash and gravitational settling. The third alternative procedure, approved under 40 CFR § 51.44, allows emissions data for point and area sources to be submitted in a format differing from that specified in the AQMA Analysis Guidelines, Vol. 7, Projecting County Emissions, Second Edition (EPA–450/4–74–008). The approved alternative procedure will specify each point and area source grid location, dispersion parameters, and emission rate.

For further information related to this notice, contact Mr. Wayne E. Pearson of the Air Programs Branch, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois, 60604, telephone number 312–353–2205 or Mr. Del Rector of the Air Quality Division, Michigan Department of Natural Resources, Post Office Box 30028, Lansing, Michigan 48909.

Dated: March 31, 1977.

GEORGE R. ALEXANDER, Jr.,
Regional Administator.

[FR Doc.77-10483 Filed 4-8-77;8:45 am]

[FRL 712–1; OPP–42040A]

STATE OF UTAH

Approval of State Plan for Certification of Pesticide Applicators

Section 4(a)(2) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136 et seq.) and the implementing regulations of 40 CFR Part 171, require each state desiring to certify applicators to submit a plan to EPA for its certification program. Any state certification program under this section shall be maintained in accordance with the State Plan approved under this section.

On January 31, 1977, notice was published in the FEDERAL REGISTER (42 FR 5747) announcing the intent of the Regional Administrator, EPA Region VIII, to approve, on a contingency basis, the Utah State Plan for the Certification of Pesticide Applicators (Utah State Plan). Contingency approval was requested by the State of Utah pending enactment of amendments to existing legislation and promulgation of implementing regulations. Copies of the Utah State Plan were made available for public inspection at the Utah Department of Agriculture office in Salt Lake City, Utah, the EPA Region VIII office in Denver, Colorado, and the Office of Pesticide Programs, EPA Headquarters, Washington, D.C.

The Utah State Plan will remain available for public inspection at the Utah Department of Agriculture, 147 North 200 West, Salt Lake City, Utah.

No comments were received concerning the Utah State Plan during the allowed comment period. Therefore, it has been determined that the Utah State Plan will satisfy the requirements of the amended FIFRA and of 40 CFR Part 171. if the proposed regulations described in the State Plan are promulgated by the Utah Department of Agriculture. The amendments to the existing Utah State Statutes necessary to implement the State Plan were passed by the Utah State Legislature on February 25, 1977.

The contingency approval shall expire September 30, 1977 if these terms and conditions are not satisfied by that time. On or before the expiration of the period of contingency approval, a notice shall be published in the FEDERAL REGISTER describing the extent to which these terms and conditions have been satisfied, and the approval status of the Utah State Plan as a result thereof.

EFFECTIVE DATE

Pursuant to section 4(d) of the Administrative Procedure Act, 5 U.S.C. 553 (d), the Agency finds there is good cause for providing that the contingency approval granted herein to the Utah State Plan shall be effective upon the signature of this notice. Neither the Utah State Plan nor this Agency's contingency approval of the Plan creates any direct or immediate obligation on pesticide applicators or other persons in the State of Utah. Delays in starting the work necessary to implement the Plan as may be occasioned by providing some later effective date for this contingency approval are inconsistent with the public interest. Accordingly, this contingent approval shall become effective immediately.

Dated: March 31, 1977.

JOHN A. GREEN,
Regional Administrator, Region VIII.

[FR Doc.77-10485 Filed 4-8-77;8:45 am]

[FRL 711–7]

STATE OF WISCONSIN

Alternative Air Quality Maintenance Area Analysis Procedures; Approval

Notice is hereby given that, pursuant to the authority contained in 40 CFR § 51.63, alternative Air Quality Maintenance Area (AQMA) analysis procedures are approved for the State of Wisconsin. Unless modified under 40 CFR § 51.63, 40 CFR § 51.46(c)(1) calls for the projection of air quality concentrations using the Air Quality Display Model (AQDM) or an equivalent dispersion model. The AQDM uses area and

V4269 APR 11 77 UMI

point source emissions as inputs to the same Gaussian dispersion expression. The State of Wisconsin requested that two separate models, WIS*ATMDIF. MLTPT and WIS*ATMDIF. URBAN, be accepted as a substitute for the AQDM. The point source model (WIS*ATMDIF. MLTPT) uses dispersion coefficients that differ from those used in the AQDM for the stable stability classes. The dispersion coefficients are appropriate for the geographic areas in which the model is being applied. The area source model (WIS*ATMDIF.URBAN) is a non-Gaussian box model.

Because of the good statistical correlation with monitored air quality data, the use of these two models is approved as an alternate to the AQDM for the AQMA strategy development in Southeastern Wisconsin.

For further information related to this notice, contact Mr. Wayne E. Pearson of the Air Programs Branch, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604, telephone number 312-353-2205 or Mr. Paul Kozlar of the Bureau of Air and Solid Waste Management, Wisconsin Department of Natural Resources, Post Office Box 450, Madison, Wisconsin 53701.

Dated: March 31, 1977.

GEORGE R. ALEXANDER, JR.,
Regional Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 21181]

PATRICIA E. HOWELL

Application for Citizens Band Radio Station License in Citizens Band Radio Service

Adopted: March 28, 1977.
Released: April 5, 1977.

The Chief, Safety and Special Radio Services Bureau, has under consideration the above-captioned application for a Citizens Band radio station license by Patricia E. Howell, 5 Greenwood Avenue, Baltimore, Maryland 21206, on July 5, 1976.

1. On numerous occasions during 1973 and 1974, Howell operated a Citizens Band radio station without a license. She failed to heed repeated warnings from the Commission regarding her unlicensed operation, and on August 16, 1974, the Commission released an Order to Cease and Desist (SS-026-74). After release of that Order, Howell continued to operate. Her continued unlicensed operation necessitated the initiation of criminal proceedings by the United States Attorney for the District of Maryland.

2. On February 13, 1975, in the United States District Court, Maryland District, Howell pleaded guilty to and was convicted of unlicensed operation of a Citizens Band radio station, in violation of section 301 of the Communications Act of 1934, as amended.

3. In a Commission letter dated December 10, 1976, Howell was offered an opportunity to submit any facts which she believed relevant to the Commission's determination of whether to grant her application or to designate it for hearing. She was also informed that her temporary authority to operate had expired,[1] and that further operation by her would be unlicensed operation, in violation of section 301 of the Communications Act of 1934, as amended.

4. On January 4, 1977, the Commission received a reply from the applicant. In her letter, Howell stated that she did understand the seriousness of her past violations. She asked what harm might occur if she were given an opportunity to be a licensee, and she suggested that the Commission could "sock it to" her if she were "stupid enough to foul up."

5. Howell's repeated failure to abide by the strictures of the Communications Act raises a serious question as to her qualifications to be a Commission licensee. Her suggestion that her license could be revoked if she violates the rules does not offer reassurance that the applicant is firmly committed to compliance with the Rules.

6. Furthermore, despite the warning contained in the Commission's December 10, 1976, letter to Howell, she apparently operated a Citizens Band radio station on January 27, 1977, without a license, in violation of Section 301 of the Communications Act of 1934, as amended.

7. In view of the findings and conclusions of the Order to Cease and Desist (SS-026-74); the conviction of February 13, 1975, for violation of Section 301 of the Communications Act of 1934, as amended; and her apparently unlicensed operation of January 27, 1977, it cannot be determined that a grant of Howell's application would serve the public interest, convenience, and necessity. Therefore, the Commission must designate the application for hearing. The findings and conclusions of the Cease and Desist Order shall be res judicata as to the applicant and shall not be relitigated in this proceeding.

Accordingly, *it is ordered,* Pursuant to section 309(e) of the Communications Act of 1934, as amended, and §§ 0.331 and 1.973(b) of the Commission's Rules that the captioned application is designated for hearing at a time and place to be specified by subsequent Order, upon the following issues:

(1) To determine the effect of the facts and conclusions contained in the Order to Cease and Desist, released August 16, 1974 (SS-026-74), upon the applicant's qualifications to be a licensee of the Commission.

(2) To determine the effect of the conviction of February 13, 1975, of violation of Section 301 of the Communications Act of 1934, as amended, in the United States District Court, District of Maryland, upon the applicant's qualifications to be a licensee of the Commission.

(3) To determine whether the applicant engaged in unlicensed operation subsequent to her February 13, 1975, conviction.

(4) To determine, in light of the evidence adduced under the foregoing issues, whether the applicant has the requisite qualifications to be a licensee of the Commission.

(5) To determine whether the public interest, convenience and necessity would be served by a grant of Howell's application for a Citizens Band radio station license.

It is further ordered, That to avail herself of the opportunity to be heard, the applicant herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within twenty days of the mailing of this Order, file with the Commission in triplicate a written appearance stating an intention to appear on the date fixed for hearing and to present evidence on the issues specified in the Order. Failure to file a written appearance within the time specified may result in dismissal of the application with prejudice.

Chief, Safety and Special Radio Services Bureau.

GERALD M. ZUCKERMAN,
Chief, Legal, Advisory and Enforcement Division.

[FR Doc.77-10534 Filed 4-8-77;8:45 am]

[1] An applicant for a Citizens Band radio station license may obtain temporary authority to operate CB transmitting equipment prior to being licensed, for a period not to exceed sixty (60) days, by completing FCC Form 555-B and meeting the requirements specified therein.

FEDERAL MARITIME COMMISSION

[Docket No. 76-46; Agreements Nos. T-3191, et al.]

PUERTO RICO PORTS AUTHORITY, ET AL.

Amended Order of Investigation and Hearing

In our September 22, 1976, Order of Conditional Approval of Agreement No. DC-75, we stated that the Order of Investigation and Hearing in this proceeding would be amended to include the questions of whether the agreements between the Puerto Rico Ports Authority (Port) on the one hand and SeaLand Service, Inc. (SeaLand), and the Puerto Rico Maritime Shipping Authority (PRMSA) for the lease or use of berths or land parcels at Puerto Nuevo, San Juan, Puerto Rico, are subject to section 15, and, if so, whether they should be approved, disapproved, or modified.

On the basis of information before us, it would appear that the following agreements fall into this category: [1]

[1] Many of these agreements were filed with the Commission in the early days of the Commission's existence and were determined not to be subject to section 15. Since the circumstances surrounding these agreements has changed and the standards for determining whether a terminal agreement is subject to section 15 of the Shipping Act, 1916 have evolved considerably, these agreements need to be reexamined. Furthermore, even though Agreement No. T-3212 was approved, the approvability of that Agreement should be reexamined as a part of the whole Puerto Nuevo arrangement. Those agreements which have not been filed for Commission action are referred to herein by the Port's number.

Agreement No. T-1582 (Port No. AP-62-63-87) is between the Port and Sea-Land and provides for Seal-Land's fifteen-year lease (with renewal options) of Parcel 8, Puerto Nuervo, for the installation and operation of a temporary break-bulk terminal.

Agreement No. T-1583 (Port No. AP-62-63-169), dated July 15, 1963, is between the Port and Sea-Land and provides for Sea-Land's lease of Parcels 6 and 7, Puerto Nuevo, and preferential berthing privileges at Berths E (Parcel 5-A) and F (Parcel 5-B), Puerto Nuevo, for a term of fifteen years, with a renewal option for an additional five-year period.

Agreement AP-64-65-41, dated August 12, 1964, is an unfiled amendment to Agreement No. T-1583, above, providing for Sea-Land's construction of structural members for gantry cranes at Berths E and F, Puerto Nuevo, and grants Sea-Land the right to install gantry cranes at Berths E and F at its own expense, subject to terms and conditions to be negotiated by the parties at the time of such installation.

Agreement AP-64-65-237, dated April 28, 1965, is an unfiled amendment to Agreement No. T-1583, above, providing for Sea-Land's construction of foundation beams for the gantry cranes to be erected at Berths E and F, Puerto Nuevo.

Agreement No. T-1583-1 (Port No. AP-65-66-29), dated August 3, 1965, amends Agreement No. T-1583, above, by providing for Sea-Land's lease of Parcel 6-A, a 1.1 cuerda parcel adjacent to Parcel 6, Puerto Nuevo; the installation of certain improvements at Parcel 6-B; and the installation of certain ancillary facilities for Sea-Land's cranes at Berths E and F.

Agreement AP-65-66-28, dated September 2, 1965, is an unfiled amendment to Agreement No. T-1583, above, providing for Sea-Land's installation and use of up to four gantry cranes at Berths E and F, Puerto Nuevo.

Agreement A7-AP-62-63-169, dated April 3, 1972, is an unfiled amendment to Agreement No. T-1583, above, providing for Sea-Land's lease of an additional 0.9171 cuerdas adjacent to Parcel 7, Puerto Nuevo.

Agreement No. T-3271 (Port No. AP-75-76-(0)070), dated October 1, 1975, cancels Agreement No. T-1583 and all amendments thereto effective upon the effective date of Agreement No. T-3191. Agreement No. T-3271 was filed for Commission review pursuant to section 15, Shipping Act, 1916, on November 26, 1976.

Agreement No. T-2253 (Port No. AP-68-69-57), dated November 20, 1968, is between the Port and Sea-Land and provides for the construction of Berths G and H (Lots 10-A and 10-B), Puerto Nuevo; Sea-Land's preferential use of these berths; and Sea-Land's lease of Lots 11 and 12 Puerto Nuevo; for a term of fifteen years.

Agreement A-1 AP-68-69-57, dated September 24, 1971, is an unfiled amendment to Agreement No. T-2253, above providing for Sea-Land's lease of an additional 3.006 cuerdas at Puerto Nuevo for the parking of containers.

Agreement No. T-2254 (Port No. AP-68-69-58), dated November 20, 1968, is between the Port and Sea-Land and provides for the construction of foundation beams and crane rails at Berths G and H, Puerto Nuevo, and grants Sea-Land the right to install gantry cranes at Berths G and H at its own expense, subject to the terms and conditions to be negotiated by the parties at the time of such installation.

Agreement AP-67-68-48, dated October 16, 1967, is an unfiled agreement between the Port and TTT providing for TTT's exclusive use of Parcel 4, Puerto Nuevo, and the preferential use of Berth C, Puerto Nuevo, 100 feet of Berth B, Puerto Nuevo, and 3.917 cuerdas of adjacent back-up area, for a term of fifteen years. TTT's interest in this agreement was acquired by PRMSA through the acquisition of TTT's subsidiary, TTT of Puerto Rico, Inc., this providing the basis for PRMSA's current Roll-on/Roll-off operations at these facilities.

A March 7, 1968 letter amendment to Agreements AP-67-68-48 and AP-67-68-49, is an unfiled amendment providing for an increase in area and rentals in connection with preferential berthing privileges under Agreement AP-67-68-48, above.

"Amendment I to Contract AP-67-68-48", dated June 2, 1969, is an unfiled amendment providing for TTT's exclusive use of a marine terminal building situated to the South of Berth C, Puerto Nuevo.

Agreement A-2 AP-67-68-48, dated November 27, 1970 is an unfiled amendment to Agreement AP-67-68-48, above, and provides for TTT's lease of a one cuerda parcel located between Berth C, Puerto Nuevo, and a parcel owned by the Puerto Rico Water Resources Authority.

Agreement A-3 AP-67-68-48, dated April 15, 1971, is an unfiled amendment to Agreement AP-67-68-48, above, and provides for a one-year extension of Agreement A-2 AP-67-68-48.

A November 16, 1972, letter amendment to Agreement AP-67-68-48, above, is an unfiled amendment providing for TTT's lease of a plot of land formerly used as a parking area by the Commercial Development Company.

Agreement No. T-3211 (Port No. AP-75-76-(4)-042), dated October 1, 1975, is between the Port and PRMSA and provides for PRMSA's fifteen year lease of Parcels IV-F and IV-G, Puerto Nuevo. Agreement No. T-3211 was filed for Commission review pursuant to section 15 on December 4, 1975, and was subsequently protested by Seatrain Gitmo, Inc. (Seatrain). However, Seatrain has since withdrawn its protest.

Agreement No. T-3211-1 (Port No. (A-1) AP-75-76-(4)042A) amends Agreement No. T-3211, above, by correcting the compensation to be paid under the basic agreement. Agreement No. T-3211-1 was filed on July 26, 1976, and was subsequently protested by Seatrain. However, Seatrain has since withdrawn its protest.

Agreement No. T-3212, dated October 1, 1975, is between the Port and PRMSA and provides for PRMSA's eleven-year lease of Lot 9, Puerto Nuevo. Agreement No. T-3212 was approved on February 10, 1976.

Agreement No. T-3211-2/T-3212-1, dated October 27, 1976 is a single document amending both Agreements T-3211 and T-3212 by granting an option to renew these agreements for additional fifteen-year terms upon the expiration of their basic term.

Agreement No. T-3393, dated November 17, 1976, is between the Port and PRMSA and grants PRMSA an option to lease a 32-acre tract of land behind Berth J, Puerto Nuevo, for fifteen years, with further options to renew for two additional terms of fifteen years each.

Agreement No. T-3416, dated October 27, 1976, is between the Port and PRMSA and grants PRMSA an option to lease a 15.3 cuerda portion of Lot C, Puerto Nuevo, for a fifteen-year term with an option to renew for an additional fifteen-year term upon the expiration of the original term.

Notwithstanding the fact that some of the above agreements have previously been either determined not to be subject to section 15 of the Shipping Act, 1916, or approved pursuant to section 15; all of these agreements fall within the scope encompassed by our September 22, 1976, Order in the matter of Agreement No. DC-75. In addition to the issues of whether these agreements are subject to section 15, and if so, whether they should be approved, disapproved or modified, we are also incorporating the following related issues into this proceeding:

(1) Whether or not the above-listed agreements and amendments, together with Agreements Nos. T-3191, T-3193, T-3199, T-3210 and the Puerto Nuevo Contract, represent all of the agreements among the Port, PRMSA and Sea-Land for PRMSA's and Sea-Land's use of Puerto Nuevo.

(2) Whether or not any of those agreements which are subject to section 15 relating to PRMSA's or Sea-Land's use of Puerto Nuevo, have been in any manner implemented prior to Commission approval in violation of section 15.

(3) Whether or not any of the above-listed agreements have in any manner been further amended or whether there are any other agreements subject to section 15 which permit PRMSA's use of Puerto Nuevo marine terminal facilities leased by Sea-Land from the Port.

It is therefore ordered, That Docket No. 76-46 be, and hereby is, amended to include the issue of whether Agreements Nos. T-1582, T-1583, AP-64-65-41, AP-64-65-237, T-1583-1, AP-65-66-28, A-7 AP-62-63-169, T-3271, T-2253, A-1 AP-68-69-57, T-2254, AP-67-68-48, the March 7, 1968, letter amendment to Agreements AP-67-68-48 and AP-67-68-49, "Amendment I to Contract AP-67-68-48", A-2 AP-67-68-48, A-3 AP-67-68-48, the November 16, 1972, letter amendment to Agreement AP-67-68-48, T-3211, T-3211-1, T-3212, T-3211-2/T-3212-1, T-3393, or T-3416 (hereinafter referred

V4269 APR 11 77 UMI

to collectively as Agreements), individually or taken as a whole, are subject to section 15, Shipping Act, 1916, and, if so, whether they should be approved, disapproved, or modified;

It is further ordered, That Docket No. 76–46 be, and hereby is, amended to include the issue of whether there are any agreements, other than those enumerated in the first ordering paragraph, between the Port and PRMSA, between PRMSA and Sea-Land, or between the Port and Sea-Land, for the lease or use of berths or land parcels at Puerto Nuevo, San Juan, Puerto Rico, which are, either individually or taken as a whole, subject to section 15 of the Shipping Act, 1916, and, if so, whether they should be approved, disapproved or modified;

It is further ordered, That Docket No. 76–46 be, and hereby is, amended to include the issue of whether or not any of the Agreements determined to be subject to section 15, Shipping Act, 1916, relating to PRMAS's or Sea-Land's use of Puerto Neuvo marine terminal facilities have been implemented in any manner whatsoever prior to Commission approval in violation of section 15, Shipping Act, 1916.

By the Commission.

JOSEPH C. POLKING,
Acting Secretary.

[FR Doc.77-10573 Filed 4-8-77;8:45 am]

FEDERAL POWER COMMISSION

EMERGENCY NATURAL GAS ACT OF 1977

[Docket No. E77-86]

Emergency Order

On April 5, 1977, Piedmont Natural Gas Company, Inc. (Piedmont), filed, pursuant to section 6 of the Emergency Natural Gas Act of 1977 (Act), Pub. L. 95–2 (91 Stat. 4 (1977)), an application for an order authorizing Texaco, Inc. (Texaco) and Transcontinental Gas Pipe Line Corporation (Transco) to transport natural gas which Piedmont has purchased under section 6(a) of the Act. Also, on April 5, 1977, Texaco stated its willingness to assist Piedmont if duly ordered and authorized to perform such services. For the reasons set forth below, I authorize the requested transportation.

By contract dated March 10, 1977, Piedmont agreed to purchase approximately 1,000 Mcf per day of natural gas from Sabine Production Company (Sabine) at the Lafitte Field, Jefferson Parish, Louisiana. Piedmont will purchase these supplies at a price of $2.15 per MMBtu inclusive of all state and local taxes and other adjustments. This price is fair and equitable in accordance with Order No. 2.

Sabine will deliver the gas to Piedmont at the points where the field tank batteries are connected to Texaco's gathering lines in the Lafitte Field. Texaco will transport the gas through its intrastate gathering lines to the outlet of its Paradis Gas Processing Plant, St. Charles Parish, Louisiana, where it will deliver the gas to Transco. Transco will deliver the gas to Piedmont at existing delivery points.

Texaco will charge Piedmont 10 cents per Mcf for costs incurred to transport the subject gas. Transco will charge 45.8 cents per MMBtu plus 3.8 percent of the volumes for compressor fuel; this rate is to be collected subject to refund pursuant to order issude in Docket No. E77–83 (April 4, 1977). Piedmont states that its acceptance of Transco's proposed rate is without prejudice to its position that Transco's rate is not just and reasonable.[1]

Texaco has not advised whether any of the contracts covering intrastate gas flowing through the facilities used to transport gas for the benefit of Piedmont prohibit the sale or commingling of such gas with gas subject to the Natural Gas Act or the termination of such contracts as a result of such sale or commingling. The sale, transportation and delivery of gas for which Piedmont seeks approval may result in some commingling of interstate natural gas with Texaco's normal intrastate gas supplies and with gas owned by other third parties. This order shall be considered as applying to all such commingled gas. Under the provisions of section 9(b), (c) of Pub. L. 95–2 (91 Stat. at 9), the suppliers of such gas, which is so commingled, may not terminate existing contracts with Texaco or such other parties or require a redetermination of the prices provided in such contracts by reason of this transaction. Contractual termination, prohibition or redetermination provisions in any such contracts referred to above are not enforceable by reason of Section 9 of Public Law 95–2 since Sabine is selling and Texaco is delivering and transporting gas for Piedmont pursuant to Section 6(a) of that Act. Texaco and any third person whose gas is commingled with Piedmont's gas shall refer all relevant information concerning any attempt to terminate existing contracts or require a redetermination of prices to the Administrator for appropriate action.

According to the official files of the Federal Power Commission, Sabine is not classified as a natural gas company within the meaning of the Natural Gas Act. Section 6(b)(1)(A) of the Act provides in part that "[t]he provisions of the Natural Gas Act shall not apply * * * to any sale to an interstate pipeline * * * under the authority of subsection (a) or to any transportation by an intrastate pipeline in connection with such sale * * *." 91 Stat. 4, 8. Texaco is a natural gas company within the meaning of the Natural Gas Act. Section 6(b)(1)(B) provides that the provisions of the Natural Gas Act shall not apply "to any natural gas company (within the meaning of the Natural Gas Act) solely by reason of any such sale or transportation." Thus, the sale, delivery and transportation of this gas will not subject Sabine, Texaco or any third person supplying gas to Texaco to the provisions of the Natural Gas Act or to regulation as a common carrier under state law.

Piedmont shall submit weekly reports as required by Order No. 4.

Pursuant to section 6(a) of the Act, I hereby authorize Sabine to sell to Piedmont up to 1,000 Mcfd of natural gas on the terms and conditions set forth in Piedmont's filing in this proceeding. Pursuant to Section 6(c)(1) of the Act, I hereby authorize and order Texaco and Transco to transport gas for Piedmont. Since the parties have agreed upon the transportation charges (subject to Piedmont's reservations), I find no basis for prescribing other charges.

This order is issued pursuant to the authority delegated to me by the President in Executive Order No. 11969 (February 2, 1977), and shall be served upon Piedmont, Texaco, Sabine, and Transco. This order shall also be published in the FEDERAL REGISTER.

This order and authorization granted herein are subject to the continuing authority of the Administrator under Pub. L. 95–2 and the rules and regulations which may be issued thereunder.

RICHARD L. DUNHAM,
Administrator.

APRIL 6, 1977.

[FR Doc.77-10567 Filed 4-8-77;8:45 am]

[1] Piedmont's position is that in Transco's rate proceeding in Federal Power Commission Docket No. RP77-48, Piedmont indicates that it plans to contest Transco's proposed rate in FPC Docket No. RP77-48 and before the Administrator.

EMERGENCY NATURAL GAS ACT OF 1977

[Docket No. E77-851]

Emergency Order

On April 4, 1977, Texas Gas Transmission Corporation (Texas Gas) filed, pursuant to Section 6 of the Emergency Natural Gas Act of 1977 (Act), Pub. L. 95–2 (91 Stat. 4 (1977)), an application for authorization to transport natural gas for the account of Indiana Gas Company (Indiana Gas).[1]

Trunkline Gas Company (Trunkline), acting as agent for Indiana Gas, has executed a contract with Good Hope Refineries, Inc. (Good Hope) for the sale of natural gas pursuant to Section 6(a) of the Act (91 Stat. at 7–8). The total price to be paid by Trunkline as agent, is $2.25 per MMBtu. Thus, the proposed price is fair and equitable in accordance with Order No. 2.

Texas Gas will receive the subject volumes from Trunkline at Dyersburg, Tennessee, and transport and deliver such volumes to Indiana Gas at existing delivery points. No new facilities are required to perform this service.

Texas Gas' proposed transportation rates are based upon the cost data supporting the settlement rates in Texas Gas' most recent Federal Power Commission rate case in Docket No. RP76–17 plus 1.25 percent of the transported volumes for compressor fuel and company use and loss. I find no basis on which to prescribe other charges since the parties have agreed upon the transportation charges.

Pursuant to Section 6(c)(1) of the Act (91 Stat. at 8), I authorize Texas Gas to transport gas for Indiana Gas.

Indiana Gas shall submit weekly reports as required by Order No. 4 and shall certify that it is qualified to make this purchase under Order No. 6.

This order is issued pursuant to the authority delegated to me by the President in Executive Order No. 11969 (February 2, 1977), and shall be served upon Texas Gas, Trunkline, Indiana Gas and Good Hope. This order shall also be published in the FEDERAL REGISTER.

This order and authorization granted herein are subject to the continuing authority of the Administrator under Pub. L. 95–2 and the rules and regulations which may be issued thereunder.

RICHARD L. DUNHAM,
Administrator.

APRIL 5, 1977.

[FR Doc.77-10568 Filed 4-8-77;8:45 am]

[1] Indiana Gas is a local distribution company as defined in Section 2(1) of the Act (91 Stat. 4).

[Docket No. E77-87]

EMERGENCY NATURAL GAS ACT OF 1977

Emergency Order

On April 5, 1977, Texas Gas Transmission Corporation (Texas Gas), as agent for certain of its customers,[1] filed, pursuant to Section 6 of the Emergency Natural Gas Act of 1977 (Act), Pub. L. 95–2 (91 Stat. 4 (1977)), an application for authorization to transport natural gas which it is purchasing for certain of its customers and to construct the facilities necessary to receive this gas into its pipeline system.

Texas Gas, as agent, executed a contract on March 18, 1977, with Par Oil Corporation (Par) for the purchase of approximately 2,000 Mcfd from the Athens Field, Claiborne Parish, Louisiana. The total price to be paid by Texas Gas, as agent, is $2.25 per MMBtu. Thus, the proposed price is fair and equitable in accordance with Order No. 2.

Texas Gas will receive these volumes in Claiborne Parish, Louisiana, and transport these supplies through its existing pipeline facilities to the customers for which it is purchasing the gas. Texas Gas' proposed transportation rates are based upon the cost data supporting the settlement rates in Texas Gas' most recent Federal Power Commission rate case in Docket No. RP76–17 and the retention of a percent of the transported volumes for compressor fuel and company use and loss. I find no basis for prescribing other charges since the parties have agreed upon the transportation charges.

Based upon the foregoing, Texas Gas is authorized to purchase gas, as agent, from Par and to transport such gas for certain of its customers. This authorization is conditioned on (i) Texas Gas' submission of the names of the customers for which it is acting as agent, (ii) those customers agreeing to submit reports as required by Order No. 4 and (iii) such customers certifying that they are entitled to purchase gas under the provisions of Order No. 6.

This order is issued pursuant to the authority delegated to me by the President in Executive Order No. 11969 (February 2, 1977), and shall be served upon Texas Gas and Par. This order shall also be published in the FEDERAL REGISTER.

This order and authorization granted herein are subject to the continuing authority of the Administrator under Pub. L. 95–2 and the rules and regulations which may be issued thereunder.

RICHARD L. DUNHAM,
Administrator.

APRIL 6, 1977.

[FR Doc.77-10570 Filed 4-8-77;8:45 am]

[1] These customers are local distribution companies and interstate pipelines as defined in sections 2(1), (5) of the Act (91 Stat. 4).

EMERGENCY NATURAL GAS ACT OF 1977

Emergency Order

On April 6, 1977, Texas Gas Transmission Corporation (Texas Gas), as agent for the certain of its customers,[1] filed, pursuant to section 6 of the Emergency Natural Gas Act of 1977 (Act), Pub. L. 95–2 (91 Stat. 4 (1977)), an application for authorization to transport natural gas which it is purchasing for certain of its customers.

Texas Gas, as agent, executed a contract on March 14, 1977, with Getty Oil Company (Getty) for the purchase of approximately 350 Mcfd from the Carthage Field, Panola County, Texas. The total price to be paid by Texas Gas, as agent, is $2.25 per MMBtu. Thus, the proposed price is fair and equitable in accordance with Order No. 2.

Texas Gas will receive these volumes at the outlet of the Champlin Gasoline Plant, Panola County, Texas and transport these supplies through its existing pipeline facilities to the customers for which it is purchasing the gas. Texas Gas' proposed transportation rates are based upon the cost data supporting the settlement rates in Texas Gas' most recent Federal Power Commission rate case in Docket No. RP76–17 and the retention of a percent of the transported volumes for compressor fuel and company use and loss. I find no basis on which to fix other charges since the parties have agreed upon the transportation charges.

Based upon the foregoing, Texas Gas is authorized to purchase gas, as agent, from Getty and to transport such gas for certain of its customers. This authorization is conditioned on (i) Texas Gas' submission of the names of the customers for which it is acting as agent, (ii) those customers agreeing to submit reports as required by Order No. 4 and (iii) such customers certifying that they are entitled to purchase gas under the provisions of Order No. 6.

This order is issued pursuant to the authority delegated to me by the President in Executive Order No. 11969 (February 2, 1977), and shall be served upon Texas Gas and Getty. This order shall also be published in the FEDERAL REGISTER.

This order and authorization granted herein are subject to the continuing authority of the Administrator under Pub. L. 95–2 and the rules and regulations which may be issued thereunder.

RICHARD L. DUNHAM,
Administrator.

[FR Doc.77-10662 Filed 4-8-77;8:45 am]

[1] These customers are local distribution companies and interstate pipelines as defined in sections 2 (1), (5) of the Act (91 Stat. 4).

[Docket No. E77-79]

Supplemental Emergency Order

By order issued March 28, 1977, pursuant to Section 6 of the Emergency Natural Gas Act of 1977 (Act), Pub. L. 95–2 (91 Stat. 4 (1977)), Transwestern Pipeline Company (Transwestern) was authorized to continue an emergency purchase under Section 6 from Inexco Oil Company (Inexco) through July 31, 1977, notwithstanding Order No. 6. On March 31, 1977, Cities Service Gas Company (Cities Service) requested clarification of that order regarding Cities Service's eligibility to purchase emergency gas from Transwestern.

Order No. 6 specifies that, subsequent to February 22, 1977, no interstate pipeline or local distribution company may execute a contract for the purchase of gas pursuant to section 6 of the Act if, contemporaneously with the execution of the contract, the purchaser was serving directly or indirectly any uses specified in Priorities 4 through 9 (18 CFR 2.78 (a)(1)(iv)–(ix)). Order No. 6 is directed to the initial purchaser of the gas not a subsequent recipient of the gas.[1] Transwestern's authorization to purchase this gas encompasses the right to sell such gas to its customers. Therefore, Transwestern may sell the appropriate share of this gas to Cities Service.

Cities Service also raises the question of the manner in which it may recover the cost of the emergency purchase gas. The question of how the costs associated with emergency purchases are to be recovered pursuant to Section 7 of the Act (91 Stat. 4, 8) is currently under consideration. A general order regarding this matter will be issued in the near future.

This order is issued pursuant to the authority delegated to me by the President in Executive Order No. 11969 (February 2, 1977), and shall be served upon Transwestern, Cities Service, Inexco,

[1] Order No. 6 requires that a pipeline not be serving any uses classified in Priorities 4 through 9 contemporaneously with the execution of a contract for an emergency purchase. Thus, a pipeline is required to determine whether any person ultimately receiving gas from it is serving any proscribed uses contemporaneously with the execution of the contract.

V4269 APR 11 77 UMI

CIG, Northwest, and El Paso. This order shall also be published in the FEDERAL REGISTER.

This order is subject to the continuing authority of the Administrator under Pub. L. 95-2 and the rules and regulations which may be issued thereunder.

RICHARD L. DUNHAM,
Administrator.

FEDERAL RESERVE SYSTEM

CITY NATIONAL BANK CORP.

Acquisition of Bank

City National Bank Corporation, Miami, Florida, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 22.5 percent or more of the voting shares of the City National Bank of Lauderhill, Lauderhill, Florida. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than May 2, 1977.

Board of Governors of the Federal Reserve System, April 4, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc.77-10507 Filed 4-8-77;8:45 am]

CLEVETRUST CORP.

Order Approving Acquisition of Bank

CleveTrust Corporation, Cleveland, Ohio ("Applicant"), a bank holding company within the mean of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of Columbus Trust Company, Columbus, Ohio ("Bank"), a proposed de novo bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired and the application and all comments received have been considered in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the largest banking organization in Ohio, controls nine banks with aggregate deposits of $3.1 billion, representing 9.98 percent of the total deposits in commercial banks in the State.[1] Since the application involves the acquisition of a proposed de novo bank, consummation of the proposal would not immediately increase Applicant's share of commercial bank deposits in Ohio.

Bank is to be located in the downtown area of Columbus. The closest banking office of any subsidiary of Applicant is located 100 miles northeast of Bank's proposed site and none of Applicant's subsidiaries derives a significant amount of business from the anticipated service area of Bank.

Twenty-six banking organizations presently operate in the Columbus banking market.[2] Despite the large number of competitors, the market is highly concentrated. The three largest organizations control 85.6 per cent of total market deposits. Approval of the proposed transaction would provide the market with a new competitor. Given Applicant's resources and the prospects for continued growth in the Columbus area, the introduction of Bank could eventually lead to a reduction in the current high level of market concentration. Accordingly, on the basis of the facts of record, it has been concluded that consummation of the proposal would not have any adverse effects on existing or potential competition.

The financial and managerial resources and future prospects of Applicant and its subsidiary banks are regarded as satisfactory. Bank, as a proposed de novo bank, has no financial or operating history; however, its prospects as a subsidiary of Applicant appear favorable. Considerations relating to the banking factors are thus consistent with approval of the application. Considerations relating to the convenience and needs of the community to be served lend some weight toward approval of the application. It has been determined that consummation of the proposal would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Cleveland pursuant to delegated authority.

By order of the Secretary of the Board of Governors, pursuant to delegated authority, effective April 5, 1977.

THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.77-10506 Filed 4-8-77;8:45 am]

[1] Unless otherwise indicated, all banking data are as of March 31, 1976.

[2] The Columbus banking market is approximated by the Columbus SMSA except for the addition of the western half of Licking County and the omission of some of the outlying townships in Pickaway, Madison, and Delaware Counties. All market data are as of June 30, 1975.

ELLIS BANKING CORP.

Order Approving Acquisition of Bank and Granting a Requested Determination

Ellis Banking Corporation, Bradenton, Florida, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 50.1 per cent or more of the voting shares of the Citizens Bank of Bunnell, Bunnell, Florida ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the tenth largest banking organization in Florida, controls 25 banks with aggregate deposits of approximately $692.3 million, representing approximately 2.8 percent of total commercial bank deposits in Florida.[1] Acquisition of Bank (approximately $11.8 million in deposits) would increase Applicant's share of commercial bank deposits in Florida by .05 per cent and would have no appreciable effect upon the concentration of banking resources in Florida.

Bank, the larger of the two banks in the relevant market,[2] controls total deposits of approximately $11.8 million, representing about 63 percent of the total deposits in commercial banking institutions in the market. The closest subsidiary bank of Applicant is located 150 miles south of Bank in a separate banking market. Approval of the proposal would eliminate no significant existing competition between Applicant's subsidiaries and Bank. Common ownership and control of Bank and the only other bank in the relevant market has led to common senior operating management and numerous director interlocks. Because of this relationship, the two banking institutions do not presently compete with each other to any meaningful extent. If the subject proposal is approved, Applicant has indicated that the present relationship would be terminated and Bank would become independent and an alternative source of banking services in the relevant market. On the basis of the facts of record, the Board concludes that competitive considerations are consistent with, and lend some weight toward, approval of the application.

The financial and managerial resources and future prospects of Applicant and its subsidiaries are regarded as generally satisfactory. The financial and managerial resources and future prospects of Bank appear satisfactory. Considerations relating to banking factors are consistent with approval.

[1] All banking data are as of June 30, 1976.

[2] The relevant market is approximated by Flagler County.

Applicant has indicated that it will provide Bank with specialized lending expertise and assist it in securing loan participations. Furthermore, affiliation with Applicant will provide Bank with access to Applicant's centralized auditing, accounting, investment counseling, and management training program. Considerations relating to the convenience and needs of the community to be served, therefore, lend some weight toward approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

In connection with this proposal, Applicant will offer two types of debt instruments in exchange for Bank's stock: a seven-year maturity convertible debenture and a ten-year maturity nonconvertible debenture. Florida National Banks of Florida, Inc. ("Florida National"), Jacksonville, Florida, will exchange the 50.1 per cent of the voting shares it now holds in Bank for the ten-year maturity nonconvertible debentures Applicant is offering.[3] Under section 2(g)(3) of the Act, shares transferred after January 1, 1966, by a bank holding company directly or indirectly to any transferee that is indebted to the transferor are deemed to be indirectly owned or controlled by the transferor unless the Board, after opportunity for hearing, determines that the transferor is not in fact capable of controlling the transferee. On the basis of the facts of record, including submissions from both Applicant and Florida National, the Board has determined, pursuant to section 2(g)(3) of the Act (12 U.S.C. 1841(g)(3)), that Florida National will not in fact be capable of controlling Applicant.[4] Furthermore, upon consummation of this transaction, Florida National will terminate its interest in Bank, as required by the Board's Order of July 29, 1976.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[5] effective April 4, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc.77-10508 Filed 4-8-77;8:45 am]

[3] Officers of Florida National acquired a controlling interest in Bank in 1974. In its Order of July 29, 1976, denying Florida National's application to acquire control of Bank from its officers, the Board found that Florida National had violated the prior approval requirements of section 3 of the Act, and required Florida National to divest of all direct or indirect interest in Bank (62 Fed. Res. Bulletin 696). The subject application represents the means by which Florida National seeks to comply with the Board's Order.

[4] Among the facts of record upon which the Board bases this determination, the Board notes, in particular, that Florida National has no directors or officers in common with Applicant. Florida National will hold nonconvertible debentures totalling less than 5 per cent of Applicant's total liabilities and Florida National's Board of Directors has resolved that it "will not exercise or attempt to exercise any degree or manner of control of Ellis Banking Corporation as long as Florida National is the owner or holder of the ten-year maturity nonconvertible debentures of Ellis". Furthermore, there are no agreements or understandings between Florida National and Ellis whereby Florida National would regain the shares of Bank's stock it has exchanged.

[5] Voting for this action: Governors Wallich, Coldwell, Jackson, Partee and Lilly. Absent and not voting: Chairman Burns and Governor Gardner.

KREY COMPANY, LTD.

Formation of Bank Holding Company

Krey Company Ltd., Pratt, Kansas, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 51 percent or more of the voting shares of The Peoples Bank, Pratt, Kansas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Krey Company Ltd., Pratt, Kansas, has also applied, pursuant to § 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire substantially all of the assets of two consumer finance offices of Central States, Inc., Pratt, Kansas. Notice of the application was published in the following newspapers on the dates indicated: "The Pratt Tribune," Pratt County, Kansas, March 7, 1977; "The Southwest Daily Times," Seward County, Kansas, March 9, 1977; and "The Guymon Daily Herald," Texas County, Oklahoma, March 10, 1977.

Applicant states that the proposed subsidiary would engage in the following activities: Making and acquiring for its own account loans and discounts such as would be made by a consumer and sales finance company, and acting as an insurance agent or broker in selling credit life insurance and credit accident and health insurance in connection with such consumer and sales finance activities. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increases competition or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than May 3, 1977.

Board of Governors of the Federal Reserve System, April 5, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc.77-10509 Filed 4-8-77;8:45 am]

MARYVILLE BANCSHARES, INC.

Formation of Bank Holding Company

Maryville Bancshares, Inc., Kansas City, Missouri, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holdholding company through acquisition of 94 percent or more of the voting shares of Citizens State Bank of Maryville, Maryville, Missouri. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than May 10, 1977.

Board of Governors of the Federal Reserve System, April 5, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

UNITED STATES OF AMERICA
BEFORE FEDERAL TRADE COMMISSION

[File No. 732-3401]

AGREEMENT CONTAINING CONSENT ORDER TO CEASE AND DESIST

In the matter of Astor-Scott, Inc., a corporation, and Nelson Torelli, individually and as an officer of the corporation.

The Federal Trade Commission having initiated an investigation of certain acts and practices of Astor-Scott, Inc., a corporation, and Nelson Torelli, individually and as an officer of said corporation, and it now appearing that Astor-Scott, Inc., a corporation, and Nelson Torelli, individually and as an officer of said corporation, hereinafter sometimes referred to as proposed respondents, are willing to enter into an agreement containing an order to cease and desist from the use of the acts and practices being investigated:

It is hereby agreed by and between Astor-Scott, Inc., by its duly authorized officer, and Nelson Torelli, individually and as an officer of said corporation, and their attorney, and counsel for the Federal Trade Commission that:

1. Proposed respondent Astor-Scott, Inc., is a corporation organized, existing and doing business under and by virtue of the laws of the State of Florida, with its office and principal place of business located at 6041 N.E. 14th Avenue, Fort Lauderdale, Florida 33334.

Proposed respondent Nelson Torelli is an officer of said corporation. He formulates, directs and controls the policies, acts and practices of said corporation, and his address is the same as that of said corporation.

2. Proposed respondents admit all the jurisdictional facts set forth in the draft of complaint here attached.

3. Proposed respondents waive:

(a) Any further procedural steps;

(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; and

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement.

4. This agreement shall not become a part of the official record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission it, together with the draft of complaint contemplated thereby, will be placed on the public record for a period of sixty (60) days and information in respect thereto publicly released; and such acceptance may be withdrawn by the Commission if comments or views submitted to the Commission disclose facts or considerations which indicate that the order contained in the agreement is inappropriate, improper or inadequate.

5. This agreement is for settlement purposes only and does not constitute an admission by proposed respondents that the law has been violated as alleged in the draft of complaint here attached.

6. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of § 2.34 of the Commission's Rules, the Commission may, without further notice to proposed respondents, (1) issue its complaint corresponding in form and substance with the draft of complaint here attached and its decision containing the following order to cease and desist in disposition of the proceeding and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. Mailing of the complaint and decision containing the agreed-to order to proposed respondents' address stated in the agreement shall constitute service. Respondents waive any right they may have to any other manner of service. The complaint may be used in construing the terms of the order, and no agreement, understanding, representation, or interpretation not contained in the order of the agreement may be used to vary or contradict the terms of the order.

7. Proposed respondents have read the proposed complaint and order contemplated hereby, and they understand that once the order has been issued, they will be required to file one or more compliance reports showing that they have fully complied with the order, and that they may be liable for a civil penalty in the amount provided by law for each violation of the order after it becomes final

ORDER

COUNT I

It is ordered, That respondents, Astor-Scott, Inc., a corporation, its successors and assigns, and its officers, and Nelson Torelli, individually and as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the offering for sale, sale or distribution of Exogen Vitamin E Oil, or any food, drug, device or cosmetic, do forthwith cease and desist from:

A. Disseminating, or causing to be disseminated, by means of the United States mails or by any means in or having an effect upon commerce, as "commerce" is defined in the Federal Trade Commission Act, as amended, any advertisement for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase of said product, which advertisement:

1. Represents in writing, orally, visually or in any other manner, directly or by implication, that:

(a) Vitamin E is absorbed into the skin through topical application to the extent and degree that such absorption would result in cosmetic or rejuvenative benefit;

(b) Vitamin E, through its anti-oxidant properties, prevents moisture loss or supplies oxygen to skin cells:

(c) Vitamin E is a new, different, wonder or miracle ingredient, the inclusion of which yields additional benefits to Exogen Vitamin E Oil beyond the effect of any moisturizing preparation;

(d) The purity and strength of the Vitamin E in Exogen Vitamin E Oil will have an effect on the performance or efficacy of the product;

(e) Topical application of Exogen Vitamin E Oil will make one younger looking, yield a youthful complexion or reverse the process of aging skin;

(f) Topical application of Exogen Vitamin E Oil will prevent and improve skin faults, including, but not limited to, dry flaky skin, fine lines, surface scars, wind or sunburned tissues, stretch marks, wrinkles and blemishes;

(g) Topical application of Vitamin E will have any salutary effect on the skin.

2. Contains any representation for any drug, cosmetic, food or dietary product, as being effective in the prevention, improvement, treatment or relief of skin faults or conditions, obesity or other appearance or health problems unless such representations are supported and substantiated by competent scientific data or tests. Such scientific data or tests shall be available in written form for inspection by authorized representatives of the Federal Trade Commission during the period of time the representation is being made and for at least three years following the final use of the representation.

B. Disseminating, or causing to be disseminated, by any means, any advertisement for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, as amended, of Exogen Vitamin E Oil or any food, drug, device or cosmetic, which advertisement contains any representation prohibited by Count I of this order.

COUNT II

It is further ordered, That respondents Astor-Scott, Inc., a corporation, its successors and assigns, and its officers, and Nelson Torelli, individually and as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale or distribution of Phantom Roach Powder, or any other product or service in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, as amended, do forthwith cease and desist from:

A. Representing in writing, orally, visually or in any other manner, directly or by implication, that:

1. Product use will result in total pest extermination in an infested household unless respondents can establish that such is the fact.

2. A progressive chain reaction or other functional characteristic will occur during or after product use unless respondents can establish that such is the fact.

3. The period of time during which the use or results of use will remain effective unless respondents can establish that such is the fact.

B. Representing, orally, visually, in writing or any other manner, directly or by implication, the efficacy, results of use, quality features, performance characteristics or composition of any product or service unless they are supported and substantiated fully by competent data or tests. Such data or tests shall be available in written form for inspection by authorized representatives of the Federal Trade Commission during the period of time the representation is being made and for at least three years following the final use of the representation.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, or any other change in the corporation which may affect compliance obligations arising out of the order. If it is demonstrably impossible to furnish such notice at least thirty (30) days prior to such event, notice shall be delivered to the Commission as soon as possible prior to consummation of any such occurrence.

It is further ordered, That the individual respondent shall notify the Commission at least thirty (30) days prior to the discontinuance of his present business and at least thirty (30) days prior to his affiliation with a new business or trade. If it is demonstrably impossible to furnish such notice at least thirty (30) days prior to such event, notice shall be delivered to the Commission as soon as possible prior to consummation of any such occurrence. Such notice shall include the respondent's current business address and a statement as to the nature of the business or employment in which he is engaged, as well as a description of his duties and responsibilities.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

ASTOR-SCOTT, INC., ET AL.

[File No. 732-3401]

ANALYSIS OF PROPOSED CONSENT ORDER TO AID PUBLIC COMMENT

The Federal Trade Commission has accepted an agreement to a proposed consent order from Astor-Scott, Inc., a corporation, and Nelson Torelli, individually and as an officer of said corporation.

The proposed consent order has been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

This matter concerns Astor-Scott, Inc., a Florida corporation and its sole stockholder and officer, Nelson Torelli of Fort Lauderdale, Florida, engaged in the past in mail order merchandising of a Vitamin E oil product called Exogen Vitamin E Oil and an insecticide called Phantom Roach Trap and Powder; and currently engaged in mail order marketing of jewelry, books and an indoor television antenna product. The complaint charges the parties with unfair and deceptive acts and practices in several respects: (1) Falsely and without competent substantiation representing the effectiveness of the Exogen Vitamin E Oil product in the prevention, improvement, treatment or relief of skin faults or conditions, obesity, or other appearance or health problems; (2) falsely and without competent substantiation representing the effectiveness, results of use, quality features, performance characteristics or product composition of the insecticide product, the Phantom Roach Trap and Powder.

The consent order requires respondents (1) to stop the use of any claim of product performance, effectiveness, performance characteristics or composition unless the claims are substantiated, factually and fully by competent data or tests; (2) to maintain such data or tests in written form and make such material available for compliance inspection.

The purpose of this analysis is to facilitate public comment on the proposed order and it is not intended to constitute an official interpretation of the agreement and the proposed order or to modify in any way their terms.

JOHN F. DUGAN,
Acting Secretary.

FOREIGN-TRADE ZONES BOARD

[ORDER NO. 117]

CITY OF NEW BEDFORD, MASS.

Resolution and Order Approving Application of New Bedford, Massachusetts, for a Foreign-Trade Zone in New Bedford

PROCEEDINGS OF THE FOREIGN-TRADE ZONES BOARD, WASHINGTON, D.C.

RESOLUTION AND ORDER

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board has adopted the following Resolution and Order:

The Board, having considered the matter hereby orders:

After consideration of the application of the City of New Bedford, Massachusetts, filed with the Foreign-Trade Zones Board (the Board) on October 22, 1976, requesting a grant of authority for establishing, operating and maintaining a foreign-trade zone in New Bedford, the Board, finding that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's regulations are satisfied, and that the proposal is in the public interest, approves the application.

Since the proposal involves an industrial park type zone that envisages the construction of buildings by parties other than the grantee, this approval includes authority to the grantee, to permit the erection of such buildings, pursuant to Section 400.815 of the Board's regulations, as are necessary to carry out the zone proposal, providing that prior to its granting such permission it shall have the concurrences of the local District Director of Customs, the U.S. Army Division Engineer, when appropriate, and the Board's Executive Secretary. Further, the grantee shall notify the Executive Secretary for approval prior to the commencement of any manufacturing operation within the zone. The Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized to issue a grant of authority and appropriate Board Order.

GRANT

TO ESTABLISH, OPERATE, AND MAINTAIN A FOREIGN-TRADE ZONE IN NEW BEDFORD, MASSACHUSETTS

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (19 U.S.C. 81a–81u), (hereinafter referred to as "the Act"), the Foreign-Trade Zones Board (hereinafter referred to as "the Board") is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

Whereas, the City of New Bedford (hereinafter referred to as "the Grantee"), has made application (filed October 22, 1976) in due and proper form to the Board requesting the establishment, operation, and maintenance of a foreign-trade zone in New Bedford, Massachusetts;

Whereas, notice of said application has been given and published, and full opportunity has been afforded all interested parties to be heard; and

Whereas, the Board has found that the requirements of the Act and the Board's regulations (15 CFR Part 400) are satisfied;

Now, Therefore, the Board hereby grants to the Grantee the privilege of establishing, operating, and maintaining a foreign-trade zone, designated on the records of the Board as Zone No. 28, at the location mentioned above and more particularly described on the maps and drawings accompanying the application requesting authority for a foreign-trade zone in New Bedford, Massachusetts, marked as Exhibits IX and X, said grant being subject to the provisions, conditions, and restrictions of the Act and the regulations issued thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations, to-wit:

Operation of the foreign-trade zone shall be commenced by the Grantee within a reasonable time from the date of issuance of the grant, and prior thereto the Grantee shall obtain all necessary permits from Federal, State, and municipal authorities.

The Grantee shall allow officers and employees of the United States free and unrestricted access to and throughout the foreign-trade zone in the performance of their official duties.

The Grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any manufacturing operations within the zone.

The grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others, occasioned by the construction, operation, or maintenance of said zone, and in no event shall the United States be liable therefor.

The grant is further subject to settlement locally by the District Director of Customs and the District Army Engineer with the Grantee regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of suitable facilities.

In witness whereof, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer, Juanita M. Kreps, at Washington, D.C., this 5th day of April 1977 pursuant to Order of the Board.

FOREIGN-TRADE ZONES BOARD,
JUANITA M. KREPS,
Chairman and Executive Officer.

[FR Doc.77-10512 Filed 4-8-77;8:45 am]

[Order No. 116]

MASSACHUSETTS PORT AUTHORITY, BOSTON, MASS.

Resolution and Order Approving Application for a Foreign-Trade Zone in Boston

RESOLUTION AND ORDER

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18,

V4269 APR 11 77 UMI

1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board has adopted the following Resolution and Order:

The Board, having considered the matter hereby orders:

After consideration of the application of the Massachusetts Port Authority (Massport), a Massachusetts public corporation, filed with the Foreign-Trade Zones Board (the Board) on October 22, 1976, requesting a grant of authority for establishing, operating and maintaining a foreign-trade zone in Boston, Massachusetts, the Board, finding that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's regulations are satisfied, and that the proposal is in the public interest, approves the application.

Since the proposal involves an industrial park type zone that envisages the possible construction of buildings by parties other than the grantee, this approval includes authority to the grantee to permit the erection of such buildings, pursuant to Section 400.815 of the Board's regulations, as are necessary to carry out the zone proposal, providing that prior to its granting such permission it shall have the concurrences of the local District Director of Customs, the U.S. Army Division Engineer, when appropriate, and the Board's Executive Secretary. Further, the grantee shall notify the Executive Secretary for approval prior to the commencement of any manufacturing operation within the zone. The Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized to issue a grant of authority and appropriate Board Order.

GRANT

TO ESTABLISH, OPERATE, AND MAINTAIN A FOREIGN-TRADE ZONE IN BOSTON, MASSACHUSETTS

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (19 U.S.C. 81a–81u), (hereinafter referred to as "the Act"), the Foreign-Trade Zones Board (hereinafter referred to as "the Board"), is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

Whereas, the Massachusetts Port Authority (hereinafter referred to as "the Grantee"), has made application (filed October 22, 1976) in due and proper form to the Board requesting the establishment, operation, and maintenance of a foreign-trade zone in Boston, Massachusetts;

Whereas, notice of said application has been given and published, and full opportunity has been afforded all interested parties to be heard; and

Whereas, the Board has found that the requirements of the Act and the Board's regulations (15 CFR Part 400) are satisfied;

Now, therefore, the Board hereby grants to the Grantee the privilege of establishing, operating, and maintaining a foreign-trade zone, designated on the records of the Board as Zone No. 27, at the location mentioned above and more particularly described on the maps and drawings accompanying the application requesting authority for a foreign-trade zone in Boston, Massachusetts, marked as Exhibits IX and X, said grant being subject to the provisions, conditions, and restrictions of the Act and the regulations issued thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations, to-wit:

Operation of the foreign-trade zone shall be commenced by the Grantee within a reasonable time from the date of issuance of the grant, and prior thereto the Grantee shall obtain all necessary permits from Federal, State, and municipal authorities.

The Grantee shall allow officers and employees of the United States free and unrestricted access to and throughout the foreign-trade zone in the performance of their official duties.

The Grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any manufacturing operations within the zone.

The grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said zone, and in no event shall the United States be liable therefor.

The grant is further subject to settlement locally by the District Director of Customs and the District Army Engineer wih the Grantee regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of suitable facilities.

In witness whereof, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer, Juanita M. Kreps, at Washington, D.C., this 5th day of April 1977 pursuant to Order of the Board.

FOREIGN-TRADE ZONES BOARD,
JUANITA M. KREPS,
Chairman and Executive Officer.

Office of Education

PUBLIC SERVICE FELLOWSHIPS

Closing Date for Receipt of Applications

Notice is hereby given that pursuant to the authority contained in Title IX of the Higher Education Act of 1965, as amended, applications are being accepted from institutions of higher education for allocations of fellowships under the Public Service Education Fellowship Program. Processing of these applications will be subject to the availability of funds.

Applications must be received by the U.S. Office of Education Application Control Center on or before May 19, 1977.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue SW., Washington, D.C. 20202. Attention: 13.555. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than May 16, 1977, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. *Program information and forms.* Instructions containing the application form and other information may be obtained from the Graduate Training Branch, Division of Training and Facilities, Bureau of Postsecondary Education, Room 3036, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. 20202. The telephone number is (202) 245-8082.

D. *Estimated number of fellowships to be awarded for the 1977-78 academic year.* During the 1976-77 academic year, 248 new fellowships and 105 continuation fellowships are being supported at 73 approved institutions by a fiscal year 1976 appropriation of $2,000,000. There has not yet been a final appropriation for fiscal year 1977, though it is anticipated that approximately $2,000,000 will be available for the program. It is anticipated that this money will be used to award about 350 fellowships at approximately 70 institutions.

An applicant institution will apply for a specified number of fellowships. The Commissioner proposes, in the notice of proposed rulemaking for this program, to give continuing students who are making satisfactory progress in their courses of study in 1976-77 high priority for reappointment to a fellowship in 1977-78. It is expected that about half of the 248 currently supported fellows will continue on into 1977-78. The Commissioner also proposes to pay a fellowship stipend of $3,600 per year, a dependency allowance of $300 per year for each dependent; and an educational allowance of $3,600 per fellow each year to the institution.

The Education Amendments of 1976 (Pub. L. 94-482) authorize the Commissioner to re-award fellowships which are vacated prior to the end of the period for which they were awarded. This means that vacated fellowships may now be refilled with other eligible students nominated by the institution.

The above statement with regard to the expected distribution of funds is basically for informational purposes and does not bind the Office of Education except as may be required by the applicable statute and regulation.

E. *Applicable regulations.* Proposed regulations governing the administration of this program, including funding criteria for fellowship allocations, are published elsewhere in this issue of the FEDERAL REGISTER. Applicants should base applications on the notice of proposed rulemaking. Applicants will be permitted to amend their applications if the final regulation reflects changes which relate to the preparation of the application.

(20 U.S.C. 1134 et seq.)

(Catalog of Federal Domestic Assistance Number 13.555; Public Service Education Fellowship Program.)

Dated: March 14, 1977.

WILLIAM F. PIERCE,
Acting U.S.
Commissioner of Education.

[FR Doc.77-10317 Filed 4-8-77;8:45 am]

PUBLIC SERVICE INSTITUTIONAL GRANTS

Closing Date for Receipt of Applications

Notice is hereby given that pursuant to the authority contained in Title IX of the Higher Education Act of 1965, as amended, applications are being accepted from institutions of higher education for institutional grants under the Public Service Institutional Grant Program. Processing of these applications will be subject to the availability of funds.

Applications must be received by the U.S. Office of Education Application Control Center on or before May 19, 1977.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue SW., Washington, D.C. 20202. Attention: 13.555. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than May 16, 1977, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. *Program information and forms.* Instructions containing an application form and other information may be obtained from the Graduate Training Branch, Division of Training and Facilities, Bureau of Postsecondary Education, Room 3036, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. 20202. The telephone number is (202) 245-8082.

D. *Estimated number of applications for institutional grants to be awarded for the 1977-78 academic year.* During the 1976-77 academic year, 80 approved institutions are being supported for one year by a fiscal year 1976 appropriation of $2,000,000. There has not yet been a final appropriation for fiscal year 1977, though it is anticipated that approximately $2,000,000 will be available for this program. It is anticipated that this money will be used to fund about 50 grants to institutions for the continuation of projects currently receiving support and about 25-30 grants for new projects.

The above statement with regard to the expected distribution of funds is basically for informational purposes and does not bind the Office of Education except as may be required by the applicable statute and regulation.

E. *Applicable regulations.* Proposed regulations governing the administration of this program, including funding criteria, are published elsewhere in this issue of the FEDERAL REGISTER. Applicants should base their applications on the notice of proposed rulemaking. Applicants will be permitted to amend their applications if the final regulation reflects changes which relate to the preparation of the application.

Health Resources Administration

HEALTH SYSTEMS AGENCY

Application Information

Notice is hereby given that application materials are available in DHEW Regional Office V for entities interested in applying for designation as a health systems agency (HSA) in the health service area listed herein under the National Health Planning and Resources Development Act of 1974 (Pub. L. 93-641).

The National Health Planning and Resources Development Act of 1974 added a new Title XV, "National Health Planning and Development," to the Public Health Service Act. Among other things, the new Title XV authorizes the Secretary to enter into agreements with eligible entities for their designation as health systems agencies for health service areas established pursuant to section 1511 of the Public Health Service Act, and to provide grant assistance to these agencies. Each health systems agency shall have as its primary responsibility the provision of effective health planning for its health service area and the promotion of the development within the area of health services, manpower and facilities which meet identified needs, reduce documented inefficiencies and implement the health plans of the agency.

On November 17, 1975, and subsequently on February 3, 1976, and May 7, 1976, the Department published Notices in the FEDERAL REGISTER dealing with HSA application information and setting forth the review cycles for review of applications for designation and funding of health systems agencies for designated health service areas.

On July 23, 1976, the Department published another Notice in the FEDERAL REGISTER which established a special review cycle for several areas, including Health Service Area 6 in the State of Ohio.

V 4269 APR 11 77 UMI

The purpose of this Notice is to announce another special designation cycle for Health Service Area 6 in the State of Ohio for which previous applications have been disapproved.

Those entities interested in applying for designation during this special cycle must file a letter of intent to apply for designation with DHEW Regional Office V by April 25, 1977, and an application by May 25, 1977. The deadline for submission of Governor's comments will be June 27, 1977.

Application materials, further information, and specific instructions and guidelines may be obtained from the Regional Health Administrator whose address is listed below:

DHEW Regional Office V, 300 S. Wacker Drive, Chicago, Illinois 60606.

Dated: April 5, 1977.

HAROLD MARGULIES,
Deputy Administrator,
Health Resources Administration.

KANSAS HEALTH SERVICE AREAS 2 AND 3

Redesignation

In accordance with section 1511(b)(4) of the Public Health Service Act as amended by Pub. L. 93-641, the Secretary of Health, Education, and Welfare has determined that Kansas Health Service Areas 2 and 3 should be revised to include Marion County in Health Service Area 3, and delete Marion County from Health Service Area 2. This revision constitutes approval of a redesignation request initiated by the Governor of Kansas on July 21, 1976. The request complied with all the requirements of the Health Service Area Redesignation Guidelines published in the FEDERAL REGISTER, Vol. 41, No. 180, September 15, 1976.

Accordingly, Health Service Areas 2 and 3, approved by the Secretary on August 21, 1975, are revised as follows:

KANSAS

Health Service Area 2 is the geographic area comprised of the following counties:

Washington	Dickinson
Marshall	Geary
Nemaha	Jefferson
Brown	Franklin
Doniphan	Anderson
Atchison	Shawnee
Lyon	Douglas
Coffey	Osage
Linn	Wabaunsee
Jackson	Morris
Pottawatomie	Chase
Riley	Miami
Clay	

Health Service Area 3 is the geographic area comprised of the following counties:

Marion	Neosho
Chautauqua	Sedgwick
Harvey	Crawford
Montgomery	Elk
Harper	Rice
Allen	Woodson
Butler	Reno
Cherokee	Labette
Greenwood	Sumner
McPherson	Bourbon
Wilson	Cowley
Kingman	

Dated: April 6, 1977.

HAROLD MARGULES,
Deputy Administrator.
Health Resources Administration.

FOOD AND DRUG ADMINISTRATION

Statement of Organization, Functions, and Delegations of Authority

Part H, Chapter HF (Food and Drug Administration) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare (35 FR 3685-92, February 25, 1970, as amended by 39 FR 34316, September 24, 1974) is amended to reflect the establishment of the Division of Scientific Investigations within the Bureau of Drugs, Food and Drug Administration.

Section HF-B, Organization and Functions, is amended as follows:

Under the Bureau of Drugs (HFG), insert the following statement after the statement for the Division of Drug Advertising (HFGQ):

(1-6-viii) *Division of Scientific Investigations* (HFGR).

Implements the Agency's Bio-research Monitoring Program for Human Drugs.

Develops standards for the conduct of clinical and preclinical investigations performed to demonstrate the safety and effectiveness of drugs.

Designs and operates surveillance and compliance programs in the area of preclinical and clinical drug investigations.

Assigns, directs, and coordinates onsite inspections of sponsors and investigators of preclinical and clinical drug studies, institutional review committees, and commercial clinial testing facilities in collaboration with FDA's field organization.

Coordinates preclinical and clinical drug investigation activities within and outside the Bureau to promote maximum utilization of resources and consistency of policies.

Evaluates investigation reports and initiates administrative and regulatory corrective measures as necessary.

Plans and conducts educational and informational activities with regard to standards for preclinical and clinical drug investigations.

Dated: March 31, 1977.

Office of the Secretary

UNIFORM HOSPITAL DISCHARGE ABSTRACT

Withdrawal of Proposed Department-Wide Plan to Implement a Uniform Approach to the Acquisition of a Minimum Basic Hospital Discharge Data Set

On January 16, 1976, the Assistant Secretary for Health of the Department of Health, Education, and Welfare (DHEW) announced a proposed plan to implement a standard format and instructions for the Uniform Hospital Discharge Data Set (UHDDS) acceptable to a majority of users (41 FR 2502, January 16, 1976). The standard format was to be known as the Uniform Hospital Discharge Abstract (UHDA).

By this notice, the proposed implementation plan is being withdrawn.

The Department recognizes the need for establishing a coordinated, uniform, non-duplicative and economic system for securing hospital discharge data. At the same time, extensive Departmental review of the implementation plan proposed in the January 16, 1976 FEDERAL REGISTER, coupled with a careful analysis of numerous comments received from the Nation's health care community, suggests that alternative options be explored and considered.

Any proposed actions, based on this examination, will be published by the Department in the FEDERAL REGISTER with an invitation for public comments.

Dated: April 4, 1977.

JAMES F. DICKSON,
Acting Assistant Secretary for Health.

Social Security Administration

DEPUTY COMMISSIONER OF SOCIAL SECURITY

Redelegation of Certain Certification Authority

Under section 205(i) of the Social Security Act, as amended, the Secretary of Health, Education, and Welfare (the Secretary) is authorized to certify to the Managing Trustee amounts to be disbursed from the Federal Old-Age and Survivors Insurance Trust Fund; the Federal Disability Insurance Trust Fund; or from related transfer appropriations accounts, for such payments of benefits as are required by and properly authorized under pertinent provisions of title II of the Social Security Act, as amended. Sections 412 and 413 of the Federal Coal Mine Health and Safety Act of 1969, as amended, provide the Secretary with authority to certify to the Department of the Treasury amounts to be disbursed from Federal Coal Mine Health and Safety Act appropriation accounts for such payments of benefits and of reasonable medical expenses as are required by and properly authorized under Part B of title IV and related provisions of the Federal Coal Mine Health and Safety Act of 1969, as amended.

The Secretary has delegated his certification authority under section 205(i) of the Social Security Act, as amended, and under sections 412 and 413 of the Federal Coal Mine Health and Safety Act of 1969, as amended, to the Commissioner of Social Security (the Commissioner), with authority to redelegate (33 FR 5836-37 and 35 FR 7033-34). As appropriate, the Commissioner previously redelegated certification authority under these sections to various positions in the Social Security Administration (SSA).

Notice is hereby given that the Commissioner has also redelegated to the Deputy Commissioner of Social Security the subject certification authority under section 205(i) of the Social Security Act, as amended, and under sections 412 and 413 of the Federal Coal Mine Health and Safety Act of 1969, as amended. This redelegation to the Deputy Commissioner shall be effective as of the date that this notice thereof is published in the FEDERAL REGISTER. Before exercising any such certification authority, the Deputy Commissioner must be personally designated as a certifying officer, in accordance with current requirements established by the Department of the Treasury; the Department of Health, Education, and Welfare; and SSA.

Any actions taken by the Deputy Commissioner prior to the date that this notice is published in the FEDERAL REGISTER which, in effect, involve the exercise of authority redelegated by this document, are hereby affirmed and ratified. The Deputy Commissioner may not further redelegate any of this certification authority.

Dated: April 1, 1977.

J. B. CARDWELL,
Commissioner of Social Security.

Public Hearing and Coal Lease Offering by Sealed Bid and Oral Auction

MARCH 28, 1977.

United States Department of the Interior, Bureau of Land Management, Colorado State Office, Denver, Colorado. Notice is hereby given that certain coal resources in the lands hereinafter described in Routt County, Colorado, will be offered for lease by sealed bid, followed by oral auction, to the qualified bidder of the highest cash amount per acre. Only those bidders submitting sealed bids may participate in the oral auction. The sale will be held at 2 p.m., May 25, 1977, in Room 708, Colorado State Bank Building, Denver, Colorado. At that time sealed bids will be opened and read. No bids received after 2 p.m., May 25, 1977, will be considered. Sealed bids may not be modified or withdrawn unless such modification or withdrawal is received before the date, time, and place set for opening of such bids. Payment of the bonus shall be on a deferred basis, one-fifth due on the day of the sale, and the balance in equal annual installments on the first four anniversary dates of the lease. The successful bidder is obligated to pay for the newspaper publications of this notice.

WARNING TO BIDDERS: A lease will not be issued to a bidder who holds or controls more than 46,080 acres of Federal coal leases in any one state or 100,000 acres of Federal coal leases in the United States. In accordance with the Federal Coal Leasing Amendments Act of 1975, it will be necessary that the high bidder, as a prospective lessee, disclose the nature and extent of his coal holdings to the Department of Justice before issuance of the lease.

COAL OFFERED: The lands are located in Routt County approximately 6 miles northwest of Oak Creek, Colorado, on County Road No. 27. The lands are described as follows:

SIXTH PRINCIPAL MERIDIAN, COLORADO

T. 5 N., R. 86 W.,
Sec. 33, SE¼NE¼, E½SE¼;
Sec. 34, SW¼NW¼, W½SW¼;
T. 4 N., R. 86 W.,
Sec. 10, Lot 3
containing 263.11 acres.

The coal resources to be offered include all available coal within the Wadge and overlying coal beds. The estimated recoverable coal reserves are as follows: Strip-mining methods—1,677,217 tons; underground mining methods—365,895 tons; total 2,043,112 tons.

PUBLIC HEARINGS AND COMMENTS: A public hearing will be held at 10 a.m., May 9, 1977, at Wyer Auditorium, Denver Public Library, 1357 Broadway, Denver, Colorado, to obtain public comments on the following items: (1) The method of mining to be employed to obtain maximum economic recovery of the coal (2) the impact that mining the coal on the proposed leasehold may have on the area, included but not limited to impacts on the environment, agriculture, and other economic activities, and (3) method of evaluation of the coal to be offered. The public is invited to submit written comments on the methods used for resource economic evaluations and fair market value determinations of the coal to be leased to the Area Mining Supervisor, U.S. Geological Survey, Box 25046, Stop 602, Denver Federal Center, Denver, Colorado 80225, through Monday, May 16, 1977.

NOTICE OF AVAILABILITY: All case file documents and the written comments submitted by the public on fair market value, except those portions identified as proprietary by the commenter will be available for public inspection at the Bureau of Land Management, Room 701, Colorado State Bank Building, 1600 Broadway, Denver, Colorado.

DETAILED STATEMENT: A detailed statement of (1) how, when and where to submit sealed bids, (2) procedures to be followed during and subsequent to lease sale, and (3) terms and conditions of the lease offer may be obtained from Bureau of Land Management, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202.

JACK G. LORTS,
Chief, Division of Technical Services.

[FR Doc.77-10666 Filed 4-8-77;8:45 am]

LIST OF RESTRICTED JOINT BIDDERS

Bidding Period, May 1 Through October 31, 1977

Pursuant to the authority vested in the Director of the Bureau of Land Management by the provisions of 43 CFR § 3302.3-2(a), the following companies shall be restricted from bidding jointly with any other company on this same list at Outer Continental Shelf oil and gas lease sales held during the bidding period of May 1, 1977, through October 31, 1977:

Amoco Production Company
BP Alaska Exploration Inc.
Chevron U.S.A. Inc.
Exxon Corporation
Gulf Oil Corporation
Mobil Oil Corporation
Shell Oil Company
Standard Oil Company of California
Texaco Inc.

APRIL 1, 1977.

GEORGE L. TURCOTT,
Acting Director,
Bureau of Land Management.

V 4269 APR 11 77 UMI

National Park Service

OREGON INLET FISHING CENTER, INC.

Intention to Negotiate Concession Contract

Pursuant to the provisions of Section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that on May 11, 1977, the Department of the Interior, through the Director of the National Park Service, proposes to negotiate a concession contract with Oregon Inlet Fishing Center, Inc., authorizing it to continue to provide concession facilities and services for the public at Oregon Inlet, Cape Hatteras National Seashore for a period of ten (10) years from January 1, 1977, through December 31, 1986.

An assessment of the environmental impact of this proposed action has been made and it has been determined that it will not significantly affect the quality of the environment, and that it is not a major Federal action having a significant impact on the environment under the National Environmental Policy Act of 1969. The environmental assessment may be reviewed in the Southeast Regional Office, 1895 Phoenix Boulevard, Atlanta, Georgia 30337.

The foregoing concessioner has performed its obligations to the satisfaction of the Secretary under an existing contract which expired by limitation of time on December 31, 1976, and therefore, pursuant to the Act of October 9, 1965, as cited above, is entitled to be given preference in the renewal of the contract and in the negotiation of a new contract. This provision, in effect, grants Oregon Inlet Fishing Center, Inc., as the present satisfactory concessioner, the right to meet the terms of responsive offers for the proposed new contract and a preference in the award of the contract, if the offer of Oregon Inlet is substantially equal to others received. The Secretary is required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before May 11, 1977.

Interested parties should contact the Assistant Director, Special Services, National Park Service, Washington, D.C. 20240, for information as to the requirements of the proposed contract.

Dated: April 6, 1977.

PHILIP O. STEWART,
Acting Deputy Director,
National Park Service.

[FR Doc.77-10537 Filed 4-8-77;8:45 am]

WIEN AIR ALASKA, INC.

Intention to Extend Concession Contract

Pursuant to the provisions of Section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that on May 11, 1977, the Department of the Interior, through the Director of the National Park Service, proposes to negotiate a concession contract with Wien Air Alaska, Inc., authorizing it to continue to provide concession facilities and services for the public at Katmai National Monument for a period of two (2) years from January 1, 1977, through December 31, 1978.

An assessment of the environmental impact of this proposed action has been made and it has been determined that it will not significantly affect the quality of environment, and that it is not a major Federal action having a significant impact on the environment under the National Environmental Policy Act of 1969. The environmental assessment may be reviewed in the Regional Office, Pacific Northwest Region, 601 Fourth and Pike Building, Seattle, Washington 98101.

The foregoing concessioner has performed its obligations to the satisfaction of the Secretary under an existing contract which expired by limitation of time on December 31, 1976, and therefore, pursuant to the Act of October 9, 1965, as cited above, is entitled to be given preference in the renewal of the contract and in the negotiation of a new contract. However, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before May 11, 1977.

Interested parties should contact the Assistant Director, Special Services, National Park Service, Washington, D.C. 20240, for information as to the requirements of the proposed contract.

Dated: March 25, 1977.

ROBERT STANTON,
Director,
National Park Service.

INTERNATIONAL TRADE COMMISSION

[AA1921-165]

METAL-WALLED ABOVE-GROUND SWIMMING POOLS FROM JAPAN

Investigation and Hearing

Having received advice from the Department of the Treasury on March 29, 1977, that metal-walled above-ground swimming pools from Japan are being, or are likely to be, sold at less than fair value, the United States International Trade Commission on April 5, 1977, instituted investigation No. AA1921-165 under section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

Hearing. A public hearing in connection with the investigation will be held in the Commission's Hearing Room, United States International Trade Commission Building, 701 E Street, NW., Washington, D.C. 20436, beginning at 10 a.m., e.d.t., on Thursday, May 12, 1977. All parties shall there and then have the right to appear by counsel or in person, to present evidence, and to be heard. Requests to appear at the public hearing, or to intervene under the provisions of section 201(d) of the Antidumping Act, 1291 (19 U.S.C. 160(d)), shall be filed with the Secretary of the Commission, in writing, not later than noon, Monday, May 9, 1977.

By order of the Commission.

Issued: April 6, 1977.

KENNETH R. MASON,
Secretary.

NATIONAL ADVISORY COUNCIL ON ECONOMIC OPPORTUNITY

MEETING

APRIL 6, 1977.

Pursuant to section 10 of the Federal Advisory Committee Act of 1972 notice is hereby given that the National Advisory Council on Economic Opportunity will hold a one day meeting on May 13 at the Council office at 1725 K Street NW. (room 405), Washington, D.C. The meeting will begin at 9:30 a.m. and is open to the public.

The purpose of the meeting will be to lay the groundwork for the next report.

The National Advisory Council on Economic Opportunity is authorized by section 605 of the Community Services Act to advise the President and the Director of the Community Services Administration on policy matters arising under the administration of the Act and to review the effectiveness and operations of programs under the Act.

Records shall be kept of all proceedings and shall be available for public inspection at the offices of the National Advisory Council on Economic Opportunity.

WALTER B. QUIETSCH,
Executive Director.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 77-24]

DRAFT ENVIRONMENTAL IMPACT STATEMENT

Public Notice Regarding Availability

Notice is hereby given of the public availability of the draft Environmental Impact Statement (EIS) for the National Aeronautics and Space Administration (NASA) Michoud Assembly Facility, New Orleans, Louisiana.

Although the parent Marshall Space Flight Center (and its sub-installation, then the Mississippi Test Facility) was covered by an environmental statement released in 1972, there was no coverage of the Michoud Assembly Facility (MAF) because of its relatively inactive status at that time. Since that time, MAF has become the NASA installation responsible for the design and manufacture of the Space Shuttle External Tanks, the "landlord" for a number of tenant agencies, and the site for a number of other impending activities. This draft has therefore been prepared to augment the 1972 Marshall Space Flight Center statement, and is being issued at this time.

Comments on the draft environmental statement and on matters set forth therein are solicited from and may be submitted by state and local agencies and members of the public. Such comments should be submitted to the Associate Deputy Administrator, National Aeronautics and Space Administration, Washington, DC 20546. All comments must be received by June 14, 1977, in order to be considered in the preparation of the final Environmental Statement.

Copies of the draft statement may be obtained or examined at any of the following locations:

(a) National Aeronautics and Space Administration, Public Documents Room (Room 126), 600 Independence Avenue, SW, Washington, DC 20546.

(b) Ames Research Center, NASA (Building 201, Room 17), Moffett Field, CA 94035.

(c) Hugh L. Dryden Flight Research Center, NASA (Building 4800, Room 1017), P.O. Box 273, Edwards, CA 93523.

(d) Goddard Space Flight Center, NASA (Building 8, Room 150), Greenbelt, MD 20771.

(e) Johnson Space Center, NASA (Building 1, Room 136), Houston, TX 77058.

(f) John F. Kennedy Space Center, NASA (Headquarters Building, Room 1207), Kennedy Space Center, FL 32899.

(g) Langley Research Center, NASA (Building 1219, Room 304), Hampton, VA 23665.

(h) Lewis Research Center, NASA (Administration Building, Room 120), 21000 Brookpark Road, Cleveland, OH 44135.

(i) George C. Marshall Space Flight Center, NASA (Building 4200, Room G-11), Huntsville, AL 35812.

(j) National Space Technology Laboratories, NASA (Building 1100, Room A-213), Bay St. Louis, MS 39520.

(k) Jet Propulsion Laboratory, (Building 180, Room 600) 4800 Oak Grove Drive, Pasadena, CA 91103.

(l) Wallops Flight Center, NASA (Library Building, Room E-105), Wallops Island, VA 23337.

(m) Governor's Council on Environmental Quality, (Room 11, Natural Resources Bldg., North and 4th Streets), Baton Rouge, LA 70804. (Recommended public access at site of Michoud Assembly Facility.)

Done at Washington, DC, this 5th day of April 1977.

By the direction of the Administrator.

DUWARD L. CROW,
Associate Deputy Administrator,
National Aeronautics and Space Administration.

[FR Doc.77-10503 Filed 4-8-77;8:45 am]

[Notice 77-25]

NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL, COMMITTEE ON AERODYNAMICS AND CONFIGURATIONS

Meeting

The NASA Research and Technology Advisory Council Committee on Aerodynamics and Configurations will meet on May 4-6, 1977, at the NASA Ames Research Center, Moffett Field, California, 94035. The meeting will be held in Conference Room 213 of Building 200. The meeting will be open to the public on a first-come, first-served basis, up to the seating capacity of the room, which is about 25 persons. All visitors must report to the Ames Research Center Receptionist in Building 200.

The NASA Research and Technology Advisory Council Committee on Aerodynamics and Configurations serves in an advisory capacity only. There are 17 members. The Committee studies issues pertinent to the NASA aerodynamics and configurations research program, pinpoints related critical problems, points out relevant program goals, assesses ongoing work, determines gaps in the technology, and reports its resulting recommendations to the Council. The following list sets forth the approved agenda and schedule for the meeting. For further information, please contact Mr. William S. Aiken, Jr., Code RA, NASA Headquarters, Washington, DC 20546, (202) 755-2400.

MAY 4, 1977

Time	Topic
9 am	Report of the Chairman (Purpose: To summarize action taken at the February 1977 meeting of the Research and Technology Advisory Council).
9:30 am	Report of the Executive Secretary (Purpose: To brief the Committee on recent and proposed changes in NASA organization and in pertinent aeronautics programs).
10:30 am	Report on Implementation Plans for Locating Primary NASA Rotorcraft Research Responsibility at Ames Research Center (Purpose: To inform the Committee of recent decisions and plans regarding the future NASA rotorcraft research program).
11 am	Status Report on Tilt Rotor XV-15A Research Airplane (Purpose: To update the Committee on progress in the NASA/Army Tilt Rotor Research Airplane Program).
12:30 pm	Discussion of NASA Aeronautics Planning (Purpose: To brief the Committee on aeronautics planning in connection with the FY 1979 five-year plan and to obtain comments specifically on areas pertinent to the Committee's charter).
3:15 pm	Status Report on Implementation of Comprehensive Aerodynamic Prediction of Aircraft (CAPAIR) Program (Purpose: To describe progress and plans for carrying out the CAPAIR program).
3:45 pm	Discussion of NASA Center Written Reports (Purpose: To provide elaboration on items included in the previously-distributed written reports on pertinent aeronautical research areas prepared by the Ames, Dryden, Langley, and Lewis Research Centers).

MAY 5, 1977

Time	Topic
8:30 am	Proposed Numerical Aerodynamic Simulation Facility (NASF) (Purpose: To describe plans and capability of the proposed NASF at the Ames Research Center).
10:15 am	Report on Meeting of Industry Technical Advisory Board (ITAB) on NASA Integrated Programs for Aerospace Vehicle Design (IPAD) (Purpose: To inform the Committee on results of March 1977 meeting of ITAB).
10:45 am	Status of Short-Haul Powered-Lift Aircraft Terminal-Area Flight Dynamics Research (Purpose: To describe recent and planned flight research to provide handling-qualities and certification criteria for reduced and short take-off and landing (R/STOL) transport aircraft.).
12:30 pm	Tour of Ames Research Center Simulator Facilities and Discussion of Capabilities (Purpose: To describe the characteristics of the new Vertical Motion and other Simulators).
2:15 pm	Member Reports on Items of Interest (Purpose: To provide elaboration on items included in the previously-distributed written reports provided by individual members of the Committee).
3:45 pm	Working Group Sessions on Basic Technology, Conventional Take-Off and Landing (CTOL), and Vertical and Take-Off and Landing (V/STOL) Aircraft (Purpose: To develop draft position statements and recommendations pertaining to the focus and scope of the technical programs reviewed earlier).

MAY 6, 1977

Time	Topic
9 am	Committee Review of Working Group Reports (Purpose: To review inputs from the three working groups and prepare final position statements and recommendations for consideration by the NASA Research and Technology Advisory Council.).
10:45 am	Discussion of Agenda Items for the Next Meeting (Purpose: To obtain and discuss members' suggestions for potential agenda for the next meeting.).
11:30 am	Adjournment.

Dated: April 5, 1977.

JOHN M. COULTER,
Acting Assistant Administrator for Department of Defense and Interagency Affairs, National Aeronautics and Space Administration.

[FR Doc.77-10504 Filed 4-8-77;8:45 am]

V4269 APR 11 77 UMI

[Notice No. 77-26]

SPACE PROGRAM ADVISORY COUNCIL (SPAC) APPLICATIONS COMMITTEE

Meeting

The ad hoc informal Subcommittee on Satellite Telecommunications of the SPAC Applications Committee will meet on April 26, 1977, from 1 p.m. to 9 p.m. at NASA Headquarters, Federal Office Building 10B, Room 226A, 600 Independence Avenue SW., Washington, D.C. Members of the public will be admitted to the meeting at 1 p.m. on a first-come, first-served basis. The seating capacity of the room is 35 people. Visitors will be requested to sign a visitor's register.

This Subcommittee, comprised of 9 members of the SPAC Applications Committee including the Chairman, Mr. Thomas Rogers, serves in an advisory capacity only and will recommend a satellite telecommunications program to NASA.

For further information regarding the meeting, please contact Mr. Louis B. C. Fong, Washington, D.C., 202–755–8617. The approved agenda for the meeting on April 26, 1977, is as follows:

Time:	Topic
1 p.m.----	Opening remarks by chairman.
1:15 p.m.	Satellite Telecommunications program. Continuation of discussion and review of the report of the National Research Council-Space Applications Board Committee on Satellite Communications (CSC) and the plan on how the subcommittee will proceed to formulate a recommended satellite telecommunications program for NASA.
4 p.m.----	Adjourn.

Dated: April 5, 1977.

JOHN M. COULTER,
Acting Assistant Administrator for Department of Defense and Interagency Affairs.

[FR Doc.77-10505 Filed 4-8-77;8:45 am]

NATIONAL RAILROAD PASSENGER CORPORATION

GOVERNMENT IN THE SUNSHINE ACT

Rules Governing Open Meetings; Changes Based on Public Comment

The National Railroad Passenger Corporation (hereinafter NRPC) on March 9, 1977 added an Appendix A to its Corporate By-Laws in order to implement sections (b) through (f) of the Government in the Sunshine Act (5 U.C.C. 552 b) (hereinafter the Act) (42 FR 13635, March 11, 1977).

The preamble to the Rule stated that the rules would be reviewed in light of any written comments that might be received no later than March 18, 1977, and that if the Corporation finds it necessary to amend the rules published at that time as a result of any such comments, further publication would follow.

One comment was received during the comment period. Submitted by Congressman Richardson Preyer (N.C.), as Chairman of the Government Information and Individual Rights Subcommittee of the Committee on Government Operations of the House of Representatives, Congress of the United States, the comment referred to four provisions in the rules. Copies of the comment were sent to members of the Board of Directors of the Corporation and were reviewed and discussed by the Board at its meeting in Washington, D.C. on March 30, 1977. The Board's reaction to the comments and respective changes, where any were indicated, are as follows:

1. Congressman Preyer suggested that Rule 4(f), which describes the manner in which information about Board meetings will be provided to the general public, might include other means of informing the public, such as mailing notices to persons on either a general mailing list or a list maintained for those desiring to receive such material. The rule as published requires the Secretary of the Corporation to release announcements of Board meetings to the press, post each such announcement on the bulletin board at the Corporation's principal office, provide copies for interested members of the public and staff, and submit each such announcement for publication in the FEDERAL REGISTER. In connection with the first of these means of informing the public, the Corporation's Department of Public Affairs maintains a mailing list to which all the Corporation's press releases are mailed. While the Board expressed the view that adequate means of public information have been provided, it indicated that the mailing list maintained by the Department of Public Affairs could include the names of any members of the general public who ask to receive notices of future meetings of the Board. Rule 4(f) is accordingly being amended to provide the public with specific advice to this effect.

2. Congressman Preyer noted that while the Act does not specifically establish any right on the part of the public to record what transpires at the open meetings, the right to so so would appear to be a material concomitant of the right of observation as long as note taking or recording does not disrupt the meeting. He recommended that Rule 5a. be changed to eliminate the prohibition on the use of electronic or other recording devices. The Board agreed with the comment and directed that the Amendment to the By-Laws be changed accordingly.

3. Congressman Preyer's third comment is as follows:

Rule 6(a) includes the fact that a meeting coming within a specific exemption is to be open nevertheless when the public interest so requires. However, it should be amended to make it clear that the decision to close a meeting has two distinct steps: first, the Corporation must determine whether the discussion comes within one of the specific exemptions: and second, if the discussion is determined to be exempt, the Corporation must consider and determine whether the public interest nevertheless requires that the meeting be open. The proposed rule seems to suggest that the Corporation need consider the public interest issue only if it chooses to, whereas the Act contemplates that the public interest issue will be considered in each instance where the Corporation determines that a discussion comes within a specific exemption.

Rule 6a. directly reflects the language of the Act. In stating the rule in this manner, the Board did not believe that it could choose whether or not to consider the public interest, as the comment indicates may have been the case. The Board originally was of the view that it would consider the public interest issue in determining whether to exercise its discretion to make use of the permissive exemptions provided in the Act. The Board indicated that Rule 6a. should be clarified accordingly.

4. The fourth comment suggested that Rule 7. be clarified to reflect that the General Counsel's certification must be made before a meeting may be closed. The Board agreed with the comment and the rule is being clarified accordingly.

The rules, as published on March 11, 1977, contained one misspelling and the technical omission of one word, both of which are corrected as noted below.

In accordance with the foregoing, notice is hereby given that Appendix A to the By-Laws of the Corporation are amended as follows:

Rule 4f. is amended by adding the following sentence at the end thereof: "Any member of the public who desires to receive notices of meetings of the Board of Directors shall advise the Secretary in writing. The Secretary will include the name and mailing address of any such member of the public on the mailing list maintained by the Corporation's Public Affairs Department."

• • • • •

Rule 5a. is amended by deleting the words "electronic or other recording devices or" in the last sentence thereof. This subsection is further amended by adding the following sentence at the end thereof: "The use of electronic or other recording devices is permitted where it does not interfere with or disrupt the orderly conduct of the meeting."

• • • • •

Rule 6a. is amended by inserting after the words "Except in a case where the members of the Board of Directors find that the public interest requires otherwise," the following new language: "which finding shall be made as a part of any decision to close a meeting or a portion of a meeting on the basis of any applicable exemptions contained in the Act or in these rules, • • •"

• • • • •

Rule 7. The first clause of Rule 7 is amended to read as follows: "Before any meeting may be closed pursuant to subparagraphs (1) through (10) of paragraph a. of Rule 6, • • •"

Technical corrections: In clause (B) of Rule 4d., change "earlier" to read "earliest"; and in Rule 7, insert the word "in" at the beginning of the third clause, so that the clause begins with the words "in his or her opinion • • •".

Signed this 5th day of April 1977.

ELYSE G. WANDER,
Secretary, National Railroad Passenger Corporation.

[FR Doc.77-10502 Filed 4-8-77;8:45 am]

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS AD HOC WORKING GROUP OF THE SUBCOMMITTEE ON THE CLINCH RIVER BREEDER REACTOR

Meeting

In accordance with the purposes of sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.) an Ad Hoc Working Group of the ACRS Subcommittee on the Clinch River Breeder Reactor will hold a meeting on April 27, 1977 in Room 1046, 1717 H St. NW., Washington, D.C. 20555. The Advisory Committee on Reactor Safeguards will review the application of the U.S. Energy Research and Development Administration, the Tennessee Valley Authority, and the Project Management Corporation (hereafter referred to as the CRBR Project Office) for a permit to construct the Clinch River Breeder Reactor. The purpose of this meeting of the Ad Hoc Working Group will be to gather information on site related considerations for the Clinch River Breeder Reactor and to discuss the NRC Site Suitability Report for the Clinch River Breeder Reactor, dated March 4, 1977.

The agenda for subject meeting shall be as follows:

WEDNESDAY, APRIL 27, 1977—8:30 A.M. UNTIL THE CONCLUSION OF BUSINESS

The Working Group, with any of its consultants who may be present, will meet in open Executive Session to discuss the agenda for the meeting and to explore preliminary opinions regarding areas to be reviewed and recommendations to the full Committee.

At the conclusion of the Executive Session, the Working Group will meet in open session with representatives of the NRC Staff, the CRBR Project Office, and its consultants, to discuss matters pertinent to this review.

It may be necessary for the Working Group to hold one or more closed sessions for the purpose of exploring with the NRC Staff and Applicant matters involving proprietary information.

I have determined, in accordance with Subsection 10(d) of Public Law 92–463, that it is necessary to conduct the above closed sessions to protect proprietary information (5 U.S.C. 552 b (c)(4)).

Practical considerations may dictate alterations in the above agenda or schedule. The Chairman of the Working group is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

The Advisory Committee on Reactor Safeguards is an independent group established by Congress to review and report on each application for a construction permit and on each application for an operating license for a reactor facility and on certain other nuclear safety matters. The Committee's reports become a part of the public record. Although ACRS meetings are ordinarily open to the public and provide for oral or written statements to be considered as a part of the Committee's information gathering procedure concerning the health and safety of the public, they are not adjudicatory type hearings such as are conducted by the Nuclear Regulatory Commission's Atomic Safety & Licensing Board as part of the Commission's licensing process. ACRS meetings do not normally treat matters pertaining to environmental impacts outside the safety area.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda may do so by providing a readily reproducible copy to the Working Group at the beginning of the meeting. Comments should be limited to safety related areas within the Committee's purview.

Persons desiring to mail written comments may do so by sending a readily reproducible copy thereof in time for consideration at this meeting. Comments postmarked no later than April 20, 1977 to Mr. Thomas G. McCreless, ACRS, NRC, Washington, D.C. 20555, will normally be received in time to be considered at this meeting.

Background information concerning items to be considered at this meeting can be found in documents on file and available for public inspection at the NRC Public Document Room, 1717 H St. NW., Washington, D.C. 20555; at the Oak Ridge Public Library, Civic Center, Oak Ridge, Tenn. 37830; and at the Lawson McGhee Public Library, 500 W. Church Street, Knoxville, Tenn. 37902.

(b) Persons desiring to make an oral statement at the meeting should make a written request to do so, identifying the topics and desired presentation time so that appropriate arrangements can be made. The Working Group will receive oral statements on topics relevant to its purview at an appropriate time chosen by the Chairman of the Working Group.

(c) Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call on April 26, 1977 to the Office of the Executive Director of the Committee (telephone 202/634–1374, attention: Mr. Thomas G. McCreless) between 8:15 a.m. and 5 p.m., e.s.t.

(d) Questions may be propounded only by members of the Working Group and its consultants.

(e) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session. Recordings will be permitted only during those sessions of the meeting when a transcript is being kept.

(f) Persons with agreements or orders permitting access to proprietary information may attend portions of ACRS meetings where this material is being discussed upon confirmation that such agreements are effective and relate to the material being discussed.

The Executive Director of the ACRS should be informed of such an agreement at least three working days prior to the meeting so that the agreement can be confirmed and a determination can be made regarding the applicability of the agreement to the material that will be discussed during the meeting. Minimum information provided should include information regarding the date of the agreement, the scope of material included in the agreement, the project or projects involved, and the names and titles of the persons signing the agreement. Additional information may be requested to identify the specific agreement involved. A copy of the executed agreement should be provided to Mr. Thomas G. McCreless of the ACRS Office, prior to the beginning of the meeting.

(g) A copy of the transcript of the open portion(s) of the meeting where factual information is presented will be available for inspection on or after May 4, 1977 at the NRC Public Document Room, 1717 H St. NW., Washington, D.C. 20555; at the Oak Ridge Public Library, Civic Center, Oak Ridge, Tenn. 37830; and at the Lawson McGhee Public Library, 500 W. Church St., Knoxville, Tenn. 37902.

Copies of the minutes of the meeting will be made available for inspection at the NRC Public Document Room, 1717 H St. NW., Washington, D.C. 20555 after July 25, 1977.

Copies may be obtained upon payment of appropriate charges.

Dated: April 6, 1977.

JOHN C. HOYLE,
Advisory Committee, Management Officer.

[Docket No. 50-324]

CAROLINA POWER AND LIGHT CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 25 to Facility Operating License No. DPR–62, issued to Carolina Power & Light Company (the licensee), which revised Technical Specifications for operation of the Brunswick Steam Electric Plant, Unit No. 2 (the facility) located in Brunswick County, North Carolina. The amendment is effective as of its date of issuance.

V4269 APR 11 77 UMI

This amendment modifies the inspection schedule for inaccessible safety-related shock suppressors (snubbers) and corrects administrative errors on the list of shock suppressors for which operability and inspection requirements exist.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5 (d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated February 1, 1977, (2) Amendment No. 25 to License No. DPR-62, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Southport Brunswick County Library, 109 W. Moore Street, Southport, North Carolina 28461. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 21st day of March 1977.

For the Nuclear Regulatory Commission,

A. SCHWENCER, *Chief, Operating Reactors Branch No. 1, Division of Operating Reactors.*

[Docket No. 50-335]

FLORIDA POWER AND LIGHT CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 14 to Facility Operating License No. DPR-67, issued to Florida Power & Light Company (the licensee), which revised Enclosure 1 of the license for operation of the St. Lucie Plant Unit No. 1 (the facility) located in St. Lucie County, Florida. The amendment is effective as of its date of issuance.

The amendment (1) deleted those provisions of Enclosure 1 that required performance of (a) tests at greater than 30% of full rated power to determine the maximum steam generator refill rate which does not result in unacceptable feedwater hammer and (b) tests of power reactivity coefficients at 50%, 80% and 100% of full rated power prior to completion of power ascension testing program for the facility; and (2) revised the provision of Section F of Enclosure 1 to extend the date for completion of installation of water flow control valves in the ultimate heat sink barrier dam from March 31, 1977 to July 31, 1977. The requirements of item (1) have been completed to the satisfaction of the Commission and therefore are no longer relevant.

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated February 25, 1977, and March 9, 1977, and supplements thereto dated March 2 and 11, 1977, (2) Amendment No. 14 to License No. DPR-67, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Indian River Junior College Library, 3209 Virginia Avenue, Ft. Pierce, Florida 33450. A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 25th day of March 1977.

For the Nuclear Regulatory Commission.

DON K. DAVIS, *Acting Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.*

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.126, "An Acceptable Model and Related Statistical Methods for the Analysis of Fuel Densification," provides an analytical model and related assumptions and procedures that are acceptable to the NRC staff for predicting the effects of fuel densification in light-water-cooled nuclear power reactors. The guide also describes statistical methods related to product sampling that will provide a high confidence that the fuel will perform as predicted.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 1.126 will, however, be particularly useful in evaluating the need for an early revision if received by June 10, 1977.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a).)

Dated at Rockville, Maryland this 4th day of April 1977.

For the Nuclear Regulatory Comission.

ROBERT B. MINOGUE, *Director, Office of Standards Development.*

[FR Doc.77-10498 Filed 4-8-77;8:45 am]

[Docket No. 50-305]

WISCONSIN PUBLIC SERVICE CORP.; ET AL.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 16 to Facility Operating License No. DPR-43, issued to Wisconsin Public Service Corporation, Wisconsin Power & Light Company, and Madison Gas & Electric Company (the licensees), which revised Technical Specifications for operation of the Kewaunee Nuclear Power Plant, located in Kewaunee County, Wisconsin. The amendment is effective as of its date of issuance.

The amendment revises the Technical Specifications to (1) incorporate the results of an ECCS reanalysis performed as a result of the Order for Modification of License dated August 27, 1976, (2) clarify Figure TS. 3.10-6 on operating limits for axial flux difference and (3) increase reactor coolant boron concentration during refueling.

The application for amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Notice of Proposed Issuance of Amendment to Facility Operating License in connection with this action was published in the FEDERAL REGISTER on January 17, 1977 (42 FR 3226). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated December 10, 1976 as supplemented February 8, 1977, (2) Amendment No. 16 to License No. DPR-43, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Kewaunee Public Library, 314 Milwaukee Street, Kewaunee, Wisconsin 54216. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 25th day of March 1977.

For the Nuclear Regulatory Commission.

A. SCHWENCER, *Chief, Operating Reactors Branch No. 1, Division of Operating Reactors.*

[FR Doc.77-10497 Filed 4-8-77;8:45 am]

[Docket No. 50-29]

YANKEE ATOMIC ELECTRIC CO.

Issuance of Amendment to Facility Operating License and Negative Declaration

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 36 to Facility Operating License No. DPR-3, issued to Yankee Atomic Electric Company (the licensee), which revised Technical Specifications for operation of the Yankee Nuclear Power Station (Yankee-Rowe) (the facility) located in Rowe, Franklin County, Massachusetts. The amendment is effective as of its date of issuance.

The amendment changes certain requirements for the Environmental Monitoring Program specified in Table 4.7-4 in the Technical Specifications.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has prepared an environmental impact appraisal for the revised Technical Specifications and has concluded that an environmental impact statement for this particular action is not warranted because there will be no significant environmental impact attributable to the action.

For further details with respect to this action, see (1) the application for amendment dated December 13, 1976, (2) Amendment No. 36 to License No. DPR-3, and (3) the Commission's related Environmental Impact Appraisal. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Greenfield Public Library, 422 Main Street, Greenfield, Massachusetts 01581. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 30th day of March 1977.

[Docket No. 50-29]

YANKEE ATOMIC ELECTRIC CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 37 to Facility Operating License No. DPR-3, issued to Yankee Atomic Electric Company (the licensee), which revised Technical Specifications for operation of the Yankee Nuclear Power Station (Yankee-Rowe) (the facility) located in Rowe, Franklin County, Massachusetts. The amendment is effective as of its date of issuance.

The amendment relates to extending the Yankee-Rowe Technical Specification burnup dependent figures from the present limit of 389 effective full power days (EFPD) to 500 (EFPD).

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated March 2, 1977, (2) Amendment No. 37 to License No. DPR-3, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Greenfield Public Library, 422 Main Street, Greenfield, Massachusetts 01581. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Attention: Director, Division of Operating Reactors.

CONNECTICUT YANKEE ATOMIC POWER CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 15 to Facility Operating License No. DPR-61, issued to Connecticut Yankee Atomic Power Company for operation of the Haddam Neck Plant, located in Middlesex County, Connecticut. The amendment is effective as of the date of issuance.

This amendment revises the Technical Specification to (1) specify limiting conditions of operation (LCO) for reactor coolant flow, temperature and pressure under steady state, 100 percent rate thermal reactor power and (2) implements procedural changes to meet the single failure criteria and guidelines of Branch Technical Position EICSB No. 18.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR

V 4269 APR 11 77 UMI

Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to CFR 51.5 (d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated July 30, 1976, as supplemented January 17, 1977, (2) Amendment No. 15 to License No. DPR-61, (3) The Commission's related Safety Evaluation and (4) The Commission's Safety Evaluation dated June 30, 1976. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Russell Library, 119 Broad Street, Middletown, Connecticut 06457. A copy of items (2), (3), and (4) may be obtained upon request addressed to the U. S. Nuclear Regulatory Commission, Washington, D.C. 20555. Attention: Director, Division of Operating Reactors.

Atomic Safety and Licensing Board

[Docket No. 50-564]

EXXON NUCLEAR COMPANY, INC.

Notice and Order Scheduling Special Prehearing Conference

Notice is hereby given that, in accordance with the Commission's "Notice Of Hearing On Application For Construction Permit" dated February 8, 1977, and published in the FEDERAL REGISTER on February 10, 1977 (42 FR 8439), a Special Prehearing Conference will be held in the above-captioned proceeding on April 28, 1977. The time and place will be notice later.

At that time, consideration will be given to the following:

1. Permit identification of the key issues in the proceeding;
2. Take any steps necessary for further identification of the issues;
3. Consider all intervention petitions to allow the presiding officer to make such preliminary or final determination as to the parties to the proceeding, as may be appropriate;
4. Establish a schedule for further actions in the proceeding; and
5. Discuss the initiation of discovery.

The public is invited to attend. However, neither evidence will be received nor will limited appearance statements be accepted at the Special Prehearing Conference on April 28, 1977.

It is so ordered.

Dated at Bethesda, Maryland this 4th day of April, 1977.

For the Atomic Safety and Licensing Board.

SHELDON J. WOLFE, ESQ.,
Chairman.

[FR Doc.77-10376 Filed 4-8-77;8:45 am]

[Docket Nos. STN 50-568, STN 50-569; NEP-1 and NEP-2]

NEW ENGLAND POWER CO., ET AL.

Special Prehearing Conference

APRIL 1, 1977.

Pursuant to notice of hearing in this proceeding, a number of petitions (31) for leave to intervene have heretofore been filed. By Order dated January 7, 1977, the Licensing Board granted leave to intervene to Aquidneck Island Ecology; Rhode Islanders For Safe Power (RISP); Erie D. Schneider and Claudine C. Schneider; The State of Rhode Island and Providence Plantations; Town of Charlestown; Town of South Kingston; and Town of West Greenwich.

By Order dated January 14, 1977, the Licensing Board found that the remaining petitions for leave to intervene failed to meet the requirements of 10 CFR 2.714 but appeared to be capable of amendment to comply with the rules of the Commission. Accordingly, leave was granted to such petitioners to file amended petitions by February 22, 1977. Amended petitions have been filed by Concerned Citizens of Rhode Island and Point Judith Fisherman's Cooperative (and by request to consolidate, New England Coalition on Nuclear Power); The Greater Providence Chamber of Commerce (and by consolidation, the Blackstone Valley Chamber of Commerce); Conservation Law Foundation; Labor and Management Plan for Economic Development (and by consolidation the International Brotherhood of Electrical Workers, International Association of Bridge, Structural and Ornamental Iron Workers, Local No. 37, Rhode Island Carpenters' District Council, and the Rhode Island Chapter of the Associated General Contractors of America); New England Council for Economic Development; Physicians Concerned About Nuclear Power; Rhode Island Association of Conservation Commissioners; Save the Bay, Inc.; Taxpayers and Voters of Charlestown; Town of Hopkington; Town of Richmond; Town of Westerly; Trustees of the Thomas Lyman Arnold Trust; and Coalition for Consumer Justice. Responses to these amended petitions have been filed by the Applicant and by the NRC Staff.

Please take notice that a special prehearing conference pursuant to the provisions of § 2.751a of the Commission's Rules of Practice (10 CFR 2.751a), will be held at 10 a.m., local time, on May 4, 1977 at the Cranston Hilton Inn, Fireside Room, Route 1-A, Cranston, Rhode Island. All parties and any petitioners for intervention or their counsel are directed to appear at such special prehearing conference to consider all intervention petitions, including the interest or standing of petitioners as well as the identification of at least one relevant contention with reasonable, specificity and with some basis assigned for it.

The special prehearing conference will also consider the identification of key issues in the proceeding, any steps necessary for the further identification of issues, and the consolidation of parties or issues. A schedule will be established for further actions in the proceeding, including the submission of status reports on discovery.

Members of the public are invited to attend the special prehearing conference. However, the conference will be limited to the purposes specified in this notice. No evidence will be received, and there will not be an opportunity to present statements by persons who wish to make limited appearances. Applications for permission to make limited appearances for the purpose of making such statements will be ruled on by the Licensing Board at the evidentiary hearing to be held at a later date. Notices of such later evidentiary hearings will be published in the FEDERAL REGISTER.

It is so ordered.

Dated at Bethesda, Maryland, this 1st day of April 1977.

For the Atomic Safety and Licensing Board.

MARSHALL E. MILLER,
Chairman.

[FR Doc.77-10377 Filed 4-8-77;8:45 am]

[Docket Nos. 50-282, 50-306]

NORTHERN STATES POWER CO.

Order

Notice is hereby given that a prehearing conference in this matter will be held on Thursday, April 21, 1977, at 9:30 a.m., at the U.S. Federal Courthouse, Room 584, 316 North Robert Street, St. Paul, Minnesota.

All of the parties to this proceeding shall attend the prehearing conference and shall be prepared to discuss all outstanding matters. The parties should be especially prepared to discuss the admissibility of each of the contentions asserted by the Intervenor Minnesota Pollution Control Agency.

So ordered.

Dated at Bethesda, Maryland, this 4th day of April 1977.

The Atomic Safety and Licensing Board.

EDWARD LUTON,
Chairman.

SECURITIES AND EXCHANGE COMMISSION

[Administrative Proceeding File No. 2-57397 (22-909); File No. 1-2385]

DAYTON POWER AND LIGHT CO.

Application and Opportunity for Hearing

APRIL 8, 1977.

Notice is hereby given, That the Dayton Power and Light Company (the "Company") has filed an application under clause (ii) of Section 310(b)(1) of the Trust Indenture Act of 1939 (the "Act") for a finding that the trusteeship of Irving Trust Company under an indenture heretofore qualified under the Act, and one not to be so qualified, is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify Irving Trust Company from acting as trustee under the qualified indenture.

Section 310(b) of the Act provides in part that if a trustee under an indenture qualified under the Act has or shall acquire any conflicting interest, it shall within ninety days after ascertaining that it has such conflicting interest either eliminate such conflicting interest or resign.

Subsection (1) of such Section provides, in effect, with certain exceptions, that a trustee under a qualified indenture shall be deemed to have a conflicting interest if such trustee is trustee under another indenture under which any other securities of the same issuer are outstanding. However, under clause (ii) of subsection (1), there may be excluded from the operation of this provision another indenture under which other securities of the issuer are outstanding, if the issuer shall have sustained the burden of proving, on application to the Commission and after opportunity for hearing thereon, that trusteeship under such qualified indenture and such other indenture is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify such trustee from acting as trustee under the qualified indenture.

The Company alleges that: (1) Irving Trust Company is presently acting as trustee under an Indenture of Mortgage dated as of October 1, 1935, between Irving Trust Company as Trustee (the "Mortgage Trustee") and the Company as amended by twenty supplemental indentures, pursuant to which $458,000,000 principal amount of the Company's First Mortgage Bonds ("First Mortgage Bonds") are issued and outstanding, as of December 31, 1976. It is presently contemplated that Irving Trust Company will also act as Trustee (the "Pollution Control Trustee") under an indenture (the "Pollution Control Indenture") to be dated as of April 15, 1977, between it and the Ohio Water Development Authority (the "Authority"), a body politic and corporate and political subdivision of the State of Ohio, whereby the Authority will issue and sell approximately $14,000,000 of its Collateralized Pollution Control Revenue Bonds 1977 Series A Due 2007 (The Dayton Power and Light Company Project). This indenture will not be qualified pursuant to the terms of the Act.

(2) The Authority's revenue bonds are being issued to finance the cost of certain waste water facilities (the "Project") to be acquired by the Company for its F. M. Tait and O. H. Hutchings Electric Generating Stations in Montgomery County, Ohio, and for the J. M. Stuart Electric Generating Station in Adams and Brown Counties, Ohio, as to which the Company owns an undivided 35% interest as tenant in common with other public utilities. The proceeds of the sale of such revenue bonds will be loaned by the Authority to the Company to finance the cost of such waste water facilities, pursuant to a Loan Agreement between the Authority and the Company to be dated as of April 15, 1977 (the "Loan Agreement"). The revenue bonds will be payable solely from the revenues derived from the repayment by the Company of such loan. Such repayment will be made over the life of the revenue bonds, secured by a pledge of the Company's New Mortgage Bonds (the "New Mortgage Bonds") to be issued under the twenty-first supplemental indenture to the October 1, 1935, indenture. This supplemental indenture will not be qualified under the Act.

(3) The Company's New Mortgage Bonds will be issued in an aggregate principal amount equal to, bear interest at a rate corresponding to, and have the same maturity and redemption provisions as the Authority's revenue bonds. The New Mortgage Bonds will rank pari passu with all First Mortgage Bonds issued and outstanding under the October 1, 1935, indenture and all its supplements.

(4) The Authority will assign to Irving Trust Company as Pollution Control Trustee all its rights and interest in and to the New Mortgage Bonds and, in the manner and to the extent provided in the Pollution Control Indenture, its rights under the Loan Agreement. The Pollution Control Trustee may not transfer the New Mortgage Bonds except to a successor trustee under the relevant indenture. Such Trustee will have no lien on or other interest in the Project, and the obligation to make payments in respect of the revenue bonds will be secured by no collateral other than the New Mortgage Bonds.

(5) It is believed that since the revenue bonds are payable solely from revenues secured by the New Mortgage Bonds, the indenture to a "collateral trust indenture" with respect to which an exception to the provisions of Section 310(b) of the Act is provided by clauses (1)(A) and (1)(B) thereof. In the event that the Company fails to make the required loan repayments, the New Mortgage Bonds are the only collateral.

The obligations of the Company under the mortgage indenture are secured by a lien on substantially all the Company's fixed property and franchises, subject only to excepted encumbrances permitted by that indenture.

The Company has waived notice of hearing, hearing, and any and all rights to specify procedures under the Rules of Practice of the Securities and Exchange Commission in connection with this matter.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application, which is a public document, on file in the Office of the Commission's Public Reference Section, at 1100 L Street, N.W., Washington, D.C. 20549.

Notice is further given, That any interested person may, not later than April 26, 1977, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. Any time after said date, the Commission may issue an order granting the application, upon such terms and conditions as the Commission may deem necessary or appropriate in the public interest and the interest of investors, unless a hearing is ordered by the Commission.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SMALL BUSINESS ADMINISTRATION

MAXIMUM INTEREST RATES

Notice is given that the Small Business Administration (SBA) has established the maximum rates of interest that lending institutions participating with SBA may charge on loans approved by SBA after April 11, 1977, under section 7 of the Small Business Act, as amended, and section 502 of the Small Business Investment Act, as amended.

Effective April 11, 1977, the maximum rate of interest acceptable to SBA on a guaranteed loan or guaranteed revolving line of credit shall be nine and three-quarters percent (9¾%) per year, and the maximum rate on an immediate participation loan shall be eight and three-quarters percent (8¾%) per year. These maximum interest rates are one-half

V4269 APR 11 77 UMI

percent (1½%) higher than those published in the FEDERAL REGISTER on December 30, 1976 (41 FR 56898), and shall remain in effect until notification of a change is issued by SBA.

The "SBA Optional Peg Rate" for the April–June 1977 quarter will be seven percent (7%) per year, and is effective April 11, 1977. This is an optional "peg" rate for use in connection with fluctuating-interest rate loans made in participation with SBA.

This Notice is issued under 13 CFR 120.3(b)(2)(iv).

DEPARTMENT OF STATE

Agency for International Development

BOARD FOR INTERNATIONAL FOOD AND AGRICULTURAL DEVELOPMENT

Meeting

Pursuant to Executive Order 11769 and the provisions of Section 10(a)(2), Pub. L. 92–463, Federal Advisory Committee Act, notice si hereby given of the eighth meeting of the Board for International Food and Agricultural Development on May 7 and 8, 1977. The purpose of the meeting is to receive reports from the Joint Research Committee and the Joint Committee on Agricultural Development; to discuss procedures for establishing a roster of eligible universities; a country roster; and to discuss procedures for strengthening U.S. Universities.

The meeting will begin at 1:30 p.m. on May 7th, following the close of the Conference on Title XII sponsored by the University of Minnesota. The meeting on May 8th will begin at 9 a.m. The meetings will be held in the Minnesota Room of the Registry Hotel, 7901 24th Avenue, South, Minneapolis, Minnesota, 55420.

The meeting is open to the public. Dr. Erven J. Long, Associate Assistant Administrator, is designated as the Federal Officer at the meeting. It is suggested that those desiring more specific information contact him at the Agency for International Development, State Department, Washington, D.C. 20523, or call 703–235–8956.

Dated: April 5, 1977.

ERVEN J. LONG,
Federal Officer, Board for International Food and Agricultural Development.

AGENCY FOR INTERNATIONAL DEVELOPMENT

[No. 165-15]

DIRECTOR, USAID/GUATEMALA

Redelegation of Authority

Pursuant to the authority vested in me as Assistant Administrator for Latin America, Agency for International Development, by the Foreign Assistance Act of 1961, as amended, and the delegations of authority issued thereunder, I hereby delegate to the Director, USAID/Guatemala, authority to negotiate and execute A.I.D. Loan No. 520–V–029 (Primary School Reconstruction) in accordance with and subject to a Loan Authorization dated March 29, 1977 authorizing said Loan ("Loan Authorization").

This delegation of authority shall continue in full force and effect for a period not to exceed 120 days from the date of the Loan Authorization.

Dated: March 29, 1977.

D. M. LION,
Acting Assistant Administrator, Latin American Bureau.

[FR Doc.77-10500 Filed 4-8-77;8:45 am]

[No. 165-16; Amdt. 2]

DIRECTOR, USAID/HAITI

Redelegation of Authority

Pursuant to the authority vested in me as Assistant Administrator for Bureau of Latin America, by the Foreign Assistance Act of 1961, as amended, and the delegations of authority issued thereunder, I hereby delegate to the Director, USAID/Haiti, authority to negotiate, execute and implement Loan Agreement No. 521–T–008 (Integrated Agricultural Development) in accordance with and subject to the limitations of the Authorization for said Loan.

The delegation of authority to negotiate and execute is effective through April 28, 1977.

Dated: March 29, 1977.

D. M. LION,
Acting Assistant Administrator, Bureau for Latin America.

[FR Doc.10501 Filed 4-8-77;8:45 am]

HOUSING GUARANTY PROGRAM FOR PORTUGAL

Information for Investors

The Agency for International Development (AID) has advised the Government of Portugal (the "Borrower") that upon execution by an eligible U.S. investor acceptable to AID of an agreement to loan the Borrower an amount not to exceed $20 million, and subject to the satisfaction of certain further terms and conditions by the Borrower, AID will guarantee repayment to the investor of the principal and interest on such loan. The guarantee will be backed by the full faith and credit of the United States of America and will be issued pursuant to authority contained in section 221 of the Foreign Assistance Act of 1961, and amended (the "Act").

Proceeds of the loan will be used in the financing of housing in Portugal.

Eligible investors interested in extending a guaranteed loan to the Borrower should communicate promptly with:

Dr. Alexandre Vaz Pinto, President, Sociedade Financeira Portugesa, Rua Duque de Palmela, 30/8/B, Lisbon, Portugal.

Investors eligible to receive a guaranty are those specified in section 238(c) of the Act. They are: (1) U.S. citizens, (2) domestic corporations, partnerships, or associations substantially beneficially owned by U.S. citizens, (3) foreign corporations whose share capital is at least 95 percent owned by U.S. citizens, and (4) foreign partnerships or associations wholly owned by U.S. citizens.

To be eligible for a guaranty, the loan must be repayable in full not later than 30 years from the first disbursement of the principal amount thereof and the interest rate must be no higher than the maximum rate to be established by AID. AID will charge a guaranty fee equal to one-half of 1 percent per annum on the outstanding guaranteed principal amount of the loan.

The Borrower projects a schedule of disbursements covering a two year period from the date of the loan agreement and prospective Investors should consider this in proposing a guaranteed loan to the Borrower. In addition, the Investor must provide for the servicing of his loan, i.e., recordation and disposition of loan payments received from the Borrower.

Information as to eligibility of investors and other aspects of the AID housing guaranty program can be obtained from:

Director, Office of Housing, Agency for International Development, Room 625, SA–12, Washington, D.C. 20523.

This notice is not an offer by AID or by the Borrower. The Borrower and not AID will select a lender and negotiate the terms of the proposed loan.

Dated: April 1, 1977.

PETER M. KIMM,
Director of Housing, Agency for International Development.

DEPARTMENT OF TRANSPORTATION

COAST GUARD

[CGD 77-061]

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Approval Notice

1. Certain laws and regulations (46 CFR Chapter I) require that various items of lifesaving, firefighting and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the Outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been granted as herein described during the period from January 21, 1977 to February 22, 1977 (List No. 2–77). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75–1 to 2.75–50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of Title 46, United States Code section 1333 of Title 43, United States Code, and section 198 of Title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46(b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160 to 164.

3. The approvals listed in this document shall be in effect for a period of 5 years from the date of issuance, unless sooner cancelled or suspended by proper authority.

LIFEBOAT WINCHES FOR MERCHANT VESSELS

Approval No. 160.015/113/0, Type 40 G winch; approval limited to mechanical components only and for a maximum working load of 8,000 lbs. pull at the drums (4,000 lbs. per fall); identified by general arrangement drawing W1–F–023, revision D dated December 22, 1976, and drawing list dated January 13, 1977, Model A, deck-mounted installation, manufactured by Marine Safety Equipment Corporation, Foot of Wyckoff Road, Farmingdale, New Jersey 07727, effective February 1, 1977.

LIFE FLOATS FOR MERCHANT VESSELS

Approval No. 160.027/48/2, 6.17' x 4.7' (11'' x 10¼'' body section), rectangular life float, fibrous glass reinforced plastic shell with unicellular plastic core, 15-person capacity, identified by dwg. No. M–99–15, Rev. E dated April 6, 1972 and fabrication specification dated April 6, 1972, manufactured by Marine Safety Equipment Corporation, Foot of Wyckoff Road, Farmingdale, New Jersey 07727, effective February 10, 1977. (It is an extension of Approval No. 160.027/48/2 dated April 11, 1972.)

DAVITS FOR MERCHANT VESSELS

Approval No. 160.032/173/0, Gravity davit, Type 26–15; approved for a maximum working load of 15,000 pounds per set (7,500 pounds per arm) using 2-part falls; identified by general arrangement dwg. D1–F–006, Revision C dated April 14, 1967, and drawing list DL–DIF–006 dated April 28, 1967, manufactured by Marine Safety Equipment Corporation, Foot of Wyckoff Road, Farmingdale, New Jersey 07727, effective February 10, 1977. (It is an extension of Approval No. 160.032/173/0 dated March 2, 1972.)

Approval No. 160.032/210/0, Type GPD–80 gravity pivot davit; approved for a maximum working load of 16,000 lbs. per set (8,000 lbs. per arm) using 2-part falls; identified by general arrangement drawing D1–F–309, revision B dated January 12, 1977, and drawing list dated December 13, 1976, manufactured by Marine Safety Equipment Corporation, Foot of Wyckoff Road, Farmingdale, New Jersey 07727, effective February 10, 1977.

HAND PROPELLING GEAR, LIFEBOATS, FOR MERCHANT VESSELS

Approval No. 160.034/15/2, Type WSG–1, hand-propelling gear identified by general arrangement dwg. No. 80139, Rev. C dated June 29, 1964, manufactured by Welin Davit & Boat Division, Lake Shore, Inc., Iron Mountain, Michigan 49801, effective February 7, 1977. (It is an extension of Approval No. 160.034/15/2 dated April 21, 1972.)

LIFEBOATS

Approval No. 160.035/29/1, 28.0' x 9.0' x 3.96' steel, oar-propelled lifeboat, 59-person capacity, identified by general arrangement dwg. No. 28–1B dated February 16, 1972, 46 CFR 160.035–13(c) Marking, Weights: Condition "A"=5,100 pounds; Condition "B"=16,019 pounds, manufactured by Marine Safety Equipment Corporation, Foot of Wyckoff Road, Farmingdale, New Jersey 07727, effective February 10, 1977. (It is an extension of Approval No. 160.035/229/1 dated April 6, 1972.)

Approval No. 160.035/300/5, 24.0' x 8.0' x 3.5' aluminum, motor-propelled lifeboat, without radio cabin or searchlight (Class 1), 37-person capacity, identified by general arrangement dwg. No. 24–9H Rev. H dated February 14, 1972, 46 CFR 160.035–13(c) Marking, Weights: Condition "A"=3,100 pounds; Condition "B"=10,252 pounds manufactured by Marine Safety Equipment Corporation, Foot of Wyckoff Road, Farmingdale, New Jersey 07727, effective February 10, 1977. (It is an extension of Approval No. 160.035/300/5 dated April 5, 1972.)

INFLATABLE LIFE RAFTS

Approval No. 160.051/97/0, 15-person inflatable life raft, MK–5 series, identified by general arrangement drawing CJH/MN/15 dated October 4, 1976 and drawing list dated September 22, 1976, inflation system can use either steel or aluminum cylinders, manufactured by C. J. Hendry Company, 139 Townsend Street, San Francisco, California 94107 or by Patten-Pan Avion Division of American Safety Flight Systems, P.O. Box 480213, Miami, Florida 33148 under subcontract for C. J. Hendry Company, effective February 22, 1977.

Approval No. 160.051/98/0, 20-person inflatable life raft, MK–5 series, identified by general arrangement drawing CJH/MN/20 dated October 4, 1976 and drawing list dated September 22, 1976, inflation system can use either steel or aluminum cylinders, manufactured by C. J. Hendry Company, 139 Townsend Street, San Francisco, California 94107, or by Patten-Pan Avion Division of American Safety Flight Systems, Inc., P.O. Box 480213, Miami, Florida 33148 under subcontract for C. J. Hendry Company, effective February 22, 1977.

LIFE PRESERVERS, UNICELLULAR PLASTIC FOAM, ADULT AND CHILD FOR MERCHANT VESSELS

Approval No. 160.055/70/0, Model 63, adult cloth-covered unicellular plastic foam life preserver, U.S.C.G. Specification Subpart 160.055 and dwg. No. 160.–055–IB (sheet 1 and 2), Type I PFD, manufactured by Style-Crafters, Inc., P.O. Box 8277, Greenville, South Carolina 29604, effective January 21, 1977. (It is an extension of Approval No. 160.055/70/0 dated February 2, 1972.)

Approval No. 160.055/71/0, Model 67, child cloth-covered unicellular plastic foam life preserver, U.S.C.G. Specification Subpart 160.055 and dwg. No. 160.–055–IB (sheet 3 and 4), Type I PFD, manufactured by Style-Crafters, Inc., P.O. Box 8277, Greenville, South Carolina 29604, effective January 21, 1977. (It is an extension of Approval No. 160.055/71/0 dated February 2, 1972.)

Approval No. 160.055/74/0, Model 62, adult vinyl dip coated unicellular plastic foam life preserver, U.S.C.G. Specification Subpart 160.055 and dwg. No. 160.–055–IA (sheet 1), Type I PFD, manufactured by Style-Crafters, Inc., P.O. Box 8277, Greenville, South Carolina 29604, effective January 21, 1977. (It is an extension of Approval No. 160.055/74/0 dated February 2, 1972.)

Approval No. 160.055/75/0, Model 66, child vinyl dip coated unicellular plastic foam life preserver, U.S.C.G. Specification Subpart 160.055 and dwg. No. 160.–055–IA (sheet 2), Type I PFD, manufactured by Style-Crafters, Inc., P.O. Box 8277, Greenville, South Carolina 29604, effective January 21, 1977. (It is an extension of Approval No. 160.055/75/0 dated February 2, 1972.)

Approval No. 160.055/113/0, adult, model 200 vinyl dip coated unicellular plastic foam life preserver, manufactured in accordance with U.S.C.G. Specification Subpart 160.055; dwg. No. "Job No. 113" sheets 1 and 2 dated December 14, 1976; and letter from Billy Pugh Company to U.S.C.G. Marine Inspection Office dated December 16, 1976,

V 4269 APR 11 77 UMI

Type I PFD, manufactured by Billy Pugh Company, Inc., P.O. Box 802, 1415 N. Water Street, Corpus Christi, Texas 78403, effective February 17. 1977.

MARINE BUOYANT DEVICE

Approval No. 160.064/326/0, child medium, Model VCM, vinyl dipped PVC foam, Sail 'N' Ski vest, manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ-3, Type III PFD, manufactured by Texas Recreation Corporation, Texas Watercrafters Division, 912 North Beverly Drive, Wichita Falls, Texas 76307, effective January 26, 1977. (It is an extension of Approval No. 160.064/326/0 dated March 17, 1972.)

Approval No. 160.064/327/0, child large, Model VCL, vinyl dipped PVC foam, Sail 'N' Ski vest, manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ-3, Type III PFD, manufactured by Texas Recreation Corporation, Texas Watercrafters Division, 912 North Beverly Drive, Wichita Falls, Texas 76307, effective January 26, 1977. (It is an extension of Approval No. 160.064/327/0 dated March 17, 1972.)

Approval No. 160.064/1127/0, adult small, Model No. 900, cloth covered unicellular plastic foam "Boating Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 266, Type III PFD, manufactured by Swan Products Company, Inc., 25 Brighton Avenue, Passaic, New Jersey 07055, effective February 1, 1977.

Approval No. 160.064/1128/0, adult medium, Model No. 900, cloth covered unicellular plastic foam "Boating Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 266, Type III PFD, manufactured by Swan Products Company, Inc., 25 Brighton Avenue, Passaic, New Jersey 07055, effective February 1, 1977.

Approval No. 160.064/1129/0, adult large, Model No. 900, cloth covered unicellular plastic foam "Boating Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 266, Type III PFD, manufactured by Swan Products Company, Inc., 25 Brighton Avenue, Passaic, New Jersey 07055, effective February 1, 1977.

Approval No. 160.064/1231/0, Youth Universal, Model No. SPV-8, cloth covered unicellular plastic foam "Boating Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 29, factory location: Highway 10, Sauk Rapids, Minnesota 53679, Type III PFD, manufactured by Stearns Manufacturing Company, P.O. Box 1498, St. Cloud, Minnesota 56301, effective February 1, 1977.

Approval No. 160.064/1232/0, adult sm/med, Model No. SPV-9, cloth covered unicellular plastic foam "Boating Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 29, factory location: Highway 10, Sauk Rapids, Minnesota 56379, Type III PFD, manufactured by Stearns Manufacturing Company, P.O. Box 1498, St. Cloud, Minnesota 56301, effective February 1, 1977.

Approval No. 160.064/1233/0, adult lg/xl, Model No. SPV-9, cloth covered unicellular plastic foam "Boating Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 29, factory location: Highway 10, Sauk Rapids, Minnesota 56379, Type III PFD, manufactured by Stearns Manufacturing Company, P.O. Box 1498, St. Cloud, Minnesota 56301, effective February 1, 1977.

STRUCTURAL INSULATIONS FOR MERCHANT VESSELS

Approval No. 164.007/51/0, Type C-X, sprayed asbestos free fiber type structural insulation, identical to that described in Underwriters Laboratories, Inc. report 73NK9675, File R3372-23-24 dated June 18, 1974, approved for use without other insulating material to meet Class A-60 requirements in a 2¾ inch thickness and 17.4 pounds per cubic foot density, manufactured by Spraycraft Corporation, 2508 Coney Island Avenue, Brooklyn, New York 11223, effective February 11, 1977.

INTERIOR FINISHES FOR MERCHANT VESSELS

Approval No. 164.012/16/0, vinyl film wall covering material, Type K-2, in thickness of 10 mil, identical to that described in Underwriters Laboratories report 75NK9821, File R4564(Sp), dated October 26, 1976, to be applied with manufacturer's adhesive E8825, manufactured by Columbus Coated Fabrics, Division of Borden Chemical, Borden, Inc., 1280 North Grant Avenue, Columbus, Ohio 43216, effective January 27, 1977.

Approval No. 164.012/17/0, vinyl film wall covering material, Type K-2L, in thickness of 8 mil, identical to that described in Underwriters Laboratories report 75NK9821, File R4564(Sp), dated October 26, 1976, to be applied with manufacturer's adhesive E8825, manufactured by Columbus Coated Fabrics, Division of Borden Chemical, Borden, Inc., 1280 North Grant Avenue, Columbus, Ohio 43216, effective January 27, 1977.

Approval No. 164.012/18/0, vinyl film wall covering material, Type KL-22, in thickness of 10 mil, identical to that described in Underwriters Laboratories report 75NK9821, File R4564(Sp), dated October 26, 1976, to be applied with manufacturer's adhesive E8825, manufactured by Columbus Coated Fabrics, Division of Borden Chemical, Borden, Inc., 1280 North Grant Avenue, Columbus, Ohio 43216, effective January 27, 1977.

Dated: April 1, 1977.

H. G. LYONS,
Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.

FLIGHT STANDARDS

Function Transfer

Notice is hereby given that on or about April 18, 1977, the air carrier functions at the Rochester, New York, Flight Standards District Office (FSDO) will be transferred to the Pittsburgh, Pennsylvania, and Kennedy (New York) Air Carrier District Offices (ACDO's). The boundary line for this transfer of air carrier functions will be 76° west longitude with the Kennedy ACDO assuming the Rochester FSDO's responsibilities on or east of this longitude and the Pittsburgh ACDO assuming the responsibilities west of the longitude. The Rochester FSDO will be redesignated as a General Aviation District Office (GADO) and will continue to provide all services to general aviation in the Rochester area. Communications to the GADO should be addressed as follows:

Rochester General Aviation District Office, Department of Transportation, Federal Aviation Administration, 1295 Scottsville Road, Rochester-Monroe County Airport, Rochester, New York 14624.

(Sec. 313(a) of the Federal Aviation Act of 1958, 72 Stat. 752, 49 U.S.C. 1354.)

Issued in New York, New York, on March 25, 1977.

WILLIAM E. MORGAN,
Director, Eastern Region.

DEPARTMENT OF THE TREASURY

Customs Service

CHANGES IN CUSTOMS FORM 5515 (SPECIAL CUSTOMS INVOICE)

Correction

AGENCY: United States Customs Service.

ACTION: General Notice—Correction.

SUMMARY: The General Notice published in the FEDERAL REGISTER on March 233, 1977 (42 FR 15765), concerning the availability of the revised Special Customs Invoice, Customs Form 5515, incorrectly advised that foreign language instructions for that form were available. Foreign language instructions are currently being prepared, but will not be available for distribution for several months.

FOR FURTHER INFORMATION CONTACT:

Joseph P. Moss, Senior Operations Officer, Duty Assessment Division (202-566-5307), or Marcia Kaplan, Attorney, Entry Procedures and Penalties Division (202-566-5778), United States Customs Service, Washington, D.C. 20229.

SUPPLEMENTARY INFORMATION:

Instructions for the revised Customs Form 5515 in French, Spanish, German, and Japanese are currently being prepared and will be made available as soon as possible.

As noted in the General Notice published on March 23, 1977, the old Customs Form 5515 may be used until September 30, 1977. The old Customs Form 5515 may be used by the foreign seller, the shipper, or the agent of either for shipments exported to the United States on or before September 30, 1977.

Accordingly, the last paragraph of the General Notice published on March 23, 1977, is amended to read as follows:

The new Special Customs Invoice forms are now available. The old Special Customs Invoice forms may be used by the foreign seller, the shipper, or the agent of either for shipments exported to the United States on or before September 30, 1977. Foreign language instructions for the revised form in French, Spanish, German, and Japanese will be made available as soon as possible.

VERNON D. ACREES,
Commissioner of Customs.

GLOBAL SURETY & INSURANCE CO.

Surety Companies Acceptable on Federal Bonds

A certificate of authority as an acceptable surety on Federal bonds has been issued by the Secretary of the Treasury to the following company under Sections 6 to 13 of Title 6 of the United States Code. An underwriting limitation of $1,217,000 has been established for the company.

Name of Company, Location of Principal Executive Office, and State in Which Incorporated: Global Surety & Insurance Co., Omaha, Nebraska—Nebraska.

Certificates of authority expire on June 30 each year, unless sooner revoked, and new certificates are issued on July 1 so long as the companies remain qualified (31 CFR Part 223). A list of qualified companies is published annually as of July 1 in Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact surety business and other information. Copies of the circular, when issued, may be obtained from the Audit Staff, Bureau of Government Financial Operations, Department of the Treasury, Washington, D.C. 20226.

Dated: April 1, 1977.

D. A. PAGLIAI,
Commissioner, Bureau of Government Financial Operations.

VETERANS ADMINISTRATION

COOPERATIVE STUDIES EVALUATION COMMITTEE

Renewal

This is to give notice in accordance with the Federal Advisory Committee Act (Pub. L. 92-463) of October 6, 1972, that the Cooperative Studies Evaluation Committee has been renewed by the Administrator of Veterans Affairs, with the concurrence of the Office of Management and Budget Committee Management Secretariat, for a two year period beginning March 20, 1977 through March 20, 1979.

All Veterans Administration advisory committees, including the above, are now being reviewed in accordance with the President's memorandum of February 25, 1977 and Office of Management and Budget guidance provided in Circular No. A-63, Transmittal Memorandum No. 5, dated March 7, 1977. This review is to be completed no later than April 15, 1977.

By direction of the Administrator.

Dated: April 5, 1977.

RUFUS H. WILSON,
Deputy Administrator.

[Notice No. 147]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission on or before May 11, 1977. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

No. MC-FC-77001, filed March 1, 1977. Transferee: LEE ROY HEERMAN, an individual doing business as COIN TRANSFER, P.O. Box 296, Coin, Iowa 51636. Transferor: Linnie Swanson, Stanton, Iowa 51573. Applicants' representative: Bradford E. Kistler, Attorney at Law, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 24896, issued March 5, 1957, as follows: General commodities (with exceptions) from Omaha, Nebr., to Stanton, Iowa, serving intermediate and off-route points within 25 miles of Stanton. From Omaha over U.S. Highway 275 to junction U.S. Highway 34, thence over U.S. Highway 34 to junction Iowa Highway 120, thence over Iowa Highway 120 to Stanton. Transferee is presently authorized to operate as a common carrier under Certificate No. MC 25255 and subs thereafter. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77003, filed March 1, 1977. Transferee: HERBERT L. SCHERER, An individual doing business as SCHERER TRANSFER, 1510 15th Ave., Monroe, Wis. 53566. Transferor: Herbert L. Scherer and Louis F. Scherer, a partnership doing business as Scherer Transfer, 1510 15th Ave., Monroe, Wis. 53566. Applicants' representative: Rolfe E. Hanson, Attorney at Law, 121 Doty St., Madison, Wis. 53703. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 128362, issued December 23, 1969, as follows: Household goods as defined by the Commission, between points in Green County, Wis., on the one hand, and, on the other, points in Illinois within 45 miles of Juda, Wis. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

REPUBLICATION

No. MC-FC-77005, filed March 2, 1977. Transferee: EARLY RIVAL MOTOR EXPRESS, INC., 2545 Jonesboro Rd. SE., Atlanta, Ga. 30315. Transferor: Meadors Freight Lines, Inc., (Stacey W. Cotton, trustee in bankruptcy), 2545 Jonesboro Rd. SE., Atlanta, Ga. 30315. Applicants' representative: Virgil H. Smith, Attorney at Law, 1587 Phoenix Blvd., Suite 12, Atlanta, Ga. 30349. Authority sought for purchase by transferee of a portion of the operating rights of transferor, as set forth in Certificates No. MC 117604 and Sub 4 and Sub 8, and certificate of Registration No. MC 117604 Sub 2 and Sub 3, issued December 16, 1958, June 22, 1972, July 10, 1972, April 13, 1965, and April 1, 1965, as follows: General commodities (with exceptions), between Atlanta, Ga., and Covington, Ga., serving all intermediate points and the off-route points of Milstead, and Porterdale, Ga.: From Atlanta over U.S. Highway 278 (formerly Georgia Highway 12) via Avondale Estate, Ga., to junction Georgia Highway 124, thence over Georgia Highway 124 to Lithonia, Ga., thence return over Georgia Highway 124 to junction U.S. Highway 278, thence over U.S. Highway 278 to Covington, and return over the same route. Property, between Covington, Ga., and Snapping Shoals, Ga., over State Highway 81 and property, between Madison, Ga., and Atlanta, Ga., via Ruthledge, Covington, Conyers, and Decatur, Ga., over State Highway 12 serving the off route point of Social Circle, Ga. Also property, between Atlanta, Ga., and Union Point, Ga., over State Highway 12 serving all intermediate points, and property between Greensboro, Ga., and Sparta, Ga., over State Highway 15 serving all intermediate points. Also property, from Atlanta, Ga. to Elizabeth, Ga. Also General commodities (with exceptions) between Cartersville, Ga. and Marietta, Ga. serving no intermediate points and serving termini for the purpose of joinder only, from Cartersville, Ga. to Marietta, Ga. over State Highway 3 and return over the same route. And General commodities (with exceptions) between Cartersville, Ga. and Dalton, Ga. serving all intermediate points, from Cartersville, Ga. over U.S. Highway 41 to Dalton, Ga. and return over the same route. Transferee presently holds no authority from this Commission. Application has now been filed for temporary authority under section 210a(b). This case is being republished to add authority which was previously omitted and also to show the filing of a TA application.

No. MC-FC-77017, filed March 9, 1977. Transferee: ROBERT W. RUXTON, an individual doing business as RUXTON'S EXPRESS, 95 Pierce Rd., Weymouth, Mass. 02188. Transferor: Harold F. Ruxton, an individual doing business as Ruxton's Express, 95 Pierce Rd., Weymouth, Mass. 02188. Applicants' representative: Robert W. Ruxton, 95 Pierce Rd., Weymouth, Mass. 02188. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 82018, issued June 9, 1941, as follows: *General commodities*, except those of unusual value, and except dangerous explosives, household goods (when transported as a separate and distinct service in connection with so-called "household movings"), commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, over regular routes, between Cambridge, Mass., and Randolph, Mass.: From Cambridge over city streets via Boston and Brookline, Mass., to junction Massachusetts Highway 28, thence over Massachusetts Highway 28 to Randolph, and return over the same route. Between Randolph, Mass., and Weymouth, Mass.: From Randolph over Massachusetts Highway 28 to junction Massachusetts Highway 128, thence over Massachusetts Highway 128, to Braintree, Mass., thence over Massachusetts Highway 37 to Quincy, Mass., and thence over Massachusetts Highway 3 to Weymouth, and return over the same route. Service is authorized to and from the intermediate points of Boston, Brookline, Milton, Braintree, and Quincy, Mass. Transferee presently holds no authority from this Commission. Application has not been filed for Temporary authority under Section 210a(b).

No. MC-FC-77025, filed March 14, 1977. Transferee: CHARLES F. LIGHT, doing business as BEN SLAVEN TOURS, 3765 Windover Circle, Hamburg, N.Y. 14075. Transferor: Alexander A. Slaven and Belia Levy, a partnership, doing business as Ben Slaven Tours, 12 St. James Rd., Cheektowaga, N.Y. 14225. Applicant's representative: Charles F. Light, 3765 Windover Circle, Hamburg, N.Y. 14075. Application sought for purchase by transferee of License No. MC 12754 issued November 30, 1964, to transferor authorizing it to engage in operations as a broker of passengers and their baggage, in special and charter operations, in all-expense tours beginning and ending at points in Erie County, N.Y., and extending to ports of entry on the United States-Canada Boundary line along the Niagara River between New York and Ontario. Transferee presently holds no authority from this Commission.

No. MC-FC-77026, filed March 4, 1977. Transferee: JENSEN CHARTERS, INC., 155 South 1st St., St. Helens, Oreg. 97223. Transferor: Kelso Ocean Beach Stage Lines, a corporation, 204 South 7th St., P.O. Box 746, West Kelso, Wash. 98626. Applicant's representative: Robt. R. Hollis, Attorney at Law, 400 Pacific Bldg., Portland, Oreg. 97204. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificates No. MC 33705 (Sub-No. 4) and MC 33705 (Sub-No. 5), issued February 10, 1966 and September 19, 1975, respectively, as follows: Passengers and their baggage, express, and newspapers over a specified regular route between Ranier, Oreg. and Ocean Park, Wash.; passengers and their baggage in special operations in round trip sightseeing or pleasure tours beginning and ending at points in Pacific and Wahkiakum Counties, Wash. and a specified portion of Cowlitz County, Wash. and extending to all points in the United States including Alaska but excluding Hawaii. Transferee is presently authorized to operate as a common carrier under Certificate No. MC 123178. Application has been filed for temporary authority under Section 210a(b).

ROBERT L. OSWALD,
Secretary.

[FR Doc.77-10581 Filed 4-8-77;8:45 am]

[I.C.C. Order No. 28; Under Service Order No. 1252]

VIRGINIA AND MARYLAND RAILROAD CO.

Rerouting Traffic

To all railroads: In the opinion of Joel E. Burns, Agent, The Virginia and Maryland Railroad Company is unable to transport traffic routed via its car ferry between Norfolk, Virginia, and Cape Charles, Virginia, because of a temporary inability to operate ferry service between these points.

It is ordered, That: (a) *Rerouting traffic.* The Virginia and Maryland Railroad Company being unable to transport traffic routed via its car ferry between Norfolk, Virginia, and Cape Charles, Virginia, because of a temporary inability to operate ferry service between these points, that line and its connections are hereby authorized to divert and reroute such traffic over any available route to expedite the movement regardless of the routing shown on the waybill. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Concurrence of receiving roads to be obtained.* The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) *Notification to shippers.* Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date.* This order shall become effective at 5 p.m., April 1, 1977.

(g) *Expiration date.* This order shall expire at 11:59 p.m., May 1, 1977, unless otherwise modified, changed or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., April 1, 1977.

INTERSTATE COMMERCE COMMISSION,
JOEL E. BURNS,
Agent.

[FR Doc.77-10579 Filed 4-8-77;8:45 am]

CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD CO.

Chicago, Milwaukee, St. Paul and Pacific Railroad Company, 516 West Jackson Boulevard, Chicago, Illinois 60606, represented by Raymond K. Merrill, Vice President-Law, 516 West Jackson Boulevard, Chicago, Illinois 60606 and Thomas H. Ploss, General Attorney and Commerce Counsel, 516 West Jackson Boulevard, Chicago, Illinois 60606, hereby give notice that on the 28th day of March, 1977, it filed with the Interstate Commerce Commission at Washington, D.C., an application under section 5(2) of the Interstate Commerce Act for an order approving and authorizing trackage rights over the lines of William M. Gibbons, Trustee of the Property of Chicago, Rock Island and Pacific Railroad Company, which application is assigned Finance Docket No. 28437.

Approval of the application will permit the Chicago, Milwaukee, St. Paul and Pacific Railroad Company to acquire trackage rights over the lines of William M. Gibbons, Trustee of the Property of Chicago, Rock Island and Pacific Railroad Company between Culver, Iowa, and Polo, Missouri (232 miles) and between Eldon and Ottumwa, Iowa (11 miles) so as to enable the operation of Milwaukee Road through Chicago-Kansas City, Missouri, trains over the Culver-Polo line of Rock Island and to permit the continued provision of Milwaukee Road service to Ottumwa, Iowa by operation over Rock Island's line between Eldon, Iowa, and Ottumwa, Iowa.

In the opinion of the applicant, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 C.F.R. 1108.8) in Ex Parte No. 55 (Sub-No. 4), Implementation—National Environmental Policy Act, 1969, 352 I.C.C. 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See Implementation—National Environmental Policy Act, 1969, supra, at p. 487.

Interested persons may participate formally in a proceeding by submitting written comments regarding the application. Such submissions shall indicate the proceeding designation Finance Docket No. 28437 and the original and two copies thereof shall be filed with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, not later than 45 days after the date notice of the filing of the application is published in the FEDERAL REGISTER. Such written comments shall include the following: the person's position, e.g., party protestant or party in support, regarding the proposed transaction; specific reasons why approval would or would not be in the public interest; and a request for oral hearing if one is desired. Additionally, interested persons who do not intend to formally participate in a proceeding but who desire to comment thereon, may file such statements and information as they

V4269 APR 11 77 UMI

may desire, subject to the filing and service requirements specified herein. Persons submitting written comments to the Commission shall, at the same time, serve copies of such written comments upon the applicant, the Secretary of Transportation and the Attorney General.

ROBERT L. OSWALD,
Secretary.

[FR Doc.77-10499 Filed 4-8-77;8:45 am]

[Notice No. 148]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission by May 11, 1977. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicant's representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, of the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

No. MC-FC-77023. By order entered April 4, 1977, the Commission, Division 3, approved the transfer to Automotive Merchandisers of Texas, Inc., Columbus, Ohio, and Ohio Merchandising Corporation, Columbus, Ohio, of the operating rights set forth in Certificates No. MC 32562 and subnumbers 10, 11, 12, 13, 15, 17, 19, 20, 23, 25, 26, 27, 28, 30, and 31 issued by the Commission September 14, 1955, October 17, 1956, August 16, 1957, April 29, 1958, May 28, 1959, August 20, 1959, October 11, 1961, October 12, 1962, November 7, 1962, February 28, 1966, June 20, 1967, May 31, 1968, September 8, 1970, November 25, 1969, November 25, 1969 and April 1, 1971, respectively, to Point Express authorizing the transportation of: general commodities, including but not limited to packing house products, malt beverages, household goods, carbide, corn meal and flour products, coal mining machinery, glass containers, canned milk and such merchandise as is dealt in by retail and wholesale food business houses, from, to, or between, points in Indiana, Kentucky, Missouri, Ohio, Pennsylvania, Tennessee, Virginia and West Virginia.

Thomas C. Scott, 88 East Broad St., Suite 980, Columbus, Ohio 43215, Attorney for Point Express, Inc.

[No. 9]

APRIL 6, 1977.

Pursuant to the Government in the Sunshine Act of 1976, 5 U.S.C. 552b(e)(1) and (3), announcement is made of a Board of Directors meeting to be held on April 14, 1977, at 2:30 p.m., at 320 First Street, NW., Room 630, Washington, D.C., at which the following Corporation business will be conducted:

Status Report on Corporation's Move to New FHLBB Building.
Consideration of Mortgage Corporation Advisory Committee Appointed Members.

Mr. Henry L. Judy (202-624-7107) is the Corporation official designated to respond to requests for information pertaining to such meeting.

The Federal Home Loan Mortgage Corporation.

RONALD A. SNIDER,
Assistant Secretary.

AGENCY HOLDING THE MEETING: Federal Home Loan Mortgage Corporation.

[No. 10]

APRIL 6, 1977.

Pursuant to the Government in the Sunshine Act of 1976, 5 U.S.C. 552b(e)(1) and (3), announcement is made that at a Board of Directors meeting closed to the public, to be held on April 14, 1977, at the conclusion of the open meeting to be held at 2:30 p.m. on that date, at 320 First Street, NW., Room 630, Washington, D.C., the following Corporation business will be conducted:

Consideration of Revocation of Resolutions Appointing FHLBank Presidents as Vice Presidents of the Corporation.
Consideration of Appointment of Additional Assistant Secretary in Dallas Region.

Mr. Henry L. Judy (202-624-7107) is the Corporation official designated to respond to requests for information pertaining to such meeting.

The Federal Home Loan Mortgage Corporation.

RONALD A. SNIDER,
Assistant Secretary.

[S-120-77 Filed 4-6-77;3:56 pm]

6

AGENCY HOLDING THE MEETING: Equal Employment Opportunity Commission.

APRIL 6, 1977.

Pursuant to the Government in the Sunshine Act, 5 U.S.C. 552b, notice is hereby given that the Equal Employment Opportunity Commission will meet on Tuesday, April 19, 1977 in the Chairman's Conference Room, Room No. 5240, on the fifth floor of the Columbia Plaza Office Building, 2401 E Street, NW., Washington, D.C. 20506. No meeting is scheduled for the week beginning Monday, April 11, 1977.

The first portion of the meeting, starting at 9:30 a.m. (Eastern Time) will be open to the public, and the Commission plans to consider the following matter during this open session:

V4269 APR 11 77 UMI

PRIVACY ACT; PROPOSED NOTICE OF CANCELLATION OF SYSTEMS OF RECORDS

NO. EEOC–1

The Commission will consider that the subject Notice of Cancellation be published, since the records are no longer maintained.

Immediately after the open session and departure of the public observers, the Commission plans to consider the following matters in closed session:

(1) *Freedom of Information Act Appeal No. 77–2–FOIA–27.* This appeal is on behalf of an employer charged with discrimination by an individual and requests access to files, if any, concerning charges by the same individual filed against other employers.

(2) *Litigation Authorization; General Counsel Recommendations.* Five cases will be presented to the Commission by the General Counsel recommending authorization to bring suit.

(3) *Proposed Decision in Charge No. 750–74–C5000 and 52 others.* A proposed decision, first discussed at the Commission meeting of March 22, 1977, will be presented for further consideration.

(4) *Proposal to Establish a Subdistrict Office in Minneapolis/St. Paul, Minnesota.* The Commission will continue the discussion, started at its April 5 meeting, of a proposal by the Director of its Milwaukee District Office, through the Director of the Chicago Regional Office, that a subdistrict office be established in the Minneapolis/St. Paul, Minnesota area, for the purpose of processing charges of discrimination filed against respondents in the State of Minnesota.

If you have any questions concerning the agenda for the April 19, 1977 Commission Meeting, please contact the Office of the Executive Secretariat at (202) 634–6748.

Issued April 6, 1977.

By order of the Commission.

ETHEL BENT WALSH,
Vice Chairman.

[S–122–77 Filed 4–7–77; 9:04 am]

7

AGENCY HOLDING THE MEETING: National Labor Relations Board.

TIME AND DATE: 9:30 a.m., Tuesday, April 19, 1977.

PLACE: Board Conference Room, Sixth Floor, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570.

STATUS: Open to public observation.

MATTERS TO BE CONSIDERED: Consideration of proposals to improve processing of bound volumes of Board Decisions.

CONTACT PERSON FOR MORE INFORMATION:

John C. Truesdale, Esq., Executive Secretary, Washington, D.C. 20570, Telephone 202–254–9430.

[S–123–77 Filed 4–7–77; 11:00 am]

8

AGENCY HOLDING THE MEETING: Federal Power Commission.

FEDERAL REGISTER CITATION OF PREVIOUS ANNOUNCEMENT: 42 CFR 18340.

PREVIOUSLY ANNOUNCED TIME AND DATE OF THE MEETING: 2 p.m. on April 7, 1977.

CHANGES IN THE MEETING: The following item is added to the Commission meeting upon the affirmative votes of Chairman Dunham, Commissioners Smith, Holloman and Watt.

G–25. Docket No. CI77–328, Mobil Oil Corporation.

KENNETH F. PLUMB,
Secretary.

[S–124–77 Filed 4–7–77; 1:55 pm]

9

AGENCY HOLDING THE MEETING: Nuclear Regulatory Commission.

In accordance with the requirements of the Government in the Sunshine Act and the Commission's Rules implementing the Act, this Notice identifies changes in previously announced meetings.

WEEK OF APRIL 11, MONDAY, APRIL 11

The Briefing on Detailed Program Plan for LMFBR Confirmatory Assessment Program (Public Meeting) scheduled for 1:30 p.m., Monday, April 11, is cancelled.

The Briefing on US-Indian Nuclear Cooperation and Supply Issues (Closed Meeting) scheduled for 3:00 p.m., Tuesday, April 12, has been rescheduled. The Briefing will be given at 3:00 p.m. on Monday, April 11. The meetings will be held in the Commissioners' Conference Room, 1717 H Street, NW., Washington, D.C. For further information, contact Walter Magee, Office of the Secretary, telephone: 634–1410.

For the Commission.

Dated at Washington, D.C., this 7th day of April 1977.

JOHN C. HOYLE,
Assistant Secretary of the Commission.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

■

GRANTS FOR FAMILY PLANNING SERVICES

Intent To Issue Proposed Rules

V42I69 APR 11 77 UMI

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

[42 CFR Part 59]

GRANTS FOR FAMILY PLANNING SERVICES

Intent to Issue Proposed Rules

Notice is hereby given that the Assistant Secretary for Health, with the approval of the Secretary of Health, Education, and Welfare, intends to propose regulations revising Part 59 of Title 42, Code of Federal Regulations, to implement the amendments to Title X of the Public Health Service Act (42 U.S.C. 300 et seq.) enacted by Public Law 94–63. This Notice presents a description of the amendments, discusses possible approaches to implementing then, and invites comments and suggestions from all interested parties on how they should be implemented.

1. Section 204(a) of the Public Law 94–63 amended section 1001(a) of the Public Health Service Act ("Act") to require that the range of family planning methods to be offered by family planning projects include natural family planning methods. Since the meaning of the term "natural family planning methods" is well understood in the family planning field and the requirement reflects current program policy, the Department proposes to implement the statutory language simply by amending the regulations where appropriate to reflect it.

2. Section 204(b) of Public Law 94–63 amended section 1001(b) of the Act to provide that local and regional entities are to be assured the right to apply for Title X grants and contracts and requires the Secretary to "by regulation fully provide for and protect such right." The legislative history of this section suggests that Congress was primarily concerned that the Secretary not systematically require statewide consolidation of grantees and that, in cases where such consolidation occurs, former grantees which are part of the consolidated project have the right to participate in the decisionmaking of the consolidated grantee as it affects their operations.

The Secretary feels that the present § 59.3 gives local and regional entities full right to apply for Title X grants. Further, the congressional concern that the Secretary not systematically require further consolidation relates solely to the internal operations of the Department. Accordingly, the Secretary does not plan to revise this section of the regulations in reference to section 204(b). In response to the congressional concern, though, the Secretary will not systematically undertake to accomplish such consolidation.

However, it is felt that the regulations should be revised to reflect the concern expressed in the legislative history that local and regional entities which are, or are to become, part of a consolidated grant participate in both the consolidation decision and in the consolidated grantee's decisionmaking. If the regulations are revised by the addition of requirements implementing these concerns, it will be necessary to determine what the requirements should be. The main question to be resolved in this regard is whether the Federal requirements should be very general in nature, permitting flexibility in the organizational and consultation arrangements, or whether they should prescribe detailed, less flexible organizational arrangements regarding input into the consolidation decision and the relationship between consolidated grantees and the local and regional entities that function as part of the consolidated project. If the latter approach is recommended, the Secretary would appreciate suggestions on what kinds of organizational arrangements would be appropriate and what kinds of operational problems might be encountered.

3. Section 204(d) of Public Law 94–63 amended Section 1006(c) to require the Secretary to define the term "low-income family" "so as to insure that economic status shall not be a deterrent to participation in the programs assisted under this title." By statute, low-income individuals are the priority group to receive family planning services and may not be charged for such services. The present regulatory definition places low income at fixed dollar income levels—for example, an annual income of $5,000 for a family of four. The legislative history of the amendment indicates that the levels are too low in today's economy and should be increased. There would seem to be two policy options in implementing such an increase. First, the present approach could be retained, with only the dollar income levels being raised. If this approach is recommended, then suggestions will be needed as to what dollar income levels would be appropriate. Alternatively, an approach which ties the income cut-off to some national standard or index, such as the Community Services Administration (CSA) Income Poverty Guidelines, could be adopted. If this approach is recommended, suggestions will be needed as to what the standard or index should be and precisely how the income cut-off should be tied to it (e.g., should the cut-off be at 150 percent of the index level, and so on). At present, the Secretary is inclined to adopt the latter approach, with the income cut-off set at 150 percent of the CSA Income Poverty Guidelines.

The legislative history of this section also indicates that Congress intended the term "low-income family" to be defined so as to permit individuals who do not meet whatever income cut-offs are established but who are nevertheless unable to pay for family planning services to be considered "low-income" for the purpose of the program. Two general approaches seem possible to accomplish this. First, the regulation could enumerate specific economic or other circumstances which would constitute a basis under which an individual not meeting the income cut-off could nevertheless qualify as low-income. If such an approach is recommended, suggestions on what such circumstances should be would be needed. Second, an approach using a general criterion for waiver of the income cut-off could be adopted. If this approach is adopted, suggestions regarding what the criterion should be would be called for. The Secretary would also appreciate guidance as to what operational problems may be encountered and should be considered under either approach, or any other approach recommended.

4. The Secretary also proposes to make an amendment not related to the enactment of Pub. L. 94–63. Section 59.5 of the regulations presently lists requirements that a supported project must comply with. That section is prefaced, however, by a waiver provision which seems to permit the Secretary to allow a grantee to omit one or more of the requirements if the grantee can establish "good cause." Some of the requirements listed (such as the abortion prohibition and priority to low-income persons), however, are imposed by statute and cannot be waived by the Secretary. It is proposed to restructure § 59.5 so as to clarify this.

In addition, the Secretary as a matter of policy proposes to require that grantees assure that they will make services available without regard to age, sex, or marital status, with no provision for waiver. The Secretary solicits views on what problems would be created if this assurance were made nonwaivable and suggestions for alternative approaches, such as restricting the present provision for waiver.

For further information, contact Mr. James Corrigan, Director, Division of Policy Development, 301–443–1034.

Comments, suggestions and recommendations concerning the proposed revision of the regulations should be submitted in writing to the Director, Division of Policy Development, Bureau of Community Health Services, 5600 Fishers Lane, Rockville, Maryland 20857. Consideration will be given to all written comments, suggestions and recommendations received by May 26, 1977. Such comments, suggestions and recommendations will be available for public inspection at the above address during regular business hours.

Dated: February 18, 1977.

JAMES F. DICKSON,
Acting Assistant Secretary for Health.

Approved: March 31, 1977.

JOSEPH A. CALIFANO, Jr.,
Secretary.

■

MILK IN THE NEW YORK-NEW JERSEY MARKETING AREA

Recommended Partial Decision

V 42 69 APR 11 77 UMI

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1002]

[Docket No. AO–71–A71]

MILK IN THE NEW YORK-NEW JERSEY MARKETING AREA

Recommended Decision (Partial) and Opportunity to File Written Exceptions on Proposed Amendments to Tentative Marketing Agreement and to Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This decision recommends certain changes in the New York-New Jersey Federal milk marketing order (Order 2), based on industry proposals considered at a public hearing in February 1976. The principal changes would adjust the prices for milk throughout the production area to more nearly reflect the costs incurred by handlers in assembling milk from farms and transporting it to plants for processing. Another change would institute a late-payment charge on overdue payments by handlers to the market administrator to encourage prompt payments for milk. Also, a number of minor changes would be made in the classification of milk according to its use to reflect current marketing practices.

DATE: Comments are due on or before May 11, 1977.

ADDRESS: Comments (6 copies) should be filed with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT:

Willard H. Blanchard, Deputy Director, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202–447–5661.

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding:

Notice of Hearing, Issued January 9, 1976; published January 14, 1976 (41 FR 2092).

Extension of Time for Filing Briefs, Issued April 15, 1976; published April 21, 1976 (41 FR 16660).

PRELIMINARY STATEMENT

Notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreement and order regulating the handling of milk in the New York-New Jersey marketing area, and of the opportunity to file written exceptions thereto. This notice is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

Interested parties may file written exceptions to this decision with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, on or before May 11, 1977. Six copies are required for this proceeding. All written submissions will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order, as amended, were formulated was conducted at New York, New York, on February 17–20, 1976, and at Syracuse, New York, on February 23–26, 1976, pursuant to notice thereof.

The material issues on the record of the hearing relate to:

1. Whether changes should be made in the following provisions for purposes of permitting a more equitable competitive situation, on both an intramarket. and intermarket basis, for Order 2 handlers:
   a. Class I price differential.
   b. Transportation differentials.
   c. Pool transportation credit to handlers for bulk tank milk.
   d. Tank truck service charge.
   e. Direct delivery differential.
2. Whether the classification provisions should be changed with respect to the following:
   a. Milk moved between Order 2 pool plants and plants regulated under an order administered solely by the State of New York.
   b. Bulk milk received at an Order 2 pool plant from a plant regulated under another Federal order.
   c. Milk dumped, disposed of for animal feed, or lost under extraordinary circumstances.
3. Whether the procedure for classifying shrinkage should be changed.
4. Whether the order should provide for charges on overdue accounts.

This decision deals with all issues except issue No. 3. The latter issue is reserved for a later decision.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Modification of transportation allowances.* For the purpose of permitting a more equitable competitive situation for regulated handlers, on both an intermarket and intramarket basis, and to provide a more stable market for producers, the New York-New Jersey order (Order 2) should be amended in the following manner:

The present Class I differential of $2.40 that is applicable at the 201–210 mile zone should be reduced to $2.25.

The transportation differential rate of 1.2 cents per hundredweight for each 10 miles that is now used to adjust the Class I and uniform prices for location should be increased to 1.5 cents for each 10-mile zone more distant than the 201–210 mile zone, and to 1.8 cents for each 10-mile zone less distant than the 201–210 mile zone. With the new base zone differential, this would result in a Class I differential at New York City of $2.61.

The current 10-cent per hundredweight pool transportation credit to handlers on receipts of bulk tank milk allocated to Class II uses should be replaced with a 15-cent pool credit on all farm bulk tank milk received by handlers.

Handlers should be permitted to negotiate with producers or their cooperatives a tank truck service charge of up to 15 cents per hundredweight (now limited to 10 cents) with respect to any farm-to-first plant hauling costs not recovered through the 15-cent pool transportation credit on farm bulk tank milk.

The present 5-cent direct delivery differential should be increased to 15 cents per hundredweight. The differential should continue to be applicable to all milk of producers located within the 1–70 mile zone.

No provision should be made in the order for a "metropolitan transfer credit" or an "upstate fluid differential," as was proposed by several cooperatives, or for pricing milk at the plant where first received, as several handlers urged.

a. *Summary of hearing proposals.* The basic purpose of the hearing was to consider proposals that were designed to improve the competitive situation for Order 2 handlers located in or near the major metropolitan area of the market (New York City and nearby heavily populated areas) who are engaged in the distribution of Class I milk. Witnesses contended that in recent years the cost of hauling milk from farms to plants has increased substantially. They indicated that this has resulted in a significant deterioration in the ability of metropolitan area handlers to compete effectively with handlers in neighboring markets, particularly the Middle Atlantic Federal order market, and with various handlers in the Order 2 market.

With respect to the intermarket competition, witnesses claimed that the adverse situation is attributable largely to the unique procedure for pricing producer milk under Order 2 relative to other orders. It was pointed out that under Order 2 bulk tank milk from producers is priced essentially at the location of the farms where received by handlers. Witnesses alleged that this has caused the burden of the higher hauling costs to fall largely on handlers, including cooperatives operating in a handler capacity, who move the milk from the farms to the major consumption center of the market. The witnesses stressed that in contrast handlers in other markets have not borne the brunt of the increase in hauling costs. They pointed out that under other orders producer milk is priced at the first plant at which it is received. The witnesses claimed that in those cases where the producers deliver their milk directly to the city distributing plants, the higher hauling costs have been absorbed largely by the individual producers rather than by the handlers receiving their milk.

Witnesses contended that the disparity in the cost of milk to handlers under Order 2 and other orders has resulted in a substantial loss of Class I sales by Order 2 handlers to the other markets. They claimed that corrective action is

essential to the long-run interests of producers in the New York-New Jersey market.

With respect to the alleged intramarket competitive problems, it was claimed that the impact of the increased hauling costs on Class I distributors in the major metropolitan area has varied, depending on each distributor's source of milk. Witnesses contended that the metropolitan area handlers who rely on supply plant milk are experiencing much higher procurement costs than those receiving milk at their distributing plants directly from farms. This, they claimed, is because of the costs associated with reloading milk at supply plants and moving it long distances to the metropolitan area, plus using a transportation differential rate under the order that does not reflect actual hauling costs.

Cooperative associations and proprietary handlers offered a number of proposals which they believed would minimize the competitive problems of which they complained. Six major proposals dealing with this issue were made by two principal producer organizations in the market. The basic thrust of the proposals was to shift the assembly and hauling costs for milk from handlers to producers. Various modifications of these proposals were proposed by several proprietary handlers to accommodate their individual operations. A number of other producer groups in the market, including a third major producer organization, opposed any changes in the order relative to this issue.

Two of the six major proposals relate to the recovery of costs associated with picking up farm bulk tank milk and moving it to the first plant of receipt. One proposal would provide handlers with a 15-cent per hundredweight pool credit on all such milk. A 10-cent pool credit currently applies just on Class II bulk tank milk. The other proposal would increase the maximum negotiable tank truck service charge, which is now 10 cents per hundredweight, to 25 cents. Together, these two proposals would make it possible for handlers to recover up to 40 cents per hundredweight of the farm-to-first plant hauling cost for bulk tank milk—15 cents through the pool credit and the remainder through negotiations with the producer or his cooperative.

Proponents supported a pool credit for handlers of farm bulk tank milk as an appropriate mechanism for recovering from producers a portion of the farm-to-plant hauling costs. They maintained that a 15-cent credit would reflect the minimum cost incurred by handlers in picking up bulk tank milk at the farm. They took the view that a pool credit could be easily administered, that it would avoid confusion among producers since it would affect all bulk tank producers uniformily, and that it would contribute to market stability.

Spokesmen for the proposals indicated that for most handlers the 15-cent pool credit would not sufficiently reimburse handlers for the farm-to-plant hauling costs incurred and that additional amounts should be recoverable through a negotiated charge to producers. It was contended that setting the maximum negotiable charge at 25 cents per hundredweight would permit handlers to recover most, if not all, of such costs. Witnesses stated that limiting negotiated deductions for hauling to 25 cents per hundredweight is necessary to ensure that handlers do not negotiate deductions in excess of actual hauling costs. Also, it was claimed that a limit, compared to unlimited deductions, would provide an incentive for handlers to assemble milk in the most efficient manner.

Two other major proposals relate to the recovery of costs for long-haul shipments of bulk milk. One proposal would increase the present 1.2-cent transportation differential rate to 1.5 cents per hundredweight for each 10-mile zone. The other would provide a 25-cent per hundredweight pool credit to handlers on Class I milk originating beyond the 1–140 mile zone and transferred in bulk, directly from farms or from plants, to plants located within the 1–65 mile zone. In combination, these proposals are intended to permit handlers to recover the average cost of shipping bulk milk from country locations to distributing plants in the major metropolitan areas for Class I use.

In support of these proposals, witnesses claimed that the long-distance hauling rates now being charged in the market reflect a "variable" hauling cost of 1.8 cents per hundredweight per 10 miles, and "fixed" hauling costs totaling 19 cents per hundredweight.[1] Although supporting the 1.8-cent variable rate, proponents indicated that their proposal was couched in terms of a 1.5-cent variable rate since this is the rate commonly reflected in other orders. For a 200-mile shipment, such as from the base zone to the New York City area, witnesses indicated that a 1.5-cent transportation differential rate would cover 30 cents of the average 55-cent actual hauling cost for this distance.

Proponents contended that the total cost of long-distance shipments, and not just the variable cost, should be reflected in the order's pricing provisions if the metropolitan area handlers are to be competitive with handlers in other markets. Accordingly, it was proposed that handlers be given a 25-cent "metropolitan transfer credit" for the purpose of covering that portion of the 55-cent hauling cost for a 200-mile shipment not reflected in the adjustment of prices for location, i.e., 25 cents. The 25-cent credit would cover the remaining 6 cents of the actual 36-cent variable cost for 200 miles not covered by the 1.5-cent transportation differential rate, plus the 19-cent fixed cost. Proponents noted that if the zone differentials were to be established at 1.8 cents per 10 miles a metropolitan transfer credit reflecting only the 19-cent fixed cost would be appropriate.

At the hearing, proponents modified their initial proposal to provide for a "feathering" of the metropolitan transfer credit. They suggested that a credit of 10 cents per hundredweight be given for milk transferred to metropolitan area plants from the 91–100 mile zone, 15 cents for the 101–120 mile zone, 20 cents for the 121–140 mile zone, and 25 cents for milk shipped from more distant areas.

Another of the major proposals would increase the present 5-cent direct delivery differential to 10 cents per hundredweight and would extend the zone of application to include all pool milk received from farms within the 1–110 mile zone. Witnesses indicated that this proposed change is intended to more nearly equate the cost of nearby milk moved directly from farms to plants in the major metropolitan area for Class I use with the cost of Class I milk obtained by handlers from country plants. It was claimed that the handler receiving direct-ship milk avoids reloading costs that attach to supply plant milk. It was suggested that in view of current reloading costs the direct delivery differential perhaps should be as much as 13 cents per hundredweight. A witness also indicated that a larger direct delivery differential payable to the nearby producers would partially offset the incentive that such producers now have for shifting to neighboring markets where higher blend prices are being paid.

The sixth major proposal would require distributing plants located outside the 1–65 mile zone to pay to the pool an "upstate fluid differential" of 10 cents per hundredweight on all Class I milk received from farms located outside the 1–110 mile zone. It was indicated that such distributing plants normally receive milk directly from producers and thus do not experience the reloading costs incurred by many of the distributors in the major metropolitan area of the market who rely on supply plant milk. The upstate fluid differential, it was claimed, would tend to equalize the procurement costs of those handlers in the outlying areas of the market with the cost incurred by competing handlers in the major metropolitan area.

At the hearing and in their briefs, proprietary handlers took varying positions with respect to the six major proposals of the producer groups. As would be expected, handlers generally supported those proposals—such as the 15-cent pool credit on bulk tank milk and the 25-cent negotiable tank truck service charge—that would lower their procurement costs and thus enhance their competitive position in the retail market. Some preference was expressed, however, for either holding the nego-

[1] "Fixed" hauling costs are the costs associated with the ownership of the trucking equipment and any related maintenance facilities. Such costs include depreciation, licenses, interest, taxes and insurance. "Variable" hauling costs are the costs associated with the over-the-road operation of the trucking equipment, such as gas, tires and repairs. The estimates of fixed and variable costs that were placed in the record were determined from a regression analysis of various hauling rates applicable in the New York-New Jersey market.

V4269 APR 11 77 UMI

tiable charge at the present maximum level of 10 cents or eliminating the charge and increasing the pool transportation credit to something more than the 15 cents proposed by cooperatives. It was claimed that negotiable charges are an unsatisfactory arrangement since not all handlers in the market negotiate such charges, thus causing disparate procurement costs among handlers, and because producers resist such charges.

Handlers also expressed support for a higher transportation differential rate under the order, although they were not in agreement on the specific rate. Some handlers urged the 1.8-cent rate proposed by cooperatives, while others favored a 1.5-cent rate on the basis that any higher rate would be out of line with location adjustment rates generally applicable under other Federal orders.

Several handlers opposed the adoption of an "upstate fluid differential" on the basis that the affected distributing plants were having no difficulties in attracting adequate milk supplies and that the differential thus would unjustifiably increase the cost of Class I milk at such plants. Opposition was expressed also against the use of a direct delivery differential. It was claimed that the differential adds to the misalignment of milk costs between Order 2 handlers and handlers in the Middle Atlantic Order 4 market.

There was considerable disagreement among handlers regarding the cooperatives' proposed "metropolitan transfer credit." This stemmed largely from the varying impact that such a credit would have on different handlers because of their location or method of operation. The various handler positions included having no such credit, having it apply to transfers of both packaged and bulk milk, "feathering" the credit, precluding the movement of any milk subject to the credit back into the outlying areas of the market, and reducing the Class I price to reflect transportation costs rather than applying a credit.

Several handlers took the position that the problems of intermarket competition arising from unequal procurement costs could best be resolved by replacing the Order 2 farm point pricing arrangement with the plant pricing concept used under the other orders. In this regard, one group of handlers proposed that milk from a producer be priced at the pool plant located nearest the producer's farm. A corollary proposal would permit handlers to negotiate with producers or their cooperatives a tank truck service charge of up to 30 cents per hundredweight.

Another handler, who operates a distributing plant in northern New Jersey, urged that milk from producers be priced at the first plant where it is received, as under the Middle Atlantic order. According to the handler's spokesman, such action, along with an increase in the transportation differential rate to 1.8 cents per 10 miles, would effectively deal with three major problems that he identified. The first was the misalignment of costs for Class I milk between Orders 2 and 4. He contended that the handler he was representing has had to lower prices to remain competitive with Order 4 handlers who distribute milk in the North Jersey area. Such reductions, he claimed, have spread to other areas of the Order 2 market and thus have resulted in chaotic conditions, reduced margins, elimination of profits, reduced volume, and higher unit costs for Order 2 plants. These conditions occurred, in his view, because the differing pricing provisions of the two orders have resulted in unequal changes in the cost of milk to handlers during the time of rapid inflation of milk transportation and handling costs.

A second problem that would be alleviated under plant pricing, according to the witness, is that inflation also has caused a misalignment of Class I prices within the Order 2 market. In this connection, he held that intramarket alignment should be achieved by fixing the basic Class I price at the major consumption area of the market and then reducing the price at outlying areas of the market to reflect the costs of hauling milk to the consumption center from country plants.

Third, the spokesman contended that inflation will continue, with milk transportation and handling costs thus increasing further in the future. Such future economic conditions, he claimed, would not be recognized under the cooperatives' proposals, and the adoption of the proposals thus would not prevent future price alignment problems.

Strong opposition to any changes in the order's transportation allowances was indicated by a spokesman for a number of cooperatives, including one of the principal cooperatives in the market. The spokesman expressed the cooperatives' view that changing the order to impose additional transportation costs on producers, either directly through negotiable deductions or indirectly through pool credits for handlers, would undermine the principle of farm point pricing in this market and would lower returns to producers. The spokesman stressed the cooperatives' basic position that the costs of moving bulk milk from farms to plants are marketing costs that should be borne by the market and not by producers.

These cooperatives opposed any order changes that would provide for pricing milk at plant locations rather than at the farm. It was contended that such a change would subject producers and handlers alike to the abuses and administrative difficulties that prevailed prior to the adoption of farm point pricing. The cooperatives also opposed increasing the transportation differential rate from the present level of 1.2 cents per 10 miles on the basis that the data submitted by proponents to support the proposed increase were based on hauling charges higher than those that generally prevail in the market. The proposed metropolitan transfer credit also was opposed on the basis that it would impose an arbitrary cost on the pool and thus on producers. The cooperatives' spokesman also expressed the view that there are potential inequities in the application of the proposals with regard to the appropriate zone or zones to which the credit would apply. Moreover, the cooperatives held that order provisions covering only the variable costs of transportation, as provided in most orders, tend to provide a degree of restraint on unneeded movements of milk from supply plants and should be continued.

The spokesman for the opposing cooperatives contended that the proposed package of changes may not, in fact, improve the alignment of Class I between Order 2 market and surrounding markets. He indicated that any savings in the cost of Class I milk that handlers might gain from the proposals would be used by labor unions as a basis for bargaining for higher benefits. Thus, he claimed, the handlers would not be able to pass the full Class I cost savings on to the marketplace, with the result that their ability to regain or expand Class I sales, which was the alleged purpose of the proposals, would be lost or greatly diminished. It was indicated that the risk of producers receiving lower returns without accomplishing the intent of the proposals is not one that the opposing cooperatives are willing to take.

Thirty-six individual dairy farm operators testified during the course of the hearing. Only two indicated support for any of the proposals that would result in dairy farmers paying a higher portion of the milk transportation costs. The others strongly opposed such proposals. They claimed that dairy farmers cannot afford to pay more for milk hauling, and that handlers should bear the costs of transportation since the milk is under their control once it is picked up at the farm.

Spokesmen for two handlers also expressed opposition to any actions that would reduce returns to producers. Their concern was that such actions would jeopardize their producer milk supplies because dairy farmers would seek higher returns by shifting their milk to outlets in other markets.

It should be noted that two proposals included in the hearing notice were abandoned by the proponent, and no other support was offered at the hearing for such proposals. One would allow handlers to recover the full farm-to-first plant hauling cost on bulk tank milk if authorized by the producer. The other proposal would increase the transportation differential rate from 1.2 cents to 1.7 cents per each 10-mile zone.

b. *The need for order changes.* It is clear that the present provisions of the New York-New Jersey order are not compatible with current marketing conditions. Major increases in the costs of assembling and transporting milk during the last several years have occurred without corresponding changes in the various transportation allowances under the order. As a result, various handlers under Order 2 are experiencing a deteriorating competitive situation in the Class I (fluid milk) market. Corrective action is essential if the order is to fulfill its

purpose of providing stable and orderly marketing conditions for producers and for the handlers through whom they market their milk.

A brief description of the New York-New Jersey market will help place the issue at hand in a better perspective. By any measure, the Order 2 market may be considered as large. In 1975, approximately 20,000 dairy farmers supplied about 786 million pounds of milk monthly for a marketing area population of more than 20 million persons.[2] Although the marketing area includes 39 counties and portions of 12 other counties in New York and New Jersey, nearly 80 percent of the population is concentrated in a relatively small area comprised of New York City and adjacent areas in New York and New Jersey. This heavily populated area extends outward roughly 60 to 70 miles from New York City, and constitutes the major milk consumption center in the Order 2 market.

Besides the major New York City metropolitan area, there are several other relatively large consumption centers at various locations in the New York portion of the marketing area. These include Elmira (metropolitan area population in 1975, 100,100), Binghamton (population 266,700), the Albany-Schenectady-Troy area (population 799,000), Syracuse (population 647,800), and the Utica-Rome area (population 334,900), all of which are located in the outlying production areas of the market. Milk processors that operate in these outlying areas compete with handlers in the major metropolitan area for milk supplies.

Processing plants, where milk is pasteurized and bottled, also are concentrated in the major metropolitan area. In March 1975, there were 28 processing plants located in the 1–10 mile zone. Within the 1–70 mile zone, 44 plants processed and distributed fluid milk, which was over half of the fluid milk processing plants on the Order 2 market. These 44 plants received from farms or other plants 81 percent of the producer milk utilized in the market for fluid purposes that month.

As would be expected, country supply plants are located primarily in the more distant areas of the milkshed. Only 7 such plants were located within 140 miles of New York City in March 1975, whereas 47 were located beyond 140 miles. Of these, 37 were located in the 141–240 mile zone, which gives an indication of the distance that milk must be moved in supplying the fluid milk requirements of the processors in the New York City area.

Dairy farmers who supply milk for the Order 2 market are widely dispersed over a large area. In March 1975, milk associated with this market was produced in the States of New York, New Jersey, Pennsylvania, and Maryland. Some producers' farms are located more than 400 miles from New York City.

Most of the Order 2 milk supply (more than 93 percent in 1975) originates in areas beyond the market's 1–100 mile zone. Practically all of the distant milk that is used in Class I at the metropolitan area distributing plants is first assembled at country plants and then hauled to the distributing plants in large over-the-road trucks. Metropolitan area plants also receive some milk directly from farms, most of which are located in the nearby production areas. In March 1975, 19 percent of the milk received for fluid use at these distributing plants moved directly from farms to such plants. The remainder was obtained through country plants.

Two basic concerns exist. One is the disparity in milk costs between those metropolitan area handlers using supply plant milk and those using direct-ship milk for meeting their Class I needs. The other concern is the disparity in Class I milk costs between metropolitan area handlers under Order 2 and handlers regulated under the Middle Atlantic order. In both cases, the increased assembly and transportation costs have seriously distorted the competitive relationships among the handlers involved. This may be shown through a brief description of the pricing arrangements for Class I milk that are applicable to such handlers.

Under Order 2, milk received from bulk tank producers is priced essentially at the location of the farm, with such pricing commonly referred to as "farm point pricing." Under this arrangement, all milk that originates in the same township is priced at the zone price applicable to that township. For pricing purposes, the township's location is based on the point in the township that is nearest the market's major consumption center. Such pricing applies to about 97 percent of the producer milk on the market. The remainder of the milk is shipped in cans and is priced at the location of the plant at which the milk is first received. Unless indicated otherwise, the discussion on transportation allowances will be in terms of farm bulk tank milk.

The Class I prices at the various farm locations vary basically according to the nearness of the farms to New York City. For example, the Class I price at farms in the 101–110 mile zone is 12 cents per hundredweight less than the Class I price at New York City. For farms in the 201–210 mile zone, the Class I price is 24 cents less. Prices are adjusted for location by the order's transportation differentials, which currently apply at a rate of 1.2 cents for each 10-mile zone. This rate is intended to reflect the "variable" cost of hauling milk over long distances.

The metropolitan area handler normally pays most of the costs associated with the collection of the milk at the farms and its movement to his processing plant. This is so whether he moves the milk himself or whether another handler, such as a cooperative, performs this service, since the latter customarily attempts to pass on all related costs to the processing handler. The current order does permit hauling deductions from producer payments of up to 10 cents per hundredweight on all farm bulk tank milk, if authorized by the producer or his cooperative association. In December 1975, authorized deductions were being made for about 75 percent of the bulk tank producers, in most cases probably at the maximum rate.[3] Thus, the basic cost of Class I milk to metropolitan area handlers is the Class I price applicable at the farm (township) location plus the cost of moving the milk, either directly or through a supply plant, to the processing plant, less any hauling deduction. Although additional handling charges for other services usually apply in the case of milk received from cooperatives, such charges are disregarded for purposes of this discussion.

An additional cost applies in the case of those handlers who receive milk from forms located within the 1–70 mile zone. The order provides that handlers shall pay producers a so-called direct delivery differential of 5 cents per hundredweight on all such milk, whether in bulk or in cans.

It is readily apparent that under this pricing arrangement any increases in assembly and transportation costs will have a direct impact on the procurement costs of metropolitan area handlers. Because milk is priced at the farm location, and because the transportation allowances under the order are fixed, any additional assembly and transfer costs must be borne by the processing handler. Actually, even prior to the recent cost increases, the present order provisions did not permit metropolitan area handlers to recover through various price allowances the full cost of getting milk from the farm to their processing plants for Class I use. Although the farm-to-first plant hauling costs were higher, negotiable hauling deductions have been limited to 10 cents.[4] In addition, when the present Class I transportation differentials were adopted, the total cost of hauling milk over a 200-mile distance was about 34 cents per hundredweight.[5] Only 24 cents, which was considered to be the "variable" cost for this distance, was reflected in the transportation differentials. Also, reloading costs at supply plants have not been reflected in the price structure of the order except as they might be offset from a competitive standpoint by the direct delivery differential. Thus, the problem of recovering procurement costs has existed for some time. The recent increases in hauling

V 4 2 6 9 APR 11 7 7 UMI

costs, however, have greatly aggravated this problem for handlers.

The average farm-to-first plant hauling cost for bulk tank milk is now 30 cents per hundredweight. The maximum recovery of such costs for milk used in Class I is 10 cents, which must be negotiated with the producer or his cooperative. Until recently, relatively few deductions were being authorized. The supply plant transfer costs are now averaging 12 cents per hundredweight. These costs are borne by the metropolitan area handler who receives such milk. The only offsetting factor is the 5-cent direct delivery differential applicable to nearby direct-ship milk. The average cost of hauling milk between plants is 55 cents per hundredweight for a 200-mile distance. The order establishes a difference in Class I prices for this distance of only 24 cents. (These various costs will be described in greater detail at a later point in the decision.)

Metropolitan area handlers must either absorb these various costs not recoverable from producers through the order or pass them on to consumers. To the extent that competitive conditions permit, handlers can be expected to resort to the latter procedure. This point, however, leads to the crux of the entire issue.

Because of differences in their procurement arrangements, not all Order 2 handlers in the major metropolitan area experience the same raw milk costs. Such costs are substantially less for those handlers using nearby direct-ship milk than for those using supply plant milk. The handlers using direct-ship milk thus are in a favored position in competing for sales outlets.

On the basis of cost data presented at the hearing, a comparison of the average cost of Class I milk to metropolitan area handlers from various sources may be made. For this purpose, the costs are expressed in terms of the Class I differential plus other costs, rather than in terms of the Class I price (i.e., the basic formula price for the second preceding month plus the Class I differential) plus other costs. The exclusion of the basic formula price does not affect the validity of the cost comparisons (for either intramarket or intermarket purposes) since this cost factor is the same for all handlers.

Table 1 sets forth an example of the different procurement costs incurred by certain handlers. The average differential cost to a New York City handler for Class I bulk tank milk obtained directly from farms in the 51–60 mile zone is $2.98 per hundredweight. This consists of the present Class I differential of $2.58 that is applicable at the township pricing points in that zone, a 35-cent farm-to-plant hauling cost, and the 5-cent direct delivery differential that the handler must pay to the producers. By comparison, the average differential cost for Class I milk obtained by a city handler from a supply plant located in the 201–210 mile zone is $3.37 per hundredweight. The cost make-up in this case includes a base zone Class I differential of $2.40, a farm-to-first plant hauling cost of 30 cents, a supply plant transfer cost of 12 cents, and a long-distance hauling cost of 55 cents. In either situation, the cost of such milk can be reduced by 10 cents per hundredweight if the maximum hauling deduction is authorized by producers.

TABLE 1.—*Examples of Procurement Costs Incurred by New York City Handlers for Class I Bulk Tank Milk Obtained from Selected Sources (excluding basic formula price)*

[In dollars per hundredweight]

	Direct-ship from 51–60 mile zone	Supply plant in 201–210 mile zone
Class I differential at zone	2.58	2.40
Farm-to-first plant hauling cost	.35	.30
Supply plant transfer cost		.12
Over-the-road hauling cost		.55
Direct delivery differential	.05	
Total cost	2.98	3.37
Authorized hauling deduction	−.10	−.10
Net cost	2.88	3.27

Handlers obtaining milk from locations in the market different from those shown in Table 1 are experiencing slightly different procurement costs. However, the examples portrayed in Table 1 are representative of the general cost situation being faced by city handlers.

Although this difference between the cost of direct-ship milk and supply plant milk supposedly would induce handlers to rely more on direct-ship milk, this generally has not been the case. This may be attributed to the fact that metropolitan area distributors must obtain substantial quantities of milk from distant production areas since nearby milk supplies are inadequate. It is not feasible in most cases to move milk directly from farms in the distant areas to metropolitan area plants without any reloading. Generally, the trucks that must be used for picking up bulk tank milk at the farms are too small for economical long-distance hauling. Also, haulers who assemble milk from farms are limited in the distance they can move the milk since their trucks must be available each day for picking up milk at farms. Since Order 2 handlers currently must pay most of the cost of assembling and transporting milk, it must be presumed that the handlers have been using the most economical procurement arrangements.

A comparable competitive problem exists for Order 2 handlers relative to Order 4 handlers in the Middle Atlantic market. A number of Order 4 handlers in the Philadelphia and southern New Jersey area distribute Class I milk in the northern New Jersey portion of the Order 2 market in competition with Order 2 metropolitan area handlers. The Order 4 Class I differential, which applies at the plant where the milk is first received, is $2.78 at Philadelphia. Handlers in the Philadelphia and South Jersey area also must pay producers a direct delivery differential of 6 cents. Thus, the differential cost of Class I milk under Order 4 for these handlers is $2.84 per hundredweight.

From the data in Table 1, it may be seen that the Order 2 metropolitan area handler using supply plant milk is in a relatively poor competitive posture in terms of his raw milk costs. Assuming that the 10-cent negotiable hauling deduction is being made, his milk cost is averaging 43 cents per hundredweight greater than the cost of milk for the Order 4 handlers. The Order 2 handler using direct-ship milk is in a much better position relative to Order 4 handlers, with the Order 2 cost averaging only 4 cents per hundredweight more. However, it should be noted that in terms of the class prices applicable at the two cities, which are about 100 miles apart, the Class I price at New York City is 14 cents lower than the Class I price at Philadelphia. Thus, the 4-cent cost difference, although appearing to be reasonably satisfactory, does not properly reflect the full cost difference that has been intended under the present pricing provisions.

Because of their lower raw milk costs, Order 4 handlers are in a position to establish lower resale prices for fluid milk than their competitors in the Order 2 market, particularly those metropolitan area handlers using supply plant milk. Thus, as in the intramarket competitive situation described earlier, Order 2 handlers using supply plant milk are, in this situation also, seriously disadvantaged in competing for fluid milk sales. As noted earlier, about 80 percent of the Class I milk used by Order 2 metropolitan area handlers is received from supply plants.

Although the record provides no specific data regarding hauling costs in the Order 4 market, it may be presumed that the increased costs experienced by haulers of milk in the Order 2 market have been experienced in the Middle Atlantic market as well. The inflationary trend in the economy that is associated with such increases has been a national phenomenon. However, handlers in the two markets have been affected in significantly different ways by these cost increases. This is because of the differences in the pricing arrangements and procurement methods in the two markets.

In the Order 4 market, producer milk is priced at the location of the plant where the milk is first received. Since most of the milk is moved to city processing plants directly from farms, most producers receive the city price for their milk. Under this pricing arrangement, however, the cost of getting the milk to the city is borne by the producers. Any increases in hauling costs likewise are absorbed by producers. Handlers' procurement costs are not affected by the hauling costs.

In the Order 2 market, the current pricing arrangement and the extensive reliance on supply plants have caused the burden of increased hauling costs to fall largely on handlers. The higher hauling costs have been reflected not in lower returns at the farm level, as in the case of the Order 4 market, but in higher costs for milk at the distribution center. As a result, Order 2 handlers in the metropolitan area are not able to compete on a comparable cost basis with handlers in the nearby Middle Atlantic market for Class I sales.

As already noted, there is substantial competition between Order 2 and Order 4 handlers for Class I sales in the North Jersey portion of the Order 2 market. This is a relatively heavily populated area located between New York City and Philadelphia. Total consumption of fluid milk products in this area in 1975 was estimated to be nearly 1.4 billion pounds, which was equivalent to 29 percent of the Order 2 Class I milk that year.

Data presented at the hearing indicate that handlers under other orders have substantially increased their Class I dispositions in North Jersey over the past several years. In 1969, such sales amounted to 194 million pounds. A preliminary estimate of such sales in 1975 was 349 million pounds, an increase of 79 percent. In 1975, such dispositions of fluid milk products by other order handlers comprised 25 percent of the estimated fluid milk consumption in North Jersey. This was up from 13 percent in 1969. It should be noted that total consumption in this area declined by 7.5 percent during this 1969–1975 period. Although the record does not indicate how many other orders were involved in these intermarket sales, data for 1973, 1974 and 1975 indicate that most of the other order sales were by Order 4 handlers. Because North Jersey adjoins the Middle Atlantic marketing area, it is reasonable to presume that most of the other order sales in this area in earlier years also were by such handlers.

This major shift of Class I sales in North Jersey from Order 2 handlers to Order 4 handlers cannot be attributed entirely to the rather significant advantage that Order 4 handlers have on their raw milk costs. Nevertheless, it is reasonable to conclude that this was a major contributing factor in the changing sales pattern for this area.

Although the increased hauling costs have been absorbed by handlers rather than producers, Order 2 producers nevertheless are having their returns reduced as a result of the shift in Class I sales in North Jersey to Order 4 handlers. This is because the lost sales mean less milk being used in Class I, which in turn results in lower blend prices.

The discussion on the need for order changes has been limited thus far to the impact of increased hauling costs on the cost of Class I milk. Because of the order's pricing system, the competitive position of those handlers processing Class II milk also is affected by the higher transportation costs. Although much less attention was focused on this issue at the hearing, handlers of Class II milk are always very much concerned that their cost of raw milk be comparable with that of competing processors. This is particularly important for processors of butter, nonfat dry milk and hard cheese. Such products are sold in a national market and the prices of these products are fairly uniform across the country. Thus, processors have little opportunity to pass on to the buyers of these products any procurement costs not generally experienced by all Class II processors.

Since most of the Class II milk is processed at country plants, the basic concern of handlers is the cost of moving Class II milk from the farms to these plants. Such cost is now averaging 30 cents per hundredweight. The order permits a maximum recovery from producers of 20 cents As indicated, handlers may negotiate hauling deductions of up to 10 cents per hundredweight on all bulk tank milk. In addition, handlers receive a 10-cent transportation credit form the pool on all receipts of bulk tank milk used in Class II. Based on average costs, Class II processors thus must absorb at least 10 cents of the farm-to-plant hauling costs.

In conclusion, the record amply demonstrates that the pricing provisions of the order are not in harmony with the current market situation. Such provisions do not reflect the differences in value that milk currently has to handlers at various locations and under various handling arrangements. The value that the order attaches to milk affects, of course, the degree to which Order 2 handlers are able to compete effectively with each other and with handlers regulated under other orders. Thus, revision of the Order 2 pricing provisions is essential if orderly and stable marketing conditions for handlers and producers in the New York-New Jersey market are to exist.

A cooperative association urged in its brief that a decision on the proposals under consideration be delayed to permit further study of the existing marketing problems. The cooperative's position was that the only guaranteed result of the proposals would be a reduction in the prices that producers receive for their milk. This would be adverse to producers, it was claimed, in view of spiraling milk production costs.

A similar delay was requested in its brief by a County Board of Agriculture, which expressed opposition to the proposals "until such time that further study and better proposals (may) be made so that the farmers' blend price is not lowered to subsidize the cost of milk handling" by cooperatives. It was also claimed that the hearing was called without farmers having adequate time to determine the effect of the proposals.

A decision in this proceeding should not be delayed pending further study of the issues and the development of other proposals. The record indicates that there are significant marketing problems that require amendments to the order. The record provides an adequate basis for the proposed amendments adopted herein and any further delay in their implementation would not carry out the purposes of the Act.

c. *Order modifications.* As outlined earlier, hearing witnesses supported two basic approaches to resolving the competitive problems of Order 2 handlers. One is the continuation of farm point pricing plus a number of changes in the order's transportation allowances. The other approach is the replacement of farm point pricing with plant pricing and a revision of the transportation differentials.

Farm point pricing has been used as the basis for pricing milk in the New York-New Jersey market since 1961. In the absence of a compelling need for the use of plant pricing, it appears reasonable to recognize the broad support by producers for farm point pricing. As noted, support for plant pricing was limited to several proprietary handlers. Therefore, it is concluded that milk received from producers should continue to be priced under the order at the township location of their farms.

The continued use of farm point pricing must be accompanied, however, with major changes in the order's pricing provisions if the present disparity in procurement costs for various metropolitan area handlers is to be minimized. In the Order 2 market, the recent increases in assembly and transportation costs have not been passed back to producers as in the Middle Atlantic market where milk is priced at the plant of first receipt. Thus, relative to the milk received by Order 4 handlers, the milk of Order 2 producers is over-priced in terms of its value to Order 2 handlers in the market's major metropolitan area. Also, within the Order 2 market, procurement costs for supply plant milk have increased much more than for milk received directly from farms. Such increases have been borne by the metropolitan area handlers.

Thus, relative to the direct-ship milk, supply plant milk is over-priced in terms of its value to Order 2 metropolitan area handlers. Accordingly, in recognition of both situations, the price of milk throughout the Order 2 milkshed should be reduced to reflect the decline in the value of such milk to handlers in the metropolitan area. The order changes considered necessary to implement this concept are discussed under the following subheadings.

Pool transportation credit and tank truck service charge. The current 10-cent per hundredweight pool transportation credit to handlers of Class II bulk tank milk should be replaced with a 15-cent pool credit on all farm bulk tank milk received by handlers. In addition, handlers should be permitted to negotiate with producers or their cooperatives a tank truck charge of up to 15 cents per hundredweight, rather than 10 cents as at present, with respect to any farm-to-first plant hauling costs not recovered through the pool transportation credit.

Under farm point pricing, handlers must have an opportunity to recover the farm-to-first plant hauling costs for bulk tank milk if they are to be competitive with handlers in other markets on their sales of Class I and Class II products. Presently, the recovery of such costs is limited to the 10-cent negotiable haul-

V 42 69 APR 11 77 UMI

ing deduction, plus or minus whatever difference there is between the class prices applicable at the farm (township) pricing point and the plant. In the case of Class II milk, handlers recover an additional 10 cents per hundredweight through a pool credit. Although these provisions were intended to provide handlers with sufficient flexibility in pricing to recove farm-to-first plant assembly and hauling costs, the record indicates that under current conditions handlers are not able to do so.

One of the proponent cooperatives presented data showing the average costs incurred by the cooperative in hauling bulk milk from members' farms to different types of plants during the 12-month period of November 1974 through October 1975. Since the major portion of this milk was hauled by contract haulers, the data reflect actual hauling charges paid by the cooperative to haulers. About 2.5 billion pounds of milk were hauled, which represented 27 percent of the total producer milk on the market during that period.

For the 12-month period, the cooperative's average cost for picking up farm bulk tank milk and delivering it to 7 country reload stations was 26 cents per hundredweight. The average cost for deliveries to the cooperative's 5 manufacturing plants was 29 cents. The average hauling cost for milk moved directly from farms to to 18 distributing plants of other handlers was 33 cents, while the cost for similar deliveries to 20 manufacturing plants of other handlers averaged 28 cents. The 12-month weighted average cost of hauling milk to all such plants was 29 cents. For the last four months of this 12-month period, the average monthly costs ranged from 29 to 31 cents per hundredweight.

Several proprietary handlers also presented data on farm-to-plant hauling costs. Such costs ranged from 22 cents to 70 cents per hundredweight, with most falling between 25 cents and 32 cents. These data reflect similar ranges of hauling costs for both handlers and the proponent cooperative.

It is readily apparent that under the present order provisions handlers are not able to recover all of their farm-to-first plant hauling costs. Although such costs vary among handlers, it is reasonable to conclude that such costs average, as proponents contend, about 30 cents per hundredweight. As indicated, the recovery of hauling costs is limited under the order essentially to 10 cents on Class I milk and 20 cents on Class II milk. Relatively limited amounts may be recovered through the transportation differentials if the milk is moved from farms in one price zone to plants in a higher price zone.

The order provisions should reflect the costs that handlers incur in assembling milk from farms and transporting it to the plant of first receipt. Accordingly, the cooperatives' proposed 15-cent pool credit on all receipts of farm bulk tank milk should be adopted. As noted, a pool credit is now applicable to bulk tank milk used in Class II. The application of this procedure to all bulk tank milk would merely extend a method for recovering hauling costs that appears to be operating satisfactorily in this market. This revised procedure will tend to place handlers in a more comparable competitive position relative to both their intramarket and intermarket sales.

The record does not indicate that a pool credit of 15 cents per hundredweight will result in handlers being over-compensated for hauling costs that they incur. Minimum farm-to-first plant hauling costs were described as being at least this amount. The hauling cost data referred to earlier indicate that charges to the cooperative by contract haulers in October 1975, a month for which detailed data were presented, were not less than 17 cents per hundredweight. There may be an occasion, of course, where a handler, in order to hold his milk supply, may not wish to pass his hauling costs back to his producers. Although the pool credit would still apply, there would be nothing to preclude a handler from making off-setting over-order payments to his producers.

As envisioned by the proponent producer groups, the transportation credit on bulk tank milk would be applied in such a way that it would result in a lower blend price not only for bulk tank shippers but for can shippers as well. Although the present pool credit on Class II bulk tank milk is applied in this manner, this procedure should not be used under the pricing changes adopted herein. Can shippers, whose milk is priced at the plant to which it is delivered, normally pay the farm-to-plant hauling costs themselves. When their blend price is reduced because of the pool transportation credit, they in effect are also paying a portion of the farm-to-plant hauling costs on bulk tank milk as well. Since only about 3 percent of the Order 2 producer milk is now shipped in cans, about 14.5 cents of the 15-cent transportation credit would, under the cooperatives' proposal, be passed back to bulk tank shippers through the lower blend price. Nevertheless, the can shippers would experience the same 14.5-cent blend price reduction. Although the record reflects a view that can shippers should subsidize the cost of getting bulk tank milk from farms to plants, the record does not provide a reasonable basis for this position.

Most handlers will incur farm-to-first plant hauling costs in excess of the 15 cents that they would recover through the transportation credit on bulk tank milk. As indicated, the average cost is 30 cents per hundredweight. Handlers need to have the opportunity to recover at least some of these additional costs if the milk is to be competitive in the marketplace. Thus, they should be permitted to negotiate with a producer or his cooperative a tank truck service charge of up to 15 cents per hundredweight with respect to any farm-to-plant hauling costs not recovered through the 15-cent pool credit.

Numerous factors affect the cost of farm-to-plant hauling. These include the distance involved, terrain, types and condition of roads, weight limits on roads and bridges, volume of milk picked up at each farm, and size of tank truck used (often a function of the other factors). Thus, it is in the interest of both handlers and producers that the order provide some flexibility in pricing arrangements that reflects the varying conditions that affect the cost of collecting and hauling milk from farms to plants. Because of the relatively higher assembly costs involved, small producers, or those in somewhat isolated locations, for example, may find it necessary to authorize hauling deductions in order to be assured of continued tank truck service. Others may find handlers willing to absorb some of the farm-to-plant hauling in order to maintain conveniently located sources of supply. Such flexibility is provided in the present order provisions and should be continued.

The negotiable hauling deduction should be limited to 15 cents per hundredweight rather than 25 cents as proposed by cooperatives. In some cases, of course, farm-to-plant hauling costs will exceed the 30 cents that handlers would be permitted to recover through the pool credit and negotiable hauling deduction. However, the imposed limit recognizes that handlers can recover part of the hauling cost through the difference in zone prices when milk is procured from locations more distant from the city than their plant. Also, the limit will tend to encourage handlers to move milk as efficiently as possible.

A brief from certain handlers requested the elimination of the order provision that allows a cooperative to authorize hauling deductions on behalf of its members. The handlers contended that the intent of the hearing proposals is to provide more comparable procurement costs among competing handlers, which would be achieved in part by permitting handlers to negotiate with producers to recover a portion of the hauling cost. The handlers indicated that this goal would not necessarily be achieved if cooperatives can act on behalf of their members and thus, as an organization, preclude the recovery of hauling costs by handlers that producers acting individually might be willing to authorize.

This request, although related to the issues under consideration, goes somewhat beyond the scope of the evidence presented on the basic issues. Any order change of this nature should be based on testimony directly related to this point. Accordingly, the request is denied.

Transportation differentials and Class I price differential. The transportation differential rate of 1.2 cents per hundredweight for each 10 miles that is now used to adjust the Class I and uniform prices for location should be increased to 1.5 cents for each 10-mile zone more distant than the 201–210 mile zone and to 1.8 cents for each 10-mile zone less distant than the 201–210 mile zone. Also, the present Class I differential of $2.40 that is applicable at the 201–210 mile zone should be reduced to $2.25.

The combination of the pool transportation credit and tank truck service charge in itself will not place metropolitan area handlers in a comparable position with Order 4 handlers relative to their cost of Class I milk. As indicated, most of the milk in the Middle Atlantic market moves directly from farms to the city distributing plants, with producers paying the hauling costs. In the Order 2 market, about 80 percent of the milk received by the metropolitan area handlers for fluid use moves through supply plants. The costs of transferring this milk at supply plants and hauling it to the metropolitan area are borne by the distributors. Thus, comparable procurement costs for Order 2 and Order 4 handlers are possible only if the differences between the Class I prices at supply plants and at the distributing plants reflect the full cost of obtaining supply plant milk. Presently, such price differences under the order fall considerably short of this.

The proponent cooperative that presented data on farm-to-plant hauling costs also submitted data regarding its cost experience for 7 country reload stations which it operated. During the 12-month period of November 1974 through October 1975, over 597 million pounds of farm bulk tank milk were received at these stations and reloaded onto over-the-road tankers for shipment to other plants. No milk was received in cans, nor was there any milk processing at such facilities. The average operating costs at the individual plants ranged from 8.5 cents (84.6 million pounds of receipts) to 21 cents (60.3 million pounds) for this period. For all plants, the weighted average cost was 12 cents per hundredweight. Thus, on this basis, it is presumed that metropolitan area handlers must pay an average of 12 cents per hundredweight on supply plant milk to cover the cost of operating the transfer facilities.

The same cooperative also presented data regarding long-distance hauling rates that were applicable to interplant movements of milk. The hauling rates were those being charged by a major commercial hauler for transporting milk from 14 country plants to distributing plants in Queens, Nassau, Suffolk and Westchester Counties in New York State. The country plant locations varied from the 151–160 mile zone to the 391–400 mile zone. The rates were applicable to minimum loads of 49,000 pounds of milk. The cooperative's witness indicated that from time to time the cooperative had used the hauler's services for moving milk to the metropolitan area from these various country locations. Also, the witness indicated that the cooperative applied the same rates to milk which it moved in its own trucks.

An analysis of the hauling data indicates that "fixed" costs associated with long-distance shipments are 19 cents per hundredweight. The rates reflect a "variable" cost of 1.8 cents per hundredweight per 10 miles, or 36 cents for 200 miles. Thus, the total transportation cost for 200-mile shipments from the 201–210 mile zone to distributing plants in the major metropolitan area, for example, would be 55 cents per hundredweight (19 cents plus 36 cents).

A spokesman for several cooperative associations maintained at the hearing and in their brief that no change should be made in the transportation differential rate on the basis of data presented in this proceeding. The witness claimed that the hauling rates submitted as evidence were not representative of actual rates paid by most handlers in this market. However, the witness did not provide any detailed hauling cost data to substantiate his position. Several handler witnesses testified that the hauling cost data appeared to be reasonable. Since these were the only comprehensive hauling cost data presented at the hearing, they must be viewed as the best evidence available in considering whether a change in the transportation differentials is needed.

In view of the variable cost reflected in the hauling rates being charged for long-distance milk shipments, the present 1.2-cent transportation differential rate should be increased. For those zones less distant from the city than the 201–210 mile base zone, the rate should be increased to 1.8 cents, which is the full variable cost. For the more distant zones, the rate should be limited to 1.5 cents, which is the rate commonly used under other Federal orders.

Historically, the Upper Midwest has been the major source of supplemental milk supplies for many of the markets throughout the United States. To reflect the variable cost of moving such milk to distant markets, Class I prices in Federal order markets gradually increase the more distant the markets are from the Upper Midwest. Such gradation of prices may be noted, for example, as one moves from the Upper Midwest to markets (including the Order 2 market) in the northeastern part of the country. The gradation of prices reflects to a large degree a transportation rate of 1.5 cents per hundredweight per 10 miles. The adoption of this rate for at least the outer portion of the Order 2 milkshed would tend to provide a further coordination of Class I prices on a geographical basis.

With respect to the inner zones of the Order 2 market, however, a 1.8-cent transportation rate should be established in recognition of the pricing problems that are peculiar to this market and which are of particular concern in this proceeding. As indicated, the basic thrust of the proposals under consideration is the establishment of a Class I price structure under the order that will permit milk distributors in the major metropolitan area of the market to be competitive with distributors in the nearby Middle Atlantic market. Much of the milk obtained by these Order 2 handlers originates in those production areas between New York City and the 201–210 mile zone, the base price zone for the market. For this milk to be competitive with Order 4 milk, the cost of transporting such milk to the market outlets must be adequately reflected in the Order 2 price structure. As noted, the variable cost for hauling milk in this market is 1.8 cents per 10 miles. Reflection of this full amount in the order's transportation differentials for the inner pricing zones is needed in conjunction with other changes in the order's pricing provisions to overcome the severe competitive problems being experienced by certain Order 2 handlers.

Because of the geographic location of the area in which the 1.8-cent transportation differential rate would apply, the use of this rate, versus the 1.5-cent rate, should not result in problems of price alignment between markets, as might be the case if this rate were adopted for other markets. Only two markets are adjacent to the inner zones of the Order 2 market—Middle Atlantic and New England. As indicated, the 1.8-cent rate is being adopted to provide a better alignment of Class I prices between the Middle Atlantic and New York-New Jersey markets. In the New England market, the applicable location adjustments for the inner zones of that market are in effect providing handlers a transportation rate on supply plant milk of 2 cents per 10 miles. Since there are no other markets further east of the Order 2 market, this eliminates any concern for price coordination in that direction.

Increasing the transportation differential rate of 1.8 cents will not in itself permit metropolitan area handlers to recover all of the procurement costs associated with supply plant milk. As indicated, there are the fixed costs for long-distance shipments, which are now 19 cents per hundredweight. Also, there is the cost of transferring milk at supply plants, which is now averaging 12 cents per hundredweight. Historically, these additional costs have not been reflected in the order's price structure. Nevertheless, they have a direct bearing on the metropolitan area handler's ability to be competitive in terms of his Class I procurement costs with handlers in the Middle Atlantic market, as well as Order 2 handlers receiving direct-ship milk, who are not experiencing such costs. It is necessary, then, that recognition be given to these costs. This should be done by lowering the Class I price differential at the 201–210 mile zone from $2.40 to $2.25.

The Class I price structure and transportation allowances under Order 2 should be such that the average cost of Class I milk to metropolitan area handlers does not exceed the approximate cost of Class I milk sold in the Order 2 North Jersey area by handlers under the Middle Atlantic order. As noted earlier, distributors in the Philadelphia-South Jersey area must pay a Class I differential of $2.78 plus a 6-cent direct delivery differential on milk received directly from producers' farms, or a total of $2.84. In addition, there is the cost of moving packaged products from Order 4 plants into the North Jersey area, although this is limited in some cases since there is relatively little distance between a number of Order 2 distributing plants in North Jersey and several Order 4 plants in South Jersey and southeastern Pennsylvania. In fact, one Order 4 distributing plant is located at Flemington,

V 4269 APR 11 77 UMI

New Jersey, which is in the Order 2 marketing area and only a few miles from several Order 2 plants.* While it might be reasonable to use the Order 4 differential cost of $2.84 for intermarket price comparisons, it is concluded that this amount should be increased to $2.92 to reflect some additional costs that Order 4 handlers would experience in moving packaged milk into the North Jersey area.

Unless the base zone Class I differential is lowered, the cost of supply plant milk to Order 2 handlers in the major metropolitan area will continue to exceed the cost of Order 4 milk. If the base zone differential were maintained at $2.40, the transportation differential rate of 1.8 cents per 10 miles would result in a Class I differential at the 1–10 mile zone of $2.76. To this must be added the fixed hauling cost of 19 cents and the supply plant transfer cost of 12 cents, which totals $3.07. This is 15 cents higher than the approximate Order 4 differential cost of $2.92 against which Order 2 handlers are generally competing.

It might be argued by producers who obviously will be concerned about the impact of such a price reduction on their returns that the estimated Order 4 cost of $2.92 is too low and that a lesser reduction in the Order 2 Class I differential is needed to overcome the competitive problem at issue. On the other hand, handlers could argue that the present 14-cent difference in Class I prices at New York City and Philadelphia (in favor of Order 2 handlers) should be reflected in the new price structure. To have supply plant milk obtained from the 201–210 mile base zone cost no more to handlers than the present $2.64 Class I differential at New York City, the base zone differential would have to be reduced to $1.97. A price reduction of this magnitude would have, of course, a severe impact on the returns to Order 2 producers. It is concluded that although the 15-cent reduction adopted herein will not maintain the present intermarket price relationship reflected in the present Order 2 and Order 4 Class I pricing provisions, it will permit Order 2 handlers to be competitive with Order 4 handlers in the North Jersey area. At the same time, the 15-cent reduction can be considered as having only a moderate impact on producers relative to the seriousness of the loss of Class I sales that is the central theme of this proceeding.

Rather than using a Class I price reduction as a means for the recovery of transportation costs by handlers the proponent producer groups urged that a "metropolitan transfer credit" be adopted. Under their proposal, handlers would receive a 25-cent per hundredweight credit on receipts of Class I milk originating beyond the 1–140 mile zone and transferred in bulk, either directly from farms or from plants, to plants located within the 1–65 mile zone. The credit would be limited to 19 cents if the transportation differential rate were set at 1.8 cents per 10 miles rather than at 1.5 cents, the rate on which the proposed 25-cent credit was based. The intent of the credit was to enable metropolitan area handlers to recover the "fixed" hauling costs and any "variable" hauling costs not reflected in the transportation differential rate.

The metropolitan transfer credit was proposed in recognition of the fact that the order pricing does not reflect the current differences in value that milk has to handlers at various locations. Because of the increased transportation costs, the value of milk in the more distant production areas of the milkshed relative to its value at the major consumption center is less now than previously. Although the metropolitan transfer credit would reflect this decrease in value of distant milk in prices paid by handlers, the order prices payable to the distant producers would not be reduced to the same extent. This is because the credit to handlers, through the mechanism of pooling, would result in all producers in the market, and not just the distant producers, sharing equally the cost of moving distant milk supplies to the metropolitan area. Thus, the returns to the distant producers would not be lowered as much as is warranted by the actual difference in location values. The Class I price reduction, on the other hand, would impact fully on the distant producers. Accordingly, this is the preferable means for reflecting the lower value of distant milk in the returns of distant producers.

Direct delivery differential. A direct delivery differential of 15 cents per hundredweight should be paid to all producers whose farms are located in the 1–70 mile zone.

Under the Class I price structure adopted herein, the Class I differential at the 1–10 mile zone would be $2.61. Handlers in the 1–10 mile zone who receive bulk tank milk directly from farms should be able under the provisions adopted herein to obtain such milk at not more than this differential cost. If the cost of hauling such milk from the 51–60 mile zone, for example, were 35 cents, as the record suggests, the handler would recover 15 cents of this cost through the pool transportation credit. Another 9 cents would be recovered through the transportation differential. The remaining 11 cents of the 35-cent cost could be recovered by negotiating a hauling deduction with the producer or his cooperative. Similar cost portrayals could be set forth for other near-in zones from which direct-ship milk is received by city handlers. However, it is reasonable to presume under these assumptions that the cost of such milk at plants in the 1–10 mile zone would approximate the $2.61 differential cost.

Under the adopted pricing arrangement, the differential cost of supply plant milk at city plants would average $2.92 per hundredweight. This would mean a 31-cent difference between the $2.92 cost of supply plant milk and the $2.61 cost of direct-ship milk at the city. The 31-cent difference represents the 19-cent fixed hauling cost on long-distance shipments and the 12-cent supply plant transfer cost. This difference suggests that direct-ship milk would be worth up to 31 cents per hundredweight more to city handlers than the adopted city Class I differential of $2.61. Accordingly, the present 5-cent direct delivery differential would not adequately reflect the additional value that direct-ship milk from nearby areas would have to city handlers under the new price structure relative to alternative milk supplies from distant supply plants.

The economic value of milk that metropolitan area handlers receive directly from producers is determined in part by the cost of alternative supplies. Only relatively limited quantities of milk are available to metropolitan area handlers on a direct-ship basis. Most of the Class I milk needed by such handlers must be obtained from distant supply plants. The procurement costs for such milk, however, are substantially higher than for nearby direct-ship milk, which enhances the value of the direct-ship milk. By making their milk available to the metropolitan area handlers, the nearby direct-ship producers are providing these handlers with an economic service of benefit to the handlers, since the handlers otherwise would have to incur the additional procurement costs associated with alternative milk supplies from supply plants. The direct-ship producers should be compensated for this service.

Although the direct-ship milk may have greater value to metropolitan area handlers, the increase in the present direct delivery differential should be limited to 15 cents per hundredweight for two basic reasons. First, the direct delivery differential would apply, as now, to all direct-ship milk used in Class II as well as to that used in Class I. Through the transportation differentials for Class II milk, the order already fixes for the Class II price at plants in the 1–10 mile zone 8 cents higher than at the 201–210 mile zone. With the 15-cent direct delivery differential, the cost of Class II milk at New York City would be 23 cents per hundredweight over the base zone Class II price. Actually, relatively little milk is used in Class II at the city distributing plants. Nevertheless, in increasing the direct delivery differential, its impact on a handler's Class II milk cost should be recognized.

A second consideration is the general tendency for handlers not to negotiate any hauling deductions with producers located in those production areas near the major metropolitan area. There has been a gradual shift of producers in these areas from the Order 2 market to the nearby New England and Middle Atlantic Federal order markets. To hold their local supplies, Order 2 handlers have been reluctant to seek authorized hauling deductions from the near-in producers. Because the blend prices in these neighboring markets can be expected to remain attractive to such producers, it is questionable whether handlers will negotiate any hauling deductions on direct-ship milk. This, of course, would offset some of the cost advantage that direct-ship milk might otherwise have relative to supply plant milk.

The direct delivery differential should continue to be applicable only to producers located in the 1–70 mile zone, rather than to producers in the 1–110 mile zone as was proposed. In March 1975, the only month for which such data are available in the record, all of the Class I producer milk originating on farms in the 1–70 mile zone was direct-shipped to plants located in this zone. With respect to the more distant zones, at least some of the Class I milk originating in these zones and moved to metropolitan area plants was reloaded. For the 71–80 mile zone, the amount was very limited—only 1 percent of the total Class I milk originating in that zone. With respect to the 81–90, 91–100, and 101–110 mile zones, however, the amounts of Class I milk reloaded for shipment to plants in the 1–70 mile zone ranged from 27 to 29 percent of the total Class I milk originating in each of these zones.

Under the current handling arrangements, an extension of the direct delivery differential zone would mean that the differential would be applicable not only to direct-ship milk, as intended, but also to milk that is reloaded before being delivered to metropolitan area plants. A handler could not afford to pay both the supply plant transfer cost and the direct delivery differential on the same milk. As long as the direct delivery differential is applied on the basis of where a producer's farm is located rather than on the basis of the milk actually being delivered directly from the farm to the plant, it is not feasible to extend the application of the differential as was proposed.

Upstate fluid differential. A proposed "upstate fluid differential" of 10 cents per hundredweight to be applicable to Class I milk received at distributing plants located outside the 1–65 mile zone from farms beyond the 1–110 mile zone should not be adopted.

This proposal was intended to provide a certain cost relationship between distributing plants in upstate New York and distributing plants in the major metropolitan area for milk received at these plants for Class I use. It was pointed out that most upstate distributing plants receive milk directly from farms, thereby avoiding reloading costs that are incurred by the metropolitan area handlers who receive milk from supply plants. Proponents contended that the additional 10-cent charge to the upstate handlers would tend to equalize procurement costs among competing handlers. The extra 10 cents charged such upstate handlers would be pooled, which would result in a slightly higher uniform price to all producers in the market.

Although the thrust of the order changes adopted herein is to more nearly equate the procurement costs of competing handlers, the proposed 10-cent charge would go beyond what is necessary to meet the competitive problems portrayed on this record. Moreover, the proposal gives no consideration to the present adequacy of milk supplies at distributing plants in upstate New York. Although the Class I price would be lowered throughout the milkshed under the proposals adopted herein, there is no indication that any offsetting increase in the Class I price at such plants is necessary to attract adequate milk supplies to these plants for fluid use.

2. *Changes in certain classification provisions.* Cooperatives and proprietary handlers proposed several changes in the provisions that set forth the manner in which milk shall be classified. The specific changes are discussed under the following subheadings.

a. *Classification of milk moved between Order 2 pool plants and plants regulated under an order administered solely by the State of New York.* A proposal to classify transfers of milk between an Order 2 pool plant and a plant regulated under a New York State order in the same manner as transfers between an Order 2 plant and a plant under another Federal order should not be adopted.

A handler organization proposed that milk moved between a plant regulated under the New York-New Jersey order and a plant regulated under a New York State order (other than the State counterpart of Federal Order 2) be accorded the same regulatory treatment now provided under Order 2 for milk moving between federally-regulated markets. Thus, the classification of milk transferred by an Order 2 handler to a plant regulated under a State order would be determined by the classification established for such milk under the State regulations. Packaged milk that is classified in Class I as defined under the State regulations could be transferred to an Order 2 plant without the receiving handler incurring any obligation under Order 2 on such milk. Receipts of bulk milk at the Order 2 plant would be classified pro rata to the plant's utilization unless a Class II classification were requested by both plant operators.

The witness for the proponent handlers indicated that the proposal was prompted by the experience of an Order 2 handler who also operates a plant in Rochester, New York, that is regulated under a separate State order. According to the witness, the Rochester plant has both a fluid milk operation and a manufacturing operation. Bulk milk pooled under Order 2 is moved to the Rochester plant for manufacturing. At the same time, the handler moves a very limited quantity of packaged fluid milk products from the Rochester plant to an Order 2 pool plant for the latter plant's employees.

The witness indicated that the State regulations require that fluid milk sales in the marketing area defined by the State order be assigned first to milk of qualified dairy farmers who supply the fluid needs of that market. He stated that under the terms of Order 2, however, bulk milk transfers to the Rochester plant, although intended for manufacturing, are assigned to both Class I and Class II. This, he pointed out, results in the handler being charged twice for a portion of his fluid milk sales, i.e., once under the State order and again under the Federal order. The witness further stated that the packaged milk moved from the Rochester plant to the Order 2 plant is Class I under the State order but is prorated to Class I and Class II under the provisions of Order 2. He contended that the Federal order thus imposes a penalty on milk moved between plants regulated under a separate New York State order and plants regulated under Federal Order 2.

Although there was no opposition testimony concerning the proposal, its adoption was opposed in a brief submitted by two cooperatives. They expressed the view that the proposed change could result in a surplus classification for Order 2 milk that actually was shipped to a State regulated plant for fluid use. The cooperatives suggested that a more appropriate solution would be the amendment of the State order if some relief is considered necessary.

According the same regulatory treatment for milk movements between the Order 2 market and a State order market as is provided for milk movements between federally-regulated markets would imply that the State order is comparable with Order 2 in its regulatory effectiveness. This is not the case. Not only are the provisions of the State orders significantly different from those of Order 2 but the State orders cannot be effective in pricing milk received from out-of-state sources, since the State of New York has no pricing authority relative to such milk. Regulation of plants under the New York statutes therefore provides no assurance that the classification and pricing of milk received at such plants are compatible with the provisions of the New York-New Jersey order.

b. *Classification of bulk milk received from other order plants.* Bulk milk received at an Order 2 pool plant from a plant regulated under another Federal order, if not classified as Class II milk by agreement, should be classified pro rata to the marketwide utilization of producer milk or the handler's total utilization, whichever results in the greater Class II classification. The classification of such receipts should be limited however, so that the quantity of milk assigned to Class II is not greater than the receiving handler's Class II use.

Such receipts are now classified pro rata to the utilization in each class at the plant where the milk was received.

The classification procedure adopted herein for receipts of other order milk was proposed by a number of cooperatives, although they urged that certain modifications be included. Certain cooperatives proposed that when prorating the other order milk the utilization of the receiving plant, rather than the receiving handler's total utilization in his system, he used whenever this would result in more of the milk being assigned to Class II. The other cooperatives suggested that the allocation of other order bulk milk

* Official notice is taken of the list of pool handlers regulated under the Middle Atlantic order in December 1975, which was released to the industry on January 13, 1976, by the Market Administrator of that order.

V 42 69 APR 11 77 UMI

to the receiving handler's utilization be carried out at an earlier point in the allocation procedure.

In supporting the proposals, spokesmen for proponents pointed out that other order bulk milk received at a Class I distributing plant operated by a multiple-plant handler is now assigned primarily to Class I, even if the handler's other pool plants are mainly Class II operations. This procedure, they asserted, gives the other order milk a priority claim on the handler's Class I use and results in more milk from local producers being assigned to Class II. According to the spokesmen, the intent of the proposals is to encourage handlers to use pool milk for fluid use and to minimize any displacement of local milk in Class I with other order milk. Witnesses contended, however, that the proposals would not prevent or impede interorder milk movements when additional milk is needed for fluid use. They also pointed out that the proposed classification conforms with the procedure followed under virtually all other Federal orders.

Receipts of other order bulk milk not assigned to Class II use by agreement presently are assigned pro rata to the utilization in each class at the Order 2 plant where the milk is received. Thus, in the case of a handler who, for example, operates a pool distributing plant and a pool plant at which the utilization is largely Class II, receipts of other order bulk milk at the distributing plant are assigned largely to Class I. At the same time, pool milk received from local producers at the handler's other pool plant is assigned largely to Class II. Although the handler's total operation utilizes milk from both local and other order producers, the economic burden of the handler's lower-valued reserve milk supplies is borne by the local producers. Thus, an equitable sharing of Class I and Class II utilization among the handler's supply sources is not achieved.

The provisions for dealing with interorder bulk shipments should be ones which assign a proportion of the Class I and Class II utilization of the receiving handler between the local producers and the other order producers in a way that accords recognition to each group's interest in, and contribution to, such utilization. As provided under other orders, interorder bulk milk shipments should share in the utilization of Order 2 handlers basically to the same extent that Order 2 producers share in the market's Class I and Class II utilization. Accordingly, the classification of bulk milk received from other order plants by handlers receiving both local and other order supplies should be determined by assigning the marketwide utilization to such milk, unless a Class II classification is requested. This would mean that when a handler calls upon another order market to furnish a part of his total supply his local producer milk would not be assigned the lower surplus return until the milk from the shipping market has been assigned a Class II utilization equal to the marketwide utilization of Class II milk in the receiving market.

The limit placed on the quantity of other order milk assigned to Class II (i.e., the actual quantity utilized as Class II by the receiving handler) assures that the order provisions themselves will not assess the handler an additional cost related to the assignment to Class II of milk in excess of a handler's own utilization in that class. It assures also that producers in the shipping market will have their milk classified as Class II milk in no greater quantity than that actually utilized by the handler to whom the milk was transferred.

The order should not provide for marketwide proration of bulk milk received from another order plant when the receiving handler has a greater proportion of milk in Class II than the average in the receiving market. Instead, such milk should be classified pro rata to the handler's total utilization in each class. Marketwide proration of receipts of milk from other markets is designed to deal primarily with milk received by a handler who is supplementing his local supply for Class I use. In the case of a handler with a higher proportion of milk in Class II than the market average, marketwide proration would tend to encourage unduly and uneconomically the importation of milk because it would assign a disproportionate share of the milk of local producers to Class II.

Other order milk may be imported by a handler who operates just a single plant. In such cases, the milk would be assigned to the particular plant's utilization within the limits described above. In other cases, however, the milk may be received at the distributing plant of a multiple-plant handler. The Class I utilization at such plant is likely to be higher than the average Class I utilization at all of his pool plants. It is possible that the handler would have supplies at his other pool plants which would be in lower-priced uses than the milk brought in from other regulated markets. If the milk imported by a multiple-plant handler is assigned in this case only to the receiving plant's utilization, such assignment could reduce the handler's percentage of producer milk in Class I in his system to a greater extent than if the assignment were applied over the whole system.

Assigning bulk receipts from other order plants to the handler's system utilization will prevent a handler with more than one pool plant from discriminating against either his own producers or those supplying the other Federal order market by importing milk not filling a bona fide need for Class I use. The order should provide, therefore, that receipts of interorder bulk milk be prorated to the combined utilization of milk at all of the handler's pool plants in the receiving market.

At the hearing, producer groups proposed that the utilization of the receiving plant be used in those cases where this would result in a greater Class II classification of the other order milk than if the utilization of the handler's system were used. Their spokesman indicated that this procedure would generally preclude such milk from sharing in the receiving handler's Class I utilization at other plants when the milk is received at the handler's manufacturing plant for Class II use but a Class II classification is not requested by the receiving and shipping handlers.

This procedure should not be adopted. The order provides that a Class II classification may be requested by the two handlers involved when bulk milk is shipped from one market to another for surplus disposal. This arrangement facilitates the disposal of surplus milk through outlets in another market without disrupting intermarket blend price relationships. It is expected that when milk is received at an Order 2 plant for manufacturing the handlers will request the lower classification for the milk. In the absence of such request, it must be assumed that the Order 2 handler is supplementing his local supply for his Class I operation. In this case, the classification of the other order milk should reflect the handler's reliance on both local and other order producers for milk for fluid use.

In order to implement the procedure adopted herein for classifying other order bulk milk on the basis of the combined utilization at all of the handler's pool plants, it is necessary to modify the procedure for allocating a handler's milk receipts to his utilization. The changes establish a procedure whereby the milk from other order plants will be classified on the basis of the handler's total system, but will be assigned to classes at the pool plant of actual receipt. Under this procedure, a situation may arise where the quantity of other source milk to be subtracted from a specific class (as determined from receipts and utilization in his entire system) exceeds the utilization remaining in that class at the plant of actual receipt. In this case, an accounting technique is used for increasing the utilization in such class at the plant of actual receipt and making a corresponding reduction in the same class at one or more of his other pool plants in his system. Since such exchanges of utilization will be made in corresponding amounts as between plants, this technique will not change the amount of milk to be accounted for at each plant or the classification of milk within the handler's entire system. The order should specify that such utilization shifts be made first at the other pool plant of the handler located nearest to the plant of actual receipt, and then in sequence at each successively more distant pool plant of the handler.

The present sequence for allocating receipts from various sources to a handler's utilization should not be changed. A spokesman for several cooperatives asked that the allocation procedure be reviewed to determine whether the pro rata classification of other order bulk milk should be moved forward in the allocation sequence. The cooperatives' position was that such a shift, if appropriate, would increase the availability of Class II utilization for assignment to receipts of other order milk.

If other order milk were prorated earlier in the allocation sequence, some receipts from unregulated sources necessarily would be classified later in the sequence. Thus, receipts of other order milk would be assigned to Class II utilization before such receipts from unregulated sources. This could result in a greater quantity of unregulated milk being assigned to Class I uses than otherwise, and a corresponding increase in the handler's pool obligation. Such a change would not be appropriate on the basis of this record and should not be made.

As indicated, the marketwide utilization of producer milk for the Order 2 market will be one of the bases for classifying bulk milk received from other Federal order markets. However, the actual marketwide utilization for the month in which the milk is received cannot be determined until the other order milk is classified. This cannot be done until the marketwide utilization is known. To overcome this problem, the order should provide for the use of an estimated marketwide utilization. The estimate should be announced by the market administrator and should be final for this purpose.

c. *Classification of milk dumped, disposed of for animal feed, or lost under extraordinary circumstances.* Fluid milk products that a handler dumps, disposes of for animal feed, or loses due to extraordinary circumstances beyond his control should be classified as Class II milk.

Presently, such types of disposition are considered as part of a pool plant's shrinkage of milk. Under the current provisions, shrinkage is prorated to the plant's utilization in each class, except that the Class II assignment is limited to 2 percent of the plant's actual Class II use. Thus, the classification of these several types of disposition varies according to the type of plant operation involved.

A handler organization proposed that fluid milk products dumped or discarded, or destroyed or lost under extraordinary circumstances, be specified as Class II milk. The organization's spokesman indicated that a handler may dump milk because it is unsuitable for disposition as a fluid milk product. He cited instances where entire truck loads of milk have been dumped because strong odors or high acidity rendered the milk useless for fluid purposes. He pointed out that occasionally a manufacturing outlet can be located to take such milk, but that quite often outlets are not available or they may be so distant that such disposition is not economically feasible. With respect to milk destroyed or lost under extraordinary circumstances, the witness indicated that a Class II classification should be provided to cover situations where milk is destroyed through accidental contamination or is lost in a truck accident.

Classifying dumped milk in Class II was supported by another handler. The handler's witness pointed out that handlers ordinarily experience some spoilage in fluid milk products, particularly in the case of route returns. The witness stated that handlers must either dump such milk or dispose of it as animal feed, and urged that such disposition be priced as Class II milk. He claimed that such classification is justified because the handler receives virtually no monetary return for such milk. The witness also supported, on the same basis, a Class II classification for milk destroyed or lost under extraordinary circumstances, such as vehicular accidents, fire, flood, or similar catastrophic occurrenes.

A number of cooperatives in the market opposed the classification changes urged by handlers. It was their position that dumpage and losses due to extraordinary circumstances are business risks and should be absorbed by the handler. They contended that milk lost under extraordinary circumstances should not be classified as Class II milk since handlers customarily insure against such losses.

"Shrinkage" should be considered as a disappearance of milk that cannot be acounted for in a handler's operations. When a handler finds it necessary to dump fluid milk products or dispose of fluid milk products for animal feed, it is possible to establish that such disposition actually occurred. Also, to the extent determinable from records, milk that is lost or destroyed can represent a known disposition. In these cases, the milk involved can be accounted for and should not be included with shrinkage as milk for which no disposition can be established. Moreover, since the handler receives virtually no return from such disposition, the handler's obligation under the order for such milk should be limited to the lowest class price under the order, which is the Class II price. Although the loss may be insured, it is reasonable to presume that any indemnification would be commensurate with whatever value is established for the milk under the order.

It is important that the market administrator have an opportunity to verify all dispositions of milk claimed by a handler. In the case of fluid milk products disposed of for animal feed, handlers should keep records suitable for the market administrator to determine that such dispositions actually occurred. When milk is dumped, however, the market administrator cannot later determine with certainty the quantities involved through examination of handler records. Therefore, it will be necessary for the handler to provide the market administrator advance notice and opportunity to verify milk dumpages, as prescribed by the market administrator.

Milke destroyed or lost under extraordinary circumstances completely beyond the handler's control should be Class II milk to the extent that the quantity involved can be established from handler records satisfactory to the market administrator. Such Class II milk should include milk destroyed or lost as a result of such things as vehicular accidents, fire or floods. In such circumstances, it is impossible to provide advance notice to the market administrator. However, the quantities of fluid milk products involved can generally be established in a reasonable manner. The quantities of milk lost in a truck accident, for example, can frequently be verified from shipping invoices or from farm pickup records.

It is not intended that this provision shall be applicable to milk lost through faulty pipe connections, open or leaking valves, broken hoses, contamination and similar accidents that must be considered normal business hazards. Milk lost in such manner is part of the normal shrinkage experienced in any milk operation and such losses are adequately provided for under the shrinkage provisions.

At the hearing, proponent's witness indicated his intent that milk contaminated with antibiotics be considered as destroyed or lost under extraordinary circumstances. In the event such milk could not be otherwise disposed of, the dumpage provisions adopted herein should accommodate the disposition of such milk.

4. *Charges on overdue accounts.* The order should provide for the application of a late-payment charge of 1 percent per month on handler obligations to the market administrator that are overdue. Such obligations would be those due the producer settlement fund and the administrative expense fund, both of which are maintained by the market administrator. Any such unpaid obligation should be increased by 1 percent on the first day after the due date of the obligation and on the same day of each succeeding month until the obligation is paid.

The institution of a late-payment charge under the order was proposed by a cooperative association. It proposed that any unpaid obligation of a handler that is due the market administrator be increased on a daily basis, beginning the first day the obligation is overdue, by an amount reflecting the "prime rate" charged by banks plus 5 percentage points. Thus, if the prime rate (the interest charged by commercial banks on loans to their preferred business customers) were 7 percent, the annual charge would be 12 percent (7 percent plus 5 percentage points), or approximately 0.033 percent as applied on a daily basis.

As set forth in the hearing notice, the cooperative's proposal also would have applied a charge on any overdue payments by the market administrator from the producer settlement fund to handlers. At the hearing, however, the cooperative deleted this type of charge from its proposal.

The proposal, including the charge on overdue payments by the market administrator, was supported by a number of other cooperatives in the market.

Spokesmen for the proponent and supporting cooperatives indicated that the institution of a charge on overdue obligations of handlers is necessary to encourage prompt payments to the market administrator by regulated handlers. They cited the collection problems being

V 4 2 6 9 A P R 11 7 7 UMI

experienced by the market administrator and indicated that producers have an interest in timely payments by handlers. It was pointed out that late payments can result in the market administrator having insufficient money in the producer settlement fund to make the necessary equalization payments to handlers, with handlers in turn being unable to pay their producers. It was also pointed out that late payments result in money due the market administrator not being available for investment by him to maximum advantage, such as during the heavy-production months when money from handlers is withheld under the "Louisville Plan" for later payment to producers during the short-production months. In addition, the spokesmen indicated that those handlers making late payments have a competitive advantage in their business operations relative to handlers making timely payments.

In support of the proposed late-payment charge, the witness for the proponent cooperative contended that the charge should be related to current interest rates since delinquent handlers are in effect borrowing money from producers. The spokesman indicated that a charge based on the prime rate plus 5 percentage points is in line with interest rates on business loans where more than a minimal credit risk is involved. In urging that the charge be apportioned on a daily basis, the witness contended that delinquent handlers should be assessed for only the number of days that the payment is actually late, rather than be assessed on the basis of a monthly charge as under other orders.

A number of handlers, although they did not testify at the hearing on this issue, submitted briefs in which they set forth varying positions on the proposed late-payment charge. Several suggested that a "grace" period be provided, with the charge not becoming applicable until 3 to 7 days after the due date for the payment. This, they claimed, is needed to accommodate weekends, holidays, and delays in mail delivery that could result in handlers' payments not reaching the market administrator by the payment deadline. One handler contended that the charge should be based on the prime rate plus 2 percentage points. Another urged a fixed charge of 0.75 percent per month. Several handlers held that if a late-payment charge is adopted the charge should apply not only to late payments from handlers to the market administrator but to late payments or refunds from the market administrator's office to handlers as well.

It is essential to the effective operation of the order that handlers make their payments to the market administrator on time. Under the present marketwide pooling arrangement, it is necessary that handlers with Class I utilization higher than the market average pay part of their total use value of milk to the producer settlement fund. Through this means, money is made available to handlers with lower than average Class I utilization so that all handlers in the market, irrespective of the way they use the milk, can pay their producers the uniform price. The success of this arrangement depends on the solvency of the producer settlement fund.

Also, the prompt payment of amounts due the administrative expense fund is essential to the performance by the market administrator of the various administrative functions prescribed by the order. Delinquent payments to this fund could impair the ability of the market administrator to carry out his duties in a timely and efficient manner.

Payment delinquency also results in an inequity among handlers. Handlers who pay late are, in effect, borrowing money from producers. In the absence of any late-payment charge that is at least as much as the cost of borrowing from commercial sources, handlers who are delinquent in their payments have a financial advantage relative to those handlers making timely payments.

Data placed in the record by a representative of the market administrator's office indicate a late-payment experience of a serious and continuing nature on the part of handlers in the New York-New Jersey market. For the 12-month period of January through December 1975, the market administrator issued 1,119 charge billings to handlers. These covered the monthly obligations of handlers to the producer settlement and administrative expense funds, all of which were due by the 18th day of the following month (i.e., payments were to be received by the market administrator by that date). For this period, only 216 payments were received by the market administrator on time. This payment delinquency probably can be attributed in part, however, to the relatively short time between the mailing of the billings to handlers, which was completed by the market administrator's office at the latest by the 15th of the month, and the date by which the payments were due. Nevertheless, even by the 21st day of the month, which should have been sufficient time for the transmission of the billings and payments through the mail, only 630 payments, or 56 percent of the payments due, were received by the market administrator. On a monthly basis, the percentage of payments received by the 21st ranged from 48 percent to 65 percent. For the year, 203 of the 1,119 payments due were still outstanding at the end of the month in which the billings were made.

In terms of money owed, the data indicate that for the 12-month period nearly one-fourth of the money due the market administrator had not yet been received by the 21st day of the month.

On the basis of this payment experience, it is appropriate to institute a late-payment charge on handler payments to the market administrator that are overdue. In the absence of a late-payment charge, handlers have little incentive to make their payments to the market administrator on time. Enforcement action may be taken, of course, to seek strict handler compliance with the payment dates. However, this is a cumbersome administrative route, and the practicalness of such action becomes questionable in the case of handlers who are only several days late. While the charge adopted herein may not result in strict compliance by all handlers, it should provide handlers a substantial inducement to make their payments to the market administrator on time.

The late-payment charge should be established at the rate of 1 percent per month of the unpaid balance. If the charge is to have any impact on handlers in terms of encouraging prompt payments, it must be an amount that is at least as much as what a delinquent handler would be charged by commercial banks for money borrowed for short-term purposes. If this is not so, handlers who may have financial problems would be encouraged to delay their payments, knowing that the charge under the order is cheaper than borrowing money commercially at a higher loan rate. Under present conditions, a monthly charge of 1 percent should provide reasonable assurance that producer funds do not represent the cheapest source of money.

As noted earlier, it was proposed that the late-payment charge be a variable charge that parallels the movements of the "prime rate." It also was proposed that the charge be apportioned on a daily basis so that a handler would be assessed for only the number of days he was actually late in making his payment. These procedures should not be adopted. If the late-payment charge were treated strictly as interest and computed on a daily basis, the order would merely represent a banking service for handlers who desire to use producer funds as an alternative source of money at the going interest rate. This is not the intended purpose of the late-payment charge. Rather, it is to be a penalty, in effect, that will induce handlers to pay their obligations to the market administrator on time.

In their brief, certain handlers contended that the Secretary has no authority under the Act to impose a "penalty" on a handler under the terms of a milk order. We do not take this position. Instead, we contend that a late-payment charge, or "penalty," may be adopted under the statutory authority set forth in section 608c(7)(D) of the Act. This subsection specifies that an order may contain various terms that are incidental to, and not inconsistent with, the terms explicitly authorized by the Act if the incidental terms are found necessary to effectuate the other provisions of the order. The late-payment charge adopted herein is considered essential to the effectuation of the payment provisions of the order.

The Act does contain provisions in section 608c(14) pertaining to certain penalties. In short, these provisions specify that a handler shall be fined a monetary amount upon being convicted of violating a provision of an order. However, we do not look upon these provisions as precluding the use of a late-payment charge, or "penalty," on overdue accounts.

No "grace" period should be provided in applying the late-payment charge, as

several handlers urged in their briefs. It was their concern that the payment dates in the order would not accommodate the normal time required for billings to reach handlers and for the handlers to process the billings and have their payments reach the market administrator. For this reasons, they asked that any late-payment charge not apply until several days after the due date of the payment.

On the basis of a hearing held in September 1976 for the New York-New Jersey market, several changes were made in payment dates prescribed by the order.[1] These changes, in part, require that payments by handlers to the market administrator be received by the market admintrator no later than the 21st day of the month rather than by the 18th day. This extended period should provide a reasonable time for billings to reach handlers and for handlers to get their payments to the market administrator. Moreover, the order changes resulting from the September 1976 hearing should accommodate those occasions when the date by which payments to the market administrator are due falls on a weekend or holiday. When this happens, the due date of the payment would be the next day that the market administrator's office is open for business.

Under these new arrangements, there would would appear to be no necessity for a grace period before applying the late-payment charge. It must be recognized that with a grace period handlers actually would have little incentive to have their payments arrive at the market administrator's office prior to the end of the grace period, even though the due date actually was a few days earlier.

Under the provisions adopted herein, overdue handler obligations that are payable to the market administrator would be increased by 1 percent on the first day after the due date. Any remaining unpaid portion of the original obligation would be further increased by 1 percent on the same date of each succeeding month until the obligation is paid. The additional late-payment charge would apply not only to the original obligation but also to any unpaid late-payment charges previously assessed.

At the time the adopted provisions become effective, there may be handlers with obligations already overdue. To the extent of any remaining unpaid balance on the 22nd day of the month in which the amendments adopted herein become effective, the newly-adopted late-payment charge should apply even though the obligation was incurred prior to the institution of the charge under the order.

The order should not provide for any late-payment charge on payments to handlers from the producer settlement fund by the market administrator. There are no circumstances in which the market administrator would not promptly disperse payments to handlers from the producer settlement fund except when the fund is insolvent because of substantial delinquencies in payments to the fund by other handlers. The order provides that in this circumstance the market administrator shall reduce uniformly his payments to handlers and shall complete his payments as soon as the necessary funds are available. The order also provides that when a handler has not received full payment from the market administrator he in turn may reduce pro rata his payments to producers by the amount of the under-payment. Thus, under any situation in which the market administrator is late in paying handlers, the handlers are excused from paying the deficit to producers until the market administrator completes his payments. Hence, there is no reasonable basis for handlers to be the beneficiaries of a late-payment charge imposed upon the market administrator.

Certain handlers urged in their brief that the market administrator be required to pay interest on money that is refunded to handlers on the basis of legal proceedings, or for other reasons. Since the merits of this particular issue were not explored at the hearing, no action should be taken on the handlers' request.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended Marketing Agreement and Order Amending the Order

The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended. The following order amending the order, as amended, regulating the handling of milk in the New York-New Jersey marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

1. In § 1002.22(m), a new subparagraph (3) is added to read as follows:

§ 1002.22 Additional duties of the market administrator.

* * * * *

(m) * * *

(3) For the purpose of allocating receipts from other Federal order plants under § 1002.45(a)(12) and the corresponding step of § 1002.45(b), his estimate of the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in pool milk of all handlers. Such estimate shall be final for such purpose.

2. In § 1002.41(c), subparagraphs (7) and (8) are revised and new subparagraphs (9), (10), and (11) are added to read as follows:

§ 1002.41 Classes of utilization.

* * * * *

(c) * * *

(7) In shrinkage allocated to Class II pursuant to § 1002.42;

(8) In skim milk represented by the nonfat solids added to a fluid milk product for fortification which is in excess of the volume included within the fluid milk product definition pursuant to § 1002.15;

(9) Contained in fluid milk products that are disposed of for animal feed;

(10) Contained in fluid milk products that are dumped, if the market administrator is notified in advance and is given the opportunity to verify such disposition; and

(11) Contained in fluid milk products that are destroyed or lost by a handler in a vehicular accident, flood, fire, or in a similar occurrence beyond his control, to the extent that the quantities destroyed or lost can be verified from records satisfactory to the market administrator.

3. In § 1002.45(a), subparagraph (12) is revised to read as follows:

[1] Official notice is taken of the Assistant Secretary's decision on proposed amendments to the New York-New Jersey order that was issued on January 19, 1977 (42 FR 4471).

V4269 APR 11 77 UMI

§ 1002.45 Allocation of skim milk and butterfat classified.

* * * * *

(a) * * *

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products from other order plants not previously assigned pursuant to paragraphs (2) and (10) of this paragraph:

(i) Subject to the provisions of subdivisions (ii), (iii), and (iv) of this subparagraph, such subtraction shall be pro rata to the pounds of skim milk in each class with respect to whichever of the following quantities represents the higher proportion of Class II milk:

(*a*) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1002.22(m)(3); or

(*b*) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to subdivision (i) of this subparagraph result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II milk exceeding the pounds of skim milk remainnig in Class II milk at all such plants, the pounds of such excess shall be subtracted pro rata from the pounds of skim milk remaining in Class I–A milk and Class I–B milk after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in subdivision (ii) of this subparagraph, should the computations pursuant to subdivisions (i) or (ii) of this subparagraph result in a quantity of skim milk to be subtracted from Class II milk that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class II milk shall be increased (to the extent of available utilization in such class at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I–A milk and Class I–B milk combined shall be decreased by a like amount, pro rata to remaining utilization in each such class. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in subdivision (ii) of this subparagraph, should the computations pursuant to subdivisions (i) or (ii) of this subparagraph result in a quantity of skim milk to be subtracted from Class I–A milk or Class I–B milk that exceeds the pounds of skim milk remaining in that class, the pounds of skim milk in such class shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II milk shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in reverse direction by a like amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

* * * * *

§ 1002.50a [Amended]

4. In § 1002.50a(a), the number "$2.40" is changed to "$2.25."

5. In § 1002.51, paragraph (c) is revised to read as follows:

§ 1002.51 Transportation differentials.

* * * * *

(c) The differential rates applicable at plants shall be as set forth in the following schedule:

[In cents per hundredweight]

A Freight zone (miles)	B Class I–A and I–B	C Class II
1–10	+36.0	+8
11–20	+34.2	+8
21–25	+32.4	+8
26–30	+32.4	+7
31–40	+30.6	+7
41–50	+28.8	+7
51–60	+27.0	+6
61–70	+25.2	+6
71–75	+23.4	+6
76–80	+23.4	+5
81–90	+21.6	+5
91–100	+19.8	+5
101–110	+18.0	+4
111–120	+16.2	+4
121–125	+14.4	+4
126–130	+14.4	+3
131–140	+12.6	+3
141–150	+10.8	+3
151–160	+9.0	+2
161–170	+7.2	+2
171–175	+5.4	+2
176–180	+5.4	+1
181–190	+3.6	+1
191–200	+1.8	+1
201–210	0	0
211–220	−1.5	0
221–225	−3.0	0
226–230	−3.0	−1
231–240	−4.5	−1
241–250	−6.0	−1
251–260	−7.5	−2
261–270	−9.0	−2
271–275	−10.5	−2
276–280	−10.5	−3
281–290	−12.0	−3
291–300	−13.5	−3
301–310	−15.0	−4
311–320	−16.5	−4
321–325	−18.0	−4
326–330	−18.0	−5
331–340	−19.5	−5
341–350	−21.0	−5
351–360	−22.5	−6
361–370	−24.0	−6
371–375	−25.5	−6
376–380	−25.5	−7
381–390	−27.0	−7
391–400	−28.5	−7
401 and over	−30.0	−8

* * * * *

6. Section 1002.55 is revised to read as follows:

§ 1002.55 Transportation credit on bulk unit pool milk.

For pool milk received by a handler in a pool or partial pool unit, a transportation credit at the rate of 15 cents per hundredweight shall be computed.

7. In § 1002.71, a new paragraph (b–1) is added to read as follows:

§ 1002.71 Computation of the uniform price.

* * * * *

(b–1) Subtract an amount computed by multiplying the quantity of pool milk delivered directly from farms to pool plants and partial pool plants that was not put into a tank truck prior to such delivery, by a rate per hundredweight that is equal to the rate specified in § 1002.55.

* * * * *

8. In § 1002.80(a), subparagraphs (2) and (3) are revised and a new subparagraph (4) is added to read as follows:

§ 1002.80 Time and rate of payments.

(a) * * *

(2) Proper deductions for the month that were authorized in writing by producers from whom the handler received milk;

(3) For milk received in a bulk tank unit and for which transportation was provided by the handler or at his expense, there may be deducted, as proper and as authorized in writing by the producer, or by a cooperative association authorized to act on behalf of such producer, a tank truck service (transportation) charge of up to 15 cents per hundredweight for any farm-to-first plant transportation costs for which the handler was not reimbursed through the transportation credit pursuant to § 1002.55, except that the deduction and the transportation credit combined shall not exceed the actual transportation costs incurred. Any such deduction must be made by the handler not later than the date on which the producer is required to be paid for such milk. If authorization for such deduction is canceled by the producer or by the cooperative by notifying the handler in writing, such cancellation shall be effective on the first day of the month following its receipt by the handler; and

(4) For pool milk delivered directly from a farm to a pool plant or a partial pool plant that was not put into a tank truck prior to such delivery, the handler shall pay to the producer an additional amount computed by multiplying the quantity of such milk by a rate per hundredweight that is equal to the rate specified in § 1002.55.

* * * * *

§ 1002.82b [Amended]

* * * * *

9. In § 1002.82(b), the word "five" is changed to "15."

10. In § 1002.87, paragraph (a) is revised to read as follows:

§ 1002.87 Handler's pool debit or credit.

* * * * *

(a) Add the amounts computed as follows:

(1) Multiply the quantity of pool milk received by each handler from dairy farmers by the uniform price; and

(2) Multiply the quantity of pool milk received by the handler at a pool plant or partial pool plant directly from farms that was not put into a tank truck prior to delivery by a rate per hundredweight that is equal to the rate specified in § 1002.55.

* * * * *

11. A new § 1002.88a is added to read as follows:

§ 1002.88a Charges on overdue accounts.

Any unpaid obligation of a handler pursuant to §§ 1002.85 and 1002.90 shall be increased 1 percent on the first day after the due date of such obligation and on the same day of each succeeding month until such obligation is paid.

NOTE.—The Agricultural Marketing Service has determined that this document contains a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A–107 and certifies that an inflation impact statement has been prepared.

Signed at Washington, D.C., on April 5, 1977.

WILLIAM T. MANLEY,
Acting Administrator.

PRIVACY ACT OF 1974

Systems of Records

V 42 69 APR 11 77 UMI

DEPARTMENT OF THE INTERIOR
OFFICE OF THE SECRETARY
PRIVACY ACT OF 1974
Revised System Notices

Note: This document was originally published at 42 FR 16121 on Thursday, March 24, 1977. The appendix and systems of records were inadvertently omitted at that time. The document is being published in its entirety below.

The Department of the Interior hereby republishes below the notices describing the systems of records which it maintains which are subject to the requirements of section 3 of the Privacy Act of 1974, 5 U.S.C. 552a. This republication replaces all previous notice publications by the Department of the Interior.

The notices set out below are similar to those published in the Federal Register for September 21, 1976 (41 F.R. 41222-41327) with the following exceptions:

1. A table of contents has been added, as has an appendix listing the addresses of facilities of the Department maintaining records subject to Privacy Act.

2. As part of the Department's effort to simplify and clarify its Privacy Act system notices some notices have been rewritten in whole or in part. These are revisions of style only, however, and do not affect the substance of the notices.

3. The "Routine Use" paragraphs contained in the notices published in September 21, 1976, were proposed paragraphs, comments upon which were solicited. Pursuant to authority granted by 5 U.S.C. 552a, these paragraphs are now adopted as final "Routine Uses," replacing the "Routine Uses" contained in the original (and now obsolete) group of system notices which the Department of the Interior published in its 1975 annual notice publication (40 FR 41432-41507, 43467-43477, 46066-46074, 47985-47992, 50434).

4. In response to the request for comments on the proposed "Routine Uses," several comments were received suggesting addition of a "Routine Use" to Bureau of Indian Affairs systems 4 (Indian Land Records), 5 (Indian Land Leases) and 12 (Indian Trust Land Mortgages) permitting disclosure to title insurance and abstracting companies and attorneys for purposes of determining ownership of and encumbrances against title. The Department agrees that such a "Routine Use" is necessary to facilitate land transactions involving Indian land and accordingly proposes adoption of a new "Routine Use" for the three systems.

5. Seven new systems are proposed to be added. These are Fish and Wildlife Service-28, Avitrol Authorization Records; Fish and Wildlife Service-29, Animal Damage Control Non-Federal Personnel Records; Bureau of Land Management-24, Copy Fee Deposit Records; Bureau of Land Management-27, Real Estate Appraiser Roster; Bureau of Land Management-28, Adopt A Wild Horse Program Records; Bureau of Land Management-29, Recordation of Mining Claims Records; and Office of the Secretary-82, Departmental Manager Development Program Records.

Comments on the proposed new "Routine Uses" and the proposed new system notices may be submitted to the Departmental Privacy Act Officer, Office of Administrative and Management Policy, U.S. Department of the Interior, 18th and C Streets, NW., Washington, D.C. 20240. Comments received on or before June 1, 1977, will be considered. Copies of any comments which are received will be available for inspection at the above address.

March 7, 1977.

Richard R. Hite,
Deputy Assistant Secretary of the Interior.

TABLE OF CONTENTS

I. Office of the Secretary (Notices which apply to some or all bureaus outside of the Office of the Secretary are marked with an asterisk.)
Audit Files and Workpapers—Interior, Office of the Secretary—1.
Investigative Records—Interior, Office of the Secretary—2.
Financial Interest Statements and Ethics Counselor Decisions—Interior, Office of the Secretary—3.
Aircraft Instructor Qualification File—Interior Office of the Secretary—5.
Aircraft Crew/Mechanic Informationb File (Commercial Operators)—Interior, Office of the Secretary—6.
Aircraft Crew/Mechanic Information File—Interior, Office of the Secretary—7.
Aircraft Services Administrative Management and Fiscal Records—Interior, Office of the Secretary—8.
Private Relief Claimants, Department—Interior, Office of the Secretary—12.
Private Relief Claimants, Bureau—Office of the Secretary—13.

INTERIOR/AAI- 1

System name: Audit Files and Workpapers -- Interior, Office of the Secretary-- 1.

System location: Office of Audit and Investigation at the following locations: (1) 18th and C St., N.W., Washington, D.C. 20240. (2) Eastern Region, 801 19th St., N.W., Washington, D.C. 20240. (3) Central Region, 1841 Wadsworth, Lakewood, Colorado 80215. (4) Central Region, Suboffice, Rm. 334, Old Post Office Bldg., 123 4th St. S.W., Albuquerque, New Mexico 87102. (5) Western Region, Federal Office Bldg., Rm. W2219, 2800 Cottage Way, Sacramento, California 95825. (6) Western Region Suboffice, 2149 N.E. Hoyt St., Portland, Oregon 97232. (7) Audit site during process of an audit.

Categories of individuals covered by the system: Individuals who are or have been subject to an audit.

Categories of records in the system: Information such as earnings, employment history, debts, performance, and other personal information.

Authority for maintenance of the system: (1) 5 U.S.C. 301. (2) 43 U.S.C. 1457. (3) 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are to develop audit reports which bring to the attention of management, contractors and grantees existing deficiencies and recommendations for correcting those deficiencies. Disclosures outside the Department of the Interior may be made: (1) to a Federal, State or local government agency who has funds involved to alert that agency to the deficiencies so the agency may take corrective action; (2) by transfer to another Federal agency or a State or local government body having partial or complete jurisdiction over the auditee; (3) to the U. S. Department of Justice when related to litigation or anticipated litigation; (4) for transfer of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (5) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained in binders and file folders; (2) Retrievability -- indexed by audit assignment number and report title, state or bureau; (3) Safeguards -- those files and reports whose contents include items subject to the Privacy Act will be locked and access restricted; (4) Disposal -- (a) grants: last audit retained in office; five years retained in Archives. (b) contracts: current fiscal year plus one past retained in office; five years retained in Archives. (c) internal: two years retained in office; five years retained in Archives. Disposal is authorized after expiration of above time periods.

System manager(s) and address: Director of Audit and Investigation, Office of Audit and Investigation, 18th and C Streets, N.W., Washington, D.C. 20240.

Notification procedure: Same as above. (See 43 CFR 2.60 for details on inquiries.)

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and must meet the requirements of 43 CFR 2.71.

Record source categories: Individuals and from records about the individuals.

INTERIOR/AAI- 2

System name: Investigative Records -- Interior, Office of the Secretary-m 2.

System location: Division of Investigation, Office of Audit and Investigation, Office of the Secretary, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Categories of individuals covered by the system: Departmental employees, prospective employees, contractors, subcontractors (prospective contractors and subcontractors), grantees, subgrantees, persons doing business with the Department, private citizens who have contact with the Department or geographical areas under its jurisdiction.

Categories of records in the system: Investigative reports and material pertaining to allegations of violations of law, such as, misconduct by employees, irregularities by contractors, grantees, etc., and irregularities involving the integrity of the policies and practices of the Interior and real and personal property under its jurisdiction.

Authority for maintenance of the system: (1) Reorganization Plan No. 3 of 1950, 43 U.S.C. 1951n. (2) 5 U.S.C. 7301. (3) Executive Order No. 11222. 18 U.S.C. 201n. (4) 43 U.S.C. 11. (5) 30 U.S.C. 6. (6) 43 U.S.C. 31. (7) 25 U.S.C. 68.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are to (a) conduct and report investigations stemming from specific complaints of serious misconduct or irregularities to ensure compliance by Departmental employees, prospective employees, contractors, subcontractors (prospective contractors and subcontractors), grantees, subgrantees, and persons doing business with the Department with Federal Statutes, regulations, policies, and procedures; and (b) conduct other fact finding studies as the Secretary may direct. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation involving the records or the subject matter of the records; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulations, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; and (5) to Federal, State, or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- file folders. (2) Retrievability -- by name. (3) Safeguards -- locked file cabinets within locked rooms. Access to authorized persons only. (4) Retention and Disposal -- reports of complete field investigations are disposed of after 30 years. Matters not subjected to full field investigation are disposed of after 15 years. Destruction is by shredding or burning under supervision.

System manager(s) and address: Chief, Division of Investigation, Office of Audit and Investigation, Room 7356, Interior Building, 18th and C Streets, N.W., Washington, D.C. 20240.

Systems exempted from certain provisions of the act: Under the specific authority provided by 5 U.S.C. 552a(k)(2), the Department of the Interior has adopted a regulation, 43 CFR 2.79(b), which exempts this system from the provisions of 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H) and (1) and (f) and the portions of 43 CFR, Part 2, Subpart C which implement these provisions. The reasons for adoption of this regulation are set out at 40 FR 37217 (August 26, 1975). by 5 U.S.C. 552a(k).

INTERIOR/AAI- 3

System name: Financial Interest Statements and Ethics Counselor Decisions - Interior, Office of the Secretary-- 3.

System location: (1) Office of Audit and Investigation, U.S. Department of the Interior, 18th and C St., N.W., Washington, D.C. 20240. (2) Bureau and Office Ethics Counselors, Deputy Ethics Counselors and Assistant Ethics Counselors. (A list may be obtained from the Department Ethics Counselor, Office of Audit and Investigation.)

Categories of individuals covered by the system: Current or past Interior Department employees required to file Statement of Employment and Financial Interest as required in 43 CFR 20.735-18,19, 20,22 and 43.

Categories of records in the system: Contains Confidential Statements of Employment and Financial Interest (forms DI-212 or DI-213) for present or past incumbents in positions required to file such statements by 43 CFR 20.735-22(a) or 20.735-43(a) respectively. Contains Public Disclosure Statements of known Financial Interests (forms DI-211, DI-211A and DI-211B) for present or past incumbents in positions required to file such statements by 43 CFR 20.735-18,19 and 20. Also contains record of conflict of interest decisions, analysis of financial holdings, employee statement, Solicitor's comments, head of bureau or office comments, and supervisor comments on present or past employees as requested by the bureau or office counselors or needed by the Departmental counselor.

Authority for maintenance of the system: (1) 5 USC 7301. (2) 43 USC 11. (3) 30 USC 6. (4) 43 USC 31. (5) 18 USC 201-209. (6) 25 USC 68. (7) E.O. 11222. (8) PL. 94-579. (9) P.L. 94-429. (10) P.L. 94-163.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to review employee financial interests and determine employee compliance or non-compliance with applicable conflict of interest statutes and regulations; (b) to record the fact that the employee has been made aware of specifically directed legislation or regulations covering his organization and that he or she is in compliance with such specific legislation or regulations; and (c) to provide an adequate system of records for Interior auditors performing compliance audits within the Interior Department. Disclosures outside the Department of the Interior may be made; (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or, (3) to a Congressional office from the record of an individual in response to an inquiry made at the request of that individual, (4) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit, (5) to the Civil Service Commission to perform oversight reviews, (6) to the public for only those records covered by 43 CFR 20.735-18,19 and 20.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: For Confidential Statements of Employment and Financial Interests: (1) Storage -- maintained in file folders; (2) Retrievability -- filed alphabetically by position or employee name; (3) Safeguards -- maintained in locked file cabinet in locked office; (4) Disposal schedule -- 43 CFR, Part 20.735-22(e)(2) requires disposal two years after employee leaves position requiring the filing of the Statement. For Public Disclosure Statements of known Financial Interests: (1) Storage--maintained in file folders (2) Retrievability-- filed by Bureau, form number, and alphabetically by employee name at the Department Library. (3) Accessing--maintained by Bureau or Office Ethics Counselors designated in 20.735-22(c) and maintained centrally at the main Department Library.

System manager(s) and address: Department Ethics Counselor, Office of Audit and Investigation, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Notification procedure: Inquiries may be addressed to the System manager, as indicated above, or to the Bureau or Office Ethics Counselor as listed in 43 CFR 20.735-22(c). (See 43 CFR 2.60 for details on inquiries.)

Record access procedures: A request for access may be addressed to the System Manager (for information regarding the entire system) or to the Bureau or Office Ethics Counselor as listed in 43 CFR 20.735-22(c) (for information regarding the specific bureau or office system). The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63. With respect to the public disclosure statements, persons wishing to invoke the Privacy Act may do so in accordance with the foregoing procedures. However, such persons are advised that the public disclosure statements are available for direct access from Bureau of Office Ethics Counselors designated in 20.735-22(c) and at the main Department Library.

V4269 APR 11 77 UMI

Contesting record procedures: A petition for amendment shall be addressed to the System Manager or to the appropriate Bureau or Office Ethics Counselor as listed in 43 CFR 20.735-22(c), and must meet the requirements of 43 CFR 2.71.

Record source categories: Present or past Interior employees required to file Financial Interest Statements, Ethics Counselors, employee's supervisors, or the Solicitor.

INTERIOR/AAS- 5

System name: Aircraft Instructor Qualification File -- Interior Office of the Secretary -- 5.

System location: Division of Technical Services, Office of Aircraft Services (OAS), 3905 Vista Avenue, Boise, Idaho 83705.

Categories of individuals covered by the system: Department of the Interior (DOI) employees.

Categories of records in the system: This system contains data concerning DOI employees trained by OAS to instruct aviation related subjects within DOI, including addresses, phone numbers, and notification procedures.

Authority for maintenance of the system: 5 U.S.C. 301, Reorganization Plan 3 of 1950.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to maintain updated instructor qualification records (b) to refer instructors to DOI Bureaus/Offices. Disclosures outside the Department of the Interior may be made, (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (3) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit, (4) to Federal, State, or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, license, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- records are maintained in manual form. (2) Retrievability -- records are indexed by name, instructional function, bureau/office. (3) Safeguards -- access to and use of these records are limited to those persons whose official duties require such access. (4) Retention and Disposal -- records are maintained on a current basis and disposed of when superseded.

System manager(s) and address: Chief, Technical Services Division, Office of Aircraft Services, 3905 Vista Avenue, Boise, Idaho 83705.

Notification procedure: Inquiries should be directed to the System Manager. See 43 CFR 2.60 for submission requirements.

Record access procedures: Same as above. See 43 CFR 2.63 for submission requirements.

Contesting record procedures: Same as above. See 43 CFR 2.71 for submission requirements.

Record source categories: Information in this system comes from individuals to whom it applies and Technical Representative (Training), OAS.

INTERIOR/AAS- 6

System name: Aircraft Crew/Mechanic Information File (Commercial Operators) -- Interior, Office of the Secretary-- 6.

System location: (1) National Headquarters, Division of Technical Services, Office of Aircraft Services, 3905 Vista Avenue, Boise, Idaho 83705. (2) Regional Director, Office of Aircraft Services, 1935 Merrill Field Drive, Anchorage, Alaska 99501.

Categories of individuals covered by the system: Aircraft crew/mechanic employees of commercial operators, utilized by Department of the Interior (DOI) bureaus/offices.

Categories of records in the system: The system contains information relative to certificates, qualifications, experience levels, training and proficiency, performance information, and accident experience data.

Authority for maintenance of the system: 5 U.S.C. 301, Reorganization Plan 3 of 1950.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to determine aircraft crew/mechanic qualifications to comply with contract specifications. Disclosures outside the Department of the Interior may be made, (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (3) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license contract, pilot qualification card, grant or other benefit, (4) to Federal, State, local agencies or commercial business where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, pilot qualification card, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- records are maintained in manual form (2) Retrievability -- records are indexed by name. (3) Safeguards -- access to and use of these records are limited to those persons whose official duties require such access. (4) Retention and Disposal -- records are maintained on a current basis and disposed of when superseded.

System manager(s) and address: (1) For National Headquarters -- Chief, Technical Services Division, Office of Aircraft Services, 3905 Vista Avenue, Boise, Idaho 83705. (2) For Regional Offices -- Regional Director, Office of Aircraft Services, 1935 Merrill Field Drive, Anchorage, Alaska 99501.

Notification procedure: Inquiries should be directed to the System Manager. See 43 CFR 2.60 for submission requirements.

Record access procedures: Same as above. See 43 CFR 2.63 for submission requirements.

Contesting record procedures: Same as above. See 43 CFR 2.71 for submission requirements.

Record source categories: Information in this system comes from individuals to whom it applies and Technical Representatives, Office of Aircraft Services.

INTERIOR/AAS- 7

System name: Aircraft Crew/Mechanic Information File -- Interior, Office of the Secretary-- 7.

System location: (1) National Headquarters -- Office of Aircraft Services, Division of Technical Services, 3905 Vista Avenue, Boise, Idaho 83705. (2) Regional Office -- Regional Director, Office of Aircraft Services, 1935 Merrill Field Drive, Anchorage, Alaska 99501.

Categories of individuals covered by the system: Professional, dual function and incidental function pilots, aircrew members, and mechanics employed by Interior bureaus/offices.

Categories of records in the system: The system contains information relative to certificates, qualifications, experience levels, training and proficiency, performance information, and accident experience data.

Authority for maintenance of the system: 5 U.S.C. 301, Reorganization Plan 3 of 1950.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to determine aircraft crew/mechanic qualifications to comply with OAS procedures and directives. Disclosure outside the Department of the Interior may be made, (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule regulation, order or license, (3) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, pilot qualification card, grant or other benefit, (4) to Federal, State, local agencies or commercial business where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, license, pilot qualification card, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Records are maintained in manual form. (2) Retrievability -- Records are indexed by agency, location, name. (3) Safeguards -- Access to and use of these records are limited to those persons whose official duties require such access. (4) Retention and Disposal -- Records are maintained on a current basis and disposed of when superseded.

System manager(s) and address: (1) National Headquarters--Chief, Technical Services Division, Office of Aircraft Services, 3905 Vista Avenue, Boise, Idaho 83705. (2) Regional Office--Regional Director, Office of Aircraft Services, 1935 Merrill Field Drive, Anchorage, Alaska 99501.

Notification procedure: Inquiries regarding the existence of records shall be addressed to the appropriate System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access shall be addressed to the appropriate System Manager. The request must be in writign and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the appropriate System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Information in this system comes from individual to whom it applies and Technical Representatives, Office of Aircraft Services.

INTERIOR/AAS- 8

System name: Aircraft Services Administrative Management and Fiscal Records - Interior, Office of the Secretary-- 8.

System location: (1) Office of Aircraft Services, U.S. Department of the Interior, 3905 Vista Avenue, Boise, Idaho 83705. (2) Office of Aircraft Services, U.S. Department of the Interior, 1935 Merrill Field Drive, Anchorage, Alaska 99501.

Categories of individuals covered by the system: Employees and some former employees of the Office of Aircraft Services.

Categories of records in the system: Payroll records, including pay, leave and cost distribution records, including deductions for bonds, insurance, income taxes, allotments to financial institutions, overtime authorizations, and related documents. Travel records, including administrative approvals, travel expenses claimed and/or paid, receipts for expenditures claims. Government transportation requests, travel advance accounts and related records. Records of accountability for Government-owned property. Safety records, including claims under the Military Personnel and Civil Employees Claims Act. Records of issuance of Government identification cards and Government driver's licenses. Related records concerning administrative and fiscal management.

Authority for maintenance of the system: 5 U.S.C. 301, 3101, 5101-5115, 5501-5596, 5701-5709, 31 U.S.C. 66a, 240-243, 40 U.S.C. 483(b), 43 U.S.C. 1467, 44 U.S.C. 3101, Executive Order No. 11807.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records are (a) for administrative and fiscal management. Disclosure outside the Department of the Interior may be made, (1) to the Department of the Treasury for preparation of (a) payroll checks, (b) payroll deduction and other checks to Federal, State and local and (c) checks for reimbursement of employees and others, (2) to the Internal Revenue Service and to the State, Commonwealth, Territorial and local governments for tax purposes, (3) to the Civil Service Retirement System and other contributions, (4) to another Federal agency to which an employee has transferred, (5) to another Federal agency having a subject matter interest in the records, (6) to the U. S. Department of Justice when related to litigation or anticipated litigation, (7) of information indicating a violation or potential violation of a statute, regulation, rule, order, license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (8) to Federal, State, local agencies or commercial business where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, license, pilot qualification card, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual and automated. (2) Retrievability -- May be retrieved by individual name or social security number. (3) Safeguards -- Records are maintained in accordance with 43 CFR 2.51. (4) Retention and Disposal -- According to approved records disposal schedules.

System manager(s) and address: Director, Office of Aircraft Services, U.S. Department of the Interior, 3905 Vista Avenue, Boise, Idaho 83705.

Notification procedure: Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The 43quest must meet the content 43qui43ments of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Employees, supervisors, timekeepers.

INTERIOR/ACL-12

System name: Private Relief Claimants, Department -- Interior, Office of the Secretary--12.

System location: Office of Legislation, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Categories of individuals covered by the system: Individual claimants against the United States seeking remedy through private relief bills for claims involving the programs and activities of the Department of the Interior.

Categories of records in the system: Copies of relief bills and congressional committee reports, Departmental reports on bills, correspondence, comments of bureaus and offices.

Authority for maintenance of the system: 5 U.S.C. 301, 43 U.S.C. 1457, 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is to support legislation for the relief of private claimants. Disclosures outside the Department of the Interior may be made (1) to Congress to report on the basis and validity of claims; (2) to another Federal agency having a subject matter interest in the claim; (3) to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19, at any stage of the legislative coordination and clearance process as set forth in that Circular; (5) to the Congressional sponsor of a private relief bill and to representatives of the individual who is the subject of the legislation; (6) to the U. S. Department of Justice when related to litigation or anticipated litigation.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1)Storage -- Maintained manually in file folders. (2) Retrievability -- cross-indexed by name of claimant. (3) Safeguards -- maintained with safeguards meeting the requirements of 43 CFR 2.51 for manual records. (4) Disposal -- retired to Federal Records Center after three Congresses.

System manager(s) and address: Director, Office of Legislation, U.S. Department of the Interior, Washington, D.C. 20240.

Notification procedure: An individual may inquire whether or not the system contains a record pertaining to him by addressing a written request to Chief, Service Branch, Office of Legislation, U.S. Department of the Interior, Washington, D.C. 20240. The inquiry must be in writing and state that the individual seeks information concerning records pertaining to him. See 43 CFR 2.60.

Record access procedures: Same as Notification. See 43 CFR 2.63 for additional content requirements for requests.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the requirements of 43 CFR 2.71.

Record source categories: Congress, individual claimants, bureaus and offices of the Department.

INTERIOR/ACL-13

System name: Private Relief Claimants, Bureau -- Office of the Secretary--13.

System location: (1) Bureau of Indian Affairs, 1951 Constitution Avenue, N.W., Washington, D.C. 20245. (2) Geological Survey Na-

V4269 APR 11 77 UMI

tional Center, Reston, Virginia 22092. (3) Bureau of Land Management, Division of Legislation and Regulatory Management, 18th and C Streets, N.W., Washington, D.C. 20240.

Categories of individuals covered by the system: Individual claimants against the United States seeking remedy through private relief bills for claims involving the programs and activities of the Department of the Interior.

Categories of records in the system: Copies of relief bills and Congressional committee reports, Departmental reports on bills, correspondence, information compiled in connection with the claims, communications of requests from the sponsor of the bill on the claimant's attorney.

Authority for maintenance of the system: 5 U.S.C. 301, 43 U.S.C. 1457, 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is to support legislation for the relief of private claimants. Disclosures outside the Department of the Interior may be made (1) to Congress on the basis and validity of claims; (2) to another Federal agency having a subject matter interest in a claim; (3) to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular; (4) to the Congressional sponsor of a private relief bill and to representatives of the individual who is subject of the legislation; (5) to the U. S. Department of Justice when related to litigation or anticipated litigation; (6) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (7) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Maintained manually in file folders. (2) Retrievability -- Cross-indexed by name of claimant. (3) Safeguards -- Maintained with safeguards meeting the requirements of 43 CFR 2.51 for manual records. (4) Disposal -- Retired to Federal Records Center after three Congresses.

System manager(s) and address: (1) Director, Congressional and Legislative Staff, Room 4639, Bureau of Indian Affairs, 1951 Constitution Avenue, N.W., Washington, D.C. 20245. (2) Legislative Specialist, Geological Survey National Center, Reston, Virgina 22092. (3) Chief, Division of Legislation and Regulatory Management, Bureau of Land Management, 18th and C Streets, N.W., Washington, D.C. 20240.

Notification procedure: An individual may inquire whether or not the system contains a record pertaining to him by addressing a written request to the appropriate System Manager listed above. The inquiry must be in writing and state that the individual seeks information concerning records pertaining to him. See 43 CFR 2.60.

Record access procedures: Same as Notification. See 43 CFR 2.63 for additional content requirements for requests.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the requirements of 43 CFR 2.71.

Record source categories: Congress, individual claimants, bureaus and offices of the Department.

INTERIOR/AEM-15

System name: Emergency Defense Mobilization Files -- Interior, Office of the Secretary--15.

System location: (1) Office of the Assistant Secretary -- Energy and Minerals. (2) Office of the Assistant Secretary -- Land and Water Resources. (3) Defense Electric Power Administration. Address for all locations: U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Categories of individuals covered by the system: Members of the National Defense Executive Reserve and other individuals assigned responsibilities in the event of a national defense emergency.

Categories of records in the system: Biographical and related records.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is to administer the NDER program. Disclosures outside the Department of the Interior may be made (1) to officials of participating departments and agencies relevant to reservists assigned to their units; (2) to the U. S. Department of Justice when related to litigation or anticipated litigation; (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Maintained in manual form. (2) Retrievability -- Indexed by individual name. (3) Safeguards -- Maintained with safeguards meeting the requirements of 43 CFR 2.51. (4) Disposal -- Records held for two years after individual's resignation or death.

System manager(s) and address: (1) For records maintained in the Office of the Assistant Secretary -- Energy and Minerals, the Assistant Secretary -- Energy and Minerals. (2) For records maintained in the Office of the Assistant Secretary -- Land and Water Resources, the Assistant Secretary -- Land and Water Resources. (3) For records maintained by the Defense Electric Power Administration, the Administrator, DEPA.

Notification procedure: A written, signed request stating that the requester seeks information concerning records pertaining to him is required. The request shall be addressed to the appropriate System Manager. See 43 CFR 2.60 for submission requirements.

Record access procedures: A request for access shall be addressed to the appropriate System Manager and shall meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and shall meet the content requirements of 43 CFR 2.71.

Record source categories: Individuals.

INTERIOR/AEO-18

System name: Discrimination Complaints -- Interior, Office of the Secretary--18.

System location: (1) Office for Equal Opportunity, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240. (2) All Regional Offices of the Office for Equal Opportunity: (a) Office for Equal Opportunity - Eastern Region, U.S. Department of the Interior, 4040 N. Fairfax Drive - 10th Floor, Arlington, VA. 22203; (b) Office for Equal Opportunity - Western Region, U.S. Department of the Interior, Denver Federal Center, Building 67, Room 880, Denver, CO 80225; and (c) Office for Equal Opportunity - Alaska Region, U.S. Department of the Interior, 204 East Fifth Avenue, Anchorage, AK 99501.

Categories of individuals covered by the system: Individuals who claim to have been discriminated against on the basis of race, color, sex, religion, or national origin in violation of Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d), in violation of Section 403 of the Trans-Alaska Pipeline Authorization Act (87 Stat. 576), or in violation of Executive Order 11246, as amended (3 CFR 169 (1974 ed.)).

Categories of records in the system: Contains complaints of discrimination; reports of complaint investigations and supplementary documentary evidence; correspondence, including requests for information from other Federal agencies and from minority, civil rights, women's, and community organizations; documents obtained from Government contractors and subcontractors, from the administrators and recipients of Government funds, and from Government permitees under the Trans-Alaska Pipeline Authorization Act (87 Stat. 576); and miscellaneous statistical data obtained from various sources.

Authority for maintenance of the system: Title VI of the Civil Rights Act of 1964 (42 USC 2000d) and its implementing regulations (43 CFR Pt. 17); Section 403 of the Trans-Alaska Pipeline Authorization Act (87 Stat. 576) and its implementing regulations (43 CFR Pt. 27); and Executive Order 11246, as amended (3 CFR 169 (1974 ed.)) and its implementing regulations (41 CFR Ch. 60).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is for the investigation and resolution of complaints of discrimination in violation of Title VI of the Civil Rights Act of 1964 (42 USC 2000D), in violation of Section 403 of the Trans-Alaska Pipiline Authorization Act (87 Stat. 576), or in violation of Executive Order 11246, as amended (3CFR 169 1974 Ed.)). Disclosures outside the Department of the Interior may be made (1) to the U. S. Equal Employment Opportunity Commission under the terms of the Office of Federal Constract Compliance Equal Employment Opportunity Commission Memorandum of Understanding dated September 11, 1974, (39 FR 35855); (2) to the Office of Federal Contract Compliance for the purpose of audit and evaluation; (3) to other Federal agencies charged with the enforcement of equal employment opportunity laws, orders and regulations, on a need-to-know basis to assist these agencies in their enforcement activities; (4) to the U. S. Department of Justice when related to litigation or anticipated litigation; (5) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (6) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained in manual form in file folders. (2) Retrievability -- indexed by name of complainant. (3) Safeguards -- maintained with safeguards meeting the requirements of 43 CFR 2.51 for manual records. (4) Disposal -- records held for three years after close of case, then sent to storage in Federal Records Center.

System manager(s) and address: (a) For complaints arising under Executive Order 11246, as amended (3 CFR 169 (1974 ed.)), and under Title VI of the Civil Rights Act of 1964 (42 USC 2000d) - Director, Office for Equal Opportunity, Office of the Secretary, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240. (b) For complaints arising under Section 403 of the Trans-Alaska Pipeline Authorization Act (87 Stat. 576) - Authorized Officer, Alaska Pipeline Office, U.S. Department of the Interior, 808 E Street, Anchorage, AK 99501.

Notification procedure: A written and signed request stating that the requester seeks information concerning records pertaining to him is required, and shall be addressed to the appropriate System Manager. 43 CFR 2.60.

Record access procedures: A request for access shall be addressed to the appropriate System Manager, and shall meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall meet the requirements of 43 CFR 2.71.

Record source categories: Complainants; Government contractors and subcontractors and their employees; Government permitees under Section 403 of the Trans-Alaska Pipeline Authorization Act (87 Stat. 576) and their employees; the administrators and recipients of Government funds from programs administered by the Department of the Interior; Federal, State, and local government agencies; community, minority, civil rights, and women's organizations; unions; members of Congress and their staffs; Bureaus and offices of the Department of the Interior; and confidential informants, to the extent they possess data otherwise unavailable.

INTERIOR/AES-20

System name: Secretarial Correspondence Card File -- Interior, Office of the Secretary--20.

System location: Executive Secretariat, Office of the Under Secretary, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Categories of individuals covered by the system: Persons who have written to the Secretary of the Interior on official business.

Categories of records in the system: Identification of writer; subject, date and disposition of correspondence.

Authority for maintenance of the system: 5 U.S.C. 301; 43 U.S.C. 1457, 44 U.S.C. 3101, Reorganization Plan 3 of 1950.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of records is to ascertain status of correspondence to the Secretary of the Interior. Disclosures outside the Department of the Interior may be made (1) to a Federal agency so that the agency may respond to an inquiry from the named individual, (2) to the U. S. Department of Justice when related to litigation or anticipated litigation (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, and (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Wheeldex (index file). (2) Retrievability -- indexed by name and number. (3) Safeguards -- records maintained in locked file in secure room. (4) Retention and Disposal -- records maintained for one to two years then destroyed.

System manager(s) and address: Executive Secretary, Interior Building, 18th and C Streets, N. W., Washington, D. C. 20240.

Notification procedure: Same as above. See 43 CFR 2.60 for submission requirements.

Record access procedures: Same as above. See 43 CFR 2.63 for submission requirements.

Contesting record procedures: Same as above. See 43 CFR 2.71 for submission requirements.

Record source categories: Individuals on whom the record is maintained.

INTERIOR/AJC-25

System name: Youth Conservation Corps (YCC) Enrollee Records -- Interior, Office of the Secretary--25.

System location: (1) All USDI Federal Camp Directors' Offices. Addresses of YCC Camp Directors may be obtained each year by writing to the System Manager. (2) Administrative Services Center, Bureau of Reclamation, Salt Lake City, Utah 84147.

Categories of individuals covered by the system: Enrollees of current year USDI Federal YCC program.

Categories of records in the system: (1)Current Enrollees: USDI Application Forms; USDI Medical History Forms; Personal and Statistical Information. (2) Optional: Evaluation of enrollee's performance by camp staff; Accident, injury and treatment forms. (3) Past Enrollees: List of names and addresses. (4) Current Alternates: USDI Application Forms.

Authority for maintenance of the system: PL 93-408.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) the identification of current and past enrollees and current alternates; (b) for the selection of alternate upon enrollee withdrawal from program; (c) to provide enrollee participation record for school credit. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Agriculture in connection with joint administration of YCC program; (2) to the U. S. Department of Justice when related to litigation or anticipated litigation; (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (5) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; (6) to Federal State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, license, contract, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained in personnel jackets. (2) Safeguards -- stored in metal filing cabinets with three way combination locks or key locks. (3) Retention and Disposal -- records are maintained until the end of the current program. At termination, a list of the names and addresses of enrollees is retained, while the parental permission portion of USDI Application Forms and all USDI Medical History Forms and any completed Accident, injury and treatment forms are forwarded to the Administrative Services Center, Bureau of Reclamation, Salt Lake City, Utah 84147. All other non-record information in the system of records is destroyed. The list of enrollee names and addresses is retained. Disposal schedule is pending. The application forms of current alternates are destroyed at the termination of the current program.

System manager(s) and address: Director, Office of Manpower Training and Youth Activities, Department of the Interior, Office of the Secretary, Washington, D.C. 20240.

Notification procedure: System Manager and camp directors. Camp director will only be able to provide information from records maintained at the camp. See 43 CFR 2.60.

Record access procedures: System Manager or camp directors. See 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Individual on whom the record is maintained, medical doctor, school or other official.

INTERIOR/AJC-26

System name: Youth Conservation Corps (YCC) Enrollee Payroll Records File - Interior, Office of the Secretary--26.

System location: Administrative Services Center, Bureau of Reclamation, P.O. Box 11568, Salt Lake City, Utah 84147. Records are joint records of the U.S. Department of the Interior, Office of Manpower Training and Youth Activities and the U.S. Department of Agriculture, Forest Service.

Categories of individuals covered by the system: Youth accepted into the YCC program.

Categories of records in the system: Personnel, pay, statistical and termination data compiled by camp officials.

Authority for maintenance of the system: PL 93-408.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) the identification of current and past enrollees; (b) for payroll purposes for current enrollees; (c) to develop demographic characteristics of enrollee population for statistical purposes. Disclosures outside the Department of the Interior may be made (1) to the Department of the Treasury for preparation of (a) payroll checks and (b) payroll deduction and other checks to Federal, State and local government agencies, non-governmental organizations and individuals; (2) to the Internal Revenue Service and to State, Commonwealth, Territorial and local government for tax purposes; (3) to the Civil Service Commission in connection with the Civil Service Retirement system; (4) to another Federal agency to which an employee has transferred; (5) to the U. S. Department of Justice when related to litigation or anticipated litigation; (6) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (7) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (8) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; (9) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, license, contract, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- current and past personal and statistical information on magnetic tape and printouts. (2) Retrievability -- tape reels are coded by number. (3) Safeguards -- tapes are stored in a tape file and vault while printouts are stored in a locked metal filing cabinet. (4) Retention and Disposal -- current payroll information is purged from magnetic tapes at the termination of the program after being transferred to a sedle magnetic tape which is retained permanently. Other material disposal regulations are pending.

System manager(s) and address: (1) Director, Division of Manpower and Youth Conservation Programs, U.S. Department of Agriculture, Forest Service, Washington, D.C. 20250. (2) Director, Office of Manpower Training and Youth Activities, U.S. Department of the Interior, Washington, D.C. 20240.

Notification procedure: Inquiries regarding the existence of records should be addressed to the System Managers. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Managers. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Managers and must meet the content requirements of 43 CFR 2.71.

Record source categories: Individual on whom the record is maintained, camp personnel.

INTERIOR/AJC-27

System name: Youth Conservation Corps (YCC) Enrollee Medical Records -- Interior, Office of the Secretary--27.

System location: Administrative Services Center, Bureau of Reclamation, P.O. Box 11568, Salt Lake City, Utah 84147.

Categories of individuals covered by the system: Enrollees of past Interior Federal YCC programs.

Categories of records in the system: (1) U.S.D.I. Medical History Forms. (2) Accident, injury and treatment forms. (3) Parental permission portion of the U.S.D.I. Application forms.

Authority for maintenance of the system: PL 93-408.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) for the adjudication of FEC medical claims, and (b) the adjudication of tort claims. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Agriculture in connection with joint administration of YCC program; (2) to the U. S. Department of Justice when related to litigation or anticipated litigation; (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (5) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; (6) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, license, contract, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- manual records. (2) Retrievability -- by individual name. (3) Safeguards -- maintained with safeguards meeting the requirements of 43 CFR 2.51. (4) Retention and Disposal -- pending.

System manager(s) and address: Director, Office of Manpower Training and Youth Activities, Department of the Interior, Office of the Secretary, Washington, D.C. 20240.

Notification procedure: Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Individual on whom the record is maintained, medical doctor, and camp official compiling accident or medical treatment information.

INTERIOR/AJC-28

System name: Youth Conservation Corps (YCC) Research file -- Interior, Offiice of the Secretary--28.

System location: Institute for Social Research, University of Michigan, Ann Arbor, Michigan 48106. Records are joint records of the U.S. Department of the Interior, Office of Manpower Training and Youth Activities and the U.S. Department of Agriculture, Forest Service.

Categories of individuals covered by the system: A random sample of 600 1973 YCC enrollees.

Categories of records in the system: The file contains questionnaire responses, environmental education scores, and verbal skills test data of questionnaire respondents.

Authority for maintenance of the system: PL 93-408.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is for future research on long term values gained from the YCC experience. Disclosures outside the Department of th of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, state, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual. at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- file is on a magnetic tape. (2) Retrievability -- data on each person is identified by a case number. It can be retrieved by matching the case number with a mailing list containing case numbers, name and address. (3) Safeguards -- only the research staff have access to the mailing list. (4) Retention and Disposal -- files are being retained indefinitely for possible future longitudinal studies of long range benefit.

System manager(s) and address: (1) Director, Division of Manpower and Youth Conseration Programs, U.S. Department of Agriculture, Forest Service, Washington, D.C. 20250. (2) Director, Office of Manpower Training and Youth Activities, U.S. Department of the Interior, Washington, D.C. 20240.

Notification procedure: Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: The individual covered in the sample.

INTERIOR/AJC-29

System name: Youth Conservation Corps (YCC) Recruitment Files -- Interior, Office of the Secretary--29.

System location: Office of the YCC recruiter in each State. Address of State recruiter may be obtained each year by writing to the System Managers as listed below.

Categories of individuals covered by the system: Youths between thse ages of 15 and 18 who file an application to attend a Forest Service, Department of the Interior, or State Grant YCC camp.

Categories of records in the system: The system consists of application forms submitted by eligible youth.

Authority for maintenance of the system: Public Law 93-408.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is for selection among applications of all eligible applications. Persons selected are either offered employment in a YCC camp or placed on an alternate list to be used in case of declination. Disclosures outside the Department of the Interior may be made (1) to the U. S. Forest Service, States, counties, cities and other subgrantees for employment purposes; (2) to the U. S. Department of Jutice when related to litigation or anticipated litigation; (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license: (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (5) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, license, contract, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- manual. (2) Retrievability -- applications are filed alphabetically by name of individual applicant. (3) Safeguards -- records are kept locked in confidential files. (4) Retention and Disposal -- pending.

System manager(s) and address: (1) Director, Division of Manpower and Youth Conservation Programs, U.S. Department of Agriculture, Forest Service, Washington, D.C. 20250. (2) Director, Office of Manpower Training and Youth Activities, U.S. Department of the Interior, Washington, D.C. 20240.

Notification procedure: Inquiries should be made to one of the above offices for information regarding this system of records.

Record access procedures: Any individual may obtain information as to the procedures for gaining access to a record in the system which pertains to him, by submitting a written request to the appropriate official referred to in the preceeding paragraph.

Contesting record procedures: A petition for amendment should be submitted to the appropriate System Manager.

Record source categories: The records in this system originate in two ways: (1) The YCC application form prepared by the applicant and any additions or corrections thereto, also prepared by the applicant. (2) Additional information added to the file by the State recruiter concerning the applicant's selection, nonselection, declination, etc.

INTERIOR/ALS-35

System name: Library Circulation Control System -- Interior, Office of the Secretary--35.

System location: (1) Office of Library Services, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240. (2) Libraries maintained by bureaus and offices of the Department. (List of addresses may be obtained from the System Manager.)

Categories of individuals covered by the system: Borrowers of library materials from Department of the Interior libraries.

Categories of records in the system: Borrowers' name and working address, book call number and due date.

Authority for maintenance of the system: 43 U.S.C. 67a, 1457, 1467, 40 U.S.C. 483(b), 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is control of library materials. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- manual card file. (2) Retrievability -- name, call number, date due. (3) Safeguards -- attended constantly during working hours, library locked thereafter. (4) Retention and Disposal -- current year plus one, disposed of in regular trash.

System manager(s) and address: Director, Office of Library Services, Department of the Interior, Washington, D.C. 20240.

Notification procedure: Inquiries regarding the existence of records shall be addressed to the System Manager, with respect to records located in the Office of Library Services, and to individual librarians with respect to records located in the facility for which each is responsible. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access shall be addressed to the System Manager, with respect to records located in the Office of Library Services, and to individual librarians with respect to records located in the facility for which each is responsible. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Individual using library services.

INTERIOR/AMO-45

System name: Security Clearance Files and Other Reference Files -- Interior, Office of the Secretary--45.

System location: Office of the Secretary, Office of Administrative Services (AMO), Division of Enforcement and Security Manage-

V4269 APR 11 77 UMI

ment, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Categories of individuals covered by the system: Office of the Secretary personnel, Heads of Bureaus, and their respective Bureau Security Officers whose duties have been designated critical sensitive or non-critical sensitive. Additional indices are maintained on 3 x 5 index cards as indicated under the Subparagraph 'Authority for maintenance of the system'.

Categories of records in the system: Contains copies of SF-85 or SF-86 and/or SF-171 supplied by individual concerned as well as copies of letters of transmittal between Interior and U.S. Civil Service Commission concerning the individuals' background investigation. Further, contains copy of certification of clearance status and briefing and/or debriefing certificate signed by individual as appropriate. Card file reflects summary, case number and disposition of the case number and disposition of the case file following review.

Authority for maintenance of the system: Executive Order 10450. Additionally certain reports of investigation pertaining to crimes committed on Federal Lands under rograms within the jurisdiction of the Secretary of the Interior are screened and summarized on 2 x 5 index cards.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are for the identification of (a) Office of the Secretary personnel and Heads of Bureaus and their respective Security Officers who have been granted a security clearance; (b) persons in a pending clearance status awaiting the results and adjudication of Civil Service Commission investigations; and (c) persons whose clearance has been terminated in the last two years due to an administrative down-grading, transfer to other agencies, employment retirement, or death. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, state, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; (5) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, license, contract, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained in 8 x 10 1/2 inch folders or on card stock as indicated above. (2) Retrievability -- indexed by name. (3) Safeguards -- stored in a locked room in manipulation-proof 3-way combination lock steel safes. Access granted only to cleared personnel on official business. (4) Retention and disposal -- records are maintained in active status until the individual is debriefed; held for two years and then destroyed. index cards are retained for a period of two years after the case is closed.

System manager(s) and address: Chief, Division of Enforcement and Security Management, AMO, Room 6222, Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Notification procedure: Same as the above. A written and signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: Same as the above. The request must be in writing, signed by the requester, and meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and must meet the requirements of 43 CFR 2.71.

Record source categories: Individual on whom the record is maintained as well as data furnished by other Federal agencies on the person concerned.

INTERIOR/AMO-46

System name: Secretarial Subject Files -- Interior, Office of the Secretary--46.

System location: Office of the Secretary, Office of Administrative Services (AMO), Central Files Section, Room 6013, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Categories of individuals covered by the system: Those who have had correspondence with the Office of the Secretary.

Categories of records in the system: Index cards containing the name, dates, and subject codes for retrieval of subject files, subject files of correspondence.

Authority for maintenance of the system: 5 U.S.C. 301, 43 U.S.C. 1457, 44 U.S.C. 3101, Reorganization Plan 3 of 1950.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records are to support the operational, program and policy decisions of the Secretary of the Interior, Solicitor, Assistant Secretaries, Deputy Assistant Secretaries, and their immediate staff. disclosures outside the department are (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, and (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Record access procedures: Same as the above. The request must be in writing, signed by the requester, and meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and must meet the requirements of 43 CFR 2.71.

Record source categories: Data furnished by the individual.

INTERIOR/AMO-48

System name: Employee Identification Card Files -- Interior, Office of the Secretary--48.

System location: Division of Enforcement and Security Management, Office of Administrative Services (AMO), U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Categories of individuals covered by the system: Employees of the Office of the Secretary and other Departmental offices and non-Federal support personnel requiring access to Department buildings.

Categories of records in the system: These files contain the name of the individual issued the particular card, date of issue and card number.

Authority for maintenance of the system: 5 U.S.C. 301, 3101, 43 U.S.C. 1467.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is for internal control over the issuance of the cards. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, and (2) in the event there is information indicating a violation or potential violation of a statute, regulation, rule, order, or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained in large bound record book. (2) Retrievability -- indexed by card number. (3) Safeguards -- stored in a locked room in manipulation-proof, 3-way combination lock steel safe. Access limited to those persons whose official duties require such access. (4) Retention and Disposal -- records are maintained for the duration of the employment or contractual relationship.

System manager(s) and address: Chief, Division of Enforcement and Security Management, AMO, Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Notification procedure: Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Information is furnished by the person to whom the card is issued.

INTERIOR/AMO-50

System name: Motor Vehicle Operator's Identification Card Applications - Interior, Office of the Secretary--50.

System location: Division of General Services, Office of Administrative Services, U.S. Department of the Interior, Washington, D.C. 20240. (2) Division of Personnel Services, Office of the Secretary, U.S. Department of the Interior, Washington, D.C. 20240.

Categories of individuals covered by the system: Employees in the Office of the Secretary and other Departmental offices who have applied for driver permits.

Categories of records in the system: The records contain the name, title, sex, date of birth, place of birth, physical characteristics, social security number, past driving record, traffic citations, accidents for past three years, medical history, state driver license number, and road test results.

Authority for maintenance of the system: 40 U.S.C. 491(j).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is internal control over the issuance of driver permits. Disclosures outside the Department are (1) to a Federal agency for the purpose of checking individual driving records, (2) to the U. S. Department of Justice when related to litigation or anticipated litigation, and (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained on form DI-131-Rev. and Standard Form 47. (2) Retrievability -- by name. (3) Safeguards -- stored in locked file cabinet. (4) Retention and Disposal -- subject to general records schedule.

System manager(s) and address: Chief, Division of General Services, Office of Administrative Services, Department of the Interior, Washington, D. C. 20240.

Notification procedure: Same as the above. A written and signed request stating that the requester seeks information concerning records pertaining to him is required.

Record access procedures: Same as the above. See 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and must meet the requirements of 43 CFR 2.71.

Record source categories: Federal employees applying for a government driver permit.

INTERIOR/AMO-51

System name: Property Accountability -- Interior, Office of the Secretary--51.

System location: Division of General Services, Office of Administrative Services U.S. Department of the Interior, Washington, D.C. 20240.

Categories of individuals covered by the system: Assignment of property to offices accountable to individuals designated as Responsible Officers.

Categories of records in the system: The records system contains computer codes for each Responsible Officer and descriptive data about each piece of capitalized property assigned.

Authority for maintenance of the system: 40 U.S.C. 483(b).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is the internal assignment of property to offices and individuals. Disclosures outside the Department are (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, and (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- records are maintained on computer media. System manager(s) and address: Division of General Services, Office of Administrative Services, U.S. Department of the Interior, Washington, D.C. 20240.

Notification procedure: Same as the above. A written and signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: Same as the above. See 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and must meet the requirements of 43 CFR 2.71.

V 42 69 APR 11 77 UMI

Record source categories: Individual that is assigned the property.

INTERIOR/AMO-52

System name: Travel Management Records -- Interior, Office of the Secretary--52.

System location: Branch of Travel, Office of Administrative Services (AMO), U. S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Categories of individuals covered by the system: Federal Employees or individuals who travel on behalf of the Department on official business.

Categories of records in the system: The records system contains passports, visas, travel folders, rental credit cards, Government transportation requests, travel tickets, and imprest fund.

Authority for maintenance of the system: 5 U.S.C. 5701, et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) making reservations (b) the generating of tickets (c) the transfer of travel tickets to fiscal services. Disclosures outside the Department are (1) to the airlines for travel and reservation purposes, (2) the transfer of passports and visa to other Federal agencies, (3) to the U. S. Department of Justice when related to litigation or anticipated litigation, and (4) of information indicating a violation or potential violation of a statute regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or licensé.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- travel folders and tickets maintained in 8'x10 1/2' folders. Rental credit cards maintained on 2'x3' plastic card. Government transportation and imprest fund requests maintained in log books. Each passport and visa maintained in separate book. (2) Retrievability -- travel folders and tickets filed by bureau. Rental credit cards filed by number and name. Government transportation requests filed by number and name. Passports and visas filed by name. Imprest fund requests filed by name and number amount. (3) Safeguards -- passports, visas, imprest fund and Government transportation log books stored in a locked room in manipulation proof three way combination lock steel safes. Travel folders, rental credit cards stored in a locked room. Access granted only to designated personnel. (4) Retention and Disposal -- General Records Schedule No. 9, Item No. 4.

System manager(s) and address: Chief, Branch of Travel, Office of Administrative Services, Department of the Interior, 18th and C Streets, N. W., Washington, D. C. 20240.

Notification procedure: Same as the above. A written and signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: Same as the above. See 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and must meet the requirements of 43 CFR 2.71.

Record source categories: Federal employees and individuals on behalf of the Department.

INTERIOR/AMO-53

System name: Classified Documents -- Interior, Office of the Secretary--53.

System location: Office of Administrative Services (AMO), U.S. Department of the Interior, c/o U.S. State Department, 2201 C Street NW, Washington, D.C., 20520.

Categories of individuals covered by the system: Employees of U.S. Department of the Interior authorized to receive classified documents.

Categories of records in the system: The system contains the individual name, security clearance, employment address, and telephone number.

Authority for maintenance of the system: Executive Orders 10450 and 10865.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is the internal transmittal of the classified documents to individuals. Disclosures outside the Department are (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, and (2) of information indicating a violation or potential violation of a statute regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained in 8x10 1/2' folders. (2) Retrievability -- indexed by bureau and name. (3) Safeguards -- stored in a locked room in manipulation-proof 3-way combination lock steel safe. (4) Retention and Disposal -- records are maintained in active status.

System manager(s) and address: Chief, Division of General Services, AMO, U.S. Department of the Interior, 18th & C Streets, NW, Washington, D.C. 20240.

Notification procedure: Same as the above. A written and signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60. requester and meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and must meet the requirements of 43 CFR 2.71.

Record source categuries: List of employees who have security clearance.

INTERIOR/AMP-57

System name: Privacy Act Files -- Interior, Office of the Secretary--57.

System location: (1) Office of the Assistant Secretary -- Administration and Management, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240. (2) Offices of Privacy Act Officers of each bureau of the Department. (See Appendix for addresses of bureau headquarters offices.)

Categories of individuals covered by the system: (1) Individuals who have submitted requests for notification, access or amendment of records under the Privacy Act. (2) Individuals who have filed Privacy Act appeals with Assistant Secretary--Administration and Management under the department's regulations. (3) Offices of Systems Managers and other officials authorized to receive requests for notification and access and petitions for amendments. (See system notices for addresses.)

Categories of records in the system: Requests, appeals, decisions and related correspondence.

Authority for maintenance of the system: 5 U.S.C. 552a.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are for action on requests and appeals of Privacy Act matters. Disclosures outside the Department of the Interior may be made (1) to other Federal agencies having a subject matter interest in a request or an appeal or a decision thereon; (2) to the U. S. Department of Justice when related to litigation or anticipated litigation; (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (5) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, license, contract, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Maintained in manual form. (2) Retrievability -- By individual name. (3) Safeguards -- Maintained with safeguards meeting the requirements of 43 CFR 2.51.

System manager(s) and address: (1) For records in the Office of the Assistant Secretary -- Administration and Management: Privacy Act Officer, Office of the Assistant Secretary -- Administration and Management, U.S. Department of the INterior, 18th and C Streets, NW., Washington, D.C. 20240. (2) For other records: Bureau Privacy Act Officers. (See Appendix for addresses of bureau headquarters offices.)

Notification procedure: The System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access should be addressed to any office or offices to which the requester has submitted a request for access or an appeal. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the appropriate System Manager and must meet the content requirements of 43 CFR 2.71.

Systems exempted from certain provisions of the act: The Privacy Act does not entitle an individual to access to information compiled in reasonable anticipation of a civil action or proceeding.

INTERIOR/AMP-58

System name: Office Operations Records on Employees, Department System -- Interior, Office of the Secretary--58.

System location: (1) Offices making up the Office of the Secretary, including regional and field facilities thereof. (See item I of Appendix for addresses). (2) Other Departmental offices of the Department of the Interior, including regional and field facilities thereof. (See items II-VII of Appendix for addresses.)

Categories of individuals covered by the system: Employees of the Office of the Secretary and other Departmental offices.

Categories of records in the system: Records involving operational relationships between the employee and the office in which the employee works. These records include: workload and productivity records for scheduling purposes; travel activity and budgets; accident and safety records, property accountability; studies and special projects; committee and detail assignments; locator indexes and parking space assignments.

Authority for maintenance of the system: 5 U.S.C 301, 3101, 5105-5115, 5501-5516, 5701-5709, 31 U.S.C. 240-243, 40 U.S.C. 483(B), 43 U.S.C. 1467, 44 U.S.C. 3101, Executive Order No. 11807.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are to administer the employee's relationship to the activities and functions of the office. Disclosures outside to the U. S. Department of Justice when related the Department of the Interior may be made (1) to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

System manager(s) and address: For the records located in the office for which each is responsible, the head of each office making up the Office of the Secretary and the head of each other Departmental office.

Notification procedure: Information in this system of records either comes from the individual to whom it applies or is obtained through internal office procedures with which the individual is involved.

Record access procedures: A request for access to records should be addressed to the highest official of the requester's office at the facility at which he is (or was) employed. See 43 CFR 2.61 for submission requirements.

Contesting record procedures: A petition for amendment shall be addressed to the appropriate System Manager and must meet the content requirements of 43 CFR 2.71.

INTERIOR/AMP-59

System name: Office Operations Records on Employees, Bureau System -- Interior, Office of the Secretary--59.

System location: Substantially all facilities of the U.S. Fish and Wildlife Service, Geological Survey, Bureau of Indian Affairs, Bureau of Land Management, Bureau of Mines, Mining Enforcement and Safety Administration, National Park Service, Bureau of Outdoor Recreation, Bureau of Reclamation, Alaska Power Administration, Defense Electronic Power Administration, Southeastern Power Administration, and Southwestern Power Administration. (See items VIII-XXI in Appendix.)

Categories of individuals covered by the system: Employees of the bureaus listed under Location, above.

Categories of records in the system: Records involving operational relationships between the employee and the office in which the employee works. These records include: workload and productivity records for scheduling purposes; travel activity and budgets; accident and safety records, property accountability; studies and special projects; committee and detail assignments; locator indexes and parking space assignments.

Authority for maintenance of the system: 5 U.S.C. 301, 3101, 5105-5115, 5501-5516, 5701-5709, 31 U.S.C. 66a, 240-243, 40 U.S.C. 483(b), 43 U.S.C. 1467, 44 U.S.C. 3101, Executive Order No. 11807.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: License, to appropriate Federal, state, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

System manager(s) and address: (1) For the Geological Survey: Assistant Director for Administration. (2) For the Fish and Wildlife Service: Assistant Director--Administration. (3) For the Bureau of Indian Affairs: Director, Office of Administration. (4) For the Bureau of Land Management: Assistant Director--Technical Services. (5) For the Bureau of Mines: Assistant Director--Administration. (6) For the Mining Enforcement and Safety Administration: Administrative Officer. (7) For the National Park Service: Associate Director--Administration. (8) For the Bureau of Outdoor Recreation: Assistant Director for Management and Budget. (9) For the Bureau of Reclamation: Chief, Division of General Services. (10) For the Alaska Power Administration: Administrator. (13) For the Southwestern Power Administration: Administrator. (See Appendix for addresses of bureau headquarters offices.)

Notification procedure: With respect to the headquarters facility of each bureau, an individual may inquire whether the system contains a record pertaining to him by contacting the System Manager. With respect to field facilities of each bureau, an inquiry shall be addressed to the highest official of the bureau at each facility. See 43 CFR 2.60 for submission requirements.

Record access procedures: With respect to the headquarters facility of each bureau, an individual may request access to a record pertaining to him by contacting the System Manager. With respect to the field facilities of each bureau, a request shall be addressed to the highest official of the bureau at each facility. See 43 CFR 2.61 for submission requirements.

Contesting record procedures: A petition for amendment shall be addressed to the appropriate System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Information in this system of records either comes from the individual to whom it applies or is obtained through internal office procedures with which that individual is involved.

INTERIOR/AMP-60

System name: Safety Management Information System -- Office of the Secretary--60.

System location: (1) Division of Safety Management, Office of Administrative and Management Policy, Office of the Secretary, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240. (2) All field offices and bureau headquarters retain copies of source document. (See Appendix for addresses.)

Categories of individuals covered by the system: Employees, contractors, concessioners and public visitors to Interior facilities who have been involved in an accident resulting in personal injury, and/or property damage.

Categories of records in the system: Contains the name, social security number (employees only), occupation, date and location of accident; data elements about the accident for analytical purposes; and descriptive narrative concerning the reason for the loss producing event.

Authority for maintenance of the system: (1) 5 U.S.C. 7901, (2) 28 U.S.C. 2671-2680, (3) 31 U.S.C. 240-243, (4) Executive Order 11807 (1974), (5) 29 CFR 1960.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) provide summary data of injury, illness and property loss information to bureaus in a number of formats for analytical purposes in establishing program to reduce or eliminate loss producing problem areas, (b) provide listings of individual cases to bureaus to insure that accidents occuring are reported through the Safety Management Information System, and (c) adjudicating tort

V4269 APR 11 77 UMI

and employee claims. Disclosures outside the Department of the Interior may be made, (1) to a Federal, State or local government agency that has partial or complete jurisdiction over the claim or related claims; (2) to provide to the Department of Labor quarterly summary listings of fatalities and disabling injuries and illnesses in compliance with 29 CFR 1960.6; (3) to the U. S. Department of Justice when related to litigation or anticipated litigation; (4) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; and (5) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- records are maintained on magnetic tape, with copies of source document maintained at bureau safety management headquarters, regional, and field offices where accident is reported. (2) Retrievability -- system is indexed by bureau assigned document control number. (3) Safeguards -- maintained with safeguards meeting the 'Computer Security Guidelines for Implementing the Privacy Act of 1974.' (4) Disposal -- data stored on magnetic tape is retained as a permanent record. Source documents are to be retained at the field level for five years following end of the calendar year to which the record relates.

System manager(s) and address: Assistant Director for Safety Management, Office of Administrative and Management Policy, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Notification procedure: System manager or the field office in which the source document pertaining to the individual would be filed. The source document contained in the field office need not be maintained more than five calendar years past the date of the record as indicated in records disposal. A written and signed request stating that the requester seeks information concerning records pertaining to him/her is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager or the field safety office in which the source document for the individual would be filed. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and must meet the requirements of 43 CFR 2.71.

Record source categories: Supervisor of employee involved in accident. Investigation conducted by supervisor of employee and may include safety professionals and other management officials of the involved bureau or office.

INTERIOR/AMP-61

System name: Safety Career Opportunity Plan for Employees -- Interior, Office of the Secretary--61.

System location: Division of Safety Management, Office of Administrative and Management Policy, Office of the Secretary, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Categories of individuals covered by the system: Individuals who have filed to be included in the SCOPE system.

Categories of records in the system: Contains records concerning education, job experience and grade level of safety professionals and others interested in entering the safety profession.

Authority for maintenance of the system: 5 U.S.C. 301, 3101; 43 U.S.C. 1457; Departmental Manual, Part 395 Safety Management.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of records are: (a) to obtain listing of safety professionals eligible for announced vacancies, and (b) to provide a copy of the vacancy announcements to all interested, eligible persons. Disclosures outside the Department of the Interior may be made, (1) to the U. S. Department of Justice when related litigation or anticipated litigation, (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual, and (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- records are maintained on magnetic tape, with copies of source document maintained in Division of Safety Management files. (2) Retrievability -- system is indexed by name. (3) Safeguards -- maintained with the safeguards meeting the 'Computer Security Guidelines for Implementing the Privacy Act of 1974.' (4) Disposal -- data stored on magnetic tape is kept current by periodic up-date with each record remaining in the SCOPE system until an individual requests that it be corrected or removed.

System manager(s) and address: Division of Safety Management, Office of Administrative and Management Policy, Office of the Secretary, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Notification procedure: Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Individual on whom the record is maintained.

INTERIOR/AOC-65

System name: Biography File -- Interior, Office of the Secretary--65.

System location: (1)Office of Public Affairs, Research Office, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240. (2) Bureau public information offices in the Bureau of Indian Affairs, the Bureau of Reclamation, the U.S. Geological Survey, the Mining Enforcement and Safety Administration, the National Park Service, the U.S. Fish and Wildlife Service, the Office of Land Use and Water Planning, the Bonneville Power Administration, the Alaska Power Administration, the Southeastern Power Administration and the Southwestern Power Administration. (See System Manager paragraph for addresses.).

Categories of individuals covered by the system: Officials of the Department of the Interior, including the Secretary, Assistant Secretaries, heads of Bureaus and Offices.

Categories of records in the system: The records are biographical news releases generally containing the individual's name, place and date of birth, education, military service, work experience, publications, membership in professional or scientific societies, marital status plus occasional newspaper clippings about the individual and in some cases a photograph of the individual.

Authority for maintenance of the system: Statutes 5 USC 301, 3101, 43 USC 1467, 44 USC 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is to maintain biographic information on key officials of the Department. Disclosures outside the Department of the Interior may be made (1) to the news media and the public for public information purposes.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- biographies are in press release form, maintained in file folders. (2) Retrievability -- alphabetized by name. (3) Safeguards -- maintained in a locked room. (4) Retention and Disposal -- destroyed when obsolete.

System manager(s) and address: (Unless otherwise noted, the address for all system managers in U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240. (1) For the Office of Public Affairs: Director, Office of Public Affairs. (2) For the Bureau of Indian Affairs: Director, Public Information Staff, Bureau of Indian Affairs. (3) For the Bureau of Reclamation: Chief, Office of Public Affairs, Bureau of Reclamation. (4) For the Geological Survey: Information Officer, U.S. Geological Survey, the National Center, Reston, Virginia 22092. (5) For MESA: Chief, MESA Information Office, Mining Enforcement and Safety Administration, Ballston Tower No. 3, 4015 Wilson Blvd., Arlington, Virginia 22203. (6) For the National Park Service: Assistant to the Director, Office of Public Affairs, National Park Service. (7) For the Fish and Wildlife Service: Assistant Director-- Public Affairs, U.S. Fish and Wildlife Service. (8) For the Office of Land Use and Water Planning: Staff Assistant for Public Affairs, Office of Land Use and Water Planning, 801 - 19th Street, N.W., Washington, D.C. 20006. (9) For the Bonneville Power Administration: Information Officer, Bonneville Power Administration, P.O. Box 3621, Portland, Oregon 97208. (10) For the Alaska Power Administration: Administrator, Alaska Power Power Administration: Chief, Division of Administrative Management, Southeastern Power Administration, Samuel Elbert Bldg., Elberton, Georgia 30635. (12) For the Southwestern Power Administration, P.O. Drawer 1619 Tulsa, Oklahoma 74101.

Notification procedure: Same as the above. A written and signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: Same as the above. The request must be in writing, signed by the

Contesting record procedures: A petition for amendment should be addressed to the appropriate System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Data furnished by the individual and newspaper clippings.

INTERIOR/APB-68

System name: Committee Management Files -- Interior, Office of the Secretary--68.

System location: (1) Department Committee Management Officer and Bureau Committee Management Officers. (2) Headquarters office of all bureaus. (See appendix for addresses.)

Categories of individuals covered by the system: Members of advisory committees and candidates for advisory committee membership.

Categories of records in the system: Biographies and records of committee participation.

Authority for maintenance of the system: 5 U.S.C. App. I.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is administration of committee activities whithin the Department. Disclosures outside the Department of the Interior may be made (1) to OMB in connection with its committee management responsibilities; (2) to other Federal agencies which have joint responsibility for advisory committees or which receive or utilize advice of the committees; (3) to a Federal, State or local agency, private organization or individual as necessary to obtain information in connection with a decision concerning appointment or reappointment of an individual to committee membership; (4) to the U. S. Department of Justice when related to litigation or anticipated litigation; (5) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained in file folders. (2) Retrievability -- filed by committee or bureau. (3) Safeguards -- maintained with safeguards meeting the requirements of 43 CFR 2.51 for manual records. (4) Disposal -- Department Committee Management Office records are maintained no longer than two years. Bureau records are subject to bureau disposal schedules.

System manager(s) and address: Department Committee Management Officer, U.S. Department of the Interior, Washington, D.C. 20240.

Notification procedure: System Manager. A written and signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and must meet the requirements of 43 CFR 2.71.

Record source categories: Individual members or candidates for membership. Persons recommending or proposing or having knowledge of the qualifications of an individual.

Systems exempted from certain provisions of the act: Under the specific exemption authority of 5 U.S.C. 552a(k)(5), the Department of the Interior has adopted a regulation (43 CFR 2.79(c)) which exempts this system from the provisions of 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G),(H) and (I) and (f) to the extent that the system consists of investigatory material compiled solely for the purpose of determining suitability, eligibility or qualifications for federal civilian employment. The reasons for adoption of this regulation are set out at 40 FR 50432 (October 29, 1975).

INTERIOR/APB-69

System name: Freedom of Information Appeal Files -- Interior, Office of the Secretary--69.

System location: (1) Office of the Assistant Secretary -- Administration and Management, U.S. Department of the Interior, 18th and C Streets, NW., Washington, D.C. 20240. (2) Office of Public Affairs, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Categories of individuals covered by the system: (1) Individuals who have filed appeals under Department of the Interior Freedom of Information appeal procedures. (2) Individuals whose Freedom of Information requests to bureaus and offices have required longer than 10 days to process. (3) Individuals whose Freedom of Information requests to bureaus and offices have been denied in whole or part.

Categories of records in the system: Appeals, recommendations of Solicitor, Director of Public Affairs, Program Assistant Secretaries and other officials, decisions of Assistant Secretary -- Program Development and Budget, extension of time and initial decisions issued by bureaus and offices.

Authority for maintenance of the system: 5 U.S.C. 552.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to support review and decision-making for Freedom of Information appeals, (b) for preparation of annual report to the Congress. Disclosures outside the Department of the Interior may be made (1) to other Federal agencies having a subject matter interest in an appeal or bureau or office decision; (2) to the U. S. Department of Justice when related to litigation or anticipated litigation; (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained in manual form in file folders. (2) Retrievability -- indexed by individual name. (3) Safeguards -- maintained with safeguards meeting the requirements of 43 CFR 2.51. (4) Retention and Disposal -- not authorized.

System manager(s) and address: Assistant Secretary -- Administration and Management, U.S. Department of the Interior, Washington, D.C. 20240.

Notification procedure: Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Bureaus and offices of the Department, appellants.

Systems exempted from certain provisions of the act: The Privacy Act does not entitle an individual to have access to information compiled in reasonable anticipation of a civil action or proceeding.

V4269 APR 11 77 UMI

INTERIOR/APB-70

System name: Applicant Files -- Interior, Office of the Secretary--70.

System location: (1) Office of the Secretary, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240. (2) Office of the Solicitor, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240. (3) Office of Hearings and Appeals, U.S. Department of the Interior, 4015 Wilson Blvd., Arlington, Virginia 22203. (4) Office of Land Use and Water Planning, U.S. Department of the Interior, 801 - 19th Street, NW., Washington, D.C. 20006. (5) Office of Minerals Policy Development, U.S. Department of the Interior, 18th and C Streets, NW., Washington, D.C. 20240. (6) Office of Territorial Affairs, U.S. Department of the Interior, 18th and C Streets, NW., Washington, D.C. 20240. (7) Office of Water Research and Technology, U.S. Department of the Interior, 18th and C Streets, NW., Washington, D.C. 20240.

Categories of individuals covered by the system: Applicants for employment.

Categories of records in the system: Applications, recommendations, interview notes and other documents utilized to determine eligibility, suitability and qualifications for Federal civilian employment maintained subject to applicable Civil Service Commission requirements, including Civil Service Commission Rule VI and Chapter 302 of the Federal Personnel Manual.

Authority for maintenance of the system: 5 U.S.C. 301, 3101, 43 U.S.C. 1457, Reorganization Plan 3 of 1950.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is for the hiring of applicants. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; (5) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, license, contract, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained in manual form in file folders. (2) Retrievability -- by individual name. (3) Safeguards -- maintained with safeguards meeting the requirements of 43 CFR 2.51. (4) Retention and Disposal -- current applications retained.

System manager(s) and address: (1) For the Office of the Secretary: Staff Assistant, Office of the Assistant Secretary--Program Development and Budget, U.S. Department of the Interior, Washington, D.C. 20240. (2) For the Office of the Solicitor: Administrative Officer, Office of the Solicitor, U.S. Department of the Interior, Washington, D.C. 20240. (3) For the Office of Hearings and Appeals: Director, Office of Hearings and Appeals, U.S. Department of the Interior, 4015 Wilson Blvd. Arlington, Virginia 22203. (4) For the Office of Land Use and Water Planning: Director, Office of Land Use and Water Planning, U.S. Department of the Interior, 801 - 19th Street, NW., Washington, D.C. 20006. (5) For the Office of Minerals Policy and Development: Director, Office of Minerals Policy Development, U.S. Department of the Interior, 18th and C Streets, NW., Washington, D.C. 20240. (6) For the Office of Territorial Affairs: Director, Office of Territorial Affairs, U.S. Department of the Interior, 18th and C Streets, NW., Washington, D.C. 20240. (7) For the Office of Water Research and Technology, U.S. Department of the Interior, 18th and C Streets, NW., Washington, D.C. 20240.

Notification procedure: Inquiries regarding the existence of records should be addressed to the appropriate systems manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the appropriate System Manager. The request must be in writing and be signed by the requester. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the appropriate System Manager and must meet the content requirements of 43 CFR 2.71.

Systems exempted from certain provisions of the act: Under the specific exemption authority provided by 5 U.S.C. 552a(k)(5), the Department of the INterior has adopted a regulation, 43 CFR 2.79(c), which exempts this system from the provisions of 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I) and (f) to the extent that it consists of investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal civilian employment. The reasons for adoption of this regulation are set out at 40 FR 37217 (August 26, 1975).

INTERIOR/APB-71

System name: Freedom of Information Request Files System -- Interior, Office of the Secretary--71.

System location: All facilities of the Department of the Interior which have received requests under the Freedom of Information Act seeking access to or copies of records.

Categories of individuals covered by the system: Individuals who have submitted Freedom of Information requests.

Categories of records in the system: Requests, responses, related documents.

Authority for maintenance of the system: 5 U.S.C. 552.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is to administer Freedom of Information requests. Disclosures outside the Department of the Interior may be made (1) to other Federal agencies having a subject matter interest in a request or an appeal or a decision thereon; (2) to the U. S. Department of Justice when related to litigation or anticipated litigation; (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

System manager(s) and address: For the office or bureau for which each is responsible, the head of each office making up the Office of the Secretary, each other Departmental office and each bureau. (See Appendix for addresses of office and bureau headquarters offices.)

Notification procedure: Inquiries regarding the existence of records in the system shall be addressed to each facility to which an individual has submitted a Freedom of Information request. See 43 CFR 2.60 for submission requirements.

Record access procedures: A request for access shall be addressed to each facility to which the requester has submitted a Freedom of Information request. See 43 CFR 2.61 for submission requirements.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Requesters, internally generated documents.

Systems exempted from certain provisions of the act: The Privacy Act does not entitle an individual to access to information compiled in reasonable anticipation of a civil action or proceeding.

INTERIOR/APM-75

System name: Supervisors' Records of Employees -- Interior, Office of the Secretary--75.

System location: Authorized to be maintained by immediate supervisors and one additional organizational level at all facilities of the Department of Interior. (See Appendix for addresses.)

Categories of individuals covered by the system: Current employees and employees departed within the past one year.

Categories of records in the system: These records relate to individuals while employed by the Department of the Interior and contain such information as: emergency addressee information; record of personnel actions; record of employee/supervisor discussions; copies of officially recommended actions such as personnel actions, awards, disciplinary actions, and training requests.

Authority for maintenance of the system: 5 U.S.C. 1302, 2951, 4118, 4308, 4506, 3101, 43 U.S.C. 1457, Reorganization Plan 3 of 1950, Executive Order 10561 (September 13, 1954).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) as a source of data to initiate requests for personnel actions, to plan and schedule training, to counsel employees on their performance, to establish a basis for proposing commendations or disciplinary actions, and to carry out their personnel management responsibilities in general, and (b) to complete reference checks or supervisory appraisals. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- records are maintained on SF-7B's and/or authorized attachments thereto. (2) Retrievability -- records are indexed by any combination of name or Social Security Account Number. (3) Safeguards -- maintained with safeguards meeting the requirements of 43 CFR 2.51. (4) Retention and Disposal -- records are maintained on current employees and on former employees for one year after the employee vacates the position he holds in the bureau.

System manager(s) and address: The Personnel Officer of each bureau of the Department for the records maintained in his bureau. (See Appendix for addresses of bureau headquarters offices.) The Chief, Division of Personnel Services, Office of Secretarial Operations, U.S. Department of the Interior, Washington, D.C. 20240 for records maintained by offices in the Office of the Secretary and the other Departmental offices.

Notification procedure: An individual may inquire whether or not the system contains a record pertaining to him by contacting his supervisor and/or the Personnel Officer who services the installation where the employee is (or was) employed. See 43 CFR 2.60 for procedures.

Record access procedures: Requests for access to records should be addressed to the requester's supervisor and/or the Personnel Officer servicing the installation where the employee is (or was) employed. See 43 CFR 2.63 for procedures.

Contesting record procedures: A petition for amendment should be addressed to the appropriate System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Information in this system of records either comes from the individual to whom it applies or is derived from information he supplied, except information provided by agency officials.

INTERIOR/APM-76

System name: Employee Experience, Skills, Performance and Career Development Records -- Interior, Office of the Secretary--76.

System location: Servicing personnel office and/or administrative office of all bureaus and offices of the Department of the Interior.

Categories of individuals covered by the system: Current employees of the Department of the Interior.

Categories of records in the system: These records relate to employees and contain such information as: name; date of birth; social security number; office address and phone; service computation date; physical limitations or interests which might affect type or location of assignment; career interests; education history; work or skills experience; availability for geographic relocation; outside activities including membership in professional organizations; listing of special qualifications; licenses and certificates held; listing of honors and awards; career goals and objectivies of the employee; annual supervisory evaluation.

Authority for maintenance of the system: 5 U.S.C. 1302, 2951, 4118, 4308, 4506, 3101, 43 U.S.C. 1457, Reorganization Plan 3 of 1950, Executive Order 10561.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) by bureau officials for purposes of review in connection with transfers, promotions, reassignments, adverse actions, disciplinary actions, and determination of qualifications of an individual, and (b) by bureau officials for setting out career goals and objectives of the employee and for documenting attainment of these targets. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- records are maintained manually in file folders or on pre-printed forms in file cabinets or on computer media. (2) Retrievability -- Records may be indexed by name of the subject employee. (3) Safeguards -- Records are maintained with safeguards meeting minimum security requirements of 43 CFR 2.51. (4) Retention and Disposal -- Records are maintained only current employees. Records are destroyed upon departure of the employee.

System manager(s) and address: (1) The Personnel Officer of each bureau of the Department for records maintained in his bureaus. (See Appendix for addresses of bureau headquarters offices.) (2) The chief, Division of Personnel Services, Office of Secretarial Operations, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Notification procedure: An individual may inquire whether or not the system contains a record pertaining to him by contacting: The personnel officer and/or administrative officer servicing the facility where he is employed.

Record access procedures: Current employees who wish to gain access to their records should contact: Same as above. See 43 CFR 2.63.

Contesting record procedures: Employees who wish to contest their records should contact: Personnel Officer, bureau or office where employed. See 43 CFR 2.71.

Record source categories: Information in this system of records either comes from the individual to whom it applies or is derived from information he supplied, except information provided by agency officials.

INTERIOR/APM-79

System name: Personnel Data Files (Automated) -- Interior, Office of the Secretary--79.

System location: Data processing centers of the Department of the Interior in Washington, D.C. at U.S. Department of the Interior, Washington, D.C. 20240; Denver Colorado, at U.S. Bureau of Mines, Denver Federal Center, P.O. Box 25407, Denver Colorado 80225 and Bureau of Reclamation, Engineering and Research Center, Denver Federal Center, P.O. Box 25007, Denver, Colorado 80225; Albuquerque, New Mexico, at Bureau of Indian Affairs, P.O. Box 2088, Albuquerque, New Mexico 87103; Portland Oregon, at Bonneville Power Administration, 1002 N.E. Holladay Street, P.O. Box 3621, Portland, Oregon 97208; Tulsa, Oklahoma, at Southwestern Power Administration, 333 West Fourth Street, Tulsa Oklahoma 74103; and Elberton, Georgia, at Southeastern Power Administration, Samuel Elbert Bldg., Elberton, Georgia 30635.

Categories of individuals covered by the system: Current employees and recently separated employees of the Department.

Categories of records in the system: Personnel records relating to individuals employed in the Department and consisting of these categories: BUREAU - biographic, position, transaction and training records. DEPARTMENT - biographical, transaction, and training records.

Authority for maintenance of the system: 5 U.S.C. 1302, 2951, 4118, 4308, 4506, 3101, 43 U.S.C. 1457, Reorganization Plan 3 of 1950, Executive Order 10561 (September 13, 1954).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are in accordance with, or in addition to the records described by the Civil Service Commission. These systems are used (a) to provide data for the governmentwide and Departmentwide central personnel files; (b) to produce day-to-day personnel management action, such as notification of personnel actions, automatic notices (e.g. conversion to career tenure, length of service awards, within grade increases) and to provide input to produce payroll and financial management actions; (c) used as an employee locator file and to provide information for organization and position management matters; (d) to provide information on current and potential executive level employees in an executive retrieval system; and (e) as a data source for management information for production of summary descriptive statistics and analytical studies in support of the function for which the records were collected and maintained or related personnel management functions or manpower studies. Disclosures outside the Department of the Interior may be made (1) to the Civil Service Commission to respond to their requests; (2) to the U. S. Department of Justice when related to litigation or anticipated litigation; (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- records are maintained on magnetic tape, drum, disk, punched cards, and in computer printouts. (2) Retrievability -- records are indexed by name, date of birth, and social security account number of the employee. (3) Safeguards -- records are located in facilities adequately secure to meet criteria established in 5 CFR 293.109. (4) Disposal -- records are destroyed five years after individual ceases to be employed.

System manager(s) and address: (1) Department System: Director, Personnel Management, Office of the Secretary, U.S. Department of the Interior, Washington, D.C. 20240. (2) Bureau Systems: Bureau Personnel Officer (See Appendix for addresses of bureau headquarters offices.)

Notification procedure: An individual may inquire whether or not the system contains a record pertaining to him by addressing a written request to: Personnel Officer who services the installation where the employee is (or was) employed.

Record access procedures: Current and past Federal employees who wish to gain access to their files should contact: Personnel Officer servicing installation where employee is (or was) employed.

Contesting record procedures: Current and past Federal employees who wish to contest their files should contact: Personnel Officer servicing installation where employee is (or was) employed.

Record source categories: Information in this system of records either comes from the individual to whom it applies or is derived from information he supplied.

V4269 APR 11 77 UMI

Authority for maintenance of the system: 5 U.S.C. 301, 3101, 43 U.S.C. 1457i 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are for application, approval, processing and accounting of emergency loans. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained in manual form in file folders. (2) Retrievability -- indexed by name of borrower. (3) Safeguards -- stored in file cabinets in locked rooms. (4) Disposal -- accomplished by individual treasurers according to disposal schedule each has devised.

System manager(s) and address: Chairman, Emergency Loan Fund, Office of Personnel Management, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Notification procedure: To determine if the system contains a record on himself, an individual may contact: The Treasurer of the Emergency Loan Fund servicing his bureau and work location. See 43 CFR 2.60.

Record access procedures: An individual may gain access to the records about himself by contacting the Treasuer of the Emergency Loan Fund which services his bureau and work location. See 43 CFR 2.63.

Contesting record procedures: An individual may contest the records about himself by contacting the System Manager. See 43 CFR 2.71.

Record source categories: Information in this system of records comes from the individual himself and from his supervisor.

INTERIOR/APM-81

System name: Health Unit Medical Records -- Interior, Office of the Secretary--81.

System location: (1) Division of Medical and Health Services, Interior Bldg., 18th and C Streets, N.W., Washington, D.C. 20240. (2) Former employees: National Personnel Records Center, 111 Winnebago St., St. Louis, MO 63118.

Categories of individuals covered by the system: (1) Present Interior Department employees. (2) Former Interior Department employees.

Categories of records in the system: Medical records including documentation of screening examinations and tests; immunization records; law enforcement personnel periodic examinations; medical and health unit records; records pertaining to employees in these special programs: Alcoholic and Drug Abuse Programs, Troubled Employee Program.

Authority for maintenance of the system: 5 U.S.C. 3301, P.L. 91-616, P.L. 92-255, P.L. 93-282, P.L. 79-658 (5 U.S.C. 7901), OMB Circular A-72.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) for medical counseling and referral; (b) as a data source for management information for production of summary statistics and analytical studies in support of the function for which the records are collected and maintained, or for related management functions or manpower studies; and (c) to locate specific individuals for personnel research. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained manually in file folders. (2) Retrievability -- indexed by name of employee and by name of bureau where employed. (3) Safeguards - access to and use of these records are limited to those persons whose official duties require such access. Records are maintained in lockable metal file cabinets inside a secured room. (4) Disposal -- records are maintained on present employees only. Records are retired to the National Personnel Records Center upon the departure of the employee from the Interior Department.

System manager(s) and address: Chief, Division of Medical and Health Services, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Notification procedure: An individual may inquire as to whether or not the system contains a record pertaining to him by contacting: Same as above. See 43 CFR 2.60.

Record access procedures: Individuals who wish to gain access to their records should contact: Same as above. See 43 CFR 2.63.

Contesting record procedures: Individuals who wish to contest their records should contact: Same as above. See 43 CFR 2.71.

Record source categories: Information in this system comes from the individual to whom it applies, from private physicians, and from Departmental medical staff personnel.

INTERIOR/APM-82

System name: Departmental Manager Development Program -- Interior, Office of the Secretary--82.

System location: Office of Personnel Management, U. S. Department of the Interior, 18th and C Streets, N. W., Washington, D. C. 20240.

Categories of individuals covered by the system: (1) Present participants in the DMDP Program; (2) former participants in the program; (3) nominees selected or not selected for the program.

Categories of records in the system: Nomination documents, reports of training assignments, evaluation statements list of graduates and placement assignments of current participants.

Authority for maintenance of the system: 5 U.S.C.-3301, P.L. 91-616, P.L. 92-255, P.L. 93-282, P.L. 79-658 (5 U.S.C.-7901) OMB Circular A-72.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses are (a) select candidates for the program; (b) to evaluate caliber of assignments; (c) evaluate performance of the participant; (d) determine or assist in placement efforts; (e) track career of graduates to determine success of program. Disclosures outside the Department of the Interior may be made, (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, (2) of information indicating a violation or potential violation of a statute, regulation rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual, (4) to a Federal Agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit, and, (5) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, license, contract, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Maintained manually in file folders; (2) Retrievability -- Indexed by name and/or by bureau; (3) Safeguards -- Access to and use of these records are limited to those persons whose official duties require such access and to the participant records are maintained in lockable cabinets; (4) Disposal -- In accordance with established disposal schedule.

System manager(s) and address: Chief, Division of Employee Development, Office of Personnel Management, U. S. Department of the Interior, Washington, D. C. 20240.

Notification procedure: A request for access must be presented in person or in writing and signed by the requestor with proof of identity. Individuals may inquire whether or not the system contains a record pertaining to them by contacting the systems manager cited above.

Record access procedures: Individuals who wish to gain access should contact the systems manager cited above.

Contesting record procedures: Individuals who wish to contest their records should contact the systems manager cited above.

Record source categories: Information in this system of records either comes from the individual to whom it applies, is derived from information supplied by the individual, or comes from agency officials.

INTERIOR/ASF-85

System name: Payroll, Attendance and Leave -- Interior, Office of the Secretary--85.

System location: (1) Office of Secretarial Operations - Fiscal, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240. (2) Input documents supplied by all offices serviced by the Office of Secretarial Operations -- Fiscal. (See Appendix for Addresses).

Categories of individuals covered by the system: Employees of the Office of the Secretary, the other Departmental Offices, the Defense Electric Power Administration, Delaware River Basin Commission, Susquehanna River Basin Commission, the American Revolution Bicentennial Administration, and Commission of Fine Arts.

Categories of records in the system: Records of accountability for Government-owned real or personal property loaned to individuals.

Authority for maintenance of the system: 40 U.S.C. 483(6).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is to identify individuals responsible for government-owned real or personal property by agreement. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, (2) of information indicating a violation or potential violation of a statute,

V4269 APR 11 77 UMI

regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: letter files. (2) Retrievability -- (a) Indexed by individual name and cross-referenced by tribal name, contract or use permit number; (b) retrieved by manual search. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal -- destroy one year after property is returned.

System manager(s) and address: Director, Office of Administration, Bureau of Indian Affairs, Department of the Interior, 1951 Constitution Avenue, N.W., Washington, D.C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager or, with respect to records maintained in the office for which he is responsible, an Area Director or Agency Superintendent (see Appendix for addresses).

Record access procedures: To see your records, write the officials listed in the Notification procedure. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual on whom the record is maintained, Bureau of Indian Affairs employees, supervisors.

INTERIOR/BIA- 2

System name: Safety Management Information -- Interior, BIA--2.

System location: (1) All Area, Agency and Field Offices of the BIA. (See appendix for addresses). (2) Director, Office of Administration, Bureau of Indian Affairs, Department of the Interior, 1951 Constitution Avenue, N.W., Washington, D.C. 20245.

Categories of individuals covered by the system: (1) Employee operators and incidental operators of government-owned vehicles and equipment. (2) Federal employees who have had an accident or incident. (3) Injured employees who submit claims for medical attention or loss of earning capability due to on-the-job injury. (4) Individuals filing tort claims against the U.S. Government.

Categories of records in the system: (1) Documents supporting the issuance of SF-46 Motor Vehicle Identification Cards to employees, (2) reports of accident/incident by agency, area, name of person involved and social security number, (3) employee claims case files pertaining to claims submitted to the Office of Workmen's Compensation, and (4) case files with supporting documents pertaining to tort claims filed by an individual against the U. S. Government.

Authority for maintenance of the system: 5 U.S.C. 7902, 28 U.S.C. 2671-2680, 31 U.S.C. 240-243.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to provide complete record-keeping on qualified motor vehicle operators in BIA, employee accidents or incidents, Federal employees compensation claims and adjudication of tort claims. Disclosures outside the Department of the Interior may be made (1) to the U. S Department of Justice when related to litigation or anticipated litigation, (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual, (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit, (5) to Federal, State, or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: letter files. (2) Retrievability -- (a) Indexed alphabetically by name of employee. (b) Retrieved by manual search. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal -- Records permanently retained.

System manager(s) and address: Director, Office of Administration, Bureau of Indian Affairs, Department of the Interior, 1951 Constitution Avenue N.W., Washington, D.C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager or with respect to records maintained in the office for which he is responsible, the Agency or School Superintendent, the Area or Field Office Director (see Appendix for addresses).

Record access procedures: To see your records, write the officials listed in the Notification procedure. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Claimants. Individuals on whom the record is maintained.

INTERIOR/BIA- 3

System name: Individual Indian Monies -- Interior, BIA--3.

System location: (1) All Area and Agency Offices of the BIA or contractors processing IIM accounts for them (See appendix for addresses). (2) Division of Accounting Management, Bureau of Indian Affairs, P.O. Box 2088, Albuquerque, NM 87103.

Categories of individuals covered by the system: Individual Indians who have money accounts.

Categories of records in the system: General ledgers showing deposits and withdrawals from Indians' accounts and money folders with supporting documentation.

Authority for maintenance of the system: 25 U.S.C. 151.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are to control individual Indian's money accounts and to disclose to them the status of those accounts. (b) Provides management with an automated information system for program planning, reporting and management utilization. Disclosures outside the Department of the Interior may be made (1) granting of access or transfer to another Federal agency, a State or local government, Indian tribal group or to any individual or establishment that, under contract to the BIA or as the result of some form of legal transfer of the program to them, will have jurisdiction for the IIM program now under the jurisdiction of the BIA, (2) to the U. S. Department of Justice when related to litigation or anticipated litigation, (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual, (5) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: maintained in letter files, cardex, and binders for non-automated areas; Computer: maintained in computer translatable form on magnetic tape for automated areas. (2) Retrievability -- (a) Indexed by name of identifying number. (b) Retrieved by manual search and through computer batch processes. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal -- Closed files are transferred to the appropriate GSA Federal Records Center five years after probate and other actions are completed. Prior information on magnetic tape erased as updated information is added to the system.

System manager(s) and address: Director, Office of Administration, Bureau of Indian Affairs, 1951 Constitution Avenue, N. W., Washington, D. C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager or, with respect to records maintained in the office for which he is responsible, an Area Director or Agency Superintendent (see Appendix for addresses).

Record access procedures: To see your records, write the officials listed in the Notification procedure. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual on whom record is maintained, depositors in the accounts and claimants against the accounts.

INTERIOR/BIA- 4

System name: Indian Land Records -- Interior, BIA--4.

System location: (1) Land Records Improvement Program Liaison Office, Bureau of Indian Affairs, 500 Gold Ave., S.W., Albuquerque, NM 87103. (2) Title plants at the following five Area Offices of the BIA: Portland, Billings, Anadarko, Aberdeen and Albuquerque. (See Appendix for addresses.) (3) Central Area, Agency and Field Offices of the BIA. (See Appendix for addresses.)

Categories of individuals covered by the system: Individual Indians and Indian tribal groups that are owners of land held in trust by the government.

Categories of records in the system: Land description, current ownership, probate and title history of Indian trust lands.

Authority for maintenance of the system: 25 U.S.C. 392.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to identify individual Indians' and Indian Tribal Groups' interest in lands held in trust, (b) land acquisition and disposal and tenure and management purposes, (c) adjudication of rights to the land or resources (d) administration of leases, sales, rentals, transfers, (e) land statistics for BIA personnel information uses, and (f) to answer questions regarding land rights. Disclosures outside the Department of the Interior may be made (1) to transfer or disclose to another Federal agency, a State or local government, or to any individual or establishment that has been appointed to act as trustee for Indian lands, (2) to the Department of Justice when related to litigation or anticipated litigation, (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (4) from the record of an individual or tribe in response to an inquiry from a Congressional office made at the request of that individual or authorized tribal official, (5) to title insurance and abstracting companies and attorneys for the purposes of determining ownership of and encumbrance against title.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: basic legal documents in letter files at the five title plants and input documents and printed copies in letter files at the Albuquerque Office, the five title plants, and the Area, Agency and Field Offices. Computer: mag-tape and disk. (2) Retrievability -- (a) Indexed by name of identification number of individual. Historical Index Computer files are in order by land location. Current owners are in order by land location and then by owner identification number. (b) Retrieved by manual search, use of computer printouts and batch inquiries of the computer. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal -- Records permanently retained. Records permanently retained for historical index. Prior information on mag-tape and disk is erased as new data is added for the current owner files.

System manager(s) and address: Director, Office of Trust Responsibilities, Bureau of Indian Affairs, 18th and C Streets N.W., Washington, D.C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager or, with respect to records maintained in the office for which he is responsible, an Area or Field Office Director, or an Agency Superintendent (see Appendix for addresses).

Record access procedures: To see your records, write the officials listed in the Notification procedure. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Legal records such as titles, deeds, probates and birth notices.

INTERIOR/BIA- 5

System name: Indian Land Leases -- Interior, BIA--5.

System location: (1) Area, Agency and Field Offices of the BIA. (See Appendix for addresses.) (2) Division of Automatic Data Processing Services, Bureau of Indian Affairs, 500 Gold AVE., S.W., Albuquerque, NM 87103. (3) Contractors, including Indian tribal groups and other federal agencies. (See Appendix for addresses.)

Categories of individuals covered by the system: Individual Indian and Indian tribal groups that are owners of real property held in trust by the government, and individuals or groups that are potential or actual lessees of that property.

Categories of records in the system: Land description, heirship and current ownership of Indian trust lands and real property; identification of owners and lessees; water, surface and subsurface rights on that land; conservation, irrigation and land use projects; and information on all types of leases, including grazing, farming, minerals and mining, timber, business, etc.

Authority for maintenance of the system: 25 U.S.C. 415.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to control leases on Indian trust lands and real property, (b) for the collection and distribution of lease income (c) protection of water, surface and subsurface rights on Indian trust lands, and (d) planning and implementing conservation, irrigation and land use projects on Indian lands. Disclosures outside the Department of the Interior may be made, (1) to another Federal agency, a State or local government, Indian tribal group or contractor having jurisdiction of programs ordinarily the responsibility of the BIA, (2) to the Department of Justice when related to litigation or anticipated litigation, (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (4) to title insurance and abstracting companies and attorneys for the purposes of determining ownership of and encumbrances against title.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: letter files and maps. Computer: mag-tape. (2) Retrievability -- (a) Indexed by name of identification number of the individual. Computer file is in order by reservation and then by land lease numbers. (b) Retrieved by manual search, use of computer printouts, and batch inquiries of the computer. (3) Safeguards -- Most records are maintained in accordance with 43 CFR 2.51 for both manual and computer records. A program will be initiated to bring the safeguards for the remaining systems of records up to the same standards. (4) Retention and Disposal - Records held two years after lease expiration and then transferred to the Federal Records Center. Records permanently retained on mag-tape. Prior information on mag-tape is erased as new data or changes are added.

System manager(s) and address: Director, Office of Trust Responsibilities, Bureau of Indian Affairs, 18th and C Streets N.W., Washington, D.C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager or, with respect to records maintained in the office for which he is responsible, an Area or Field Office Director, or an Agency Superintendent (see Appendix for addresses).

Record access procedures: To see your records, write the officials listed in the Notification procedure. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual on whom record is maintained. Titles, deeds, birth and death notices, all types of land and water rights and usages documents.

INTERIOR/BIA- 6

System name: Navajo-Hopi Joint Use Project -- Interior, BIA--6.

System location: (1) Joint Use Administrative Office, 125 E. Birch St., Arizona Bank Bldg., Flagstaff, Arizona 86001. (2) Division of Automatic Data Processing Services, Bureau of Indian Affairs, 500 Gold Ave., S.W., Albuquerque, NM 87103.

Categories of individuals covered by the system: Navajo and Hopi Indians who are residents of the Joint Use Area in Arizona.

V42I69 APR 11 77 UMI

Categories of records in the system: Census enumerations, and inventories and ownerships of property improvements (includes livestock inventories).

Authority for maintenance of the system: 25 U.S.C. 631, et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to identify improvements, locations, ownership and residents of the Joint Use Administration. Disclosures outside the Department of the Interior may be made (1) for Tribal Government use in adjudicating land disputes, (2) to the Relocation Commission to identify resident and location and ownership of improvements, (3) U. S. Federal Courts concerned with the project, (4) to the U. S. Department of Justice when related to litigation or anticipated litigation, (5) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, and (6) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: letter files and computer printouts at the JUA Office. Computer: disk files with mag-tape backup. (2) Retrievability -- (a) Indexed by name of individual. (b) Retrieved by manual search. Computer listings are by name in alphabetical order, also location and individual assigned number. Records are accessed from disk by location and individual's assigned number or a real estate improvement number in a batch process mode. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal -- Disk files are perpetual. Prior information on disk is erased as new data is added.

System manager(s) and address: Project Officer, Joint Use Administrative Office, 125 E. Birch St., Arizona Bank Building, Flagstaff, Arizona 86001.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager.

Record access procedures: To see your records, write the System Manager or the Offices cited under 'Systems Location'. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Navajo and Hopi residents of the Joint Use Area and enumeration surveyors who are interviewing claimants and physically examining property improvements.

INTERIOR/BIA- 7

System name: Tribal Rolls -- Interior, BIA--7.

System location: (1) All Area, Agency and Field Offices of the BIA. (See Appendix for addresses.) (2) Director, Office of Indian Services, Bureau of Indian Affairs, 18th and C Streets, N. W., Washington, D. C. 20245. (3) Division of Automatic Data Processing Services, Bureau of Indian Affairs, 500 Gold Ave., S.W., Albuquerque, NM 87103.

Categories of individuals covered by the system: Individual Indians who are applying for or have been assigned interests of any kind in Indian tribes, bands, pueblos or corporations.

Categories of records in the system: Documents supporting Individual Indians claims to interests in Indian tribal groups, including birth, marriage and death notices; records of actions taken (approvals, rejections, appeals); rolls of approved individuals; records of actions taken (judgement distributions, per capita payments, shares of stocks); ownership and census data taken using the rolls as a base.

Authority for maintenance of the system: 25 U.S.C. 163.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to determine eligibility of individuals who participate in or enjoy benefits from an interest in a tribal group, and (b) provide lists of approved enrollees used to distribute funds or income, or as a base to gather census or ownership data for planning purposes. Disclosures outside the Department of the Interior may be made (1) to the Tribe, Band, Pueblo or corporation of which the individual to whom a record pertains is a member or a stockholder, (2) to the U. S. Department of Justice when related to litigation or anticipated litigation, (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual, (5) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit, and (6) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: letter files and computer printouts. Computer: Disk files with mag-tape backup protection. (2) Retrievability - (a) Indexed by name, identification numbers, family numbers, etc. (b) Retrieved by manual search or computer inquiry. (3) Safeguards - In accordance with 43 CFR 2.51. (4) Retention and Disposal - Records permanently retained. Disk files are perpetual. Prior information on disk is erased as new data is added or changed.

System manager(s) and address: Director, Office of Indian Services, Bureau of Indian Affairs, 18th and C Streets N.W., Washington, D.C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager or, with respect to records maintained in the office for which he is responsible, an Agency Superintendent or an Area or Field Office Director (see Appendix for addresses).

Record access procedures: To see your records, write the officials listed in the Notification procedure. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual on whom record is maintained. Birth, marriage and death certificates, and family and tribal histories.

INTERIOR/BIA- 8

System name: Indian Social Services Case Files -- Interior, BIA--8.

System location: All Area, Agency and Field Offices of the BIA. (See appendix for addresses.)

Categories of individuals covered by the system: Individual Indians who apply and receive social services and direct assistance from the Bureau of Indian Affairs on Indian reservations.

Categories of records in the system: Case files and related card files giving history of social services and direct assistance to individual Indians.

Authority for maintenance of the system: 25 U.S.C. 13.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) provides permanent individual records on social services and direct assistance to individual Indians. (b) Provides management with an automated information system for program planning, reporting and management utilization. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal -- Records permanently retained.

System manager(s) and address: Director, Office of Indian Services, Bureau of Indian Affairs, 18th and C Sts., N. W., Washington, D. C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager or, with respect to records maintained in the office for which he is responsible, the Agency Superintendent or the Area or Field Office Director (see Appendix for addresses).

Record access procedures: To see your records, write the officials listed in the Notification procedure. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual on whom record is maintained.

INTERIOR/BIA-11

System name: Indian Business Development Program (Grants) -- Interior, BIA--11.

System location: (1) Office of Tribal Resources Development, Bureau of Indian Affairs, 18th and C Streets, N. W., Washington, D. C. 20245. (2) Division of ADP Services, Bureau of Indian Affairs, 500 Gold Ave., S.W., Albuquerque, NM 87103. (3) Area and Agency Offices. (See Appendix for addresses.)

Categories of individuals covered by the system: Indian Business Grant applicants.

Categories of records in the system: Grant application and supporting documents including financial transactions recording obligations and disbursements of grant funds.

Authority for maintenance of the system: 88 Stat. 77 (1974).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to identify individual receiving grant. Disclosures outside the Department of the Interior may be made (1) transfer or disclosure to another Federal agency, a State or local government, an Indian tribal group or a contractor that will have jurisdiction over programs now managed by the BIA, (2) to the Economic Development Administration, Farmers Home Administration and Small Business Administration in regard to participating funding packages

V 4 2 6 9 APR 11 7 7 UMI

between these agencies and BIA, (3) to the U. S. Department of Justice when related to litigation or anticipated litigation, (4) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, and (5) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: letter files and computer printouts. Computer: mag-tape/disk. (2) Retrievability -- (a) Indexed by individual's name or control number. (b) Retrieved by manual search and through batch inquiries of computer. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal -- Records permanently retained. Prior information on mag-tape is erased as new data is added.

System manager(s) and address: Director, Office of Tribal Resources Development, Bureau of Indian Affairs, 18th and C Streets N.W., Washington, D.C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the Systems Manager or, with respect to records maintained in the office for which he is responsible, an Area Director or an Agency Superintendent (see Appendix for addresses).

Record access procedures: To see your records, write the Systems Manager or the offices cited under 'Systems Location'. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual on whom record is maintained. Legal records such as titles, deeds, probates and birth notices.

INTERIOR/BIA-12

System name: Indian Trust Land Mortgages -- Interior, BIA--12.

System location: Area and Agency Offices. (See appendix for addresses.)

Categories of individuals covered by the system: Individual Indians who mortgaged trust land to customary lenders.

Categories of records in the system: Mortgage records and supporting documents.

Authority for maintenance of the system: 25 U.S.C. 483(a).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to furnish lender with information on applicant and on status of land and (b) to maintain current information on payments and balances of loan. Disclosures outside the Department of the Interior may be made (1) to disclose or transfer to another Federal agency, a State or local government, an Indian tribal group or a contractor that will have jurisdiction over programs now managed by the BIA, (2) to the Economic Development Administration, Farmers Home Administration and Small Business Administration, in regard to participating funding between those agencies and BIA, (3) to the U. S. Department of Justice when related to litigation or anticipated litigation, (4) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, and (5) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual, (6) to title insurance and abstracting companies and attorneys for the purposes of determining ownership of and encumbrances against title.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: letter files. (2) Retrievability -- (a) Indexed by individual's name. (b) Retrieved by manual search. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal -- Records are permanently retained.

System manager(s) and address: Director, Office of Tribal Resources Development, Bureau of Indian Affairs, 18th and C Streets N.W., Washington, D. C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager or, with respect to records maintained in the office for which he is responsible, an Area or Field Office Director, or an Agency Superintendent (see Appendix for addresses).

Record access procedures: To see your records, write the officials listed in the Notification procedure. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Mortgage applicants.

INTERIOR/BIA-13

System name: Indian Loan Files -- Interior, BIA--13.

System location: (1) Office of Tribal Resources Development, Bureau of Indian Affairs, 18th and C Streets, N. W., Washington, D. C. 20245. (2) Division of ADP Services, Bureau of Indian Affairs, 500 Gold Ave., S.W., Albuquerque, NM 87103. (3) Area and Agency offices. (See Appendix for addresses.)

Categories of individuals covered by the system: Applicants who applied for or received loans. Applicants who applied for or received guaranteed loans.

Categories of records in the system: Loan applications and supporting documents, record of payment cards, guaranty agreements, eligibility certificates, default documents, and/or promissory notes.

Authority for maintenance of the system: 25 U.S.C. 482, 461, et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to maintain a record of payments and unpaid balances and (b) to provide information on payments made for paying interest subsidy, credits obtained, service loans, and premiums paid by lenders. Disclosures outside the Department of the Interior may be made (1) disclosure or transfer to another Federal agency, a State or local government, an Indian tribal group or a contractor that will have jurisdiction over programs now maintained by the BIA, (2) to the Economic Development Administration, Farmers Home Administration and Small Business Administration, in regard to participating funding between those agencies and BIA, (3) to the U. S. Department of Justice when related to litigation or anticipated litigation, (4) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, and (5) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: letter files, applications and computer printouts. Computer: mag-tape/disk. (2) Retrievability -- (a) Indexed by individual's name, control number or tribal name. (b) Retrieved by manual search and through batch inquiries. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal -- Destroy seven years after loan is paid, cancelled, or otherwise disposed of. Prior information on mag-tape is erased as new data is added.

System manager(s) and address: Director, Office of Tribal Resources Development, Bureau of Indian Affairs, 18th and C Street N.W., Washington , D.C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the Systems Manager or, with respect to records maintained in the office for which he is responsible, an Area Director or an Agency Superintendent.

Record access procedures: To see your records, write the Systems Manager or the offices cited under 'Systems Location'. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual on whom record is maintained.

INTERIOR/BIA-14

System name: Travel Accounting System -- Interior, BIA--14.

System location: (1) Division of Accounting Management, Bureau of Indian Affairs, 500 Gold Ave., S.W., Albuquerque, NM 87103. (2) All Area, Agency, and Field Offices (including the Washington oOffice) of the BIA. (See Appendix for addresses.)

Categories of individuals covered by the system: Individuals who are traveling at government expense.

Categories of records in the system: Travel authorization, advances and vouchers.

Authority for maintenance of the system: 5 U.S.C. 5701, et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to identify individuals who are authorized to travel and be reimbursed by the government. Disclosures outside the Department of the Interior may be made (1) disclosure or transfer to another Federal agency, a State or local government, an Indian tribal group or a contractor that will have jurisdiction over programs now controlled by the BIA and that require personal travel at program expense, (2) to the U. S. Department of Justice when related to litigation or anticipated litigation, and (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage-- Manual: Input documents and printed copies are maintained at the Albuquerque Office and at Area, Agency and Field Offices for individuals under their jurisdiction; Computer: maintained in computer translatable form on mag-tape. (2) Retrievability -- (a) Indexed by name or identification number of traveler. (b) Retrieved by manual search or batch computer processing. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal -- Records are retained in current status pending final action which is accomplished through batched computer processing. Historical records retained one year then transferred to Federal Records Center.

System manager(s) and address: Director, Office of Administration, Bureau of Indian Affairs, 1951 Constitution Avenue, N.W., Washington, D.C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager or, with respect to records maintained in the office for which he is responsible, the Agency or School Superintendent, or the Area or Field Office Director.

Record access procedures: To see your records, write the officials listed in the Notification procedure. Describe as specifically as possible the records sought. If copies are desired. indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual on whom record is maintained.

INTERIOR/BIA-15

System name: Trip Reports -- Interior, BIA--15.

System location: Central Office, Area, Agency and Field Office of the BIA. (See Appendix for addresses.)

Categories of individuals covered by the system: Federal employees who are assigned to travel as part of their job.

Categories of records in the system: Copies of reports to supervisors and management officials documenting employee travel, findings and recommendations.

Authority for maintenance of the system: 5 U.S.C. 5701, 25 U.S.C

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to provide local files which identify staff officer trip reports by name of individual for each BIA program office. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, and (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual- letter files (2) Retrievability -- (a) Indexed alphabetically by name of traveler. (b) Retrieved by manual search. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal -- As administrative copies, records are destroyed after four years.

System manager(s) and address: Commissioner, Bureau of Indian Affairs, U.S. Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

Notification procedure: To determine whether the records are maintained on you in this system, write to the Agency Superintendent, the Area or Field Office director with respect to records maintained in the office for which he is responsible or to the System Manager in the Washington Office.

Record access procedures: To see your records, write the officials listed in the Notification procedure. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual travelers who prepare the reports.

INTERIOR/BIA-16

System name: Travel Files -- Interior, BIA--16.

System location: Central Office, Area, Agency and Field Offices of the BIA. (See appendix for addresses.)

Categories of individuals covered by the system: Federal employees who are authorized to travel at government expense.

Categories of records in the system: Copies of correspondence, requests, travel authorizations and orders, itineraries and similar papers pertaining to an employees travel.

Authority for maintenance of the system: 5 U.S.C. 5701, et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records are (a) to provide administrative copy files on each traveler for local office use. (b) Provides management with an automated information system for program planning, reporting and management utilization. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, and (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: letter files; Computer: Maintained in computer translatable form on magnetic tape for automated areas. Retrievability -- Indexed alphabetically by name of traveler. (b) Retrieved by manual search. (3) Safeguards - In accordance with 43 CFR 2.51. (4) Retention and Disposal - As administrative copies, records are destroyed after four years.

System manager(s) and address: Director, Office of Administration, Bureau of Indian Affairs, 1951 Constitution Avenue, N.W., Washington, D.C. 20242.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager or with respect to records maintained in the office for which he is responsible, the Agency or School Superintendent, or the Area or Field Office Director (see Appendix for addresses).

Record access procedures: To see your records, write the officials listed in the Notification procedure. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual on whom record is maintained.

INTERIOR/BIA-17

System name: Payroll -- Interior, BIA--17.

V4269 APR 11 77 UMI

System location: (1) Division of Employee Data and Compensation, Bureau of Indian Affairs, 500 Gold Ave., S.W., Albuquerque, NM 87103. (2) Input documents supplied by all Area, Agency and Field Offices. (See Appendix for addresses.)

Categories of individuals covered by the system: All employees of the BIA, including all types of employment.

Categories of records in the system: Time and attendance data from each pay station are matched with personnel data at the Albuquerque Data Center and payrolls are prepared for distribution by Treasury (RDO), and numerous reports and call-ups are printed out.

Authority for maintenance of the system: 5 U.S.C. 5101, 31 U.S.C.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to prepare payrolls for distribution by the Regional Disbursing Offices of Department of Treasury and (b) to report results to the Civil Service Commission. Disclosures outside the Department of the Interior may be made (1) granting of access or transfer to a Federal, State or local agency, or to an Indian tribal group or any establishment or individual that assumes jurisdiction, whether by contract to the BIA or by legal transfer, of any program under the control of the BIA, (2) to the Department of the Treasury for preparation of (a) payroll checks and (b) payroll deduction and other checks to Federal, State and local government agencies, non-governmental organizations and individuals, (3) to the Internal Revenue Service and to State, Commonwealth, Territorial and local governments for tax purposes, (4) TO THE Civil Service Commission in connection with the Civil Service Retirement System, (5) disclosure to another Federal agency to which an employee has transferred, (6) to the U. S. Department of Justice when related to litigation or anticipated litigation, (7) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (8) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual, (9) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit, and (10) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: Computer printouts, microfiche, microfilm and special input and output forms are retained by user in the Employee Data and Compensation administrative offices; Computer: Master, History, and Recycle Data maintained on mag-tape/disk; a tape backup is stored in off-site vault. (2) Retrievability -- (a) Indexed by name and identifying number of the employee. Computer printouts are in order alphabetic by last name, numeric by social security number and numeric by state code. (b) Retrieved from disk and/or mag-tape, indexed by name and social security number. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal -- Computer printouts are kept one pay period then shredded, microfiche and microfilm are permanent. Disk files are permanent, outdated information is written over during updates; mag-tape files are permanent, yearly and cyclic.

System manager(s) and address: Director, Office of Administration, Bureau of Indian Affairs, 1951 Constitution Avenue, N.W., Washington, D.C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager or, with respect to records maintained in the office for which he is responsible, an Area or Field Office Director or Agency Superintendent (see Appendix for addresses).

Record access procedures: To see your records write the officials listed in the Notification procedure. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual on whom record is maintained.

INTERIOR/BIA-18

System name: Law Enforcement Services -- Interior, BIA--18.

System location: (1) All Area, Agency and Field Offices of the BIA. (See Appendix for addresses.) (2) Director, Office of Indian Services, Bureau of Indian Affairs, 18th and C Streets, N.W., Washington, D.C. 20245.

Categories of individuals covered by the system: (1) Individuals violating laws on Indian Reservations and those who appear in court for violations of 25 CFR regulations. (2) Individuals primarily interested in Indian Affairs who advocate violence as a means of obtaining their goals.

Categories of records in the system: Documentation includes statements of witnesses, statutes involved, evidence seized, photographs, final disposition reports and related correspondence.

Authority for maintenance of the system: 25 U.S.C. 1, 1a, 13; 18 U.S.C. 3055; Act of May 10, 1939, 58 Stat. 693; 53 Stat. 520.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is to identify individuals who have been arrested on Indian Reservations and who have appeared in court for violations of 25 CFR regulations. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual, (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit, and (5) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee or the issuance of a security clearance, contract, license, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained in manual form in file folders throughout Area and Agency offices. (2) Retrievability -- cross referenced by individual's name, case number and docket number. (3) Safeguards -- maintained with safeguards meeting the requirements of 43 CFR 2.51 for manual records. (4) Disposal -- transfer to GSA Federal Records Center five years after case is closed.

System manager(s) and address: Director, Office of Indian Services, Bureau of Indian Affairs, 18th and C Streets, N.W., Washington, D.C. 20245.

Systems exempted from certain provisions of the act: Under the general exemption authority provided by 5 U.S.C. 552a(j)(2), the Department of the Interior has adopted a regulation, 43 CFR 2.79(a), which exempts this system from all of the prrovisions of 5 U.S.C. 552a and the regulations in 43 CFR Part 2, Subpart D, except subsections (b), (c)(1) and (2), (e)(4)(A) through (F), (e)(6), (7), (9), (10), Aand (11) and (i) of 5 U.S.C. 552a and the portions of the regulations in 43 CFR Part 2, Subpart D implementing these subsections. The reasons for adoption of this regulation are set out at 40 FR 37317 (August 26, 1975).

INTERIOR/BIA-19

System name: Indian Association Stock Purchase Records -- Interior, BIA--19.

System location: Agency Offices (See Appendix for addresses.)

Categories of individuals covered by the system: Indian stockholders.

Categories of records in the system: Records of purchase of stock in Indian associations by individuals.

Authority for maintenance of the system: 25 U.S.C. 1, 1a, 13.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to identify individual Indians who have stocks in Indian Associations. Disclosures outside the Department of the Interior may be made (1) to another Federal agency, a State or local government, an Indian tribal group or a contractor that will have jurisdiction over programs now managed by the BIA, (2) to the Economic Development Administration, Farmers Home Administration and Small Business Administration in regard to participating funding between these agencies and the BIA, (3) to the U. S. Department of Justice when related to litigation or anticipated litigation, (4) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, and (5) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: letter files (2) Retrievability -- (a) Indexed by individual's name. (b) Retrieved by manual search. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal -- Destroy three years after disposal of stocks.

System manager(s) and address: Director, Office of Tribal Resources Development, Bureau of Indian Affairs, 18th and C Streets, N.W., Washington, D.C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager or, with respect to records maintained in the office for which he is responsible, an Area or Field Office Director, or an Agency Superintendent (see Appendix for addresses).

Record access procedures: To see your records, write the officials listed in the Notification procedure. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual on whom record is maintained.

INTERIOR/BIA-20

System name: Correspondence Files System -- Interior, BIA--20.

System location: Division of Administrative Services, Bureau of Indian Affairs, 1951 Constitution Avenue, N.W., Washington, D.C. 20242.

Categories of individuals covered by the system: Individuals who correspond with or apply to the BIA Central Office on significant business or program matters.

Categories of records in the system: Subject and case files pertaining to individual Indians and tribes on various BIA programs and subject matters.

Authority for maintenance of the system: 5 U.S.C. 301, 43 U.S.C. 1457, 44 U.S.C. 3101, Reorganization Plan 3 of 1950, 25 U.S.C. 1a, 2.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to provide information for use by Department of the Interior; BIA; Indian Tribes; Indian Claims Commission; and the Indian Claims Division, Office of Finance, GSA. Disclosures outside the Department of the Interior may be made (1) to another Federal agency, a State or local government, an Indian Tribal Group or a contractor that will have jurisdiction over programs now controlled by the BIA, (2) to the U. S. Department of Justice when related to litigation or anticipated litigation, (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, and (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: letter files. (2) Retrievability -- (a) Cross-indexed by name of person or firm name and subject. (b) Retrieved by manual search. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal - Records are permanent and are transferred to the GSA Federal Records Center after four years.

System manager(s) and address: Director, Office of Administration, Bureau of Indian Affairs, 1951 Constitution Avenue, N.W., Washington, D.C. 20242.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager.

Record access procedures: To see your records, write the System Manager. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual on whom the record is maintained.

INTERIOR/BIA-21

System name: Correspondence Control System -- Interior, BIA--21.

System location: Office of the Commissioner, Bureau of Indian Affairs, Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20245.

Categories of individuals covered by the system: U.S. Senators and Congressmen, Governors of States, Indian leaders.

Categories of records in the system: Correspondence.

Authority for maintenance of the system: 5 U.S.C. 301, 43 U.S.C. 1457, 44 U.S.C. 3101, Reorganization Plan 3 of 1950, 25 U.S.C. 1a, 2.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to provide control for prompt handling or priority correspondence by the Bureau of Indian Affairs. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, and (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained in manual form in file folders. (2) Retrievability -- indexed alphabetically by name of congressman or letter writer. (3) Safeguards -- maintained with safeguards meeting the requirements of 43 CFR 2.51 for manual records. (4) Disposal -- copies are destroyed after one year.

System manager(s) and address: Commissioner of Indian Affairs, Bureau of Indian Affairs, Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager.

Record access procedures: To see your records, write the System Manager. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual from whom incoming letter was received.

INTERIOR/BIA-22

System name: Indian Student Records -- Interior, BIA--22.

System location: (1) All Area and Agency Offices and BIA schools. (See Appendix for addresses.) (2) Indian Education Resources Center, Bureau of Indian Affairs, 123 Fourth Street, S.W., Albuquerque, NM 87103. (3) Division of ADP Services, Bureau of Indian Affairs, 500 Gold Ave., S.W., Albuquerque, NM 87103. (4) Washington Computer Center, Department of the Interior, 18th and C Streets, N. W., Washington, D. C. 20242.

Categories of individuals covered by the system: Students or potential students at BIA schools (including contract schools) and applicants for or recipients of BIA scholarships or educational grants.

Categories of records in the system: Student case files, attentance and performance records, banking records and expenditures of tribal benefit funds, and applications for grants and grant agreements.

Authority for maintenance of the system: 25 U.S.C. 271, et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to provide permanent individual student records on all phases of the education of indians in BIA schools or under Government Education Grants. Disclosures outside the Department of the

V4269 APR 11 77 UMI

Interior may be made to (1) another federal agency, a State or local government, Indian Tribal Group or to any individual or establishment that will have jurisdiction whether by contract to the BIA, by assumption of Trust Responsibilities or by other means for school programs now controlled by the BIA; (2) to any domestic recognized school, whether public, private, parochial or other, of those portions of students' records specified by the requesting school as being necessary for the acceptance, placement or satisfactory performance of the student at the requesting school, (3) to any individual or establishment of those portions of students' records specified by the requester as necessary for a decision concerning the hiring or retention of the student as an employee of the requester, (4) to a Federal, State or local agency maintaining civil, criminal or other relevant enforcement information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit by the requesting agency, (5) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit, (6) to persons having official involvement in conjunction with a student's application for/or grant of financial aid, (7) to parents of a dependent student as defined in section 152 of the Internal Revenue Code of 1954, as amended, (8) to accreditation agencies in order to carry out their accrediting functions, (9) to the Department of Health, Education and Welfare and other governmental education officials when necessary to carry out their functions, (10) to an educational testing center or similar institution as part of validation research authorized by the school involved, (11) to the U. S. Department of Justice when related to litigation or anticipated litigation, (12) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, and (13) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: student case letter files at the schools; Computer: student identification data on mag-tape/disk. (2) Retrievability -- (a) Indexed by name of student and filed by student identification number. (b) Retrieved by manual search and through batch inquiries of computer. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal -- Records permanently retained.

System manager(s) and address: Director, Office of Indian Education Programs, Bureau of Indian Affairs, 18th and C Streets, N.W., Washington, D.C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager or, with respect to records maintained in the office for which he is responsible, an Area Director, an Agency or School Superintendent or a School Principal. (See Appendix for addresses.)

Record access procedures: To see your records, write the System Manager or the offices cited under 'Records Location'. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual on whom record is maintained, his parents, teachers, counselors, school principals, doctors, etc.

INTERIOR/BIA-23

System name: Employment Assistance Case Files -- Interior, BIA--23.

System location: Central Office, Area, Agency and Field Employment Assistance Offices of the BIA. (See Appendix for addresses.)

Categories of individuals covered by the system: Individual Indians who are given assistance in connection with direct employment service or adult vocational training.

Categories of records in the system: Application for assistance, departure and arrival schedules, records documenting financial assistance, training plans, contact sheets recording counseling and guidance service, employment referral and placement records, and reports on progress. Case history of employment assistance for individual Indians.

Authority for maintenance of the system: 25 U.S.C. 13.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to identify individual Indians who are given direct employment or vocational training, and (b) to provide permanent records on Employment Assistance to individual Indians. (c) Provides management with an automated information system for program planning, reporting and management utilization. Disclosures outside the Department of the Interior may be made (1) to another Federal agency, a State or local government, Indian Tribal Group or to any individual or establishment that will have jurisdiction whether by contract to the BIA, by assumption of Trust Responsibilities or by other means, for Employment Assistance Programs now controlled by the BIA, (2) to the U. S. Department of Justice when related to litigation or anticipated litigation, (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual, and (5) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Manual: letter files. Computer: Maintained in computer translatable form on magnetic tape for automated areas. (2) Retrievability -- (a) Indexed alphabetically by name of applicant and/or recipient. (b) Retrieved by manual search. (3) Safeguards -- In accordance with 43 CFR 2.51. (4) Retention and Disposal -- Transfer inactive files to GSA Federal Records Center five years after case is closed.

System manager(s) and address: Director, Office of Tribal Resources Development, Bureau of Indian Affairs, 18th and C Streets, N.W., Washington, D.C. 20245.

Notification procedure: To determine whether the records are maintained on you in this system, write to the System Manager or, with respect to records maintained in the office for which he is responsible, an Agency Superintendent or an Area or Field Office Director (see Appendix for addresses).

Record access procedures: To see your records, write the officials listed in the Notification procedure. Describe as specifically as possible the records sought. If copies are desired, indicate the maximum you are willing to pay.

Contesting record procedures: To request corrections or the removal of material from your files, write the System Manager.

Record source categories: Individual on whom record is maintained, schools, law enforcement agencies, employers, doctors, other Bureau of Indian Affairs activities having dealings with the applicant, other agencies with whom applicant has dealt.

INTERIOR/BIA-24

System name: Timber Cutting and Fire Trespass Claims Case Files -- Interior, BIA--24.

System location: Central Office, Area, Agency and Field Offices of the BIA. (See Appendix for addresses.)

Categories of individuals covered by the system: Indian landowners who have filed trespass claims for fire or cutting damage to Indian forest lands under Bureau of Indian Affairs supervision.

Categories of records in the system: Investigation and Claims Case Files on trespass actions involving fire or cutting damage to Indian forest lands under Bureau of Indian Affairs supervision.

Authority for maintenance of the system: 13 U.S.C. 1, 1A, 13; Act of May 10, 1939; 58 Stat. 3693; 43 Stat. 520.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to identify unauthorized timber cutting claims filed against trespassers and/or converters, (b) for property damage claims filed against careless or negligent originators of wildfire which trespasses Indian property, and (c) establishing amounts and types of timber trespassed and their value. Disclosures outside the Department of the Interior may be made (1) authorized legal representative of Tribal Groups or members if necessary for litigation, (2) to the Department of Justice when related to litigation or anticipated litigation, (3) of information indicating a violation or

potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- Maintained in manual form in file folders. (2) Retrievability -- Indexed by name of landowner. (3) Safeguards -- Maintained with safeguards meeting the requirements of 43 CFR 2.51 for manual records. (4) Disposal -- Records are disposed of after claims have been settled or closed out in full.

System manager(s) and address: Director, Office of Trust Responsibilities, Bureau of Indian Affairs, 1951 Constitution Avenue, N.W., Washington, D.C. 20242.

Notification procedure: System Manager or with respect to records maintained in the office for which he is responsible, the Agency or the Area Office Director. A written and signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed the same as the notification. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and meet the requirements of 43 CFR 2.71.

Record source categories: Indian landowners.

Systems exempted from certain provisions of the act: Under the general exemption authority provided by 5 U.S.C. 43 CFR 2.79(b), which exempts this system from the prrovisions of 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I) and (f) and the portions of 43 CFR Part 2, Subpart D which implement these subsections. The reasons for adoptions of this regulation are set out at 40 FR 50432 (October 29, 1975).

INTERIOR/EAP- 1

System name: Administrative Management and Fiscal Records -- Interior, Alaska Power Administration--1.

System location: Alaska Power Administration, P.O. Box 50, Juneau, Alaska.

Categories of individuals covered by the system: Employees and some former employees of the Alaska Power Administration.

Categories of records in the system: Payroll records, including pay, leave and cost distribution records, including deductions for bonds, insurance, income taxes, allotments to financial institutions, overtime authorizations, and related documents. Travel records, including administrative approvals, travel expenses claimed and/or paid, receipts for expenditures claims, Government transportation requests, travel advance accounts and related records. Records of accountability for Government-owned property. Safety records, including claims under the Military Personnel and Civil Employees Claims Act. Records of issuance of Government identificiation cards and Government driver's licenses. Related records concerning administrative and fiscal management of the Alaska Power Administration.

Authority for maintenance of the system: 5 U.S.C. 301, 3101, 5101-5115, 5501-5596, 5701-5709, 31 U.S.C. 66a, 240-243, 40 U.S.C. 483(b), 43 U.S.C. 1467, 44 U.S.C. 3101, Executive Order No. 11807.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is for the administrative and fiscal management of the Alaska Power Administration. Disclosures outside the Department of the Interior may be made (1) to the Department of the Treasury for preparation of (a) payroll checks; (b) payroll deduction and other checks to Federal, State and local government agencies, nongovernmental organizations and individuals; and (3) checks for reimbursement of employees and others; (2) to the Internal Revenue Service and to State, Commonwealth, Territorial and local governments for tax purposes; (3) to the Civil Service COmmission to report contributions to the Civil Service Retirement System and other contributions; (4) to another Federal agency to which an employee has transferred; (5) to another Federal agency having a subject matter interest in the records; (6) to the U. S. Department of Justice when related to litigation or anticipated ligation; (7) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (8) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- manual and automated. (2) Retrievability -- may be retrieved by individual name or social security number. (3) Safeguards -- records are maintained in accordance with 43 CFR 2.51. (4) Retention and Disposal -- according to approved records disposal schedules.

System manager(s) and address: Administrator, Alaska Power Administration.

Notification procedure: Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Employees, supervisors, timekeepers.

INTERIOR/EBM- 1

System name: Payroll -- Interior, Mines--1.

System location: (1) U.S. Bureau of Mines, Division of Finance, Building 53, Denver Federal Center, Denver, Colorado 80225. (2) Input documents supplied by all facilities of U.S. Bureau of Mines (See Appendix for addresses).

Categories of individuals covered by the system: Current Mines employees and those formerly employed by Mines within the last two years.

Categories of records in the system: A variety of documents which set forth or affect an employee's annual wage rate, leave, biweekly earnings, payroll deductions, and disposition of earnings. Hard copy records consist of a folder of action-type documents for each employee. The information from these documents is recorded on computer tape for payroll purposes.

Authority for maintenance of the system: 5 U.S.C. 5101, et seq., 31 U.S.C. 66a.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to provide information and accounting records regarding employee pay and leave for the automated payroll data file; (b) to inform each Bureau office of the composition of their labor cost changes by reporting total payroll changes for each individual made to various cost accounts within the Finance system. This reporting is made every two weeks on a regular payroll cycle. Disclosures outside the Department of the Interior may be made (1) to provide states with pay data relative to claims for unemployment; (2) to the Department of the Treasury for preparation of payroll checks and payroll deductions and other checks to Federal, state and local Government agencies, non-governmental organizations and individuals; (3) to the Internal Revenue Service and to state, commonwealth, territorial and local Governments for tax purposes; (4) to the Civil Service Commission in connection with the Civil Service Retirement System; (5) to another Federal agency to which an employee has transferred; (6) to the U. S. Department of Justice when related to litigation or anticipated litigation involving the records or the subject matter of the records; (7) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, state, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (8) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (9) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; (10) to Federal, state, or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

V4269 APR 11 77 UMI

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- records are maintained in file folders, magnetic tape, and punched cards. (2) Retrievability -- file folders are maintained by name and magnetic tape and punched cards are maintained by social security number. (3) Safeguards -- file folders are maintained in metal file cabinets which are in a locked room during periods of non-work. During working hours, access is allowed only to Division of Finance personnel. Punched cards have no interpreted printing on them and are retained in cardboard boxes locked into the same room as the file folders. Magenetic tapes are maintained in the Division of Data Processing with limited ADP personnel accessibility. (4) Retention and Disposal -- actively employed personnel file folders are retained indefinitely. Inactive employees' folders (death, resignation, retirement, and separation) are destroyed after two years. Cards are destroyed after one year. Magnetic tapes are erased and reused in accordance with memorandum dated December 29, 1970 from the Chief, Division of Finance to the Chief, Division of ADP, Bureau of Mines. All other official payroll data are disposed of in accordance with General Records Schedule FPMR 101-11.4 dated August 1, 1974.

System manager(s) and address: Chief, Division of Finance, U.S. Bureau of Mines, Building 20, Denver Federal Center, Denver, Colorado 80225.

Notification procedure: Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Information in this system of records comes from the individual to whom it applies or is derived from information he supplied. Pay rates and their applicability and leave regulations are established by public law and their effect upon the individual are in accordance with such public laws and regulations. Generally, most payroll source data are echo records of official personnel actions.

INTERIOR/EBM- 2

System name: Travel Advance File -- Interior, Mines--2.

System location: U.S. Bureau of Mines, Division of Finance, Building 20, Denver Federal Center, Denver, Colorado 80225.

Categories of individuals covered by the system: All Bureau of Mines employees who have active travel advances or who have closed travel advances.

Categories of records in the system: File consists of signed forms whereon employees request travel advances for the purpose of paying travel expenses incurred in the performance of official government business. These forms also include repayments against any advances, whether by claims offset on travel vouchers or remittances by checks, money orders, etc.

Authority for maintenance of the system: 5 U.S.C. 4111(b), 5701-5709, 5721-5733, 5742(b).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to provide an accounting record of obligations due to the U. S. Government from employees authorized cash advances to defray expenses incurred in official travel. Payments to the traveler and repayments to the Government are reflected in this record; (b) to serve as a backup authority and manually reconciled file to the entries for travel expenses in the automated Finance system; (c) computer data are reported to each Bureau office as part of the detailed composition of monthly expense reports applicable to charges made to cost accounts within the Finance system. Only data pertinent to individual Bureau offices are available to that office. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation involving the records or the subject matter of the records; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; (5) to Federal, State, or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1)Storage -- records are maintained in cardboard boxes in the Division of Finance. (2) Retrievability -- files are stored alphabetically by fiscal year. (3) Safeguards -- files are maintained in a locked steel file drawer during periods of non-work and are accessible during working hours only by personnel from the Division of Finance. (4) Retention and Disposal -- disposition is in accordance with General Records Schedule, FPMR 101-11.4 dated August 1, 1974.

System manager(s) and address: Chief, Division of Finance, U.S. Bureau of Mines, Building 20, Denver Federal Center, Denver, Colorado 80225

Notification procedure: Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Information for this system originates with the traveler who specifies the need of a travel advance. The request is concurred in by signature of a responsible supervisory official. All entries on the file are as a result of actions take by the individual to liquidate his travel advance.

INTERIOR/EBM- 3

System name: Travel Vouchers and Authorizations -- Interior, Mines--3.

System location: U.S. Bureau of Mines, Division of Finance, Building 20, Denver Federal Center, Denver, Colorado 80225.

Categories of individuals covered by the system: All persons traveling for or in behalf of the Bureau of Mines on official business.

Categories of records in the system: Voucher file consists of paid travel vouchers which reimburse travelers for expenses incurred in connection with official travel. Travel authorization file consists of record copies of authorizations for travel for which no travel vouchers have been submitted for payment.

Authority for maintenance of the system: 5 U.S.C. 5701, et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) as backup entry data for obligations and disbursements in the automated Finance system of the Bureau of Mines; (b) computer data are reported to each Bureau office as part of the detailed composition of monthly expense reports applicable to charges made to cost accounts within the Finance system. Only data pertinent to individual Bureau offices are available to that office; (c) vouchers are used to determine allowability of expenses within the law authorizing payment of travel expenses. The documents are used to determine which expenses incurred by the traveler can be paid and are sometimes used to report to other Federal agencies summarizations of those types of allowable expenses. Usually, the individual's name is not used in outside reporting but the data is. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation involving the records or the subject matter of the records; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, state, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; (5) to Federal, state, or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- records are maintained in steel filing cabinet in the Division of Finance. (2) Retrievability -- vouchers are filed by voucher number in sequence of payment within the overall numbering sequence of the Finance system. Authorizations are filed alphabetically by name awaiting payment of a travel voucher. Authorization becomes part of the voucher packet at time of payment. (3) Safeguards -- files are maintained with safeguards meeting the requirements of 43 CFR 2.51 in the Division of Finance and are available only to Division of Finance personnel. (4) Retention and Disposal -- disposition is in accordance with General Schedule, FPMR 101-11.4 dated August 1, 1974.

System manager(s) and address: Chief, Division of Finance, Bureau of Mines, U.S. Department of the Interior, Building 20, Denver Federal Center, Denver, Colorado 80225.

Notification procedure: Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Information for these files is based on an authorization signed by the traveler in the form of a request. Travel vouchers are submitted by the traveler after incurring expenses for official travel and is a request for payment based on his record of official expenses.

INTERIOR/EBM- 4

System name: Property Control -- Interior, Mines--4.

System location: (1) Bureau of Mines, U.S. Department of the Interior, 2401 E Street, N.W., Washington, D.C. 20241. (2) All field facilities of the Bureau of Mines (See Appendix for addresses).

Categories of individuals covered by the system: Employees who have custody or responsibility for Bureau of Mines property.

Categories of records in the system: Contains information indicating what property, including equipment, motor vehicle operator's license, keys, motor pool vehicles, transportation request books, and parking spaces, for which the employee has custody or responsibility. A list is maintained of inventions by name as a cross reference to case numbers. In addition, all other records directly related to the property control function.

Authority for maintenance of the system: Federal Property and Administrative Services Act of 1949, as amended, 40 U.S.C. 483 (b)(1).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) identification, assignment, and control of Bureau property; (b) assistance in locating carpools; Disclosures outside of the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained in manual form in file folders or card indexes, a limited quantity on computer tape. (2) Retrievability -- indexed by employee name or control number. (3) Safeguards -- security will be provided to meet the requirements of 43 CFR 2.51 for manual records. (4) Disposal -- upon completion of the use period, vital records are transferred to the Official Personnel Folder or Federal Records Center and all other records are destroyed.

System manager(s) and address: Chief, Division of Management Services, Bureau of Mines, U.S. Department of the Interior, 2401 E Street, NW., Washington, D.C. 20241.

Notification procedure: System Manager, or with respect to records maintained at field facilities, the administrative officer of the facility. A written and signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager or, with respect to records maintained at field facilities, the administrative officer of the facility. The request must be in writing and signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Employees. Property control information required for accountability purposes.

INTERIOR/EBM- 5

System name: Personnel Identification -- Interior, Mines--5.

System location: (1) Bureau of Mines, U.S. Department of the Interior, 2401 E Street, NW, Washington, D.C. 20241. (2) All field facilities of the Bureau of Mines (See Appendix for addresses).

Categories of individuals covered by the system: All employees of the Bureau of Mines.

Categories of records in the system: Records concerning identification and location of employees.

Authority for maintenance of the system: 5 U.S.C. 301, 3101; 43 U.S.C. 1457.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to provide identification cards to employees; (b) locator information provided for use by management to contact employees in case of an emergency. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- card indexes, manually. (2) Retrievability -- indexed by employee name and identification card number. (3) Safeguards -- security will be provided to meet requirements of 43 CFR 2.51 for manual records. (4) Disposal -- after use period, records transferred to Federal Records Center or destroyed.

System manager(s) and address: Chief, Branch of Records Management and Office Services, Division of Management Services, Bureau of Mines, U.S. Department of the Interior, 2401 E Street, NW., Washington, D.C. 20241.

Notification procedure: System Manager, or with respect to records maintained at field facilities, the administrative officer of the facility. A written and signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager or, with respect to records maintained at field facilities, the administrative officer of the facility. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and must meet the requirements of 43 CFR 2.71.

Record source categories: Employees. Information necessary to prepare the identification card and locator index.

INTERIOR/EBM- 6

System name: Safety Files -- Interior, Mines--6.

V42I69 APR 11 77 UMI

System location: (1) Bureau of Mines, U.S. Department of the Interior, 2401 E Street, NW., Washington, D.C. 20241. (2) All field facilities of the Bureau of Mines (See Appendix for addresses).

Categories of individuals covered by the system: Persons who have had an accident, injury, illness, or fatality or are associated with a health hazard, radio-active materials, and radiation producing media in performance of job related duties or while a visitor.

Categories of records in the system: Contains records about accident, injury, illness, or fatality of an employee in a work related situation or a visitor. Also, records of initial, re-examination, annual, and terminal health physical of employees in potentially hazardous health and radiation situations. In addition, all other records directly related to employee health and safety.

Authority for maintenance of the system: (1) Occupational Safety and Health Act of 1970, as amended, (29 U.S.C. 668 and 5 U.S.C. 7902. (2) Executive Order 11807 (September 28, 1974). (3) Federal Employees Compensation Act, as amended, 5 U.S.C. 81.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) for managerial review of safety related work situations, and (b) for authenticating work related accident, injury, illness, or fatalities for employee compensation purposes. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintenance in manual form in card index and file folders. (2) Retrievability -- indexed by name or control number of the individual. (3) Safeguards -- security will be provided to meet the requirements of 43 CFR 2.51 for manual records. (4) Disposal -- upon completion of work project or employee separation, health records are transferred to the Official Personnel Folder. All other records are transferred to Federal Records Centers upon completion of case processing.

System manager(s) and address: Bureau Safety Manager, Division of Management Services, Bureau of Mines, U.S. Department of the Interior, 2401 E Street, NW, Washington, D.C. 20241.

Notification procedure: System Manager, or with respect to records maintained at field facilities, the safety officer of the facility. A written and signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager or, with respect to records maintained at field facilities, the safety officer of the facility. The request must be in writing and signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager and must meet the requirements of 43 CFR 2.71.

Record source categories: Individuals involved and physicians.

INTERIOR/EBM- 7

System name: Personnel Security Files -- Interior, Mines -- 7.

System location: Office of the Assistant Director--Administration, Department of the Interior, Bureau of Mines, 2401 E Street, N.W., Washington, D.C. 20241.

Categories of individuals covered by the system: Mines personnel who have been authorized access to classified information.

Categories of records in the system: Contains records concerning employees, including personal data submitted by the individual, information developed by investigatory authorities, and records of the requirement, basis, degree and date of clearance. Contains a security briefing statement signed by the employee.

Authority for maintenance of the system: Executive Order 10450, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is to identify Mines personnel who have security clearances and their degree of clearance. Disclosures outside the Department of the Interior may be made (1) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; (2) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or issuance of a security clearance, contract, license, grant or other benefit; (3) to the U. S. Department of Justice when related to litigation or anticipated litigation; (4) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- maintained in manual form in file folders. (2) Retrievability -- indexed by name. (3) Safeguards -- maintained in a safe having a three-position dial-type, manipulation proof, combination lock, in the same manner as defense classified material. (4) Retention and Disposal -- maintained until the individual has been debriefed or terminated. Destroyed by fire, shredder, disintegrator or pulverizer.

System manager(s) and address: Security Officer (Assistant Director--Administration), Bureau of Mines, 2401 E Street, N.W., Washington, D.C. 20241.

Notification procedure: A written and signed request to the System Manager stating that the requester seeks information concerning record pertaining to him.

Record access procedures: A request for access shall be addressed to the System Manager. The request must be in writing and signed by the requester.

Contesting record procedures: A petition for amendment shall be addressed to the System Manager.

Record source categories: Individual on whom the record is maintained and investigations conducted by Federal, State or local agencies or other pertinent authorities.

INTERIOR/EBM- 9

System name: Distribution Center and Film Borrower Record Cards -- Interior, Mines--9.

System location: Bureau of Mines, U.S. Department of the Interior, Division of Production and Distribution, Room 359, 4800 Forbes Avenue, Pittsburgh, Pa. 15213.

Categories of individuals covered by the system: Officials of schools and other organizations borrowing Bureau of Mines motion pictures; officials of cooperating film distribution centers.

Categories of records in the system: Information pertaining to loan of films, shipment dates, number of showings, audience size, etc., used in connection with distribution of Bureau of Mines informational motion pictures.

Authority for maintenance of the system: 30 U.S.C. 1, 3, 5-7.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are for (a) reference by Bureau of Mines film distribution personnel in determining locations of films out on loan, (b) scheduling film shipments, and returns, and (c) checking borrower's treatment of films borrowed in the past. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- paper cards kept in office files. (2) Retrievability -- indexed by name. (3) Safeguards -- stored and used in government office building protected by uniformed guards. (4) Retention and Disposal -- cards used until all spaces filled, then destroyed after 12 months.

System manager(s) and address: Chief, Division of Production and Distribution, Bureau of Mines, U.S. Department of the Interior, 4800 Forbes Avenue, Pittsburgh, Pa. 15213, (412) 621-4500.

Notification procedure: Address inquiries to the System Manager.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Borrowers' film loan requests; correspondence from film distribution centers.

INTERIOR/EBM-10

System name: Biographical Reference File -- Interior, Mines--10.

System location: Bureau of Mines, U.S. Department of the Interior, Division of Public Information, Columbia Plaza Office Building, 2401 E Street, N.W., Washington, D.C. 20241.

Categories of individuals covered by the system: Past and present officials of the Department of the Interior.

Categories of records in the system: Biographical notes, resumes, news releases, etc., published or prepared for publication.

Authority for maintenance of the system: 30 U.S.C. 1, 3, 5-7.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) as a public information file on officials of the Bureau of Mines and (b) as background material in preparing public announcements on assignments, transfers or official activities of the named official. Disclosures outside the Department of the Interior may be made (1) to the public and news media seeking biographical information about named officials.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- papers in folders, kept in office filing cabinet. (2) Retrievability -- indexed by name. (3) Safeguards -- stored and used in commercial office building leased by government and protected by uniformed guards. (4) Retention and Disposal -- kept as long as needed for convenient reference; no systematic disposal procedure.

System manager(s) and address: Chief, Division of Public Information, Bureau of Mines, U.S. Department of the Interior, Columbia Plaza Office Building, 2401 E Street, N.W., Washington, D.C. 20241, (202) 634-1005.

Notification procedure: Address inquiries to the System Manager.

Record access procedures: Address inquiries to the System Manager.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Published materials, plus information volunteered by officials covered.

INTERIOR/EBP- 1

System name: Travel Records -- Interior, BPA -- 1.

System location: Bonneville Power Administration, 1002 NE. Holladay Street, P.O. Box 3621, Portland, Oregon 97208.

Categories of individuals covered by the system: BPA employees who have traveled on official business or changed official duty stations, and other individuals authorized to travel at Government expense for BPA.

Categories of records in the system: Contains the traveler's itinerary, method of travel, travel expenses claimed and/or paid, receipts for expenditures claimed, administrative approvals, lodging certifications, authorizations for travel, Government transportation requests issued by traveler, and travel advance accounts including request cards.

Authority for maintenance of the system: 5 U.S.C. 5701-5709; Federal Property Management Regulations 101-7, Federal Travel Regulations, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) for the establishment of employee travel or change of station claims for reimbursement; (b) for the determination of available lodging rates whenever BPA employees conduct official travel; and (c) control of amounts of travel advances and repayment of those amounts provided. Disclosures outside the Department of the Interior may be made (1) to the Department of Treasury for reimbursement of travel expenses; (2) to the U. S. Department of Justice when related to litigation or anticipated litigation; (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- travel itineraries and changes of station are maintained manually on standard forms in file folders; records of travel advances are maintained manually on standard card files; record of lodging locations and rates are on punchcard, magnetic tape, and computer printout. (2) Retrievability -- indexed by name of traveler, except lodging location and rates which are indexed by location. (3) Safeguards -- records are maintained in accordance with 43 CFR 2.51. (4) Disposal -- maintained at BPA headquarters for 4 years and at the records center for 3 years before being destroyed by shredding.

System manager(s) and address: Chief, Branch of Finance and Accounts, Bonneville Power Administration, P.O. Box 3621, Portland, Oregon 97208.

Notification procedure: Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Individual travelers, supervisors, voucher preparation clerks.

INTERIOR/EBP- 2

System name: Payroll Files -- Interior, BPA -- 2.

System location: Bonneville Power Administration, 1002 NE. Holladay Street, P.O. Box 3621, Portland, Oregon 97208.

Categories of individuals covered by the system: BPA annual and hourly employees.

Categories of records in the system: Pay, allowances, retirement, and leave records.

Authority for maintenance of the system: 5 U.S.C. 5101, et seq.; GAO Manual, 6 GAO 1, Authority and Responsibilities.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records are (a) to prepare schedule of net pay and record gross pay, leave, retirement, and payroll deductions; (b) to maintain payroll records for GAO and other audits; (c) to provide input for BPA cost accounting for budgeting systems; (d) to provide information for union negotiation processes. disclosures outside the Department of the Interior may be made (1) to transfer earnings and withholding data to State employment agencies as requested for unemployment claims; (2) to transfer earnings for withholding, data to Federal and State income tax authorities; (3) to transfer leave and retirement records to other Federal agencies when employees transfer; (4) to transfer retirement records to the Civil Service Commission for employees retiring, terminating, or transferring outside the Department; (5) to GAO when BPA requests Comptroller General decisions; (6) to the Department of the Treasury for issuance of checks and distribution of pay according to employee authorizations for savings and allotments and other authorized purposes; (7) to IRS for tax levies; (8) to Office of Federal Employee Compensation for employees injured on duty; (9) to State welfare agencies on written request regarding qualifications for food stamps; (10) to financial organizations for net pay and payroll savings for employees making deposits; (11) to unions of listings of union dues deductions to unions; (12) to the Department of the Treasury for issuance of checks to satisfy court orders authorizing garnishment under provisions of P.L. 93-647; (13) to the U. S. Department of Justice when related to litigation or anticipated litigation; (14) of transfer in the event it is indicated a violation or potential violation of a statute, regulation, rule, order or license, whether civil, criminal, or regulatory in nature, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (15) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

V4269 APR 11 77 UMI

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- the master file information for processing pay, the payroll register, leave, and payroll history are stored on microfiche and computer printouts. In addition, standard forms and other authorized forms are maintained which cover personnel actions, income tax withholdings, health benefit deductions, insurance, bond, savings, union, and authorized deductions, retirement records, and pay history. Magnetic disk contains master information required to process each employee's pay. Magnetic tape containing denomination of bonds, amounts of net payroll checks, and payroll history is used as a device to transfer data to the Treasury Department. The bond and net check tape is destroyed after each payroll. Pay history is transferred to microfiche or hard copy via magnetic tape, and the tape containing each pay period's information is retained. (2) Retrievability -- data is filed by employee name and/or social security number. (3) Safeguards -- records are maintained in accordance with 43 CFR 2.51 (4) Retention and Disposal -- the various payroll records are retained in accordance with regulations which vary according to document.

System manager(s) and address: Chief, Branch of Finance and Accounts, Bonneville Power Administration, P.O. Box 3621, Portland, Oregon 97208.

Notification procedure: Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him and supplying social security number is required. Se 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester and supply his social security number. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Individual employee and Personnel Office.

INTERIOR/EBP- 3

System name: Audiometric Testing Forms -- Interior, BPA -- 3.

System location: Bonneville Power Administration, 1002 NE. Holladay Street, P.O. Box 3621, Portland, Oregon 97208.

Categories of individuals covered by the system: BPA employees who have had a hearing test by BPA's Audiometric Technician.

Categories of records in the system: Test Form.

Authority for maintenance of the system: Act of August 8, 1946, as amended, 5 U.S.C. 7901; OMB Circular A-72 of June 18, 1965.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is to advise employees that they have hearing deficiencies. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Storage -- filed in file folders. (2) Retrievability -- filed by organization, alphabetically within organization. (3) Safeguards -- records are maintained in accordance with 43 CFR 2.51. (4) Retention and Disposal -- forms destroyed 5 years after separation of employee.

System manager(s) and address: Safety Manager, Bonneville Power Administration, 1002 NE. Holladay Street, P.O. Box 3621, Portland, Oregon 97208.

Notification procedure: System Manager. A written signed request stating the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Employee and certified Audiometric Technician.

INTERIOR/EBP- 4

System name: Automotive Accident Files -- Interior, BPA -- 4.

System location: Bonneville Power Administration, 1002 NE. Holladay Street, P.O. Box 3621, Portland, Oregon 97208.

Categories of individuals covered by the system: Drivers involved in automotive accidents, employees and private drivers involved in accidents with employees.

Categories of records in the system: Records concerning automotive accidents, forms, statements, police reports, claims and supporting information, and pictures.

Authority for maintenance of the system: Federal Tort Claims Act, 28 U.S.C. 2671-2680; Military Personnel and Civilian Employees Claims Act, 31 U.S.C. 240-243.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to determine the classification of the accident, i.e. preventable, nonpreventable, or reportable incident; (b) to adjudicate tort claims; (c) to determine financial liability and disciplinary action. Disclosures outside the Department of the Interior may be made (1) to General Services Administration for reimbursement; (2) to the U. S. Department of Justice when related to litigation or anticipated litigation; (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1)Storage -- maintained in manual form in file folders. (2) Retrievability -- indexed by employee name and by case number. (3) Safeguards -- records are maintained in accordance with 43 CFR 2.51. (4) Retention and Disposal -- maintained for 3 years, then transferred to GSA Federal Records Center for 3 years. Destroyed by shredding.

System manager(s) and address: Safety Manager, Bonneville Power Administration, 1002 NE. Holladay Street, P.O. Box 3621, Portland, Oregon 97208.

Notification procedure: System Manager. A written signed request stating the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

Record access procedures: A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

Contesting record procedures: A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

Record source categories: Accident investigators, individual employees, witnesses, and State or local police.

INTERIOR/EBP- 5

System name: Motor Vehicle Operator Identification Records -- Interior,BPA -- 5.
